PROXY STATEMENT

INTRODUCTION

This proxy statement (this Proxy Statement) is furnished in connection with the solicitation of proxies by the Board of Directors (the Board of Directors) of MasterCard Incorporated (the Company) for use at the 2009 Annual Meeting of Stockholders of the Company to be held on Tuesday, June 9, 2009 at 10:00 a.m. (local time), or any adjournment or postponement thereof (the Annual Meeting). The Company expects to mail this Proxy Statement and the accompanying proxy card on or about April [], 2009 to: (1) the holders of record of the Company's Class A Common Stock, par value \$0.0001 per share (the Class A Common Stock) and (2) the holders of record of the Company's Class M Common Stock, par value \$0.0001 per share (the Class M Common Stock) (the holders of Class A Common Stock and the holders of Class M Common Stock collectively referred to as the Voting Stockholders), as of the close of business on April 13, 2009 (the Record Date).

The Annual Meeting is being held to:

1. Elect the three nominees named in this Proxy Statement to serve on the Board of Directors as directors (Class III);
2. Elect the nominee named in this Proxy Statement to serve on the Board of Directors as a Class M Director (Class III);
3. Approve an amendment to Sections 6.1(A) and 6.4(B) of our amended and restated certificate of incorporation;
4. Ratify the appointment of PricewaterhouseCoopers LLP as the independent registered public accounting firm for the Company for 2009; and
5. Act on any other business which may properly come before the Annual Meeting or any adjournment or postponement thereof.

IMPORTANT NOTICE REGARDING THE AVAILABILITY OF PROXY MATERIALS

FOR THE 2009 ANNUAL MEETING OF STOCKHOLDERS TO BE HELD ON JUNE 9, 2009

This Proxy Statement and the Company's 2008 Annual Report are available at [].

Edgar Filing: MASTERCARD INC - Form PRE 14A

The Voting Stock. The Company has three classes of stock outstanding: Class A Common Stock, Class B Common Stock, par value \$0.0001 per share (the Class B Common Stock) and Class M Common Stock. Except as may be required by the General Corporation Law of the State of Delaware, holders of Class B Common Stock have no voting power and are not entitled to vote on the proposals hereby presented to the Voting Stockholders.

The holders of Class A Common Stock (the Class A Stockholders) are entitled to one vote per share on all matters on which stockholders generally are entitled to vote. With respect to the Annual Meeting, the Class A Stockholders will vote as a separate class for the election of three directors (we refer to all directors who are not Class M Directors (as defined below) as Class A Directors), each a member of Class III of the Board of

Table of Contents

Directors; for the approval of the amendment to Sections 6.1(A) and 6.4(B) of our amended and restated certificate of incorporation (the certificate of incorporation); and for the ratification of the appointment of PricewaterhouseCoopers LLP as the independent registered public accounting firm for the Company for 2009. With respect to the election of Class A Directors and the ratification of the appointment of PricewaterhouseCoopers LLP, only Class A Stockholders will be entitled to vote thereon. The Class A Stockholders will not be entitled to vote on the election of one Class M Director. As of the Record Date, [] shares of Class A Common Stock were outstanding.

Although the Class M Common Stock is generally non-voting, the holders of Class M Common Stock (the Class M Stockholders) have the right to elect up to three of our directors (but not more than one-quarter of all directors) (the Class M Directors) and approve specified significant corporate actions under our certificate of incorporation. The proposed amendment of Sections 6.1(A) and 6.4(B) of our certificate of incorporation falls within the scope of matters on which Class M Stockholders are entitled to vote as a separate class. With respect to the Annual Meeting, the Class M Stockholders will vote as a separate class for the election of one Class M Director and for the approval of the amendment of Sections 6.1(A) and 6.4(B) of our amended and restated certificate of incorporation. Class M Stockholders, collectively, will have the right to cast 1,000 votes, with each Class M Stockholder entitled to the number of votes that is equal to the product of 1,000 multiplied by the stockholder s global proxy calculation for the twelve months ended June 30, 2008. The global proxy calculation is a fraction that is determined annually by a formula based on the relative level of revenues and transaction volume we generated from such stockholder. The sum of the global proxy calculation for all of the Class M Stockholders is one.

The Class M Stockholders will not be entitled to vote on the election of the three Class A Directors or the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for 2009. As of the Record Date, [] shares of Class M Common Stock were outstanding.

Quorum Requirements. The presence in person or by proxy at the Annual Meeting of the holders of:

a majority of the shares of Class A Common Stock outstanding and entitled to vote as of the Record Date on the election of three Class A Directors, the approval of the amendment of Sections 6.1(A) and 6.4(B) of our certificate of incorporation and the ratification of the appointment of PricewaterhouseCoopers LLP as the independent registered public accounting firm for the Company for 2009 will constitute a quorum of the Class A Common Stock with respect to these proposals; and

a majority in voting power of the shares of Class M Common Stock outstanding and entitled to vote as of the Record Date on the election of one Class M Director and the approval of the amendment of Sections 6.1(A) and 6.4(B) of our certificate of incorporation will constitute a quorum of the Class M Common Stock with respect to these proposals.

Broker Authority to Vote Under Rules of the New York Stock Exchange. Class A Stockholders who do not submit voting instructions to their brokers may still have their shares voted by their brokers under the following circumstances:

Routine items. The election of Class A Directors and ratification of the appointment of the independent registered public accounting firm are considered routine items. Generally, brokers that do not receive instructions from beneficial owners may vote on these proposals in their discretion.

Non-routine items. The approval of any other non-routine proposals may normally only be voted on by brokers who have received specific voting instructions from beneficial owners. A broker non-vote occurs when the broker is unable to vote on a proposal because the proposal is not routine and the beneficial owner does not provide any instructions.

We believe that under the rules of the New York Stock Exchange (NYSE), the election of Class A Directors and the ratification of the appointment of PricewaterhouseCoopers LLP as the independent registered public accounting firm for the Company for 2009 are routine proposals on which brokers may vote. We believe

Table of Contents

that the approval of the amendment of Sections 6.1(A) and 6.4(B) of our certificate of incorporation is a non-routine proposal on which brokers will not be able to vote absent instruction from beneficial owners. Because the Class M Common Stock is not listed on the NYSE, broker authority to vote is not relevant to the election of the Class M Director or the approval of the amendment to Section 6.1(A) and 6.4(B) of our certificate of incorporation.

Vote Required for Election of Directors. You may vote for or withhold with respect to any or all director nominees. Votes that are withheld and shares of Class A Common Stock which are not voted by either the beneficial owner thereof or the broker for such beneficial owner will be excluded entirely from the vote and will have no effect on the outcome of the vote.

The three nominees for Class A Directors receiving the greatest number of votes cast by Class A Stockholders will be elected to serve as Class A Directors and members of Class III of the Board of Directors.

The nominee for Class M Director receiving the greatest number of votes cast by Class M Stockholders will be elected to serve as a Class M Director and a member of Class III of the Board of Directors.

Vote Required for Approval of the Amendment of Sections 6.1(A) and 6.4(B) of the Company's Amended and Restated Certificate of Incorporation. Voting Stockholders may vote for, against or abstain with respect to the adoption of this proposal. The adoption of the proposed amendment requires the affirmative vote of the holders of at least 80% of the outstanding shares of Class A Common Stock and at least a majority of the votes cast by Class M Stockholders. Abstentions and broker non-votes by Class A Stockholders will have the effect of votes against the proposal. Abstentions by Class M Stockholders will have no impact on the outcome of this proposal.

Vote Required for Ratification of the Appointment of PricewaterhouseCoopers LLP as the Independent Registered Public Accounting Firm for the Company for 2009. Class A Stockholders may vote for, against or abstain with respect to the adoption of this proposal. The affirmative vote of a majority of the votes cast by Class A Stockholders must be voted for this proposal in order for it to be adopted. Abstentions and the failure of either a beneficial owner or the broker thereof to vote shares of Class A Common Stock will have no effect on the outcome of the proposal.

Stockholders Entitled to Vote. As explained above for each proposal, only holders of record of shares of Class A Common Stock and holders of record of shares of Class M Common Stock on the Record Date are entitled to notice of and to vote at the Annual Meeting or any adjournment or postponement thereof.

Voting Procedures. If a Voting Stockholder attends the Annual Meeting in person or sends a representative to the meeting with a signed proxy, that Voting Stockholder may vote or such representative may vote on the Voting Stockholder's behalf. Voting Stockholders unable to attend the Annual Meeting can ensure that their votes are cast at the meeting by signing and dating the enclosed proxy card and returning it in the envelope provided or by authorizing the individuals named on the proxy card to vote their shares by calling the toll-free telephone number or by using the Internet as described in the instructions included with the proxy card or voting form. When a proxy card is returned properly signed and dated or a Voting Stockholder's vote is authorized by telephone or Internet, the vote of the Voting Stockholder will be cast in accordance with the instructions on the proxy card or authorized by telephone or Internet. If a Voting Stockholder does not return a signed proxy card, authorize such Voting Stockholder's vote by telephone or Internet or attend the meeting in person or by representative and vote, no vote will be cast on behalf of that Voting Stockholder. For Class A Stockholders, the enclosed proxy card indicates on its face the number of shares of Class A Common Stock registered in the name of each such holder at the close of business on the Record Date, which number corresponds to the number of votes such Class A Stockholder will be entitled to cast at the meeting on proposals on which Class A Stockholders are entitled to vote. For Class M Stockholders, the enclosed proxy card indicates on its face the

Table of Contents

number of votes held by each such holder at the close of business on the Record Date which such Class M Stockholder will be entitled to cast at the Annual Meeting on the election of a Class M Director. The current global proxy calculation for each holder of Class M Common Stock is on file at the Company's principal office and will be made available to any stockholder of the Company upon request. See "The Voting Stock" above for further discussion of the voting power of Class A Common Stock and Class M Common Stock.

Voting Stockholders are urged to mark the box on the proxy card to indicate how their vote is to be cast. If a Voting Stockholder returns a signed proxy card but does not indicate on the proxy card how it wishes to vote on a proposal, the vote represented by the proxy card will be cast FOR such proposal.

Pursuant to Section 212(c) of the General Corporation Law of the State of Delaware, Voting Stockholders may validly grant proxies over the Internet. Your Internet vote authorizes the named proxies on the proxy card to vote your shares in the same manner as if you had returned your proxy card. In order to vote over the Internet, follow the instructions provided on your proxy card or voting form.

Any Voting Stockholder who executes and returns a proxy card or authorizes its vote by telephone or by Internet may revoke the proxy before it is voted by:

notifying in writing Noah J. Hanft, Corporate Secretary of MasterCard Incorporated, at 2000 Purchase Street, Purchase, New York 10577;

executing and returning a subsequent proxy;

subsequently authorizing the individuals named on its proxy card to vote its interests by calling the toll-free telephone number or by using the Internet as described in the instructions included with its proxy card; or

appearing in person or by representative with a signed proxy and voting at the Annual Meeting.

Attendance in person or by representative at the Annual Meeting will not in and of itself constitute revocation of a proxy. **If you plan to vote your shares in person at the Annual Meeting, see the requirements set forth in "Attending the Annual Meeting" below.**

Unless contrary instructions are indicated on the proxy, all shares represented by valid proxies received pursuant to this solicitation (and not revoked before they are voted) will be voted as follows:

FOR the election of the three nominees named in this Proxy Statement to serve as Class A Directors (Class III) on the Board of Directors;

FOR the election of the nominee named in this Proxy Statement to serve as a Class M Director (Class III) on the Board of Directors;

FOR the approval of the amendment of Sections 6.1(A) and 6.4(B) of the Company's certificate of incorporation; and

FOR the ratification of the appointment of PricewaterhouseCoopers LLP as the independent registered public accounting firm for the Company for 2009.

In the event a Voting Stockholder specifies a different choice on the proxy, that Voting Stockholder's shares will be voted in accordance with the specification so made.

The Company's 2008 Annual Report (the "Annual Report"), which includes the Company's Form 10-K for the year ended December 31, 2008 (the "Form 10-K"), as filed with the U.S. Securities and Exchange Commission (the "SEC") on February 19, 2009, is enclosed herewith. Copies of the Form 10-K, as well as other periodic filings by the Company, are also available on the Company's website at <http://www.mastercard.com>.

Table of Contents

A copy of the Annual Report will be furnished to you upon a request in writing to the Corporate Secretary of the Company at the address set forth below under Solicitation of Proxies.

