Item 2.02 Results of Operations and Financial Condition

On July 26, 2005, Flextronics International Ltd. (the Company) issued a press release announcing its results for its first fiscal quarter ended June 30, 2005. A copy of the press release is attached as Exhibit 99.1 to this Report on Form 8-K.

The press release includes non-GAAP operating results. Non-GAAP operating results are not based on any standardized methodology prescribed by U.S. generally accepted accounting principles (GAAP) and are not necessarily comparable to similar measures presented by other companies. Non-GAAP operating results should not be considered in isolation or as a substitute for operating results prepared in accordance with GAAP. The Company has provided a reconciliation of non-GAAP operating results to GAAP operating results in the schedules to the attached press release.

Management uses non-GAAP operating results as a performance measure and furnishes the information in order to provide investors with additional information to analyze the Company's operating results and facilitate period-to-period comparisons. Non-GAAP operating results exclude after-tax intangibles amortization, restructuring and other charges. In addition, because the Company has historically reported non-GAAP operating results to the investment community, the Company believes the inclusion of non-GAAP numbers provides consistency in its financial reporting.
