Purpose of the Special Meeting

At the meeting, you and the other shareholders will vote on allowing management to execute a reverse stock split of 1 share for 10 shares on our issued and outstanding no par value common stock and preferred stock. This reverse split will not otherwise effect our authorized capital.

Who Can Vote

Only shareholders of record at the close of business on the record date of January 19, 2005 are entitled to receive notice of the Special Meeting and to vote the shares of ICOP common stock and ICOP preferred stock they held on that date. As of January 20, 2005, there were 16,382,000 shares of ICOP common stock issued and outstanding and 250,000 shares of preferred stock with the right to vote 2,000,000 shares on an as converted basis. Holders of ICOP common stock and preferred stock are entitled to one vote and eight votes per share, respectively, and are not allowed to cumulate votes. How to Vote

Edgar Filing: ICOP DIGITAL, INC - Form DEF 14A

You may give instructions on how your shares are to be voted by marking, signing, dating and returning the enclosed proxy card in the accompanying postage-paid envelope.

A proxy, when executed and not revoked, will be voted in accordance with its instructions. If no instructions are given, proxies will be voted FOR allowing management to perform a reverse split of from 1 share for 10 to not more than 1 share for 20.

Revoking a Proxy

You may revoke a proxy before the vote is taken at the meeting by:

submitting a new proxy with a later date,

by voting at the meeting, or

by filing a written revocation with ICOP's president.

Your attendance at the Special Meeting will not automatically revoke your proxy.

Quorum and Voting Requirements

A quorum of shareholders is necessary to hold a valid meeting. A quorum will exist if shareholders of a majority of the outstanding shares of common stock and preferred stock are present at the meeting in person or by proxy. Abstentions count as present for establishing a quorum. If a quorum is not present, the meeting may be adjourned until a quorum is obtained.

If a quorum is present, the affirmative vote of a majority of shares represented in person or by proxy will be required to allow management to execute the reverse stock split of 1 share for 10 shares on our issued and outstanding no par value common stock and preferred stock. This reverse split will not otherwise effect our authorized capital. Any shares present but not voted, including abstentions, will not be considered when counting votes cast for or against the proposal.

Payment of Proxy Solicitation Costs

The Company will pay all costs of soliciting proxies. The solicitation will be made by mail. In addition to mailing proxy solicitation material, ICOP's management also may solicit proxies in person, by telephone, or by other electronic means of communication.

PROPOSAL: APPROVE A REVERSE STOCK SPLIT OF ICOP'S COMMON AND SERIES A PREFERRED STOCK

Introduction

On January 13, 2005, our Board of Directors approved a proposal to effectuate a reverse split of our common and preferred stock, subject to the approval of our shareholders. The reverse split, if approved, will combine our outstanding common and preferred stock 1 share for 10 shares. In

Edgar Filing: ICOP DIGITAL, INC - Form DEF 14A

other words, for each 10 share you previously owned, you will thereafter own 1 share. For any shareholder whose shares once combined equal less than 1 share, we will cash out based on the market price. The rights of such shareholders who receive a cash payment as stockholders of the Company shall cease immediately, regardless of whether such shareholders refuse to accept the cash out value for their fractional shares. As a result of the proposed reverse stock split, the 16,382,000 shares of common stock and 250,000 shares of preferred stock issued and outstanding as of January 20, 2005, will be substantially reduced by a factor of ten (10).

Reasons for the Reverse Split

As previously announced in a press release, we have entered into a non binding letter of intent with Paulson Investment Company, Inc., a registered broker/dealer to engage in a secondary public offering of our securities. While this letter of intent is non binding, in order for us to prepare ourselves to engage in this offering, we have been asked to recapitalize ourselves by engaging in a 1 share for 10 share reverse split of our common and preferred stock presently issued and outstanding. As part of the public offering process, we are also required to apply for a listing of our securities on the Nasdaq Small Cap market, which will require, among other things, that our per share market price exceeds \$4.00 per share. In order to attain appropriate pricing, once again, it is imperative that we engage in a reverse stock split. In the absence of completing the proposed secondary offering or engaging in some other transaction to raise significant capital, we would not qualify for a Nasdaq Small Cap listing and we do not expect to be approved for that listing except on a "when issued" basis of our secondary offering which is a standard procedure with Nasdaq and other markets.

While these are the principal reasons for engaging in this reverse split proposal, our shareholders must be cognizant of the fact that regardless of shareholder approval of this proposal, there is no guarantee a public offering of our securities or a Nasdaq Small Cap listing will be completed or attained.

A registration statement relating to these securities has not been filed with the Securities and Exchange Commission. This Proxy Statement does not constitute an offer to sell, or a solicitation of an offer to buy, any shares of ICOP. These shares may not be sold, and offers to buy may not be accepted, before a registration statement declared effective by the Securities and Exchange Commission. The press release and this Proxy Statement are being issued pursuant to and in accordance with Rule 135 under the Securities Act of 1933, as amended.