Solicitation of Proxies. The Company will bear the costs of solicitation of proxies, including the cost of preparing, printing and mailing this Proxy Statement. In addition to the solicitation of proxies by use of the mail, proxies may be solicited from Voting Stockholders by directors, officers, employees and agents of the Company in person or by telephone, facsimile or other appropriate means of communication. The Company has engaged Georgeson Inc. to solicit proxies on behalf of the Company. The anticipated cost of Georgeson Inc.'s services is estimated to be approximately \$[] plus reimbursement of reasonable out-of-pocket expenses. No additional compensation, except for reimbursement of reasonable out-of-pocket expenses, will be paid to directors, officers and employees of the Company in connection with the solicitation. Any questions or requests for assistance regarding this Proxy Statement and related proxy materials may be directed to:

Householding. The SEC has adopted rules that allow a company to deliver a single proxy statement or annual report to an address shared by two or more of its stockholders. This method of delivery, known as householding, permits the Company to realize significant cost savings and reduces the amount of duplicate information stockholders receive. In accordance with notices sent to stockholders sharing a single address, the Company is sending only one Annual Report and Proxy Statement to that address unless the Company has received contrary instructions from a stockholder at that address. Any stockholders who object to or wish to begin householding may notify the Corporate Secretary of the Company orally or in writing at the telephone number or address, as applicable, set forth above. The Company will send an individual copy of the Annual Report and Proxy Statement to any stockholder who revokes its consent to householding within 30 days of the Company's receipt of such revocation.

Attending the Annual Meeting. If you are a holder of record and plan to attend the Annual Meeting, please indicate this when you vote. The top half of the proxy card is your admission ticket. When you arrive at the meeting, you will be asked to present photo identification, such as a driver's license. If you hold your shares in street name, typically through a brokerage account, you will also need proof of ownership to be admitted to the meeting. A recent brokerage statement or a letter from your bank or broker are examples of proof of ownership. If you want to vote your shares held in street name in person at the meeting, you must get a written proxy in your name from the broker, bank or other nominee that holds your shares.

Table of Contents

ELECTION OF DIRECTORS

The Company's Board of Directors. The Board of Directors currently consists of twelve members. The certificate of incorporation and the by-laws of the Company provide that up to three directors, but not more than one-quarter of all directors, are elected by the Class M Stockholders, voting separately as a class. The remaining members of the Board of Directors, including the Company's Chief Executive Officer, if nominated, are elected by the Class A Stockholders, voting separately as a class.

At the Annual Meeting, three Class A Directors and one Class M Director are to be elected to the Board of Directors. Each of the three Class A Directors will serve until the expiration of his term as set forth below or until his successor is elected and qualified. The directors elected to the Board of Directors will automatically be appointed as members of the board of directors of our operating subsidiary, MasterCard International Incorporated (MasterCard International).

Pursuant to the certificate of incorporation and the by-laws of the Company, the Board of Directors is divided into three classes (Class I, Class II and Class III), with each class serving for a staggered, three-year term. In addition, the certificate of incorporation provides that no more than one Class M Director may be allocated to a single class. Upon expiration of the term of a class of directors, directors in that class will be elected for three-year terms at the annual meeting of stockholders in the year in which their term expires. Accordingly, those directors who are nominated for re-election at the Annual Meeting belong to Class III and are expected to serve until the expiration of their terms at the Company's annual meeting of stockholders in 2012. The other members of the Board of Directors belong to either Class I or Class II, as indicated in the table below, and will continue to serve on the Board of Directors until the expiration of their terms in 2010 and 2011, respectively, or until their successor is elected and qualified.

The Company's European Board. The Company's European Board of Directors (the European Board) currently consists of fifteen members. The certificate of incorporation and the by-laws of the Company provide that, subject to the withdrawal of any or all of the European Board's authority or the termination of the European Board's existence (as described below), specified aspects of the Company's operations in Europe are managed by or under the direction of the European Board, which is comprised of directors elected by the Class M Stockholders with their principal operations in our Europe region (the Europe Class M Stockholders). In particular, following our initial public offering in May 2006, our certificate of incorporation provided that the following specified aspects of the Company's operations in Europe would be managed by or under the direction of the European Board: (1) review of applications for membership (subject to guidelines established by the Board of Directors from time to time); (2) fines (subject to guidelines established by the Board of Directors from time to time); (3) intraregional operating rules (subject to guidelines established by the Board of Directors from time to time); (4) assessments and fees to the extent that such assessments and fees do not have an exclusionary effect (subject to guidelines established by the Board of Directors from time to time); (5) intraregional product and enhancement development to the extent that the development initiatives do not relate to competitively sensitive matters; (6) annual expense budget; (7) surplus funds; and (8) affinity and co-branding rules.

Our certificate of incorporation also provides, however, that the Board of Directors, acting with at least a 75% majority, may withdraw the authority granted to the European Board in its entirety and may terminate the existence of the European Board if the European Class M Stockholders approve such withdrawal and termination by a majority of votes cast. In addition, the Board of Directors, acting with at least a 75% majority, may permanently withdraw from the European Board any specific authority granted to the European Board. The Board of Directors, acting with at least a two-thirds majority, may also override any decision or otherwise temporarily assume any authority granted to the European Board. Finally, the Board of Directors, acting with a simple majority, may override any decision or otherwise temporarily assume any authority granted to the European Board if, in the Board of Directors' sole judgment and discretion, any action or failure to take action by the European Board: (1) could subject the Company to risk of legal or regulatory liability, (2) would be contrary to the Company's global strategy, (3) would be reasonably likely to have an effect outside Europe or on U.S. commerce or (4) relates to any matter outside of the authority granted to the European Board.

Table of Contents

On September 9, 2008, the Board of Directors, pursuant to our certificate of incorporation, withdrew, permanently assumed and then delegated to management the specific authority granted to the European Board with respect to the following specified aspects of the Company's operations in Europe: (1) assessments and fees, (2) annual expense budget and (3) surplus funds. In taking this action, the Board of Directors considered that as a practical matter and in the ordinary course, approvals with respect to these matters had been overseen by management and not the European Board, and that the European Board had played a minimal role in these areas following our initial public offering. These specified aspects of the Company's operations in Europe could involve competitively sensitive issues, and while the European Board specifically does not have authority over competitively sensitive issues, the Board withdrew and permanently assumed the above categories of specific allocated authorities and delegated them to management to eliminate any uncertainty over the matters and because the Board determined that such authorities should appropriately reside with management.

Each member of the European Board who is elected by the European Class M Stockholders serves for a two-year term. Any Class M Director who is designated as a director from our Europe region automatically becomes a member of the European Board and serves until such Class M Director resigns or is removed from our Board of Directors. As provided in our certificate of incorporation and by-laws, the number of members of the European Board will be automatically adjusted to include such Class M Director if the number of members of the European Board would otherwise exceed the number fixed by the European Board. At the Company's 2008 annual meeting of stockholders, sixteen directors were elected to the European Board, each to serve until the Company's annual meeting of stockholders in 2010 or until his or her successor is elected and qualified. Due to a change in membership subsequent to the 2008 annual meeting, the number of members serving on the European Board is currently fifteen. Mr. Barzi, a current member of the European Board, is the Class M Director representing the Europe region and automatically continues to be a member of the European Board following his election at the 2008 annual meeting of stockholders.

In addition, each of our directors must also serve as a director of MasterCard International.

Our certificate of incorporation and Corporate Governance Guidelines further provide that, to the extent practicable and subject to the Board of Directors' fiduciary duties, the directors nominated by the Board of Directors for election as Class A Directors (other than the chief executive officer) should reflect the geographic diversity and global profile of the Company and that the citizenships and residencies of these directors should reflect the geographic regions in which we operate in a manner approximately proportionate to our business activity as reflected in the global proxy calculation formula contained in our certificate of incorporation.

Similarly, our certificate of incorporation and Corporate Governance Guidelines provide that, to the extent practicable and subject to the Board of Directors' fiduciary duties, the directors nominated by the Board of Directors for election as Class M Directors should include one citizen and resident of a country in, or director, officer, employee, agent or representative of a member of MasterCard International designated as belonging to, our Americas region; one citizen and resident of a country in, or director, officer, employee, agent or representative of a member of MasterCard International designated as belonging to, our European region; and one citizen and resident of a country in, or director, officer, employee, agent or representative of a member of MasterCard International designated as belonging to, our Asia/Pacific-Middle East/Africa region.

Director Independence. Pursuant to the corporate governance listing standards of the NYSE, a majority of the Board of Directors (and each member of the Audit, Compensation and Nominating Committees) must be independent. The Board of Directors has adopted director independence standards, which are contained in the Company's Corporate Governance Guidelines, to assist in its determination of director independence. No director will be considered independent unless the Board of Directors affirmatively determines that the director has no material relationship with the Company (either directly or as a partner, stockholder or officer of an organization that has a relationship with the Company). When making independence determinations, the Board of Directors broadly considers all relevant facts and circumstances, as well as any other facts and considerations specified by the NYSE, by law or by any rule or regulation of any other regulatory body or self-regulatory body applicable to the Company. When assessing the materiality of a director's relationship with the Company, the Board of Directors considers the issue not merely from the standpoint of the director, but also from that of persons or organizations with which the director has an affiliation. Material relationships can include commercial, industrial, banking, consulting, legal, accounting, charitable and familial relationships (among others). In addition, the Board of Directors applies the independence standards set by the NYSE, which are generally tracked in the independence guidelines set forth below.

The Board of Directors has established the following guidelines to assist it in determining director independence :

A director will not be independent if: (1) the director is, or has been within the last three years, employed by the Company, or an immediate family member of the director is, or has been within the last three years, employed by the Company as an executive officer; (2) the director or an immediate family member of the director has received more than \$100,000 per year in direct compensation from the Company, other than director and committee fees and pension or other forms of deferred compensation for prior service (provided that such compensation is not contingent in any way on continued service); (3) (a) the director or an immediate family member is a current partner of a firm that is the Company's internal or external auditor, (b) the director is currently employed by such a firm, (c) the director has an immediate family member who is currently employed by such a firm and participates in the firm's audit, assurance or tax compliance (but not tax planning) practice, or (d) the director or an immediate family member was within the last three years (but is no longer) a partner or employee of such a firm and personally worked on the Company's audit within that time; (4) the director or an immediate family member of the director is, or has been within the last three years, employed as an executive officer of another company where any of the Company's present executives serve on that company's compensation committee; or (5) the director is a current employee, or an immediate family member of the director is a current executive officer, of another company that has made payments to, or receives payments from, the Company for property or services in an amount which, in any of the last three fiscal years, exceeds the greater of \$1,000,000 or two percent of the consolidated gross revenues of such other company.

The following commercial or charitable relationships will not be considered to be material relationships that would impair a director's independence: (1) relationships involving the provision of

Table of Contents

products or services either by or to the Company or its subsidiaries or affiliates and involving a director, his or her immediate family members, or a company or charitable organization of which the director or an immediate family member is (or, at the time of the transaction, was) a partner, shareholder, officer, employee or director so long as the following condition is satisfied: the products and services are being provided in the ordinary course of business and on substantially the same terms and conditions, including price, as would be available to similarly situated customers; (2) if a director is an executive officer or an employee, or whose immediate family member is an executive officer, of another company that makes payments to, or receives payment from, the Company for property or services in an amount which, in any single fiscal year, are less than the greater of \$1,000,000 or two percent of the consolidated gross revenues of such other company; (3) if a director beneficially owns, or is an employee of another company that beneficially owns, less than 10% of the Company's common equity; (4) if a director is an executive officer or an employee of another company to which the Company is indebted, and the total amount of the indebtedness is less than one percent of the total consolidated assets of the company for which he or she serves as an executive officer or an employee; and (5) if a director serves as an officer, director or trustee of a charitable organization, and the Company's discretionary charitable contributions to the organization are less than the greater of \$1,000,000 or two percent of that organization's consolidated gross revenues. Notwithstanding the foregoing, no relationship required to be disclosed by the Company pursuant to Item 404 of Regulation S-K shall be treated as categorically immaterial. The Board of Directors reviews annually all commercial, charitable and other relationships of directors.

For the purpose of applying these director independence standards, an immediate family member includes a person's spouse, parents, children, siblings, mothers and fathers-in-law, sons and daughters-in-law, brothers and sisters-in-law, and anyone (other than domestic employees) who shares such person's home.

