- (a) **Returns represent past performance and do not guarantee future results.** Investment returns and the principal value of an investment will fluctuate. When shares are sold, they may be worth more or less than their original cost. Current performance may be lower or higher than the performance data presented. Visit www.gabelli.com for performance information as of the most recent month end. Performance returns for periods of less than one year are not annualized. **Investors should carefully consider the investment objectives, risks, charges, and expenses of the Fund before investing.** The 3 Month U.S. Treasury Bill Index is comprised of a single issue purchased at the beginning of the month and held for a full month. At the end of the month, that issue is sold and rolled into the outstanding Treasury Bill that matures closest to, but not beyond three months from the re-balancing date. To qualify for selection, an issue must have settled on or before the re-balancing (month end) date. Dividends are considered reinvested except for the 3 Month U.S. Treasury Bill Index. You cannot invest directly in an index.
- (b) Total returns and average annual returns reflect changes in the NAV per share and reinvestment of distributions at NAV on the ex-dividend date and are net of expenses. Since inception return is based on an initial NAV of \$19.06.
- (c) Total returns and average annual returns reflect changes in closing market values on the NYSE and reinvestment of distributions. Since inception return is based on an initial offering price of \$20.00.

We have separated the portfolio manager 's commentary from the financial statements and investment portfolio due to corporate governance regulations stipulated by the Sarbanes-Oxley Act of 2002. We have done this to ensure that the content of the portfolio manager 's commentary is unrestricted. The financial statements and investment portfolio are mailed separately from the commentary. Both the commentary and the financial statements, including the portfolio of investments, will be available on our website at www.gabelli.com.

Based on net asset value per share, adjusted for reinvestment of distributions at the net asset value per share on the ex-dividend dates. Total return for a period of less than one year is not annualized.

Based on market value per share, adjusted for reinvestment of distributions at prices obtained under the Fund's dividend reinvestment plan. Total return for a period of less than one year is not annualized.

Effective in 2008, a change in accounting policy was adopted with regard to the calculation of the portfolio turnover rate to include cash proceeds due to mergers. Had this policy been adopted retroactively, the portfolio turnover rate for the period ended December 31, 2007 would have been 411%.

* Based on year to date book income. Amounts are subject to change and recharacterization at year end.

** The ratio includes amortization of offering costs on preferred shares.

*** Based on net asset value per share at commencement of operations of \$19.06 per share, adjusted for reinvestment of distributions at the net asset value per share on the ex-dividend dates.

**** Based on market value per share at initial public offering of \$20.00 per share, adjusted for reinvestments of distributions at prices obtained under the Fund's dividend reinvestment plan.

(a) The ratios do not include a reduction for custodian fee credits on cash balances maintained with the custodian (Custodian Fee Credits). Including such Custodian Fee Credits, the expense ratios for the year ended December 31, 2008 and the period ended December 31, 2007 would have been 0.66% and 0.63%, respectively. For the six months ended June 30, 2011 and the year ended December 31, 2010, there were no Custodian Fee Credits, and for the year ended December 31, 2009, the effect of Custodian Fee Credits was minimal.

THE GDL FUND

NOTES TO FINANCIAL STATEMENTS (Unaudited)

1. Organization. The GDL Fund, formerly The Gabelli Global Deal Fund (the Fund) is a non-diversified closed-end management investment company organized as a Delaware statutory trust on October 17, 2006 and registered under the Investment Company Act of 1940, as amended (the 1940 Act). Investment operations commenced on January 31, 2007.

The Fund's primary investment objective is to achieve absolute returns in various market conditions without excessive risk of capital. The Fund will seek to achieve its objective by investing primarily in merger arbitrage transactions and, to a lesser extent, in corporate reorganizations involving stubs, spin-offs, and liquidations. Under normal market conditions, the Fund will invest at least 80% of its assets in securities or hedging arrangements relating to companies involved in corporate transactions or reorganizations, giving rise to the possibility of realizing gains upon or within relatively short periods of time after the completion of such transactions or reorganizations.

