The Administrative Committee

TOTAL PETROCHEMICALS USA, INC. Capital Accumulation Plan

We have audited the accompanying statements of net assets available for benefits of the TOTAL PETROCHEMICALS USA, INC. Capital Accumulation Plan (the Plan), as of December 31, 2006 and 2005 and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2006 and 2005 and the changes in net assets available for benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule H, line 4i schedule of assets (held at end of year) as of December 31, 2006 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements, and in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

TOTAL PETROCHEMICALS USA, INC. CAPITAL ACCUMULATION PLAN

Notes to Financial Statements

December 31, 2006 and 2005

(1) Description of the Plan

(a) General

The TOTAL PETROCHEMICALS USA, INC. Capital Accumulation Plan, (the Plan) operates for the benefit of certain employees of TOTAL PETROCHEMICALS USA, INC. and other participating employers, hereafter referred to as the company or employing companies. The Company is an indirectly wholly owned subsidiary of TOTAL S.A., a French company that is publicly traded on the New York Stock Exchange.

The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The following description of the Plan is provided for general purposes only. Participants should refer to the Plan document as amended for more complete information.

The Plan is administered by an administrative committee (the Committee) appointed by and acting on behalf of the board of directors of the Company. Pursuant to the Plan's trust agreement, an independent trustee (the Trustee) maintains custody of the Plan's assets. Prior to April 1, 2005, Boston Safe Deposit and Trust Company served as the trustee, and Hewitt Associates LLC served as the independent record keeper. Effective April 1, 2005, Fidelity Management Trust Company was appointed as the trustee and Fidelity Investments Institutional Operations Company, Inc. was appointed as the independent record keeper.

Effective July 1, 2005, Atotech USA, Inc. (Atotech) became a participating employer with respect to certain collectively bargained employees. Effective October 1, 2005, Atotech and Total Lubricants USA, Inc. (Lubricants) became participating employers with respect to certain non-collectively bargained employees. During 2005, account balances totaling \$30,521,449 of affected participants were transferred into the Plan from the predecessor plans.

Participating employees of Atotech and Lubricants who became eligible to participate in the Plan on the employers' participation date received credit for their period of employment with the participating employer.

(b) Eligibility

An employee is eligible to participate in the Plan immediately upon employment. However, no employee may become a participant if the employee is a member of a collective bargaining unit, the recognized representative of which has not agreed to participation in the Plan by members of such unit. Participants are eligible for Company matching contributions after one year of employment.

(c) Contributions

Participants may elect to contribute up to 30% (15% prior to April 1, 2005) on a pretax basis, up to 6% on an after-tax basis or a combination of pretax and after-tax contributions not exceeding 30% (15% prior to April 1, 2005) of their basic compensation. Effective March 1, 2006, for non-collectively bargained employees, compensation includes regular base salary or wages, plus bonus payments, overtime, callback pay, accrued vacation, and night shift differential. For collectively bargained employees, compensation includes annual base pay only and does not include overtime.

or incentive payments or any other special forms of pay. Eligible employees are automatically deemed to have made a pretax election of 6% unless the employee has affirmatively elected to make no pretax contributions or elected to make pretax contributions in a different amount. A participant may elect to change his or her election under the Plan at any time. Participants who are age 50 or older before the close of the plan year may elect to make a catch-up contribution subject to certain limitations under the Internal Revenue Code of 1986, as amended (the Code) (\$5,000 and \$4,000 per participant in 2006 and 2005, respectively). Eligible participants may also elect to rollover qualified distributions as defined in the Plan document.

For each eligible participant, the employing company will contribute 100% up to 6% of the participant's basic compensation for the pay period. Participants must contribute a minimum of 3% pretax contributions before the Company will match after-tax contributions. The Company does not match employee catch-up contributions. Company matching contributions are reduced by participants' forfeitures.

Noncollectively bargained employees of Atotech will receive a Company matching contribution equal to 100% up to 4% of the participant's total eligible compensation for the pay period. Collectively bargained employees of Atotech will receive a matching contribution equal to 100% up to 6% of the participant's total eligible compensation for the pay period. As of December 5, 2006, the Baltimore Plant of Atotech with collectively bargained employees was closed and the participants were terminated. After the closing, there were no active bargaining participants of Atotech in the Plan. Participants must contribute a minimum of 3% pre-tax contributions before a match will be made on after tax contributions. For participants hired before October 1, 2005, Company matching contributions will be made upon completion of six months of service. For participants hired on or after October 1, 2005, Company matching contributions will be made upon completion of one year of service.