The Board of Directors has determined that Ms. Karch and Messrs. Barzi, Carlucci, Fung, Haythornthwaite, Oliv  , Reyes, Schwartz, Tai and Tian qualify as independent directors within the meaning of Section 303A.02 of the NYSE Listed Company Manual and under the independence requirements adopted by the Board of Directors as set forth above. In the course of its determination regarding the independence of each non-management director, the Board of Directors considered any transactions, relationships and arrangements as required by Section 303A.02 of the NYSE Listed Company Manual and under the independence requirements adopted by the Board of Directors as set forth above.

In reaching the determination that Ms. Karch and Messrs. Barzi, Reyes, Tai and Tian are independent, the Board of Directors considered the fact that: (1) Ms. Karch is Director Emeritus of McKinsey & Company, a director of The Corporate Executive Board Company and a Trustee of the Westchester Land Trust, (2) Mr. Barzi is an executive officer of UniCredit Group, (3) Mr. Reyes is an executive officer of The Coca-Cola Company, (4) Mr. Tai is a former executive officer of DBS Group and DBS Bank Ltd., a member of the ING Groep NV Supervisory Board and a member of the Asia-Pacific Advisory Board of Bloomberg LP and (5) Mr. Tian is a Member of the Nature Conservancy. During 2006, the Company contributed approximately \$200 to the Westchester Land Trust and approximately \$50,000 to the Nature Conservancy, each of which constitutes an immaterial charitable relationship pursuant to our Corporate Governance Guidelines. Although service as a director or executive officer of another company alone is not a material relationship that would impair a director's independence, the above listed relationships were reviewed by the Board of Directors. Furthermore, although each of UniCredit Group, DBS Group, DBS Bank Ltd., ING Groep NV, Bloomberg LP and The Coca-Cola Company has a business relationship with the Company, sales to and/or purchases from these entities amounted to less than the greater of \$1 million or 2% of that company's consolidated gross revenues during each of 2008, 2007 and 2006. The Board determined that, during all relevant years, none of the relationships listed above were of an amount or nature to impede the exercise of independent judgment of any of Ms. Karch or Messrs. Barzi, Reyes, Tai or Tian.

Nomination of Directors. Candidates for nomination to the Board of Directors are selected by the Nominating Committee, based on the Nominating Committee's review of candidates in accordance with the

Table of Contents

Nominating Committee's charter. The Nominating Committee identifies potential new director candidates by recommendations from its members, other members of the Board of Directors, Company management and individual stockholders, and may, if necessary or appropriate, utilize the services of a professional search firm. The process by which the Nominating Committee evaluates candidates submitted by stockholders does not differ from the process it follows for evaluating other nominees. The Nominating Committee also nominates individuals for election as members of the European Board.

When considering the qualifications of a nominee, the Nominating Committee may take into account, in addition to the geographic diversity and regional considerations described above under "Qualifications of Directors," other factors such as strength of character, maturity of judgment, experience, expertise/knowledge, diversity, the extent of international experience and the extent to which the candidate would fill a present need on the Board of Directors. For additional information on the nomination process, see the charter for the Nominating Committee and the Company's Corporate Governance Guidelines, which are located on the Company's website at <http://www.mastercard.com>

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

This Compensation Discussion and Analysis describes the material elements of compensation for our executive officers who are listed in the Summary Compensation Table following this section (the named executive officers). Our Compensation Committee is primarily responsible for ensuring on behalf of the Board of Directors that the compensation and benefit programs of the Company are competitive and appropriate to attract, retain and motivate our employees, including our named executive officers, and that the interests of our employees are aligned with stockholders' interests.

The Company's Compensation Principles

The Company's compensation decisions for our named executive officers, which are approved by the Compensation Committee, are based on the following core principles:

Executive officer goals are linked with customer and stockholder interests. The Company's compensation policies are designed to align the interests of our executive officers with those of our customers and our stockholders.

Pay is performance-based. We provide a total compensation program consisting of fixed and variable pay, with an emphasis on variable pay to reward short- and long-term performance versus pre-established goals and objectives.

Compensation opportunities must be competitive to attract and retain talented employees. Each year, the Compensation Committee assesses the competitiveness of total compensation levels for executives to enable us to successfully attract and retain executive talent.

Role of Compensation Consultant

The Compensation Committee has retained its own outside compensation consultant, Towers Perrin. Towers Perrin's responsibilities to the Compensation Committee include: (1) assisting with the development and analysis of peer group companies for comparison of executive compensation, (2) conducting benchmarking of executive officer compensation relative to the peer group, and (3) advising on executive compensation and equity plan design. Towers Perrin's engagement includes reviewing and advising on all material aspects of executive compensation for the Company, including base salaries, bonuses and equity compensation. Among other duties, Towers Perrin: (1) reports on trends, developments and best practices in executive compensation decisions, including the different elements that may be utilized for long-term incentive compensation, (2) discusses the merits of various performance metrics for incentive compensation, and (3) reviews and advises on perquisite practices among peer group and other companies. Towers Perrin also provides advice to the Compensation Committee concerning all aspects of the Company's executive compensation policies and programs. Towers Perrin regularly attends the meetings of the Compensation Committee. In the course of discharging its responsibilities to the Compensation Committee, Towers Perrin regularly communicates with the Chairman of the Compensation Committee outside of committee meetings. Towers Perrin also meets with management and various members of the Company's executive compensation group, and in particular the Company's Head of Global Rewards and Chief Human Resources Officer, from time to time to, among other things, gather compensation-related information and to review recommendations that the Chief Executive Officer may make to the Compensation Committee concerning executive officer compensation other than his own. Towers Perrin reports to the Compensation Committee rather than to management. The Compensation Committee considers the consultant's input and advice, yet uses its own independent judgment in making final decisions concerning compensation paid to executive officers of the Company.

Towers Perrin provides certain other services to the Company, including the following: (1) assisting in the development of the Company's healthcare and wellness programs, including plan design and establishing a

budget, (2) advising on benchmarking the Company’s benefit plans against the competitive marketplace, (3) periodically conducting service and compliance reviews of the Company’s employee benefits providers, and (4) performing actuarial computations of certain of the Company’s benefit plans. In retaining Towers Perrin, the Compensation Committee evaluates the other services it provides to the Company and considers its independence in light of these other services.

During 2008, Towers Perrin: (1) gathered and compiled compensation-related information on the peer group companies, including individual elements and amounts of compensation and aggregate compensation information, (2) presented the peer group compensation information to the Compensation Committee, (3) gave an assessment to the Compensation Committee concerning individual elements of compensation payable to the Company’s Chief Executive Officer and (4) provided information to, and gave an assessment to the Compensation Committee and the Chief Executive Officer concerning, individual elements of compensation payable to the other named executive officers.

Peer Groups

In 2007, the Compensation Committee, with the assistance of Towers Perrin, established a revised methodology for selecting peer group companies. The Compensation Committee applied the same methodology in 2008 as it did in 2007 for selecting peer group companies. The peer group selected by the Compensation Committee was generally composed of publicly-traded and privately-held companies that have one or more of the following characteristics:

companies with whom the Company competes for executive talent,

companies that have a similar business or industry classification,

companies that have a strong global brand with an emphasis on marketing and/or technology,

companies that have similar market capitalization, revenues or asset turnover ratios, and

companies that derive a significant portion of revenue from international operations.

After considering companies that have one or more of the foregoing characteristics, the Compensation Committee determined, with the assistance of Towers Perrin, that the companies to compose the MasterCard peer group for 2008 were:

While the Compensation Committee relies on the peer group analysis to provide market data and relevant trend information, it realizes that peer group analysis is not a substitute for its collective business judgment. In that respect, the Compensation Committee considers the peer group compensation information, but, as described below, does not rely exclusively on the information when making compensation decisions. On an annual basis, the Compensation Committee evaluates and, if appropriate, modifies the peer group to ensure that it remains representative of the Company's peers based on the characteristics described above.

Program Elements

The elements of our executive compensation program consist of base salary, annual incentive and long-term incentive compensation, which we refer to as total direct compensation. These elements have been weighted to ensure that a substantial amount of named executive officers' pay is variable and contingent upon meeting or exceeding pre-determined performance goals. The Company's philosophy is to target compensation levels between the median and 75th percentile of the peer group for its executive officers. While the Compensation Committee reviews the compensation paid to executive officers against the peer group data, the Compensation Committee also considers other factors, including the experience and individual performance of each named executive officer. The Compensation Committee considers all situations where a single element of compensation or the aggregate compensation (total direct compensation) falls outside of the target range (50th to 75th percentile). One or more elements may be outside the target range due to the executive's duration in his or her position, recent changes to competitive market data, foreign exchange fluctuations, individual performance, material changes in job responsibility or internal equity considerations.

The Compensation Committee makes decisions on executive compensation from a total direct compensation perspective. The elements of compensation were selected by the Compensation Committee because each element is considered by the Committee to be important in meeting one or more of the objectives of our compensation philosophy. For instance, base salary and annual incentive compensation are designed to attract and retain our named executive officers and to reward them for their performance. Long-term incentive compensation, on the other hand, is designed to motivate, provide incentive and reward the named executive officers for the attainment of long-term business objectives, and to retain executive talent.

In assessing and determining compensation for our named executive officers, the Compensation Committee examines competitive data for each of the various compensation elements and makes decisions after considering each individual element and its effect on total compensation and the corresponding position in the competitive market range. There is no pre-established policy or target for the allocation between cash and non-cash compensation or short-term and long-term compensation. Work sheets showing, for each named executive officer, the individual compensation elements, amounts of each element, and total compensation relative to the peer group data are prepared by the Compensation Committee's consultants and reviewed by the Compensation Committee.

Base Salary. Base salaries for named executive officers are generally established between the median and 75th percentile of the peer group. The Compensation Committee determines base salaries using peer group data to reflect the contribution of the individual in the MasterCard management hierarchy. While salaried employees are eligible, at the discretion of management, for annual merit increases based primarily on performance of their job responsibilities and their position relative to the job market, base salaries are generally held constant for senior level executives once market competitive levels have been achieved, subject to competitive factors and/or changing job responsibilities.

Annual Incentive. MasterCard provides named executive officers with an opportunity to earn cash incentive awards through the Senior Executive Annual Incentive Compensation Plan, or SEAICP. These awards are designed to reward the attainment of specific performance measures during a fiscal year. The Compensation Committee generally establishes target annual incentives between the median and 75th percentile of the peer group. Each named executive officer's target SEAICP opportunity is determined based on peer group practices and internal equity considerations among executive officers within the Company, taking into account seniority, job responsibilities and prior performance.

Table of Contents

Performance goals, as well as pre-defined special items (as discussed below), for the Company's named executive officers for 2008 under the SEAICP were established by the Compensation Committee in February 2008. The metrics selected for the funding formula were net income and operating margin improvement, to be weighted on a two-to-one basis, with the two-thirds weighting placed on net income. The Compensation Committee had previously determined that net income was a key metric in measuring management's success in executing the Company's strategies and initiatives. Operating margin improvement was added as a second metric, replacing return on equity (ROE), which had been one of the two compensation metrics used during 2007. Management and the Compensation Committee determined that operating margin improvement is a more appropriate measurement than ROE for a plan such as the SEAICP, which is shorter-term in nature, because the named executive officers' performance can more directly impact operating margin improvement. To fund SEAICP cash bonuses at target levels, the Compensation Committee determined, when it established performance goals for 2008 in February 2008, that the Company's performance would need to result in year-over-year net income growth of at least 21% for 2008 and operating margin improvement of at least 2.9 percentage points versus 2007, excluding, as applicable, the impact of the following special items for 2007:

the exclusion of \$59 million of after-tax income related to a settlement received under an agreement to discontinue the Company's sponsorship of the 2010 and 2014 World Cup soccer events;

the addition of \$2 million of litigation costs on an after-tax basis;

the exclusion of \$254 million of after-tax gains realized from sales of the Company's investment in Redecard S.A. in Brazil (the Redecard Transaction);

the effect of foreign exchange rates with respect to the Euro; and

the exclusion of unused budgeted funds, based upon the Company's 2007 results (collectively, the 2007 Special Items). To fund maximum bonuses, the Compensation Committee determined in February 2008 that the Company's performance would need to result in year-over-year net income growth of at least 39% for 2008 as well as operating margin improvement of at least 4.0 percentage points versus 2007, excluding, as applicable, the impact of the 2007 Special Items. Extraordinary items that, once known, ultimately impacted the calculation of 2008 net income under the SEAICP, and which were specifically identified by category by the Compensation Committee in February 2008, included:

the exclusion of approximately \$23 million related to a reduction of rebate estimates due to a customer which did not achieve performance hurdles included in a customer business agreement;

the addition of approximately \$2.5 billion of litigation costs on a pre-tax basis (including the settlements of litigation with American Express and Discover);

the effect of foreign exchange rates with respect to the Euro;

the exclusion of unused budgeted funds, based upon the Company's 2008 results;

the exclusion of \$86 million of after-tax gains realized from the Redecard Transaction; and

Edgar Filing: MASTERCARD INC - Form PRE 14A

the exclusion of a \$75 million gain from the termination of a customer business agreement (collectively, the 2008 Special Items). The operating margin calculation for 2008 excluded the first four bullet points of the 2008 Special Items listed above. The maximum allowable performance score for SEAICP funding purposes in accordance with the net income/operating margin improvement matrix approved by the Compensation Committee was 200% of the sum of target bonuses for all individuals in such plan. Pursuant to the terms of awards granted under the SEAICP in February 2008, no individual was permitted to receive an award in excess of 250% of his or her individual target bonus amount.

