**Table of Contents****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****1. Description of Business**

CyrusOne Inc., together with CyrusOne GP, wholly-owned by CyrusOne Inc., through which it holds a controlling interest in CyrusOne LP (the Operating Partnership) and the subsidiaries of the Operating Partnership (collectively, CyrusOne, we, us, our, and the Company) and is an owner, operator and developer of enterprise-class, carrier neutral data centers. Our customers operate in a number of industries, including energy, oil and gas, mining, medical, technology, finance and consumer goods and services. We currently operate 24 data centers located in the United States, United Kingdom and Singapore.

CyrusOne's operations are primarily conducted through the Operating Partnership. CyrusOne intends to elect the status of and qualify as a REIT under the Internal Revenue Code of 1986 (the Code), as amended, for the taxable year ended December 31, 2013.

**2. Formation**

Prior to November 20, 2012, the Company was a wholly-owned subsidiary of Cincinnati Bell Inc. (CBI). In anticipation of the initial public offering of CyrusOne Inc., CBI created CyrusOne Inc., CyrusOne GP and the Operating Partnership as legal entities and wholly-owned subsidiaries of CBI.

On November 20, 2012, the Operating Partnership received a contribution of interests in real estate properties and the assumption of debt and other specified liabilities from CBI in exchange for the issuance of 123,688,687 operating partnership units to CBI.

On January 24, 2013, CyrusOne Inc. completed its initial public offering (IPO) of common stock, issuing approximately 19.0 million shares for \$337.1 million, net of underwriter's discount. At which time the Operating Partnership executed a 2.8 to 1.0 reverse unit split, resulting in CBI owning 44.1 million Operating Partnership units. In addition, CBI exchanged approximately 1.5 million of its Operating Partnership's units for 1.5 million shares of CyrusOne Inc. common stock, and CBI was issued 0.4 million shares of CyrusOne Inc. common stock in repayment for transaction costs paid by CBI. CyrusOne Inc. also issued approximately 1.0 million of restricted stock to its directors and employees. In addition, CyrusOne LP issued operating partnership units equal to the number of CyrusOne Inc. shares of 21.9 million. As of January 24, 2013 the total number of outstanding partnership units was 64.5 million.

On January 24, 2013, CyrusOne Inc., together with CyrusOne GP, purchased approximately 21.9 million or 33.9% of the Operating Partnership's units for \$337.1 million and through CyrusOne GP assumed the controlling interest in the Operating Partnership. CBI retained a non-controlling interest in the Operating Partnership of 66.1%.

**3. Basis of Presentation**

The accompanying condensed consolidated financial statements as of December 31, 2012 and for the periods ended January 23, 2013 and March 31, 2012, were prepared using CBI's historical basis in the assets and liabilities of its data center business. The condensed consolidated financial statements include all revenues, costs, assets and liabilities directly attributable to the data center business. In addition, certain expenses reflected in the consolidated financial statements include allocations of corporate expenses from CBI, which in the opinion of management are reasonable (see further discussion at Note 12). Such condensed consolidated financial statements do not fully reflect what CyrusOne's financial position, results of operations and cash flows would have been had CyrusOne been a stand-alone company during these respective periods. As a result, historical financial information is not necessarily indicative of CyrusOne's future results of operations, financial position and cash flows. The financial statements for the period prior to the effective date of the IPO, January 24, 2013, are deemed to be the financial statements of the Predecessor company and the periods subsequent to January 24, 2013 are deemed to be the financial statements of the Successor company. The financial statements for the Predecessor periods are considered combined and the financial statements for the Successor periods are considered consolidated.

In addition, the accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) and should be read in conjunction with the financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2012, which was filed with the Securities and Exchange Commission (SEC) on March 29, 2012. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP

## Edgar Filing: CyrusOne Inc. - Form 10-Q

have been omitted from this report on Form 10-Q pursuant to the rules and regulations of the SEC.

It should also be noted that the results for the interim periods shown in this report are not necessarily indicative of future financial results. The accompanying condensed consolidated financial statements have not been audited by our independent registered public accounting firm. In the opinion of management, the accompanying unaudited condensed consolidated financial statements include all adjustments necessary to present fairly our financial position as of March 31, 2013 and December 31, 2012 and our results of operations and our cash flows for the periods ended March 31, 2013 (January 24, 2013 to March 31, 2013), January 23, 2013 (January 1, 2013 to January 23, 2013) and March 31, 2012. These adjustments are of a normal recurring nature.

---

**Table of Contents****4. Significant Accounting Policies**

**Use of Estimates** Preparation of the consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the condensed consolidated financial statements and accompanying notes. These estimates and assumptions are based on management's knowledge of current events and actions that we may undertake in the future. Estimates are used in determining the fair value of leased real estate, the useful lives of real estate and other long-lived assets, future cash flows associated with goodwill and other long-lived asset impairment testing, deferred tax assets and liabilities and loss contingencies. Estimates were also utilized in the determination of historical allocations of shared employees' payroll, benefits and incentives and management fees. Actual results may differ from these estimates and assumptions.

**Investments in Real Estate** Investments in real estate consist of land, buildings, improvements and integral equipment utilized in our data center operations. Real estate acquired from third parties has been recorded at its acquisition cost. Real estate acquired from CBI and its affiliates has been recorded at its historical cost basis. Additions and improvements which extend an asset's useful life or increase its functionality are capitalized and depreciated over the asset's remaining life. Maintenance and repairs are expensed as incurred.

When we are involved in the construction of structural improvements to leased property, we are deemed the accounting owner of the leased real estate. In these instances, we bear substantially all the construction period risk, including managing or funding construction. These transactions generally do not qualify for sale-leaseback accounting due to our continued involvement in these data center operations. At inception, the fair value of the real estate, which generally consists of a building shell, and our associated obligation is recorded as construction in progress. As construction progresses, the value of the asset and obligation increases by the fair value of the structural improvements. When construction is complete, the asset is placed in service and depreciation commences. Leased real estate is depreciated to the lesser of (i) its estimated fair value at the end of the term or (ii) the expected amount of the unamortized obligation at the end of the term. The associated obligation is presented as other financing arrangements in the accompanying condensed consolidated balance sheets.

When we are not deemed the accounting owner, we further evaluate leased real estate to determine whether the lease should be classified as a capital or operating lease. One of the following four characteristics must be present to classify a lease as a capital lease: (i) the lease transfers ownership of the property to the lessee by the end of the lease term, (ii) the lease contains a bargain purchase option, (iii) the lease term is equal to 75% or more of the estimated economic life of the leased property or (iv) the net present value of the lease payments are at least 90% of the fair value of the leased property.

Construction in progress includes direct and indirect expenditures for the construction and expansion of our data centers and is stated at its acquisition cost. Independent contractors perform substantially all of the construction and expansion efforts of our data centers. Construction in progress includes costs incurred under construction contracts including project management services, engineering and schematic design services, design development, construction services and other construction-related fees and services. Interest, property taxes and certain labor costs are also capitalized during the construction of an asset.

**Cash and Cash Equivalents** Cash and cash equivalents include all non-restricted cash held in financial institutions and other non-restricted highly liquid short-term investments with original maturities at acquisition of three months or less.

**Restricted Cash** Restricted cash consists of funds held in escrow to fund construction.

**Goodwill** Goodwill represents the excess of the purchase price over the fair value of net assets acquired in connection with business acquisitions. We perform impairment testing of goodwill, at the reporting unit level, on an annual basis or more frequently if indicators of potential impairment exist. The fair value of our reporting unit was determined using a combination of market-based valuation multiples for comparable businesses and discounted cash flow analysis based on internal financial forecasts incorporating market participant assumptions. There were no impairments recognized for any of the periods presented.

