Table of Contents**ZIX CORPORATION****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

(Unaudited)

**1. Basis of Presentation**

The accompanying condensed consolidated financial statements of Zix Corporation ( ZixCorp, the Company, we, us ) should be read in conjunction with the audited consolidated financial statements included in the Company's 2012 Annual Report on Form 10-K. These financial statements are unaudited, but have been prepared in the ordinary course of business for the purpose of providing information with respect to the covered interim periods. Management of the Company believes that all adjustments necessary for a fair presentation for such periods have been included and are of a normal recurring nature. The results of operations for the three and nine-month periods ended September 30, 2013, are not necessarily indicative of the results to be expected for any future periods or for the full fiscal year.

**2. Recent Accounting Standards and Pronouncements***Presentation of Other Comprehensive Income*

In February 2013, the FASB issued guidance that requires entities to provide information about the amounts reclassified out of accumulated other comprehensive income by component and to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income. This new guidance did not have an impact on our condensed consolidated financial statements.

**3. Stock- Based Awards and Stock-Based Employee Compensation Expense**

Our stock-based awards include stock options, restricted stock, and restricted stock units ( RSU s ). As of September 30, 2013, the Company had 6,840,091 stock options outstanding and 516,920 shares available for grant.

*Stock Option Activity*

There were 435,066 and 759,186 stock options exercised for the three and nine month periods ended September 30, 2013, respectively. There were 32,600 and 174,968 stock options exercised for the three and nine month periods ended September 30, 2012. There was a \$373 thousand excess tax benefit recorded in the three month period ended September 30, 2013, related to the 435,066 option exercises. The excess tax benefit recorded in the nine month period ended September 30, 2013, related to the 759,186 option exercises was \$420 thousand. A deferred tax asset totaling \$243 thousand and \$219 thousand, resulting from stock-based compensation expense associated with options relating to the Company's U.S. operations, was recorded for the nine month periods ended September 30, 2013 and 2012, respectively.

The following is a summary of all stock option transactions during the three months ended September 30, 2013:

Options	Weighted Average	Weighted Average Remaining
---------	---------------------	-------------------------------

		<b>Exercise Price</b>	<b>Contractual Term (Yrs)</b>
Outstanding at June 30, 2013	7,312,377	\$ 4.34	
Granted at market price			
Cancelled or expired	(37,220)	\$ 7.29	
Exercised	(435,066)	\$ 1.75	
Outstanding at September 30, 2013	6,840,091	\$ 4.49	4.02
Options exercisable at September 30, 2013	5,857,319	\$ 4.75	3.24

At September 30, 2013, we had 5,214,099 stock options outstanding and 4,231,327 options exercisable in which the exercise price was lower than the market price of the Company's common stock. The aggregate intrinsic value of these options was \$8.2 million and \$6.3 million, respectively.

For additional information regarding the Company's Stock Options and Stock-based Employee Compensation, see Note 4 to the consolidated financial statements contained in our Annual Report on Form 10-K for the fiscal year ended December 31, 2012.

**Table of Contents*****Restricted Stock Activity***

The following is a summary of all restricted stock activity during the three months ended September 30, 2013:

	<b>Restricted Shares</b>	<b>Weighted Average Fair Value</b>
Outstanding at June 30, 2013	736,000	\$ 2.99
Granted at market price		
Vested	(87,750)	2.49
Cancelled		
Unvested restricted stock at September 30, 2013	648,250	\$ 3.06

***Restricted Stock Unit Activity***

The following is a summary of all RSU activity during the three months ended September 30, 2013:

	<b>Restricted Stock Units</b>	<b>Weighted Average Fair Value</b>
Non-vested at June 30, 2013	208,000	\$ 2.93
Granted at market price		
Vested	(28,250)	2.49
Cancelled		
Unvested restricted stock units at September 30, 2013	179,750	\$ 3.00

The weighted average grant-date fair value of awards of restricted stock and RSU s (collectively restricted stock ) is based on the quoted market price of the Company s common stock on the date of grant.

