Craft Revocable Trust and (ii) 28,141 ARLP common units held by Alliance Resource GP, LLC, which is jointly owned by Ms. Craft and Joseph W. Craft III.

** Based on a total of 132,246,604 ARLP common units issued and outstanding as of June 1, 2018.

This Amendment No. 1 to Schedule 13D (this Amendment) is being filed by Kathleen S. Craft (the Reporting Person) to amend the Schedule 13D filed on June 11, 2018 (the Prior Schedule 13D). This Amendment is being filed solely to correct an error with respect to the 1,322,388 common units of Alliance Resource Partners, L.P., a Delaware limited partnership (ARLP), that were issued in the Simplification Transactions (as defined below). The Prior Schedule 13D indicated that, as part of the Simplification Transactions, Alliance Resource GP, LLC, a Delaware limited liability company (SGP), was issued 1,322,388 ARLP common units in exchange for its contribution to ARLP of all of the limited partner interests in AHGP. This Amendment reflects that, in exchange for SGP's contribution to ARLP of all of the limited partner interests in AHGP, the joint owners of SGP, i.e., JWC III Rev Trust and the Kathleen S. Craft Revocable Trust (of which the Reporting Person is the trustee), were each issued 661,194 ARLP common units, and SGP was not issued any ARLP common units in exchange for such contribution. The Prior Schedule 13D shall not be modified except as specifically provided herein. Unless otherwise indicated, all capitalized terms used herein but not defined herein shall have the same meanings ascribed to them in the Prior Schedule 13D.

Item 3. Source and Amount of Funds of Other Consideration.

Item 3 of the Prior Schedule 13D is hereby amended and restated as follows:

The Reporting Person acquired 18,237,609 ARLP common units reported herein as part of the transactions contemplated by certain Simplification Agreement dated as of February 22, 2018 (the Simplification Agreement), by and among Alliance Holdings GP, L.P., a Delaware limited partnership (AHGP), Alliance GP, LLC, a Delaware limited liability company and the general partner of AHGP (AGP), certain subsidiaries of AHGP and AGP, ARLP, Alliance Resource Management GP, LLC, a Delaware limited liability company and the general partner of ARLP (MGP), and SGP. The transactions contemplated by the Simplification Agreement (the Simplification Transactions) were closed on May 31, 2018.

The Simplification Transactions were effected in part through a merger, whereby Wildcat GP Merger Sub, LLC, a Delaware limited liability company and wholly owned subsidiary of AGP (Merger Sub), merged with and into AHGP, with AHGP surviving and continuing to exist as a Delaware limited partnership (the Merger). By virtue of the Merger, each AHGP common unit that was issued and outstanding immediately prior to the effective time of the Merger (the Effective Time), other than the AHGP common units held by the owners of SGP, was canceled and converted into the right to receive approximately 1.4782 ARLP common units held by AHGP and its subsidiaries immediately prior to the Effective Time (the Exchange Units), and the AHGP common units held by the owners of SGP immediately prior to the Effective Time were canceled and converted into the right to receive 29,188,997 Exchange Units, which equals (i) the product of the number of AHGP common units held by the owners of SGP immediately prior to the Effective Time multiplied by 1.4782, minus (ii) 1,322,388 ARLP common units to be issued to the owners of SGP pursuant to the transactions immediately following the Merger (as described below). As part of the Merger, all of the limited liability company interests in Merger Sub outstanding immediately prior to the Effective Time were converted into and became limited partner interests in AHGP and were held momentarily by SGP. All AHGP deferred phantom units that were outstanding immediately prior to the Effective Time were paid in full and deemed to have been converted into AHGP common units and had a right to receive a portion of the Exchange Units on the same economically equivalent basis as the other AHGP unitholders as described above.

