November 8, 2007

Filed by The PNC Financial Services Group, Inc.

Pursuant to Rule 425 under the Securities Act of 1933 and  
deemed filed pursuant to Rule 14a-12 of the Securities Exchange Act of 1934

Subject Company: Sterling Financial Corporation

Commission File No. 000-16276

William S. Demchak, Vice Chairman of The PNC Financial Services Group, Inc. ( PNC ), gave a presentation to investors on the PNC Association of Boston conference in Boston. This presentation was accompanied by a series of electronic slides that included information on the financial performance and business strategies of PNC. The following slides and related material were posted on PNC 's website on Thursday, November 8, 2007:

This presentation contains forward-looking statements regarding our outlook or expectations relating to PNC's future business operations, financial condition, financial performance and

asset  
quality.  
Forward-looking  
statements  
are  
necessarily  
subject  
to  
numerous  
assumptions,  
risks  
and  
uncertainties,  
which  
change  
over  
time.

The forward-looking statements in this presentation are qualified by the factors affecting forward-looking statements identified in the more detailed Cautionary Statement included in the Appendix, which is included in the version of the presentation materials

posted on our corporate website at [www.pnc.com/investorevents](http://www.pnc.com/investorevents). We provide greater detail regarding these factors in our 2006 Form 10-K, including in the Risk Factors and Risk Management sections, and in our current quarter 2007 Form 10-Q and other reports (accessible on the SEC's website at [www.sec.gov](http://www.sec.gov) and on or through our corporate website).

Future events or circumstances may change our outlook or expectations and may also affect the nature of the assumptions, risks and uncertainties to which our forward-looking statements are subject. The forward-looking statements in this presentation speak only as of the date of this presentation. We do not assume any duty and do not undertake to update those statements.

In this presentation, we will sometimes refer to adjusted results to help illustrate the impact of the deconsolidation of BlackRock near the end of third quarter 2006 and the impact of certain types of items. Adjusted results reflect, as applicable, the following types of adjustments:

(1)  
2006

periods  
reflect  
the  
impact  
of  
the  
deconsolidation

of  
BlackRock

by  
adjusting

as

if

we

had

recorded

our BlackRock investment on the equity method prior to its deconsolidation; (2) adjusting the 2006 periods to exclude the impact

of

the

third

quarter

2006

gain

on

the

BlackRock/MLIM

transaction

and

losses

on

the

repositioning

of

PNC's

securities

and

mortgage

loan portfolios; (3) adjusting fourth quarter 2006 and the 2007 periods to exclude the net mark-to-market adjustments on PNC

remaining BlackRock LTIP shares obligation and, as applicable, the gain PNC recognized in first quarter 2007 in connection with

company's transfer of BlackRock shares to satisfy a portion of its BlackRock LTIP shares obligation; (4) adjusting all 2007 and

2006 periods to exclude, as applicable, integration costs related to acquisitions and to the BlackRock/MLIM transaction; and (5)

adjusting, as appropriate, for the tax impact of these adjustments. We have provided these adjusted amounts and reconciliations

so that investors, analysts, regulators and others will be better able to evaluate the impact of these items on our results for the

periods presented, in addition to providing a basis of comparability for the impact of the BlackRock deconsolidation given the

magnitude

of

the

impact

of

deconsolidation

on  
various  
components  
of  
our  
income  
statement  
and  
balance  
sheet.

We  
believe  
that

information as adjusted for the impact of the specified items may be useful due to the extent to which these items are not indicative of our ongoing operations as the result of our management activities on those operations. While we have not provided other adjustments for the periods discussed, this is not intended to imply that there could not have been other similar types of adjustments, but any such adjustments would not have been similar in magnitude to the amount of the adjustments shown. In certain discussions, we may also provide revenue information on a taxable-equivalent basis by increasing the interest income earned on tax-exempt assets to make it fully equivalent to interest income earned on taxable investments. We believe this adjustment may be useful when comparing yields and margins for all earning assets.

This presentation may also include a discussion of other non-GAAP financial measures, which, to the extent not so qualified through the Appendix, is qualified by GAAP reconciliation information available on our corporate website at [www.pnc.com](http://www.pnc.com) under

Cautionary Statement Regarding  
Forward-Looking Information

Appendix

We make statements in this presentation, and we may from time to time make other statements, regarding our outlook or expectations for earnings, revenues, expenses and/or other matters regarding or affecting PNC that are forward-looking statements within the meaning of Securities

Litigation

Reform

Act.

Forward-looking

statements

are

typically

identified

by

words

such

as

believe,

expect,

anticipate,

intend,

outlook,

estimate,

forecast,

will ,

project

and

other

similar

words

and

expressions.

Forward-looking statements are subject to numerous assumptions, risks and uncertainties, which change over time. Forward-looking statements speak only as of the date they are made. We do not assume any duty and do not undertake to update our forward-looking statements.

Forward-looking statements are subject to assumptions and uncertainties, and actual results or future events could differ, possibly materially, from those

that we anticipated in our forward-looking statements, and future results could differ materially from our historical performance.

