**Item 2.02 Results of Operations and Financial Condition.**

On August 7, 2013, Diodes Incorporated (the Company) issued a press release announcing its second quarter 2013 financial results. A copy of the press release is attached as Exhibit 99.1.

As announced in its press release dated July 11, 2013 providing the date, time and live webcast and telephone access information, on August 7, 2013, the Company hosted a conference call to discuss its second quarter 2013 financial results. A recording of the conference call has been posted on its website at www.diodes.com. A copy of the script is attached as Exhibit 99.2.

During the conference call on August 7, 2013, Dr. Keh-Shew Lu, President and Chief Executive Officer of the Company, as well as Richard D. White, Chief Financial Officer, Mark King, Senior Vice President of Sales and Marketing, and Laura Mehrl, Director of Investor Relations, made additional comments during a question and answer session. A copy of the transcript is attached as Exhibit 99.3.

In the press release and earnings conference call, the Company utilizes financial measures and terms not calculated in accordance with generally accepted accounting principles in the United States (GAAP) in order to provide investors with an alternative method for assessing our operating results in a manner that enables investors to more thoroughly evaluate our current performance as compared to past performance. We also believe these non-GAAP measures provide investors with a more informed baseline for modeling the Company's future financial performance. Our management uses these non-GAAP measures for the same purpose. We believe that our investors should have access to the same set of tools that we use in analyzing our results. These non-GAAP measures should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for or superior to GAAP results and may differ from similar measures used by other companies. See Exhibit 99.1 and below for a description of the non-GAAP measures used.

In addition to the non-GAAP measures included in Exhibit 99.1, during the conference call additional non-GAAP measures were discussed. Presentation of these non-GAAP measures allows investors to review the Company's results of operations from the same viewpoint as the Company's management and Board of Directors. The Company has historically provided similar non-GAAP financial measures to provide investors an enhanced understanding of its operations, facilitate investors' analyses and comparisons of its current and past results of operations and provide insight into the prospects of its future performance. The Company also believes the non-GAAP measures are useful to investors because they provide additional information that research analysts use to evaluate semiconductor companies. These non-GAAP measures should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for or superior to GAAP results and may differ from similar measures used by other companies. The following are non-GAAP measures discussed during the conference call:

**Non-GAAP operating expenses** This measure consists of GAAP operating expenses, which is then adjusted solely for the purpose of adjusting for gain on sale of assets, amortization of acquisition related intangible assets, acquisition costs, restructuring and retention costs (as described in Exhibit 99.1). Excluding gain on sale of assets, amortization of acquisition related intangible assets, acquisition costs, restructuring and retention costs provides investors with a better depiction of the Company's operating expenses and provides a more informed baseline for modeling future operating expenses.