The Fund may invest a high percentage of its assets in specific sectors of the market in order to achieve a potentially greater investment return. As a result, the Fund may be more susceptible to economic, political, and regulatory developments in a particular sector of the market, positive or negative, and may experience increased volatility to the Fund's NAV and a magnified effect in its total return.

2. Significant Accounting Policies. The Fund's financial statements are prepared in accordance with U.S. Generally Accepted Accounting Principles (GAAP), which may require the use of management estimates and assumptions. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Security Valuation. Portfolio securities listed or traded on a nationally recognized securities exchange or traded in the U.S. over-the-counter market for which market quotations are readily available are valued at the last quoted sale price or a market's official closing price as of the close of business on the day the securities are being valued. If there were no sales that day, the security is valued at the average of the closing bid and asked prices or, if there were no asked prices quoted on that day, then the security is valued at the closing bid price on that day. If no bid or asked prices are quoted on such day, the security is valued at the most recently available price or, if the Board of Trustees (the Board) so determines, by such other method as the Board shall determine in good faith to reflect its fair market value. Portfolio securities traded on more than one national securities exchange or market are valued according to the broadest and most representative market, as determined by Gabelli Funds, LLC (the Adviser).

Portfolio securities primarily traded on a foreign market are generally valued at the preceding closing values of such securities on the relevant market, but may be fair valued pursuant to procedures established by the Board if market conditions change significantly after the close of the foreign market, but prior to the close of business on the day the securities are being valued. Debt instruments with remaining maturities of sixty days or less that are not credit impaired are valued at amortized cost, unless the Board determines such amount does not reflect the securities' fair value, in which case these securities will be fair valued as determined by the Board. Debt instruments having a maturity greater than sixty days for which market quotations are readily available are valued at the average of the latest bid and asked prices. If there were no asked prices quoted on such day, the security is valued using the closing bid price. U.S. government obligations with maturities greater than sixty days are normally valued using a model that incorporates market observable data such as reported sales of similar securities, broker quotes, yields, bids, offers, and reference data. Certain securities are valued principally using dealer quotations. Futures contracts are valued at the closing settlement price of the exchange or board of trade on which the applicable contract is traded.

THE GDL FUND

NOTES TO FINANCIAL STATEMENTS (Continued) (Unaudited)

Securities and assets for which market quotations are not readily available are fair valued as determined by the Board. Fair valuation methodologies and procedures may include, but are not limited to: analysis and review of available financial and nonfinancial information about the company; comparisons with the valuation and changes in valuation of similar securities, including a comparison of foreign securities with the equivalent U.S. dollar value ADR securities at the close of the U.S. exchange; and evaluation of any other information that could be indicative of the value of the security.

The inputs and valuation techniques used to measure fair value of the Fund's investments are summarized into three levels as described in the hierarchy below:

Level 1 quoted prices in active markets for identical securities;

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.); and

Level 3 significant unobservable inputs (including the Fund's determinations as to the fair value of investments).

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input both individually and in the aggregate that is significant to the fair value measurement. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The summary of the Fund's investments in securities and other financial instruments by inputs used to value the Fund's investments as of June 30, 2011 is as follows:

* Other financial instruments are derivatives reflected in the SOI, such as futures, forwards, and swaps, which are valued at the unrealized appreciation/depreciation of the instrument.

The Fund did not have significant transfers between Level 1 and Level 2 during the six months ended June 30, 2011.

The following table reconciles Level 3 investments for which significant unobservable inputs were used to determine fair value:

The Fund's policy is to recognize transfers into and transfers out of Level 3 as of the beginning of the reporting period.

