Edgar Filing: CROWN HOLDINGS INC - Form 10-Q

The accompanying notes are an integral part of these consolidated financial statements.

---

**Crown Holdings, Inc.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(In millions, except per share and statistical data)**

**(Unaudited)**

**A. Statement of Information Furnished**

The consolidated financial statements include the accounts of Crown Holdings, Inc. and its consolidated subsidiaries (the "Company"). The accompanying unaudited interim consolidated financial statements have been prepared by the Company in accordance with Form 10-Q instructions. In the opinion of management, these consolidated financial statements contain all adjustments of a normal and recurring nature necessary for a fair statement of the financial position of Crown Holdings, Inc. as of June 30, 2010 and the results of its operations for the three and six month periods ended June 30, 2010 and 2009 and of its cash flows for the six months ended June 30, 2010 and 2009. The results reported in these consolidated financial statements are not necessarily indicative of the results that may be expected for the entire year. These results have been determined on the basis of accounting principles generally accepted in the United States of America ("GAAP").

Certain information and footnote disclosures normally included in financial statements presented in accordance with GAAP have been condensed or omitted. The year-end condensed balance sheet data was derived from audited financial statements, but does not include all disclosures required by GAAP. The accompanying consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2009. Certain reclassifications of prior years' data have been made to conform to the current year presentation.

**B. Recent Accounting and Reporting Pronouncements**

Effective January 1, 2010, the Company adopted the FASB's amended guidance on transfers of financial assets. The guidance removes the concept of a qualifying special-purpose entity, establishes a new "participating interest" definition that must be met for transfers of portions of financial assets to be eligible for sale accounting and clarifies and amends the derecognition criteria for a transfer to be accounted for as a sale. As a result of adopting the guidance, the Company's current receivables securitization and certain factoring facilities are now accounted for as secured borrowings. The impact of adopting the new guidance on the Company's Consolidated Balance Sheet was to increase both the Company's receivables and short-term debt as of June 30, 2010 by \$215. The impact of adopting the new guidance on the Company's Consolidated Statement of Cash Flows was to both increase net cash used for operating activities and net cash provided by financing activities by \$215 for the six months ended June 30, 2010. The adoption of the guidance did not materially impact the Company's results of operations. In accordance with the guidance, prior period amounts have not been restated. See Note D for additional information.

Effective January 1, 2010, the Company adopted the FASB's amended guidance on the consolidation of variable interest entities (VIEs). The guidance requires an entity to qualitatively assess the determination of the primary beneficiary of a VIE based on whether the entity (1) has the power to direct the activities of a VIE that most significantly impact the entity's economic performance and (2) has the obligation to absorb losses of the entity or the right to receive benefits from the entity that could potentially be significant to the VIE. Also, the guidance requires an ongoing reconsideration of the primary beneficiary and amends the events that trigger a reassessment of whether an entity is a VIE. The adoption of the guidance had no impact on the Company's financial statements.

The FASB provided guidance that requires new disclosures about fair value measurements and clarifies existing disclosure requirements. The new disclosures include (1) transfers in and out of level 1 and level 2 fair value measurements and (2) a gross presentation of activities within level 3 fair value measurements. The clarifications to existing disclosures include a requirement to provide fair value measurement disclosures for each class of assets and liabilities. A class is often a subset of assets or liabilities within a line item in the statement of financial position. A reporting entity is also required to provide disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements in either level 2 or level 3. The disclosures were required beginning with our quarter ended March 31, 2010 except for the

**Crown Holdings, Inc.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**(In millions, except per share and statistical data)**

**(Unaudited)**

requirement to disclose gross presentation of activities within level 3, which is not effective until the first quarter of 2011. The disclosure requirement for transfers in and out of level 1 and level 2 had no impact on the Company. The requirement to disclose gross presentation of activities within level 3 is expected to affect only the Company's level 3 pension assets. See Note F for additional information.

**C. Stock-Based Compensation**

During the first six months of 2010, the Company awarded 373,149 shares of restricted stock to certain senior executives, including 143,525 shares with time-vesting requirements and 229,624 shares with a market performance feature. The time-vested awards vest ratably over three years and had a grant-date fair value of \$26.80 per share. The performance shares vest at the end of three years based on the results of a market performance criterion. The number of performance shares that will ultimately vest is based on the level of performance achieved, ranging between 0% and 200% of the shares awarded, and will be settled in stock. The estimated fair value of each performance share was calculated as \$36.25 using a Monte Carlo valuation model. During the first six months of 2010, 246,693 shares of previously issued service-based awards and 136,003 shares of previously issued performance-based shares vested. The weighted average fair value of these shares on the vesting date was \$26.10 per share. Also during the first six months of 2010, 108,177 performance-based shares were issued because the Company exceeded the target level of performance shares established on the original date of the related awards by approximately 80%. These shares were issued without restriction.

As of June 30, 2010, outstanding stock options included 5,368,808 shares that were fully vested or expected to vest of which 3,562,857 were exercisable. The weighted average exercise price of the options that were fully vested or expected to vest was \$16.71, the aggregate intrinsic value was \$45, and the weighted average remaining contractual life was 5.0 years. The weighted average exercise price of options that were currently exercisable was \$13.27, the aggregate intrinsic value was \$42, and the weighted average remaining contractual life was 4.2 years.

At June 30, 2010, unrecognized compensation cost related to unvested stock options and restricted stock was \$13 and \$8, respectively. The weighted average period over which the expense is expected to be recognized is 2.7 years for stock options and 1.4 years for restricted stock.

The Company received cash proceeds of \$1 from the exercise of stock options in each of the second quarters of 2010 and 2009 and \$3 and \$4 in the first six months of 2010 and 2009, respectively.

**D. Receivables**

The Company utilizes receivable securitization facilities in the normal course of business as part of its management of cash flow activities. Under its committed \$200 North American facility, the Company sells receivables, on a revolving basis, to a wholly-owned, bankruptcy-remote subsidiary. The subsidiary was formed for the sole purpose of buying and selling receivables generated by the Company and, in turn, sells undivided percentage ownership interests in the pool of purchased receivables to a syndicate of financial institutions. The Company generally retains an ownership interest in the pool of receivables that is subordinated to the ownership interests in the pool of receivables that are sold to third parties. Accordingly, the Company has determined that transactions under these facilities do not qualify for sale accounting and has therefore accounted for the transactions as secured borrowings.

Under the Company's committed 120 European securitization facility, certain subsidiaries in the U.K. and France sell receivables to an entity formed in France for the sole purpose of buying receivables from the selling subsidiaries. The buying entity finances the purchase of receivables through the issuance of senior units to a third party. Since the units issued to the third party are senior to the interests retained by the Company, the Company has determined that transactions under these facilities do not qualify for sale accounting and has therefore accounted for the transactions as secured borrowings.

In addition, the Company utilizes receivables factoring arrangements in the normal course of business as part of managing cash flow activities for its European operations. Under the arrangements, the Company sells its entire interest in specified receivables to various third parties. Where the Company has surrendered control over factored receivables, the Company has accounted for the transfers as sales.

## Crown Holdings, Inc.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(In millions, except per share and statistical data)

(Unaudited)

The Company's continuing involvement in factored receivables accounted for as sales is limited to servicing the receivables. The Company receives adequate compensation for servicing the receivables; therefore, no servicing asset or liability was recorded.

At June 30, 2010, included in the Company's Consolidated Balance Sheet were \$215 of receivables that were securitized or factored and \$215 of associated liabilities. In addition, at June 30, 2010, the Company derecognized receivables of \$109 related to factoring arrangements accounted for as sales. At December 31, 2009, receivables of \$392 securitized or factored under the Company's facilities were accounted for as sales and reflected as a reduction of receivables in the Company's Consolidated Balance Sheet.

For the three and six month periods ended June 30, 2010, the Company recorded expenses related to securitization and factoring facilities of \$3 and \$4 as interest expense. For the three and six month periods ended June 30, 2009, the Company recorded expenses related to securitization and factoring facilities of \$1 and \$2 as interest expense.

Collections from customers on securitized or factored receivables and related fees and costs are included in operating activities in the Consolidated Statements of Cash Flows. Proceeds and repayments from issuances of ownership interests in the consolidated entity that buys and sells the Company's receivables under its securitization facilities as well as amounts received from factors for transactions that do not qualify for sale accounting are included in financing activities in the Consolidated Statements of Cash Flows.