Based on the Company's actual achievement of maximum net income and operating margin improvement targets in 2008, pursuant to the terms of the plan, the SEAICP could have been funded at 200% of target bonuses.

Table of Contents

In addition to the SEAICP funding formula, the amount of the payout for each of the SEAICP participants was based upon achievement of pre-determined quantitative and qualitative corporate performance goals, known as the corporate scorecard. The corporate scorecard includes metrics related to:

executing on the Company's customer strategy;

delivering shareholder value by achieving net income targets, improving the ratio of income to revenue (operating margin improvement), net revenue growth, and return on equity; and

enhancing organizational capabilities, strengthening leadership and developing people.

The Compensation Committee considers the Company's performance against operating margin improvement and net income targets and the corporate scorecard and then uses its business judgment in determining the amount of the incentive compensation for named executive officers. The Compensation Committee does not attempt to quantify, rank or assign relative weight to the various metrics included on the corporate scorecard. The Chief Executive Officer presented to the Compensation Committee the Company's results as measured against the quantitative and qualitative corporate scorecard. The Compensation Committee then considered the Company's strong performance against financial targets, as well as the information provided by the Chief Executive Officer concerning performance against the corporate scorecard, including the cost of litigation settlements in 2008 and delayed decisions by customers to migrate to the MasterCard debit issuer processing platform, primarily due to reduced levels of technology investments by customers. After considering all of this information, the Compensation Committee exercised a level of negative discretion and reduced the amount of the bonus pool to 148% of target.

The table below sets forth the threshold, target, maximum and actual payout under our SEAICP for 2008 for each of our named executive officers:

	Threshold	Target	Maximum	Actual	% of Target
Robert W. Selander	\$ 750,000	\$ 1,500,000	\$ 3,750,000	\$ 2,220,000	148%
Martina Hund-Mejean	\$ 250,000	\$ 500,000	\$ 1,250,000	\$ 780,000	156%
Noah J. Hanft	\$ 237,500	\$ 475,000	\$ 1,187,500	\$ 690,000	145%
Chris A. McWilton	\$ 275,000	\$ 550,000	\$ 1,375,000	\$ 800,000	145%
Gary J. Flood	\$ 250,000	\$ 500,000	\$ 1,250,000	\$ 750,000	150%
Alan J. Heuer	\$ 375,000	\$ 750,000	\$ 1,875,000	\$ 1,110,000	148%

The Compensation Committee chose to allocate the funded amount of the bonus pool (148%) under the SEAICP among the named executive officers after discussing their contribution to the overall business results, their attainment of personal objectives and their proficiency in displaying the Company's leadership principles and core competencies. This approach led the Compensation Committee to award SEAICP payouts to each named executive officer within a relatively comparable range of percentages of target, as set forth in the far right column in the table above.

Long-Term Incentive. The Compensation Committee uses equity grants as the primary means of providing long-term incentives to our named executive officers. Equity grants are generally established between the median and the 75th percentile of the peer group at the original grant price. Performance stock units, or PSUs, and non-qualified stock options were granted to employees and executives of the Company in March 2008 during the annual grant cycle.

Since 2007, named executive officer participation in the long-term incentive plan has been conditioned upon participants signing a non-solicitation and non-competition agreement with the Company that is effective for the greater of twelve months after termination from the Company or the remaining vesting period of any award held by such participant who has retired.

The Compensation Committee determined that for 2008 all named executive officers should receive a long-term incentive award that was composed of 50% in value in stock options and 50% in value in PSUs. In making

Table of Contents

its determination on what type of awards to grant, the Compensation Committee considered (1) peer group information, (2) emerging trends in long-term grants, (3) the deductibility of awards under Section 162(m) of the Internal Revenue Code for performance-based compensation, (4) the effects of a Financial Accounting Standards Board Statement of Financial Accounting Standards No. 123 (Revised 2004), Share-Based Payment (FAS 123R), on the Company's accounting for stock-based payments, and (5) the effect of having the Chief Executive Officer and other named executive officers receive a significant portion of their total direct compensation in equity awards to motivate and provide an incentive for these officers and to align their interests with those of our stockholders.

The Compensation Committee determined to utilize PSUs as part of 2008 long-term compensation for named executive officers because the Compensation Committee desired to: (1) tie some of long-term incentive compensation to the achievement of the Company's long-term objectives, (2) have the value of the award upon vesting determined by performance against specified objectives rather than solely dictated by the Company's future stock price, and (3) provide an award to the named executive officers that could be deductible under Section 162(m) of the Internal Revenue Code for performance-based compensation. Ultimately, the Compensation Committee determined to use an equal split of stock options and PSUs because it believed that equity compensation should be equally dependent upon stock price appreciation and upon the successful achievement of specified financial results.

With respect to the award of PSUs made in 2008, the metrics of net income (cumulative over the three-year period from 2008-2010) and operating margin improvement (cumulative over the three-year period from 2008-2010) against pre-determined targets were used to measure the Company's performance and will be used to determine the final number of shares that will be delivered to the named executive officer. When determining the goals for PSUs for the 2008-2010 performance period, the Compensation Committee reviewed the Company's annual budget as well as a three-year outlook to determine what it believed to be challenging yet attainable threshold, target and maximum performance levels. In its financial statements for the year ended December 31, 2008, the Company began accruing the PSU awards made in 2008 at an amount between target and maximum performance level based on the Company's assessment of its obligations after quantitative and qualitative considerations of actual and forecasted results compared to the performance targets for net income and operating margin improvement for these awards as of December 31, 2008. Columns (i) and (j) in the Outstanding Equity Awards at 2008 Fiscal Year-End table that follows this section reflect the estimated number of PSUs granted on March 1, 2008, consistent with the Company's accrual of these awards in its financial statements for the year ended December 31, 2008. The actual number of PSUs and actual payout value of unearned shares has not been determined and will be determined based on the Company's performance over the three-year performance period ending December 31, 2010.

CEO Compensation and Performance

Mr. Selander's compensation that was awarded or earned during 2008 included base salary, an annual incentive award and a long-term incentive award. The Compensation Committee determined the level for each of these elements using methods consistent with those used for each of the other named executive officers.

During the year ended December 31, 2008, MasterCard achieved success in several areas, including:

net revenue growth of 22.7% versus 2007, to \$5.0 billion in 2008;

improved operating margin over 2007 (excluding litigation settlements and other one-time charges);

achievement of full-year gross dollar volume (GDV) on MasterCard branded programs of \$2.5 trillion; and

maintenance of a strong capital position, with \$2.1 billion of cash, cash equivalents and available-for-sale securities as of December 31, 2008.

Table of Contents

In light of the significant achievement of corporate goals that allowed the SEAICP to be potentially funded at maximum levels for 2008 performance, and Mr. Selander's role in those achievements, in March 2009, Mr. Selander received an SEAICP award of \$2,220,000, corresponding to the corporate score of 148% for 2008.

For 2008, Mr. Selander's base salary, actual bonus and target long-term incentive placed him between the 50th and 75th percentile of the peer group. The Compensation Committee believes that he is appropriately positioned given his successful performance in the role during his 11-year tenure as President and Chief Executive Officer.

Mr. Selander's 2009 base salary, target bonus and target long-term award also place him between the 50th and 75th percentile of the peer group.

Differences in compensation and awards granted to our named executive officers during 2008 did not result from the application of different policies to individual named executive officers. However, the variance between compensation paid to Mr. Selander, our Chief Executive Officer, and the other named executive officers arose due to the different roles and levels of responsibility between the Chief Executive Officer and the other named executive officers, and the higher level of compensation that is paid to chief executive officers generally among the peer group companies.

Role of Executive Officers in Compensation Decisions

Compensation decisions for the named executive officers for the current year are generally discussed in the fourth quarter of the prior year. The decisions are then approved in the first quarter of the current year, when earnings for the prior year have been finalized and the related fiscal year-end financial statements have been audited.

In connection with annual compensation decisions for named executive officers, Mr. Selander, our Chief Executive Officer, discusses with the Compensation Committee the Company's performance for the year. He then provides a summary of business unit and individual performance, their impact on the corporate scorecard and an assessment of each executive officer's potential and core competencies. Using information compiled and supplied by Towers Perrin, including peer group compensation information, Mr. Selander presents compensation recommendations for the named executive officers other than himself to the Compensation Committee for its review and discussion. Towers Perrin provides background information on how the peer group data has been generated and assesses the competitive positioning of each executive. When the discussion relates to Mr. Selander's performance and compensation, Mr. Selander meets with the Board of Directors to discuss his own performance and outline his challenges and successes for the year. Mr. Selander is then excused from the meeting, and the Chairman of the Compensation Committee then leads a discussion among the full Board of Directors (other than Mr. Selander) on Mr. Selander's performance and compensation. The Chairman of the Compensation Committee considers input from the Board prior to making a recommendation to the Compensation Committee concerning Mr. Selander's base salary, annual incentive target and long-term incentive target for the ensuing year and the amount of bonus earned for the most recently-completed year. The Compensation Committee also receives information from Towers Perrin, which includes CEO compensation information from the peer group companies, and discusses compensation matters with the Compensation Committee. The Compensation Committee then meets in private to evaluate recommendations and ultimately makes preliminary compensation determinations for the named executive officers (including Mr. Selander) conditioned upon a satisfactory outcome of the year-end financial statement audit. Other than Mr. Selander, no named executive officer discusses or makes a recommendation to the Compensation Committee concerning compensation of the named executive officers.

Other Compensation

The other elements of compensation include perquisites, deferred compensation and other benefits.

Perquisites. For 2008, perquisite allowances were approved for each of the named executive officers and were designed to give each named executive officer a discretionary amount to spend. The Compensation

Table of Contents

Committee has determined that perquisite allowances are the most effective delivery mechanism because they provide flexibility to the executive and are excluded from ordinary compensation for the purposes of determining benefits or bonuses. In 2007, the Compensation Committee determined that, effective as of 2008, home security would no longer be paid for separately by the Company, but instead would be included within the perquisite allowance for the named executive officers. Mr. Selander is permitted to use on a limited basis Company-leased aircraft for personal flights and a car service for personal travel. This benefit increases the level of safety and security for Mr. Selander, entails no incremental cost for any accompanying family members and enables him to make more efficient use of his travel time. The Compensation Committee will continue to evaluate the need for perquisites and appropriate levels in the future. For more information on perquisites provided to our named executive officers, refer to the "All Other Compensation in 2008" table in this Proxy Statement.

Deferred Compensation. In 2008, all employees, including the named executive officers, who exceeded an annual base salary threshold of \$170,000 during 2007, were eligible to defer a portion of future compensation into a non-qualified deferred compensation arrangement, referred to as the MasterCard Incorporated Deferral Plan. None of the named executive officers elected to defer compensation in 2008.

Additionally, awards of RSUs from prior year grants that are not forfeitable by, and have not been released to, named executive officers are considered deferred compensation. Information regarding these payments can be found in the "Nonqualified Deferred Compensation in 2008" table.