Immediately following the closing of the Merger, (i) SGP contributed all of the limited partner interests in AHGP to ARLP in exchange for 1,322,388 ARLP common units being issued to the owners of SGP, with the JWC III Rev Trust and the Kathleen S. Craft Revocable Trust each receiving 661,194 ARLP common units, and ARLP was admitted as the sole limited partner of AHGP, and (ii) AGP contributed all of the limited liability company interests of New AHGP GP, which became the new general partner of AHGP, to ARLP, and ARLP was admitted as the sole member of New AHGP GP. The number of ARLP common units issued to the owners of SGP upon the closing of the Simplification Transactions was calculated pursuant to the Simplification Agreement on an economically equivalent basis in exchange for a 1.0001% general partner interest in Alliance Resource Operating Partners, L.P., a Delaware limited partnership (AROP), and a 0.001% managing membership interest in Alliance Coal, LLC, a Delaware limited liability company (Alliance Coal), in each case in connection with ARLP's last quarterly distribution of available cash prior to the closing of the Simplification Transactions.

The foregoing description of the Simplification Agreement and the Simplification Transactions does not purport to be complete and is qualified in its entirety by reference to the complete text of the Simplification Agreement, a copy of which is attached hereto as Exhibit A and is incorporated herein by reference.

In addition, the Reporting Person acquired 20,960 ARLP common units reported herein through SGP pursuant to the Amendment (as defined below). On May 31, 2018, AHGP entered into a First Amendment to Contribution Agreement (the Amendment), by and among ARLP, MGP, SGP, ARM GP Holdings, Inc., a Delaware corporation, MGP II and AHGP. The purpose of the Amendment was to correct an error in the previous calculation of ARLP common units to be issued to SGP upon completion of the transactions contemplated by that certain Contribution Agreement dated July 28, 2017 (the Original Agreement), by and among the parties to the Amendment. The number of ARLP common units issued to SGP pursuant to the Original Agreement was discovered to be insufficient to result in the contributions of certain assets by SGP and MGP, respectively, to ARLP pursuant to the Original Agreement being on a proportionate economic basis. Pursuant to the Amendment, ARLP issued an additional 20,960 ARLP common units to SGP and paid SGP \$42,548.80 in cash, representing the aggregate per ARLP common unit distribution of \$2.03 that SGP would have received since the date of the Original Agreement if the 20,960 ARLP common units had been issued to SGP on the date of the Original Agreement. For further details of the Original Agreement and the transactions contemplated thereby, please see AHGP's Current Report on Form 8-K filed with the Securities and Exchange Commission (the SEC) on July 28, 2017. A copy of the Amendment is attached hereto as Exhibit B and is incorporated herein by reference.

Item 5. Interest in Securities of the Issuer.

Item 5 of the Prior Schedule 13D is hereby amended and restated as follows:

(a) (b) The aggregate number and percentage of shares of ARLP common units beneficially owned by the Reporting Person (on the basis of a total of 132,246,604 ARLP common units issued and outstanding as of June 1, 2018) are as follows:

(1) Amount beneficially owned:

18,237,609 ARLP common units Percentage: 13.8%

(2) Number of ARLP common units to which the Reporting Person has:

(i) Sole power to vote or to direct the vote: 18,209,468

(ii) Shared power to vote or to direct the vote: 28,141

Edgar Filing: ALLIANCE RESOURCE PARTNERS LP - Form SC 13D/A

(iii) Sole power to dispose or to direct the disposition of: 18,209,468

(iv) Shared power to dispose or to direct the disposition of: 28,141

(c) Except as set forth in this Amendment, the Reporting Person has not engaged in any transaction in ARLP common units during the past 60 days.

(d) The Reporting Person has the right to receive or the power to direct the receipt of distributions from, or the proceeds from the sale of, the ARLP common units reported herein. As a joint owner of SGP, Joseph W. Craft III has same right as the Reporting Person to receive and the same power as the Reporting Person to direct the receipt of distributions from, or the proceeds from the sale of, the 28,141 ARLP common units beneficially owned by the Reporting Person through SGP.

(e) Not applicable.