**E. Inventories**

Inventories are stated at the lower of cost or market, with cost for U.S. inventories principally determined under the first-in, first-out (FIFO) method. Non-U.S. inventories are principally determined under the average cost method.

|                            | June 30,<br>2010 | December<br>31,<br>2009 |
|----------------------------|------------------|-------------------------|

**F. Fair Value Measurements**

Under GAAP a framework exists for measuring fair value, providing a three-tier hierarchy of pricing inputs used to report assets and liabilities that are adjusted to fair value. Level 1 includes inputs such as quoted prices which are available in active markets for identical assets or liabilities as of the report date. Level 2 includes inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the report date. Level 3 includes unobservable pricing inputs that are not corroborated by market data or other objective sources. The Company has no items valued using Level 3 inputs other than certain pension plan assets.

| Derivative instruments: |               |               |                                    |              |              |              |
| Cross-currency swaps    | \$ 8          | \$ 49         |                                    |              | \$ 8         | \$ 49        |
| Foreign exchange        | 34            | 17            |                                    |              | 34           | 17           |
| Commodities             | 13            | 1             | \$ 13                              | \$ 1         |              |              |
| <b>Total</b>            | <b>\$ 55</b>  | <b>\$ 67</b>  | <b>\$ 13</b>                       | <b>\$ 1</b>  | <b>\$ 42</b> | <b>\$ 66</b> |

The Company utilizes market data or assumptions that market participants would use in pricing the asset or liability. The Company's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of assets and liabilities measured at fair value and their placement within the fair value hierarchy.

The Company applies a market approach to value its commodity price hedge contracts. Prices from observable markets are used to develop the fair value of these financial instruments and they are reported under Level 1. The Company uses an income approach to value its outstanding cross-currency swaps and foreign exchange forward contracts. These contracts are valued using a discounted cash flow model that calculates the present value of future cash flows under the terms of the contracts using market information as of the reporting date, such as prevailing interest rates and foreign exchange spot and forward rates, and are reported under Level 2 of the fair value hierarchy.

Refer to Note G for further discussion of the Company's use of derivative instruments and their fair values.

**G. Derivative Financial Instruments**

In the normal course of business the Company is subject to risk from adverse fluctuations in foreign exchange, interest rates and commodity prices. The Company manages these risks through a program that includes the use of derivative financial instruments, primarily swaps and forwards. Counterparties to these contracts are major financial institutions. The Company is exposed to credit loss in the event of nonperformance by these counterparties. The Company does not use derivative instruments for trading or speculative purposes.

The Company's objective in managing exposure to market risk is to limit the impact on earnings and cash flow. The extent to which the Company uses such instruments is dependent upon its access to these contracts in the financial markets and its success using other methods, such as netting exposures in the same currencies to mitigate foreign exchange risk and using sales agreements that permit the pass-through of

## Edgar Filing: CROWN HOLDINGS INC - Form 10-Q

commodity price and foreign exchange rate risk to customers.

For derivative financial instruments accounted for as hedging instruments, the Company formally designates and documents, at inception, the financial instrument as a hedge of a specific underlying exposure, the risk management objective and the manner in which effectiveness will be assessed. The Company formally assesses, both at inception and at least quarterly thereafter, whether the derivative financial instruments used in hedging transactions are effective in offsetting changes in fair value or cash flows of the related underlying exposures. Any ineffective portion of the change in fair value of the instruments is recognized immediately in earnings.

(In millions, except per share and statistical data)

(Unaudited)

**Cash Flow Hedges**

The Company designates certain derivative financial instruments as cash flow hedges. No components of the hedging instruments are excluded from the assessment of hedge effectiveness. Changes in fair value of outstanding derivatives accounted for as cash flow hedges, except any ineffective portion, are recorded in other comprehensive income until earnings are impacted by the hedged transaction. Classification of the gain or loss in the Consolidated Statements of Operations upon release from comprehensive income is the same as that of the underlying exposure. Contracts outstanding at June 30, 2010 mature between one and thirty months.

When the Company discontinues hedge accounting because it is no longer probable that an anticipated transaction will occur in the originally specified period, changes to fair value accumulated in other comprehensive income are recognized immediately in earnings.

The Company may use cross-currency and interest rate swaps to manage its portfolio of fixed and variable debt, including foreign-currency denominated intercompany debt, and to manage the impact of debt on local cash flows. Currently the Company has one cross-currency swap outstanding, which matures in November 2010, with a notional value of \$235. The swap is effective in mitigating the risk of changes in foreign exchange and interest rates because the critical terms of the swap, including notional amount, interest reset date, maturity date and underlying market index, match those of the foreign currency-denominated debt.

The Company uses commodity forwards to hedge anticipated purchases of various commodities, including aluminum, fuel oil and natural gas. Information about commodity price exposure is derived from supply forecasts submitted by customers and these exposures are hedged by a central treasury unit. The aggregate U.S. dollar-equivalent notional value of commodity contracts designated as cash flow hedges at June 30, 2010 and December 31, 2009 was \$284 and \$167.

The Company also designates certain foreign exchange contracts as cash flow hedges of anticipated foreign-currency-denominated sales or purchases. The Company manages these risks at the operating unit level. Often the hedging of foreign currency risk is performed in concert with related commodity price hedges. The aggregate U.S. dollar-equivalent notional value of foreign exchange contracts designated as cash flow hedges at June 30, 2010 and December 31, 2009 was \$549 and \$283.

The following table sets forth financial information about the impact on Accumulated Other Comprehensive Income ( AOCI ) and earnings from changes in fair value related to derivative instruments accounted for as cash flow hedges.

|                                 | Amount of gain/(loss)<br>recognized in AOCI<br>(effective portion) |                        | Amount of gain/(loss)<br>reclassified<br>from AOCI into earnings |                        |

- (1) Within the Statement of Operations for the six months ended June 30, 2010, \$41 was credited to translation and foreign exchange. During the three months ended June 30, 2010, \$24 was credited to translation and foreign exchange.
- (2) Within the Statement of Operations for the six months ended June 30, 2010, \$2 was credited to net sales and \$1 was credited to cost of goods sold. During the three months ended June 30, 2010, \$2 was credited to cost of goods sold.
- (3) Within the Statement of Operations for the six months ended June 30, 2010, \$6 was credited to cost of goods sold. During the three months ended June 30, 2010, \$4 was credited to cost of goods sold.
- (4) Within the Statement of Operations for the six months ended June 30, 2009, \$4 was charged to translation and foreign exchange and \$6 was credited to interest expense. During the three months ended June 30, 2009, \$34 was charged to translation and foreign exchange and \$5 was credited to interest expense.
- (5) Within the Statement of Operations for the six months ended June 30, 2009, \$2 was charged to net sales and \$5 was credited to cost of products sold. During the three months ended June 30, 2009, \$2 was credited to net sales and \$3 was credited to cost of products sold.
- (6) Within the Statement of Operations for the six months ended June 30, 2009, \$50 was charged to cost of products sold and \$15 credited to income tax expense. During the three months ended June 30, 2009, \$30 was charged to cost of products sold and \$15 credited to income tax expense.

During the twelve months ending June 30, 2011, a net gain of \$1 (\$1, net of tax) is expected to be reclassified to earnings. The actual amount that will be reclassified may differ from this amount due to changing market conditions. No amounts were reclassified during the three and six months ended June 30, 2010 and 2009 in connection with anticipated transactions that were no longer considered probable and the ineffective portion recorded in earnings was less than \$1.

**Fair Value Hedges and Contracts Not Designated as Hedges**

The Company designates certain derivative financial instruments as fair value hedges of recognized foreign-denominated assets and liabilities, generally trade accounts receivable and payable and unrecognized firm commitments. The notional values and maturity dates of the derivative instruments coincide with those of the hedged items. Changes in fair value of the derivative financial instruments, excluding time value, are offset by changes in fair value of the related hedged items. Other than for firm commitments, amounts related to time value are excluded from the assessment and measurement of hedge effectiveness and are reported in earnings. Less than \$1 was reported in earnings for the three and six months ended June 30, 2010. The U.S. dollar-equivalent notional value of foreign exchange contracts designated as fair value hedges at June 30, 2010 and December 31, 2009 was \$292 and \$114.

