Item 11. *Executive Compensation*

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Process Overview

The Compensation Committee (for purposes of this analysis, the Committee) of the board of directors discharges the board of directors responsibilities relating to compensation of all of the Company's executive officers. The Committee is comprised of two non-employee directors, both of whom are independent pursuant to the current rules of Nasdaq, Rule 16b-3 under the Exchange Act, and Section 162(m) of the Internal Revenue Code (Code).

As indicated in the section entitled Committees of the Board, the responsibilities of the Committee are discussed in detail in its charter which is available at the Company's website. The primary roles and responsibilities of the Committee are to:

Review and approve corporate goals and objectives relevant to compensation of the chief executive officer and other executive officers;

Evaluate the performance of the chief executive officer and other executive officers in light of those goals and objectives;

Make recommendations to the board of directors regarding compensation of the chief executive officer and other executive officers;

Administer the issuance of stock options and other awards to executive officers and directors under our stock plans; and

Review and evaluate, at least annually, the performance of the Committee and its members, including compliance of the Committee with its charter.

The agenda for meetings is determined by the Chair of the Committee with the assistance of Charles Liang, our President and Chief Executive Officer, and Howard Hideshima, our Chief Financial Officer. Committee meetings are regularly attended by one or more of Mr. Liang, Mr. Hideshima and Robert Aeschiman, the Company's General Counsel. However, Messrs. Liang and Hideshima do not attend the meetings during which their own performance or compensation is being discussed. After the Committee evaluates and sets the compensation of our

Edgar Filing: Super Micro Computer, Inc. - Form 10-K/A

executive officers, the Committee's Chair reports the Committee's determinations and recommendations to the board of directors. The board of directors then evaluates, modifies or approves such recommendations.

Mr. Liang, Mr. Hideshima and Mr. Aeschiman support the Committee in its work by providing information relating to our financial plans, performance assessments of our executive officers and other personnel-related data. In addition, the Committee has the authority under its charter to hire, terminate and approve fees for advisors, consultants and agents as it deems necessary to assist in the fulfillment of its responsibilities. In August 2007, the Committee reviewed recommendations of management as well as publicly available peer group compensation data in connection with structuring our compensation programs for fiscal 2008.

Prior to our initial public offering, as a private company, incentive compensation was awarded based on individual performance and the performance of the Company. Mr. Liang, our Chief Executive Officer, made recommendations to the board of directors with respect to any merit increase in base salary, quarterly bonus and stock option grants for each member of the executive team other than himself. The board of directors then evaluated, discussed and modified or approved these recommendations. With respect to Mr. Liang's compensation, our board of directors met in executive sessions without the presence of any executive officers to evaluate his performance in terms of contribution to corporate goals and set his compensation.

Table of Contents

The Committee has not delegated its authority to grant equity awards to any Company employee, including the executive officers.

Compensation Philosophy and Objectives

It is the Compensation Committee's philosophy to link the named executive officers' compensation to corporate performance. The base salary, quarterly bonuses and stock option grants of the named executive officers are determined in part by the Compensation Committee reviewing data on prevailing compensation practices of comparable technology companies with whom the Company competes for executive talent, and evaluating such information in connection with the Company's corporate goals and compensation practice.

Our current compensation arrangements for several of our executive officers, including our Chief Executive Officer, are significantly below average compensation levels for similar positions at comparable companies. This is principally due to the high level of Company stock ownership held by such persons. As the Company continues to grow, we may need to increase our recruiting of new executives from outside of the Company. This in turn may require us to pay higher compensation closer to or in excess of comparable company averages.

Finally, we believe that creating stockholder value requires not only managerial talent but active participation by all employees. In recognition of this, we try to minimize the number of compensation arrangements that are distinct or exclusive to all of our executive officers. We currently provide base salary, quarterly bonuses and long-term equity incentive compensation to a considerable number of our domestic employees and international employees beyond our executive officers.

Role of Executive Officers in the Compensation Process

See discussion of the role of the executive officers in the compensation process in [Process Overview](#).

