Unaffected CF Share Price

1)

Sector growth applied to stock price,
supported by cash on balance sheet

CF's stock price supported by \$16.64/share
net cash (~21% of equity value)

Cash does not vary with stock price
movements: growth should be applied only
to operating assets

None of the global fertilizer peers have

material net cash as a % of equity value

Ref. ISS Presentation, pp. 24, 26, 28

See also p. 8 of this document

2)

\$3.00/share Short Interest

Feb 23 price already ahead of peer group
since Jan 15

Additional \$5.58 for trading on Feb 24
where CF significantly outperformed peers
(CF up 11%, peer group up 4%)

Additional \$3.00 to this already spiked
price of Feb 24

Ref. ISS Presentation, pp. 24-27, 52-53

3)

Biased Start Date

Feb 24 provides CF with highest
unaffected
price of any starting calculation
date this year

Agrium Response

1)

Agrium believes the market is
focused on 2010E multiple, not 2009E

2010E provides a longer-term outlook on industry profitability

Street estimates for peer group EV/EBITDA multiples are significantly lower for 2010E than 2009E

Ref. ISS Presentation, pp. 17-21

2)

Street estimates for EBITDA must be adjusted for comparability

Equity research analysts differ in their inclusion of minority interest and equity investment earnings in CF's EBITDA

Consensus owned

EBITDA for 2009E of

\$622 million vs. 2010E of \$589 million

Minority interest not part of EV if
deducted from EBITDA

Street consensus

more closely

approximates owned

EBITDA vs.

consolidated

Adding minority interest to EV when
EBITDA excludes minority interest

overstates CF EV and EV/EBITDA multiple

3)

Customer advances not part of EV

Essentially working capital that must be
deployed for future sales

Not a source of equity or debt capital to
fund operating assets

Overstates CF EV and EV/EBITDA multiple

2)

Street estimates closer to owned
EBITDA vs. consolidated

CF does not own all its EBITDA; need to
deduct for minority interest

Ref. ISS Presentation, pp. 40-41

Agrium, which is trading at the lowest multiple of CF's unaffected peers, is not included in CF's set of comparable companies

Market Increases vs. Agrium's Offer

2)

CF's Q1 balance sheet cash increase was predictable as it came directly from the release of observed working capital

These expectations were factored at the time of Agrium's original bid

Ref. ISS Presentation, p. 23

1)

Agrium does not believe CF's share