**Long-Lived and Intangible Assets** Intangible assets represent purchased assets that lack physical substance, but can be separately distinguished from goodwill because of contractual or other legal rights or because the asset is capable of being sold or exchanged, either on its own or in combinations with a related contract, asset, or liability. Intangible assets with finite lives consist of trademarks, customer relationships, and a favorable leasehold interest.

Management reviews the carrying value of long-lived assets, including intangible assets with definite lives, when events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. Examples of such indicators may

**Table of Contents**

include a significant adverse change in the extent to which or manner in which the property is being used, an accumulation of costs significantly in excess of the amount originally expected for acquisition or development, or a history of operating or cash flow losses. When such indicators exist, we review an estimate of the undiscounted future cash flows expected to result from the use of an asset (or group of assets) and its eventual disposition and compare such amount to its carrying amount. We consider factors such as future operating income, leasing demand, competition and other factors. If our undiscounted net cash flows indicate that we are unable to recover the carrying value of the asset, an impairment loss is recognized. An impairment loss is measured as the amount by which the asset's carrying value exceeds its estimated fair value. There were no impairments recognized for any of the periods presented.

**Deferred Costs** Deferred costs include both deferred leasing costs and deferred financing costs. Sales commissions incurred at the commencement of a new lease are capitalized and amortized over the term of the customer lease. Amortization of deferred leasing costs is presented with depreciation and amortization in the accompanying condensed consolidated statements of operations. If a lease terminates prior to the expected life of the customer relationship, the remaining unamortized cost is written off to amortization expense.

Deferred financing costs include costs incurred in connection with issuance of debt and the revolving credit facility. These financing costs are capitalized and amortized over the term of the debt or revolving credit facility and are included as a component of interest expense.

**Other Financing Arrangements** Other financing arrangements represent leases of real estate where we are involved in the construction of structural improvements to develop buildings into data centers. When we bear substantially all the construction period risk, such as managing or funding construction, we are deemed to be the accounting owner of the leased property and, at the lease inception date, we are required to record at fair value the property and associated liability on our condensed consolidated balance sheet. These transactions generally do not qualify for sale-leaseback accounting due to our continued involvement in these data center operations.

**Revenue Recognition** Colocation rentals are generally billed monthly in advance, and some contracts have escalating payments over the term of the contract. If rents escalate without the lessee gaining access to or control over additional leased space or power, and the lessee takes possession of, or controls the physical use of the property (including all contractually committed power) at the beginning of the lease term, the rental payments by the lessee are recognized as revenue on a straight-line basis over the term of the lease. If rents escalate because the lessee gains access to and control over additional leased space or power, revenue is recognized in proportion to the additional space or power in the years that the lessee has control over the use of the additional space or power. The excess of revenue recognized over amounts contractually due is recognized in other assets in the accompanying condensed consolidated balance sheets.

Some of our leases are structured on a full-service gross basis in which the customer pays a fixed amount for both colocation rental and power. Other leases provide that the customer will be billed for power based upon actual usage which is separately metered. In both cases, this revenue is presented on a gross basis in the accompanying condensed consolidated statements of operations. Power is generally billed one month in arrears, and an estimate of this revenue is accrued in the month that the associated costs are incurred. We generally are not entitled to reimbursements for real estate taxes, insurance or other operating expenses.

Revenue is recognized for services or products that are deemed separate units of accounting. When a customer makes an advance payment which is not deemed a separate unit of accounting, deferred revenue is recorded. This revenue is recognized ratably over the expected term of the customer relationship, unless the pattern of service suggests otherwise.

Certain customer contracts require specified levels of service or performance. If we fail to meet these service levels, our customers may be eligible to receive credits on their contractual billings. These credits are recognized against revenue when an event occurs that gives rise to such credits.

**Property Operating Expenses** Property operating expenses generally consist of electricity, salaries and benefits of data center operations personnel, real estate taxes, security, rent, insurance and other site operating and maintenance costs.

**Sales and Marketing Expense** Sales and marketing expense is comprised of compensation and benefits associated with sales and marketing personnel as well as advertising and marketing costs.

**General and Administrative Expense** General and administrative expense is comprised of salaries and benefits of senior employees and support functions, such as legal and consulting.

---

**Table of Contents**

**Depreciation and Amortization Expense** Depreciation expense is recognized over the estimated useful lives of real estate applying the straight-line method. The useful life of leased real estate and leasehold improvements is the lesser of the economic useful life of the asset or the term of the lease, including optional renewal periods if renewal of the lease is reasonably assured. The residual value of leased real estate is estimated as the lesser of (i) the expected fair value of the asset at the end of the lease term or (ii) the expected amount of the unamortized liability at the end of the lease term. Estimated useful lives are periodically reviewed.

Amortization expense is recognized over the estimated useful lives of finite-lived intangibles. An accelerated method of amortization is utilized to amortize our customer relationship intangible, consistent with the benefit expected to be derived from this asset. We amortize trademarks, favorable leasehold interests, deferred leasing costs and deferred sales commissions, over their estimated useful lives. The estimated useful life of trademarks and customer relationships is eight to 15 years. In addition, we have a favorable leasehold interest related to a land lease that is being amortized over the remaining lease term of 56 years.

**Transaction-related compensation** During the period ended January 23, 2013, the Company received an allocated compensation charge from CBI of \$20.0 million for the settlement of its long-term incentive plan associated with the completion of the IPO. The amount was determined by CBI and allocated to CyrusOne Inc. on January 23, 2013 and reflected as expense and contributed capital in the respective period.

**Transaction Costs** Transaction costs represent legal, accounting and professional fees incurred in connection with the formation transactions, our qualification as a REIT and completed and potential business combinations. Transaction costs are expensed as incurred.

**Income Taxes** The Company was included in CBI's consolidated tax returns in various jurisdictions for all Predecessor periods. In the accompanying financial statements, the Predecessor periods reflect income taxes as if the Company was a separate stand-alone company. The income tax provision consists of an amount for taxes currently payable and an amount for tax consequences deferred to future periods.

CyrusOne Inc. will elect to be taxed as a REIT under the Code, as amended, commencing with our taxable year ended December 31, 2013. Provided we qualify for taxation as a REIT and continue to meet the various qualification tests mandated under the Code, we are generally not subject to corporate level federal income tax on the earnings distributed currently to our stockholders. If we fail to qualify as a REIT in any taxable year, our taxable income will be subject to federal income tax at regular corporate rates and any applicable alternative minimum tax.

While the REIT and Operating Partnership do not pay federal income taxes, we are still subject to foreign, state and local income taxes in the locations in which it conducts business. Our taxable REIT subsidiaries ( TRS ) are also subject to federal and state income taxes to the extent there is taxable income.

Deferred income taxes are recognized in certain entities. Deferred income taxes are provided for temporary differences in the bases between financial statement and income tax assets and liabilities. Deferred income taxes are recalculated annually at rates then in effect. Valuation allowances are recorded to reduce deferred tax assets to amounts that are more likely than not to be realized. The ultimate realization of the deferred income tax assets depends upon our ability to generate future taxable income during the periods in which basis differences and other deductions become deductible and prior to the expiration of the net operating loss carryforwards.

We have no liabilities for uncertain tax positions as of March 31, 2013. The earliest tax year for which we are subject to examination is 2010.

**Foreign Currency Translation and Transactions** The financial position of foreign subsidiaries is translated at the exchange rates in effect at the end of the period, while revenues and expenses are translated at average rates of exchange during the period. Gains or losses from translation of foreign operations where the local currency is the functional currency are included as components of accumulated other comprehensive income (loss). Gains and losses from translation and foreign currency transactions were immaterial for all periods presented.

**Comprehensive Income (Loss)** Comprehensive income (loss) represents the change in net assets of a company from transactions and other events from non-owner sources. Comprehensive income (loss) equaled our net income (loss) for all periods presented.