2007 Executive Officer Compensation Components

For the fiscal year ended June 30, 2007, the principal components of compensation for our executive officers were:

Base salary;

Quarterly bonus; and

Equity-Based Incentive Compensation.

Base Salary. Base salaries for the Company's executive officers other than the CEO are determined by the Committee based upon recommendations by the CEO, taking into account such factors as salary norms in comparable companies, a subjective assessment of the nature of the position and the contribution and experience of the executive officer.

Quarterly Bonus. The Company's cash bonus program seeks to motivate executive officers to work effectively to achieve the Company's financial performance objectives and to reward them when such objectives are met.

Equity-Based Incentive Compensation. Stock options are an important component of the total compensation of executive officers. The Company believes that stock options align the interests of each executive with those of the shareholders. They also provide executive officers a significant, long-term interest in the Company's success and help retain key executive officers in a competitive market for executive talent. The Company's 2006 Equity Incentive Plan authorizes the Compensation Committee to grant stock options to executive officers. The number of shares owned by, or subject to options held by, each executive officer is periodically reviewed and additional awards are considered based upon past performance of the executive and the relative holdings of other executive officers in the Company. The option grants generally utilize four-year vesting periods to encourage executive officers to continue contributing to the Company, and they generally expire no later than ten years from the date of grant.

Table of Contents

Stock Ownership Guidelines

We currently do not require our directors or executive officers to own a particular amount of our common stock. The Committee is satisfied that stock and option holdings among our directors and executive officers are sufficient at this time to provide motivation and to align this group's interests with those of our stockholders. Our insider trading policy prohibits any of our executive officers, employees or contractors from engaging in any transactions in publicly-traded options, such as puts and calls, and other derivative securities, including any hedging or similar transaction, with respect to our common stock.

Other Benefits

Health and Welfare Benefits

Our executive officers receive the same health and welfare benefits offered to other Supermicro employees including medical, dental, vision, life, accidental death and dismemberment, disability, flexible spending accounts and holiday pay. The same contribution amounts, percentages and plan design provisions are applicable to all employees.

Retirement Program

The executive officers may participate in the same tax-qualified, employee-funded 401(k) plan offered to all other employees at Supermicro. The Company currently has no Supplemental Executive Retirement Plan, or SERP, obligations. Supermicro does not have any defined benefit retirement plans.

Perquisites

We do not provide special benefits or other perquisites to any of our executive officers, with the exception of an automobile allowance provided to our Chief Executive Officer, as detailed in the Summary Compensation Table.

Employment Arrangements, Severance and Change of Control Benefits

We have not entered into employment agreements with any of our named executive officers. Mr. Hideshima, Mr. Hsu and Ms. Liang have signed offer letters which provide for at-will employment. The offer letters provide for salary, stock options and right to participate in our employee benefit plans. We do not have any written employment arrangements with Messrs. Liang and Liaw. We do not have any arrangements with any of our executive officers that provide for any severance benefits in the event of termination or change of control.

Tax and Accounting Treatment of Compensation

In our review and establishment of compensation programs and payments, we consider, but do not place great emphasis on, the anticipated accounting and tax treatment of our compensation programs and payments on us and our executive officers. While we may consider accounting and tax treatment, these factors alone are not dispositive. Among other factors that receive greater consideration are the net costs to us and our ability to effectively administer executive compensation in the short and long-term interests of stockholders under a proposed compensation arrangement.

We monitor whether it might be in our best interest to comply with Section 162(m) of the Code, but reserve the right to award future compensation which would not comply with the Section 162(m) requirements for non-deductibility if the Committee concludes that it is in our best interest to do so. We seek to maintain flexibility in compensating executive officers in a manner designed to promote varying corporate goals and therefore the Committee has not adopted a policy requiring all compensation to be deductible. The Committee will continue to assess the impact of Section 162(m) on its compensation practices and determine what further action, if any, is appropriate.