Other Benefits. The Company maintains several other benefit plans and programs in which named executive officers may be eligible to participate. These plans and programs include: (1) the MasterCard Accumulation Plan (the "MAP"), (2) the MasterCard Savings Plan (the "Savings Plan"), (3) the Restoration Program, (4) the Supplemental Executive Retirement Plan (the "SERP") and (5) our health and welfare programs. The Compensation Committee is responsible for reviewing specific benefit arrangements for named executive officers and other key employees to determine competitiveness in the market, as well as to ensure that these programs are consistent with management's objectives to attract, retain and motivate high-performing employees.

The MAP is a tax-qualified defined benefit pension plan that provides benefits using a cash balance formula. Prior to July 1, 2007, all U.S. employees of the Company, including named executive officers, generally were eligible to participate in this plan. During 2007, MasterCard implemented several changes to the U.S. retirement programs to more appropriately align the benefit level with the competitive marketplace. As part of these changes, MasterCard eliminated the MAP for all new hires after June 30, 2007 and froze the pay credit level for all existing employees at that date. Under the MAP's cash balance formula, a notional account is established for each participant, to which a percentage of the participant's eligible compensation is credited, 4.5% for the first four years of service increasing to 12% for the 20th through the 30th year and zero thereafter. Certain participants who were both participants in the MAP, and at least 50 years of age on December 31, 2000, are entitled to minimum pay credits of 9%, commencing at age 50, and up to a maximum of 14% at age 60 and older. Eligible compensation means a participant's base salary and annual cash bonus, up to the limit on compensation under Section 401(a)(17) of the Internal Revenue Code, which was \$230,000 in 2008. In addition to the pay credits, a participant's account under the MAP receives investment credits based on the yield on 30-Year Treasury securities.

In addition to the pay credit described above, the MAP in effect as of December 31, 2008 provides that participants whose base salary and annual cash bonus exceed the limit under Section 401(a)(17) of the Internal Revenue Code, but do not exceed \$400,000, receive a pay credit with respect to the amount above the Section 401(a)(17) limit, which is determined in the manner described above, based on the participant's service or age, as applicable. However, this pay credit will not exceed 28% of the participant's eligible compensation.

The Savings Plan is a retirement plan for U.S. employees, including named executive officers. For 2008, the components of the plan include employee contributions on a before-tax and after-tax basis and an employer matching contribution. Employees hired after June 30, 2007 are eligible for an enhanced 401(k) match (employer

matching contribution equal to 125% of employee before-tax and after-tax contributions, up to 6% of eligible compensation). Employees participating in the MAP (those who were hired prior to July 1, 2007) continue to receive an employer matching contribution equal to 100% of employee contributions, up to 6% of eligible compensation. Eligible compensation in the Savings Plan is limited to base salary, up to the limit on compensation under Section 401(a)(17) of the Internal Revenue Code, which was \$230,000 in 2008. For 2008, the Company did not, and for future years, the Company does not intend to, contribute profit sharing contributions to Savings Plan. Rather, the Company intends to pay any profit-sharing contributions for a calendar year to employees as cash compensation in the first quarter of the following year.

The Restoration Program is an arrangement for certain highly-compensated employees, including named executive officers, that provides for annual taxable payments intended to restore benefits that could not be earned under the MAP and Savings Plan due to limits imposed by the Internal Revenue Code. Section 415 of the Internal Revenue Code generally limits the annual benefits that can be earned or paid under the MAP (\$185,000 in 2008) and annual contributions that may be credited to a participant's account under the Savings Plan (\$46,000 in 2008). Section 401(a)(17) of the Internal Revenue Code limits the annual compensation that can be used to calculate annual pay credits under the MAP and annual contributions to the Savings Plan (\$230,000 in 2008). Under the Restoration Program, actively employed eligible employees receive an annual payment that is intended to approximately restore, for a calendar year, the difference between (1) the pay credits under the MAP and contributions in the Savings Plan an employee could have earned in the absence of the limits imposed by the Internal Revenue Code and (2) the pay credits and contributions actually earned under the MAP and the Savings Plan.

The Company also maintains a supplemental defined benefit pension plan, the SERP, for certain key executives who participate in the MAP. Participation in the SERP is restricted solely to five executives, including four of the named executive officers. The SERP in effect during 2008 provided that participants who have a vested benefit may receive a benefit following termination of employment equal to a designated percentage of the participant's final 48-month average base pay (determined as of the termination date), that is the lump sum actuarial equivalent of a life annuity for the life of a participant, reduced by (1) a benefit under a hypothetical prior employer benefit plan, (2) the benefits earned under the MAP as of the termination date, (3) the portion of the benefit under the Restoration Program as of the termination date related to the MAP benefit and (4) estimated Social Security. The designated percentages of the final 48-month average base pay are 100% for the Chief Executive Officer, Mr. Selander, and 80% for all other participants. To the extent that the offsets are greater than the aggregate SERP benefit, a participant would not receive a payout under the SERP. Participants in the SERP generally vest in their benefits upon the attainment of age 60 and four years of SERP participation.

The SERP was implemented prior to MasterCard's initial public offering in May 2006 and prior to MasterCard's decision to grant equity to its executives. Following a review of the SERP conducted by the Compensation Committee during 2007, the Compensation Committee approved a recommendation in February 2008 to discontinue the SERP. The participants at such time remain active in the plan and retain their right to receive their vested balances in accordance with the terms of the SERP. For more information on the MAP and the SERP, see the section entitled Pension Benefits in 2008 that follows this Compensation Discussion and Analysis.

Stock Option Grant Practices

The Compensation Committee has adopted a policy with respect to equity awards that contains procedures to prevent stock option backdating or other timing issues. Under the policy, the Compensation Committee has exclusive authority to grant equity awards to our named executive officers and other employees. The policy provides that annual equity grants to employees will be approved by the Compensation Committee at a meeting prior to March 1 each year, with the dollar amounts for such awards to be set at such meeting and grants to be made effective as of, and with an exercise price to be set based on the fair market value of the stock on, March 1 each year. If March 1 falls on a weekend, the exercise price for any stock options granted will be the closing

Table of Contents

price of our Class A Common Stock on the NYSE on the last business day prior to March 1. Grants of equity awards to new employees or to reflect promotions or other special events may be made during other times in the year. Under the Company's insider trading policy, named executive officers, other employees with access to material non-public information about the Company and directors are prohibited from engaging in transactions in the Company's securities during black out periods, and the Compensation Committee's policy with respect to option grants that occur on dates other than March 1 is consistent with the Company's insider trading policy.

Stock Ownership Guidelines; Hedging Prohibition

The Compensation Committee believes that stock ownership guidelines are important for the purpose of aligning the interests of named executive officers and key employees with the interests of stockholders. In December 2006, the Compensation Committee adopted executive stock ownership guidelines. These ownership guidelines cover approximately 75 key managers and executives, including the named executive officers. The guidelines call for ownership of one to six times the individual's base salary in stock. Under the guidelines, Mr. Selander is expected to hold at least six times his base salary in stock, and other named executive officers are expected to hold at least four times their base salary in stock. For purposes of these guidelines, shares of the Company's common stock held directly or indirectly by the named executive officer are included; however, restricted stock, RSUs, PSUs and unexercised stock options held by the named executive officer are excluded. Each active employee at the time the guidelines were established was given three years to attain these ownership levels. The guidelines are waived once an executive reaches the age of 62. In general, the Compensation Committee does not consider any previous awards when determining the compensation of the named executive officers. However, if an executive officer does not meet the stock ownership guidelines described above, the Compensation Committee may direct a larger percentage of the executive officer's future compensation into equity-based compensation.

Under the Company's Code of Conduct, employees are not permitted to hedge their economic exposure to the Company's stock that they own, meaning that employees may not engage in trading in or writing options, buying puts, calls, other derivative securities, short selling or similar types of transactions in the Company's securities.

Tax Implications Deductibility of Executive Compensation

As part of its role, the Compensation Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code, which requires that public companies meet specific criteria in order to deduct, for federal income tax purposes, compensation over \$1,000,000 paid to the Chief Executive Officer and the three highest compensated executive officers other than the Chief Executive Officer and the Chief Financial Officer. Compensation paid under the SEAICP and as part of our long-term incentive compensation is generally intended to be fully deductible for federal income tax purposes. The Compensation Committee continues to use RSUs, which are not deductible under Section 162(m), on a limited basis. The Compensation Committee believes that its primary responsibility is to provide a compensation program that attracts, retains and rewards the executive talent needed for the Company's success. Consequently, as it did in 2008, in any year the Compensation Committee may authorize compensation in excess of \$1,000,000 that is not performance-based under Section 162(m). The Compensation Committee recognizes that the loss of a tax deduction may be unavoidable in these circumstances.

2009 Compensation Grants

In light of challenging and uncertain economic conditions around the world, the Compensation Committee agreed with management's recommendation that no increases in base salary would be granted to named executive officers in 2009. On February 2, 2009, the Compensation Committee approved performance targets for the year ending December 31, 2009 that will be used to determine funding for cash bonus awards that may be paid to named executive officers under the SEAICP. The funding for cash bonus awards for 2009 under the

Table of Contents

SEAICP will be based on the Company's actual achievement against predetermined net income and operating margin targets and the actual bonus award payout amounts will be weighted on a two-to-one basis, with the two-thirds weighting placed on net income. The amount of the payout for each of the SEAICP participants will then be based upon achievement of pre-determined quantitative and qualitative corporate performance goals included on the corporate scorecard. The metrics of the corporate scorecard are discussed above under Program Elements Annual Incentive. The Compensation Committee believes that challenging yet attainable targets have been established, taking into consideration past performance, current market and economic conditions and operating budgets. The Compensation Committee may reduce award amounts at its discretion. The Compensation Committee set the 2009 annual incentive awards (as a percentage of base salary) under the SEAICP for each of our named executive officers (other than Mr. Heuer, who retired from MasterCard on December 31, 2008) as follows:

Name	Performance Level Achieved		
	Threshold	Target	Maximum
Robert W. Selander	75%	150%	375%
Martina Hund-Mejean	50%	100%	250%
Noah J. Hanft	50%	100%	250%
Chris A. McWilton	50%	100%	250%
Gary J. Flood	50%	100%	250%

Additionally, on March 1, 2009, the Compensation Committee granted the following aggregate dollar amounts of stock options and PSUs under our long-term incentive plan to each of our named executive officers (other than Mr. Heuer, who retired from MasterCard on December 31, 2008):

Name	Stock	Performance Stock	Total
	Options	Units	
Robert W. Selander	\$ 2,750,000	\$ 2,750,000	\$ 5,500,000
Martina Hund-Mejean	\$ 500,000	\$ 500,000	\$ 1,000,000
Noah J. Hanft	\$ 475,000	\$ 475,000	\$ 950,000
Chris A. McWilton	\$ 550,000	\$ 550,000	\$ 1,100,000
Gary J. Flood	\$ 500,000	\$ 500,000	\$ 1,000,000

The stock option awards have an exercise price of \$158.03 per share, the closing price of the Company's Class A Common Stock on the NYSE on February 27, 2009, the last business day prior to the March 1, 2009 grant date, and vest in four equal annual installments beginning on March 1, 2010. The stock option awards have a term of ten years. Performance stock units were converted from the dollar amount shown above to performance stock units based on a share price of \$158.03. Named executive officers will not receive dividend equivalents with respect to the PSU awards prior to vesting. Whether the performance stock units will vest will be determined by the Company's performance against a predetermined return on equity goal. When determining the goals for the PSUs for the 2009-2011 performance period, the Compensation Committee reviewed the Company's annual budget as well as a three-year outlook to determine what it believes to be challenging yet attainable threshold, target and maximum performance. Vesting of the shares underlying the PSUs will occur on or about February 29, 2012. The ultimate number of shares to be released on the vesting date will be based on meeting or exceeding average annual return on equity goals and achievement of quantitative and qualitative goals determined by the Compensation Committee over the performance period, which may include performance against the corporate scorecard.

Severance Agreements

The Company has entered into employment agreements with Mr. Selander, Ms. Hund-Mejean, Mr. McWilton and Mr. Hanft which provide severance under certain circumstances. Mr. Heuer retired from MasterCard in December 2008 and Mr. Flood does not currently have an employment agreement with the Company. In December 2008, the existing agreements of Messrs. Selander, Hanft and McWilton were revised to,

Table of Contents

among other things, comply with Section 409A of the Internal Revenue Code and to incorporate and replace other agreements such as change in control agreements that had been entered into with these executive officers. In addition, Mr. Selander's agreement was revised to incorporate and clarify a retention agreement. In December 2008, the Company also entered into an employment agreement with Ms. Hund-Mejean to replace a 2007 offer letter previously provided to her.