SIGNATURE

After reasonable inquiry and to the best of my knowledge and belief, the undersigned certify that the information set forth in this statement is true, complete and correct.

(In thousands, unless otherwise noted)

1. BACKGROUND AND BASIS OF PRESENTATION

Background

CommScope Holding Company, Inc., along with its direct and indirect subsidiaries (CommScope or the Company), is a global provider of essential infrastructure solutions for wireless, business enterprise and residential broadband networks. The Company's solutions and services for wired and wireless networks enable high-bandwidth data, video and voice applications. CommScope's global position is built upon innovative technology, broad solution offerings, high-quality and cost-effective customer solutions and global manufacturing and distribution scale.

Basis of Presentation

The Condensed Consolidated Balance Sheet as of June 30, 2014, the Condensed Consolidated Statements of Operations and Comprehensive Income for the three and six months ended June 30, 2014 and 2013, and the Condensed Consolidated Statements of Cash Flows and Stockholders' Equity for the six months ended June 30, 2014 and 2013 are unaudited and reflect all adjustments of a normal recurring nature that are, in the opinion of management, necessary for a fair presentation of the interim period financial statements. The results of operations for the interim periods are not necessarily indicative of the results of operations to be expected for the full year.

The unaudited interim condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (U.S. GAAP) for interim financial information and are presented in accordance with the applicable requirements of Regulation S-X. Accordingly, these financial statements do not include all of the information and notes required by U.S. GAAP for complete financial statements. The significant accounting policies followed by the Company are set forth in Note 2 within the Company's audited consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013 (the 2013 Annual Report). There were no changes in the Company's significant accounting policies during the three and six months ended June 30, 2014. In addition, the Company reaffirms the use of estimates in the preparation of the financial statements as set forth in the audited consolidated financial statements. These interim condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements.

As of January 1, 2014, the Company adopted new accounting guidance that requires an entity to net its liability for uncertain tax positions as a reduction to deferred tax balances related to net operating loss carryforwards, similar tax losses or tax credit carryforwards when settlement in this manner is available under the tax law. The provisions of this new guidance did not have a material impact on the Company's financial statements.

On October 4, 2013, the Company effected a 3-for-1 stock split of its common stock. All share and per share numbers have been revised to reflect the stock split.

Concentrations of Risk and Related Party Transactions

Net sales to Anixter International Inc. and its affiliates (Anixter) accounted for approximately 11% of the Company's total net sales during the three and six months ended June 30, 2014. Net sales to Anixter accounted for approximately 12% of the Company's total net sales during the three and six months ended June 30, 2013. Sales to Anixter primarily originate within the Enterprise segment. Other than Anixter, no direct customer accounted for 10% or more of the Company's total net sales for the three or six months ended June 30, 2014 or 2013.

Accounts receivable from Anixter represented approximately 12% of accounts receivable as of June 30, 2014. Other than Anixter, no direct customer accounted for 10% or more of the Company's accounts receivable as of June 30, 2014.

As of June 30, 2014, the Company was 54% owned by funds affiliated with The Carlyle Group (Carlyle). The Company paid \$0.8 million and \$1.5 million of management and oversight fees to Carlyle in the three and six months ended June 30, 2013, respectively. In October 2013, the Company paid Carlyle approximately \$20.2 million to terminate the management agreement.

Table of Contents**CommScope Holding Company, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements (Continued)****(In thousands, unless otherwise noted)****Product Warranties**

The Company recognizes a liability for the estimated claims that may be paid under its customer warranty agreements to remedy potential deficiencies of quality or performance of the Company's products. These product warranties extend over periods ranging from one to twenty-five years from the date of sale, depending upon the product subject to the warranty. The Company records a provision for estimated future warranty claims as cost of sales based upon the historical relationship of warranty claims to sales and specifically-identified warranty issues. The Company bases its estimates on assumptions that are believed to be reasonable under the circumstances and revises its estimates, as appropriate, when events or changes in circumstances indicate that revisions may be necessary. Such revisions may be material.