In January 2010, the Financial Accounting Standards Board (FASB) issued amended guidance to improve disclosure about fair value measurements which requires additional disclosures about transfers between Levels 1 and 2 and separate disclosures about purchases, sales, issuances, and settlements in the reconciliation of fair value

THE GDL FUND

NOTES TO FINANCIAL STATEMENTS (Continued) (Unaudited)

measurements using significant unobservable inputs (Level 3). The FASB also clarified existing disclosure requirements relating to the levels of disaggregation of fair value measurement and inputs and valuation techniques used to measure fair value. Management has adopted the amended guidance and determined that there was no material impact to the Fund's financial statement except for additional disclosures made in the notes.

In May 2011, the FASB issued Accounting Standards Update (ASU) No. 2011-04 Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards (IFRS). ASU 2011-04 includes common requirements for measurement of and disclosure about fair value between U.S. GAAP and IFRS. ASU 2011-04 will require reporting entities to disclose the following information for fair value measurements categorized within Level 3 of the fair value hierarchy: quantitative information about the unobservable inputs used in the fair value measurement, the valuation processes used by the reporting entity, and a narrative description of the sensitivity of the fair value measurement to changes in unobservable inputs and the interrelationships between those unobservable inputs. In addition, ASU 2011-04 will require reporting entities to make disclosures about amounts and reasons for all transfers into and out of Level 1 and Level 2 fair value measurements. The new and revised disclosures are effective for interim and annual reporting periods beginning after December 15, 2011. At this time, management is evaluating the implications of ASU No. 2011-04 and its impact on the financial statements.

Merger Arbitrage Risk. The principal risk associated with the Fund's investment strategy is that certain of the proposed reorganizations in which the Fund invests may involve a longer time frame than originally contemplated or be renegotiated or terminated, in which case losses may be realized. The Fund invests all or a portion of its assets to seek short-term capital appreciation. This can be expected to increase the portfolio turnover rate and cause increased brokerage commission costs.

Derivative Financial Instruments.

The Fund may engage in various portfolio investment strategies by investing in a number of derivative financial instruments for the purposes of increasing the income of the Fund, hedging against changes in the value of its portfolio securities and in the value of securities it intends to purchase, or hedging against a specific transaction with respect to either the currency in which the transaction is denominated or another currency. Investing in certain derivative financial instruments, including participation in the options, futures, or swap markets, entails certain execution, liquidity, hedging, tax, and securities, interest, credit, or currency market risks. Losses may arise if the Adviser's prediction of movements in the direction of the securities, foreign currency, and interest rate markets is inaccurate. Losses may also arise if the counterparty does not perform its duties under a contract, or that, in the event of default, the Fund may be delayed in or prevented from obtaining payments or other contractual remedies owed to it under derivative contracts. The creditworthiness of the counterparties is closely monitored in order to minimize these risks. Participation in derivative transactions involves investment risks, transaction costs, and potential losses to which the Fund would not be subject absent the use of these strategies. The consequences of these risks, transaction costs, and losses may have a negative impact on the Fund's ability to pay distributions.

The Fund's derivative contracts held at June 30, 2011, if any, are not accounted for as hedging instruments under U.S. GAAP and are disclosed in the Schedule of Investments together with the related counterparty.

Swap Agreements. The Fund may enter into equity contract for difference swap transactions for the purpose of increasing the income of the Fund. The use of swaps is a highly specialized activity that involves investment techniques and risks different from those associated with ordinary portfolio security transactions. In an equity contract for difference swap, a set of future cash flows is exchanged between two counterparties. One of these cash flow streams will typically

THE GDL FUND

NOTES TO FINANCIAL STATEMENTS (Continued) (Unaudited)

be based on a reference interest rate combined with the performance of a notional value of shares of a stock. The other will be based on the performance of the shares of a stock. Depending on the general state of short-term interest rates and the returns on the Fund's portfolio securities at the time a swap transaction reaches its scheduled termination date, there is a risk that the Fund will not be able to obtain a replacement transaction or that the terms of the replacement will not be as favorable as on the expiring transaction.

Unrealized gains related to swaps are reported as an asset and unrealized losses are reported as a liability in the Statement of Assets and Liabilities. The change in value of swaps, including the accrual of periodic amounts of interest to be paid or received on swaps, is reported as unrealized gain or loss in the Statement of Operations. A realized gain or loss is recorded upon payment or receipt of a periodic payment or termination of swap agreements.