## Crown Holdings, Inc.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(In millions, except per share and statistical data)

(Unaudited)

Certain derivative financial instruments, including foreign exchange contracts related to intercompany debt, were not designated or did not qualify for hedge accounting; however, they are effective economic hedges as the changes in their fair value, except for time value, are offset by changes in remeasurement of the related hedged items. The Company's primary use of these derivative instruments is to offset the earnings impact that fluctuations in foreign exchange rates have on certain monetary assets and liabilities denominated in nonfunctional currencies. Changes in fair value of these derivative instruments are immediately recognized in earnings as foreign exchange adjustments. The aggregate U.S dollar-equivalent notional value of these contracts at June 30, 2010 and December 31, 2009 was \$695 and \$575.

The impact on earnings of foreign exchange contracts designated as fair value hedges was losses of \$6 and \$8 for the three and six months ended June 30, 2010 and \$35 and \$26 for the three and six months ended June 30, 2009. The impact on earnings of foreign exchange contracts not designated as hedges were gains of \$8 and \$25 for the three and six months ended June 30, 2010 and a loss of \$21 for each of the three and six months ended June 30, 2009. These items were reported as translation and foreign exchange and were offset by changes in the fair value of the related hedged items.

The fair values of outstanding derivative instruments in the Consolidated Balance Sheet at June 30, 2010 and December 31, 2009 were:

|                                       | June 30,<br>2010     | December 31,<br>2009 |

| Balance at June 30, 2009     | \$ 5                    | \$ 1                |                     | \$ 6  |
| Balance at January 1, 2010   | \$ 25                   | \$ 0                | \$ 0                | \$ 25 |
| Provision                    | 10                      | 4                   | 10                  | 24    |
| Payments                     | (11)                    | (4)                 |                     | (15)  |
| Reclassify to other accounts | (5)                     |                     | (10)                | (15)  |
| Other                        | (1)                     |                     |                     | (1)   |
| Balance at June 30, 2010     | \$ 18                   | \$ 0                | \$ 0                | \$ 18 |

The provision of \$24 in 2010 included \$10 for asset writedowns, \$5 for pension and postretirement plan curtailment charges and \$5 for severance costs related to the closure of a Canadian plant in the Company's Americas Food segment and \$4 for strip and clean costs from prior restructuring actions.

The Company expects to incur future additional charges of approximately \$21 related to the closure of the Canadian plant including \$17 for pension settlements when the Company receives regulatory approval and settles these obligations. The Company expects the total cash cost of the closure to be \$16 including \$8 for the pension settlement. In addition, the Company expects to incur future additional charges related to prior restructuring actions in Canada of approximately \$38 including \$33 for pension settlements when the Company receives regulatory approval and settles these obligations and \$5 for strip and clean costs. The Company expects the total cash cost of these prior restructuring actions to be \$12 including \$7 for the pension settlement.

The provision of \$1 and \$2 for the second quarter and first six months of 2009 related to maintenance and closing costs for a Canadian food can plant that ceased operations in 2008.

**I. Debt**

In June 2010, the Company amended its existing senior secured credit facilities to extend the maturity date of its revolving facilities and increase from \$800 to \$1,200 the aggregate principal amount available thereunder. The Company's amended senior secured credit facilities now include new revolving facilities that mature on June 15, 2015 as well as the existing term loan facilities, that mature on November 15, 2012. The new revolving credit facilities are subject to a pricing grid and have an initial pricing of 2.25% above Libor or Euribor, respectively.

Lenders under the new senior secured revolving credit facilities include certain lenders under the existing senior secured revolving credit facilities who elected to convert their commitments under the existing senior secured revolving credit facilities into commitments under the new

## Edgar Filing: CROWN HOLDINGS INC - Form 10-Q

senior secured revolving credit facilities, as well as new lenders. To the extent that lenders under the existing senior secured revolving credit facilities did not participate as lenders under the new senior secured revolving credit facilities, the existing senior secured revolving credit facilities remain outstanding, subject to their maturity on May 15, 2011. The available capacity under the existing revolving facilities now consists of \$194. Prior to maturity of the existing revolving facilities, borrowings under the existing revolving facilities and the new revolving facilities are limited to \$1,200 in the aggregate.

At June 30, 2010 the Company had borrowings of \$562 under its revolving credit facilities. The Company used borrowings under the new revolving facilities to repay \$200 of the Company's existing U.S. dollar term loan facility and the equivalent of \$200 of the Company's existing euro term loan facility.

**J. Asbestos-Related Liabilities**

Crown Cork & Seal Company, Inc. ( Crown Cork ) is one of many defendants in a substantial number of lawsuits filed throughout the United States by persons alleging bodily injury as a result of exposure to asbestos. These claims arose from the insulation operations of a U.S. company, the majority of whose stock Crown Cork purchased in 1963. Approximately ninety days after the stock purchase, this U.S. company sold its insulation assets and was later merged into Crown Cork.

Prior to 1998, amounts paid to asbestos claimants were covered by a fund made available to Crown Cork under a 1985 settlement with carriers insuring Crown Cork through 1976, when Crown Cork became self-insured. The fund was depleted in 1998 and the Company has no remaining coverage for asbestos-related costs.

During 2010, the states of Nebraska and South Dakota enacted legislation that limits asbestos-related liabilities under state law of companies such as Crown Cork that allegedly incurred these liabilities because they are successors by corporate merger to companies that had been involved with asbestos. Similar legislation was enacted in Florida, Georgia, Indiana, Mississippi, North Dakota, Ohio, Oklahoma, South Carolina and Wisconsin in recent years. The legislation, which applies to future and, with the exception of Georgia, South Carolina and South Dakota, pending claims, caps asbestos-related liabilities at the fair market value of the predecessor's total gross assets adjusted for inflation.

## Edgar Filing: CROWN HOLDINGS INC - Form 10-Q

Crown Cork has paid significantly more for asbestos-related claims than the total value of its predecessor's assets adjusted for inflation. Crown Cork has integrated the legislation into its claims defense strategy. The Company cautions, however, that the legislation may be challenged and there can be no assurance regarding the ultimate effect of the legislation on Crown Cork.

In June 2003, the State of Texas enacted legislation that limits the asbestos-related liabilities in Texas courts of companies such as Crown Cork that allegedly incurred these liabilities because they are successors by corporate merger to companies that had been involved with asbestos. The Texas legislation, which applies to future claims and pending claims, caps asbestos-related liabilities at the total gross value of the predecessor's assets adjusted for inflation. Crown Cork has paid significantly more for

asbestos-related claims than the total adjusted value of its predecessor's assets. In May 2006 the Texas Fourteenth Court of Appeals upheld a grant of summary judgment to Crown Cork and upheld the state constitutionality of the statute

**(Unaudited)**

(Barbara Robinson v. Crown Cork & Seal Company, Inc., No. 14-04-00658-CV, Fourteenth Court of Appeals, Texas). The Appeals Court decision has been appealed by the plaintiff to the Texas Supreme Court. A favorable ruling for summary judgment in an asbestos case pending against Crown Cork in the district court of Travis County, Texas (in Re Rosemarie Satterfield as Representative of the Estate of Jerrold Braley Deceased v. Crown Cork & Seal Company, Inc., No. 03-04-00518-CV, Texas Court of Appeals, Third District, at Austin) has been reversed on appeal on state constitutional grounds due to retroactive application of the statute. Although the Company believes that the Texas legislation is constitutional, there can be no assurance that the legislation will be upheld by the Texas Supreme Court on appeal. An adverse ruling by the Texas Supreme Court could have a material impact on the Company.

In December 2001, the Commonwealth of Pennsylvania enacted legislation that limits the asbestos-related liabilities of Pennsylvania corporations that are successors by corporate merger to companies involved with asbestos. The legislation limits the successor's liability for asbestos to the acquired company's asset value adjusted for inflation. Crown Cork has paid significantly more for asbestos-related claims than the acquired company's adjusted asset value. In November 2004, the legislation was amended to address a Pennsylvania Supreme Court decision (Ieropoli v. AC&S Corporation, et. al., No. 117 EM 2002) which held that the statute violated the Pennsylvania Constitution due to retroactive application. On February 6, 2009, the Superior Court of Pennsylvania affirmed, due to the plaintiff's lack of standing, the Philadelphia Court of Common Pleas' dismissal of three cases against Crown Cork raising federal and state constitutional challenges to the amended statute (Stea v. A.W. Chesterton, Inc., et. al, No. 2956 EDA 2006). The Pennsylvania Supreme Court has accepted an appeal of this decision. The Company cautions that the limitations of the statute, as amended, are subject to litigation and may not be upheld. Adverse rulings in cases challenging the constitutionality of the Pennsylvania statute could have a material impact on the Company.