---

## **Table of Contents**

**Stock-Based Compensation** For all the Predecessor periods presented, some of our employees participated in CBI's stock-based compensation plans. CBI values all share-based payments to employees at fair value on the date of grant and expenses this amount over the applicable vesting period. The fair value of stock options and stock appreciation rights was determined using the Black-Scholes option-pricing model using assumptions such as volatility, risk-free interest rate, holding period and expected dividends. The fair value of stock awards was based upon the closing market price of CBI's common stock on the date of grant. For all share-based awards, a forfeiture rate is estimated based upon historical forfeiture patterns. The forfeiture rate reduces the total fair value of the awards that was recognized as compensation expense. For graded vesting awards, CBI's policy is to recognize compensation expense on a straight-line basis over the vesting period. Certain employees have been granted awards, which are indexed to the change in CBI's common stock price, which were cash settled. The accompanying condensed consolidated financial statements include an allocation of stock-based compensation costs for awards granted to our employees. Upon completion of our IPO and as follows, all benefits were either accelerated vested or terminated and settled by CBI with each respective employee.

In conjunction with the IPO, our Board of Directors adopted the 2012 Long-Term Incentive Plan ( LTIP Plan ). See further discussion in Note 10.

**Fair Value Measurements** Fair value measurements are utilized in accounting for business combinations and testing of goodwill and other long-lived assets for impairment. Fair value of financial and non-financial assets and liabilities is defined as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The three-tier hierarchy for inputs used in measuring fair value, which prioritizes the inputs used in the methodologies of measuring fair value for asset and liabilities, is as follows:

Level 1 Observable inputs for identical instruments such as quoted market prices;

Level 2 Inputs include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (i.e., interest rates, yield curves, etc.), and inputs that are derived principally from or corroborated by observable market data by correlation or other means (market corroborated inputs); and

Level 3 Unobservable inputs that reflect our determination of assumptions that market participants would use in pricing the asset or liability. These inputs are developed based on the best information available, including our own data.

**Business Segments** Business segments are components of an enterprise for which separate financial information is available and regularly viewed by the chief operating decision maker to assess performance and allocate resources. Our chief operating decision maker reviews our financial information on an aggregate basis. Furthermore, our data centers have similar economic characteristics and customers across all geographic locations, our service offerings have similar production processes, deliver services in a similar manner and use the same types of facilities and similar technologies. As a result, we have concluded that we have one reportable business segment.

**Earnings per share** For all periods subsequent to January 23, 2013, we will present Earnings Per Share ( EPS ) data. Basic EPS include only the weighted average number of common shares outstanding during the period. Diluted EPS includes the weighted average number of common shares and the dilutive effect of stock options, restricted stock and share unit awards and convertible subordinated notes outstanding during the period, when such instruments are dilutive.

All outstanding unvested share-based payment awards that contain rights to nonforfeitable dividends are treated as participating in undistributed earnings with common shareholders. Awards of this nature are considered participating securities and the two-class method of computing basic and diluted EPS must be applied.

**Table of Contents****5. Investment in Real Estate**

A schedule of our gross investment in real estate follows:

	Successor March 31, 2013			Predecessor December 31, 2012		
	Land	Building and Improvements	Equipment	Land	Improvements	Equipment
West Seventh St., Cincinnati, OH (7th Street)	0.9	108.7	0.8	0.9	108.7	0.8
Parkway Dr., Mason, OH (Mason)		20.2	0.5		20.2	0.4

Total	\$ 44.4	\$ 740.7	\$ 68.7	\$ 44.5	\$ 722.5	\$ 52.4

Construction in progress was \$92.6 million and \$64.2 million as of March 31, 2013 and December 31, 2012, respectively. We continue to have higher amounts of construction in progress as we continue to build data center facilities.

In March 2013, we purchased a 33 acre parcel of land in the Houston West metro area adjacent to our existing Houston facilities for \$18.2 million. The purchase price of \$18.2 million was all allocated to land. We plan to develop this land in the future into data center space.

**6. Debt and Other Financing Arrangements**

The Company's debt consists of the following:

(dollars in millions)	Successor March 31, 2013	Predecessor December 31, 2012
Revolving credit agreement	\$	\$
Capital lease obligations	31.0	32.2
6 3/8% Senior Notes due 2022	525.0	525.0
Other financing arrangements	62.9	60.8
Total	\$ 618.9	\$ 618.0

**Revolving credit agreement** As of March 31, 2013 and December 31, 2012, we had no outstanding borrowings on our revolving credit agreement, leaving \$225 million available for borrowings with a sublimit of \$50 million for letters of credit and a \$30 million sublimit for swing line loans. The revolving credit agreement has a maturity date of November 20, 2017.

Borrowings under the revolving credit agreement will be used for working capital, capital expenditures and other general corporate purposes of CyrusOne LLC, the operating subsidiary of CyrusOne LP, the borrower and the other subsidiaries of CyrusOne, including for acquisitions, dividends and other distributions permitted thereunder. Letters of credit will be used for general corporate purposes.

All obligations under the revolving credit agreement are unconditionally guaranteed by CyrusOne Inc., CyrusOne GP and each the CyrusOne LP s existing and future domestic wholly-owned subsidiaries, subject to certain exceptions. All obligations under the revolving credit agreement, and the guarantees of those obligations, are secured by substantially all of our assets, subject to certain exceptions.

The revolving credit agreement bears interest, at our option, at a rate equal to an applicable margin over either a base rate or a LIBOR rate. The applicable margin is 2.5% for base rate loans and 3.5% for LIBOR loans. Interest with respect to base rate loans are payable quarterly in arrears on the last business day of each calendar quarter.

## Table of Contents

The revolving credit agreement, subject to certain exceptions contains customary affirmative and negative covenants, including, but not limited to, restrictions on the ability to incur additional indebtedness, create liens, make certain investments, make certain dividends and related distributions, prepay certain debt, engage in affiliate transactions, enter into, or undertake, certain liquidations, mergers, consolidations or acquisitions, amend the organizational documents and dispose of assets or subsidiaries. In addition, the revolving credit agreement requires us to maintain a certain secured net leverage ratio, ratio of earnings before interest taxes depreciation and amortization ( EBITDA ) to fixed charges and ratio of total indebtedness to gross asset value, in each case on a consolidated basis. Notwithstanding the limitations set forth above, we will be permitted, subject to the terms and conditions of the revolving credit agreement, to distribute to our shareholders cash dividends in an amount not to exceed 95% of our adjusted funds from operations ( AFFO ) for any period.

The revolving credit agreement contains customary events of default (which are in some cases subject to certain exceptions, thresholds, notice requirements and grace periods), including, but not limited to, nonpayment of principal or interest, failure to perform or observe covenants, breaches of representations and warranties, cross-defaults with certain other indebtedness, certain bankruptcy-related events or proceedings, final monetary judgments or orders, ERISA defaults, certain change of control events and loss of REIT status following a REIT election by us.

We pay commitment fees for the unused amount of borrowings on the revolving credit agreement and letter of credit fees on any outstanding letters of credit. The commitment fees are equal to 0.50% of the actual daily amount by which the aggregate revolving commitments exceed the sum of outstanding revolving loans and letter of credit obligations. Commitment fees related to the revolving credit agreement were immaterial for all periods presented.

**Capital lease obligations** We use leasing as a source of financing for certain of our data center facilities and related equipment. We currently operate six data center facilities recognized as capital leases. We have options to extend the initial lease term on all these leases and options to purchase the facility for one of these leases. Interest expense on capital lease obligations was \$1.5 million, \$0.3 million, and \$1.8 million for the periods ended March 31, 2013, January 23, 2013, and March 31, 2012, respectively.