The Fund has entered into equity contract for difference swap agreements with The Goldman Sachs Group, Inc. Details of the swaps at June 30, 2011 are reflected within the Schedule of Investments and further details are as follows:

Notional Amount		Equity Security Received	Interest Rate/Equity Security Paid	Termination Date	Net Unrealized Depreciation
		Market Value	One Month LIBOR plus 90 bps plus		
		Appreciation on:	Market Value Depreciation on:		
\$228,270	(100,000 Shares)	Gulf Keystone Petroleum Ltd.	Gulf Keystone Petroleum Ltd.	6/27/12	\$ (6,011)
5,295	(1,000 Shares)	J Sainsbury plc	J Sainsbury plc	6/27/12	(9)
					\$ (6,020)

The Fund's volume of activity in equity contract for difference swap agreements during the six months ended June 30, 2011 had an average monthly notional amount of approximately \$256,023.

Futures Contracts. The Fund may engage in futures contracts for the purpose of hedging against changes in the value of its portfolio securities and in the value of securities it intends to purchase. Upon entering into a futures contract, the Fund is required to deposit with the broker an amount of cash or cash equivalents equal to a certain percentage of the contract amount. This is known as the initial margin. Subsequent payments (variation margin) are made or received by the Fund each day, depending on the daily fluctuations in the value of the contract, and are included in unrealized appreciation/depreciation on futures. The Fund recognizes a realized gain or loss when the contract is closed.

There are several risks in connection with the use of futures contracts as a hedging instrument. The change in value of futures contracts primarily corresponds with the value of their underlying instruments, which may not correlate with the change in value of the hedged investments. In addition, there is the risk that the Fund may not be able to enter into a closing transaction because of an illiquid secondary market. During the six months ended June 30, 2011, the Fund held no investments in futures contracts.

Forward Foreign Exchange Contracts. The Fund may engage in forward foreign exchange contracts for the purpose of hedging a specific transaction with respect to either the currency in which the transaction is denominated or another currency as deemed appropriate by the Adviser. Forward foreign exchange contracts are valued at the forward rate and are marked-to-market daily. The change in market value is included in unrealized appreciation/depreciation on foreign currency translations. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

THE GDL FUND

NOTES TO FINANCIAL STATEMENTS (Continued) (Unaudited)

The use of forward foreign exchange contracts does not eliminate fluctuations in the underlying prices of the Fund's portfolio securities, but it does establish a rate of exchange that can be achieved in the future. Although forward foreign exchange contracts limit the risk of loss due to a decline in the value of the hedged currency, they also limit any potential gain that might result should the value of the currency increase. In addition, the Fund could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts. Forward foreign exchange contracts at June 30, 2011 are reflected within the Schedule of Investments.

The Fund's volume of activity in forward foreign currency contracts during the six months ended June 30, 2011 had an average monthly value of approximately \$12,702,089.

Repurchase Agreements. The Fund may enter into repurchase agreements with primary government securities dealers recognized by the Federal Reserve Board, with member banks of the Federal Reserve System, or with other brokers or dealers that meet credit guidelines established by the Adviser and reviewed by the Board. Under the terms of a typical repurchase agreement, the Fund takes possession of an underlying debt obligation subject to an obligation of the seller to repurchase, and the Fund to resell, the obligation at an agreed-upon price and time, thereby determining the yield during the Fund's holding period. It is the policy of the Fund to receive and maintain securities as collateral whose market value is not less than their repurchase price. The Fund will make payment for such securities only upon physical delivery or upon evidence of

book entry transfer of the collateral to the account of the custodian. To the extent that any

THE GDL FUND

NOTES TO FINANCIAL STATEMENTS (Continued) (Unaudited)

repurchase transaction exceeds one business day, the value of the collateral is marked-to-market on a daily basis to maintain the adequacy of the collateral. If the seller defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited. At June 30, 2011, the Fund held no investments in repurchase agreements.

