All of the shares covered by this prospectus are issuable upon the conversion of our outstanding 8% automatically convertible preferred stock. We entered into a registration rights agreement with one of the placement agents in the offering in which we agreed, for the benefit of the holders of the preferred stock, to file a registration statement with the U.S. Securities and Exchange Commission with respect to resales of the common stock issued upon the conversion of the preferred stock. We also agreed to use our reasonable best efforts to keep the registration statement effective, subject to certain exceptions, for up to two years or such earlier date as all of the common stock issued upon the conversion of the preferred stock has been sold. THE COMPANY

Halcón Resources Corporation (Halcón or the Company) is an independent energy company engaged in the acquisition, production, exploration and development of onshore oil and natural gas properties in the United States. Our producing properties are located in highly prolific basins with long histories of oil and natural gas operations. We have been active in our core producing areas of Texas, Oklahoma and Louisiana since our inception in 1987 and have grown through a balanced strategy of acquisitions, development and exploratory drilling. Through December 31, 2011, we have drilled or participated in the drilling of 907 gross oil and natural gas wells, approximately 94% of which were successfully completed and produced hydrocarbons in commercial quantities. Our management team has extensive technical and operating expertise in all areas of our geographic focus.

Our oil and natural gas assets are characterized by a combination of developing and mature reserves and properties. We have mature oil and natural gas reserves located primarily in Wichita, Wilbarger and Starr Counties, Texas, Pontotoc County, Oklahoma, and in several parishes in Louisiana.

As of December 31, 2011, our estimated net proved reserves were 21.1 million barrels of oil equivalent, or MMBoe, of which approximately 59% were crude oil, 32% were natural gas, and 9% were natural gas liquids, or NGLs, based on benchmark prices of \$96.19 per barrel, or Bbl, of oil and \$4.12 per thousand cubic feet, or Mcf, of natural gas. The benchmark prices reflect the unweighted arithmetic average of the first-day-of-the-month price for oil and natural gas during each month of 2011, as required by SEC rules. At December 31, 2011, our proved developed reserves comprised 64% of our total proved reserves.

At December 31, 2011, we owned interests in approximately 4,000 gross wells and were the operator of leases upon which approximately 3,200 of these wells are located. We also own a drilling rig, various gathering systems, a natural gas processing plant, service rigs and a supply company that services our properties.

During the twelve months ended December 31, 2011, we drilled or participated in the drilling of 61 gross wells on our oil and natural gas properties, 49 of which were successfully completed as producing wells, five of which were abandoned wells and seven of which were either drilling or waiting to be completed at the end of that period. For the twelve months ended December 31, 2011, we produced 1,504 MBoe, averaging approximately 4,100 Boe per day.

Halcón is a Delaware corporation formerly known as RAM Energy Resources, Inc. Our principal offices are located at 1000 Louisiana Street, Suite 6700, Houston, Texas 77002, telephone number (832) 538-0300, and our website can be found at www.halconresources.com. Recent Developments

We have recently completed several transactions:

Recapitalization by Halcón Resources, LLC

On February 8, 2012, Halcón Resources, LLC, a newly-formed company led by Floyd C. Wilson, former Chairman and Chief Executive Officer of Petrohawk Energy Corporation, recapitalized us with a \$550.0 million investment structured as the purchase of \$275.0 million in new common stock, a \$275.0 million five-year 8% convertible note and warrants for the purchase of an additional 36,666,667 million shares of our common stock at an exercise price of \$4.50 per share. At closing, Floyd C. Wilson was appointed as our Chairman, President and Chief Executive Officer, and our name was changed to Halcón Resources Corporation. Mark J. Mize was also appointed as our Executive Vice President, Chief Financial Officer, and Treasurer and was designated as our

principal accounting officer, and the composition of our board was altered to consist of 10 new individuals: Floyd C. Wilson, Tucker S. Bridwell, James W. Christmas, Thomas R. Fuller, James L. Irish III, E. Murphy Markham IV, David B. Miller, Daniel A. Rioux, Stephen P. Smiley and Mark A. Welsh IV. Mr. Wilson was elected Chairman of the Board and Mr. Irish was named Lead Independent Director. The Audit Committee of the Board is composed of Mr. Irish (Chairman) and Messrs. Christmas and Smiley. The Nominating and Corporate Governance Committee is composed of Mr. Christmas (Chairman) and Messrs. Fuller, Rioux and Welsh. The Compensation Committee is composed of Mr. Smiley (Chairman) and Messrs. Bridwell, Markham and Rioux. Additionally, the Board established a Reserves Committee composed of Mr. Fuller (Chairman) and Messrs. Bridwell and Welsh.