The following table summarizes the activity in the product warranty accrual, included in other accrued liabilities:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Product warranty accrual, beginning of period	\$ 22,938	\$ 25,325	\$ 24,838	\$ 26,005
Provision for warranty claims	2,662	187	4,931	1,147
Warranty claims paid	(3,805)	(1,385)	(7,974)	(3,025)
Product warranty accrual, end of period	\$ 21,795	\$ 24,127	\$ 21,795	\$ 24,127

Commitments and Contingencies

The Company is either a plaintiff or a defendant in pending legal matters in the normal course of business. Management believes none of these legal matters will have a material adverse effect on the Company's business or financial condition upon final disposition.

As of June 30, 2014, the Company had commitments of \$23.6 million to purchase metals that are expected to be consumed in normal production by the fourth quarter of 2014. In the aggregate, these commitments were at prices approximately 1% above market prices as of June 30, 2014.

Asset Impairments

Property, plant and equipment and intangible assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value of the assets may not be recoverable, based on the undiscounted cash flows expected to be derived from the use and ultimate disposition of the assets. Assets identified as impaired are

carried at their estimated fair value. During the three months ended June 30, 2014, as a result of revisions to the business plan for a particular product line, the Company determined that certain intangible assets in the Broadband segment were no longer recoverable and a \$7.2 million impairment charge was recorded. During the three months ended June 30, 2013, a goodwill impairment charge of \$28.8 million was recorded in the Broadband segment primarily as a result of lower projected operating results than those used in the 2012 annual impairment test. During the six months ended June 30, 2013, the Company also recorded pretax impairment charges in the Wireless segment of \$5.6 million related to certain real estate and production equipment.

Income Taxes

The effective income tax rate of 46.4% and 40.1% for the three and six months ended June 30, 2014, respectively, was higher than the statutory rate of 35% primarily due to increases in valuation allowances for foreign tax credit carryforwards, losses in certain jurisdictions where the Company did not recognize tax benefits due to the likelihood of them not being realizable, the provision for state income taxes and certain tax costs associated with repatriation of foreign earnings. In addition, no tax benefit was recognized on the \$7.2 million asset impairment charge recorded during the second quarter of 2014. These items were partially offset by gains of \$6.6 million and \$12.0 million in the three and six months ended June 30, 2014, respectively, that resulted from the reduction in the estimated fair value of

Table of Contents**CommScope Holding Company, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements (Continued)****(In thousands, unless otherwise noted)**

contingent consideration payable, which is not subject to tax. The Company also recognized a reduction in tax expense during the six months ended June 30, 2014 related to uncertain tax positions for which the statutes of limitations had lapsed.

The effective income tax rate for the three and six months ended June 30, 2013 was higher than the statutory rate of 35% primarily due to the establishment of a valuation allowance of \$29.5 million related to foreign tax credit carryforwards that was partially offset by the reversal of a previously established valuation allowance of \$8.3 million related to net operating loss carryforwards in a foreign jurisdiction as a result of improved profitability. In addition, no tax benefit was recognized on the \$28.8 million goodwill impairment charge recorded during the second quarter of 2013. The effective tax rate for the three and six months ended June 30, 2013 was also impacted by losses in certain foreign jurisdictions where the Company did not recognize tax benefits due to the likelihood of them not being realizable, tax costs associated with repatriation of foreign earnings and adjustments related to prior years' tax returns in various jurisdictions.