***Stock-Based Compensation Expense***

For the three and nine month periods ended September 30, 2013, the total stock-based employee compensation expense resulting from stock options, restricted stock, and RSU s was recorded to the following line items of the Company s condensed consolidated statements of income:

<b>(In thousands)</b>	<b>Three Months Ended</b>	
	<b>September 30, 2013</b>	<b>Nine Months Ended September 30, 2013</b>
Cost of revenues	\$ 46	\$ 133
Research and development	56	162

Selling, general and administrative		349		1,003
Stock-based compensation expense	\$	451	\$	1,298

As of September 30, 2013, there was \$3.8 million of total unrecognized stock-based compensation related to non-vested stock-based compensation awards granted under the incentive plans. This cost is expected to be recognized over a weighted average period of 1.68 years.

#### 4. Supplemental Cash Flow Information

Supplemental cash flow information relating to taxes and non-cash activities:

<b>(In thousands)</b>	<b>Nine Months Ended</b>	
	<b>September 30,</b>	
	<b>2013</b>	<b>2012</b>
Cash income tax payments	\$ 188	\$ 295
Non-cash investing and financing activities:		
Payables related to purchases of fixed assets	\$ 20	\$ 14

**Table of Contents****5. Receivables, net**

<b>(In thousands)</b>	<b>September 30, 2013</b>	<b>December 31, 2012</b>
Gross accounts receivable	\$ 8,610	\$ 6,721
Allowance for returns and doubtful accounts	(50)	(28)
Unpaid portion of deferred revenue	(5,795)	(5,726)
Note receivable	458	458
Allowance for note receivable	(458)	(458)
Receivables, net	\$ 2,765	\$ 967

The allowance for doubtful accounts includes all specific accounts receivable which we believe are likely not collectible based on known information. In addition, we record 2.5% of all accounts receivable greater than 90 days past due, net of those accounts specifically reserved, as a general allowance against accounts that could potentially become uncollectible.

The reduction for deferred revenue represents future customer service or maintenance obligations which have been billed to customers, but remain unpaid as of the respective balance sheet dates. Deferred revenue on our consolidated balance sheets represents future customer service or maintenance obligations which have been billed and collected as of the respective balance sheet dates.

The note receivable represents the remaining outstanding balance of an original note related to the sale of a product line in 2005 in the amount of \$540 thousand. This was fully reserved at the time of the sale as the note's collectability was not assured. The note receivable is fully reserved at September 30, 2013.

**6. Earnings Per Share and Potential Dilution**

Basic earnings per share are computed using the weighted average number of common shares outstanding for the period. The dilutive effect of potential common shares outstanding is included in diluted earnings per share. The computations for basic and diluted earnings per share for the three and nine months ended September 30, 2013 and 2012, are as follows:

	<b>Three Months ended September 30,</b>		<b>Nine Months ended September 30,</b>	
	<b>2013</b>	<b>2012</b>	<b>2013</b>	<b>2012</b>
Basic weighted average shares	61,378,131	60,896,042	61,172,708	61,671,214
Effect of dilutive securities:				
Employee and director stock options	1,342,060	553,717	1,073,873	638,064
Restricted stock	268,504	17,091	208,805	5,697
RSU's	77,067	5,502	62,603	1,834
Potential dilutive common shares	63,065,762	61,472,352	62,517,989	62,316,809

During the three months ended September 30, 2013, weighted average shares related to 3,212,538 stock options were excluded from the calculation of diluted earnings per share because the exercise price of the awards was in excess of the market price and such awards are therefore anti-dilutive. During the nine months ended September 30, 2013, weighted average shares related to 4,387,246 stock options, 41,708 shares of restricted stock, and 10,292 RSU s were excluded from the calculation of diluted earnings per share because the exercise price of the awards was in excess of the market price and such awards are therefore anti-dilutive. During the three and nine months ended September 30, 2012, weighted average shares of 5,947,939 and 5,536,358, respectively, related to stock options were excluded from the calculation of diluted earnings per share because the stock options were similarly anti-dilutive.

## 7. Commitments and contingencies

A summary of our fixed contractual obligations and commitments at September 30, 2013, is as follows:

(In thousands)	Payments Due by Period				
	Total	1 Year	Years 2 & 3	Years 4 & 5	Beyond 5 Years
Operating leases	\$ 11,759	\$ 843	\$ 2,382	\$ 2,087	\$ 6,447

We have not entered into any material, non-cancelable purchase commitments at September 30, 2013.

