Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of

The Raytheon Savings and Investment Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the Raytheon Savings and Investment Plan (the Plan) at December 31, 2004 and December 31, 2003, and the changes in net assets available for benefits for the year ended December 31, 2004 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2004 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Raytheon Savings and Investment Plan

Notes to Financial Statements

December 31, 2004

1. Description of Plan

General

The following description of the Raytheon Savings and Investment Plan (the Plan) provides only general information. Participants should refer to the plan document for a complete description of the Plan's provisions.

The Plan is a defined contribution plan covering the majority of employees of Raytheon Company (the Company). Most employees are immediately eligible to enroll in the Plan on the first day of service, including employees from prior plans. Certain employees covered by collective bargaining contracts have a 90-day waiting period. The purpose of the Plan is to provide participants with a tax-effective means of meeting both short-term and long-term investment objectives. From January 1, 2000 until December 31, 2001, the entire Plan was an employee stock ownership plan (ESOP) that included a qualified cash or deferred arrangement under the Internal Revenue Code (the Code). Effective January 1, 2002, the portion of the Plan that is invested in Raytheon Company stock is an ESOP that includes a cash or deferred arrangement, and the remaining portion of the Plan is a profit-sharing plan that includes a cash or deferred arrangement. The ESOP is intended to be an employee stock ownership arrangement in compliance with all of the related requirements for a qualified stock bonus plan as defined in the Code. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan's investments are principally held in the Raytheon Savings and Investment Plan Trust (the Trust).

Contributions and Deferrals

Employees may contribute up to 50% of their compensation to the Plan. Employee contributions, including rollovers, are invested based on participant elections. For 2004, the annual employee pre-tax elective deferral contributions for a participant cannot exceed \$13,000. Participants can make after-tax contributions in excess of \$13,000 for the plan year but total employee (pre-tax and after-tax) contributions and employer contributions may not exceed \$41,000 for the 2004 plan year. A participant who is eligible to make elective pre-tax contributions and is age 50 or over during the plan year 2004 may make catch-up contributions of \$3,000. The catch-up contributions limit will increase at a rate of \$1,000 per year through 2006. For most employees, the Company matches 100% of the first 4% of compensation that a participant contributes to the Plan each pay period. The matching Company contribution is invested in the Raytheon Common Stock Fund and must be held in that fund until the beginning of the fifth plan year following the plan year for which the contribution was made or January 1st of the year the employee turns age 55, if earlier. The Company also makes an ESOP contribution equal to one-half of one percent of the participant's compensation up to \$205,000. The ESOP portion of the Plan provides for investment, primarily in the Raytheon Company Common Stock Fund; however, as required by the Code, the Plan permits limited diversification among other investment options, after a participant attains age 55 and completes 10 years of plan participation (including participation in the prior ESOP plans).

Edgar Filing: RAYTHEON CO/ - Form 11-K

Participants may invest their contributions in increments of 1% in any combination of investment alternatives available. The investment objectives range from investments with an emphasis on preservation of capital to equity investments with an emphasis on capital gains. The underlying investments include cash and equivalents, investment contracts, registered investment companies, common collective trusts, common stock, Raytheon Company common stock, bonds and other investments.

Table of Contents

Raytheon Savings and Investment Plan

Notes to Financial Statements

December 31, 2004

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contributions and an allocation of plan earnings. Plan earnings are allocated based on account balances by investment option. Participant accounts are charged with plan expenses allocated evenly to participants based upon the number of participants.

Participants are not permitted to make a direct exchange from the Fixed Income Fund to the Fidelity Retirement Money Market Portfolio because they are competing funds. All money has to be exchanged to a noncompeting fund for at least 90 days before being exchanged into the Fidelity Retirement Money Market Portfolio.

Vesting

With the exception of certain union groups, all employee and employer contributions including ESOP contributions and earnings thereon are fully and immediately 100% vested for each participant who performs an hour of service on or after January 1, 1999. Forfeitures of the nonvested portions of terminated participants' accounts are available to reduce contributions of the Company. At December 31, 2004 and 2003, unallocated plan forfeitures were \$5,628,284 and \$5,056,508, respectively. During 2004, the total amount of forfeitures from the Plan was \$344,657.