When making compensation decisions for the named executive officers, the Compensation Committee generally does not consider the potential payments that may be made in the future to the named executive officers in the event of termination of employment or a change in control. The employment agreements with each of the named executive officers (other than in certain respects, Mr. Selander) are substantially similar to one another. The employment agreements provide a general framework for compensation, and generally set minimum levels of compensation, job responsibilities and severance arrangements governing the obligations of the parties following a termination of employment or a change in control of the Company. The potential severance payments to named executive officers were approved as part of the employment agreement with the named executive officer after consideration by the Company of the need to attract key employees, preserve employee morale and encourage retention in the face of a potential disruptive impact of a termination of employment or a change in control of the Company. In addition, the Company believes that the severance payments provide an appropriate incentive for the executive to comply with the non-competition, non-solicitation and confidentiality restrictions following a termination of employment. Moreover, the benefits provided to the named executive officers in the event of a change in control of the Company are designed to allow the executives to assess takeover bids objectively without regard to the potential impact on their own job security.

For a further discussion of these severance arrangements, including a discussion of the Company's severance arrangement with Mr. Selander, refer to the section of this Proxy Statement entitled "Potential Payments Upon Termination or Change-in-Control."

Table of Contents**SUMMARY COMPENSATION TABLE**

The following table summarizes the total compensation paid or earned for 2008, 2007 and 2006 by each of our principal executive officer, our principal financial officer, the three other most highly compensated executive officers for the year ended December 31, 2008 and one individual who would have been one of the three other most highly compensated executive officers for the year ended December 31, 2008 if he had been an executive officer as of December 31, 2008 (collectively, the named executive officers). As discussed in footnotes (3) and (4) to the Summary Compensation Table, amounts in the Stock Awards and Option Awards columns may not be comparable among the named executive officers because some of our named executive officers are retirement-eligible, while others are not. Whether a named executive officer is retirement-eligible or not affects the amount of compensation we report in these columns.

(1) Amount represents a one-time signing bonus in the amount of \$1,225,000 paid to Ms. Hund-Mejean in January 2008.

(2) Amount represents 2008 profit sharing payment outside of the Savings Plan. The 2007 profit sharing payment was also outside of the Savings Plan. The 2006 profit sharing payment is included in the All Other Compensation column (i) because it was made under the Savings Plan.

(3) Represents the amount of compensation cost recognized by the Company in 2008 in accordance with FAS 123R for stock based awards made to each named executive officer. For Mr. Selander, who is retirement-eligible, and for Mr. Heuer, who was retirement-eligible and subsequently retired, the amount represents the grant date fair value of the 2008 PSU awards. For Messrs. McWilton and Flood and Ms. Hund-Mejean, who are not retirement-eligible, the amount represents the pro-rata portion of the costs recognized in 2008 for the PSU awards made during 2008 and PSU and RSU awards made prior to 2008 that were not vested as of December 31, 2007. For Mr. Hanft, the PSU and RSU awards have accelerated expense recognition due to the fact that he reached retirement age prior to the original vesting schedule. Assumptions used in the calculation of this amount are included in footnote 16 to the Company's audited financial statements for the year ended December 31, 2008 included in the Form 10-K.

MAP. The Company maintains the MAP to provide retirement income to all U.S. employees, including the named executive officers, who were participants in such plans prior to June 30, 2007. A participant's vested notional account balance under the MAP generally may be paid at any time (subject to restrictions imposed by the Internal Revenue Code) following termination of employment with the Company for any reason, regardless of the age of the participant. At the participant's election, the account balance can be paid as a lump sum or in an annuity form that is approximately the actuarial equivalent of the notional account balance.

SERP. The SERP in effect during 2008 provided that:

In the event of a participant's disability, retirement or termination of employment for any reason other than death, in each case, after attaining age 60 and four years of SERP participation, the SERP pays out a lump sum present value of the net SERP benefit actuarially increased from the date of attainment of age 60 and four years of SERP participation to termination of employment.

In the event a participant dies while employed and after attaining age 60 and at least four years of SERP participation, the SERP pays out a lump sum equal to the present value of an immediate net SERP benefit actuarially increased from the date of attainment of age 60 and four years of SERP participation to termination of employment.

The SERP benefit is generally payable six months after a termination of employment. The SERP was amended, effective January 1, 2008, to conform with Section 409A of the Internal Revenue Code and to make certain other changes. Following a review of the SERP by the Compensation Committee during 2007, the Compensation Committee approved a recommendation in February 2008 to discontinue the SERP. The current participants at that time remain active in the plan and retain their right to receive their vested balance in accordance with the terms of the SERP.

The following table shows the present value of accumulated benefits payable to each of our named executive officers, including the number of years of service credited to such named executive officer, under the MAP and the SERP determined using interest rate and mortality rate assumptions consistent with those used in our financial statements. For the SERP, the pension benefit discount used was 6%. Information regarding the MAP and the SERP can be found in the Compensation Discussion and Analysis under the heading "Other Benefits" and in the summary of MAP and SERP benefits in the section entitled "Potential Payments Upon Termination or Change-in-Control."

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE-IN-CONTROL

Employment Agreements

The Company is party to an employment agreement with each of the named executive officers, other than Mr. Flood. We have excluded Mr. Heuer from this discussion as he retired from the Company effective December 31, 2008. The payments which Mr. Heuer is eligible to receive are described immediately following the tables below. In December 2008, the existing agreements of Messrs. Selander, Hanft and McWilton were revised to, among other things, comply with Section 409A of the Internal Revenue Code and incorporate and replace other agreements such as change in control agreements that had been entered into with these executive officers. In December 2008, the Company also entered into an employment agreement with Ms. Hund-Mejean to replace a 2007 offer letter previously provided to her. The new employment agreements, which were publicly filed by the Company as exhibits to a Current Report on Form 8-K with the SEC on January 2, 2009, also reflect changes negotiated with the executives.

Mr. Selander

On December 31, 2008, the Company entered into an employment agreement with Mr. Selander, pursuant to which he serves as the Company's Chief Executive Officer.

Term.

Under Mr. Selander's agreement, he is to be employed for a fixed term of two years ending on December 31, 2010.

Compensation.

During the term of employment, Mr. Selander will:

receive a base salary, which is subject to increase based on an annual performance review by the Compensation Committee;

be eligible to participate in the SEAICP and LTIP and to earn an annual bonus based on pre-established performance goals or other criteria established by the Compensation Committee; and

be eligible to participate in the Company's benefit and perquisite programs generally made available to members of the Executive Committee in accordance with the terms and conditions of such programs.

Termination of Employment.

Pursuant to the agreement, Mr. Selander's employment terminates upon: death; disability (provided that he is approved to receive benefits under the Mastercard Long-Term Disability Plan); termination by the Company for Cause (as defined in the agreement and described below); voluntary resignation; termination by the Company without Cause; termination by Mr. Selander for Good Reason (as defined in the agreement and described below); or at the end of the term of employment (December 31, 2010).

Death. In the event of Mr. Selander's death, his estate and/or beneficiaries are entitled to the following payments: (1) base salary earned but not paid through the date of his death; (2) payment for all accrued but unused vacation time; (3) the target annual incentive bonus payable for the year in which death occurs; (4) to the extent not already paid, the annual incentive bonus for the year immediately preceding the year in which his termination occurred, payable in the amount and at the time it would have been paid had he remained employed; (5) a pro rata portion of the Retention Payment (as defined below); and (6) such additional benefits, if any, he may be entitled to under the Company's plans and programs on account of such termination.

Table of Contents

Disability. In the event of Mr. Selander's termination of employment on account of disability, he will receive the same payments as noted above in the event of his death except that his target annual incentive bonus will be pro-rated for the year of his termination.

For Cause. If the Company terminates Mr. Selander's employment for Cause, he will be entitled to (1) a payment with respect to base salary earned but not paid through the date of his termination, (2) payment for all accrued but unused vacation time and (3) additional benefits, if any, that the executive would be entitled to under the Company's plans and programs on account of termination for Cause. His agreement defines Cause generally to mean: (a) willful failure to perform his duties or responsibilities (other than due to disability); (b) having been convicted of, or entered a plea of guilty or nolo contendere to, a crime that constitutes a felony or a crime that constitutes a misdemeanor involving moral turpitude; (c) his material breach of any written covenant or agreement with the Company not to disclose any information pertaining to the Company; or (d) his breach of the Company's code of conduct, the supplemental code of conduct, any material provision of his employment agreement or any material provision of specified Company policies.

Voluntary Resignation. If Mr. Selander voluntarily resigns, he will receive the same payments of unpaid base salary and accrued but unused vacation time noted above (under For Cause) and such additional benefits, if any, that he would be entitled to under the Company's plans and programs on account of his voluntary termination.

Without Cause or With Good Reason. In the event of Mr. Selander's termination by the Company without Cause or by him with Good Reason, he will be entitled to:

base salary earned but not paid prior to the date of termination;

accrued but unused vacation time;

a pro-rata portion of the annual incentive bonus payable for the year in which his termination occurs based upon the actual performance of the Company for the applicable performance period and payable in accordance with the regular bonus pay practices of the Company and, to the extent not already paid, the annual incentive bonus for the year immediately preceding the year in which his date of termination occurs, payable in the amount and at the time it would have been paid had he remained employed;

base salary continuation until December 31, 2010;

payments until December 31, 2010 in amount equivalent to his average annual bonus over the prior three years of employment;

payment of the monthly cost of the premium for COBRA medical coverage for the applicable COBRA period (or until December 31, 2010, if shorter), or if he is eligible for the MasterCard Retiree Health Plan, the full cost of the retiree health coverage until December 31, 2010, and thereafter the retiree contribution levels shall apply;

outplacement services for the shorter of 24 months or the period of unemployment;

full and immediate vesting under the SERP;

be treated as if such termination were a retirement, for awards outstanding under the LTIP;

a pro rata portion of the Retention Payment; and

such additional benefits, if any, that he would be entitled to under the Company's plans and programs on account of termination without Cause or with Good Reason.

Good Reason for this purpose generally means: (a) his removal from the position of CEO (except in connection with the planned transition to his successor); (b) a material reduction in his annual base salary other than a 10 percent or less reduction, in the aggregate, over the term of employment; (c) the relocation of his principal place of employment more than 50 miles; or (d) the failure by the Company to obtain an agreement from any successor to the Company to assume and agree to perform his employment agreement.

Table of Contents

End of Term. In the event Mr. Selander's employment ends at the end of the term (i.e., December 31, 2010), he will be entitled to: (1) a lump sum within 30 days following the date of termination of all base salary earned but not paid prior to the date of termination; (2) a lump sum within 30 days following the date of termination equal to all accrued but unused vacation time; (3) a Retention Payment, to the extent not already paid; (4) an annual incentive bonus payable for 2010 based upon the actual performance of the Company, payable in accordance with the regular bonus pay practices of the Company; (5) be treated as if such termination were a retirement for awards outstanding under the LTIP; (6) be treated as though he remained an executive officer of the Company through December 31, 2010, for purposes of the accrual of benefits and entitlements to contributions under the Company's compensation and benefit plans, including the SEAICP and the SERP; and (7) such additional benefits to which he is expressly entitled following the termination of his employment upon the end of the term under the Company's agreements, plans and programs.

Vesting of SERP upon Change in Control.