At December 31, 2009, the Company had 50,000 claims outstanding. Of these claims, approximately 15,000 relate to claimants alleging first exposure to asbestos after 1964 and 35,000 relate to claimants alleging first exposure to asbestos before or during 1964, of which approximately 12,000 were filed in Texas, 2,000 were filed in Pennsylvania, 6,000 were filed in other states that have enacted asbestos legislation and 15,000 were filed in other states. Historically (1977-2009), Crown Cork estimates that approximately one-quarter of all asbestos-related claims made against it have been asserted by claimants who claim first exposure to asbestos after 1964.

With respect to claimants alleging first exposure to asbestos before or during 1964, the Company does not include in its accrual any amounts for settlements in states where the Company's liability is limited by statute.

With respect to post-1964 claims, regardless of the existence of asbestos legislation, the Company does not include in its accrual any amounts for settlements because of increased difficulty of establishing identification of relevant insulation products as the cause of injury. Given our settlement experience with post-1964 claims, we do not believe that an adverse ruling in the Texas or Pennsylvania asbestos litigation cases, or in any other state that has enacted asbestos legislation, would have a material adverse impact on the Company with respect to such claims.

Of the approximately 50,000 claims outstanding at the end of 2009, 2008 and 2007 approximately 16%, 15% and 15%, respectively, relate to claims alleging serious diseases (primarily mesothelioma and other malignancies).

During the six months ended June 30, 2010, Crown Cork received approximately 1,100 new claims, settled or dismissed approximately 500 claims for a total of \$4, and had approximately 50,000 claims outstanding at the end of the period. Settlement amounts include amounts committed to be paid in future periods. The outstanding claims at June 30, 2010 exclude 33,000 pending claims involving plaintiffs who allege that they are, or were, maritime workers subject to exposure to asbestos, but whose claims the Company believes will not have a material effect on the Company's consolidated results of operations, financial position or cash flow. The outstanding claims at June 30, 2010 also exclude approximately 19,000 inactive claims. Due to the passage of time, the Company considers it unlikely that the plaintiffs in these cases will pursue further action. The

**Crown Holdings, Inc.**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**(In millions, except per share and statistical data)**

**(Unaudited)**

exclusion of these inactive claims had no effect on the calculation of the Company's accrual as the claims were filed in states, as described above, where the Company's liability is limited by statute.

As of June 30, 2010, the Company's accrual for pending and future asbestos-related claims and related legal costs was \$222, including \$169 for unasserted claims and \$1 for committed settlements that will be paid over time. The Company's accrual includes estimates for probable costs for claims through the year 2019. Potential estimated additional claims costs of \$38 beyond 2019 have not been included in the Company's accrual, as the Company believes cost projections beyond ten years are inherently unreliable due to potential changes in the litigation environment and other factors whose impact cannot be known or reasonably estimated.

Crown Cork has entered into arrangements with plaintiffs' counsel in certain jurisdictions where claims are not yet filed, or asserted, against us. However, Crown Cork expects claims under these arrangements to be filed or asserted against Crown Cork in the future. The projected value of these claims is included in the Company's estimated liability as of June 30, 2010.

While it is not possible to predict the ultimate outcome of asbestos-related claims and settlements, the Company believes that resolution of these matters is not expected to have a material adverse effect on the Company's financial position. The Company cautions, however, that estimates for asbestos cases and settlements are difficult to predict and may be influenced by many factors. In addition, there can be no assurance regarding the validity or correctness of the Company's assumptions or beliefs underlying its accrual. Unfavorable court decisions or other adverse developments may require the Company to substantially increase its accrual or change its estimate. Accordingly, these matters, if resolved in a manner different from the estimate, could have a material effect on the Company's results of operations, financial position or cash flow.

**K. Commitments and Contingent Liabilities**

The Company, along with others in most cases, has been identified by the EPA or a comparable state environmental agency as a Potentially Responsible Party ( PRP ) at a number of sites and has recorded aggregate accruals of \$6 for its share of estimated future remediation costs at these sites. The Company has been identified as having either directly or indirectly disposed of commercial or industrial waste at the sites subject to the accrual, and where appropriate and supported by available information, generally has agreed to be responsible for a percentage of future remediation costs based on an estimated volume of materials disposed in proportion to the total materials disposed at each site. The Company has not had monetary sanctions imposed nor has the Company been notified of any potential monetary sanctions at any of the sites.

The Company has also recorded aggregate accruals of \$12 for remediation activities at various worldwide locations that are owned by the Company and for which the Company is not a member of a PRP group. Although the Company believes its accruals are adequate to cover its portion of future remediation costs, there can be no assurance that the ultimate payments will not exceed the amount of the Company's accruals and will not have a material effect on its results of operations, financial position and cash flow. Any possible loss or range of potential loss that may be incurred in excess of the recorded accruals cannot be estimated.

The Company is subject to antitrust investigations in Europe. In July 2010, the Spanish National Antitrust Commission issued a Statement of Facts (Pliego de Concreción de Hechos) alleging that Crown European Holdings SA, a wholly-owned subsidiary of the Company, and one of its subsidiaries violated Spanish and European competition law by coordinating certain commercial terms and exchanging information with competitors in Spain. The Statement of Facts does not constitute a decision on the merits and is subject to a reply by the Company. If the Antitrust Commission finds that the Company's subsidiaries violated competition law, the Antitrust Commission has the authority to levy fines. Also in July 2010, a subsidiary of the Company became aware of an investigation by the Netherlands Competition Authority in relation to competition law matters. No allegations have been made at this stage by the Dutch authorities. The Company believes that the allegations in Spain are without merit and intends to defend its position vigorously. However, the Company is unable to predict the ultimate outcome of the foregoing or their impact on the Company.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(In millions, except per share and statistical data)

(Unaudited)

The Company and its subsidiaries are also subject to various other lawsuits and claims with respect to labor, environmental, securities, vendor and other matters arising out of the normal course of business. While the impact on future financial results is not subject to reasonable estimation because considerable uncertainty exists, management believes that the ultimate liabilities resulting from such lawsuits and claims will not materially affect the Company's consolidated results of operations, financial position or cash flow.

The Company has various commitments to purchase materials, supplies and utilities as part of the ordinary conduct of business. The Company's basic raw materials for its products are steel and aluminum, both of which are purchased from multiple sources. The Company is subject to fluctuations in the cost of these raw materials and has periodically adjusted its selling prices to reflect these movements. There can be no assurance, however, that the Company will be able to fully recover any increases or fluctuations in raw material costs from its customers. The Company also has commitments for standby letters of credit and for purchases of capital assets.

In January 2010, the Company received a net one time payment of \$20 as part of an overall resolution of a long-time dispute unrelated to the Company's ongoing operations and recorded a gain of \$20 in the first quarter of 2010.

At June 30, 2010, the Company had certain indemnification agreements covering environmental remediation, lease payments and other potential costs associated with properties sold or businesses divested. For agreements with defined liability limits the maximum potential amount of future liability was \$17. The Company accrues for costs related to these items when it is probable that a liability has been incurred and the amount can be reasonably estimated. At June 30, 2010, the Company also had guarantees of \$31 related to the residual values of leased assets.