Distributions to Participants

A participant may withdraw all or a portion of participant pre-tax and after-tax contributions and employer contributions and related earnings upon attainment of age 59½. For reasons of financial hardship, as defined in the plan document, a participant may withdraw all or a portion of participant pre-tax contributions and related earnings subject to a reduction in the maximum participant pre-tax contribution rate for the next six months. On termination of employment, a participant will receive a lump-sum distribution unless the vested account is valued in excess of \$5,000, and the participant elects to defer distribution. A retired participant may defer the distribution until April 1st of the year following the year in which the participant reaches age 70½.

Effective August 1, 2000, participants who have investments in the Raytheon Company Common Stock Fund may elect to reinvest dividends within the Plan or receive dividends in cash. Any dividends received in cash by participants will be subject to taxes in the year of receipt. In 2004, the Company's Board of Directors declared dividends of \$0.80 per share. Of the \$38,032,826 in dividends paid to the Plan, approximately \$1,728,066 was received in cash by participants who elected the cash payment option.

Table of Contents

Raytheon Savings and Investment Plan

Notes to Financial Statements

December 31, 2004

Loans to Participants

A participant may borrow against a portion of the balance in the participant's account, subject to certain restrictions. The maximum amount of a loan is the lesser of one-half of the participant's account balance or \$50,000. The minimum loan which may be granted is \$500. The loans are secured by the balance in the participant's account and bear interest equal to the prime rate published in the Wall Street Journal on the first business day of the calendar quarter in which the loan is made. Loans must be repaid over a period of up to five years by means of payroll deductions except that if the loan is used to acquire a dwelling which, within a reasonable time, is to be used as a principal residence of the participant. In these cases, the repayment period may be extended to up to 15 years. Interest paid to the Plan on loans to participants is credited to the borrower's account in the investment fund or funds to which repayments are made. Loans are valued at principal outstanding. As of December 31, 2004, the interest rates on the outstanding loans ranged from 4.00% to 10.95%.

Administrative Expenses

Substantially all expenses of administering the Plan, such as legal and other administration fees are charged to participant accounts. To the extent not paid by the Plan, expenses are paid by the Company.

2. Summary of Significant Accounting Policies

The accompanying financial statements are prepared on the accrual basis of accounting.

Plan investments are stated at fair value except the Plan's benefit responsive investment contracts which are included in the financial statements at their contract value, defined as net employee contributions plus earnings, less participant withdrawals and administrative expenses. Investments in registered investment companies and common collective trusts are valued at the closing net asset value reported on the last business day of the year. Investments in securities (common stocks) traded on a national securities exchange are valued at the last reported sales price on the last business day of the year. Investments in fixed income securities (U.S. government, domestic bonds) are valued by a pricing service based upon market transactions at fair value as determined in good faith by the Trustee. Future contracts are valued at the last settlement price at the end of each day on the exchange upon which they are traded. Cash equivalents are short-term money market instruments and are valued at cost, which approximates fair value. Investments denominated in foreign currencies are translated into U.S. dollars using the last reported exchange rate.

Security transactions are recorded on the trade date. Payables for outstanding purchases represent trades which have occurred but have not yet settled and are recorded on the statement of net assets available for benefits.

Edgar Filing: RAYTHEON CO/ - Form 11-K

The Plan presents in the statement of changes in net assets available for plan benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned on an accrual basis.

Distributions are recorded when paid.

Table of Contents**Raytheon Savings and Investment Plan****Notes to Financial Statements****December 31, 2004**

The preparation of financial statements in conformity with generally accepted accounting principles, requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from the estimates included in the financial statements.

The Plan provides for various investment options in any combination of stocks, mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

3. Investments

The following presents investments that represent five percent or more of the Plan's net assets:

	<u>2004</u>	<u>2003</u>
Raytheon Stock Fund**	\$ 1,881,301,235	\$ 1,432,305,192
Fidelity Equity Income Fund	913,449,216	870,346,632

	\$ 799,514,560
	<hr/>

Table of Contents**Raytheon Savings and Investment Plan****Notes to Financial Statements****December 31, 2004****4. Nonparticipant-Directed Investments**

Information about the net assets and the significant components of the changes in net assets relating to the nonparticipant-directed investments is as follows:

	<u>2004</u>	<u>2003</u>
Net assets		
Raytheon Company common stock	\$ 942,907,603	\$ 748,218,900
Cash and cash equivalents	10,462,336	7,387,776
	<u>\$ 953,369,939</u>	<u>\$ 755,606,676</u>

