Overview

Halcón Resources Corporation is an independent energy company engaged in the acquisition, exploration and development of onshore oil and natural gas properties in the United States. We are active in several emerging liquids-rich resource style plays, including the Utica Shale/Point Pleasant formations in Ohio and Pennsylvania, the Woodbine/Eagle Ford formations in East Texas, the Tuscaloosa Marine Shale (TMS) formation in Louisiana, the Wilcox formation in East Texas and Southwest Louisiana, the Bakken Shale and Three Forks formations in the Williston Basin in North Dakota and Montana, the Mississippi Lime formation in Northern Oklahoma, and the Midway/Navarro formations in Southeast Texas. We also have acquired acreage in two other undisclosed locations. Additionally, we have mature oil and natural gas reserves located primarily in Wichita, Wilbarger and Starr Counties, Texas, Pontotoc County, Oklahoma, and in several parishes in South Louisiana.

In early August 2012, we concluded two significant acquisitions. On August 1, 2012, we acquired all of the issued and outstanding capital stock of GeoResources, Inc., which we refer to herein as GeoResources. On August 3, 2012, we completed the acquisition of oil and gas leasehold interests in approximately 20,628 net acres in East Texas, which we refer to as the East Texas Assets. On a pro forma basis giving effect to our acquisitions of GeoResources and the East Texas Assets, our estimated net proved reserves as of December 31, 2011 were approximately 66.1 MMBoe, of which approximately 72% were crude oil and natural gas liquids and 28% were natural gas. The pro forma average daily production for Halcón was approximately 11,142 Boe/d during the year ended December 31, 2011 and 14,876 Boe/d during the three months ended June 30, 2012. Financial statements giving pro forma effect to our acquisitions of GeoResources and the East Texas Assets are incorporated herein by reference to our Current Reports on Forms 8-K/A filed with the SEC on August 24, 2012.

Halcón is a Delaware corporation formerly known as RAM Energy Resources, Inc. Halcón's principal offices are located at 1000 Louisiana St., Suite 6700, Houston, Texas 77002, telephone number (832) 538-0300, and its website can be found at www.halconresources.com. Our Properties

In general, our properties are distinguished by being either resource style plays, characterized by high oil and liquids-rich natural gas content in thick, continuous sections of source rock that can provide repeatable drilling opportunities and significant initial production rates, and conventional style plays, characterized by vertical drilling programs and long-lived, oil-weighted production. Our resource style plays include:

Utica/Point Pleasant

We currently have approximately 140,000 net acres leased or under contract in Ohio and Pennsylvania that we believe are prospective for the Utica/Point Pleasant formations. We plan to spud four to six wells in the second half of 2012 and expect to spud the first two wells in October. The average working interest in these wells is approximately 95%.

Woodbine

We currently have approximately 180,000 net acres, prospective for the Woodbine and other formations, leased or under contract in East Texas. We have 15 horizontal wells producing, one well being completed and

Table of Contents

five wells being drilled. Expectations are to spud 18 to 22 wells in the play in the second half of 2012 with an average working interest of approximately 84%. We are currently operating five rigs across our acreage and plan to add an additional one to two rigs by the end of 2012.

Tuscaloosa Marine Shale (TMS)

We currently have approximately 60,000 net acres leased or under contract in Louisiana. We are targeting 150,000 to 200,000 net acres in the play. We recently spud our first well, the Broadway 1H, in Rapides Parish, Louisiana. Current plans are to spud one to three wells in the second half of 2012 with an average working interest of 100%, utilizing one rig.

Bakken and Three Forks

We have working interests in approximately 55,000 net acres prospective for the Bakken and Three Forks formations in Williams, Mountrail and McKenzie Counties, North Dakota and Roosevelt and Richland Counties, Montana. We are also targeting up to 125,000 net acres in the Williston Basin. There are currently 28 wells producing, one well flowing back after completion, four wells awaiting completion and three wells being drilled on our operated acreage. We plan to continue running three operated rigs in the Williston Basin for the remainder of 2012. Expectations are to spud 12 to 16 horizontal wells on our operated acreage with an average working interest of 33% in the second half of 2012. In addition, we expect to participate in 25 to 30 wells on our non-operated acreage in the second half of 2012.

Mississippi Lime

We hold a concession for approximately 45,000 gross and net acres from the Osage Minerals Council in Osage County, Oklahoma. We have drilled five horizontal wells (100% working interest) and four salt water disposal wells since the end of April 2012. Four of the wells are producing and the fifth well is scheduled to be completed by the end of the third quarter 2012.

