Portfolio and Investment Activity

During our fiscal year ended March 31, 2007, we invested \$1.45 billion, across 24 new and several existing portfolio companies. This compares to investing \$1.1 billion in 26 new and several existing portfolio companies for the previous fiscal year ended March 31, 2006. Investments prepaid during the fiscal years ended March 31, 2007 and March 31, 2006 totaled \$725 million and \$145 million, respectively. In addition, investments sold during the fiscal years ended March 31, 2007 and March 31, 2006 totaled \$120 million and \$307 million, respectively.

At March 31, 2007, our net portfolio consisted of 57 portfolio companies and was invested 61% in subordinated debt, 4% in preferred equity, 9% in common equity and warrants and 26% in senior secured loans versus 46 portfolio companies invested 60% in subordinated debt, 2% in preferred equity, 7% in common equity and 31% in senior secured loans at March 31, 2006.

The weighted average yields on our subordinated debt portfolio, senior secured loan portfolio and total debt portfolio were 13.5%, 12.3% and 13.1%, respectively, at March 31, 2007. At March 31, 2006, the yields were 13.6%, 12.2%, and 13.1%, respectively.

During the quarter, we selectively invested \$432 million across eight new and five existing portfolio companies with both new and existing sponsor relationships. Our average debt investment for the quarter exceeded \$35 million. Investments prepaid during the quarter totaled \$288 million. We also sold or reduced our positions in several investments opportunistically. Investment sales totaled \$61 million. Overall portfolio credit quality remains strong with no new loans on non-accrual status during the quarter.

In addition and pursuant to a sale and purchase agreement dated as of January 24, 2007, along with the GS Funds, GS Prysman (including Apollo Investment's position in GS Prysman Co-Invest LP) agreed to sell its remaining equity securities it owned in Prysman (Lux) Sarl to a newly created entity for cash and new equity securities consideration totaling \$85.6 million. This resulted in a \$107.6 million realized capital gain included within our Statement of Operations. Apollo Investment is the sole limited partner of GS Prysman Co-Invest L.P. ("GS Prysman"), a limited partnership established under the laws of the Cayman Islands. Apollo Investment, through its limited partnership interest in GS Prysman, indirectly owns approximately 4% of the common shares of Prysman SpA (PRY.MI) (Prysman), which commenced trading publicly in Milan on May 3, 2007, at \$15 per share (for a total implied equity capitalization of approximately \$2.7 billion as of May 3, 2007). Based on the IPO price, Apollo Investment's position in GS Prysman Co-Invest L.P. is currently valued at approximately \$114 million. Apollo Investment's shares in Prysman owned through GS Prysman are subject to a 180-day lock-up arrangement. After the 180-day lock-up period expires, the GS Prysman partnership will dissolve and Apollo Investment will own its shares in Prysman directly.

Also subsequent to quarter end on April 16, 2007, a press release was issued announcing that Innkeepers USA Trust (Innkeepers), a hotel real estate investment trust and a leading owner of upscale extended-stay hotel properties throughout the United States, including Residence Inns, Summerfield Suites and Hampton Inns, has entered into a definitive agreement to be acquired by Apollo Investment Corporation through an affiliate for \$17.75 per share in cash, plus the assumption of Innkeepers indebtedness. In connection with such transaction, we made a commitment of up to \$200 million in common and preferred equity and agreed to pay certain fee obligations of the

purchaser under certain circumstances. The transaction is subject to the approval of the common shareholders of Innkeepers and other customary closing conditions and is expected to close in the second quarter of 2007.

We continue to benefit from our strong relationships with middle market sponsors and with commercial and investment banks in attracting investment opportunities in a highly competitive marketplace, said John J. Hannan, Chairman and Chief Executive Officer. Total invested capital since our IPO now exceeds \$3.4 billion and has generated an IRR in excess of 21%. Accordingly, we are extremely pleased with these results and remain well-positioned with significant capital resources and good dividend visibility heading into fiscal 2008.

RESULTS OF OPERATIONS

Results comparisons are for the quarters ended March 31, 2007 and March 31, 2006 and the fiscal years ended March 31, 2007 and March 31, 2006.

Investment Income

For the quarters ended March 31, 2007 and March 31, 2006, gross investment income totaled \$75.3 million and \$42.5 million, respectively. For the fiscal years ended March 31, 2007 and March 31, 2006, gross investment income totaled \$266.1 million and \$152.8 million, respectively. The continued increase in gross investment income for the quarters ended March 31, 2007 and 2006 and the fiscal years 2007 and 2006 was primarily due to the growth of our investment portfolio as compared to the previous fiscal period. Origination, closing and/or commitment fees associated with investments in portfolio companies are accreted into interest income over the respective terms of the applicable loans.