Earnings Per Share

Basic earnings per share is computed by dividing net income by the weighted average number of common shares outstanding during the period. Diluted earnings per share is based on net income divided by the weighted average number of common shares outstanding plus the dilutive effect of potential common shares outstanding during the period using the treasury stock method. Dilutive potential common shares include outstanding equity-based awards such as stock options and restricted stock units. Certain outstanding equity-based awards were not included in the computation of diluted earnings per share because the effect was either antidilutive or the performance condition was not met (2.2 million shares and 1.9 million shares for the three and six months ended June 30, 2014, respectively, and 2.5 million shares and 2.4 million shares for the three and six months ended June 30, 2013, respectively). The following table presents the basis for the earnings per share computations:

Recent Accounting Pronouncements

On May 28, 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update 2014-09 *Revenue from Contracts with Customers*, which establishes a single comprehensive model for revenue recognition. Under the new guidance, revenue will be recognized when control over goods or services has been transferred to a customer. When multiple goods or services are sold under a single arrangement, revenue will be allocated based on the relative standalone selling prices of the various elements. The Company will be required to adopt the standard as of January 1, 2017 and early adoption is not permitted. Transition alternatives include full retrospective adoption or a modified retrospective adoption. The Company has not determined the transition approach that will be utilized or estimated the impact of adopting the new accounting standard.

Table of Contents**CommScope Holding Company, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements (Continued)****(In thousands, unless otherwise noted)****2. ACQUISITIONS****iTRACS Corporation**

In March 2013, the Company acquired substantially all of the assets and assumed certain liabilities of iTRACS Corporation (iTRACS) for approximately \$34.0 million in cash. In March 2014, the Company reached an agreement with the former owners of iTRACS to adjust the purchase price by \$4.7 million and that amount was received by the Company in April 2014. iTRACS develops and markets enterprise-class data center infrastructure management (DCIM) solutions. Net sales of iTRACS products and services were immaterial for the three and six months ended June 30, 2014 and are reported in the Enterprise segment. The allocation of the purchase price, based on the estimated fair values of assets acquired and liabilities assumed, is as follows (in millions):

Current assets	\$ 1.7
Noncurrent assets, excluding intangible assets	0.7
Identifiable intangible assets	13.1
Goodwill	15.1
Less: Liabilities assumed	(1.3)
Net acquisition cost	\$ 29.3

The goodwill arising from the purchase price allocation of the iTRACS acquisition is believed to result from the company's reputation in the marketplace and assembled workforce and is expected to be deductible for tax purposes.

Redwood Systems, Inc.

In July 2013, the Company acquired Redwood Systems, Inc. (Redwood), a provider of LED lighting solutions and integrated sensor networks for data centers and buildings. Redwood was acquired for an initial payment of \$9.8 million and contingent consideration with an estimated fair value of \$12.4 million as of the acquisition date. The Company may be required to pay up to an additional \$37.25 million of consideration if certain net sales targets of up to \$55.0 million are met over various periods through July 31, 2015. During the six months ended June 30, 2014, the estimated fair value of the liability for contingent consideration was reduced to \$1.1 million (see Note 7). In addition, there are potential retention payments for employees of Redwood of up to \$11.75 million based on the same net sales targets as the contingent consideration. Net sales of Redwood products and services were \$2.4 million and \$4.2 million, respectively, for the three and six months ended June 30, 2014 and are reported in the Enterprise segment. The Company does not believe that it is probable that any of the retention payments will be made. The allocation of the purchase price, based on estimates of the fair values of assets acquired and liabilities assumed, is as follows (in millions):

Current assets	\$ 2.6
Deferred taxes	7.3
Identifiable intangible assets	9.0
Goodwill	4.2
Other noncurrent assets	0.8
Less: Liabilities assumed	(1.7)
Net acquisition cost	\$ 22.2

The goodwill arising from the purchase price allocation of the Redwood acquisition is believed to result from the company's reputation in the marketplace and assembled workforce and is not expected to be deductible for tax purposes.