	<u>2004</u>
Changes in net assets	
Contributions	\$ 203,553,045
Dividends	24,862,266
Net appreciation of investments	175,299,597
Distribution to participants	(51,438,374)
Administrative expenses	(274,198)
Net transfers to other investments	(154,239,073)
	<u>\$ 197,763,263</u>

5. Investment Contracts

The Plan invests in benefit-responsive synthetic guaranteed investment contracts (GICs) with financial institutions. The contracts are included in the financial statements at contract values, as reported to the Plan by the financial institutions. Contract value represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Income from GICs is reported net of administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value with limited restrictions related to the transfer of funds into a competing fund investment option. In determining that contract value approximates fair value, the Plan considers such factors as the benefit responsiveness of the investment contracts, the ability of the parties to the contracts to perform in accordance with the terms of the contracts and the likelihood of default by an issuer of an investment security.

Edgar Filing: RAYTHEON CO/ - Form 11-K

Synthetic GICs represent individual assets placed in a trust, with ownership by the Plan, that also contain a third party issued benefit-responsive wrapper contract that guarantees that participant transactions are executed at contract value. Individual assets of the synthetic GICs are valued based on the policy in Note 2. The value of the wrapper is the difference between the fair value of the underlying assets and the contract value. At December 31, 2004, the value of the wrappers was \$(55,561,393).

Table of Contents**Raytheon Savings and Investment Plan****Notes to Financial Statements****December 31, 2004**

The crediting interest rates are adjusted quarterly to reflect the experienced and anticipated yields to be earned on such investments, based on their book value. The average yield and crediting interest rates were as follows:

	<u>Average Yield</u>	<u>Crediting Interest Rate</u>
For the year ended December 31, 2004		
Chase Manhattan Bank (429666)	4.86%	5.00%
State Street Bank and Trust (99054)	4.88%	5.01%
AIG (541687)	4.86%	5.00%
UBS Warburg (3088)	4.85%	4.99%
For the year ended December 31, 2003		
Chase Manhattan Bank (429666)	5.14%	4.91%
State Street Bank and Trust (99054)	5.15%	4.92%
Westdeutsche Landesbank (WLB6173)	5.14%	4.91%
UBS Warburg (3088)	5.13%	4.90%

6. Future Contracts

A future contract is a contractual agreement to make or take delivery of a standardized quantity of a specified grade or type of commodity or financial instrument at a specified future date in accordance with terms specified by a regulated future exchange.

As described in Note 5, the synthetic GICs represent individual assets placed in a trust, with ownership by the Plan. As of December 31, 2004 and 2003, the synthetic GICs contained future contracts. The Plan uses fixed income future contracts to manage exposure to the market. Buying futures tends to increase the Plan's exposure to the underlying instrument. Selling futures tends to decrease plan's exposure to the underlying instrument held, or hedge the fair value of other fund investments. The Plan does not employ leverage in its use of futures, thus cash balances are maintained at a level at least equal to the contract value of the futures.

Future contracts are valued at the last settlement price at the end of each day on the exchange upon which they are traded. Upon entering into a future contract, the Plan is required to deposit either in cash or securities an amount equal to a certain percentage of the nominal value of the contract (initial margin). Pursuant to the future contract, the Plan agrees to receive from, or pay to, the broker an amount of cash equal to the daily fluctuation in the value of the future contract. Such receipts or payments are known as variation margin which are settled daily and are included in the realized gains (losses) on future contracts. In addition, the Plan pledges collateral, generally U.S. government bonds, for open fixed income future positions.

Edgar Filing: RAYTHEON CO/ - Form 11-K

Future contracts involve, to varying degrees, credit and market risks. The Plan enters into future contracts on exchanges where the exchange acts as the counterparty to the transaction. Thus, credit risk on such transactions is limited to the failure of the exchange. The daily settlement on the future contracts serves to greatly reduce credit risk. Losses in value may arise from changes in the value of the underlying instrument or if there is an illiquid secondary market for the contracts. In

Table of Contents**Raytheon Savings and Investment Plan****Notes to Financial Statements****December 31, 2004**

in addition, there is the risk that there may not be an exact correlation between a future contract and the underlying index or security.

