To Be Held June 9, 2005

SOLICITATION AND REVOCATION OF PROXIES

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors of Global Power Equipment Group Inc., a Delaware corporation (the Company), of proxies to be voted at the Annual Meeting of Stockholders of the Company to be held on June 9, 2005, or at any adjournment thereof (the Annual Meeting), for the purposes set forth in the accompanying Notice of Annual Meeting. This Proxy Statement and accompanying proxy are first being forwarded to stockholders on or about April 29, 2005.

If the accompanying proxy is properly executed and returned, the shares represented by the proxy will be voted as directed at the Annual Meeting. Stockholders whose shares are registered in their own names may instruct the proxies how to vote via the Internet or by telephone in lieu of executing and returning the accompanying proxy, and the shares represented by the proxy will be voted at the Annual Meeting. Specific instructions to be followed by any registered stockholder interested in voting via the Internet or telephone are set forth on the accompanying proxy card. Stockholders holding their shares through a broker, bank or other record holder should follow the instructions provided to them by such record holders in order to vote their shares.

If a stockholder indicates in his or her proxy a choice with respect to any matter to be acted upon, that stockholder's shares will be voted in accordance with such choice. If no choice is indicated on a proxy, the stockholder's shares will be voted FOR (a) the election of all of the nominees for directors listed below and (b) the ratification of the appointment of the independent registered public accounting firm. A stockholder giving a proxy may revoke it by giving written notice of revocation to the Secretary of the Company at any time before it is voted, by executing another valid proxy bearing a later date and delivering such proxy to the Secretary of the Company prior to or at the Annual Meeting, by voting again by Internet or telephone, or by attending the Annual Meeting and voting in person.

Solicitation of proxies may be made by mail, telephone, personal interviews or by other means by the Board of Directors or employees of the Company who will not be additionally compensated therefor, but who may be reimbursed for their out-of-pocket expenses in connection therewith.

STOCKHOLDERS ENTITLED TO VOTE

Stockholders of record at the close of business on April 20, 2005 (the Record Date), will be entitled to vote at the Annual Meeting. As of the Record Date, there were 46,918,235 shares of the Company s common stock issued and outstanding. The holders of common stock are entitled to one vote per share. There is no cumulative voting with respect to the election of directors. The presence in person or by proxy of the holders of a majority of the shares issued and outstanding at the Annual Meeting and entitled to vote will constitute a quorum

for the transaction of business. Votes withheld from nominees for directors, abstentions and broker non-votes will be counted for purposes of determining whether a quorum has been reached. With regard to the election of directors, votes may be cast in favor of or withheld from each nominee; votes that are withheld will have no effect on the vote. Abstentions, which may be specified on all proposals except the election of directors, will have the effect of a negative vote. Under applicable Delaware law, a broker non-vote will not be considered present for the purpose of calculating the vote on any matter.

Representatives of EquiServe Trust Company N.A. or its agent will tabulate votes and act as inspector of election at the Annual Meeting.

PROPOSAL ONE

ELECTION OF DIRECTORS

The Board of Directors is divided into three approximately equal classes. The terms of the three classes are staggered so that only one class is elected at the annual meeting of stockholders each year for a three-year term. The terms of the three Class I directors will expire at the Annual Meeting. One of the Company's Class I directors, Ed Hotard, is not standing for re-election and will be retiring from the Board of Directors as of the Annual Meeting.

In accordance with the recommendation of the Nominating and Corporate Governance Committee, the Board of Directors has nominated Adrian W. Doherty Jr., Michael L. Greenwood and Jerry E. Ryan for election as directors, each to hold office until the annual meeting of stockholders in 2008 and until his successor is duly elected and qualified, or until the earlier of his death, resignation or retirement. Messrs. Doherty and Ryan currently serve as directors of the Company, and Mr. Greenwood is a nominee for director for the first time. The persons named as proxies in the accompanying proxy, who have been designated by the Board of Directors, intend to vote, unless otherwise instructed in such proxy, for the election of Messrs. Doherty, Greenwood and Ryan. Should any of the nominees become unable for any reason to stand for election as a director of the Company, it is intended that the persons named in such proxy will vote for the election of such other person as the Nominating and Corporate Governance Committee may recommend and the Board of Directors may propose to replace such nominee. The Company knows of no reason why any of the nominees will be unavailable or unable to serve.