Securities Sold Short. The Fund may enter into short sale transactions. Short selling involves selling securities that may or may not be owned and, at times, borrowing the same securities for delivery to the purchaser, with an obligation to replace such borrowed securities at a later date. The proceeds received from short sales are recorded as liabilities and the Fund records an unrealized gain or loss to the extent of the difference between the proceeds received and the value of an open short position on the day of determination.

The Fund records a realized gain or loss when the short position is closed out. By entering into a short sale, the Fund bears the market risk of an unfavorable change in the price of the security sold short. Dividends on short sales are recorded as an expense by the Fund on the ex-dividend date and interest expense is recorded on the accrual basis. The broker retains collateral for the value of the open positions, which is adjusted periodically as the value of the position fluctuates. At June 30, 2011, there were no short sales outstanding.

Series B Cumulative Preferred Shares. For financial reporting purposes only, the liquidation value of preferred shares that have a mandatory call date is classified as a liability within the Statement of Assets and Liabilities and the dividends paid on these preferred shares are included as a component of Interest expense on preferred shares within the Statement of Operations. Offering costs are amortized over the life of the preferred shares.

Foreign Currency Translations. The books and records of the Fund are maintained in U.S. dollars. Foreign currencies, investments, and other assets and liabilities are translated into U.S. dollars at the current exchange rates. Purchases and sales of investment securities, income, and expenses are translated at the exchange rate prevailing on the respective dates of such transactions. Unrealized gains and losses that result from changes in foreign exchange rates and/or changes in market prices of securities have been included in unrealized appreciation/depreciation on investments and foreign currency translations. Net realized foreign currency gains and losses resulting from changes in exchange rates include foreign currency gains and losses between trade date and settlement date on investment securities transactions, foreign currency transactions, and the difference between the amounts of interest and dividends recorded on the books of the Fund and the amounts actually received. The portion of foreign currency gains and losses related to fluctuation in exchange rates between the initial purchase trade date and subsequent sale trade date is included in realized gain/(loss) on investments.

Foreign Securities. The Fund may directly purchase securities of foreign issuers. Investing in securities of foreign issuers involves special risks not typically associated with investing in securities of U.S. issuers. The risks include possible revaluation of currencies, the inability to repatriate funds, less complete financial information about companies, and possible future adverse political and economic developments. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than securities of comparable U.S. issuers.

Foreign Taxes. The Fund may be subject to foreign taxes on income, gains on investments, or currency repatriation, a portion of which may be recoverable. The Fund will accrue such taxes and recoveries as applicable, based upon its current interpretation of tax rules and regulations that exist in the markets in which it invests.

Securities Transactions and Investment Income. Securities transactions are accounted for on the trade date with realized gain or loss on investments determined by using the identified cost method. Interest income (including

THE GDL FUND

NOTES TO FINANCIAL STATEMENTS (Continued) (Unaudited)

amortization of premium and accretion of discount) is recorded on the accrual basis. Premiums and discounts on debt securities are amortized using the effective yield to maturity method. Dividend income is recorded on the ex-dividend date, except for certain dividends from foreign securities that are recorded as soon after the ex-dividend date as the Fund becomes aware of such dividends.

Custodian Fee Credits and Interest Expense. When cash balances are maintained in the custody account, the Fund receives credits which are used to offset custodian fees. The gross expenses paid under the custody arrangement are included in custodian fees in the Statement of Operations with the corresponding expense offset, if any, shown as Custodian fee credits. When cash balances are overdrawn, the Fund is charged an overdraft fee equal to 110% of the 90 day Treasury Bill rate on outstanding balances. This amount, if any, would be included in interest expense in the Statement of Operations. There were neither custodian fee credits earned nor such interest expense incurred during the six months ended June 30, 2011.