A summary of the open fixed income futures as of December 31, 2004 and 2003 is presented below:

	Long Contracts				Short Contracts			
	2004 Number of Contracts	Aggregate Face Value	2003 Number of Contracts	Aggregate Face Value	2004 Number of Contracts	Aggregate Face Value	2003 Number of Contracts	Aggregate Face Value

7. Federal Income Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated July 8, 2003 that the design of the Plan meets the requirements for qualification under Code section

Table of Contents

Raytheon Savings and Investment Plan

Notes to Financial Statements

December 31, 2004

401(a), on which the tax exemption of the related trust under section 501(a) is based. The Plan has been amended and restated since receiving the determination letter. The plan administrator and the Company's benefits counsel believe that the current design and operation of the Plan are consistent with continued qualification of the Plan and exemption of the related trust.

8. Plan Termination

Although it has not expressed any intention to do so, the Company reserves the right under the Plan at any time to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, all participants become fully vested in their accounts. In the event of plan termination, after payment of all expenses and proportional adjustment of accounts to reflect such expenses, fund losses or profits, and reallocations, each participant shall be entitled to receive all amounts then in his or her account.

9. Related Party Transactions

The Plan's trustee is Fidelity Management Trust Company (the "Trustee"). Certain plan investments are shares of mutual funds managed by the Trustee and therefore, these transactions in addition to participant loans qualify as party-in-interest transactions. In addition, Mellon Trust of New England, N.A. (the "Custodian") serves as custodian for certain assets of the Plan. Certain plan investments are issued by this Custodian and therefore, these transactions qualify as party-in-interest transactions.

In accordance with the provisions of the Plan, the Trustee acts as the Plan's agent for purchases and sales of shares of Raytheon Company common stock. Purchases amounted to \$467,598,998 and sales amounted to \$433,264,124 for the year ended December 31, 2004.

10. Commitments and Contingencies

In May 2003, two purported class action lawsuits were filed on behalf of participants and beneficiaries in the Plan. The two class action complaints were brought pursuant to the Employee Retirement Income Security Act (ERISA). Both lawsuits were substantially similar and were consolidated into a single action in September 2003. In April 2004, a Second Consolidated Amended Complaint was filed on behalf of participants and beneficiaries in the Plan since October 7, 1998. The Consolidated Complaint alleges that the Company, its Pension and Investment Group and its Investment Committee breached ERISA fiduciary duties by failing to (1) prudently and loyally manage plan assets, (2) monitor the Pension and Investment Group and the Investment Committee and provide them with accurate information, (3) provide complete and accurate information to plan participants and beneficiaries, and (4) avoid conflicts of interest. In October 2004, the Company filed a motion to dismiss that is pending with the court.

The Plan has submitted a proof of claim as a member of the plaintiff class in a class action lawsuit filed in 1999 against the Company, certain Company officers and directors, and the Company's independent auditor, PricewaterhouseCoopers LLP. The complaint alleges that the Company and certain officers and directors made material misrepresentations and omissions regarding certain business transactions. The plaintiff class

Edgar Filing: RAYTHEON CO/ - Form 11-K

includes all persons who, with certain exceptions, purchased the Company's Class A or Class B common stock between October 7, 1998, and October 12, 1999. The parties have reached a tentative settlement agreement which would require the Company to pay the class members \$210 million in cash and issue 5-year warrants to purchase Raytheon common stock with a strike price of \$37.50 per share

Table of Contents

Raytheon Savings and Investment Plan

Notes to Financial Statements

December 31, 2004

with a stipulated value upon issuance of \$200 million as calculated using the methodologies and criteria set forth in The Stipulation and Settlement Agreement executed by the parties. In addition, PricewaterhouseCoopers LLP would pay the class members \$50 million in cash. The Stipulation and Settlement Agreement was approved by the court in December 2004. The settlement will not become final until the court issues an Order and Final Judgment. On November 22, 2004, the Company appointed U.S. Trust Company, N.A. ("US Trust"), as independent fiduciary responsible for representing the interests of the Plan in connection with the proposed settlement and for managing the exercise or other disposition of any warrants received by the Plan in the settlement. US Trust determined that the Plan should participate in the settlement and filed a proof of claim with the Claims Administrator. The Claims Administrator rejected the Plan's proof of claim, and US Trust has filed a response to that rejection. The amount, if any, of the Plan's recovery from any final settlement is unknown. The Company has filed an application for a prohibited transaction exemption with the United States Department of Labor with respect to the Plan's holding and exercise or other disposition of any warrants that are issued to the Plan. The application is pending.

11. Subsequent Events

Effective January 1, 2005, for most participants the Company matching contribution began to be made in cash and invested based on the investment allocation for employee contributions. In addition, effective January 1, 2005, for most participants the ESOP contribution equal to one half of one percent of participant compensation was eliminated.