The affirmative vote of the holders of a plurality of the shares present in person or represented by proxy and entitled to vote at the Annual Meeting is required for the election of directors. Accordingly, the three nominees for election as directors at the Annual Meeting who receive the greatest number of votes cast for election by the holders of common stock shall be duly elected directors upon completion of the vote tabulation at the Annual Meeting. The Board of Directors recommends a vote **FOR** each of the following nominees for directors.

CORPORATE GOVERNANCE AND BOARD MATTERS

Overview

The Board of Directors is committed to sound and effective corporate governance practices and believes such practices are important to ensure that the Company is managed for the long-term benefit of its stockholders. The Board of Directors has engaged in a process of periodically reviewing and considering the Company's corporate governance policies and practices, including comparing such policies and practices to those suggested by various authorities on corporate governance and the practices of other public companies. The Company also regularly reviews its practices in light of proposed and adopted laws and regulations, including the Sarbanes-Oxley Act of 2002, the rules of the Securities and Exchange Commission (SEC), and the rules and listing standards of the New York Stock Exchange.

The Company maintains a corporate governance section on its website that includes key information concerning the Company's corporate governance. The Company's Corporate Governance Guidelines, Code of Business Conduct and Ethics, current charters for the Audit Committee, Compensation Committee, Nominating and Corporate Governance Committee and Executive Committee, procedures for reporting complaints regarding accounting and auditing matters or unethical behavior, and Audit Committee Pre-Approval Policy are each available in the Investor Relations Corporate Governance section of the Company's website at www.globalpower.com. The information on the Company's website is not and should not be considered part of this proxy statement and is not incorporated by reference herein. Copies of these corporate governance documents may also be obtained free of charge by writing to:

Investor Relations

Global Power Equipment Group Inc.

6120 South Yale, Suite 1480

Tulsa, Oklahoma 74136

Commencing in fiscal 2004, the Board's independent directors meet periodically in executive sessions as a part of regularly-scheduled Board meetings. The chair of the Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee each alternate as the lead director to preside over the executive sessions of independent directors. Adrian W. Doherty Jr., Chairman of the Compensation Committee, serves as lead director of these executive sessions for fiscal 2005, and Ed Hotard, retiring Chairman of the Audit Committee, served as lead director for the executive sessions in 2004.

Communications to the Board of Directors

A stockholder may send a written communication to the Board of Directors, the lead independent director, a committee of the Board or any individual member or members of the Board by addressing the communication to the Company in care of the Corporate Secretary at 6120 South Yale, Suite 1480, Tulsa, Oklahoma 74136. All communications so received will be forwarded to the members of the Board of Directors, committee members or specified Board members.

If the subject matter of a communication is a concern or complaint regarding the accuracy or integrity of the Company's accounting, auditing or financial reporting, the Company has established a safe and confidential process for reporting such concerns or complaints utilizing a third-party maintained toll-free telephone hotline or Internet website. Information regarding the submission of such concerns or complaints can be found in the Investor Relations Corporate Governance section of the Company's website at www.globalpower.com.

Director Independence

The Board of Directors has determined that a majority of its members are independent as defined by the listing standards of the New York Stock Exchange. To be considered independent, the Board had to determine that the director did not have a material relationship with the Company, either directly or as partner, officer or shareholder of an organization that has a relationship with the Company. The Board conducted an evaluation of each outside director to identify and evaluate the existence of any banking, commercial, charitable, consulting, familial or other relationship of a director, his or her immediate family members or related interests with the Company and its subsidiaries. When assessing materiality, the Board considers all relevant facts and circumstances, including, without limitation, the nature of the relationship, the aggregate amount and relative importance of any transactions between the Company and an entity with which a director is affiliated (as an executive officer, partner or substantial stockholder) and whether or not the relationship is in the ordinary course of the Company's and the other entity's businesses and does not afford the director any special benefits. The Board further ensures that none of the express categorical disqualifications under the New York Stock Exchange listing standards are applicable to any director that has any relationship with the Company.

Based on these considerations, the Board of Directors has determined that Adrian W. Doherty Jr., Michael L. Greenwood (nominee for election as a director at the Annual Meeting), Ed Hotard (term expiring at the Annual Meeting), Jerry E. Ryan and Bengt Sohlén qualify as independent directors.

Board Meetings

During fiscal 2004, the Board of Directors held 12 meetings. All of the directors attended at least 75% of the meetings of the Board of Directors and the Board committees on which they served. In addition, the Board of Directors took action two times during fiscal 2004 by unanimous written consent.