In connection with the closing of the Halcón Transaction, we entered into a Senior Revolving Credit Agreement (the "credit agreement") with J.P. Morgan Chase Bank, N.A., as administrative agent, and the other lenders named therein on February 8, 2012. The credit agreement provides for a \$500.0 million facility with an initial borrowing base of \$225.0 million. Amounts borrowed under the credit agreement will initially mature on February 8, 2017. The borrowing base will be redetermined semi-annually, with the company and the lenders each having the right to one interim unscheduled redetermination between any two consecutive semi-annual redeterminations. The borrowing base takes into account our oil and natural gas properties, proved reserves, total indebtedness, and other relevant factors consistent with customary oil and gas lending criteria. The borrowing base is subject to a reduction equal to the product of 0.25 multiplied by the stated principal amount (without regard to any initial issue discount) of any notes or other long-term debt securities that we may issue.

Following the recapitalization, our primary focus is to expand our leasehold position in areas we have determined are prospective for oil or liquids-rich resource plays. We have identified several target resource plays for potential leasehold acquisition, including the Utica Shale/Point Pleasant formations in Ohio and Pennsylvania, the Mississippian Lime formation in Northern Oklahoma and Southern Kansas, the Wilcox formation in Southwest Louisiana and the Woodbine/Eagle Ford formations in East Texas. In addition to our ongoing lease acquisition efforts in our targeted resource plays, we have identified several new exploratory areas we believe are prospective for oil and liquids-rich hydrocarbons.

Private Placement of Convertible Preferred Stock

On March 5, 2012, we sold in a private placement to certain institutional accredited investors 4,444.4511 shares of convertible preferred stock, each share of which will convert into 10,000 shares of our common stock (or a proportionate number of shares of common stock with respect to any fractional shares of preferred stock), subject to certain adjustments, for approximately \$400.0 million, or \$9.00 per share of common stock, before offering expenses. The convertible preferred stock will convert into common stock automatically on April 17, 2012, which is the 20th calendar day after we mailed a definitive information statement to holders of our common stock notifying them that our majority stockholder has consented to the issuance of common stock upon conversion of the convertible preferred stock. No dividend will be paid on the convertible preferred stock if it converts into common stock on or before May 31, 2012.

Our Business Strategy

We are an independent energy company engaged in the acquisition, production, exploration and development of onshore oil and natural gas properties located in the United States. Our primary objective is to increase stockholder value by growing reserves, production and cash flow. To accomplish this objective, we intend to execute the following business strategies:

Pursue Strategic Acreage Positions in Liquids-Rich Regions. Our management intends to employ a process, based on analysis of the best available geologic and engineering data, to identify and lease or acquire acreage with economically attractive hydrocarbon potential. We intend to aggressively pursue acreage in our key focus areas.

Table of Contents

Develop Acquired Acreage Positions Using Our Development Expertise. We plan to leverage our management team's expertise and the latest available technologies to explore and develop our properties. We will also evaluate industry drilling results to improve our operating practices, and we expect that our drilling and completion techniques will continue to evolve.

Pursue Asset and Corporate Acquisitions. We plan to continually review opportunities to acquire assets in liquids-rich resource plays. We will rely on our technical expertise to evaluate the geology in various regions and identify highly prospective acreage. We will then use our business development teams to acquire acreage in the most economic manner possible. This could include leasing or acquiring acreage, as described above, or the acquisition of asset packages or existing operating companies.

Manage Our Property Portfolio Actively. We continually evaluate our property base to identify non-core, higher cost or lower volume producing properties with limited development potential. This strategy allows us to focus on a portfolio of core properties with significant potential to increase our proved reserves and production. We expect that divestitures of non-core assets will provide us with cash to reinvest in our business, reducing our reliance on the capital markets for financing.