## **Table of Contents**

### ***Claims and Proceedings***

We may be subject to legal claims, litigation, and other legal proceedings. The expenses of those matters could be significant. There is no current or pending material legal proceeding. We expect no adverse effect on our operations or financial results as a result of the cost or other impacts of concluded legal proceedings.

### **8. Fair Value Measurements**

FASB guidance regarding fair value measurement establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets for identical assets or liabilities; Level 2, defined as inputs other than quoted prices for similar assets and liabilities in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs for which little or no market data exists, therefore requiring an entity to develop its own assumptions.

For certain of the Company's financial instruments, including cash and cash equivalents, trade receivables, and accounts payable, the fair values approximate carrying values due to the short-term maturities of these instruments. The carrying values of other current assets and accrued expenses are also not recorded at fair value, but approximate fair values primarily due to their short-term nature.

### **9. Common Stock Repurchase Program**

During the three months ended September 30, 2013, the Company repurchased 26,859 shares at a cost of \$120 thousand to offset the tax impact of vesting restricted awards. Of this amount, 13,747 shares at a cost of \$61 thousand related to restricted stock awards and 13,112 shares at a cost of \$59 thousand related to RSUs. During the nine months ended September 30, 2012, the Company repurchased 3,080,966 shares at an aggregate cost of \$9.0 million under a \$15 million share repurchase program authorized by our board of directors announced November 9, 2011. This repurchase program was completed during the three months ended June 30, 2012.

Subsequent to the balance sheet date, the Company's board of directors approved a share repurchase. See footnote 11 to the condensed consolidated financial statements below.

### **10. Income Taxes**

At the end of 2012, the Company recorded a \$2.3 million tax benefit by reducing the valuation allowance related to its deferred tax assets. This reduction was determined through an assessment of future deferred tax asset utilization following accounting guidance which relies largely on historical earnings. Using the same methodology, and updating the future taxable earnings estimates based on first, second and third quarter 2013 actual earnings, the Company believes its future U.S. federal taxable earnings estimate to be established at the end of 2013 will exceed the estimate used at the end of 2012. For this reason, the Company offset its first, second, and third quarter 2013 federal deferred tax provision by reducing its valuation allowance by an equal amount, thereby eliminating from its deferred tax provision federal taxes in excess of the estimated Alternative Minimum Tax from the Company's first, second and third quarter 2013 financial statements. The Company will reevaluate the need for its valuation allowance at December 31, 2013, following the same assessment that was performed at December 31, 2012.

### **11. Subsequent Events**

On November 6, 2013, the Company's board of directors approved a share repurchase program that enables the Company to purchase up to \$15 million of its shares of common stock from time to time in the open market. The

amount and timing of specific repurchases are subject to market conditions, applicable legal requirements and other factors. The share purchases will be funded from existing cash resources and may be suspended or discontinued at any time, however, the share repurchase program will expire on June 30, 2014.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**NOTE ON FORWARD-LOOKING STATEMENTS AND RISK FACTORS**

Statements in this report which are not purely historical facts or which necessarily depend upon future events, including statements about trends, uncertainties, hopes, beliefs, anticipations, expectations, plans, intentions or strategies for the future, may be forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934. Forward-looking statements involve risks and uncertainties that could cause actual events or results to differ materially from the events or results described in the forward-looking statements, including risks and uncertainties described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2012. Any of these risk factors could have a material adverse effect on our business, financial condition or financial results and reduce the value of an investment in our securities. We may not succeed in addressing these and other risks associated with an investment in our securities, with our business and with our achieving any forward-looking statements. Readers are cautioned not to place undue reliance on forward-looking statements. All forward-looking statements are based upon information available to us on the date the statements are made. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

### **Overview**

ZixCorp® offers email encryption and data loss prevention solutions to meet the data protection and compliance needs of organizations primarily in the healthcare, financial services, insurance and government sectors. ZixCorp Email Encryption Service enables the secure exchange of email for sensitive information and offers the industry's only transparent delivery, such that secure email can be sent and received without extra steps or passwords. ZixCorp has the world's largest email encryption community with tens of millions of members and growing by approximately 100,000 members per week. Our members include all federal financial regulators such as those on the Federal Financial Institutions Examination Council (FFIEC) divisions of the U.S. Treasury, the U.S. Securities and Exchange Commission (SEC), the Financial Industry Regulatory Agency (FINRA), one in every five U.S. banks, more than 30 Blue Cross Blue Shield organizations and one in every five U.S. hospitals.