**L. Earnings Per Share**

The following table summarizes the computations of basic and diluted earnings per share attributable to Crown Holdings for the periods ended June 30, 2010 and 2009, respectively:

|  | <b>Three Months Ended<br/>June 30</b> |             | <b>Six Months Ended<br/>June 30</b> |             |
|--|---------------------------------------|-------------|-------------------------------------|-------------|
|  | <b>2010</b>                           | <b>2009</b> | <b>2010</b>                         | <b>2009</b> |
| Net income attributable to Crown Holdings        | \$ 112                                | \$ 105      | \$ 153                              | \$ 145      |
| Weighted average shares outstanding:             |                                       |             |                                     |             |
| Basic  | 161.0                                 | 158.9       | 160.8                               | 158.7       |
| Add: dilutive stock options and restricted stock | 2.3                                   | 2.8         | 2.4                                 | 2.8         |
| Diluted  | 163.3                                 | 161.7       | 163.2                               | 161.5       |
| <b>Basic earnings per share</b>                  | \$ 0.70                               | \$ 0.66     | \$ 0.95                             | \$ 0.91     |
| <b>Diluted earnings per share</b>                | \$ 0.69                               | \$ 0.65     | \$ 0.94                             | \$ 0.90     |

Excluded from the computation of diluted earnings per share were common shares contingently issuable upon the exercise of outstanding stock options, amounting to 3.2 million shares and 3.3 million shares for the three and six months ended June 30, 2010 and 3.4 million shares and 4.1 million shares for the same periods in 2009 because the effect would have been antidilutive.

**N. Segment Information**

The Company's business is organized geographically within three divisions, Americas, Europe and Asia-Pacific. Within the Americas and Europe, the Company has determined that it has the following reportable segments organized along a combination of product lines and geographic areas: Americas Beverage and North America Food in the Americas, and European Beverage, European Food and European

## Edgar Filing: CROWN HOLDINGS INC - Form 10-Q

Specialty Packaging in Europe.

The Company evaluates performance and allocates resources based on segment income. Segment income, which is not a defined term under GAAP, is defined by the Company as gross profit less selling and administrative expenses. Segment income should not be considered in isolation or as a substitute for net income data prepared in accordance with GAAP and may not be comparable to calculations of similarly titled measures by other companies. Transactions between operating segments are not material.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**(In millions, except per share and statistical data)**

**(Unaudited)**

**O. Subsequent Events**

In July 2010, the Company sold €500 principal amount of 7.125% senior unsecured notes due 2018. The notes were issued at par by Crown European Holdings SA (the Issuer). The notes are senior obligations of the Issuer and will be unconditionally guaranteed on a senior basis by the Company and certain of its subsidiaries. The Company has notified the holders of its senior notes due 2013 that it will redeem all of the \$200 outstanding 7.625% senior notes due 2013 in August 2010. In August 2010, the Company commenced a tender offer for any and all of the €150 outstanding 6.25% first priority senior secured notes due 2011.

In August 2010, the Company entered into an agreement with Citigroup Global Markets, Inc. to purchase shares of its common stock under an accelerated share repurchase program. Pursuant to the agreement, the Company initially purchased 3,182,461 shares, currently estimated to be approximately 90 percent of the shares to be repurchased, from Citigroup for \$100. The final number of shares to be repurchased and the aggregate cost to the Company will be based on the Company's volume-weighted average stock price during the term of the transaction, which the Company expects to be completed during the fourth quarter of 2010. At termination of the transaction, the Company may receive additional shares or may be required to pay a price adjustment based on the volume-weighted average stock price. The Company may elect to settle the price adjustment, if any, in shares or in cash.

**P. Condensed Combining Financial Information**

Crown European Holdings SA (Issuer), a 100% owned subsidiary of the Company, has outstanding senior notes that are fully and unconditionally guaranteed by Crown Holdings, Inc. (Parent) and certain subsidiaries. The guarantors are 100% owned by the Company and the guarantees are made on a joint and several basis. The guarantor column includes financial information for all subsidiaries in the United States (except for an insurance subsidiary and a receivable securitization subsidiary), and substantially all subsidiaries in Belgium, Canada, France, Germany, Mexico, Switzerland and the United Kingdom, and a subsidiary in the Netherlands. The following condensed combining financial statements:

statements of operations for the three and six months ended June 30, 2010 and 2009,

balance sheets as of June 30, 2010 and December 31, 2009, and

statements of cash flows for the six months ended June 30, 2010 and 2009  
are presented on the following pages to comply with the Company's requirements under Rule 3-10 of Regulation S-X.

**Crown Holdings, Inc.**

**PART I FINANCIAL INFORMATION**

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**  
(in millions)

***Introduction***

The following discussion presents management's analysis of the results of operations for the three and six months ended June 30, 2010 compared to the corresponding periods in 2009 and the changes in financial condition and liquidity from December 31, 2009. This discussion should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2009, along with the consolidated financial statements and related notes included in and referred to within this report.

***Executive Overview***

The Company's principal areas of focus include improving segment income and cash flow from operations and reducing debt. Segment income is a non-GAAP measure defined by the Company as gross profit less selling and administrative expenses. See Note N to the consolidated financial statements for information regarding segment income.

Improving segment income is primarily dependent on the Company's ability to increase revenues and manage costs. Key strategies for expanding sales include targeting geographic markets with strong growth potential, such as Asia, the Middle East, South America and Eastern Europe, improving selling prices in certain product lines and developing innovative packaging products using proprietary technology. The Company's cost control efforts focus on improving operating efficiencies and managing material and labor costs, including pension and other benefit costs.

Debt reduction remains a focus of the Company and is primarily dependent upon the Company's ability to generate cash flow from operations. The Company's total debt of \$2,979 at June 30, 2010 decreased \$756 from \$3,735 at June 30, 2009, primarily due to repayments of borrowings and \$76 due to foreign currency translation, partially offset by an increase of \$215 due to new accounting guidance related to receivables securitization. The Company's cash balances decreased from \$706 to \$412 during the same period, including a decrease of \$23 due to foreign currency translation.

The Company considers possible transactions such as acquisitions (which, if effected, may increase the Company's indebtedness or involve the issuance of Company securities), dispositions, refinancings or the repurchase of Company common stock pursuant to Board approved repurchase authorizations (under which \$467 was available at June 30, 2010). Such transactions would be subject to compliance with the Company's debt agreements. The Company also expects capital expenditures of approximately \$300 in 2010, with particular focus on increasing capacity in Asia and Brazil.

The cost of aluminum and steel, the primary raw materials used to manufacture the Company's products, has been subject to significant volatility in recent years. Moreover, future steel supply contracts may provide for prices that fluctuate or adjust rather than provide a fixed price during a one-year period. The Company attempts to pass-through these costs to its customers through provisions that adjust the selling prices to certain customers based on changes in the market price of the applicable raw material, or through surcharges where no such provision exists. The Company recognizes revenue related to selling price increases when all of the revenue recognition criteria has been met. There can be no assurance that the Company will be able to fully recover from its customers the impact of any increased aluminum and steel costs. In addition, decreased costs resulting from raw material price fluctuations may be passed through to customers, which would in turn result in decreases to the Company's revenue.

***Results of Operations***

The foreign currency translation impacts referred to below were primarily due to changes in the euro and pound sterling in the European Division operating segments and the Canadian dollar in the Americas Division operating segments.

**Crown Holdings, Inc.**

**Item 2. Management's Discussion and Analysis (Continued)**

***Net Sales***

Net sales decreased \$45 or 2.2% in the second quarter of 2010 compared to 2009 primarily due to the pass-through of lower raw material costs and \$17 from foreign currency translation, partially offset by an increase in global sales unit volumes. Net sales increased \$48 or 1.3% for the first six months ended 2010 compared to 2009 primarily due to an increase in global sales unit volumes and \$62 from foreign currency translation, partially offset by the pass-through of lower raw material costs. Sales from U.S. operations accounted for 29.0% of consolidated net sales in the first six months of 2010 and 2009. Sales of beverage cans and ends accounted for 52.6% and sales of food cans and ends accounted for 29.6% of consolidated net sales in the first six months of 2010 compared to 50.1% and 31.5%, respectively, in 2009.

Net sales in the Americas Beverage segment increased \$71 from \$478 in the second quarter of 2009 to \$549 in the second quarter of 2010, primarily due to a 10% increase in sales unit volumes and \$13 from the impact of foreign currency translation. Net sales increased \$142 from \$887 in the first six months of 2009 to \$1,029 in the first six months of 2010, primarily due to a 9% increase in sales unit volumes and \$27 from the impact of foreign currency translation.

Net sales in the North America Food segment decreased \$36 from \$250 in the second quarter of 2009 to \$214 in the second quarter of 2010, primarily due to the pass-through of lower raw material costs and a 5% decrease in sales unit volumes, partially offset by \$4 from the impact of foreign currency translation. Net sales decreased \$36 from \$447 in the first six months of 2009 to \$411 in the first six months of 2010, primarily due to the pass-through of lower raw material costs and a 3% decrease in sales unit volumes, partially offset by \$9 from the impact of foreign currency translation.

