Set forth below are several non-GAAP financial measures that are included in the attached press release together with the most directly comparable GAAP financial measure.

For the three months ended December 31, 2008, our net loss was \$12.6 million and our net loss per diluted share was \$0.07. For the twelve months ended December 31, 2008, our net income was \$9.5 million and our net income per diluted share was \$0.06. In our press release referred to above, we disclose that our net loss excluding impairment losses for the three months ended December 31, 2008, was \$4.6 million, or \$0.03 per diluted share and that our net income excluding impairment losses for the twelve months ended December 31, 2008 was \$18.4 million, or \$0.11 per diluted share. Additionally, in our press release referred to above, we disclose Funds From Operations, or FFO, as defined by the National Association of Real Estate Investment Trusts (NAREIT), to be \$20.6 million, or \$0.10 per diluted share, and \$114.0 million, or \$0.55 per diluted share for the three and twelve months ended December 31, 2008, respectively. We disclose that FFO excluding impairment losses was \$30.2 million, or \$0.15 per diluted share, and \$124.7 million, or \$0.60 per diluted share for the three and twelve months ended December 31, 2008, respectively. For the three and twelve months ended December 31, 2007, our net income was \$5.7 million and \$40.1 million, respectively, and our net income per diluted share was \$0.03 and \$0.24 respectively. For the three and twelve months ended December 31, 2007, our FFO per diluted share was \$0.18 and \$0.69, respectively. We believe that net income (loss) and FFO data excluding the impairment losses is useful supplemental information regarding our operating performance as it allows investors to more easily compare our operating results without taking into account the losses that we incurred during 2008 primarily in connection with the current economic slowdown in the United States.

For the three months ended December 31, 2008, loss from continuing operations was \$11.9 million. In our press release referred to above, we disclose our net operating income, or NOI, to be \$47.1 million for the same period in 2008. For the three months ended December 31, 2007, income from continuing operations was \$2.8 million. In our press release referred to above, we disclose our net operating income to be \$47.6 million for the same period in 2007.

For the three months ended December 31, 2008, our income from continuing operations decreased \$14.7 million from income of \$2.8 million for the three months ended December 31, 2007 to a loss of \$11.9 million for the same period in 2008. In our press release referred to above, we disclose that our same store net operating income excluding lease termination fees for the three months ended December 31, 2008 increased 2.3% compared to the same period in 2007 and increased 3.4% on a cash-adjusted basis.

Our percentage of debt to total assets was 44.4% and 41.6% at December 31, 2008 and December 31, 2007, respectively. In our press release referred to above, we disclose that the percentage of debt to book value of total assets, excluding accumulated depreciation and amortization, was 38.4% and 37.4%, for the same periods. We believe that this percentage, calculated using total assets, excluding accumulated depreciation and amortization, is a useful supplemental measure of our leverage. The market value of real estate assets often does not decline in the formulaic manner in which depreciation and amortization accrues with respect to those assets for GAAP accounting purposes. Accordingly, we believe that providing a supplemental measure of our leverage based on the book value of our total assets, excluding the cumulative effect of these depreciation and amortization accruals, provides investors with a useful supplemental measure of our leverage.