Maintain Financial Flexibility. We have significant cash available for potential acquisitions, exploration and development drilling, and other corporate purposes. We believe our cash, internally generated cash flows, borrowing capacity and access to the capital markets will provide us with sufficient liquidity to execute our current capital program and strategy. We could also generate additional funds by divesting non-core assets. We intend to use a hedging program to protect our cash flow that will be used for capital spending.

RISK FACTORS

An investment in our common stock involves risks. Before you invest in our common stock, you should carefully consider the risk factors discussed or incorporated by reference in the applicable prospectus supplement, together with all the other information contained in the applicable prospectus supplement, this prospectus, or incorporated by reference, including the risk factors and other cautionary statements described under the heading "Risk Factors" included in our most recent Annual Report on Form 10-K, and, to the extent applicable, in subsequently filed Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. If any of these risks were to materialize, our business, results of operations, cash flows and financial condition could be materially adversely affected. In that case, the trading price of our common stock could decline and you could lose all or part of your investment.

USE OF PROCEEDS

This prospectus relates to the offer and sale from time to time of up to an aggregate of 44,444,511 shares of common stock for the account of the selling stockholders referred to in this prospectus. We will not receive any of the proceeds from the sale of any shares of common stock by the selling stockholders. Please read "Selling Stockholders" for a list of the persons receiving proceeds from the sale of the common stock covered by this prospectus.

DESCRIPTION OF HALCÓN CAPITAL STOCK

Set forth below is a description of the material terms of our capital stock. However, this description is not complete and is qualified by reference to our certificate of incorporation (including our certificate of designation) and bylaws. Copies of our certificate of incorporation (including our certificate of designation) and bylaws have been filed with the SEC and are incorporated by reference into this prospectus. Please read "Where You Can Find More Information; Incorporation by Reference." You should also be aware that the summary below does not give full effect to the provisions of statutory or common law that may affect your rights as a stockholder.

Table of Contents

Authorized Capital Stock

Our authorized capital stock consists of 366,666,666 shares of common stock, par value of \$0.0001 per share, and 1,000,000 shares of preferred stock, par value \$0.0001 per share. As of April 6, 2012, we had approximately 99.4 million shares of common stock and 4,444.4511 shares of preferred stock outstanding.

Selected provisions of our organizational documents are summarized below, however, you should read the organizational documents, which are filed as exhibits to our periodic filings with the SEC and incorporated by reference, for other provisions that may be important to you. In addition, you should be aware that the summary below does not give full effect to the terms of the provisions of statutory or common law which may affect your rights as a stockholder.

Common Stock

Voting rights. Each share of common stock is entitled to one vote in the election of directors and on all other matters submitted to a vote of stockholders. Stockholders do not have the right to cumulate their votes in the election of directors.

Dividends, distributions and stock splits. Holders of common stock are entitled to receive dividends if, as and when such dividends are declared by the board of directors out of assets legally available therefor after payment of dividends required to be paid on shares of preferred stock, if any. Our existing debt arrangements restrict our ability to pay cash dividends.

Liquidation. In the event of any dissolution, liquidation, or winding up of our affairs, whether voluntary or involuntary, after payment of debts and other liabilities and making provision for any holders of its preferred stock who have a liquidation preference, our remaining assets will be distributed ratably among the holders of common stock.

Fully paid. All shares of common stock outstanding are fully paid and nonassessable.

Other rights. Holders of common stock have no redemption or conversion rights and no preemptive or other rights to subscribe for our securities.

Preferred Stock

Our board of directors has the authority to issue up to 1,000,000 shares of preferred stock in one or more series and to fix the rights, preferences, privileges and restrictions thereof, including dividend rights, dividend rates, conversion rates, voting rights, terms of redemption, redemption prices, liquidation preferences and the number of shares constituting any series or the designation of that series, which may be superior to those of the common stock, without further vote or action by the stockholders. One of the effects of undesignated preferred stock may be to enable our board of directors to render more difficult or to discourage an attempt to obtain control of us by means of a tender offer, proxy contest, merger or otherwise, and as a result to protect the continuity of our management. The issuance of shares of the preferred stock by the board of directors as described above may adversely affect the rights of the holders of common stock. For example, preferred stock issued by us may rank superior to the common stock as to dividend rights, liquidation preference or both, may have full or limited voting rights and may be convertible into shares of common stock. Accordingly, the issuance of shares of preferred stock may discourage bids for our common stock or may otherwise adversely affect the market price of our common stock.