Investments

The Company utilizes the equity method of accounting for investments in entities where it does not have control but has the ability to exercise significant influence over the investee's operating and financial policies. The Company considers investments in publicly traded securities for which it does not have significant influence as available-for-sale. Available-for-sale securities are carried at fair value with changes in fair value recorded net of tax in other comprehensive income. The Company owns 1.69 million shares of Hydrogenics Corporation (Hydrogenics), a publicly traded company that supplies hydrogen generators and hydrogen-based power modules and fuel cells for

various uses. During the three months ended June 30, 2014, the Company reduced its ownership in Hydrogenics from 24.1% to 16.7%. As a result, the Company no longer is considered to have significant influence over the investee's operating and financial policies and changed its method of accounting from the equity method to classifying the investment as available-for-sale.

As of June 30, 2014 the cost basis of the investment in Hydrogenics was \$1.3 million, the fair value was \$31.5 million and the unrealized pretax gains recorded in accumulated other comprehensive income were \$30.2 million. The Company did not hold any investments that were classified as available-for-sale as of December 31, 2013. As of December 31, 2013 the carrying value of the Hydrogenics investment, accounted for under the equity method, was \$3.1 million. Investments are recorded in other noncurrent assets on the Condensed Consolidated Balance Sheets.

During the three months ended June 30, 2014, the company sold 0.5 million shares of Hydrogenics common stock and received proceeds of \$7.1 million (included in other investing activities on the Condensed Consolidated Statements of Cash Flows) and recorded a pretax realized gain of \$6.7 million (recorded in other expense, net on the Condensed Consolidated Statements of Operations and Comprehensive Income). No amounts were reclassified from accumulated other comprehensive income during the three and six months ended June 30, 2014.

The Company's share of earnings and losses as well as any impairment of its equity method investments are recorded in other expense, net on the Condensed Consolidated Statements of Operations and Comprehensive Income. The Company's share of losses in its equity method investments was \$0.9 million and \$1.5 million for the three and six months ended June 30, 2014, respectively, compared to income of \$0.8 million and losses of \$0.1 million for the three and six months ended June 30, 2013, respectively. For the six months ended June 30, 2013, the Company also recorded an impairment charge of \$0.8 million related to one of its equity method investments.

5.00% Senior Notes Due 2021 and 5.50% Senior Notes Due 2024

In May 2014, CommScope, Inc. issued \$650.0 million of 5.00% Senior Notes due June 15, 2021 (the 2021 Notes) and \$650.0 million of 5.50% Senior Notes due June 15, 2024 (the 2024 Notes), collectively referred to as the New Notes. Interest is payable on the New Notes semi-annually in arrears on June 15 and December 15 of each year, beginning December 15, 2014.

Proceeds from the New Notes were used to redeem the entire outstanding amount of 2019 Notes plus pay a redemption premium of \$93.9 million, which was included in other expense, net. The remainder of the net proceeds were available for general corporate purposes. In connection with the redemption of the 2019 Notes, the Company wrote off \$19.1 million of deferred financing costs to interest expense.

Each of the Company's existing and future direct and indirect domestic subsidiaries that guarantees the senior secured credit facilities guarantees the New Notes on a senior unsecured basis. The New Notes and the guarantees are

unsecured senior obligations ranking equal in right of payment to all of the Company's and the guarantors' existing and future senior indebtedness, including its senior secured credit facilities. However, the New Notes and guarantees are effectively junior to all of the Company's and the guarantors' existing and future secured debt, including its senior secured credit facilities, to the extent of the value of the assets securing such secured debt. In addition, the New Notes are structurally subordinated to all existing and future liabilities (including trade payables) of the Company's subsidiaries that do not guarantee the New Notes, including indebtedness incurred by certain of the Company's non-U.S. subsidiaries under the revolving credit facility.

The New Notes may be redeemed prior to maturity under certain circumstances. Upon certain change of control events, the New Notes may be redeemed at the option of the holders at 101% of their face amount, plus accrued and unpaid interest to the date of purchase. Prior to June 15, 2017 in the case of the 2021 Notes and June 15, 2019 in the case of the 2024 Notes, the New Notes may be redeemed at a redemption price equal to 100% of their principal amount, plus a make-whole premium (as defined in the indentures governing the New Notes), plus accrued and unpaid interest to the redemption date. On or prior to June 15, 2017, under certain circumstances, we may also redeem up to 40% of the aggregate principal amount of each series of the New Notes at a redemption price of 105.0% in the case of the 2021 Notes or 105.5% in the case of the 2024 Notes, plus accrued and unpaid interest to the redemption date using the proceeds of certain equity offerings.