Noncollectively bargained employees of Lubricants will receive a Company matching contribution equal to 115% of pre-tax contributions up to 4% of the participant's total eligible compensation for the pay period. For participants hired before October 1, 2005, matching contributions will be made following the completion of six months of employment. For participants hired on or after October 1, 2005, Company matching contributions will be made following the completion of one year of service.

Effective January 1, 2006, participants hired after January 1, 2006 are eligible to receive a non-contributory contribution. The non-contributory contribution replaces the existing defined benefit plan benefits as the defined benefit plan was closed to new participants effective January 1, 2006. Employees are immediately eligible from their date of hire. The amount of the contribution is based on the employee's years of service with the Company and varies from 5% to 8%.

Employee contributions and Company matching contributions are paid to the Trustee in cash.

(d) Vesting Provisions

Participants are vested immediately in their contributions and Company matching contributions plus actual earnings thereon. A 5-year vesting schedule applied to the Company's non-contributory contribution during 2006. Effective January 1, 2007, the 2006 non-contributory contributions vesting schedule was changed to a 4-year period. In addition, all subsequent non-contributory contributions are subject to a 3 year vesting period.

(e) Investments

Each participant's account is credited with his or her contribution, the Company matching contribution, and an allocation of plan earnings or losses and administrative expenses. Allocations are based on the proportion that each participant's account balance bears to the total of all participant account balances. The benefit to which a participant is entitled is the vested portion of the benefit that can be provided from the participant's account.

(f) Investment Options

Effective April 1, 2005, in conjunction with the change in trustee, the assets of the Plan were transferred from the Boston Safe Deposit and Trust Company to Fidelity Management Trust Company. Effective April 1, 2005, participants must wait 90 days after paying off an existing loan before requesting a new loan of the same type (i.e., general purpose loan or primary residential loan). Any such loan made to a participant shall be evidenced by a promissory note payable to the Plan, shall bear a reasonable rate of interest, shall be secured by the borrowing participant's vested interest under the Plan and shall be repayable within five years; provided, however, that if such loan is to be used to acquire or construct any dwelling unit which within a reasonable time is to be used as a principal residence of the participant, the Committee may direct the Trustee to make such loan repayable over such period greater than five years. No withdrawal pursuant to any of the withdrawal provisions of the Plan may be made by a participant to whom a loan is outstanding from the Plan unless the Committee is satisfied that such loan will remain nontaxable and fully secured by the withdrawing participant's vested interest under the Plan following such withdrawal. Interest rates range from 5 % to 10.5 % for the year ended December 31, 2006. Loan maturity dates range from January 1, 2007 to December 5, 2021 for the year ended December 31, 2006.

(h) Distributions and Forfeitures

Distributions are made in a lump sum or for balances greater than \$5,000 in installment payments as elected by the participant after termination of employment. Effective March 28, 2005, the Plan requires automatic distribution of participant accounts upon termination without the participants consent, of amounts less than \$5,000. In the event the distribution is greater than \$1,000 and the participant has failed to make a distribution election the Plan will pay the distribution to an

individual retirement account for the benefit of the participant designated by the Plan Administrator. Amounts less than \$1,000 will be distributed directly to participants upon termination. An active participant may withdraw after-tax contributions and Matching Contributions made before 1984 and earnings thereon. At any time, a participant age 59-1/2 or older may withdraw his or her total account (other than Company non-contributory contributions).

Participants age 50 and older may request an optional form of distribution, systematic withdrawal payments, that allows their entire vested account balance to be paid in substantially equal annual or more frequent installments over a period that does not extend beyond the life expectancy of the participant, spouse or beneficiary. Upon the participant's death, any unpaid vested balance will be paid to the participant's beneficiary.

(i) Plan Termination

Although they have not expressed any intent to do so, the employing companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA.

(j) Expenses of Administering the Plan

All external costs and expenses incurred in administering the Plan, including the fees and expenses of the Trustee, the fees of its counsel, accounting fees, and record keeper fees, are the responsibility of the Plan.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with United States generally accepted accounting principles.