**6<sup>3</sup>/<sub>8</sub>% Senior Notes due 2022** On November 20, 2012, CyrusOne LP and CyrusOne Finance Corp. (the Issuers ) issued \$525 million of 6<sup>3</sup>/<sub>8</sub>% Senior Notes due 2022 ( Senior Notes ). The Senior Notes are senior unsecured obligations of the Issuers, which rank equally in right of payment with all existing and future unsecured senior debt of the Issuers. The Senior Notes are effectively subordinated to all existing and future secured indebtedness of the Issuers to the extent of the value of the assets securing such indebtedness. The Senior Notes are guaranteed on a joint and several basis by CyrusOne Inc., CyrusOne GP, and each of CyrusOne LP 's existing and future domestic wholly-owned subsidiaries, subject to certain exceptions. Each such guarantee is a senior unsecured obligation of the applicable guarantor, ranking equally with all existing and future unsecured senior debt of such guarantor and effectively subordinated to all existing and future secured indebtedness of such guarantor to the extent of the value of the assets securing that indebtedness. The Senior Notes are structurally subordinated to all liabilities (including trade payables) of each subsidiary of the Issuers that does not guarantee the Senior Notes. The Senior Notes bear interest at a rate of 6<sup>3</sup>/<sub>8</sub>% per annum, payable semi-annually on May 15 and November 15 of each year, beginning on May 15, 2013, to persons who are registered holders of the Senior Notes on the immediately preceding May 1 and November 1, respectively. Interest expense on the Senior Notes was \$6.3 million and \$2.1 million for the periods ended March 31, 2013, and January 23, 2013. There was no such expense for the period ended March 31, 2012.

The indenture governing the Senior Notes limits the ability of CyrusOne LP and its restricted subsidiaries to incur indebtedness, encumber their assets, enter into sale and leaseback transactions, make restricted payments, enter into mergers, create dividend restrictions and other payment restrictions that affect CyrusOne LP 's restricted subsidiaries, permit restricted subsidiaries to guarantee certain indebtedness, enter into transactions with affiliates, sell assets and engage in certain business activities, in each case subject to certain qualifications set forth in the indenture.

The Senior Notes will mature on November 15, 2022. However, prior to November 15, 2017, the Issuers may, at their option, redeem some or all of the Senior Notes at a redemption price equal to 100% of the principal amount of the Senior Notes, together with accrued and unpaid interest, if any, plus a make-whole premium. On or after November 15, 2017, the Issuers may, at their option, redeem some or all of the Senior Notes at any time at declining redemption prices equal to (i) 103.188% beginning on November 15, 2017, (ii) 102.125% beginning on November 15, 2018, (iii) 101.063% beginning on November 15, 2019 and (iv) 100.000% beginning on November 15, 2020 and thereafter, plus, in each case, accrued and unpaid interest, if any, to the applicable redemption date. In addition, before November 15, 2015, and subject to certain conditions, the Issuers may, at their option, redeem up to 35% of the aggregate principal amount of the Senior Notes with the net proceeds of certain equity offerings at 106.375% of the principal amount thereof, plus accrued and unpaid interest, if any, to the date of redemption; provided that (i) at least 65% of the aggregate principal amount of the Senior Notes remains outstanding and (ii) the redemption occurs within 90 days of the closing of any such equity offering.

**Other financing arrangements** Other financing arrangements represents leases of real estate in which we are involved in the construction of structural improvements to develop buildings into data centers. When we bear substantially all the construction period

## Table of Contents

risk, such as managing or funding construction, we are deemed to be the accounting owner of the leased property and, at the lease inception date, we are required to record at fair value the property and associated liability on our balance sheet. These transactions generally do not qualify for sale-leaseback accounting due to our continued involvement in these data center operations.

**Deferred financing costs** Deferred financing costs are costs incurred in connection with obtaining long-term financing. We incurred deferred financing costs in connection with the issuance of the Senior Notes. Total deferred financing costs as of March 31, 2013 were \$16.5 million. Deferred financing costs are amortized over the term of the related indebtedness. Amortization of deferred financing costs, included in interest expense in the statements of operations, totaled \$0.5 million and \$0.1 million for the periods ended March 31, 2013 and January 23, 2013, respectively, with no such costs incurred during the period ended March 31, 2012.

### **Debt covenants**

The indenture governing the Senior Notes contains affirmative and negative covenants customarily found in indebtedness of this type, including a number of covenants that, among other things, restrict, subject to certain exceptions, the Company's ability to: incur secured or unsecured indebtedness; pay dividends or distributions on its equity interests, or redeem or repurchase equity interests of the Company; make certain investments or other restricted payments; enter into transactions with affiliates; enter into agreements limiting the ability of the operating partnership's subsidiaries to pay dividends or make certain transfers and other payments to the operating partnership or to other subsidiaries; sell assets; and merge, consolidate or transfer all or substantially all of the operating partnership's assets. Notwithstanding the foregoing, the covenants contained in the indenture do not restrict the Company's ability to pay dividends or distributions to stockholders to the extent (i) no default or event of default exists or is continuing under the indenture and (ii) the Company believes in good faith that we qualify as a REIT under the Internal Revenue Code and the payment of such dividend or distribution is necessary either to maintain its status as a REIT or to enable it to avoid payment of any tax that could be avoided by reason of such dividend or distribution. The Company and its subsidiaries are also required to maintain total unencumbered assets of at least 150% of their unsecured debt on a consolidated basis, provided that for the purposes of such calculation their revolving credit facility shall be treated as unsecured indebtedness.

The revolving credit agreement requires us to maintain a certain secured net leverage ratio, ratio of EBITDA to fixed charges and ratio of total indebtedness to gross asset value, in each case on a consolidated basis. Notwithstanding these limitations, we will be permitted, subject to the terms and conditions of the revolving credit agreement, to distribute to our shareholders cash dividends in an amount not to exceed 95% of our AFFO for any period. Similarly, our indenture permits dividends and distributions necessary for us to maintain our status as a real estate investment trust.

The Company's most restrictive covenants are generally included in its revolving credit agreement. In order to continue to have access to the amounts available to it under the revolving credit agreement, the Company must remain in compliance with all covenants.

As of March 31, 2013, the Company was in compliance with all covenants.

### **7. Fair Value of Financial Instruments**

The fair value of cash and cash equivalents, restricted cash, accounts receivable, accounts payable and accrued expenses approximate their carrying value because of the short-term nature of these instruments. The carrying value and fair value of other financial instruments are as follows:

(dollars in millions)	Successor March 31, 2013		Predecessor December 31, 2012	
	Carrying Value	Fair Value	Carrying Value	Fair Value
6 3/8% Senior Notes due 2022	\$ 525.0	\$ 549.9	\$ 525.0	\$ 547.3
Other financing arrangements	62.9	68.5	60.8	69.5

The fair value of our Senior Notes was estimated based on the estimated fair value of these notes at March 31, 2013 and December 31, 2012 which is considered level two of the fair value hierarchy. The estimated fair value of our Senior Notes is based on our external debt rating and estimated interest rate for similar instruments. The fair value of other financing arrangements at March 31, 2013 and December 31, 2012 was calculated using a discounted cash flow model that incorporates current borrowing rates for obligations of similar duration. These fair value measurements are considered Level 3 of the fair value hierarchy.

## **Table of Contents**

### **8. Noncontrolling Interest**

As part of the IPO, CyrusOne Inc. together with CyrusOne GP, purchased 21.9 million (or 33.9%) of the outstanding partnership units of CyrusOne LP and CBI retained a 66.1% ownership or 42.6 million Operating Partnership units in CyrusOne LP. These operating partnership units can all be exchangeable into our common stock on a one-for-one basis. We have evaluated whether we control the actions or events necessary to issue the maximum number of shares that could be required to be delivered under the share settlement of these Operating Partnership units. Based on the results of this analysis, we concluded that these convertible Operating Partnership units met the criteria to be classified within equity at March 31, 2013.

For each share of common stock issued by us, the Operating Partnership issues an equivalent Operating Partnership unit to the Company. The redemption value of the noncontrolling interests at March 31, 2013, was approximately \$973 million based on the closing price of our stock of \$22.84 on March 28, 2013, the last trading day of the quarter ended March 31, 2013.