Table of Contents

We account for equity compensation paid to our employees under the rules of Financial Accounting Standard No. 123R (FAS 123(R)), which requires us to estimate and record an expense for each award of equity compensation over the service period of the award. Accounting rules also require us to record cash compensation as an expense at the time the obligation is accrued.

We intend that our plans, arrangements and agreements will be structured and administered in a manner that complies with the requirements of Section 409A of the Code. Participation in, and compensation paid under our plans, arrangements and agreements may, in certain instances, result in the deferral of compensation that is subject to the requirements of Section 409A. If our plans, arrangements and agreements as administered fail to meet certain requirements under Section 409A, compensation earned thereunder may be subject to immediate taxation and tax penalties.

Summary

The Committee believes that our compensation philosophy and programs are designed to foster a performance-oriented culture that aligns our executive officers' interests with those of our stockholders. The Committee also believes that the compensation of our executive officers is both appropriate and responsive to the goal of improving stockholder value.

Compensation Committee Report

The Committee is responsible for setting the Company's compensation principles that serve to guide the design of compensation plans and programs applicable to our executive officers. The Committee charter establishes its duties and responsibilities, and will be reviewed annually by the Committee. A copy of the charter is available on the Company's website at www.Supermicro.com. The Committee members annually review the performance of the executive officers and establish individual compensation levels for each. The Committee considered market and peer group data, in determining whether the amounts and types of compensation the Company pays its executive officers are appropriate.

The Committee is composed of two independent, non-employee members of the board of directors. The Committee has reviewed all components of compensation for Mr. Liang and the other executive officers of the Company. This currently includes base salary, performance-based incentive compensation and long-term incentive compensation.

The Committee has reviewed and discussed the Compensation Discussion and Analysis (CD&A) with the Company's management. Based on this review and these discussions, the Committee recommended to the board of directors that the CD&A be included in this filing.

This report has been furnished by the Compensation Committee.

Director Compensation

Under our director compensation policy, we reimburse non-employee directors for reasonable expenses in connection with attendance at board and committee meetings. Our non-employee directors receive an annual retainer of \$40,000, payable quarterly. In addition, the chairperson of our audit committee receives an annual retainer of \$25,000, the chairperson of each of our compensation committee and nominating and corporate governance committee receives an annual retainer of \$5,000 and each director serving in a non-chairperson capacity on our audit, compensation or nominating and corporate governance committees receives an annual retainer of \$2,500 per committee, payable quarterly.

Non-employee directors also are eligible to receive stock options under our 2006 Equity Incentive Plan. The exercise price of stock options to directors is based on the fair market value as determined by our board of directors on the date of grant.

Non-employee directors receive nondiscretionary, automatic grants of nonstatutory stock options under our 2006 Equity Incentive Plan. A non-employee director is automatically granted an initial option to purchase 18,000 shares upon first becoming a member of our board of directors. A non-employee director serving as chairperson of the audit committee receives an initial grant of 12,000 shares. Non-employee directors serving as chairperson of the compensation or nominating and corporate governance committee receive an initial grant of 2,000 shares. Each of these initial options vests and becomes exercisable over four years, with the first 25% of the shares subject to each initial option vesting on the first anniversary of the date of grant and the remainder vesting quarterly thereafter. Immediately after each of our annual meetings of stockholders, each non-employee director is automatically granted a nonstatutory option to purchase 4,500 shares of our common stock, the audit committee chairperson is granted an annual option to purchase 3,000 shares of our common stock and the chairperson of each of the compensation and nominating and corporate governance committees is granted an annual option to purchase 500 shares of our common stock. These options will vest and become exercisable on the first anniversary of the date of grant or immediately prior to our annual meeting of stockholders, if earlier.

Table of Contents

The options granted to non-employee directors have a per share exercise price equal to 100% of the fair market value of the underlying shares on the date of grant, and will become fully vested if we are subject to a change of control. Annual grants will be reduced proportionally if the person did not serve in that capacity for the full year after the annual grant.