ZixCorp® Email Encryption is a comprehensive secure messaging service, which allows an enterprise to use policy-driven rules to determine which email messages should be sent securely to comply with regulations or company-defined policies. ZixCorp's main differentiation in the marketplace is our exceptional ease of use. The best example of this is our ability to provide transparent delivery of secure, encrypted email between our ZixGateway® subscribing customers. More than 30 percent of all ZixCorp encrypted messages are received transparently, which allows recipients to access secure email just like regular email without any extra steps or passwords. Most email encryption solutions are focused on the sender. They typically introduce an added burden on receivers, often requiring additional user authentication with creation of a new user identity and password. We designed our solution to alleviate the receiver's burden by enabling the delivery of encrypted email automatically and transparently. ZixCorp enables transparent delivery by (1) ZixDirectory®, the world's largest email encryption community which is designed to share identities, (2) ZixCorp's Best Method of Delivery, which is designed to deliver email according to the sender's encryption policy, and (3) ZixGateway®, which is an enterprise gateway that automatically decrypts the message. The result is secure encrypted email exchange that is transparent for both sender and receiver.

In March 2013 the Company launched ZixDLP™, an email-specific data loss prevention (DLP) solution. ZixDLP addresses business's greatest source of data loss—email. By focusing strictly on email, ZixCorp provides a straightforward DLP approach that decreases the cost, reduces deployment time from months to hours and minimizes impact on customer resources and workflow.

On September 3, 2013 the Company announced commercial availability of ZixOne™, a secure email solution for the bring-your-own-device (BYOD) market. With ZixOne, employees can access business email, calendar and contact information from their Android and iOS mobile devices without downloading that sensitive corporate data to the devices. ZixOne uniquely balances employers' needs for data security, compliance and legal risk management with their employees' desire to use their own devices for work while maintaining users' privacy and individual control over their devices.

Our business operations and service offerings are supported by the ZixData Center, a SysTrust/SOC3 certified, SOC2 accredited, PCI Level 1, DSS V2.0 certified facility. The operations of the ZixData Center are independently audited annually to maintain AICPA SysTrust/SOC3 certification in the areas of security, confidentiality, integrity and availability. Auditors also produce a SOC2 (formerly SAS70 Type II) report on the effectiveness of operational controls used over the audit period. The ZixData Center is staffed 24 hours a day with a proven 99.99% reliability rate.

### **Critical Accounting Policies and Estimates**

The preparation of financial statements and related disclosures in accordance with accounting principles generally accepted in the United States requires the Company's management to make estimates and assumptions that affect the amounts reported in the Company's condensed consolidated financial statements and accompanying notes. Actual results could differ from these estimates and assumptions. Critical accounting policies and estimates are defined as those that are both most important to the portrayal of the Company's financial condition and results and require management's most subjective judgments.

We describe our significant accounting policies in Note 2, *Summary of Significant Accounting Policies*, of the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2012. We discuss our *Critical Accounting Policies and Estimates* in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2012.

## **Results of Operations**

### *Third Quarter 2013 Summary of Operations*

#### *Financial*

Revenue for the quarter ended September 30, 2013, was \$12.2 million compared with \$11.0 million for the same period in 2012, representing an 11% increase.

**Table of Contents**

Gross margin for the quarter ended September 30, 2013, was \$10.3 million or 84% of revenues compared with \$9.1 million or 83% of revenues for the comparable period in 2012.

Net income for the quarter ended September 30, 2013, was \$3.2 million compared with net income of \$1.9 million in the comparable period in 2012.

Ending cash and cash equivalents were \$32.9 million on September 30, 2013, compared with \$23.0 million on December 31, 2012.

**Operations**

New first year orders ( NFYOs ) for the quarter ended September 30, 2013, were \$2.2 million. As of September 30, 2013, backlog was \$64.2 million.

**Revenues**

Email Encryption is a subscription-based service. The following table sets forth a quarter-over-quarter comparison of the Company's revenues:

(in thousands)	Three Months Ended 3-month Variance				Nine Months Ended		9-month Variance	
	September 30,		2013 vs. 2012		September 30,		2013 vs. 2012	
	2013	2012	\$	%	2013	2012	\$	%
Revenues	\$ 12,225	\$ 11,023	\$ 1,202	11%	\$ 35,827	\$ 31,667	\$ 4,160	13%

The increase in revenue was due to the growth inherent in a successful subscription model with steady additions to the subscriber base coupled with a high rate of existing customer renewals.