### **9. Shareholders Equity**

On March 20, 2013, we declared a regular cash dividend for the quarter ended March 31, 2013, of \$0.16 per common share payable to shareholders of record as of March 29, 2013. In addition, holders of Operating Partnership units also received a distribution of \$0.16 per unit. The dividend and distribution were paid on April 15, 2013.

### **10. Equity Incentive Plan**

In conjunction with the IPO, our Board of Directors adopted the 2012 LTIP Plan. The LTIP Plan is administered by the Board of Directors, or the plan administrator. Awards issuable under the LTIP Plan include common stock, restricted stock, stock options and other incentive awards. We have reserved a total of 4 million shares of our common stock for issuance pursuant to the LTIP Plan, which may be adjusted for changes in our capitalization and certain corporate transactions. To the extent that an award expires, terminates or lapses, or an award is settled in cash without the delivery of shares of common stock to the participant, then any unexercised shares subject to the award will be available for future grant or sale under the LTIP Plan. Shares of restricted stock which are forfeited or repurchased by us pursuant to the LTIP Plan may again be optioned, granted or awarded under the LTIP Plan. The payment of dividend equivalents in cash in conjunction with any outstanding awards will not be counted against the shares available for issuance under the LTIP Plan.

#### ***Restricted Shares***

The Company issued approximately 1 million restricted shares to its employees, officers and board of director members in conjunction with the IPO. These restricted shares will generally vest over three years with a per share price of \$19 and have been issued in the form of common stock. These restricted shares also earn non-forfeitable dividends throughout the vesting period.

We recognized compensation expense of approximately \$1.2 million for the period ended March 31, 2013. In addition, we had unrecognized compensation of approximately \$17.9 million as of March 31, 2013.

### **11. Earnings (Loss) per Share**

Basic loss per share is calculated using the weighted average number of shares of common stock outstanding during the period. In addition, net income applicable to participating securities and the related participating securities are excluded from the computation of basic loss per share.

Diluted loss per share is calculated using the weighted average number of shares of common stock outstanding during the period, including restricted stock outstanding. If there is net income during the period, the dilutive impact of common stock equivalents outstanding would also be reflected.

**Table of Contents**

The following tables reflect a reconciliation of the shares used in the basic and diluted net income (loss) per share computation for the period ended March 31, 2013:

(dollars in millions, except per share amount)	Period Ended March 31, 2013	
	Basic	Diluted
<b>Numerator:</b>		
Net loss applicable to CyrusOne Inc.	\$ (2.8)	\$ (2.8)
Net loss allocated to participating share-based awards	1.8	1.8
Net loss applicable to common shareholders	\$ (1.0)	\$ (1.0)
<b>Denominator:</b>		
Weighted average common outstanding - basic	20.9	20.9
Time-based restricted stock <sup>(1)</sup>		
Convertible securities <sup>(1)</sup>		
Weighted average shares outstanding- Diluted		20.9
<b>EPS:</b>		
Net loss per share- Basic		\$ (0.05)
Effect of dilutive shares		
Net loss per share- Diluted		\$ (0.05)

- (1) We have excluded 0.2 million of restricted stock and 42.6 million of Operating Partnership units, convertible securities, from our diluted earnings per share as of March 31, 2013. These amounts were deemed anti-dilutive.

**12. Related Party Transactions**

Prior to November 20, 2012, CyrusOne Inc., CyrusOne GP, CyrusOne LP and its subsidiaries were not separate legal entities and were operated by CBI during the periods presented. As discussed in Note 1, the condensed consolidated financial statements have been prepared from the records maintained by CBI and may not necessarily be indicative of the conditions that would have existed or the results of operations that would have occurred if the business had been operated as an unaffiliated company. The condensed consolidated financial statements reflect the following transactions with CBI and its affiliated entities, including Cincinnati Bell Telephone ( CBT ) and Cincinnati Bell Technology Solutions ( CBTS ).

**Revenues** In November 2012, we entered into separate data center colocation agreements with CBT and CBTS whereby we will continue to lease colocation space to each of them at certain of our data centers. The data center colocation agreement with CBT provides for CBT's lease of data center space, power and cooling in certain of our data centers for a period of five years at an aggregate rate of \$3.8 million per year. CyrusOne leases space in its data centers to CBT and CBTS. Revenue recognized from these arrangements was \$1.0 million for the period ended March 31, 2013, \$0.3 million for the period ended January 23, 2013, and \$0.5 million for the three months ended March 31, 2012. Our data center colocation agreement with CBTS provides for CBTS's lease of data center space, power and cooling at certain data center facilities for a period of five years at an aggregate rate of \$1.6 million per year. Both agreements are renewable for an additional five-year term at market rates.

CBT occupies space in our 229 West Seventh Street facility that is utilized in its network operations. In November 2012, in connection with our purchase of this property, we entered into an agreement to lease this space to CBT for a period of five years, with three renewal options of five years each, at an initial annual base rent of approximately \$0.1 million, plus a proportionate share of building operating costs. Commencing on January 1, 2014, and on January 1 of each year thereafter, such base rent shall increase by 1% of the previous year's base rent. Revenue earned from this lease was less than \$0.1 million for all periods presented.

## Edgar Filing: CyrusOne Inc. - Form 10-Q

In November 2012, we entered into agreements to lease office space to CBT at our Goldcoast Drive (Goldcoast) data center facility and to CBTS at our Parkway (Mason) data center facility. The aggregate annual base rent for these spaces will be approximately \$0.3 million per year. The terms of these agreements are five years each. Both agreements contain three five-year renewal options at market rates. Revenue earned from these leases was less than \$0.1 million for the period ended March 31, 2013 and for period ended January 23, 2013. There were no such amounts for the period ended March 31, 2012.

---

**Table of Contents**

In January 2012, we entered into a transition services agreement to provide CBTS with network interface services. Revenue recognized for these services was less than \$0.2 million for the period ended March 31, 2013, \$0.1 million for period ended January 23, 2013, and \$0.1 million for the quarter ended March 31, 2012. In November 2012, we entered into a new transition services agreement with CBTS where we will continue to provide them with network interface services. The annual fee to be paid by CBTS for these services is approximately \$0.5 million, which may decline in future periods as CBTS migrates its network interfaces onto an independent architected and managed CBTS network. These services will be provided on a month-to-month basis, until such time the services in question have been fully transitioned, which we expect may be as long as 24 months.

As of March 31, 2013, CBTS continues to be the named lessor for two data center leases. Revenues associated with these leases were \$2.7 million for the period ended March 31, 2013, \$0.9 million for the period ended January 23, 2013, and \$3.3 million for the quarter ended March 31, 2012. In 2012, we entered into an agreement with CBTS whereby we perform all obligations of CBTS under the lease agreements. CBTS confers the benefits received under such lease agreements to us and CBTS is granted sufficient usage rights in each of our data centers so that it remains as lessor under each such lease agreement. In addition, CBTS will continue to perform billing and collections on these accounts.

*Property Operating Expenses* In January 2012, we entered into a transition services agreement with CBTS; whereby, CBTS provided us with network support, services calls, monitoring and management, storage and backup and IT systems support. In November 2012, we entered into new services agreements with CBT and CBTS. Under the CBTS services agreement, CBTS has agreed to provide us with certain managed storage and backup services. These services will be provided on a month-to-month basis, and charges will be based on the variable amount of gigabytes managed by CBTS each month. CBTS will charge us a rate of \$0.56 per gigabyte, and the annual fee to be paid by us for these services is approximately \$0.2 million. We expect that services under this agreement may extend for as long as 36 months. Expense recognized for these services was less than \$0.1 million for the period ended March 31, 2013 and for period ended January 23, 2013 and were \$0.4 million for the quarter ended March 31, 2012.