Mr. Selander's employment agreement provides that upon a change in control (as defined in the LTIP) prior to his termination of employment, he becomes fully vested in his SERP benefit, which is to be paid in accordance with the SERP. The LTIP generally defines a change in control, subject to the requirements of Section 409A of the Internal Revenue Code, as:

- (1) the acquisition by any individual entity or group of beneficial ownership of equity securities of the Company representing more than 30 percent of the voting power of the then outstanding equity securities of the Company entitled to vote generally in the election of directors (the Outstanding Company Voting Securities), excluding an acquisition pursuant to a transaction which complies with clauses (A), (B), and (C) of clause (3) below; or
- (2) a change in the composition of the Board (the Incumbent Board) that causes less than a majority of the directors of the Company then in office to be members of the Incumbent Board; or
- (3) consummation of a reorganization, merger, or consolidation or sale or other disposition of all or substantially all of the assets of the Company or the purchase of assets or stock of another entity (Business Combination), in each case, unless immediately following such Business Combination, (A) all or substantially all of the individuals and entities who were the beneficial owners of the Outstanding Company Voting Securities immediately prior to such Business Combination will beneficially own more than 50 percent of the then outstanding combined voting power of the then outstanding voting securities entitled to vote generally in the election of directors of the entity resulting from such Business Combination in substantially the same proportions as their ownership, immediately prior to such Business Combination of the Outstanding Company Voting Securities, (B) no person will beneficially own more than a majority of the combined voting power of the then outstanding voting securities of such entity except to the extent that such ownership of the Company existed prior to the Business Combination, and (C) at least a majority of the members of the board of directors of the entity resulting from such Business Combination will have been members of the Incumbent Board at the time of the initial agreement, or action of the Board, providing for such Business Combination; or
- (4) approval by the stockholders of the Company of a complete liquidation or dissolution of the Company.

Retention Payment.

Under the employment agreement, Mr. Selander is to receive a payment of \$10,000,000 (the Retention Payment) within 30 days of the date on which the appointment of a successor CEO by the Board of Directors becomes effective, or December 31, 2010 if sooner (the Retention Date), provided that (1) the Company has achieved, on average, no less than target level performance, as determined by the Compensation Committee and measured under the SEAICP, from 2004 through the Retention Date and (2) his employment has not been terminated prior to the Retention Date for Cause or on account of his voluntary resignation. Also, as indicated above, Mr. Selander may be entitled to a pro rata portion of the Retention Payment if his employment is terminated prior to the Retention Date (prorated based on completed quarters worked within the period from July 1, 2004 until December 31, 2010).

Table of Contents

Tax Gross-Up Payments.

The employment agreement for Mr. Selander provides for the payment of a gross up amount in the event any payments or benefits he may receive under his employment agreement or other arrangement with the Company are subject to an excise tax under Section 4999 of the Internal Revenue Code (the "Excise Tax"). The Excise Tax is generally only payable on amounts which constitute parachute payments under Section 280G of the Internal Revenue Code (generally defined as amounts payable in connection with a change in control of the Company). Under the gross-up provision, he would be entitled to receive an amount such that the net amount retained by him, taking into account the gross-up payment, and after deduction of federal, state and local income and employment taxes and excise taxes, will equal the Excise Tax on the payments he receives (including amounts attributable to the receipt of the gross-up payment). The gross up provision, however, will not be applicable if the net value of the payments (taking into account the Excise Tax and federal, state and local income and employment taxes but not any gross-up amount) would be less than what he would have netted had the present value of his total payments in the event of a change in control been reduced by \$1 below the maximum amount permitted to be received without triggering the Excise Tax under Section 280G of the Internal Revenue Code, and in such event, his total payments would be reduced to such amount.

Release of Claims.

Mr. Selander's right to receive the Retention Payment and certain payments on account of termination without Cause or with Good Reason are subject to him entering into a separation agreement and release of claims against the Company.

Modification of Duties.

To implement a planned transition to a successor CEO, the Company has the right to modify Mr. Selander's position, provided that the change would not be accompanied by a reduction in his compensation, benefits or perquisites, or, prior to December 15, 2010, by a change in his status as a member of the Executive Committee and senior level executive of the Company.

Restrictive Covenants.

The employment agreement contains several covenants of Mr. Selander, which continue for a period of time following his termination of employment. These include covenants regarding non-solicitation of the Company's employees, customers or suppliers and non-competition (for a minimum of 12 months and up to 36 months) and regarding confidentiality (for five years).

Messrs. McWilton and Hanft and Ms. Hund-Mejean

On December 30, 2008, the Company entered into employment agreements with Messrs. McWilton and Hanft and Ms. Hund-Mejean. Pursuant to these agreements: Mr. McWilton serves as President, U.S. Markets; Mr. Hanft serves as General Counsel, Chief Payment System Integrity & Compliance Officer and Corporate Secretary; and Ms. Hund-Mejean serves as Chief Financial Officer.

Term.

Under their respective agreements, each executive is to be employed for a fixed term of two years ending on December 30, 2010 with automatic one-year renewals unless the executive or the Company gives a notice of non-renewal at least 90 days prior to the end of the term.

Compensation.

During the term of employment, the executives each will:

receive a base salary, which is subject to increase based on an annual performance review by the Compensation Committee;

Table of Contents

be eligible to participate in the annual and/or long term bonus or incentive plans as are generally available to other employees of the Company at the executive s level, based on performance goals or other criteria as may be established by the Company; and

be eligible to participate in the Company s benefit and perquisite programs generally made available to members of the Executive Committee (excluding the CEO) in accordance with the terms and conditions of such programs.

Termination of Employment.

Pursuant to the agreement, the executive s employment terminates upon: death; disability (at the option of the Company); termination by the Company for Cause (as defined in the agreement and described below); voluntary resignation; either party giving the other notice of non-renewal; termination by the Company without Cause; termination by the executive for Good Reason (as defined in the agreement and described below); or the last day of the calendar year in which the executive attains the age of 65.

Payments.

Death. In the event of Messrs. Hanft s or McWilton s or Ms. Hund-Mejean s death, his or her estate and/or beneficiaries are entitled to receive the following payments: (1) base salary earned but not paid through the date of the executive s death; (2) payment for all accrued but unused vacation time; (3) the target annual incentive bonus payable for the year in which death occurs, and the prior year if not already paid; and (4) such additional benefits, if any, the executive may be entitled to under the Company s plans and programs on account of death.

Disability. In the event of Messrs. Hanft s or McWilton s or Ms. Hund-Mejean s termination of employment on account of disability, the executive will receive the same payments as noted above in the event of his or her death except that the executive s target annual incentive bonus will be pro-rated for the year of his or her termination.

For Cause. If the Company terminates the executive s employment for Cause, he or she will be entitled to (1) a payment with respect to base salary earned but not paid through the date of his termination, (2) payment for all accrued but unused vacation time and (3) additional benefits, if any that the executive would be entitled to under the Company s plans and programs on account of termination for Cause. The agreement defines Cause to generally mean: (a) the willful failure by the executive to perform his or her duties or responsibilities (other than due to disability); (b) engaging in serious misconduct that is injurious to the Company including, but not limited to, damage to its reputation or standing in its industry; (c) having been convicted of, or entered a plea of guilty or nolo contendere to, a crime that constitutes a felony or a crime that constitutes a misdemeanor involving moral turpitude; (d) the material breach of any written covenant or agreement with the Company not to disclose any information pertaining to the Company; or (e) the breach of the Company s code of conduct, the supplemental code of conduct, any material provision of the employment agreement or any material provision of specified Company policies.

Voluntary Resignation or Non Renewal by Executive. If Messrs. McWilton or Hanft or Ms. Hund-Mejean voluntarily resigns or provides notice of non-renewal of the agreement, the executive will receive the same payments of unpaid base salary and accrued but unused vacation time noted above and such additional benefits, if any that such executive would be entitled to under the Company s plans and programs on account of his or her voluntary termination.

Without Cause, With Good Reason or Upon Non-Renewal by the Company. In the event of the executive s termination by the Company without Cause, by the executive with Good Reason, or upon non-renewal of the executive s agreement by the Company, he or she will be entitled to:

base salary earned but not paid prior to the date of termination;

Table of Contents

accrued but unused vacation time;

a pro-rata portion of the annual incentive bonus payable for the year in which the executive's termination occurs based upon the actual performance of the Company for the applicable performance period and payable in accordance with the regular bonus pay practices of the Company and, to the extent not already paid, the annual incentive bonus for the year immediately preceding the year in which the executive's date of termination occurs, payable in the amount and at the time it would have been paid had the executive remained employed;

base salary continuation for 24 months following the date of termination;

annual bonus payments for 24 months following the date of termination with each bonus amount equivalent to the average annual bonus received by the executive with respect to the prior two years of employment, payable in accordance with the annual incentive pay practices of the Company;

payment of the monthly cost of the premium for COBRA medical coverage for the applicable COBRA period (or 24 months if shorter), or if he or she is eligible for the MasterCard Retiree Health Plan, the full cost of the retiree health coverage for 24 months and thereafter the retiree contribution levels shall apply

for Mr. McWilton, if upon exhaustion of COBRA medical benefits he is not eligible under the MasterCard Retiree Health Plan, reimbursement for comparable medical coverage until age 55 and, under certain circumstances, access to group coverage thereafter;

outplacement services for the shorter of 24 months or the period of unemployment;

for Messrs. McWilton and Hanft, full and immediate vesting under the SERP;

for Mr. McWilton, be treated as if such termination were a retirement for awards outstanding under the LTIP (but only if the termination is within four years of the earliest date that he is eligible for retirement under the LTIP); and

such additional benefits, if any that the executive would be entitled to under the Company's plans and programs for the above captioned events of termination.

Good Reason for this purpose generally means: (a) the assignment to a position for which the executive is not qualified or a materially lesser position than the position held by the executive; (b) a material reduction in the executive's annual base salary other than a 10 percent or less reduction, in the aggregate, over the term of employment; (c) the relocation of the executive's principal place of employment more than 50 miles; or (d) the failure by the Company to obtain an agreement from any successor to the Company to assume and agree to perform any employment agreement between the executive and the Company.

Mandatory Retirement. In the event Messrs. McWilton or Hanft's or Ms. Hund-Mejean's employment ends upon mandatory retirement (i.e., the last day of the calendar year in which he or she attains the age of sixty-five), he or she will be entitled to: (1) a lump sum within 30 days following the date of termination of all base salary earned but not paid prior to the date of termination; (2) a lump sum within 30 days following the date of termination equal to all accrued but unused vacation time; (3) a pro-rata portion of the annual incentive bonus payable for the year in which his or her termination occurs and the prior year, if not already paid, based upon the actual performance of the Company for the applicable performance period and payable in accordance with the regular bonus pay practices of the Company; and (4) such additional vested benefits which he or she is expressly entitled following the termination of his or her employment under the Company's plans and programs.

Tax Gross-Up Payments, Release of Claims and Restrictive Covenants.

Edgar Filing: MASTERCARD INC - Form PRE 14A

The executives' employment agreements also contain provision for tax gross-up payments (similar to Mr. Selander). An executive's right to receive a gross-up payment or certain payments on account of termination

without Cause, with Good Reason or non-renewal is subject to the executive entering into a separation agreement and release of claims against the Company. Also, each agreement contains several covenants regarding confidentiality, non-competition, and non-solicitation of the Company's employees, customers or suppliers.

Ms. Hund-Mejean Repayment of Sign-on Award.

Under Ms. Hund-Mejean's original offer letter, she was awarded a one time cash sign-on award of \$1,225,000. If she voluntarily leaves employment with the Company or is terminated for Cause at any time prior to May 1, 2009, her employment agreement requires her to repay the net amount received from the cash award (after lawful deductions) within 30 days of such date of termination.

Mr. Flood

Mr. Flood is employed at will by the Company. He is eligible to participate in the LTIP and in the Company's or MasterCard International's employee compensation and benefit programs as may be generally made available to other employees of the Company or MasterCard International at his level, including the SEAICP and the severance plan. If his employment is terminated involuntarily, Mr. Flood would receive severance payments in accordance with the terms of the Company's severance plan in effect at the time of his termination. Under the terms of the current plan, Mr. Flood would, in the event of involuntary termination and at the Company's discretion, receive either his base salary for either one or two years (depending on the reason for termination), and would be eligible for an additional six months base salary. Mr. Flood would also be entitled to receive a bonus prorated for service in the year of termination in the event that the termination occurs during the last four months of the calendar year. Additionally, Mr. Flood would be eligible for full payment of his COBRA premiums and for outplacement services in the event of an involuntary termination. Mr. Flood has entered into an agreement providing for restrictions with respect to non-competition and non-solicitation of the Company's employees, customers or suppliers for 12 months following termination.

Potential Payments

Below are tables showing the potential payments upon termination of employment or a change in control of the Company for each of the named executive officers, except for Mr. Heuer, assuming the event took place on December 31, 2008, the last business day of our 2008 fiscal year. Mr. Heuer's post-termination payments for which he is currently eligible as a result of his retirement from the Company effective December 31, 2008, are shown in text immediately following the tables. Following the tables are footnotes that provide additional information with respect to other potential payments and benefits.