Net sales in the European Beverage segment decreased \$14 from \$453 in the second quarter of 2009 to \$439 in the second quarter of 2010, primarily due to the pass-through of lower raw material costs and \$10 from the impact of foreign currency translation, partially offset by a 7% increase in sales unit volumes. Net sales decreased \$39 from \$792 in the first six months of 2009 to \$753 in the first six months of 2010, primarily due to the pass-through of lower raw material costs, partially offset by a 2% increase in sales unit volumes and \$5 from the impact of foreign currency translation.

Net sales in the European Food segment decreased \$45 from \$466 in the second quarter of 2009 to \$421 in the second quarter of 2010, primarily due to the pass-through of lower raw material costs and \$23 from the impact of foreign currency translation, partially offset by a 6% increase in sales unit volumes. Net sales decreased \$30 from \$855 in the first six months of 2009 to \$825 in the first six months of 2010, primarily due to the pass-through of lower raw material costs, partially offset by a 3% increase in sales unit volumes and \$7 from the impact of foreign currency translation.

Net sales in the European Specialty Packaging segment decreased \$11 from \$108 in the second quarter of 2009 to \$97 in the second quarter of 2010, primarily due to the pass-through of lower raw material costs and \$5 from the impact of foreign currency translation. Net sales decreased \$1 from \$189 in the first six months of 2009 to \$188 in the first six months of 2010, as the pass-through of lower raw material costs was partially offset by an increase in sales unit volumes.

***Cost of Products Sold (Excluding Depreciation and Amortization)***

Cost of products sold, excluding depreciation and amortization, decreased \$45 from \$1,676 in the second quarter of 2009 to \$1,631 in the second quarter of 2010 primarily due to lower raw material costs and \$11 from the impact of foreign currency translation, partially offset by higher sales unit volumes.

Cost of products sold, excluding depreciation and amortization, increased \$46 from \$3,068 in the first six months of 2009 to \$3,114 in the first six months of 2010 primarily due to higher sales unit volumes and \$57 from the impact of foreign currency translation, partially offset by lower raw material costs.

**Crown Holdings, Inc.**

**Item 2. Management's Discussion and Analysis (Continued)**

As a result of steel and aluminum price increases in recent years, the Company has implemented significant price increases to many of its customers. However, there can be no assurance that the Company will be able to fully recover from its customers the impact of any price increases or surcharges. In addition, if the Company is unable to purchase steel or aluminum for a significant period of time, the Company's operations would be disrupted.

***Depreciation and Amortization***

Depreciation and amortization was \$44 and \$88 in the second quarter and first six months of 2010 compared to \$46 and \$93 in the prior year periods, primarily due to lower capital expenditures in recent years.

***Selling and Administrative Expense***

Selling and administrative expense was \$95 in the second quarter of 2010 compared to \$90 for the same period in 2009. The increase in 2010 primarily reflects increased incentive compensation costs, partially offset by \$2 from the impact of foreign currency translation.

Selling and administrative expense was \$174 in the first six months of 2010 compared to \$179 for the same period in 2009. The decrease in 2010 was primarily due to \$20 from the settlement of a legal dispute unrelated to the Company's ongoing operations, partially offset by other net increases including \$2 from the impact of foreign currency translation and increased incentive compensation costs.

***Provision for Restructuring***

The provision of \$24 in 2010 included \$10 for asset writedowns, \$5 for pension and postretirement plan curtailment charges and \$5 for severance costs related to the closure of a Canadian plant in the Company's Americas Food segment and \$4 for strip and clean costs from prior restructuring actions.

The Company expects to incur future additional charges of approximately \$21 related to the closure of the Canadian plant including \$17 for pension settlements when the Company receives regulatory approval and settles these obligations. The Company expects the total cash cost of the closure to be \$16 including \$8 for the pension settlement. In addition, the Company expects to incur future additional charges related to prior restructuring actions in Canada of approximately \$38 including \$33 for pension settlements when the Company receives regulatory approval and settles these obligations and \$5 for strip and clean costs. The Company expects the total cash cost of these prior restructuring actions to be \$12 including \$7 for the pension settlement. The Company expects annual savings of approximately \$15 when the 2010 actions are fully implemented.

The provision of \$1 and \$2 for the second quarter and first six months of 2009 related to maintenance and closing costs for a Canadian food can plant that ceased operations in 2008.

***Segment Income***

Segment income in the Americas Beverage segment increased from \$62 in the second quarter of 2009 to \$73 in the second quarter of 2010 and from \$103 in the first six months of 2009 to \$130 in the first six months of 2010. The increases were primarily due to increased sales unit volumes in the U.S. and Brazil.

Segment income in the North America Food segment increased from \$29 in the second quarter of 2009 to \$33 in the second quarter of 2010 and from \$47 in the first six months of 2009 to \$49 in the first six months of 2010. The increases were primarily due to cost reductions, including plant operating efficiencies.

Segment income in the European Beverage segment decreased from \$88 in the second quarter of 2009 to \$75 in the second quarter of 2010 primarily due to operating inefficiencies related to the start up of operations in Slovakia and to a labor strike in a Spanish beverage can plant which was subsequently resolved in the third quarter of 2010. Segment income decreased from \$145 in the first six months of 2009 to \$127 in the first six months of 2010 partially due to inventory holding gains from 2009 that did not recur in 2010 and due to operating inefficiencies

## Edgar Filing: CROWN HOLDINGS INC - Form 10-Q

related to the start up of operations in Slovakia and to a labor strike in a Spanish beverage can plant which was subsequently resolved in the third quarter of 2010.

**Crown Holdings, Inc.**

**Item 2. Management's Discussion and Analysis (Continued)**

Segment income in the European Food segment decreased from \$71 in the second quarter of 2009 to \$59 in the second quarter of 2010 and from \$123 in the first six months of 2009 to \$99 in the first six months of 2010. The decreases were primarily due to inventory holding gains from 2009 that did not recur in 2010 and included \$4 from the impact of foreign currency translation for the second quarter of 2010 that offset the impact of foreign currency translation for the first quarter of 2010.

Segment income in the European Specialty Packaging segment remained unchanged at \$8 for the second quarter of 2010 compared to 2009 and increased from \$9 in the first six months of 2009 to \$11 in the first six months of 2010 primarily due to increased sales unit volumes and cost reductions, including plant operating efficiencies.

***Interest Expense***

Interest expense decreased \$17 from \$62 in the second quarter of 2009 to \$45 in the second quarter of 2010 primarily due to lower average debt outstanding. Interest expense decreased \$31 from \$123 in the first six months of 2009 to \$92 for the same period in 2010 primarily due to \$29 from lower average debt outstanding and \$2 from lower interest rates.

***Taxes on Income***

The second quarter of 2010 included net tax charges of \$57 on pre-tax income of \$201 for an effective rate of 28.4%. The difference of \$13 between pre-tax income at the U.S. statutory rate of 35% or \$70, and the tax charge of \$57 is primarily explained as follows: \$16 of decrease from lower tax rates in non-U.S. jurisdictions, partially offset by \$2 of increase to the valuation allowance in Canada for the tax benefit of current year losses that are not expected to be realized.

The first six months of 2010 included net tax charges of \$96 on pre-tax income of \$307 for an effective rate 31.3%. The difference of \$11 between pre-tax income at the U.S. statutory rate of 35% or \$107, and the tax charge of \$96 is primarily explained as follows: \$7 of increase to recognize the tax impact of the new U.S. health care legislation, \$11 of increase to the valuation allowance in Canada for the tax benefit of current year losses that are not expected to be realized, partially offset by \$7 of decrease for the nontaxable settlement benefit of a legal dispute unrelated to the Company's ongoing operations and \$24 of decrease from lower tax rates in non-U.S. jurisdictions.

Under the new U.S. health care legislation, federal subsidies received by the Company related to payments made for retiree prescription drug benefits must be offset against the Company's deduction for health care expenses beginning in 2013. In addition to the one-time charge of \$7 recorded in the first quarter of 2010 to adjust the company's deferred tax assets, the Company expects that the legislation will increase the Company's annual tax provision by approximately \$2 in 2010.