Under the CBT services agreement, CBT provides us with connectivity services for a period of five years related to several of our data center facilities. These services are related to the use of fiber and circuit assets that are currently a part of the CBI network. The annual fee for these services will be \$0.9 million, subject to reduction if we terminate certain services. Expense recognized from this arrangement was less than \$0.2 million for the period ended March 31, 2013, \$0.1 million for the period ended January 23, 2013, and \$0.2 million for the quarter ended March 31, 2012.

In conjunction with the purchase of the property located at 229 West Seventh Street, we executed a reciprocal easement and shared services agreement. CBT continues to own the adjacent property that was historically operating together with 229 West Seventh Street as one property. Pursuant to this agreement, we granted reciprocal easements to each other; CBT has easements for continued use of portions of our building and CBT provides fuel storage, fire suppression and other building services to us; and we provide chilled water, building automation systems related to heating, ventilation and air conditioning ( HVAC ) and other building services to CBT. The shared services agreement is expected to continue for a period of fifteen years with five renewal options of five years each. Initially, we are responsible for operating and managing the service facilities for both buildings. Each party will bear its own utility costs, as well as property taxes and insurance. Shared building operating costs will be charged to each party on the basis of the actual costs incurred, allocated based on the proportionate share of usage. Each party will also pay the other party less than \$0.2 million per year to maintain shared building infrastructure systems.

In November 2012, we also entered into an agreement to lease space at CBT's 209 West Seventh Street facility for a period of five years, with three renewal options of five years each. The initial annual base rent will be approximately \$0.1 million per year, plus our proportionate share of building operating costs. Commencing on January 1, 2014, and on January 1 of each year thereafter, such base rent shall increase by 1% of the previous year's base rent. Expense recognized from this arrangement was less than \$0.1 million for the period ended March 31, 2013 and for the period ended January 23, 2013.

*Benefits and Insurance* Some of our employees participated in pension, postretirement, health care and stock-based compensation plans sponsored by CBI or an affiliate. Our allocated costs for employee benefits were determined by specific identification of the costs associated with our participating employees or based upon the percentage that our employees represent of total participants. Our allocated employee benefit plan costs were \$0.2 million for the period ended January 23, 2013 and \$0.7 million for the quarter ended March 31, 2012. Effective with the completion of our initial public offering, we were no longer covered by the related plans. As such, there were no such costs in the period ended March 31, 2013.

We also participated in centralized insurance programs managed by CBI which included coverage for general liability, workers' compensation, automobiles and various other risks. CBI has third-party insurance policies for certain of these risks and is also self-insured within certain limits. CBI's self-insured costs have been actuarially determined based on the historical experience of paid claims. Our allocated cost for participation in these programs was determined on the basis of revenues, headcount or insured vehicles. Our allocated insurance costs were less than \$0.1 million for the period ended January 23, 2013 and \$0.1 million for the quarter ended March 31, 2012. Effective with the completion of our initial

Edgar Filing: CyrusOne Inc. - Form 10-Q

public offering, we were no longer covered by the related plans. As such, there were no such costs in the period ended March 31, 2013.

---

**Table of Contents**

*Selling & Marketing* Effective January 1, 2012, we entered into marketing agreements with CBT and CBTS to appoint these affiliates as our authorized marketing representatives. Pursuant to the terms of these agreements, we pay these affiliates a commission for all new leases for space they attain, which is calculated as a percentage of the first month's recurring revenue with respect to such space, which ranges from 30% to 140%, depending on the lease term. The term of these agreements expired on December 31, 2012.

*General & Administrative* We have entered into a transition services agreement with CBI pursuant to which CBI will continue to provide certain services, on an as needed basis, until the earlier of December 31, 2014 or one year from the completion of the IPO; provided, however that the agreement or the provision of a particular service to be provided thereunder may be terminated for convenience by us upon 30 days' prior written notice. The fees for these services will be based on actual hours incurred for these services at negotiated hourly rates or a negotiated set monthly fee. Expense recognized was less than \$0.1 million for the period ended March 31, 2013 and for the period ended January 23, 2013. Expense recognized for the quarter ended March 31, 2012 for this arrangement was less than \$0.1 million.

*Management Fees* Prior to November 20, 2012, CBI provided various management services, including executive management, cash management, legal, treasury, human resources, accounting, tax, internal audit and risk management services. Our allocated cost for these services was based upon specific identification of costs incurred on our behalf or a reasonable estimate of costs incurred on our behalf, such as relative revenues. Our allocated costs for the quarter ended March 31, 2012 was \$0.7 million. There were no such costs for the period ended March 31, 2013 and for the period ended January 23, 2013.

*Loss on Sale of Receivables* Prior to October 1, 2012, we participated in an accounts receivable securitization program sponsored by CBI for certain of its subsidiaries. Under this program, we continuously sold certain trade accounts receivable to CBF at a 2.5% discount to the receivables' face value. In turn, CBF granted, without recourse, a senior undivided interest in the pooled receivables to commercial paper conduits in exchange for cash. Effective October 1, 2012, we terminated our participation in this accounts receivable securitization program. Loss on sale of receivables was \$1.2 million for the quarter ended March 31, 2012, with no such costs in 2013.

*Interest Expense* On December 31, 2010, CBI restructured its data center legal entities, including their intercompany borrowings. The Predecessor issued a \$400 million note to CBI, which bore interest at 7.25%. On November 20, 2012, this note was repaid in full. Interest on this note was settled monthly through CBI's centralized cash management program. Interest expense of approximately \$7.2 million was recognized for the quarter ended March 31, 2012.

Prior to November 20, 2012, we participated in CBI's centralized cash management program. On a periodic basis, all excess cash was transferred to CBI's corporate cash accounts. Likewise, substantially all funds to finance our operations, as well as capital expenditures, were funded by CBI. Advances and borrowings between affiliates were governed by an intercompany cash management agreement. Effective November 19, 2010, all advances/borrowings bore interest at the average 30-day Eurodollar rate for the calendar month plus the applicable credit spread for Eurodollar rate borrowings charged for CBI's revolving line of credit. Prior to this date, the interest rate applied to such advances and borrowings was CBI's short-term borrowing rate. The average rate earned or charged was 5.0% in 2012. As of November 20, 2012, \$80 million of these borrowings were repaid. Net interest expense of \$1.9 million was recognized on notes due to related parties for the quarter ended March 31, 2012.

On November 20, 2012, we also entered into a non-competition agreement with CBI, pursuant to which we and CBI agreed not to enter into each other's lines of business, subject to certain exceptions for a period of four years from such date. Pursuant to the terms of this agreement, we agreed not to directly or indirectly engage in, or have any interest in any entity that engages in, the business of providing telecommunications services in certain areas of Ohio, Kentucky and Indiana in which CBI operates as of such date. We also agreed not to seek, request or apply for any certification or license to provide telecommunications services in such areas during the term of the agreement. CBI agreed not to directly or indirectly engage in, or have any interest in any entity that engages in, the business of constructing and selling, operating or providing data center services in the United States or any foreign jurisdiction in which we operate. However, CBI may continue to offer certain data center services, provided that such services are ancillary to its provisions of existing IT services, and CBI does not own, lease or is contracted to own, lease or manage the data center infrastructure of the facility in which such existing IT services are being provided.

The reciprocal easement and shared services agreement described above also contains a make-whole provision that requires us to make a payment to CBT if CBT's carrier access revenue declines below \$5.0 million per annum as a result of certain actions taken by us which result in circuit disconnections or reductions at CBT. The term of this make-whole provision is approximately four years.

We had approximately \$8.2 million and \$2.9 million payable to CBI or its wholly-owned subsidiaries as of March 31, 2013 and December 31, 2012, respectively. The March 31, 2013 balance includes a dividend payable of \$7.1 million for the dividends declared in March of 2013. The remaining balance of \$1.1 million and \$2.9 million as of March 31, 2013 and December 31, 2012, respectively, relate to various related party transactions which are discussed above and are payable to CBI as of each respective period end.