Distributions to Shareholders. Distributions to shareholders are recorded on the ex-dividend date. Distributions to shareholders are based on income and capital gains as determined in accordance with federal income tax regulations, which may differ from income and capital gains as determined under U.S. GAAP. See Series B Cumulative Preferred Shares above for discussion of U.S. GAAP treatment. The distributions on these Preferred Shares are treated as dividends for tax purposes. These differences are also due to differing treatments of income and gains on various investment securities and foreign currency transactions held by the Fund, timing differences, and differing characterizations of distributions made by the Fund. Distributions from net investment income for federal income tax purposes include net realized gains on foreign currency transactions. These book/tax differences are either temporary or permanent in nature. To the extent these differences are permanent, adjustments are made to the appropriate capital accounts in the period when the differences arise. These reclassifications have no impact on the NAV of the Fund.

The Fund declared and paid quarterly distributions from net investment income, capital gains, and paid-in capital. The actual sources of the distribution are determined after the end of the year. Distributions during the year may be made in excess of required distributions. To the extent such distributions were made from current earnings and profits, they are considered ordinary income or long-term capital gains. This may restrict the Fund's ability to pass through to shareholders all of its net realized long-term capital gains as a Capital Gain Dividend, subject to the maximum federal income tax rate of 15%, and may cause such gains to be treated as ordinary income subject to a maximum federal income tax rate of 35%. Any paid-in capital that is a component of a distribution and is not sourced from realized gains of the Fund should not be considered as yield or total return on an investment from the Fund.

The tax character of distributions paid during the year ended December 31, 2010 was as follows:

	Common	Preferred
Distributions paid from:		
Ordinary income (inclusive of short-term capital gains)	\$ 563,444	\$ 8,183,698
Return of capital	26,544,152	
 Total distributions paid	 \$ 27,107,596	 \$ 8,183,698

Provision for Income Taxes. The Fund intends to continue to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code). It is the policy of the Fund to comply with the requirements of the Code applicable to regulated investment companies and to distribute substantially all of its net investment company taxable income and net capital gains. Therefore, no provision for federal income taxes is required.

THE GDL FUND

NOTES TO FINANCIAL STATEMENTS (Continued) (Unaudited)

As of December 31, 2010, the components of accumulated earnings/losses on a tax basis were as follows:

Net unrealized depreciation on investments, swap contracts, and foreign currency translations	\$ (5,097,207)
Post-October capital loss deferral	(21,970)
Other temporary differences*	(108,723)
 Total	 \$ (5,227,900)

* Other temporary differences are primarily due to adjustments on preferred share class distribution payables and adjustments on investments in swap contracts. Under the current tax law, capital losses related to securities and foreign currency realized after October 31 and prior to the Fund's year end may be treated as occurring on the first day of the following year. For the year ended December 31, 2010, the Fund deferred capital losses of \$21,970.

Under the recently enacted Regulated Investment Company Modernization Act of 2010, the Fund will be permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010 for an unlimited period. Additionally, post-enactment capital losses that are carried forward will retain their character as either short-term or long-term capital losses rather than being considered all short-term as under previous law.

The following summarizes the tax cost of investments and the related net unrealized appreciation at June 30, 2011:

	Cost (Proceeds)	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation
Investments	\$ 461,613,680	\$ 13,627,708	\$ (11,548,791)	\$ 2,078,917
Short sales	(9,325,416)	935,916		935,916
	\$ 452,288,264	\$ 14,563,624	\$ (11,548,791)	\$ 3,014,833

The Fund is required to evaluate tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether the tax positions are more-likely-than-not of being sustained by the applicable tax authority. Income tax and related interest and penalties would be recognized by the Fund as tax expense in the Statement of Operations if the tax positions were deemed not to meet the more-likely-than-not threshold. For the six months ended June 30, 2011, the Fund did not incur any income tax, interest, or penalties. As of June 30, 2011, the Adviser has reviewed all open tax years and concluded that there was no impact to the Fund's net assets or results of operations. Tax years ended December 31, 2007 through December 31, 2010 remain subject to examination by the Internal Revenue Service and state taxing authorities. On an ongoing basis, the Adviser will monitor the Fund's tax positions to determine if adjustments to this conclusion are necessary.