Directors are expected to attend the Annual Meeting of Stockholders, and it is the practice of the Company to introduce each director at the Annual Meeting. Each member of the Company's Board of Directors attended last year's Annual Meeting of Stockholders.

Committees of the Board of Directors

The Board of Directors has four standing committees: the Audit Committee, the Compensation Committee, the Nominating and Corporate Governance Committee and the Executive Committee.

Audit Committee. The Audit Committee is currently composed of Messrs. Hotard (Chairman), Doherty, and Sohlén. Each of these individuals qualifies as an independent director under the New York Stock Exchange listing standards. The Board of Directors has determined that all three members of the Audit Committee are financially literate as defined under the rules of the New York Stock Exchange and that Mr. Hotard is an audit committee financial expert as defined by the rules of the SEC. As noted previously, Mr. Hotard will be retiring from the Board of Directors at the Annual Meeting. Michael L. Greenwood will be appointed to replace Ed Hotard as Chairman of the Audit Committee following Mr. Greenwood's election to the Board of Directors at the Annual Meeting. The Board of Directors believes that Mr. Greenwood is financially literate as defined under the rules of the New York Stock Exchange and will qualify as an audit committee financial expert as defined by the rules of the SEC. The Audit Committee met seven times during fiscal 2004.

The Audit Committee is appointed by the Board of Directors to assist the Board with its oversight responsibilities in monitoring (i) the integrity of the financial statements of the Company, (ii) the independent auditors' qualifications and independence, (iii) the performance of the Company's internal audit function and independent auditors, and (iv) the compliance by the Company with legal and regulatory requirements.

Compensation Committee. The Compensation Committee is composed of Messrs. Doherty (Chairman) and Ryan. Each of these individuals qualifies as an independent director under the New York Stock Exchange listing standards. The Compensation Committee met three times during fiscal 2004. In addition, the Compensation Committee took action six times during fiscal 2004 by unanimous written consent.

The Compensation Committee is appointed by the Board of Directors to assist the Board in discharging its responsibilities relating to executive compensation and administration of the Company's stock option and other compensation plans. The Compensation Committee approves the salary and incentive compensation and awards to executive officers, annually evaluates the performance of the chief executive officer and periodically reviews the compensation of outside directors.

Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee is currently composed of Messrs. Ryan (Chairman), Hotard and Sohlén. Each of these individuals qualifies as an independent director under the New York Stock Exchange listing standards. The Nominating and Corporate Governance Committee met three times in fiscal 2004. In addition, the Nominating and Corporate Governance Committee took action one time during fiscal 2004 by unanimous written consent.

The Nominating and Corporate Governance Committee is appointed by the Board of Directors to assist the Board in fulfilling its oversight responsibility by: (i) identifying qualified individuals to become Board members; (ii) determining the composition of the Board and its committees; (iii) developing, leading and monitoring a process to assess Board effectiveness, including an annual review of the performance of the Board and its committees; (iv) developing and recommending to the Board corporate governance guidelines and assisting in the implementation of approved guidelines; and (v) assisting the Board and management with senior management succession planning.

Executive Committee. The Executive Committee is composed of Messrs. Edwards, Eisenstein and Kleinman. The Executive Committee is generally authorized to act for the Board of Directors, except as such authority is limited by the Board of Directors or by applicable Delaware laws. The Executive Committee did not meet in fiscal 2004, but it took action one time during fiscal 2004 by unanimous written consent.

Process for Director Nominations

The Nominating and Corporate Governance Committee assists the Board of Directors in identifying qualified candidates to serve as directors. The Nominating and Corporate Governance Committee regularly assesses the appropriate size of the Board of Directors and whether any vacancies on the Board of Directors are expected due to retirement or otherwise. In the event that vacancies are anticipated, or otherwise arise, the Nominating and Corporate Governance Committee considers various potential candidates for director. The identification of director candidates may come from various sources, such as members of the Board of Directors, officers of the Company or, if deemed appropriate, a third-party search firm. Any formal invitation to a director candidate is authorized by the Board of Directors. Mr. Greenwood is a nominee for director of the Company for the first time. He was recommended to the Nominating and Corporate Governance Committee for consideration as a nominee by the Company's executive officers.

In evaluating potential director candidates, the Nominating and Corporate Governance Committee will take into consideration such factors that it deems appropriate for the needs of the Board of Directors. These factors may include, among others:

whether the candidate meets the independence requirements of the New York Stock Exchange;

an evaluation of the judgment and skills possessed by the candidate;

the candidate's experience with businesses and other organizations of comparable size to the Company and with any publicly traded company, and the interplay of the candidate's experience with the experience of the Company's other Board members;

the extent to which the candidate would be a desirable addition to the Board and any committees of the Board based on the need for the candidate's expertise; and

whether the candidate assists in achieving a Board with a diverse background and experience.