## Edgar Filing: CyrusOne Inc. - Form 10-Q

In addition, we had approximately \$23.2 million and \$2.2 million receivable from CBI or wholly-owned subsidiaries as of March 31, 2013 and December 31, 2012, respectively. The March 31, 2013 balance primarily consists of the receivable from CBI of \$19.6 million for the reimbursement of the transaction related compensation expense in 2013. The remaining balance of \$3.6 million and \$2.2 million as of March 31, 2013 and December 31, 2012, respectively, relate to various related party transactions which are discussed above and are due from CBI as of each respective period end.

### **13. Income Taxes**

CyrusOne Inc, will elect to be taxed as a REIT under the Code, as amended, commencing with our taxable year ended December 31, 2013. To qualify as a REIT, we are required to distribute at least 90% of our taxable income to our stockholders and meet various other requirements imposed by the Code relating to such matters as operating results, asset holdings, distribution levels and diversity of stock ownership. Provided we qualify for taxation as a REIT, we are generally not subject to corporate level federal income tax on the earnings distributed currently to our stockholders. It is our policy and intent, subject to change, to distribute 100% of our taxable income and therefore no provision is required in the accompanying financial statements for federal income taxes with regards to activities of the REIT and its subsidiary pass-through entities.

We have elected to designate two subsidiaries as taxable REIT subsidiaries (each, a TRS). A TRS may perform services for our tenants that would otherwise be considered impermissible for REITs. The income generated from these services is taxed at federal and state corporate rates. Income taxes accrued for the period ending March 31, 2013 were less than \$0.1 million.

For certain entities we calculate deferred tax assets and liabilities for temporary differences in the bases between financial statement and income tax assets and liabilities at the enacted. Deferred income taxes are recalculated annually at rates then in effect. Valuation allowances are recorded to reduce deferred tax assets to amounts that are more likely than not to be realized. The ultimate realization of the deferred income tax assets depends upon on our ability to generate future taxable income during the periods in which basis differences and other deductions become deductible and prior to the expiration of the net operating loss carryforwards. Deferred tax assets (net of valuation allowance) and liabilities were accrued, as necessary, for the period ended March 31, 2013.

### **14. Subsequent Events**

On May 1, 2013, we executed our buyout option to purchase the Springer Street (Lombard) data center facility for \$5.5 million. On May 3, 2013, we also purchased the Industrial Road (Florence) data center facility for a total purchase price of \$10.5 million.

**Table of Contents****ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

*This Report on Form 10-Q (this Quarterly Report), together with other statements and information publicly disseminated by our company, contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act). We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 and include this statement for purposes of complying with these safe harbor provisions.*

*In particular, statements pertaining to our capital resources, portfolio performance, financial condition and results of operations contain certain forward-looking statements. You can identify forward-looking statements by the use of forward-looking terminology such as believes, expects, may, will, should, seeks, intends, plans, pro forma or anticipates or the negative of these words and phrases or similar words or phrases that are predictions of or indicate future events or trends and that do not relate solely to historical matters. You can also identify forward-looking statements by discussions of strategy, plans or intentions. Such statements are subject to risks, uncertainties and assumptions and are not guarantees of future performance, which may be affected by known and unknown risks, trends, uncertainties and factors that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected. The following factors, among others, could cause actual results and future events to differ materially from those set forth or contemplated in the forward-looking statements: (i) the geographic concentration of our data centers in certain markets and any adverse developments in local economic conditions or the demand for data center space in these markets; (ii) increased operating costs; (iii) difficulties in identifying properties to acquire and completing acquisitions; (iv) the significant competition in our industry and an inability to lease vacant space, renew existing leases or release space as leases expire; (v) lack of sufficient customer demand to realize expected returns on our investments to expand our property portfolio; (vi) decreased revenue from costs and disruptions associated with any failure of our physical infrastructure or services; (vii) our ability to lease available space to existing or new customers; (viii) our failure to obtain necessary outside financing; (ix) our failure to qualify as a REIT; (x) financial market fluctuations; (xi) changes in real estate and zoning laws and increases in real property tax rates; (xii) delays or disruptions in third-party network connectivity; (xiii) service failures or price increases by third party power suppliers; (xiv) inability to renew net leases on the data center properties we lease; and (xv) other factors affecting the real estate industry generally.*

*While forward-looking statements reflect our good faith beliefs, they are not guarantees of future performance. We disclaim any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes. The risks included here are not exhaustive, and additional factors could adversely affect our business and financial performance, including factors and risks included in other sections of this Quarterly Report. Additional information concerning these and other risks and uncertainties is contained in our other periodic filings with the United States Securities and Exchange Commission, or SEC, pursuant to the Exchange Act. We discussed a number of material risks in Item 1A. Risk Factors of our Annual Report on Form 10-K for the year ended December 31, 2012. Those risks continue to be relevant to our performance and financial condition. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results.*

**Presentation**

References in this Quarterly Report to **Successor** refers to the Company on or after January 24, 2013 and **Predecessor** are the results prior to January 24, 2013. The Predecessor results have been prepared on a **carve-out** basis from CBI's

## **Table of Contents**

consolidated financial statements using the historical results of operations, cash flows, assets and liabilities attributable to the data center business and include allocations of income, expenses, assets and liabilities from CBI. These allocations reflect significant assumptions, and the combined financial statements do not fully reflect what the financial position, results of operations and cash flows would have been had CyrusOne been a stand-alone company during the periods presented. As a result, historical financial information is not necessarily indicative of CyrusOne's future results of operations, financial position and cash flows. The related financial statement tables will be presented showing the statements that relate to the Predecessor as well as the Successor. The results of both the Predecessor and Successor are presented separately but will be discussed on a combined basis for comparability purposes.

### **Overview**

*Our Company.* We are an owner, operator and developer of enterprise-class, carrier-neutral data center properties. Enterprise-class, carrier-neutral data centers are purpose-built facilities with redundant power, cooling and telecommunications systems and that are not network-specific, enabling customer interconnectivity to a range of telecommunications carriers.

We provide mission-critical data center facilities that protect and ensure the continued operation of IT infrastructure for over 500 customers. Our goal is to be the preferred global data center provider to the Fortune 1000. As of March 31, 2013, our customers included nine of the Fortune 20 and 119 of the Fortune 1000 or private or foreign enterprises of equivalent size. These 119 customers provided 76% of our annualized rent as of March 31, 2013.

We cultivate long-term strategic relationships with our customers and provide them with solutions for their data center facilities and IT infrastructure challenges. Our offerings provide flexibility, reliability and security and are delivered through a tailored, customer service-focused platform that is designed to foster long-term relationships. We focus on attracting customers that have not historically outsourced their data center needs. We believe our capabilities and reputation for serving the needs of large enterprises will allow us to capitalize on the growing demand for outsourced data center facilities in our markets and in new markets where our customers are located or plan to be located in the future.

*Our Portfolio.* As of March 31, 2013, our property portfolio included 24 operating data centers in ten distinct markets (Austin, Chicago, Cincinnati, Dallas, Houston, London, Phoenix, San Antonio, Singapore and South Bend), collectively providing approximately 1,709,000 NRSF, and powered by approximately 248 MW of utility power. We own ten of the buildings in which our data center facilities are located. We lease the remaining 14 buildings, which account for approximately 600,000 NRSF, or approximately 36% of our total operating NRSF. These leased buildings accounted for 37% of our total annualized rent as of March 31, 2013. We also currently have 242,000 NRSF under development at two data centers in (Houston and Phoenix), and 820,000 NRSF of additional powered shell space under roof and available for development, and approximately 170 acres of land that are available for future data center facility development. Along with our primary product offering, leasing of colocation space, our customers are increasingly interested in ancillary office and other space. We believe our existing operating portfolio and development pipeline will allow us to meet the evolving needs of our existing customers and continue to attract new customers. The following tables provide an overview of our operating and development properties as of March 31, 2013.