**Revenue Indicators Backlog, Orders and Deployments**

**Backlog** Our end-user order backlog is comprised of contractually bound agreements that we expect to amortize into revenue as the services are performed. The timing of revenue is affected by both the length of time required to deploy a service and the length of the service contract.

As of September 30, 2013, total backlog was \$64.2 million and we expect approximately 54% of the total backlog to be recognized as revenue during the next twelve months. As of September 30, 2013, the backlog was comprised of the following elements: \$20.9 million of deferred revenue that has been billed and paid, \$5.8 million billed but unpaid, and approximately \$37.5 million of unbilled contracts. The third quarter ending backlog was a 13% increase over the \$57.0 million backlog at the end of the third quarter 2012 and 11% above the ending backlog of \$57.7 million at December 31, 2012.

**Orders** Total orders were \$13.0 million and \$12.7 million for the three-month periods ended September 30, 2013 and 2012, respectively. Total orders include contract renewals, NFYOs, and in the case of new multi-year contracts, the years beyond the first year of service. NFYOs were \$2.2 million and \$2.6 million for the three-month period ended September 30, 2013 and 2012, respectively.

**Cost of Revenues**

The following table sets forth a quarter-over-quarter comparison of the cost of revenues:

<b>(in thousands)</b>	<b>3-month Variance</b>				<b>9-month Variance</b>			
	<b>Three Months Ended</b>		<b>2013 vs.</b>		<b>Nine Months Ended</b>		<b>2013 vs.</b>	
	<b>September 30,</b>	<b>September 30,</b>	<b>2012</b>	<b>2012</b>	<b>September 30,</b>	<b>September 30,</b>	<b>2012</b>	<b>2012</b>
	<b>2013</b>	<b>2012</b>	<b>\$</b>	<b>%</b>	<b>2013</b>	<b>2012</b>	<b>\$</b>	<b>%</b>
Cost of revenues	\$ 1,904	\$ 1,887	\$ 17	1%	\$ 5,743	\$ 5,554	\$ 189	3%

**Table of Contents**

Cost of revenues is comprised of costs related to operating and maintaining the ZixData Center, a field deployment team, customer service and support and the amortization of Company-owned, customer-based computer appliances. A significant portion of the total cost of revenues relates to the ZixData Center, which currently has excess capacity. Accordingly, cost of revenues is relatively fixed and is therefore expected to grow at a slower pace than revenue. The minor period over period cost increases depicted in the table above resulted primarily from increases in average headcount.

**Research and Development Expenses**

The following table sets forth a quarter-over-quarter comparison of our research and development expenses:

(in thousands)	Three Months Ended		3-month Variance		Nine Months Ended		9-month Variance	
	September 30,		2013 vs. 2012		September 30,		2013 vs. 2012	
	2013	2012	\$	%	2013	2012	\$	%
Research and development expenses	\$ 2,345	\$ 2,046	\$ 299	15%	\$ 7,444	\$ 4,988	\$ 2,456	49%

Research and development expenses consist primarily of salary, benefits, and stock-based compensation for our development staff, and other direct and indirect costs associated with enhancing our existing products and services and developing new products and services. The 15% and 49% increases in expenses for the three and nine month periods ended September 30, 2013, respectively compared to the same respective periods in 2012 resulted from additional headcount, both new employees and independent contractors, primarily related to new product development. As announced in July of 2012, the Company increased new product investment spending to deliver two new products, ZixDLP and ZixOne. ZixDLP, an email data loss prevention product, was delivered in March 2013 and is now commercially available. The Company launched ZixOne, a BYOD management solution in September 2013.