Automatically Convertible Preferred Stock

Each share of preferred stock will automatically convert into 10,000 shares of common stock and each fractional share of preferred stock will convert into a proportionate number of shares of common stock on the day following the occurrence of certain events described below. If conversion has not occurred on or before May 31,

Table of Contents

2012, holders of the preferred stock will be entitled to receive quarterly dividends accruing from the date of initial issuance at a rate of 8% per annum. The following discussion summarizes some, but not all, provisions of the certificate of designation governing the preferred stock. A copy of the certificate of designation governing the preferred stock is filed with the SEC as Exhibit 3.1 to our Form 8-K filed on March 5, 2012.

Ranking. The preferred stock ranks, with respect to dividend rights and rights upon liquidation, dissolution or winding up:

Junior to any other class or series of stock that has terms providing that such class or series will rank senior to the preferred stock;

On parity with any other class or series of stock that has terms providing that such class or series will rank on a parity with the preferred stock (which we refer to as parity securities); and

Senior to our common stock, and each other class or series of stock that has terms providing that such class or series will rank junior to the preferred stock (which we refer to as junior securities).

Dividend Rights. No dividends will be payable on the preferred stock if automatic conversion occurs on or before May 31, 2012. See

Conversion. However, if the preferred stock has not been converted into common stock on or before May 31, 2012, then each holder of preferred stock will be entitled to receive dividends at an annual rate of 8% of the initial liquidation price per share from the date of issuance. If a cash dividend is not declared and paid on any dividend payment date, then the liquidation price per share of preferred stock will be increased by the amount of the unpaid dividend. An increase in the liquidation price will have the effect of increasing the number of shares of common stock into which the preferred stock is convertible, the price at which it is redeemable and the amount of the liquidation preference. Upon such an increase in the liquidation price, we will have no further obligation with respect to the dividend that was accrued and payable with respect to the applicable dividend payment date.

Dividends will be payable quarterly on March 31, June 30, September 30 and December 31 of each year, beginning June 30, 2012 (each, a dividend payment date), to holders of record as they appear in our stock records at the close of business on the tenth business day immediately preceding the respective dividend payment date, or such other record date as may be fixed by our board of directors in advance of a dividend payment date. Dividends payable on shares of preferred stock for any period other than a full quarterly period are computed on the basis of a 360-day year consisting of twelve 30-day months.

We may not, without the prior consent of the holders of a majority of the preferred stock voting as a separate class, declare or pay any dividend or distribution, whether in liquidation or otherwise, to the holders of, or purchase, redeem or otherwise acquire for value prior to its stated maturity:

any junior securities, or

any parity securities, unless such dividends or distribution is allocated (i) to pay all accrued and unpaid dividends on the preferred stock and the parity securities, pro rata, based on the unpaid amount thereof, if there are any accrued and unpaid dividends on the preferred stock or such parity securities, and (ii) to pay the holders of preferred stock and the parity securities, pro rata based on their respective liquidation preferences, if there are no accrued and unpaid dividends on the preferred stock or such parity securities.

Liquidation Rights. Upon our voluntary or involuntary liquidation, dissolution or winding up, holders of preferred stock will be entitled to receive a liquidation preference equal to the original issuance price, plus the amount attributable to any increase in the liquidation preference as described under *Dividend Rights*, together with any accrued and unpaid dividends to the date of payment, before any payment or distribution is made to holders of common stock or other junior securities. If, upon our voluntary or involuntary liquidation, dissolution or winding up, the amounts payable with respect to shares of preferred stock and all parity securities

Table of Contents

are not paid in full, the holders of shares of preferred stock and the holders of the parity securities will share equally and ratably in any distribution of our assets in proportion to the full liquidation preference and the amount equal to all accrued and unpaid dividends to which each such holder is entitled.

Unless the holders of two-thirds of the outstanding preferred stock agree otherwise, each of the following events would be deemed a liquidation, dissolution or winding up for purposes of determining the rights of holders of preferred stock:

the sale of substantially all of our assets (or our approval to do so);

approval by our stockholders of our merger or consolidation with another entity in certain circumstances; or

the acquisition by any person or group, other than a holder of 5% or more of our common stock on the initial issue date of the preferred stock, of securities (excluding shares of common stock issuable upon conversion of the preferred stock) representing more than 35% of the voting power of our equity securities.