Certain Effects of the Reverse Split

Shares of common and preferred stock issued pursuant to the reverse split will be fully paid and nonassessable. The reverse split will not alter the relative voting and other rights of holders of the common and preferred stock, and each share of common stock will continue to entitle its owner to one vote.

As a result of the reverse split, the number of shares of common stock presently outstanding will be consolidated but the number of common and preferred shares authorized for issuance will remain unchanged at 50 million and 5 million respectively. Accordingly, under certain circumstances, we will have the ability to issue more shares of common stock than is presently the case without additional shareholder approval. Any further issuances with or without shareholder approval have a dilutive effect on the equity and voting power of our existing shareholders.

Your percentage ownership in the Company will remain essentially unchanged. No fractional shares will be issued in connection with the reverse split. Instead, with the exception of persons who would receive less than one share, all fractional shares will be rounded up and one whole share will be issued. We expect that most shareholders will receive one additional share of common stock, but we do not anticipate that this will materially affect any shareholder's proportional interest. Shareholders who would otherwise receive less than one share will be paid cash based on the closing bid price on the day the proposal receives shareholder approval. This will allow them to cash out in a transaction that will have NO brokerage expenses or other costs and they will thereafter have NO ownership in the Company.

The reverse split may result in some shareholders owning "odd-lots" of less than 100 shares of common stock. Brokerage commissions and other costs of transactions in odd-lots are generally somewhat higher than the costs of transactions in round lots of even multiples of 100 shares.

The reverse split will not affect the Company's shareholders' equity as reflected on our financial statements, except to change the number of issued and outstanding shares of common stock.

Certain Federal Income Tax Consequences

Following is a summary of the material anticipated federal income tax consequences of the proposed reverse split. This summary is based upon existing law which is subject to change by legislation, administrative action and judicial decision, and is necessarily general. In addition, this summary does not address any consequence of the reverse split under any state, local or foreign tax laws. Accordingly, this summary is not intended as tax advice to any person or entity, and we advise you to consult with your own tax advisor for more detailed information relating to your individual tax circumstances.

We understand that the reverse split will be a recapitalization under applicable federal tax laws and regulations. As a result of such tax treatment, no gain or loss should be recognized by the Company or our shareholders as a result of the reverse split or the exchange of pre-reverse split shares for post-reverse split shares. A shareholder's aggregate tax basis in his or her post-reverse split shares should be the same as his or her aggregate tax basis in the pre-reverse split shares. In addition, the holding period of the post-reverse split shares received by such shareholder should include the period during which the pre-reverse split shares were held, provided that all such shares were held as capital assets in the hands of the shareholder at the time of the exchange.

Rights of Dissent

Pursuant to Colorado Revised Statutes 7-113-102, shareholders who will be cashed out as a result of this reverse split (those entitled to receive less than one share after the split) are entitled to dissent and demand payment of fair value for their shares. We will provide to any shareholder seeking to dissent all of the necessary documents required for that purpose upon reasonable request to us at (913) 338-5550. We do not expect to receive any requests by dissenters as the fair value is based on market and the payout will in no case exceed approximately \$10.00 and is based on market value.

Effective Date of the Reverse Split

If the proposal is approved by our shareholders, we anticipate that it will become effective on or about March 10, 2005. After the reverse split is effective, certificates representing shares of pre-reverse split common and/or preferred stock will be deemed to represent only the right to receive the appropriate number of shares of post-reverse split common and/or preferred stock. In the case of shareholders thereafter holding less than one share it will represent the right to receive cash.

Exchange of Certificates

Except with respect to shareholders who after giving effect to the reverse split hold less than one (1) share you are not being asked to exchange your certificates at this time. However you are entitled to do so after the reverse split takes place, if you wish, by contacting our transfer agent Computershare Investor Services, 350 Indiana Street, Suite 800, Golden, Colorado 80401, (303) 262-0600. Otherwise, certificates representing pre-reverse split shares will be exchanged for certificates reflecting post-reverse split shares at the first time they are presented to the transfer agent for transfer. Shareholders holding less than one share will be notified to return their certificates for cancellation and in return will receive a

check representing the repurchase of there fractional share.

It is a Prerequisite of Our Proposed Public Offering that this Measure be Approved.

Management recommends the approval of this proposal.

Management believes that should this proposal be approved we will have fulfilled our obligation to our proposed underwriter to recapitalize ICOP in preparation of a public offering of our securities. There can be NO guarantee that the proposed offering will take place however. We also believe shareholder approval of this proposal is necessary for us to have the flexibility that we will require to successfully complete the recapitalization of ICOP in preparation for our proposed listing on the Nasdaq Small Cap market in anticipation of the proposed public offering.

Management unanimously approved the resolution which is being submitted to the shareholders and recommends approval of this proposal.