\* Indicates properties in which we hold a leasehold interest in the building shell and land. All data center infrastructure has been constructed by us and owned by us.

\*\* Indicates properties in which we hold a leasehold interest in the building shell, land, and all data center infrastructure.

\*\*\* The information provided for the West Seventh Street (7th St.) property includes data for two facilities, one of which we lease and one of which we own.

(a) Represents the total square feet of a building under lease or available for lease based on engineers' drawings and estimates but does not include space held for development or space used by CyrusOne.

(b)

## Edgar Filing: CyrusOne Inc. - Form 10-Q

Represents monthly contractual rent (defined as cash rent including customer reimbursements for metered power) under existing customer leases as of March 31, 2013, multiplied by 12. For the month of March 2013, customer reimbursements were \$20.3 million annualized and consisted of reimbursements by customers across all facilities with separately metered power. Customer reimbursements under leases with separately metered power vary from month-to-month based on factors such as our customers' utilization of power and the suppliers' pricing of power. From April 1, 2011 through March 31, 2013, customer reimbursements under leases with separately metered power constituted between 7.2% and 9.7% of annualized rent. After giving effect to abatements, free rent and other straight-line adjustments, our annualized effective rent as of March 31, 2013 was \$236,267,428. Our annualized effective rent was greater than our annualized rent as of March 31, 2013 because our positive straight-line and other adjustments and amortization of deferred revenue exceeded our negative straight-line adjustments due to factors such as the timing of contractual rent escalations and customer prepayments for services.

- (c) CSF represents the NRSF at an operating facility that is currently leased or readily available for lease as colocation space, where customers locate their servers and other IT equipment.
- (d) Represents the NRSF at an operating facility that is currently leased or readily available for lease as space other than CSF, which is typically office and other space.
- (e) Represents infrastructure support space, including mechanical, telecommunications and utility rooms, as well as building common areas.
- (f) Represents the NRSF at an operating facility that is currently leased or readily available for lease. This excludes existing vacant space held for development.
- (g) Percent leased is determined based on NRSF being billed to customers under signed leases as of March 31, 2013 divided by total NRSF. Leases signed but not commenced as of March 31, 2013 are not included. Supporting infrastructure has been allocated to leased NRSF on a proportionate basis for purposes of this calculation.
- (h) Represents space that is under roof that could be developed in the future for operating NRSF, rounded to the nearest 1,000.
- (i) Represents installed power capacity that can be delivered to the facility by the local utility provider. Does not sum to total due to rounding.

### CyrusOne Inc.

#### NRSF Under Development

As of March 31, 2013

(Dollars in millions)

(Unaudited)

Facilities	NRSF Under Development <sup>(a)</sup>						Under Development Costs <sup>(b)</sup>		
	Metropolitan Area	Colocation Space		Under Development		Total	Actual Date	Estimated Costs	
		(CSF)	Office & Other	Supporting Infrastructure	Powered Shell <sup>(c)</sup>			to Completion	Total
South Ellis Street (Phoenix)	Arizona		36,000	17,000	32,000	85,000	\$ 2	\$ 11	\$ 13

(a) Includes affiliates.

(b) Represents monthly contractual rent (defined as cash rent including customer reimbursements for metered power) under existing customer leases as of March 31, 2013, multiplied by 12. For the month of March 2013, customer reimbursements were \$20.3 million annualized and consisted of reimbursements by customers across all facilities with separately metered power. Customer reimbursements under leases with separately metered power vary from month-to-month based on factors such as our customers' utilization of power and the suppliers' pricing of power. From April 1, 2011 through March 31, 2013, customer reimbursements under leases with separately metered power constituted between 7.2% and 9.7% of annualized rent. After giving effect to abatements, free rent and other straight-line adjustments, our annualized effective rent as of March 31, 2013 was \$236,267,428. Our annualized effective rent was greater than our annualized rent as of March 31, 2013 because our positive straight-line and other adjustments and amortization of deferred revenue exceeded our negative straight-line adjustments due to factors such as the timing of contractual rent escalations and customer prepayments for services.

(c) Represents the customer's total annualized rent divided by the total annualized rent in the portfolio as of March 31, 2013, which was approximately \$225.7 million.

(d)

## Edgar Filing: CyrusOne Inc. - Form 10-Q

Weighted average based on customer's percentage of total annualized rent expiring and is as of March 31, 2013, assuming that customers exercise no renewal options and exercise all early termination rights that require payment of less than 50% of the remaining rents. Early termination rights that require payment of 50% or more of the remaining lease payments are not assumed to be exercised because such payments approximate the profitability margin of leasing that space to the customer, such that we do not consider early termination to be economically detrimental to us.

- (e) Includes information for both Cincinnati Bell Technology Solutions (CBTS) and Cincinnati Bell Telephone and two customers that have contracts with CBTS. We expect the contracts for these two customers to be assigned to us, but the consents for such assignments have not yet been obtained. Excluding these customers, Cincinnati Bell Inc. and subsidiaries represented 2.8% of our annualized rent as of March 31, 2013.

**Table of Contents***Lease Distribution*

The following table sets forth information relating to the distribution of customer leases in the properties in our portfolio, based on NRSF under lease as of March 31, 2013:

**CyrusOne Inc.****Lease Distribution****As of March 31, 2013****(Unaudited)**

<b>NRSF Under Lease<sup>(a)</sup></b>	<b>Number of Customers<sup>(b)</sup></b>	<b>Percentage of All Customers</b>	<b>Total Leased NRSF<sup>(c)</sup></b>	<b>Percentage of Portfolio Leased NRSF</b>	<b>Annualized Rent<sup>(d)</sup></b>	<b>Percentage of Annualized Rent</b>

<b>Total</b>	<b>527</b>	<b>100%</b>	<b>1,314,239</b>	<b>100%</b>	<b>\$ 225,745,719</b>	<b>100%</b>

(a) Represents all leases in our portfolio, including colocation, office and other leases.

(b) Represents the number of customers in our portfolio utilizing data center, office and other space.

(c) Represents the total square feet at a facility under lease and that has commenced billing, excluding space held for development or space used by CyrusOne. A customer's leased NRSF is estimated based on such customer's direct CSF or office and light-industrial space plus management's estimate of infrastructure support space, including mechanical, telecommunications and utility rooms, as well as building common areas.

(d) Represents monthly contractual rent (defined as cash rent including customer reimbursements for metered power) under existing customer leases as of March 31, 2013, multiplied by 12. For the month of March 2013, customer reimbursements were \$20.3 million annualized and consisted of reimbursements by customers across all facilities with separately metered power. Customer reimbursements under leases with separately metered power vary from month-to-month based on factors such as our customers' utilization of power and the suppliers' pricing of power. From April 1, 2011 through March 31, 2013, customer reimbursements under leases with separately metered power constituted between 7.2% and 9.7% of annualized rent. After giving effect to abatements, free rent and other straight-line adjustments, our annualized effective rent as of March 31, 2013 was \$236,267,428. Our annualized effective rent was greater than our annualized rent as of March 31, 2013 because our positive straight-line and other adjustments and amortization of deferred revenue exceeded our negative straight-line adjustments due to factors such as the timing of contractual rent escalations and customer prepayments for services.

**Table of Contents**

The following table sets forth a summary schedule of the customer lease expirations for leases in place as of March 31, 2013 plus available space, for each of the 10 full calendar years and the partial year beginning April 1, 2013, at the properties in our portfolio. Customers whose leases have been auto-renewed prior to March 31, 2013 are shown in the calendar year in which their current auto-renewed term expires. Unless otherwise stated in the footnotes, the information set forth in the table assumes that customers exercise no renewal options and exercise all early termination rights that require payment of less than 50% of the remaining rents. Early termination rights that require payment of 50% or more of the remaining lease payments are not assumed to be exercised because such payments approximate the profitability margin of leasing that space to the customer, such that we do not consider early termination to be economically detrimental to us.