Conversion. The preferred stock will automatically convert into common stock on April 17, 2012, which is the 20th calendar day after we mailed a definitive information statement to our stockholders notifying them that our majority stockholder has consented to the issuance of common stock upon conversion of the preferred stock. In accordance with Nasdaq Marketplace Rule 5635(d), our majority stockholder, prior to the sale of shares of preferred stock in the private offering, consented to the issuance of common stock upon conversion of the preferred stock.

Each share of preferred stock will be convertible into a number of shares of common stock determined by dividing the liquidation preference of the preferred stock, which is equal to the liquidation price plus the amount of any accrued and unpaid dividends through the date of conversion, by the conversion price. Initially, the liquidation price is equal to the initial issue price of the preferred stock, or \$90,000.00, and the conversion price is \$9.00. Thus, initially, each share of preferred stock will be convertible into 10,000 shares of common stock and each fractional share of preferred stock will be convertible into a proportionate number of shares of common stock. The initial conversion price is subject to adjustment in certain circumstances, including stock splits, stock dividends, rights offerings, or combinations of our common stock. The liquidation price will be increased if any accrued dividend is not paid in cash on the applicable dividend payment date, by an amount equal to the amount of the unpaid dividend, as described under *Dividend Rights*. Any decrease in the conversion price or increase in the liquidation price will result in a corresponding increase in the conversion rate of the preferred stock, and any increase in the conversion price will result in a corresponding decrease in the conversion rate. Upon conversion of the preferred stock, the holders will surrender to us or the transfer agent the certificate or certificates for the shares to be converted, and we will deliver to each such holder the certificate or certificates for the number of shares of our common stock to which the holder is entitled.

No fractional shares of common stock will be issued upon conversion of shares of preferred stock. All shares, including fractional shares, of common stock issuable to a holder of preferred stock will be aggregated. If after such aggregation, the conversion would result in the issuance of a fractional share of common stock, the fraction will be rounded up or down to the nearest whole number of shares.

Upon any reorganization or reclassification of our capital stock, any consolidation or merger with or into another company or any sale of all or substantially all of our assets to another company (if such transaction is not treated as a liquidation), we or such successor entity, as the case may be, will make appropriate provision so that each share of preferred stock then outstanding will be convertible into the kind and amount of securities, cash and other property receivable upon such reorganization, reclassification, consolidation, merger or sale by a holder or the number of shares of common stock into which such share of preferred stock might have been converted immediately before such transaction, subject to such adjustment as shall be as nearly equivalent as may be practicable to the adjustments described above. These provisions will similarly apply to successive reorganizations, reclassifications, consolidations, mergers or sales.

Table of Contents

Redemption. We will be required to redeem all of the outstanding shares of preferred stock if the preferred stock has not been converted into common stock on or before February 9, 2018. We will notify holders of record of preferred stock upon the occurrence of such event, and the redemption must occur within 30 days following such event. Upon redemption, each holder of preferred stock will be entitled to receive, upon surrender of preferred stock certificates, cash in the amount of the then-current liquidation preference, including all accrued and unpaid dividends through the date of redemption.

Consent Rights and Voting Rights. The holders of the preferred stock generally have no consent or voting rights except as required by law or described below. If the automatic conversion has not occurred by September 1, 2012, the holders of the preferred stock, voting separately as a class, will be entitled to elect two additional members to our board of directors.

We may not, without the approval of holders of two-thirds of our preferred stock, undertake any of the following:

amend, alter, waive, repeal or modify (whether by merger, consolidation or otherwise) any provision of our certificate of incorporation (including any filing or amending of a certificate of designation for any senior security or parity security) or bylaws so as to adversely affect or otherwise impair any of the rights, preferences, privileges, qualifications, limitations or restrictions of, or applicable to, the preferred stock;

authorize, issue or increase the authorized amount of any class of senior securities or parity securities;

increase or decrease (other than by redemption or conversion) the authorized number of shares of our preferred stock;

liquidate, dissolve or wind up in any form of transaction; or

enter into any agreement regarding, or any transaction or series of transactions resulting in, a change of control for a period of six months following March 5, 2012, and thereafter unless provision is made in the agreement effecting such transaction for the redemption of our preferred stock in cash in accordance with the certificate of designation for the preferred stock.

