Item 2.02 Results of Operations and Financial Condition.

On October 29, 2008, the Company issued a press release reporting its results for the quarter ended and nine months ended September 30, 2008 and provided forward-looking performance estimates for the Company's fiscal year ending December 31, 2008. The press release, which is attached as Exhibit 99.1, and the information included in Item 7.01 of this Form 8-K is incorporated herein by reference. The projections constituting the performance estimates included in the release involve risks and uncertainties, the outcome of which cannot be foreseen at this time and, therefore, actual results may vary materially from these forecasts. In this regard, see the information included below under the caption Information Concerning Forward-Looking Statements.

The information in the earnings release and in this Item 2.02 is furnished and not filed for purposes of Section 18 of the Securities Exchange Act of 1934, or otherwise subject to the liabilities of that section. Such information may be incorporated by reference in another filing under the Securities Exchange Act of 1934 or the Securities Act of 1933 only if and to the extent such subsequent filing specifically references such information.

The earnings release contains non-GAAP financial measures. For purposes of Regulation G, a non-GAAP financial measure is a numerical measure of a registrant's historical or future financial performance, financial position or cash flows that excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with GAAP in the statement of income, balance sheet or statement of cash flows (or equivalent statements) of the issuer; or includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented. In this regard, GAAP refers to generally accepted accounting principles in the United States. Pursuant to the requirements of Regulation G, the Company has provided reconciliations of the non-GAAP financial measures to the most comparable GAAP financial measures set forth in the earnings release on the reconciliation schedules attached to the earnings release.

Item 2.05 Costs Associated with Exit or Disposal Activities.

On October 28, the Company commenced a consultative process with works councils and employee representatives regarding intended reductions in the Company's global workforce by approximately 1,000 positions. This streamlining is being initiated in anticipation of a further decrease in demand in the commercial vehicle industry. The Company expects that nearly half of the positions to be eliminated will be through attrition of temporary workers. In many cases, reductions in workforce can only be effected subject to completion of a formal consultation process with works councils in accordance with applicable local laws. The Company estimates that the charges associated with this activity will range from \$45 to \$55 million and would result in anticipated annualized savings of \$40 to \$45 million. The Company expects that this activity will be fully completed in the first half of 2009. It is anticipated that the principal categories of associated costs would consist of termination and severance costs, costs associated with the provision of job outplacement services, and other employee benefit related costs.