Midway/Navarro

We have approximately 20,000 net acres leased or under contract in Southeast Texas that we believe are prospective for the Midway/Navarro formations, and are targeting 50,000 to 75,000 net acres across this trend. Our first well, the Kollatschny 1 (85% working interest), in Austin County, is a two zone discovery completed in the Navarro formation. The well is currently flowing back and is expected to be on production within approximately 10 days. A second well, the Hillboldt 1 (85% working interest) in Austin County, is pending completion in the Navarro formation.

Wilcox

We currently have approximately 84,000 net acres leased, optioned or under contract in Southeast Texas and Southwest Louisiana that we believe are prospective for the Wilcox formation. We plan to use one rig to spud two to four wells with an average working interest of 85% in the second half of 2012.

Liquids-Rich Exploratory Plays

We currently anticipate building a position of 200,000 to 350,000 net acres across two undisclosed unconventional liquids-rich exploratory plays. We have drilled a pilot well in one of the plays and are currently evaluating results from the core analysis. Drilling is expected to commence in the other play in the fourth quarter of 2012. Our strategy for the exploratory plays is to use in-house geologic expertise to identify areas that we believe are prospective for oil or liquids-rich production.

Table of Contents

Eagle Ford

We have working interests in approximately 24,000 net acres, prospective for the Eagle Ford, Austin Chalk and other formations, in Fayette and Gonzales Counties, Texas. There are currently 16 wells producing, two wells being completed, two wells waiting on completion and two wells being drilled. We are currently running two operated rigs and expect to spud 9 to 11 wells with an average working interest of 45% in the second half of 2012. We plan to divest the Eagle Ford Properties during the fourth quarter of 2012. See **Other Recent Developments** Potential Divestiture of Eagle Ford Properties.

Conventional Style Properties

Our conventional style properties are located in the following areas:

the Electra/Burkburnett Field in North Texas;

the Fitts-Allen Fields in Central Oklahoma;

South Louisiana;

Permian Basin; and

Other (includes properties in South Texas, Montana, North Dakota, New Mexico, West Virginia and the Black Warrior Basin). We are currently pursuing certain activities to potentially enhance these assets, including redesigning existing waterflood programs. We will consider divesting certain of these assets, that we determine are non-core and reinvesting the proceeds in our resource style areas.

Other Recent Developments

Issuance of Senior Notes due 2020

On July 16, 2012, we issued and sold \$750 million aggregate principal amount of our 9.75% senior notes due 2020 in a private placement conducted pursuant to Rule 144A and Regulation S under the Securities Act. The initial purchasers purchased the notes at a purchase price of 98.646% of the principal amount of the notes. The net proceeds from the sale of the notes were used to fund the cash merger consideration used to acquire GeoResources and a portion of the cash purchase price for the East Texas Assets. Interest will be paid on the notes on January 15 and July 15 of each year, beginning on January 15, 2013, and the notes will mature on July 15, 2020. The notes are guaranteed on a senior unsecured basis by certain of our subsidiaries and will be exchanged for similar notes registered under the Securities Act.

Amended Credit Facility

In connection with the closing of our acquisitions of GeoResources and the East Texas Assets, we amended our senior revolving credit agreement to provide for a \$1.5 billion revolving credit facility with a borrowing base of \$525.0 million. Prior to this amendment, our \$500.0 million revolving credit facility had a borrowing base of \$225.0 million. The borrowing base will be redetermined semi-annually, with Halcón and the lenders each having the right to one interim unscheduled redetermination between any two consecutive semi-annual redeterminations. The adjustment will be based on our oil and natural gas properties, reserves, total indebtedness and other relevant factors consistent with normal oil and gas lending criteria. The borrowing base is subject to a reduction equal to the product of 0.25 multiplied by the stated principal amount (without regard to any initial issue discount) of any notes that we may issue in the future.

Table of Contents

Amounts outstanding under our revolving credit facility bear interest at specified margins over the base rate of 0.50% to 1.50% for ABR-based loans or at specified margins over LIBOR of 1.50% to 2.50% for Eurodollar-based loans. These margins will fluctuate based on our utilization of the facility. Borrowings will be secured by (a) first priority liens on at least 80% of the total value of substantially all of our oil and gas properties and assets, (b) all of the assets of, and equity interests in, our participating subsidiaries, and (c) not less than 65% of the voting stock and 100% of the non-voting stock of certain other subsidiaries. Amounts drawn down on the facility will mature on August 1, 2017.

The senior revolving credit agreement contains customary financial and other covenants, including minimum coverage of interest expenses of not less than 2.5 to 1.0 and minimum working capital levels, measured by the ratio of current assets plus the unused commitment under the Credit Agreement to current liabilities, of not less than 1.0 to 1.0. In addition, we are subject to covenants limiting certain corporate activities, dividends and other restricted payments, transactions with affiliates, incurrence of debt, changes of control, asset sales, liens on properties and swap agreements.

Potential Divestiture of Eagle Ford Properties

Pursuant to the terms of a non-compete covenant contained in a retention agreement between our current Chairman and Chief Executive Officer, Floyd C. Wilson, and his former employer, Petrohawk Energy Corporation, or Petrohawk, Halcón intends to divest certain oil and gas properties acquired in the GeoResources acquisition that are located in the vicinity of properties owned by Petrohawk at the time of its sale to BHP Billiton. These properties, which we refer to as the Eagle Ford Properties, are located principally in southwest Fayette and northeast Gonzales Counties of Texas. Our acreage position in the Eagle Ford Shale is approximately 24,000 net acres as a result of the GeoResources acquisition. To date, we drilled and completed 16 currently producing wells with two wells currently being completed, and two other wells awaiting completion. At present, two dedicated rigs are drilling in this project area. Our working interests in the Eagle Ford drilling units range from 35% to 55% with an average working interest of approximately 45%. As of December 31, 2011, the Eagle Ford Properties had estimated proved reserves of approximately 1.0 MMBoe, of which 94% are oil and NGLs and 17% are proved developed.

RISK FACTORS

An investment in our common stock is subject to a number of risks. You should carefully consider the following risks, as well as the section titled Risk Factors included in our annual report on Form 10-K for the year ended December 31, 2011 and our quarterly reports on Form 10-Q for the quarters ended March 31, 2012 and June 30, 2012, which are incorporated herein by reference, as well as the other documents incorporated herein by reference, in evaluating this investment. If any of the following risks actually occur, our business, financial condition or results of operations could suffer. In any such case, the trading price of our common stock and other securities could decline, and you could lose all or part of your investment.

Risks relating to this offering of common stock

The market price and trading volume of our common stock may be volatile and our stock price could decline.

The trading price of shares of our common stock has from time to time fluctuated widely and in the future may be subject to similar fluctuations. The trading price of our common stock may be affected by a number of factors, including our operating results, financial condition, drilling activities, general conditions in the oil and natural gas exploration and development industry, general economic conditions, the securities markets and the risk factors set forth in this prospectus and contained in our reports filed with the SEC, which are incorporated herein by reference.

We have agreed to register the resale of all of the shares of common stock acquired, or that may be acquired, by HALRES LLC, our principal stockholder and its affiliates. HALRES LLC owns approximately 73.3 million shares of our common stock immediately prior to this offering and has the right to acquire another approximately 97.8 million shares of our common stock through the conversion of a convertible promissory note and the exercise of a warrant held by it, which amount may increase as a result of the accrual of interest and our election to add accrued and unpaid interest to principal under the convertible note. We are required to register such shares upon the request of HALRES LLC, subject to certain exceptions. Assuming no exercise of the underwriter's option to purchase additional shares, HALRES LLC will distribute to its members approximately 58.3 million shares of our common stock in connection with this offering, including the 35.0 million shares being sold by the selling stockholder pursuant to this prospectus. After giving effect to this distribution, HALRES LLC will hold and have the right to acquire a total of approximately 112.8 million shares of our common stock. Further, we have registered for resale by third parties an aggregate of approximately 66.4 million shares of common stock originally issued by us in private placements that were exempt from registration under the Securities Act. The influx of a substantial number of shares into the public market could have a significant negative effect on the trading price of our common stock.

We may issue debt and equity securities or securities convertible into equity securities, any of which may be senior to our common stock as to distributions and liquidation.

In the future, we may issue additional debt or equity securities or securities convertible into or exchangeable for equity securities, or we may enter into debt-like financing that is unsecured or secured by any or all of our properties. Such securities may be senior to our common stock as to distributions. In addition, in the event of our liquidation, our lenders and holders of our debt and preferred securities would receive distributions of our available assets before distributions to the holders of our common stock.

If we were to experience an ownership change, we could be limited in our ability to use net operating losses arising prior to the ownership change to offset future taxable income.

If we were to experience an ownership change, as determined under section 382 of the Internal Revenue Code, our ability to offset taxable income arising after the ownership change with net operating losses (NOLs) arising prior to the ownership change would be limited, possibly substantially. An ownership change would establish an annual limitation on the amount of our pre-change NOLs we could utilize to offset our taxable income in any future taxable year to an amount generally equal to the value of our stock immediately prior to the ownership change multiplied by the long-term tax-exempt rate. We have not determined whether the sale of our common stock pursuant to this offering when combined with previous issuances of stock will result in an ownership change. If this offering or other issuances of stock within a three-year period result in an ownership change, our NOLs arising before such change would be limited in the manner described above.

FORWARD-LOOKING STATEMENTS

The information discussed in this prospectus, our filings with the SEC and our public releases include forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act. All statements, other than statements of historical facts, included in or incorporated by reference into this prospectus that address activities, events or developments that we expect or anticipate will or may occur in the future are forward-looking statements. Although we believe that the expectations reflected in these forward-looking statements are reasonable, they do involve certain assumptions, risks and uncertainties. Actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including, among others:

volatility in commodity prices for oil and natural gas;

our ability to successfully identify and acquire oil and natural gas properties, prospects and leaseholds, including undeveloped acreage in new and emerging resource plays;

our ability to successfully integrate acquired oil and natural gas businesses and operations;

our ability to profitably deploy our capital;

management's ability to execute our plans to meet our goals;

exploration and development risks;

our ability to attract and retain key members of senior management and key technical employees;

competition, including competition for acreage in resource play areas;

the possibility that our industry may be subject to future regulatory or legislative actions (including any additional taxes and changes in environmental regulation);

the presence or recoverability of estimated oil and natural gas reserves and the actual future production rates and associated costs;

our ability to replace oil and natural gas reserves;

environmental risks;

drilling and operating risks;

the cost and availability of goods and services, such as drilling rigs, fracture stimulation services and tubulars;

general economic conditions, whether internationally, nationally or in the regional and local market areas in which we do business, may be less favorable than expected, including the possibility that economic conditions in the United States will worsen and that capital markets are disrupted, which could adversely affect demand for oil and natural gas and make it difficult to access financial markets;

social unrest, political instability, armed conflict, or acts of terrorism or sabotage in oil and natural gas producing regions, such as the Middle East or our markets; and

other economic, competitive, governmental, legislative, regulatory, geopolitical and technological factors that may negatively impact our business, operations or pricing.

Finally, our future results will depend upon various other risks and uncertainties, including, but not limited to, those detailed in the section entitled "Risk Factors" included in our Annual Report on Form 10-K for the year ended December 31, 2011 and in our Quarterly Reports on Form 10-Q for the periods ended March 31, 2012 and June 30, 2012. Authorized Capital Stock

Halcón's authorized capital stock consists of 336,666,666 shares of common stock, par value of \$0.0001 per share, and 1,000,000 shares of preferred stock, par value \$0.0001 per share. As of September 12, 2012, Halcón had 216,217,425 shares of common stock and no shares of preferred stock outstanding.

Selected provisions of Halcón's organizational documents are summarized below, however, you should read the organizational documents, which are filed as exhibits to Halcón's periodic filings with the SEC and incorporated herein by reference, for other provisions that may be important to you. In addition, you should be aware that the summary below does not give full effect to the terms of the provisions of statutory or common law which may affect your rights as a Halcón stockholder.

Common Stock

Voting rights. Each share of common stock is entitled to one vote in the election of Halcón directors and on all other matters submitted to a vote of Halcón stockholders. Halcón stockholders do not have the right to cumulate their votes in the election of directors.

Dividends, distributions and stock splits. Holders of Halcón common stock are entitled to receive dividends if, as and when such dividends are declared by Halcón's board of directors out of assets legally available therefor after payment of dividends required to be paid on shares of preferred stock, if any. Halcón's existing debt arrangements restrict its ability to pay cash dividends.

Liquidation. In the event of any dissolution, liquidation, or winding up of Halcón's affairs, whether voluntary or involuntary, after payment of debts and other liabilities and making provision for any holders of its preferred stock who have a liquidation preference, Halcón's remaining assets will be distributed ratably among the holders of common stock.

Fully paid. All shares of Halcón common stock outstanding are fully paid and nonassessable.

Other rights. Holders of Halcón common stock have no redemption or conversion rights and no preemptive or other rights to subscribe for Halcón's securities.

Preferred Stock

Halcón's board of directors has the authority to issue up to 1,000,000 shares of preferred stock in one or more series and to fix the rights, preferences, privileges and restrictions thereof, including dividend rights, dividend rates, conversion rates, voting rights, terms of redemption, redemption prices, liquidation preferences and the number of shares constituting any series or the designation of that series, which may be superior to those of the common stock, without further vote or action by the stockholders.

Table of Contents

One of the effects of undesignated preferred stock may be to enable Halcón's board of directors to render more difficult or to discourage an attempt to obtain control of Halcón by means of a tender offer, proxy contest, merger or otherwise, and as a result to protect the continuity of Halcón management. The issuance of shares of the preferred stock by the Halcón board of directors may adversely affect the rights of the holders of Halcón common stock. For example, preferred stock issued by Halcón may rank superior to the common stock as to dividend rights, liquidation preference or both, may have full or limited voting rights and may be convertible into shares of common stock. Accordingly, the issuance of shares of Halcón preferred stock may discourage bids for Halcón common stock or may otherwise adversely affect the market price of Halcón common stock.

As of September 12, 2012, Halcón had no shares of preferred stock outstanding.

Delaware Anti-Takeover Law and Certain Charter and Bylaw Provisions

Halcón's certificate of incorporation, bylaws and the DGCL contain certain provisions that could discourage potential takeover attempts and make it more difficult for stockholders to change management or receive a premium for their shares.

Delaware law. Under Section 203 of the DGCL, a corporation is prohibited from engaging in any business combination with a stockholder who, together with its affiliates or associates, owns (or who is an affiliate or associate of the corporation and within a three-year period did own) 15% or more of the corporation's outstanding voting stock (which we refer to as an interested stockholder) for a three-year period following the time the stockholder became an interested stockholder, unless:

prior to the time the stockholder became an interested stockholder, the board of directors of the corporation approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;

the interested stockholder owned at least 85% of the voting stock of the corporation, excluding specified shares, upon consummation of the transaction which resulted in the stockholder becoming an interested stockholder; or

at or subsequent to the time the stockholder became an interested stockholder, the business combination is approved by the board of directors of the corporation and authorized by the affirmative vote, at an annual or special meeting, and not by written consent, of at least 66 2/3% of the outstanding voting shares of the corporation, excluding shares held by that interested stockholder.

A business combination generally includes:

mergers and consolidations with or caused by an interested stockholder;

sales or other dispositions of 10% or more of the assets of a corporation to an interested stockholder;

specified transactions resulting in the issuance or transfer to an interested stockholder of any capital stock of the corporation or its subsidiaries; and

other transactions resulting in a disproportionate financial benefit to an interested stockholder.

The provisions of Section 203 of the DGCL do not apply to a corporation if, subject to certain requirements, the certificate of incorporation or bylaws of the corporation contain a provision expressly electing not to be governed by the provisions of the statute or the corporation does not have voting stock listed on a national securities exchange or held of record by more than 2,000 stockholders.

Because Halcón's certificate of incorporation and bylaws do not include any provision to opt-out of Section 203 of the DGCL, the statute will apply to business combinations involving Halcón.

Table of Contents

Charter and bylaw provisions. Delaware law permits any Delaware corporation to classify its board of directors into as many as three (3) classes as equally as possible with staggered terms of office. After initial implementation of a classified board, one class will be elected at each annual meeting of the stockholders to serve for a term of three (3) years (depending upon the number of classes into which directors are classified) or until their successors are elected and take office. Halcón's certificate of incorporation and bylaws provide for a classified board of directors divided into three (3) classes, with the number of directors in each class as nearly equal as possible and each class serving for a term of three (3) years or until their successors are elected and qualified. Under Delaware law, stockholders of a corporation with a classified board of directors may only remove a director for cause unless the certificate of incorporation provides otherwise. Halcón's certificate of incorporation does not so provide and, accordingly, stockholders may only remove a director for cause. Further, Halcón's bylaws provide that a majority vote of the holders of the outstanding shares entitled to vote at the meeting is required to effect such removal. The likely effect of the classification of the board of directors and the limitations on the removal of directors is an increase in the time required for the stockholders to change the composition of the board of directors. For example, because only approximately one-third of the directors may be replaced by stockholder vote at each annual meeting of stockholders, stockholders seeking to replace a majority of the members of the Halcón board of directors will need at least two annual meetings of stockholders to effect this change.

CERTAIN UNITED STATES FEDERAL TAX CONSIDERATIONS

FOR NON-UNITED STATES HOLDERS

The following is a summary of the material United States federal income and, to a limited extent, estate tax consequences relating to the purchase, ownership and disposition of our common stock. Except where noted, this summary deals only with common stock that is held as a capital asset (generally, property held for investment) by a non-U.S. holder (as defined below).

A non-U.S. holder means a beneficial owner of common stock (other than a partnership or entity treated as a partnership for United States federal income tax purposes) that is not for United States federal income tax purposes any of the following:

an individual citizen or resident of the United States, including an alien individual who is a lawful permanent resident of the United States or who meets the substantial presence test under Section 7701(b) of the Internal Revenue Code of 1986, as amended, which we refer to as the Code ;

a corporation (or any other entity treated as a corporation for United States federal income tax purposes) created or organized in or under the laws of the United States, any state thereof or the District of Columbia;

an estate, the income of which is subject to United States federal income taxation regardless of its source; or

a trust if it (1) is subject to the primary supervision of a court within the United States and one or more United States persons have the authority to control all substantial decisions of the trust or (2) has a valid election in effect under applicable United States Treasury regulations to be treated as a United States person.

This summary is based upon provisions of the Code and Treasury regulations, administrative rulings and judicial decisions, all as of the date hereof. Those authorities may be changed, perhaps retroactively, so as to result in United States federal income and estate tax consequences different from those summarized below. This summary does not address all aspects of United States federal income and estate taxation and does not deal with foreign, state, local, alternative minimum tax or other tax considerations that may be relevant to non-U.S. holders in light of their personal circumstances. In addition, this summary does not address tax considerations applicable to investors that may be subject to special treatment under the United States federal income tax laws such as (without limitation):

certain United States expatriates;

stockholders that hold our common stock as part of a straddle, appreciated financial position, synthetic security, hedge, conversion transaction or other integrated investment or risk reduction transaction;

stockholders that hold our common stock as a result of a constructive sale;

stockholders that acquired our common stock through the exercise of employee stock options or otherwise as compensation or through a tax-qualified retirement plan;

stockholders that are partnerships or entities treated as partnerships for United States federal income tax purposes, or other pass-through entities, or owners thereof;

financial institutions;

insurance companies;

tax-exempt entities;

dealers in securities or foreign currencies; and

traders in securities that use the mark-to-market method of accounting for United States federal income tax purposes.

Table of Contents

If a partnership (including an entity treated as a partnership for United States federal income tax purposes) holds our common stock, the tax treatment of a partner generally will depend upon the status of the partner and the activities of the partnership. If you are a partner of a partnership (including an entity treated as a partnership for United States federal income tax purposes) holding our common stock, you should consult your tax advisor.

We have not sought any ruling from the Internal Revenue Service, which we refer to as the IRS, with respect to the statements made and the conclusions reached in the following summary, and there can be no assurance that the IRS will agree with such statements and conclusions. INVESTORS CONSIDERING THE PURCHASE OF COMMON STOCK SHOULD CONSULT THEIR TAX ADVISORS WITH RESPECT TO THE APPLICATION OF THE UNITED STATES FEDERAL INCOME AND ESTATE TAX LAWS TO THEIR PARTICULAR SITUATIONS AS WELL AS ANY TAX CONSEQUENCES ARISING UNDER THE LAWS OF ANY STATE, LOCAL OR FOREIGN TAXING JURISDICTION OR UNDER ANY APPLICABLE TAX TREATY.

Dividends

We do not presently expect to declare or pay any dividends on our common stock for the foreseeable future. However, if we do make distributions on our common stock, such distributions will constitute dividends for United States federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under United States federal income tax principles. Distributions in excess of our current and accumulated earnings and profits will constitute a return of capital that is applied against and reduces the non-U.S. holder's adjusted tax basis in our common stock. Any remaining excess will be treated as gain realized on the sale or other disposition of our common stock and will be treated as described below under Gain on disposition of common stock. Any dividend paid to a non-U.S. holder of our common stock ordinarily will be subject to withholding of United States federal income tax at a rate of 30%, or such lower rate as may be specified under an applicable income tax treaty. In order to receive a reduced treaty rate, a non-U.S. holder must provide us with IRS Form W-8BEN properly certifying eligibility for the reduced rate.

Dividends paid to a non-U.S. holder that are effectively connected with the conduct of a trade or business by the non-U.S. holder in the United States (and, if required by an applicable income tax treaty, are attributable to a United States permanent establishment or fixed base of the non-U.S. holder) generally will be exempt from the withholding tax described above and instead will be subject to United States federal income tax on a net income basis at the regular graduated United States federal income tax rates in the same manner as if the non-U.S. holder were a United States person as defined under the Code. In such case, we will not have to withhold United States federal income tax if the non-U.S. holder complies with applicable certification and disclosure requirements. In order to obtain this exemption from withholding tax, a non-U.S. holder must provide us with an IRS Form W-8ECI properly certifying eligibility for such exemption. Any such effectively connected dividends received by a foreign corporation may be subject to an additional branch profits tax at a rate of 30% or such lower rate as may be specified by an applicable income tax treaty.

Gain on disposition of common stock

Any gain realized on the disposition of our common stock by a non-U.S. holder generally will not be subject to United States federal income tax unless:

the gain is effectively connected with the conduct of a trade or business by the non-U.S. holder in the United States (and, if required by an applicable income tax treaty, is attributable to a United States permanent establishment or fixed base of the non-U.S. holder);

the non-U.S. holder is an individual who is present in the United States for 183 days or more in the taxable year of that disposition, and certain other conditions are met; or

we are or have been a United States real property holding corporation, or USRPHC, for United States federal income tax purposes.

Table of Contents

A non-U.S. holder who has gain that is described in the first bullet point immediately above will be subject to tax on the net gain derived from the disposition under regular graduated United States federal income tax rates in the same manner as if it were a United States person as defined under the Code. In addition, a non-U.S. holder described in the first bullet point immediately above that is a foreign corporation may be subject to the branch profits tax equal to 30% of its effectively connected earnings and profits or at such lower rate as may be specified by an applicable income tax treaty.

A non-U.S. holder who meets the requirements described in the second bullet point immediately above will be subject to a flat 30% tax on the gain derived from the disposition, which may be offset by United States source capital losses, even though the individual is not considered a resident of the United States.

With respect to our status as a USRPHC, we believe that we currently are, and expect to remain for the foreseeable future, a USRPHC for United States federal income tax purposes. However, so long as our common stock continues to be regularly traded on an established securities market, a non-U.S. holder will be taxable on gain recognized on the disposition of our common stock only if the non-U.S. holder actually or constructively holds or held more than 5% of such common stock at any time during the five-year period ending on the date of disposition or, if shorter, the non-U.S. holder's holding period for our common stock. If our common stock were not considered to be regularly traded on an established securities market, all non-U.S. holders would be subject to United States federal income tax on a disposition of our common stock.

Non-U.S. holders should consult their tax advisors with respect to the application of the foregoing rules to their ownership and disposition of our common stock.

Federal estate tax

If you are an individual, common stock owned or treated as being owned by you at the time of your death will be included in your gross estate for United States federal estate tax purposes and may be subject to United States federal estate tax, unless an applicable estate tax treaty provides otherwise.

Information reporting and backup withholding

We must report annually to the IRS and to each non-U.S. holder the amount of dividends paid to such holder and any tax withheld with respect to such dividends, regardless of whether withholding was required. Copies of the information returns reporting such dividends and withholding also may be made available to the tax authorities in the country in which the non-U.S. holder resides under the provisions of an applicable income tax treaty.

A non-U.S. holder will be subject to backup withholding for dividends paid to such holder unless such holder certifies under penalty of perjury that it is a non-U.S. holder (and the payor does not have actual knowledge or reason to know that such holder is a United States person as defined under the Code), or such holder otherwise establishes an exemption.

Information reporting and, depending on the circumstances, backup withholding will apply to the proceeds of a sale of our common stock within the United States or conducted through certain United States-related financial intermediaries, unless the beneficial owner certifies under penalty of perjury that it is a non-U.S. holder (and the payor does not have actual knowledge or reason to know that the beneficial owner is a United States person, as defined under the Code), or such owner otherwise establishes an exemption.

Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a non-U.S. holder's United States federal income tax liability, if any, provided the required information is furnished to the IRS.

Legislation affecting common stock held through foreign accounts

The Hiring Incentives to Restore Employment Act, enacted on March 18, 2010, generally will impose a withholding tax of 30 percent on any dividends on our common stock paid to a foreign financial institution, unless such institution enters into an agreement with the U.S. government to collect and provide to the U.S. tax authorities substantial information regarding U.S. account holders of such institution (which includes certain equity and debt holders of such institution, as well as certain account holders that are foreign entities with U.S. owners). The legislation also generally will impose a withholding tax of 30 percent on any dividends on our common stock paid to a non-financial foreign entity unless such entity provides the withholding agent with either certification that such entity does not have any substantial United States owners or identification of the direct and indirect U.S. owners of the entity. Finally, withholding of 30 percent also generally will apply to the gross proceeds of a disposition of our common stock paid to a foreign financial institution or to a non-financial foreign entity unless the reporting and certification requirements described above have been met. Under certain circumstances, a non-U.S. holder of our common stock might be eligible for refunds or credits of such taxes. Investors are encouraged to consult with their tax advisors regarding the possible implications of this legislation on their investment in our common stock.