**Selling and Marketing Expenses**

The following table sets forth a quarter-over-quarter comparison of our selling and marketing expenses:

(in thousands)	Three Months Ended		3-month Variance		Nine Months Ended		9-month Variance	
	September 30,		2013 vs. 2012		September 30,		2013 vs. 2012	
	2013	2012	\$	%	2013	2012	\$	%
Selling and marketing expenses	\$ 3,088	\$ 2,958	\$ 130	4%	\$ 10,338	\$ 8,010	\$ 2,328	29%

Selling and marketing expenses consist primarily of salary, commissions, travel, stock-based compensation and employee benefits for selling and marketing personnel and costs associated with promotional activities and advertising campaigns. The quarter over quarter increase resulted primarily from higher average headcount. The 29% increase in the nine month period ended September 30, 2013, compared to the same period in 2012, resulted primarily from higher average headcount accounting for approximately \$1.8 million increase period over period. Additionally, marketing expenses increased approximately \$0.5 million due to non-headcount marketing expenses relating to new marketing campaigns.

**General and Administrative Expenses**

The following table sets forth a quarter-over-quarter comparison of our general and administrative expenses:

<b>(in thousands)</b>	<b>Three Months Ended</b>		<b>3-month Variance</b>		<b>Nine Months Ended</b>		<b>9-month Variance</b>	
	<b>September 30,</b>	<b>September 30,</b>	<b>2013 vs. 2012</b>		<b>September 30,</b>	<b>September 30,</b>	<b>2013 vs. 2012</b>	
	<b>2013</b>	<b>2012</b>	<b>\$</b>	<b>%</b>	<b>2013</b>	<b>2012</b>	<b>\$</b>	<b>%</b>
General and administrative expenses	\$ 1,571	\$ 2,062	\$ (491)	(24%)	\$ 6,469	\$ 5,710	\$ 759	13%

---

**Table of Contents**

General and administrative expenses consist primarily of salary and bonuses, travel, stock-based compensation and benefits for administrative and executive personnel as well as fees for professional services and other general corporate activities. The three month favorable variance in G&A expenses resulted primarily from lower outside legal fees relating to litigation matters. We have settled those litigation matters. The increase in the nine month period ended September 30, 2013, compared to the same period in 2012 resulted primarily from a year-over-year increase in outside legal counsel fees associated with litigation (\$0.6 million) and minor net expense increases and decreases incurred in providing other general corporate services. We have settled these litigation matters. We expect to incur no additional costs for these settled litigation matters. Please see *Claims and Proceedings* under Footnote 7 to the condensed consolidated financial statements.

***Provision for Income Taxes***

The provision for income taxes was \$159 thousand and \$133 thousand for the three-month periods ended September 30, 2013 and 2012, respectively, and \$361 thousand and \$409 thousand, for the nine-month periods ended September 30, 2013 and 2012, respectively. The operating losses incurred by the Company's U.S. operations in past years and the resulting net operating losses for U.S. Federal tax purposes are subject to a \$48.7 million reserve because of the uncertainty of future taxable income levels sufficient to utilize our net operating losses and credits. Our September 30, 2013, provision of \$361 thousand includes \$102 thousand in state taxes currently payable based on gross revenues, \$88 thousand related to deferred state taxes, \$82 thousand related to the federal Alternative Minimum Tax, and \$89 thousand in taxes related to our Canadian operations. Our September 30, 2012, provision of \$409 thousand consisted of \$144 thousand in state taxes payable based on gross revenues, \$82 thousand related to deferred state taxes, \$124 thousand related to the federal Alternative Minimum Tax, and taxes related to our Canadian operations totaling \$59 thousand.

There were no penalty-related charges to selling, general and administrative expenses accrued or recognized for the three month periods ended September 30, 2013 and 2012. Additionally, we have not taken a tax position that would have a material effect on the financial statements or the effective tax rate for the three-month period ended September 30, 2013. We are currently subject to a three-year statute of limitations by major tax jurisdictions.

At September 30, 2013, the Company partially reserved its U.S. net deferred tax assets due to the uncertainty of future taxable income sufficient to utilize net loss carryforwards prior to their expiration. The Company did not reserve a portion, \$52.6 million, of its U.S. net deferred tax assets. The majority of this unreserved portion related to \$43.6 million in U.S. net operating losses (NOLs) because we believe the Company will generate sufficient taxable income in future years to utilize these NOLs prior to their expiration. The remaining balance consists of \$5.9 million relating to temporary differences between GAAP and tax-related expense, \$2.1 million relating to U.S. state income tax credits and net operating loss carryovers, and \$1 million related to Alternative Minimum Tax credits.