In connection with issuing the New Notes, the Company incurred costs of approximately \$23.5 million during the three and six months ended June 30, 2014, which were capitalized as other noncurrent assets and are being amortized over the terms of the notes.

Senior Secured Credit Facilities

During the three and six months ended June 30, 2014, the Company repaid \$2.2 million and \$4.4 million, respectively, of its senior secured term loans. No portion of the senior secured term loans was reflected as a current portion of long-term debt as of June 30, 2014 related to the potentially required excess cash flow payment because the amount that may be payable in 2015, if any, cannot currently be reliably estimated. There was no excess cash flow payment required in 2014 related to 2013.

During the six months ended June 30, 2014, the Company borrowed and repaid \$15.0 million under the revolving credit facility. As of June 30, 2014, the Company had availability of approximately \$352.8 million under the asset-based revolving credit facility, after giving effect to outstanding letters of credit.

Other Matters

The Company's non-guarantor subsidiaries held approximately \$1,219 million, or 24%, of total assets and approximately \$356 million, or 9%, of total liabilities as of June 30, 2014 and accounted for approximately \$382 million, or 36%, and \$702 million, or 35%, of net sales for the three and six months ended June 30, 2014, respectively. As of December 31, 2013, the non-guarantor subsidiaries held approximately \$1,077 million, or 23%, of total assets and approximately \$315 million, or 9%, of total liabilities. For the three and six months ended June 30, 2013, the non-guarantor subsidiaries accounted for approximately \$364 million, or 39%, and \$654, or 38%, of net sales, respectively. All amounts presented exclude intercompany balances.

CommScope, Inc., a subsidiary of the Company, is the issuer of the 2021 and 2024 Notes. The reported balances for CommScope, Inc. are substantially identical to those of the Company other than interest expense for CommScope, Inc. for the three and six months ended June 30, 2014, does not reflect the interest expense incurred in connection with the senior PIK toggle notes, which was \$9.5 million and \$19.0 million, respectively, during such periods (\$6.1 million and \$12.1 million net of tax, respectively). Total debt for CommScope, Inc. as of June 30, 2014 was \$2,161.1 million, which does not include the senior PIK toggle notes.

The weighted average effective interest rate on outstanding borrowings, including the amortization of deferred financing costs and original issue discount, was 5.36% and 6.89% at June 30, 2014 and December 31, 2013, respectively.

6. DERIVATIVES AND HEDGING ACTIVITIES

The Company uses forward contracts to hedge a portion of its exposure to balances denominated in currencies other than the functional currency of various subsidiaries and to manage exposure to certain planned foreign currency expenditures in order to mitigate the impact of changes in exchange rates. At June 30, 2014, the Company had foreign exchange contracts with maturities ranging from one to five months with an aggregate notional value of \$308 million (based on exchange rates as of June 30, 2014). Unrealized gains and losses resulting from these contracts are

recognized in other expense, net and partially offset corresponding foreign exchange transaction gains and losses and the impact of foreign exchange rate fluctuations on various operating expenses. These instruments are not held for speculative or trading purposes. These contracts are not designated as hedges for hedge accounting and are marked to market each period through earnings. The following table presents the balance sheet location and fair value of the Company's derivatives:

	Balance Sheet Location	Fair Value of Asset (Liability)	
		June 30, 2014	December 31, 2013
Foreign currency contracts	Prepaid expenses and other current assets	\$ 1,678	\$ 2,738
Foreign currency contracts	Other accrued liabilities	(1,466)	(662)
Total derivatives not designated as hedging instruments		\$ 212	\$ 2,076