The tables reflect the 2008 target payout under the SEAICP for annual incentive award payments. In the tables, the equity awards shown for the named executive officer represent the value of unvested RSUs and stock options that would vest in the event of termination or change in control, as applicable, based on the \$142.93 per share closing price of our Class A Common Stock on the NYSE on December 31, 2008. In the event of termination by the Company without cause or by the executive with good reason in connection with a change in control, all unvested RSUs and stock options held by a named executive officer would immediately become vested. Except for Mr. McWilton, if a named executive officer who is retirement-eligible is terminated without cause or terminates his employment for good reason, all unvested RSUs and stock options would vest according to the terms of the award. Mr. McWilton will be treated as retirement-eligible for purposes of the LTIP so long as the termination without cause occurs within four years of the date he would otherwise have been eligible to retire. If a named executive officer who is not retirement-eligible is terminated without cause or terminates his employment for good reason, all unvested RSUs and stock options would not become vested.

In the event of a change in control, the PSUs will continue to vest in accordance with the terms of the grant to the extent the achievement of the relevant performance goals can continue to be measured subsequent to the change in control. To the extent achievement of the relevant performance goals can no longer be measured, all of

Table of Contents

the named executive officer's unvested PSUs will vest in accordance with the terms of such grants on February 28, 2010 and February 28, 2011, respectively, conditioned upon the named executive officer's continued employment with the Company, as of those dates, and will be paid at a target level of performance. In the event that, within six months preceding, or two years following, a change in control, the named executive officer is terminated without cause or with good reason, all of the named executive officer's then unvested PSUs will vest immediately and be payable at a target level of performance, conditioned upon the named executive officer's compliance with his or her non-competition and non-solicitation agreement.

Retirement benefits indicated below include values from the MAP and SERP.

MAP. The MAP values represent the vested notional account balance at the time of termination due to death, termination for cause, voluntary termination, termination without cause, termination for good reason and change in control termination. Because the MAP allows a period of disability to be included in the calculation of vesting service, the MAP value shown for disability termination is the MAP balance regardless of current vested status.

SERP. The SERP in effect during 2008 provided that upon a participant's termination of employment prior to attaining age 60 and at least four years of SERP participation, the participant is not entitled to any benefit under the SERP, unless the participant died while employed or there has been a change in control. (Additionally, the SERP benefit vests upon the participant's termination without cause or for good reason, if such vesting is provided for in the participant's employment agreement). Accordingly, in the event a participant dies while employed and prior to attaining age 60 and four years of SERP participation, the SERP pays out a lump sum present value of 75% of a deferred net SERP benefit payable at age 60. In the event a participant's employment is terminated without cause or the participant resigns for good reason within two years after a change in control, the SERP benefit is fully vested and paid as a lump sum determined in the same manner as in a termination of employment due to death, except that 100% of the net SERP benefit is paid if the change in control occurs before attainment of age 60 and four years of SERP participation.

For additional information on the SERP, please refer to the Compensation and Discussion and Analysis under the heading "Other Benefits" and to the section entitled "Pension Benefits in 2008".

- (1) For Mr. Selander, the aggregate amount of cash severance will be reduced over time through December 31, 2010. Mr. Selander's cash severance will be payable in equal installments through December 31, 2010, equal to the sum of: (i) his continued base salary (calculated at the highest annual base salary rate paid during his term of employment); and (ii) his average annual incentive bonus (calculated based upon the three years preceding the year in which the date of termination occurs), divided by the number of pay periods in a calendar year. For Messrs. McWilton and Hanft, the amount would be paid over a 24-month period and is equal to two times the sum of such executive's 2008 base salary and the average of bonus paid to him for services in 2006 and 2007. For Ms. Hund-Mejean, the amount would be paid over a 24-month period and is equal to two times the sum of her 2008 base salary plus her target bonus prorated for the year of termination. For Mr. Flood, the amount would be paid over a 24-month period and is equal to two times the sum of his 2008 base salary. For all named executive officers, cash severance reflects the present value of this calculation using a semi-annual discount rate of 1.63%.
- (2) Mr. Selander is entitled to a \$10,000,000 retention payment not later than 30 days following: (i) the date on which the appointment of a successor CEO by the Board of Directors becomes effective; or (ii) December 31, 2010, if no successor CEO has been appointed prior to such time. Mr. Selander will receive the retention payment provided that, prior to the date he becomes entitled to such payment, his employment has not been terminated for cause, he has not voluntarily resigned and the Company has achieved certain performance targets. For termination of employment due to death, disability, by the Company without cause or by Mr. Selander for good reason, the amount is pro-rated for service from July 1, 2004 through December 31, 2010.
- (3) For the PSUs in the *Change in Control* column, assumes a change in control of the Company in which the Company thereafter is unable to assess the Company's performance against the specified objectives. Accordingly, consistent with the terms of the PSU awards, the amounts represented in the *Change in Control* column represent target level of performance. For the unvested equity in the *Without Cause / With Good Reason* column, assumes termination occurs within either 6 months prior to or two years following a change in control of the Company. In the event that termination does not occur within either six months prior to, or two years following, a change in control of the Company, the values for the named executive officers who are not retirement-eligible would be zero.

Table of Contents

- (4) For Messrs. Selander, McWilton and Hanft, the SERP amounts differ from the amounts indicated in the Pension Benefits table due to modified actuarial assumptions (the 2008 lump sum interest rates for termination due to a change in control event versus the assumed valuation rate and pre-commencement discount rate used in the Pension Benefits table).
- (5) Includes continued health and welfare benefits, namely: health insurance, dental insurance, vision insurance, individual life insurance, and individual disability insurance for 18 months following termination, outplacement assistance and excise tax gross-ups. The excise tax gross-up is applicable only if termination of employment is in connection with a change in control and the payout limit under Section 280G of the Internal Revenue Code is exceeded.

Mr. Heuer's employment terminated effective December 31, 2008 upon his retirement from the Company. In connection with his retirement, Mr. Heuer did not receive any payments with respect to severance, and did receive a payment in the amount of \$187,500 in lieu of a notice period. Mr. Heuer received performance-based cash incentive compensation under the SEAICP in respect of 2008 in the amount of \$1,110,000, which was paid on March 13, 2009 and earned in 2008. See the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table. As a result of the termination of Mr. Heuer's employment, RSUs awarded to him on May 25, 2006, which were granted to him under the EIP for 20% of his 2005-2007 award and which were scheduled to vest on December 31, 2009, will vest on June 30, 2009, or six months subsequent to his termination. Pursuant to their terms, the remainder of Mr. Heuer's unvested equity awards will continue to vest as if no termination of employment had occurred. Mr. Heuer's retirement had no impact on his balance in the SERP, as he was previously vested in this balance prior to his retirement as a result of having served with the Company for over four years and having attained age 60. Mr. Heuer's retirement from the Company also had no impact on his MAP balance, as this balance vested prior to termination. See also Pension Benefits in 2008 and the Compensation Discussion and Analysis under Other Benefits for a summary of Mr. Heuer's MAP and SERP benefits.

PROPOSAL 3

APPROVAL OF AN AMENDMENT OF SECTIONS 6.1(A) AND 6.4(B) OF THE COMPANY'S AMENDED AND RESTATED CERTIFICATE OF INCORPORATION

General

The Company's amended and restated certificate of incorporation currently provides that the Board of Directors shall consist of not less than three directors or more than twelve directors.

In addition, the amended and restated certificate of incorporation provides that a person shall only qualify for election and continued service as a director if the Board of Directors shall have affirmatively determined, among other things, that such person shall not, except in the case of a director elected by the holders of outstanding Class M Common Stock, voting separately as a class, be a director, officer, employee or agent of, or represent or otherwise be affiliated with (a) any person that at the time of the filing of the amended and restated certificate of incorporation in June 2007 was, or thereafter shall become, a Class A member or affiliate member of MasterCard International or licensee of any of the Company's or MasterCard International's brands, or an affiliate of any of the foregoing, whether or not such person continues to retain such status (a "Member") or (b) any person that is an operator, member or licensee of any general purpose payment card system that competes with the Company, or any affiliate of such a person (a "Similar Person"), or have been a director, officer, employee or agent of, or have represented or otherwise been affiliated with, a Member or Similar Person during the prior three years or otherwise have any business relationship with a Member or Similar Person that is material to such person.

Reasons for the Proposed Amendments

The Board of Directors has determined that it would be advantageous to the Company for the Board of Directors to have increased flexibility to appoint and/or nominate for election by the stockholders up to three additional directors, increasing the maximum Board size from twelve to fifteen. In addition to enhancing the Board's ability to add directors with different areas of experience, expertise/knowledge and other factors that may fill a need on the Board of Directors, the increased maximum Board size would also allow the Board of Directors to enhance the geographic diversity and global profile of the Company by including new directors whose citizenships and residencies reflect additional regions of the world where the Company's business has grown, or may grow, in importance. The Board of Directors may also seek to facilitate succession planning by appointing and/or nominating for election by the stockholders as a director up to one additional executive officer (in addition to Mr. Selander), regardless of whether any such executive officer of MasterCard had previously served as a director or officer of, or otherwise been affiliated with, a Member or Similar Person prior to his or her employment with MasterCard.

Accordingly, the Board of Directors unanimously recommends that the stockholders approve the proposed amendments to the Company's amended and restated certificate of incorporation.

Specific Proposed Amendments

In March 2009, the Board of Directors adopted a resolution proposing that the certificate of incorporation be amended to:

increase the maximum size of the Board of Directors to fifteen directors; and

permit no more than two officers of the Company (in addition to directors elected by the holders of Class M Common Stock) to qualify for election and continued service as a director notwithstanding the fact that such officer may be or have been affiliated with a Member or Similar Person during the prior three years or otherwise have a material business relationship with a Member or Similar Person.

Table of Contents

The proposed amended versions of Sections 6.1(A) and 6.4(B) of the Company's amended and restated certificate of incorporation, marked to show all changes from those sections as currently in effect, are set forth below:

Section 6.1. *Board of Directors: Composition.*

(A) Except as provided in Article VI, Section 6.7, the business and affairs of the Corporation shall be managed by or under the direction of a Board consisting of not less than three directors or more than ~~twelve~~ fifteen directors, the exact number of directors to be determined from time to time by resolution adopted by affirmative vote of a majority of the Board. The Board may also appoint one person, who has previously served on the Board and who is not a director, officer, employee or agent of, and does not represent, a Member, to participate, at the pleasure of the Board, in the deliberations of the Board in a non-voting, advisory capacity (a *Non-Voting Advisor*). The Class M Directors and any directors that may be elected by the holders of any series of Preferred Stock shall be included within the number of directors fixed by or pursuant to this Section 6.1(A).

Section 6.4. *Director Qualifications.*

(B) A person shall qualify for election and continued service as a director of the Corporation only if the Board shall have determined that such person shall not (1) except in the case of a Class M Director or a director who is an officer of the Company, be a director, officer, employee or agent of, or represent or otherwise be affiliated with, a Member or Similar Person, or have been a director, officer, employee or agent of, or have represented otherwise been affiliated with, a Member or Similar Person during the prior three years or otherwise have any business relationship with a Member or Similar Person that is material to such person or (2) be a trustee, officer, employee or agent of, or represent or otherwise be affiliated with, The MasterCard Foundation, or have been a director, officer, employee or agent of, or have represented or otherwise been affiliated with, The MasterCard Foundation during the prior three years or otherwise have any business relationship with The MasterCard Foundation that is material to such person. In addition, each director of the Corporation (including Class M Directors) shall not be a director, regional board director, officer, employee or agent of, or represent (1) an entity that owns and/or operates a payment card program competitive with the Corporation's comparable card programs, as determined in the sole discretion of the Board (a *Competitor*), or (2) an institution that is represented on any board of a Competitor. At any time, no more than two persons who are at such time then actively serving as an officer or employee of the Corporation or any of its subsidiaries shall qualify for service as a director of the Corporation. If at any time an individual fails to satisfy these qualifications, as determined by the Board in its sole discretion, such individual shall automatically, without further action of the director, cease to be a director of the Corporation.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT CLASS A STOCKHOLDERS AND CLASS M STOCKHOLDERS VOTE FOR THE APPROVAL OF THE AMENDMENT OF SECTIONS 6.1(A) AND 6.4(B) OF THE COMPANY'S AMENDED AND RESTATED CERTIFICATE OF INCORPORATION.