(b) New Accounting Principle

As of December 31, 2006, the Plan adopted Financial Accounting Standards Board Staff Position AAG INV-1 and Statement of Position No. 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the FSP). The FSP requires that the statement of net assets available for benefits present the fair value of the Plan's investments as well as the adjustment from fair value to contract value for the fully benefit-responsive investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis for the fully benefit-responsive investment contracts. The FSP was applied retroactively to the prior period presented on the statements of net assets available for benefits as of December 31, 2005.

(c) Valuation of Investments

Investments are reported at fair market value. The TOTAL S.A. ADS, and mutual funds are valued based upon quoted market prices. The common/collective trust fund is valued at fair value as determined by the issuer of the common/collective trust fund. As provided in the FSP, investment

Notes to Financial Statements

December 31, 2006 and 2005

contracts are generally valued at contract value, rather than fair value to the extent it is fully benefit-responsive. The fair value of fully benefit-responsive investment contracts is calculated using a discounted cash flow model which considers recent fee bids as determined by recognized dealers, discount rate and the duration of the underlying portfolio securities.

Participant loans are valued at cost, which approximates fair value. Security transactions are recorded on a trade date basis. Interest is recorded as earned, and dividends are recorded on the ex-dividend date.

Net appreciation (depreciation) in the fair value of investments includes realized gains (losses) on the sale of investments and unrealized appreciation (depreciation) in fair value of investments.

(d) Use of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(e) Payment of Benefits

Payments to participants are recorded as the benefits are paid.

(3) Investments

The fair market values of individual assets that represent 5% or more of the Plan's net assets at December 31, 2006 and 2005 are as follows:

2006:	
Vanguard Institutional Index Fund	\$ 34,863,756
Fidelity Diversified International Fund	29,938,921
Fidelity Managed Income Portfolio II (contract value \$49,990,610)	49,398,320

to be exercised. If the participant does not direct the Trustee as to the voting of the TOTAL S.A. ADS, the Trustee will vote the TOTAL S.A. ADS in the same proportion as the votes received by the Trustee. Prior to April 1, 2005, the Trustee was responsible for voting the shares.

With regard to the TOTAL S.A. ADS, pursuant to the proposal approved at the TOTAL S.A. Annual Meeting of May 12, 2006, and effective May 17, 2006, TOTAL S.A. ADS split 2-for-1.

Also approved at the TOTAL S.A. Annual Meeting was the spin-off of certain of the TOTAL S.A. chemical business segments by the distribution of Arkema S.A. American Depositary Shares (Arkema ADS) to holders of TOTAL S.A. ADS. This distribution provided each holder of twenty (20) TOTAL S.A. ADS held on May 17, 2006, including the Plan, one (1) Arkema ADS. The Arkema ADSs were liquidated by the Plan and the cash proceeds were reinvested in to the TOTAL S.A. ADS.

(5) Concentration of Investments

The Plan's investment in TOTAL S.A. ADS represents 44% and 47% of total investments as of December 31, 2006 and 2005, respectively. The Company is an international integrated oil and gas and specialty chemical company which engages in all areas of the petroleum industry, from exploration and production to refining and shipping.

(6) Federal Income Taxes

The Plan has obtained from the Internal Revenue Service a determination letter dated October 30, 2002 indicating that the Plan qualifies under the provision of Section 401(a) of the Code and, accordingly, is exempt from federal income taxes under Section 501(a) of the Code. The Plan has been amended and restated since receiving the letter; however, the Company believes that the Plan is designed and continues to operate in accordance with the applicable provisions of the Code at December 31, 2006 and 2005.

(8) Risks and Uncertainties

The Plan provides for investments in TOTAL S.A. ADS, mutual funds, and a common collective trust fund. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that significant changes in the values of investment securities will occur in the near term.

(9) Related-Party Transactions

The Plan engaged in investment transactions with funds managed by The Boston Company, Inc., an affiliate of the prior trustee and Fidelity Investments, an affiliate of the current trustee. In addition, the Plan invests in TOTAL S.A. ADS which are shares and units of the parent company of the plan sponsor. These transactions qualify as related-party transactions and are covered by an exemption from the prohibited transaction provisions of ERISA and the Code.