Item 13. Certain Relationships and Related Transactions

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Procedures for Approval of Related Person Transactions

Pursuant to our Audit Committee charter, the Audit Committee has the responsibility for the review and approval of any related person transactions. In approving or rejecting the proposed agreement, our Audit Committee will consider the relevant facts and circumstances available and deemed relevant, including, but not limited to the risks, costs and benefits to us, the terms of the transaction, the availability of other sources for comparable services or products, and, if applicable, the impact on a director's independence. Our Audit Committee shall approve only those agreements that, in light of known circumstances are not inconsistent with our best interests, as our Audit Committee determines in the good faith exercise of its discretion. In addition, we annually require each of our directors and executive officers to complete a directors' and officers' questionnaire that elicits information about related party transactions as such term is defined by SEC rules and regulations. These procedures are intended to determine whether any such related party transaction impairs the independence of a director or presents a conflict of interest on the part of a director, employee or officer.

Director and Officer Indemnification

We have entered into agreements to indemnify our directors and executive officers to the fullest extent permitted under Delaware law. Based on these standards, the board determined that, other than Charles Liang, Chiu-Chu (Sara) Liu Liang and Yih-Shyan (Wally) Liaw, each of the members of the board is an independent director under the Nasdaq rules.

Transactions with Ablecom Technology Inc.

Ablecom, a Taiwan corporation, together with its subsidiaries (Ablecom), is one of our major contract manufacturers. Ablecom's chief executive officer, Steve Liang, is the brother of Charles Liang, our President, Chief Executive Officer and Chairman of the Board of Directors, and owns approximately 2.6% of our common stock. Charles Liang served as a Director of Ablecom during our fiscal 2006, but is no longer serving in such capacity. In addition, Charles Liang and his wife, each of whom is our officer and director, collectively own approximately 30.7% of Ablecom and Yih-Shyan (Wally) Liaw, our officer and director, and his spouse collectively own approximately 5.2% of Ablecom, while Steve Liang and other family members own approximately 46.3% of Ablecom at June 30, 2007.

We have product design and manufacturing services agreements and a distribution agreement with Ablecom.

Under the product design and manufacturing services agreements, we outsource a portion of its design activities and a significant part of its manufacturing of components such as server chassis to Ablecom. Ablecom agrees to design products according to our specifications. Additionally, Ablecom agrees to build the tools needed to manufacture the products. Under these agreements, we commit to purchase a minimum quantity over a set period. The purchase price of the products manufactured by Ablecom is negotiated on a purchase order by purchase order basis at each purchase date. However, to cover the cost of the tools, a fixed charge is added to the price of each unit purchased until the agreed minimum number of units is purchased.

Under the distribution agreement, Ablecom purchases from us server products for distribution in Taiwan. The pricing and terms under the distribution agreement are similar to the pricing and terms of distribution arrangements we have with similar, third party distributors.

Ablecom's net sales to us and its net sales of our products to others comprise a substantial majority of Ablecom's net sales. We purchased products from Ablecom totaling approximately \$95,673,000 and sold products to Ablecom totaling approximately \$7,320,000 for the fiscal years ended June 30, 2007.

The amount owed to us by Ablecom as of June 30, 2007 was approximately \$853,000. Amount owed to Ablecom by us as of June 30, 2007 was approximately \$26,094,000. For the years ended June 30, 2007, we received \$89,000 from Ablecom for penalty charges, and paid approximately \$412,000 in miscellaneous costs to Ablecom. Penalty charges are assessments relating to delayed deliveries or quality issues.

Our exposure to loss as a result of its involvement with Ablecom is limited to (a) potential losses on its purchase orders in the event of an unforeseen decline in the market price and/or demand of our products such that we incur a loss on the sale or cannot sell the products and (b) potential losses on outstanding accounts receivable from Ablecom in the event of an unforeseen deterioration in the financial condition of Ablecom such that Ablecom defaults on its payable to us. Outstanding purchase orders with Ablecom were \$2.2 million at June 30, 2007,

representing the maximum exposure to loss relating to (a) above. We do not have any direct or indirect guarantees of losses, if any, of Ablecom.