Generally, the Nominating and Corporate Governance Committee will evaluate new potential director candidates by reviewing their biographical information and qualifications and checking the candidates' references. Those candidates determined to be of interest to the Committee will be subject to interview by the Committee, with other Board members or members of management participating in the interview process as may be deemed appropriate. Using the information obtained and input from the interview, the Nominating and Corporate Governance Committee will evaluate whether a prospective candidate is qualified to serve as a director and whether the Committee should recommend to the Board of Directors that the Board nominate the prospective candidate or elect such candidate to fill a vacancy on the Board.

Stockholder Nominations

Edgar Filing: GLOBAL POWER EQUIPMENT GROUP INC/ - Form DEF 14A

The Company's amended and restated by-laws permit stockholders to nominate a director for consideration at an annual meeting by providing advance written notice to the Company. Such written notice must be delivered to the Secretary of the Company, c/o Global Power Equipment Group Inc., 6120 S. Yale, Suite 1480, Tulsa,

Oklahoma 74136, no later than 90 days nor more than 120 days prior to the first anniversary date of the preceding year's annual meeting of stockholders. The Chairman of the annual meeting may refuse to acknowledge the nomination of any person not made in accordance with the nomination procedure.

The Nominating and Corporate Governance Committee will consider candidates for nomination as a director submitted by stockholders. The Committee does not have a separate policy that addresses the consideration of director candidates recommended by stockholders, as the Company's amended and restated by-laws permit stockholders to nominate candidates in accordance with the procedures discussed above. The Committee will consider individuals recommended for nomination as directors in accordance with the procedures described under "Process for Director Nominations" above.

Options vest and become exercisable in cumulative equal annual installments over a period of three years, commencing one year from the date of grant. All directors are reimbursed by the Company for out-of-pocket expenses incurred by them in connection with their service on the Board of Directors and any committee thereof.

AUDIT RELATED MATTERS

Audit Committee Report

The Audit Committee assists the Board of Directors in fulfilling its oversight responsibilities with respect to, among other matters, the financial reporting process and systems of internal controls. The Audit Committee acts only in an oversight capacity and it is not responsible for either the preparation of the Company's financial statements or the auditing of the financial statements. Management of the Company is responsible for preparing the Company's financial statements, and the independent registered public accounting firm, PricewaterhouseCoopers LLP, is responsible for auditing the financial statements. Members of the Audit Committee rely without independent verification on the information provided to them and on the representations made by management and the independent registered public accounting firm. The Audit Committee's role does not provide any special assurances with regard to the Company's financial statements, nor does it involve a professional evaluation of the quality of the audits performed by the independent registered public accounting firm.

In the performance of its oversight function, the Audit Committee reviewed and discussed with management and the independent registered public accounting firm the Company's audited financial statements as of and for the fiscal year ended December 31, 2004. The Audit Committee discussed with the Company's independent registered public accounting firm, who is responsible for expressing an opinion on the conformity of the Company's audited financial statements with generally accepted accounting principles, the matters required to be discussed by Statement on Auditing Standards No. 61, *Communication with Audit Committees*, as amended and supplemented.

In addition, the Audit Committee reviewed the written disclosures and the letter from the Company's independent registered public accounting firm required by Independence Standard No. 1, *Independence Discussions with Audit Committees*, as amended, by the Independence Standards Board, and discussed with the independent registered public accounting firm their independence. The Audit Committee also considered whether the independent registered public accounting firm's provision of non-audit services to the Company is compatible with such firm's independence.

The Committee also has discussed with the Company's internal auditors and independent registered public accounting firm, with and without management present, their evaluations of the Company's internal accounting controls and the overall quality of the Company's financial reporting.

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the financial statements referred to above be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2004, for filing with the Securities and Exchange Commission.