Delaware Anti-Takeover Law and Certain Charter and Bylaw Provisions

Our certificate of incorporation, bylaws and the Delaware General Corporation Law (the "DGCL") contain certain provisions that could discourage potential takeover attempts and make it more difficult for stockholders to change management or receive a premium for their shares.

Delaware law. Under Section 203 of the DGCL, a corporation is prohibited from engaging in any business combination with a stockholder who, together with its affiliates or associates, owns (or who is an affiliate or associate of the corporation and within a three-year period did own) 15% or more of the corporation's outstanding voting stock (which we refer to as an "interested stockholder") for a three-year period following the time the stockholder became an interested stockholder, unless:

prior to the time the stockholder became an interested stockholder, the board of directors of the corporation approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;

the interested stockholder owned at least 85% of the voting stock of the corporation, excluding specified shares, upon consummation of the transaction which resulted in the stockholder becoming an interested stockholder; or

at or subsequent to the time the stockholder became an interested stockholder, the business combination is approved by the board of directors of the corporation and authorized by the affirmative vote, at an annual or special meeting, and not by written consent, of at least $66\frac{2}{3}\%$ of the outstanding voting shares of the corporation, excluding shares held by that interested stockholder.

A business combination generally includes:

mergers and consolidations with or caused by an interested stockholder;

sales or other dispositions of 10% or more of the assets of a corporation to an interested stockholder;

specified transactions resulting in the issuance or transfer to an interested stockholder of any capital stock of the corporation or its subsidiaries; and

other transactions resulting in a disproportionate financial benefit to an interested stockholder.

The provisions of Section 203 of the DGCL do not apply to a corporation if, subject to certain requirements, the certificate of incorporation or bylaws of the corporation contain a provision expressly electing not to be governed by the provisions of the statute or the corporation does not have voting stock listed on a national securities exchange or held of record by more than 2,000 stockholders.

Because our certificate of incorporation and bylaws do not include any provision to opt-out of Section 203 of the DGCL, the statute will apply to business combinations involving the Company.

Charter and bylaw provisions. Delaware law permits any Delaware corporation to classify its board of directors into as many as three (3) classes as equally as possible with staggered terms of office. After initial implementation of a classified board, one class will be elected at each annual meeting of the stockholders to serve for a term of three (3) years (depending upon the number of classes into which directors are classified) or until their successors are elected and take office. Our certificate of incorporation and bylaws provide for a classified board of directors divided into three (3) classes, with the number of directors in each class as nearly equal as possible and each class serving for a term of three (3) years or until their successors are elected and qualified. Under Delaware law, stockholders of a corporation with a classified board of directors may only remove a director for cause unless the certificate of incorporation provides otherwise. Our certificate of incorporation does not so provide and, accordingly, stockholders may only remove a director for cause. Further, our bylaws provide that a majority vote of the holders of the outstanding shares entitled to vote at the meeting is required to effect such removal. The likely effect of the classification of the board of directors and the limitations on the removal of directors is an increase in the time required for the stockholders to change the composition of the board of directors. For example, because only approximately one-third of the directors may be replaced by stockholder vote at each annual meeting of stockholders, stockholders seeking to replace a majority of the members of the board of directors will need at least two annual meetings of stockholders to effect this change.

The following table sets forth the maximum number of shares of our common stock to be sold by the selling stockholders, assuming the conversion of all shares of preferred stock held by or for the benefit of each selling stockholder into shares of our common stock. The table also sets forth the name of each selling stockholder, the nature of any position, office, or other material relationship which the selling stockholder has had, within the past three years, with us or with any of our predecessors or affiliates, and the number of shares of our common stock to be owned by such stockholders after completion of the offering.

Additionally, the selling stockholders may have sold or transferred some or all of their shares of our common stock in transactions exempt from the registration requirements of the Securities Act of 1933, as amended (the Securities Act) since the date on which the information in the table was provided to us. Other information about the selling stockholders may also change over time.