3. Agreements and Transactions with Affiliates. The Fund has entered into an investment advisory agreement (the "Advisory Agreement") with the Adviser which provides that the Fund will pay the Adviser a base fee, computed weekly and paid monthly, equal on an annual basis to 0.50% of the value of the Fund's average weekly managed assets. Managed assets consist of all of the assets of the Fund without deduction for borrowings, repurchase transactions, and other leveraging techniques, the liquidation value of any outstanding preferred shares, or other liabilities except for certain ordinary course expenses. In addition, the Fund may pay the Adviser an annual performance fee at a calendar year end if the Fund's total return on its managed assets during the year exceeds the total return of the 3 Month U.S. Treasury Bill Index (the "T-Bill Index") during the same period. For every four basis points that the Fund's total return exceeds

THE GDL FUND

NOTES TO FINANCIAL STATEMENTS (Continued) (Unaudited)

the T-Bill Index, the Fund will accrue weekly and pay annually one basis point performance fee up to a maximum performance fee of 150 basis points. Under the performance fee arrangement, the annual rate of the total fees paid to the Adviser can range from 0.50% to 2.00% of the average weekly managed assets. For the six months ended June 30, 2011, the Fund accrued a \$1,965,276 performance fee to the Adviser. In accordance with the Advisory Agreement, the Adviser provides a continuous investment program for the Fund's portfolio and oversees the administration of all aspects of the Fund's business and affairs.

During the six months ended June 30, 2011, the Fund paid brokerage commissions on security trades of \$331,386 to Gabelli & Company, Inc. (Gabelli & Co.), an affiliate of the Adviser.

The cost of calculating the Fund's NAV per share is a Fund expense pursuant to the Advisory Agreement between the Fund and the Adviser. During the six months ended June 30, 2011, the Fund paid or accrued \$22,500 to the Adviser in connection with the cost of computing the Fund's NAV.

As per the approval of the Board, the Fund compensates officers of the Fund, who are employed by the Fund and are not employed by the Adviser (although the officers may receive incentive based variable compensation from affiliates of the Adviser) and pays its allocated portion of the cost of the Fund's Chief Compliance Officer. For the six months ended June 30, 2011, the Fund paid or accrued \$55,557 in payroll expenses in the Statement of Operations.

The Fund pays each Trustee who is not considered an affiliated person an annual retainer of \$9,000 plus \$2,000 for each Board meeting attended. Each Trustee is reimbursed by the Fund for any out of pocket expenses incurred in attending meetings. All Board committee members receive \$1,000 per meeting attended, the Audit Committee Chairman receives an annual fee of \$3,000, the Nominating Committee Chairman receives an annual fee of \$2,000, and the Lead Trustee receives an annual fee of \$2,000. A Trustee may receive a single meeting fee, allocated among the participating funds, for participation in certain meetings held on behalf of multiple funds. Trustees who are directors or employees of the Adviser or an affiliated company receive no compensation or expense reimbursement from the Fund.

4. Portfolio Securities. Purchases and sales of securities during the six months ended June 30, 2011, other than short-term securities and U.S. Government obligations, aggregated \$633,209,944 and \$597,671,331, respectively.

5. Capital. The Fund is authorized to issue an unlimited number of common shares of beneficial interest (par value \$0.001). The Board has authorized the repurchase of the Fund's common shares on the open market when its shares are trading at a discount of 7.5% or more (or such other percentage as the Board may determine from time to time) from the NAV per share.