Expenses

For the quarters ended March 31, 2007 and March 31, 2006, net expenses totaled \$53.1 million and \$19.8 million, respectively. Of which, \$32.0 million and \$5.7 million, respectively, were performance-based incentive fees and \$7.7 million and \$6.0 million, respectively, were interest and other credit facility expenses. For the fiscal years ended March 31, 2007 and 2006, net expenses totaled \$139.7 million and \$63.7 million, respectively. Of which \$57.9 million and \$22.3 million, respectively, were performance-based incentive fees and \$34.4 million and \$13.0 million, respectively, were interest and other credit facility expenses. Expenses exclusive of performance-based incentive fees and interest and other credit facility expenses for the quarters ended March 31, 2007 and March 31, 2006 were \$13.4 million and \$8.2 million, respectively. For the years ended March 31, 2007 and March 31, 2006, expenses exclusive of performance-based incentive fees and interest and other credit facility expenses were \$47.4 million and \$28.4 million, respectively. Of these expenses, general and administrative expenses totaled \$1.8 million and \$1.0 million, respectively, for the quarters ended March 31, 2007 and 2006 and \$6.8 million and \$5.0 million, respectively, for the fiscal years ended March 31, 2007 and 2006. Excise tax expense totaled \$0.4 million and \$0, respectively, for the quarters ended March 31, 2007 and March 31, 2006 and \$1.1 million and \$0, respectively, for the fiscal years ended March 31, 2007 and March 31, 2006. Expenses consist of base investment advisory and management fees, insurance expenses, administrative services fees, professional fees, directors' fees, audit and tax services expenses, and other general and administrative expenses. The increase in net expenses from fiscal 2006 to fiscal 2007 was primarily related to an accrual of \$21.3 million in net realized capital gain incentive fees and an increase in base management fees and other general and administrative expenses related to the growth of our investment portfolio as compared to the previous period.

Net Investment Income

The Company's net investment income totaled \$21.7 million and \$22.7 million, respectively for the quarters ended March 31, 2007 and 2006 and \$125.3 million and \$89.1 million, respectively, for the fiscal years ended March 31, 2007 and 2006. Due to significant gains realized during the quarter and fiscal year ended March 31, 2007, a net realized capital gains based incentive fee of \$21.3 million was accrued within operating expenses lowering net investment income during those periods. The amount actually payable by the Company will be determined as-of the end of the calendar year.

Net Realized Gains

The Company had investment sales and prepayments totaling \$349 million and \$91 million, respectively, for the quarters ended March 31, 2007 and 2006 and \$845 million and \$452 million, respectively, for the fiscal years ended March 31, 2007 and 2006. Net realized gains for the quarters ended March 31, 2007 and 2006 were \$106.6 million and \$0.3 million, respectively and \$132.9 million and \$11.2 million, respectively, for the fiscal years ended March 31, 2007 and 2006. The increase in net realized gains from fiscal year 2006 to fiscal year 2007 was primarily due to a gain of \$107.6 million realized from GS Prysmian Co-Invest LP (pursuant to a sale and purchase agreement dated as of January 24, 2007, along with the GS Funds, GS Prysmian Co-Invest LP agreed to sell its remaining equity securities it owned in Prysmian (Lux) Sarl to a newly created entity for cash and equity securities consideration totaling 85.6 million).

Net Unrealized Appreciation on Investments and Foreign Currencies

For the quarters ended March 31, 2007 and March 31, 2006, net unrealized appreciation on the Company's investments, foreign currencies and other assets and liabilities decreased \$25.6 million and increased \$19.3 million, respectively. For the fiscal years ended March 31, 2007 and 2006, net unrealized appreciation on the Company's investments, foreign currencies and other assets and liabilities increased \$54.0 million and \$20.1 million, respectively. The decrease in net unrealized appreciation was primarily due to the reversal of significant unrealized gains on GS Prysmian Co-Invest LP during the quarter ended March 31, 2007. At March 31, 2007, net unrealized appreciation totaled \$92.2 million of which \$21.6 million was attributable to net unrealized depreciation on our bank debt/senior secured debt and \$113.8 million was attributable to net unrealized appreciation on our subordinated debt, preferred stock and private equity (after considering the effects of foreign currency borrowing/hedging for our non-U.S. investments).

Net Increase in Net Assets From Operations

For the quarters ended March 31, 2007 and March 31, 2006, the Company had a net increase in net assets resulting from operations of \$102.8 million and \$42.3 million, respectively. For the fiscal years ended March 31, 2007 and 2006, the Company had a net increase in net assets resulting from operations of \$312.2 million and \$120.4 million, respectively. The net change in net assets from operations per share was \$1.04 and \$0.65, respectively, for the quarters ended March 31, 2007 and 2006 and \$3.64 and \$1.90, respectively, for the years ended March 31, 2007 and 2006.

LIQUIDITY AND CAPITAL RESOURCES

The Company's liquidity and capital resources are generated primarily through its senior secured, multi-currency, five-year, revolving credit facility maturing in April 2011 as well as from cash flows from operations, including investment sales and prepayments of senior and subordinated loans and income earned from investments and cash equivalents. During the quarter ended March 31, 2007, we closed on a follow-on equity offering and, including the underwriters' over-allotment option, issued 20.7 million shares of common stock receiving \$443 million in net proceeds. We also increased our total commitments under our multi-currency, revolving credit facility during the quarter to \$1.7 billion. The interest rate applicable to borrowings remains at LIBOR plus 100 basis points. At March 31, 2007, the Company has \$492 million in borrowings outstanding and had \$1.208 billion available for its use. In the future, the Company may raise additional equity or debt capital off its shelf registration or may securitize a portion of its investments. The Company may also further access \$300 million of additional credit commitments available to it under the terms of its existing credit facility and as the Company's equity capital base grows. The primary use of funds will be investments in portfolio companies, cash distributions to our shareholders and for other general corporate purposes.

Dividends

Dividends paid to stockholders for the fiscal years ended March 31, 2007, 2006 and for the period April 8, 2004 (commencement of operations) through March 31, 2005 totaled \$168.4 million or \$1.93 per share, \$102.7 million or \$1.63 per share, and \$30.2 million or \$0.485 per share, respectively. The following table summarizes our quarterly dividends paid to shareholders for the fiscal years ended March 31, 2007, 2006 and 2005, respectively:
