#### SELECTED CONSOLIDATED FINANCIAL DATA

We prepared our consolidated financial statements included in this annual report in accordance with International Financial Reporting Standards, as issued by the International Accounting Standards Board ( IASB ), referred to herein as IFRS. Our date of transition to IFRS was January 1, 2011. These consolidated annual financial statements are our first financial statements prepared in accordance with IFRS. IFRS 1, First-time Adoption of International Financial Reporting Standards, has been applied in preparing these financial statements. Note 27 to our audited consolidated financial statements contains an explanation of our adoption of IFRS and reconciliation between Mexican Financial Reporting Standards (*Normas de Información Financiera Mexicanas*, or Mexican FRS ) and IFRS as of January 1, 2011 and December 31, 2011 and for the year ended December 31, 2011.

This annual report includes (under Item 18) our audited consolidated statements of financial position as of December 31, 2012 and 2011, and January 1, 2011 and the related consolidated income statements, consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for the years ended December 31, 2012 and 2011. Our consolidated financial statements as of and for the year ended December 31, 2012 were prepared in accordance with IFRS. The consolidated financial statements as of and for the year ended December 31, 2011 were prepared in accordance with IFRS, but they differ from the information previously published for 2011 because they were originally presented in accordance with Mexican FRS.

Pursuant to IFRS, the information presented in this annual report presents financial information for 2012 and 2011 in nominal terms that has been presented in Mexican pesos, taking into account local inflation of each hyperinflationary economic environment and converting from local currency to Mexican pesos using the official exchange rate at the end of the period published by the local central bank of each country categorized as an hyperinflationary economic environment. For each non-hyperinflationary economic environment, local currency is converted to Mexican pesos using the year-end exchange rate for assets and liabilities, the historical exchange rate for equity and the average exchange rate for the income statement.

Our non-Mexican subsidiaries maintain their accounting records in the currency and in accordance with accounting principles generally accepted in the country where they are located. For presentation in our consolidated financial statements, we adjust these accounting records into IFRS and report in Mexican pesos under these standards.

Except when specifically indicated, information in the annual report on Form 20-F is presented as of December 31, 2012 and does not give effect to acquisitions subsequent to that date.

The following table presents selected financial information of our company. This information should be read in conjunction with, and is qualified in its entirety by reference to, our audited consolidated financial statements, including the notes thereto. The selected financial information contained herein is presented on a consolidated basis, and is not necessarily indicative of our financial position or results at or for any future date or period.