Audit Committee Pre-Approval Policy

The Audit Committee has established pre-approval policies and procedures regarding the pre-approval of all services provided by the Company's independent auditor. The Company's Audit Committee Pre-Approval Policy provides for the pre-approval of audit, audit related, tax and other services specifically described in appendices to the policy on an annual basis. Such services are pre-approved up to a specified fee limit. All other permitted

services, as well as proposed services exceeding the pre-approved fee limit, must be separately pre-approved by the Audit Committee. Requests for services that require separate approval by the Audit Committee must be submitted to the Audit Committee by both the Company's Chief Financial Officer and the independent auditor and must include a joint statement as to whether, in their view, the request is consistent with the SEC's rules on auditor independence. The policy authorizes the Audit Committee to delegate to one or more of its members pre-approval authority with respect to permitted services. The Audit Committee did not delegate any such pre-approval authority in fiscal 2004. All services performed by PricewaterhouseCoopers LLP for fiscal 2004 were pre-approved by the Audit Committee.

The Audit Committee Pre-Approval Policy is available in the Investor Relations Corporate Governance section of the Company's website at www.globalpower.com.

In determining the independence of PricewaterhouseCoopers LLP, the Audit Committee considered whether the provision of non-audit services is compatible with maintaining PricewaterhouseCoopers LLP's independence.

annual incentive bonus awards; and

long-term incentives in the form of equity-based awards.

Executive officers are also entitled to customary benefits generally available to all of the Company's employees, including group medical, dental and life insurance and participation in the Company's 401(k) plan. In establishing the compensation levels for executive compensation, the

Compensation Committee takes into

consideration the aggregate amounts and mix of all of the components of executive officer compensation, including base salary, annual incentive bonus awards, equity-based awards, the value to the executive and cost to the Company of all perquisites and other personal benefits, and the relationship between compensation and potential payout obligations under any severance and change-in-control arrangements or agreements.

Section 162(m) of the Code provides that no publicly-held company shall be permitted to deduct from its income taxes compensation exceeding \$1 million paid to its chief executive officer or any of its four other highest paid executive officers unless (a) the compensation is payable solely on account of the attainment of performance goals, (b) the performance goals are determined by a compensation committee of two or more outside directors, (c) the material terms under which the compensation is paid are disclosed to and approved by the stockholders, and (d) the compensation committee certifies that the performance goals were met. The Compensation Committee does not anticipate that the compensation realized by such officers will result in the loss of a material tax deduction. However, the Compensation Committee may in the future approve compensation or awards that do not satisfy the requirements for deductibility under Section 162(m) if such compensation is otherwise deemed in the best interest of the Company.

Base Salary. The Company has entered into employment agreements with each of the Company's named executive officers, as well as with certain other executive officers of the Company. Each employment agreement reflects the terms that the Compensation Committee believed were appropriate and/or necessary to retain the services of the particular executive officer, within the framework of the Company's compensation policies. The Compensation Committee believes the use of executive employment agreements is advisable as it permits the Company to achieve its desired goals of retaining the best possible executive talent. In addition, each employment agreement contains restrictive covenants, including non-competition, non-solicitation and confidentiality covenants, for the benefit of the Company and its subsidiaries.

The Compensation Committee is responsible for reviewing the salary and other terms of new employment agreements entered into with the Company's executive officers, as well as reviewing existing employment agreements for recommendations of any adjustments to the base salaries under the terms of such agreements. The Committee further reviews and recommends the base salaries for the Company's other officers and key employees. When reviewing base salaries, including adjustments to base salaries under existing employment agreements, the Compensation Committee considers the individual's performance, the past performance of the Company and the individual's contribution to that performance, the individual's level of responsibility and competitive pay practices. The Committee believes that there is necessarily some subjectivity in recommending base salaries for the Company's executive officers. Although the Committee does not utilize any specific objective performance criteria in recommending base salaries, it does use a variety of methods therewith, including without limitation, studying the related salary information by geographical region where the Company does business and information and surveys received from outside consultants retained by the Compensation Committee concerning salary and compensation programs of similarly situated companies.

Management Incentive Compensation Plan. To provide annual incentive bonus awards, the Company maintains a Management Incentive Compensation Plan. The Board of Directors currently adopts a new Management Incentive Compensation Plan prior to the beginning of each new fiscal year. The purpose of the Management Incentive Compensation Plan is to enhance stockholder value by providing eligible employees of the Company, including executive officers, with an added incentive to achieve specific annual Company targets. The Management Incentive Compensation Plan also assists the Company in attracting, retaining and motivating qualified personnel to allow the Company to remain competitive with its industry peers. The targets are intended to be aligned with the Company's mission so that bonus payments are made only if stockholder interests are advanced. These targets are established prior to the beginning of each fiscal year.