The indication herein that shares are beneficially owned is not an admission on the part of the stockholder that he, she or it is a direct or indirect beneficial owner of those shares. Because the selling stockholders are not obligated to sell all or any portion of the shares of our common stock shown as offered by them, we cannot estimate the actual number of shares (or actual percentage of the class) of our common stock that will be held by any selling stockholder upon completion of this resale offering. However, for purposes of this table, we have assumed that, after completion of the offering, none of the shares covered by this prospectus will be held by the applicable selling stockholder.

FORWARD-LOOKING STATEMENTS

The information discussed in this prospectus, our filings with the SEC and our public releases include forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. All statements, other than statements of historical facts, included in or incorporated by reference into this prospectus that address activities, events or developments that we expect or anticipate will or may occur in the future are forward-looking statements. These forward-looking statements may be, but are not always, identified by their use of terms and phrases such as may, expect, estimate, project, plan, believe, intend, achievable, anticipate, will, continue, potential, similar terms and phrases. Although we believe that the expectations reflected in these forward-looking statements are reasonable, they do involve certain assumptions, risks and uncertainties. Actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including, among others:

volatility in commodity prices for oil and natural gas;

our ability to successfully identify and acquire oil and natural gas properties, prospects and leaseholds, including undeveloped acreage in new and emerging resource plays;

our ability to successfully integrate acquired oil and natural gas businesses and operations;

our ability to profitably deploy our capital;

management's ability to execute our plans to meet our goals;

exploration and development risks;

our ability to attract and retain key members of senior management and key technical employees;

competition, including competition for acreage in resource play areas;

the possibility that our industry may be subject to future regulatory or legislative actions (including any additional taxes and changes in environmental regulation);

the presence or recoverability of estimated oil and natural gas reserves and the actual future production rates and associated costs;

our ability to replace oil and natural gas reserves;

environmental risks;

drilling and operating risks;

the cost and availability of goods and services, such as drilling rigs, fracture stimulation services and tubulars;

general economic conditions, whether internationally, nationally or in the regional and local market areas in which we do business, may be less favorable than expected, including the possibility that economic conditions in the United States will worsen and that capital markets are disrupted, which could adversely affect demand for oil and natural gas and make it difficult to access financial markets;

social unrest, political instability, armed conflict, or acts of terrorism or sabotage in oil and natural gas producing regions, such as the Middle East or our markets; and

other economic, competitive, governmental, legislative, regulatory, geopolitical and technological factors that may negatively impact our business, operations or pricing.

Finally, our future results will depend upon various other risks and uncertainties, including, but not limited to, those detailed in the section entitled "Risk Factors" included in our Annual Report on Form 10-K for the year ended December 31, 2011. All forward-looking statements are expressly qualified in their entirety by the cautionary statements in this paragraph and elsewhere in this document. Other than as required under the securities laws, we do not assume a duty to update these forward-looking statements, whether as a result of new information, subsequent events or circumstances, changes in expectations or otherwise.

Item 15. Indemnification Of Officers And Directors

Article Seventh of our certificate of incorporation and Article VII of our bylaws provide for indemnification of our officers and directors, as well as our employees and agents, to the extent authorized by the DGCL. Pursuant to Section 145 of the DGCL, we generally have the power to indemnify our current and former directors, officers, employees and agents against expenses and liabilities that they incur in connection with any suit to which they are, or are threatened to be made, a party by reason of their serving in such positions so long as they acted in good faith and in a manner they reasonably believed to be in, or not opposed to, our best interests, and with respect to any criminal action, they had no reasonable cause to believe their conduct was unlawful. The statute expressly provides that the power to indemnify or advance expenses authorized thereby is not exclusive of any rights granted under any charter provision, bylaw, agreement, vote of stockholders or disinterested directors, or otherwise, both as to actions in such person's official capacity and as to action in another capacity while holding such office. We also have the power to purchase and maintain insurance for such directors and officers.

Item 17. Undertakings

(a) The undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement;

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

Provided, however, that paragraphs (a)(1)(i), (a)(1)(ii) and (a)(1)(iii) of this section do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the Commission by the registrant pursuant to section 13 or section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:

(i) Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

Table of Contents

(ii) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B and relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) for the purpose of providing the information required by section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. *Provided, however,* that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

(b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer, or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer, or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933 and will be governed by the final adjudication of such issue.