Although this legislation currently applies to applicable payments made after December 31, 2012, in recent guidance, the IRS has indicated that Treasury regulations will be issued providing that the withholding provisions described above will apply to payments of dividends on shares of our common stock made on or after January 1, 2014 and to payments of gross proceeds from a sale or other disposition of such stock on or after January 1, 2015. Proposed Treasury regulations have been issued which, if finalized, would confirm the extension of the effective dates for withholding. Prospective investors should consult their tax advisors regarding this legislation.

THE FOREGOING DISCUSSION IS FOR GENERAL INFORMATION ONLY AND SHOULD NOT VIEWED AS TAX ADVICE. INVESTORS CONSIDERING THE PURCHASE OF OUR COMMON STOCK ARE URGED TO CONSULT THEIR OWN TAX ADVISORS REGARDING THE APPLICATION OF THE UNITED STATES FEDERAL INCOME AND ESTATE TAX LAWS TO THEIR PARTICULAR SITUATIONS AND THE APPLICABILITY AND EFFECT OF STATE, LOCAL OR FOREIGN TAX LAWS AND TREATIES.

CERTAIN ERISA CONSIDERATIONS

The common stock may be purchased and held by an employee benefit plan or an individual retirement account or other plan subject to Title I of the Employee Retirement Income Security Act of 1974, as amended (ERISA), Section 4975 of the Code and/or other similar laws. A fiduciary of an employee benefit plan subject to ERISA, Section 4975 of the Code and/or such other laws must determine that the purchase and holding of the common stock is consistent with its fiduciary duties. The fiduciary of an ERISA plan, as well as any other prospective investor subject to Section 4975 of the Code or any similar law, must also determine that its purchase and holding of the common stock does not result in a non-exempt prohibited transaction as set forth in Section 406 of ERISA or Section 4975 of the Code or similar law. Each purchaser and transferee of the common stock who is subject to ERISA and/or Section 4975 of the Code or a similar law will be deemed to have represented by its acquisition and holding of the common stock that such acquisition and holding does not constitute or give rise to a non-exempt prohibited transaction under ERISA, Section 4975 of the Code or any similar law.

Barclays Capital Inc., in its sole discretion, may release the common stock and other securities subject to the lock-up agreements described above in whole or in part at any time with or without notice. When determining whether or not to release the common stock and other securities from lock-up agreements, Barclays Capital Inc. will consider, among other factors, the holder's reasons for requesting the release, the number of shares of common stock or other securities for which the release is being requested and market conditions at the time.

Indemnification

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, and to contribute to payments that the underwriter may be required to make for these liabilities. The selling stockholder has also agreed that it will indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, and to contribute payments that the underwriters may be required to make for these liabilities, in each case as set forth in the underwriting agreement up to the gross proceeds received by the selling stockholder from this offering.

Stabilization

The underwriters may engage in stabilizing transactions, covering transactions or purchases for the purpose of pegging, fixing or maintaining the price of the common stock, in accordance with Regulation M under the Exchange Act:

Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.

Covering transactions involve purchases of the common stock in the open market after the distribution has been completed in order to cover short positions.

These stabilizing transactions and covering transactions may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of the common stock. As a result, the price of the common stock may be higher than the price that might otherwise exist in the open market. These transactions may be effected on The New York Stock Exchange or otherwise and, if commenced, may be discontinued at any time.

Neither we nor the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the common stock. In addition, neither we nor the underwriters make representation that the underwriter will engage in these stabilizing transactions or that any transaction, once commenced, will not be discontinued without notice.

Electronic Distribution

A prospectus in electronic format may be made available on the Internet sites or through other online services maintained by the underwriters or by their affiliates. In those cases, prospective investors may view offering terms online and, depending upon the particular underwriter, prospective investors may be allowed to place orders online. The underwriters may agree with us to allocate a specific number of shares for sale to online brokerage account holders. Any such allocation for online distributions will be made by the underwriters on the same basis as other allocations.

Other than the prospectus in electronic format, the information on the underwriters' websites and any information contained in any other website maintained by the underwriters is not part of the prospectus or the registration statement of which the prospectus forms a part, has not been approved and/or endorsed by us or either of the underwriters in its capacity as underwriter and should not be relied upon by investors.