Our forward-looking statements are subject to the following principal risks and uncertainties. We provide greater detail regarding these risks and uncertainties in our Form 10-K for the year ended December 31, 2006, including in the Risk Factors and Risk Management sections.

Our forward-looking statements are also subject to other risks and uncertainties, including those that we may discuss elsewhere in this presentation or in our filings with the SEC, accessible on the SEC's website

and on or through our corporate website at [www.pnc.com](http://www.pnc.com) under "About PNC".

Investor Relations

Financial Information.

Our businesses and financial results are affected by business and economic conditions, both generally and specifically in the markets in which we operate. In particular, our businesses and financial results may be impacted by

Changes in interest rates and valuations in the debt, equity and other financial markets.

Disruptions in the liquidity and other functioning of financial markets, including such disruptions in the markets for real estate and other assets commonly securing financial products.

Actions by the Federal Reserve and other government agencies, including those that impact money supply and market interest rates.

Changes in our customers', suppliers'

and other counterparties'

performance in general and their creditworthiness in particular.

Changes in customer preferences and behavior, whether as a result of changing business and economic conditions or other factors.

A continuation of recent turbulence in significant portions of the global financial markets could impact our performance, both our revenues and the value of our assets and liabilities and indirectly by affecting the economy generally.

Our operating results are affected by our liability to provide shares of BlackRock common stock to help fund certain BlackRock plan ( LTIP ) programs, as our LTIP liability is adjusted quarterly ( marked-to-market ) based on changes in BlackRock's stock price, the number of remaining committed shares, and we recognize gain or loss on such shares at such times as shares are transferred under the LTIP programs.

Competition can have an impact on customer acquisition, growth and retention, as well as on our credit spreads and product pricing, which can affect market share, deposits and revenues.

Our ability to implement our business initiatives and strategies could affect our financial performance over the next several years.

Legal and regulatory developments could have an impact on our ability to operate our businesses or our financial condition or our competitive position or reputation. Reputational impacts, in turn, could affect matters such as business generation and retention to attract and retain management, liquidity, and funding. These legal and regulatory developments could include: (a) the unfavorable resolution of legal proceedings or regulatory and other governmental inquiries; (b) increased litigation risk from recent regulatory and other

developments;

(c)

the

results

of

the

regulatory

examination

process,

our

failure

to

education

lending,

and

the

protection

of

confidential

customer

information;

and

(e)

changes

in

accounting

policies and principles.

Our business and operating results are affected by our ability to identify and effectively manage risks inherent in our business appropriate, through the effective use of third-party insurance, derivatives, and capital management techniques.

Our ability to anticipate and respond to technological changes can have an impact on our ability to respond to customer needs and competitive demands.

The adequacy of our intellectual property protection, and the extent of any costs associated with obtaining rights in intellectual property, and others, can impact our business and operating results.

Our business and operating results can also be affected by widespread natural disasters, terrorist activities or international hostilities that result

of

the

impact  
on  
the  
economy  
and  
capital  
and  
other  
financial

generally  
or  
on  
us  
or  
on  
our  
customers,  
suppliers  
or  
other  
counterparties specifically.

Also, risks and uncertainties that could affect the results anticipated in forward-looking statements or from historical performance of our equity interest in BlackRock, Inc. are discussed in more detail in BlackRock's 2006 Form 10-K, including in the Risk Factors section of BlackRock's other filings with the SEC, accessible on the SEC's website and on or through BlackRock's website at [www.blackrock.com](http://www.blackrock.com).

We  
grow  
our  
business  
from  
time  
to  
time  
by  
acquiring  
other  
financial  
services  
companies,  
including  
our  
pending  
Sterling  
Financial  
Corporation  
( Sterling )  
acquisition.  
Acquisitions  
in  
general

present  
us  
with  
risks  
other  
than  
those  
presented  
by  
the  
nature  
of  
the  
business  
acquired.

In particular, acquisitions may be substantially more expensive to complete (including as a result of costs incurred in connection with the acquisition of the acquired company) and the anticipated benefits (including anticipated cost savings and strategic gains) may be significantly harder or take longer to achieve than expected. In some cases, acquisitions involve our entry into new businesses or new geographic or other situations also present risks resulting from our inexperience in these new areas.

As  
a  
regulated  
financial  
institution,  
our  
pursuit  
of  
attractive

acquisition opportunities could be negatively impacted due to regulatory delays or other regulatory issues. Regulatory and/or the pre-acquisition operations of an acquired business may cause reputational harm to PNC following the acquisition and integration of the business into ours and may result in additional future costs arising as a result of those issues.

Any annualized, proforma, estimated, third party or consensus numbers in this presentation are used for illustrative or comparative purposes and may not reflect actual results. Any consensus earnings estimates are calculated based on the earnings projections made by the analyst for that company. The analysts

opinions, estimates or forecasts (and therefore the consensus earnings estimates) are theirs alone, are not those of PNC or its management, and may not reflect PNC's, Sterling's or other company's actual or anticipated results.