For fiscal year 2004, the Company had in place the 2004 Management Incentive Compensation Plan (the 2004 Incentive Plan). Under the 2004 Incentive Plan, the Company's executive officers and other employees selected by the Compensation Committee were eligible for cash bonuses based upon a comparison of actual performance results of the Company or a specified subsidiary to the predetermined annual performance targets. Each executive officer of the Company participating in the 2004 Incentive Plan was eligible to earn a cash bonus expressed as a percentage of such officer's base salary. The incentive bonus opportunities varied by each executive officer's level of responsibility. There was no mandatory minimum incentive award payable. The maximum percentage of base salary payable as an incentive bonus was (i) up to 150% for the Company's Chief Executive Officer, (ii) up to 110% for the Company's senior vice presidents, and (iii) up to 90% for the Company's vice presidents. For fiscal year 2004, the Company achieved certain of its predetermined performance goals above the minimum threshold, while one of the Company's operating subsidiaries exceeded its performance goals above the target amounts and the Company's other subsidiary failed to achieve its minimum performance goals. As a result, certain participants did not receive any incentive bonus for 2004, while others were eligible to receive an incentive bonus at various percentages of their salary. No participant earned the maximum bonus allowable under the 2004 Incentive Plan. Bonuses are payable in the first quarter of the following calendar year.

Long-Term Incentives. Equity-based compensation is a key component of the Company's executive compensation program. The Compensation Committee believes that stock options and other equity-based compensation align the interests of executives and other key employees with those of the Company's stockholders because the value of such compensation is directly related to the appreciation of the Company's stock price. These awards provide incentives for management to focus on the long-term performance of the Company. Long-term incentive awards are also designed to aid the Company in the retention of key employees by requiring such employees to remain in the Company's employ throughout the vesting period that is established by the Compensation Committee for such awards.

The Company's executive officers are entitled to participate in the Company's 2004 Stock Incentive Plan (the Stock Plan). Under the Stock Plan, the Compensation Committee may grant stock options and award shares of restricted stock and performance shares. In 2004, the Compensation Committee granted stock options under the Stock Plan to executives. All options were based on the fair market value (as defined in the Stock Plan) of the Company's common stock on the date of grant, have terms of ten years and vest in three equal annual installments commencing one year from the date of grant. In determining the awards granted to executives in 2004 under the Stock Plan, the Compensation Committee considered a number of factors. The Compensation Committee evaluated each executive's actual or expected contribution to the Company's long-term performance, the size of prior awards to the executive, the executive's job responsibilities and the desirability of providing the executive with an adequate incentive to remain with the Company. In addition, the Compensation Committee utilized data on the value of long-term incentive awards made to senior management at other peer companies.

CEO Compensation. Mr. Edwards serves as the Chief Executive Officer of the Company pursuant to an employment agreement entered into in May 2002. Under his employment agreement, Mr. Edwards' annual base salary is subject to adjustment at the discretion of the Compensation Committee, but may not be set below \$450,574. For fiscal 2004, Mr. Edwards' base salary was increased to \$475,000 from \$464,090 in fiscal 2003. This increase to Mr. Edwards' annual base salary was determined by the Compensation Committee in the manner described above. Under the terms of the 2004 Incentive Plan, Mr. Edwards' maximum bonus attainable was set at 150% of his annual base salary. Based on the Company's performance for fiscal year 2004, Mr. Edwards received a cash bonus (paid in fiscal year 2005) equal to approximately 13.4% of his base salary. In addition, Mr. Edwards was awarded stock option grants for a total of 75,000 shares of the Company's common stock in fiscal year 2004, all upon the same terms and conditions approved by the Compensation Committee for all executive officers. The number of stock options granted to Mr. Edwards was determined by the Compensation Committee in the same manner as option grants for the Company's other executive officers as described above.

Performance Graph

The following graph compares the percentage change in the cumulative total stockholder return on the Company's common stock with the cumulative total return on the Standard & Poor's SmallCap 600 Index and the Russell 2000 Index from the date of the Company's initial public offering, May 17, 2001, through December 31, 2004. Because the Company is the only publicly-traded firm engaged principally in the design, engineering and fabrication of equipment for gas turbine power plants, there is no similar industry peer group with which to compare the Company. The Company has selected for comparison purposes the Standard & Poor's SmallCap 600 Index and the Russell 2000 Index, which are separate indices of companies with comparable market capitalizations. The comparison assumes \$100 was invested at the beginning of the period in the Company's common stock (at its initial public offering price) and in each of the foregoing indices and assumes reinvestment of dividends.