The Company recorded tax expense of \$3 and \$5 in the second quarter and first six months of 2010 due to the expiration of a U.S. tax law provision that allowed certain dividends and interest to be paid between affiliated foreign subsidiaries without giving rise to a current tax in the U.S. If the tax law provision is not reinstated, the Company's annual tax provision is expected to increase by \$11 in 2010.

The second quarter of 2009 included net tax charges of \$44 on pre-tax income of \$182 for an effective rate of 24.2%. The difference of \$20 between pre-tax income at the U.S. statutory rate of 35% or \$64, and the tax charge of \$44, was primarily due to benefits of \$23 from lower tax rates in certain non-U.S. jurisdictions and \$6 for valuation allowance adjustments, partially offset by charges of \$9 for withholding taxes, state taxes and other items.

The first six months of 2009 included net tax charges of \$68 on pre-tax income of \$274 for an effective rate 24.8%. The difference of \$28 between pre-tax income at the U.S. statutory rate of 35% or \$96, and the tax charge of \$68 was primarily due to benefits of \$31 from lower tax rates in certain non-U.S. jurisdictions and \$13 from valuation allowance adjustments, partially offset by charges of \$16 for withholding taxes, state taxes and other items.

**Crown Holdings, Inc.**

**Item 2. Management's Discussion and Analysis (Continued)**

The Company continues to maintain a valuation allowance against deferred tax assets in certain Belgium and Dutch subsidiaries. The Company does not believe it has sufficient positive evidence at this time to release the valuation allowances for these entities, but it is possible some or all of the valuation allowance will be released in the future if the entities results of operations improve.

***Net Income Attributable to Noncontrolling Interests***

Net income attributable to noncontrolling interests decreased from \$34 to \$32 and increased from \$57 to \$58 in the second quarter and first six months of 2010 compared to 2009.

***Liquidity and Capital Resources***

***Cash from Operations***

Cash used by operating activities increased from \$163 to \$194 in the first six months of 2010 compared to 2009 primarily due to \$215 from the change in accounting guidance requiring securitization facilities to be accounted for as secured borrowings, partially offset by lower levels of inventories and payments on accounts payable and accrued liabilities.

***Investing Activities***

Cash used by investing activities increased from \$78 to \$85 in the first six months of 2010 compared to 2009 primarily due to \$29 of higher capital expenditures, partially offset by higher proceeds from the sales of property, plant and equipment and from the sale of a business. The Company expects its full year capital expenditures to be approximately \$300 compared to \$180 in 2009, with the difference primarily due to capacity expansion in Asia and Brazil.

***Financing Activities***

Cash provided by financing activities decreased from \$344 in the first six months of 2009 to \$256 in the same period of 2010 primarily due to repayments of long-term debt in 2010 partially offset by increased borrowings under the Company's revolving credit facility and a change in accounting guidance for securitization and certain factoring activities in 2010. Other financing activities of \$6 in 2010 are primarily due to \$21 of payments received related to the settlement of foreign currency derivatives used to hedge intercompany debt obligations, partially offset by financing fees to amend the Company's revolving credit facility.

***Liquidity***

In June 2010, the Company amended its existing senior secured credit facilities to extend the maturity date of its revolving facilities and increase from \$800 to \$1,200 the aggregate principal amount available thereunder. The Company's amended senior secured credit facilities now include new revolving facilities that mature on June 15, 2015 as well as the existing term loan facilities, that mature on November 15, 2012. The new revolving credit facilities are subject to a pricing grid and have an initial pricing of 2.25% above Libor or Euribor, respectively.

Lenders under the new senior secured revolving credit facilities include certain lenders under the existing senior secured revolving credit facilities who elected to convert their commitments under the existing senior secured revolving credit facilities into commitments under the new senior secured revolving credit facilities, as well as new lenders. To the extent that lenders under the existing senior secured revolving credit facilities did not participate as lenders under the new senior secured revolving credit facilities, the existing senior secured revolving credit facilities remain outstanding, subject to their maturity on May 15, 2011. The available capacity under the existing revolving facilities now consists of \$194. Prior to maturity of the existing revolving facilities, borrowings under the existing revolving facilities and the new revolving facilities are limited to \$1,200 in the aggregate.

---

**Crown Holdings, Inc.**

**Item 2. Management's Discussion and Analysis (Continued)**

At June 30, 2010 the Company had \$566 of borrowing capacity available under its revolving credit facilities, equal to the total facilities of \$1,200 less \$562 of borrowings and \$72 of outstanding standby letters of credit. The Company used borrowings under the new revolving facilities to repay \$200 of the Company's existing U.S. dollar term loan facility and the equivalent of \$200 of the Company's existing euro term loan facility.

In July 2010, the Company sold €500 principal amount of 7.125% senior unsecured notes due 2018. The notes were issued at par by Crown European Holdings SA (the Issuer). The notes are senior obligations of the Issuer and will be unconditionally guaranteed on a senior basis by the Company and certain of its subsidiaries. The Company has notified the holders of its senior notes due 2013 that it will redeem all of the \$200 outstanding 7.625% senior notes due 2013 in August 2010. The Company expects to fund this redemption with a portion of the proceeds from the 7.125% senior notes due 2018. The Company also intends to use a portion of the net proceeds of the offering of the 7.125% senior notes due 2018 to retire all or a portion of the Company's €150 outstanding 6.25% first priority senior secured notes due 2011 and to repurchase Company stock. In August 2010, the Company commenced a tender offer for any and all of the outstanding 6.25% first priority senior secured notes due 2011.

The Company's debt agreements contain covenants that provide limits on the ability of the Company and its subsidiaries to, among other things, incur additional debt, pay dividends or repurchase capital stock, make certain other restricted payments, create liens and engage in sale and leaseback transactions. These restrictions are subject to a number of exceptions, however, allowing the Company to incur additional debt or make otherwise restricted payments. The Company's revolving credit facility and first priority term loans also contain various financial covenants.

***Contractual Obligations***

During the first six months of 2010 there were no material changes, other than as disclosed in Note I to the consolidated financial statements to the Company's contractual obligations reported in Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations of the Company's Annual Report on Form 10-K for the year ended December 31, 2009.

***Off Balance Sheet Arrangements***

The Company has certain guarantees and indemnification agreements that could require the payment of cash upon the occurrence of certain events. The guarantees and agreements are further discussed under Note K to the consolidated financial statements.

The Company also utilizes receivables securitization and factoring facilities and derivative financial instruments as further discussed under Note D and Note G, respectively, to the consolidated financial statements. As discussed in Note B to the consolidated financial statements, the Company changed its accounting for its securitization and factoring facilities in 2010 due to new accounting guidance.

***Commitments and Contingent Liabilities***

Information regarding the Company's commitments and contingent liabilities appears in Part I within Item 1 of this report under Note K, entitled Commitments and Contingent Liabilities, to the consolidated financial statements, which information is incorporated herein by reference.

***Critical Accounting Policies***

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States which require that management make numerous estimates and assumptions. Actual results could differ from these estimates and assumptions, impacting the reported results of operations and financial condition of the Company. Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations and Note A to the consolidated financial statements contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2009 describe the significant accounting estimates and policies used in the preparation of the consolidated financial statements. There have been no significant changes in the Company's critical accounting policies during the first six

**Crown Holdings, Inc.**

**Item 2. Management's Discussion and Analysis (Continued)**

months of 2010. The discussion below supplements the discussion from the Company's Annual Report on Form 10-K for the year ended December 31, 2009 with respect to asbestos-related liabilities. The discussion below should be read in conjunction with Note J to the consolidated financial statements.

*Asbestos Liabilities*

The Company's potential liability for asbestos cases is highly uncertain due to the difficulty of forecasting many factors, including the level of future claims, the rate of receipt of claims, the jurisdiction in which claims are filed, the nature of future claims (including the seriousness of alleged disease, whether claimants allege first exposure to asbestos before or during 1964 and the alleged link to Crown Cork), the terms of settlements of other defendants with asbestos-related liabilities, the bankruptcy filings of other defendants (which may result in additional claims and higher settlement demands for non-bankrupt defendants), potential liabilities for claims filed after the Company's ten-year projection period and the effect of state asbestos legislation (including the validity and applicability of the Pennsylvania legislation to non-Pennsylvania jurisdictions, where the substantial majority of the Company's asbestos cases are filed). See Note J to the consolidated financial statements for additional information regarding the provision for asbestos-related costs.