At the end of 2012, the Company recorded a \$2.3 million tax benefit by reducing the valuation allowance related to its deferred tax assets. This reduction was determined through an assessment of future deferred tax asset utilization following accounting guidance which relies largely on historical earnings. Using the same methodology, and updating the future taxable earnings estimates based on first, second and third quarter 2013 actual earnings, the Company believes its future U.S. federal taxable earnings estimate to be established at the end of 2013 will exceed the estimate used at the end of 2012. For this reason, the Company offset its first, second and third quarter 2013 federal deferred tax provision by reducing its valuation allowance by an equal amount, thereby eliminating from its deferred tax provision federal taxes in excess of the estimated Alternative Minimum Tax from the Company's first, second and third quarter 2013 financial statements. The Company will reevaluate the need for its valuation allowance at December 31, 2013, following the same assessment methodology that was performed at December 31, 2012. Adjusting our valuation allowance could have a significant impact on operating results in the period that it becomes

more likely than not that an additional portion of our deferred tax assets will or will not be realized.

We have determined that utilization of existing net operating losses against future taxable income is not subject to limitation by Section 382 of the Internal Revenue Code. Future ownership changes, however, may limit the company's ability to fully utilize its existing net operating loss carryforwards against future taxable income.

As indicated earlier, the operating losses incurred by our U.S. operations and the resulting net operating losses for U.S. Federal tax purposes are subject to a partial reserve. Significant judgment is required in determining any reserve recorded against the deferred tax asset. In assessing the need for a reserve, we consider all available evidence, including past operating results, estimates of future taxable income, and the feasibility of tax planning strategies.

**Table of Contents*****Net Income***

The net income for the three months ended September 30, 2013, of \$3.2 million is an increase of \$1.2 million compared to the net income of \$1.9 million for the same period last year. Our increased revenue and resulting higher gross margin contributed to this increase, while our reduced G&A spending was offset by increased R&D and selling and marketing spending, as discussed above.

**Liquidity and Capital Resources*****Overview***

Based on our performance over the last four quarters and current expectations, we believe our cash and cash equivalents and cash generated from operations, will satisfy our working capital needs, capital expenditures, investment requirements, contractual obligations, commitments, future customer financings, and other liquidity requirements associated with our operations through at least the next twelve months. At September 30, 2013, our cash and cash equivalents totaled \$32.9 million, an increase of \$9.9 million from the December 31, 2012 balance, and we had no debt.

***Sources and Uses of Cash Summary***

<b>(In thousands)</b>	<b>Nine Months Ended</b>	
	<b>September 30,</b>	
	<b>2013</b>	<b>2012</b>
Net cash provided by operations	\$ 9,776	\$ 12,092
Net cash used in investing activities	\$ (1,262)	\$ (1,049)
Net cash provided by (used in) financing activities	\$ 1,374	\$ (8,692)

Our primary source of liquidity from our operations is the collection of revenue in advance from our customers and accounts receivable from our customers, net of the timing of payments to our vendors and service providers.

Our investing activities consist primarily of computer and networking equipment purchases.

Financing activities include the receipt of \$1.5 million from the exercise of stock options in the first three quarters of 2013, partially offset by \$120 thousand used in the repurchase of common stock related to the tax impact of vesting restricted awards. Cash used in financing activities in the first three quarters of 2012 included a \$9.0 million repurchase of common stock, partially offset by \$308 thousand received from the exercise of stock options.

***Options of ZixCorp Common Stock***

We have significant options outstanding that are currently vested. There is no assurance that any of these options will be exercised; therefore, the extent of future cash inflow from additional option activity is not certain. The following table summarizes the options that were outstanding as of September 30, 2013. The vested shares are a subset of the outstanding shares. The value of the shares is the number of shares multiplied by the exercise price for each share.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

We have no material changes to the disclosure on this matter made in our Annual Report on Form 10-K for the year ended December 31, 2012.

**ITEM 4. CONTROLS AND PROCEDURES**

The Company, under the supervision and with the participation of its management, including the Chief Executive Officer and the Principal Accounting Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e)) under the Exchange Act as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and the Principal Accounting Officer concluded that the Company's disclosure controls and procedures were effective as of September 30, 2013.

**Changes in Internal Controls over Financial Reporting**

During the nine months ended September 30, 2013, there have been no changes in our internal control over financial reporting that have materially affected or are reasonably likely to materially affect internal control over financial reporting.