Transactions in shares of beneficial interest for the six months ended June 30, 2011 and the year ended December 31, 2010 were as follows:

	Six Months Ended June 30, 2011 (Unaudited)		Year Ended December 31, 2010	
	Shares	Amount	Shares	Amount
Shares repurchased	(35,813)	\$ (480,371)	(10,100)	\$ (134,536)

The Fund filed a shelf registration statement with the SEC, which became effective August 6, 2008. Under this shelf registration statement, on February 10, 2009, the Fund issued 1,920,242 Series A 8.50% Cumulative Callable Preferred Shares (liquidation preference, \$50 per share) (Series A Preferred Shares), \$0.001 par value, and received

THE GDL FUND

NOTES TO FINANCIAL STATEMENTS (Continued) (Unaudited)

\$95,532,039 (after solicitation fees paid to Gabelli & Company, Inc. as dealer manager of \$480,061 see Note 3 Transactions with Affiliates). On May 31, 2011, the Fund called all 1,697,246 outstanding Series A Preferred Shares at the redemption price of \$50 plus accumulated and unpaid dividends to the redemption date of \$0.7674 per share.

Also under this shelf registration statement, the Fund completed an additional rights offering whereby three transferable rights were issued for each Series A Preferred Share held as of March 1, 2011. On April 15, 2011, the Fund issued 2,879,758 Series B Cumulative Puttable and Callable Preferred Shares (liquidation preference, \$50 per share) (Series B Preferred Shares), \$0.001 par value, upon the submission of two rights and either \$50 or one share of Series A Preferred Shares. The cash proceeds to the Fund from the exercise of the rights totaled \$132,550,124 (after solicitation fees paid to Gabelli & Company, Inc. as dealer manager of \$287,976 see Note 3 Transactions with Affiliates). In addition, subscribing shareholders surrendered 222,996 Series A Preferred Shares at the \$50 liquidation preference value totaling \$11,149,800 to acquire Series B Preferred Shares.

The Fund retired all Series A Preferred Shares.

The Series B Preferred Shares pay quarterly distributions in March, June, September, and December of each year at an annual dividend rate of 7.00% for the dividend periods ending on or prior to March 26, 2012. The annual dividend rate thereafter will be reset by the Board and publicly announced in notices at least sixty days prior to (a) March 26, 2012 for the four dividend periods ending March 26, 2013, (b) March 26, 2013 for the eight dividend periods ending March 26, 2015, and (c) March 26, 2015 for all remaining dividend periods prior to the mandatory redemption date of March 26, 2018. The Series B Preferred Shares may be put back to the Fund during a period after the announcement of a new rate, and may be redeemed by the Fund at any time three years after the issuance date of the Series B Preferred Shares. Each reset date will take into account interest rates for debt securities with similar timeframes to put or maturity and annual dividend rates may be lower than 7.00%, but not less than 3.00% annually. At June 30, 2011, there were 2,879,758 Series B Preferred Shares outstanding and accrued dividends amounted to \$111,991.

6. Indemnifications. The Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts. Management has reviewed the Fund's existing contracts and expects the risk of loss to be remote.

7. Other Matters. On April 24, 2008, the Adviser entered into a settlement with the SEC to resolve an inquiry regarding prior frequent trading in shares of the GAMCO Global Growth Fund (the Global Growth Fund) by one investor who was banned from the Global Growth Fund in August 2002. Under the terms of the settlement, the Adviser, without admitting or denying the SEC's findings and allegations, paid \$16 million (which included a \$5 million civil monetary penalty). On the same day, the SEC filed a civil action in the U.S. District Court for the Southern District of New York against the Executive Vice President and Chief Operating Officer of the Adviser, alleging violations of certain federal securities laws arising from the same matter. The officer, who also is an officer of the Global Growth Fund and other funds in the Gabelli/GAMCO complex, including this Fund, denies the allegations and is continuing in his positions with the Adviser and the funds. The settlement by the Adviser did not have, and the resolution of the action against the officer is not expected to have, a material adverse impact on the Adviser or its ability to fulfill its obligations under the Advisory Agreement.

8. Subsequent Events. Management has evaluated the impact on the Fund of events occurring subsequent to June 30, 2011, through the date the financial statements were issued, and has determined that there were no subsequent events requiring recognition or disclosure in the financial statements.