At the end of each quarter, the Company considers whether there have been any material developments that would cause it to update its asbestos liability accrual calculations. Absent any significant developments in the asbestos litigation environment in general or with respect to the Company specifically, the Company updates its accrual calculations in the fourth quarter of each year. The Company's asbestos liability accrual is calculated as the sum of its outstanding and expected future claims, multiplied by the five-year average settlement cost of those claims, plus estimated legal fees. Claims in those states where the Company's liability is limited by statute and claims alleging first exposure to asbestos after 1964 are included in the number of outstanding claims but are assumed to have no value. The expected number of claims and the average settlement cost per claim are calculated using projections based on the actual data for the most recent five years.

The five year average settlement cost per claim was \$6,600, \$5,900 and \$5,300 for 2009, 2008 and 2007, respectively. The average settlement cost per claim increased due to higher settlement costs for claims alleging serious disease (primarily mesothelioma and other malignancies) in Crown Cork's settlement pool during the most recent five-year period. Of the approximately 50,000 claims outstanding at the end of 2009, 2008 and 2007 approximately 16%, 15% and 15%, respectively, relate to claims alleging serious diseases. Because claims are not submitted or settled evenly throughout the year, it is difficult to predict at any time during the year whether the number of claims or average settlement cost over the five year period ending December 31 of such year will increase compared to the prior five year period.

The Company's asbestos liability is calculated using a ten-year projection and the Company therefore expects to incur an annual charge to account for projected claims in the new tenth year. The inclusion of an additional year in the ten-year projection combined with the increased settlement costs per claim, which was partially offset by a projected decrease in the number of future claims led the Company to record a charge of \$55 in 2009 compared to \$25 in 2008 and \$28 in 2007, in each case to increase the Company's accrual for probable costs for claims through the following ten-year period. During 2009, 2008 and 2007, respectively, the Company made asbestos-related payments of \$26, \$25 and \$26. If the recent trend of settling claims alleging serious disease (primarily mesothelioma and other malignancies) for higher amounts continues, average settlement costs per claim are likely to increase and, if not offset by a reduction in overall claims and settlements, the Company may record additional charges in the future. A 10% change in either the average cost per claim or the number of projected claims would increase or decrease the estimated liability at December 31, 2009 by \$23 for the following ten-year period. A 10% increase or decrease in these two factors at the same time would increase or decrease the estimated liability at December 31, 2009 by \$48 and \$44, respectively, for the following ten-year period.

**Item 2. Management's Discussion and Analysis (Continued)**

***Forward Looking Statements***

Statements included herein in Management's Discussion and Analysis of Financial Condition and Results of Operations, including, but not limited to, in the discussions of asbestos in Note J and commitments and contingencies in Note K to the consolidated financial statements included in this Quarterly Report on Form 10-Q and also in Part I, Item 1: Business and Item 3: Legal Proceedings and in Part II, Item 7:

Management's Discussion and Analysis of Financial Condition and Results of Operations, within the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2009, which are not

historical facts (including any statements concerning plans and objectives of management for future operations or economic performance, or assumptions related thereto), are forward-looking statements within the meaning of the federal securities laws. In addition, the Company and its representatives may, from time to time, make oral or written statements which are also forward-looking statements.

These forward-looking statements are made based upon management's expectations and beliefs concerning future events impacting the Company and, therefore, involve a number of risks and uncertainties. Management cautions that forward-looking statements are not guarantees and that actual results could differ materially from those expressed or implied in the forward-looking statements.

While the Company periodically reassesses material trends and uncertainties affecting the Company's results of operations and financial condition in connection with the preparation of Management's Discussion and Analysis of Financial Condition and Results of Operations and certain other sections contained in the Company's quarterly, annual or other reports filed with the Securities and Exchange Commission (SEC), the Company does not intend to review or revise any particular forward-looking statement in light of future events.

A discussion of important factors that could cause the actual results of operations or financial condition of the Company to differ from expectations has been set forth in the Company's Annual Report on Form 10-K for the year ended December 31, 2009 within Part II, Item 7:

Management's Discussion and Analysis of Financial Condition and Results of Operations under the caption Forward Looking Statements and is incorporated herein by reference. Some of the factors are also discussed elsewhere in this Form 10-Q and in prior Company filings with the SEC. In addition, other factors have been or may be discussed from time to time in the Company's SEC filings.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

In the normal course of business the Company is subject to risk from adverse fluctuations in foreign exchange and interest rates and commodity prices. The Company manages these risks through a program that includes the use of derivative financial instruments, primarily swaps and forwards. Counterparties to these contracts are major financial institutions. The Company is exposed to credit loss in the event of nonperformance by the counterparties. These instruments are not used for trading or speculative purposes. The extent to which the Company uses such instruments is dependent upon its access to these contracts in the financial markets and its success in using other methods, such as netting exposures in the same currencies to mitigate foreign exchange risk and using sales arrangements that permit the pass-through of commodity prices and foreign exchange rate risks to customers. The Company's objective in managing its exposure to market risk is to limit the impact on earnings and cash flow. For further discussion of the Company's use of derivative instruments and their fair values at June 30, 2010, see Note G to the consolidated financial statements included in this Quarterly Report on Form 10-Q.

As of June 30, 2010, the Company had approximately \$1.1 billion principal floating interest rate debt. A change of 0.25% in these floating interest rates would change annual interest expense by approximately \$2.8 million before tax.

**Crown Holdings, Inc.**

**Item 4. Controls and Procedures**

As of the end of the period covered by this Quarterly Report on Form 10-Q, management, including the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the design and operation of its disclosure controls and procedures. Based upon that evaluation and as of the end of the quarter for which this report is made, the Company's Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures were effective. Disclosure controls and procedures ensure that information to be disclosed in reports that the Company files and submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and terms of the Securities and Exchange Commission, and ensure that information required to be disclosed in the reports that the Company files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

There has been no change in internal controls over financial reporting that occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

**Crown Holdings, Inc.**

**PART II OTHER INFORMATION**

**Item 1. Legal Proceedings**

For information regarding the Company's potential asbestos-related liabilities and other litigation, see Note J entitled "Asbestos-Related Liabilities" and Note K entitled "Commitments and Contingent Liabilities," respectively, to the consolidated financial statements within Item 1 of this Quarterly Report on Form 10-Q, which information is incorporated herein by reference.

**Item 1A. Risk Factors**

In addition to the other information set forth in this report, carefully consider the factors discussed in Item 1A to Part II in the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2010, which could materially affect the Company's business, financial condition or future results. The risks described in the Company's Quarterly Report on Form 10-Q are not the only risks facing the Company. Additional risks and uncertainties not currently known to the Company or that the Company currently deems to be immaterial also may materially adversely affect the Company's business, financial condition and/or operating results.

**Item 2. Unregistered Sale of Equity Securities and Use of Proceeds**

The Company made no purchases of its equity securities during the quarter ended June 30, 2010.

On February 28, 2008, the Company's Board of Directors authorized the repurchase of up to \$500 million of the Company's outstanding common stock from time to time through December 31, 2010, in the open market or through privately negotiated transactions, subject to the terms of the Company's debt agreements, market conditions, the Company's ability to generate operating cash flow, alternative uses of operating cash flow (including the reduction of indebtedness) and other factors. This authorization replaces and supersedes all previous outstanding authorizations to repurchase shares. The Company is not obligated to acquire any shares of common stock and the share repurchase plan may be suspended or terminated at any time at the Company's discretion. The repurchased shares are expected to be used for the Company's stock-based benefit plans, as required, and for other general corporate purposes. As of June 30, 2010, \$467 million of shares remained eligible for repurchase under this authorization.

In August 2010, the Company entered into an agreement with Citigroup Global Markets, Inc. to purchase shares of its common stock under an accelerated share repurchase program. Pursuant to the agreement, the Company initially purchased 3,182,461 shares, currently estimated to be approximately 90 percent of the shares to be repurchased, from Citigroup for \$100 million. The final number of shares to be repurchased and the aggregate cost to the Company will be based on the Company's volume-weighted average stock price during the term of the transaction, which the Company expects to be completed during the fourth quarter of 2010. At termination of the transaction, the Company may receive additional shares or may be required to pay a price adjustment based on the volume-weighted average stock price. The Company may elect to settle the price adjustment, if any, in shares or in cash.