Table of Contents**CommScope Holding Company, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements (Continued)****(In thousands, unless otherwise noted)**

The pretax impact of the foreign currency forward contracts not designated as hedging instruments on the Condensed Consolidated Statements of Operations and Comprehensive Income is as follows:

Foreign Currency Forward Contracts	Location of Gain (Loss)	Gain (Loss) Recognized
Three Months Ended June 30, 2014	Other expense, net	\$ (303)
Three Months Ended June 30, 2013	Other expense, net	\$ 6,100

7. FAIR VALUE MEASUREMENTS

Fair value measurements using quoted prices in active markets for identical assets and liabilities fall within Level 1 of the fair value hierarchy, measurements using significant other observable inputs fall within Level 2, and measurements using significant unobservable inputs fall within Level 3.

The Company's financial instruments consist primarily of cash and cash equivalents, trade receivables, trade payables, investment in equity securities, debt instruments, foreign currency contracts and contingent consideration payable. For cash and cash equivalents, trade receivables and trade payables, the carrying amounts of these financial instruments as of June 30, 2014 and December 31, 2013 were considered representative of their fair values due to their short terms to maturity. The fair value of the Company's investment in equity securities is based on quoted market prices. The fair values of the Company's debt instruments and foreign currency contracts were based on indicative quotes. The fair value of the contingent consideration payable was based on a probability weighted discounted cash flow analysis.

The carrying amounts, estimated fair values and valuation input levels of the Company's investment in equity securities, foreign currency contracts, senior notes, senior secured term loans, senior PIK toggle notes and contingent consideration payable as of June 30, 2014 and December 31, 2013, are as follows:

	June 30, 2014		December 31, 2013		Valuation Inputs
	Carrying Amount	Fair Value	Carrying Amount	Fair Value	
Assets:					
Investment in equity securities	\$ 31,511	\$ 31,511	\$ 3,112	\$ 41,879	Level 1

8.25% senior notes			1,100,000	1,205,280	Level 2
Senior secured term loans due 2017, at par	347,375	347,809	349,125	349,997	Level 2
Senior secured term loans due 2018, at par	521,063	521,063	523,688	524,997	Level 2
Senior PIK toggle notes due 2020	550,000	588,500	550,000	572,000	Level 2
Foreign currency contracts	1,466	1,466	662	662	Level 2
Contingent consideration	1,076	1,076	13,068	13,068	Level 3

Contingent consideration represents the estimated fair value of the expected payment due related to the acquisition of Redwood. The contingent consideration is payable in 2015 and could range from zero to \$37.25 million. The amount to be paid is based on the achievement of sales targets of Redwood products with a maximum payout reached with \$55.0 million of sales by July 31, 2015. The estimated fair value of the contingent consideration was \$12.4 million as of July 3, 2013, the Redwood acquisition date. During the six months ended June 30, 2014, the estimated fair value of the contingent consideration was reduced to \$1.1 million based on the latest projections of Redwood's performance, which resulted in a \$12.0 million reduction in selling, general and administrative expense in the Condensed Consolidated Statements of Operations and Comprehensive Income.

During the three months ended June 30, 2014, the company recorded an impairment charge of \$7.2 to reduce certain intangible assets in the Broadband segment to their estimated fair value. The valuations supporting the impairment charge were based on Level 3 valuation inputs.

These fair value estimates are based on pertinent information available to management as of June 30, 2014 and December 31, 2013. Although management is not aware of any factors that would significantly affect these fair value estimates, such amounts have not been comprehensively revalued for purposes of these financial statements since those dates and current estimates of fair value may differ significantly from the amounts presented.

8. SEGMENTS AND GEOGRAPHIC INFORMATION

The Company's three reportable segments, which align with the manner in which the business is managed, are Wireless, Enterprise and Broadband.

The Wireless segment provides merchant radio frequency wireless network connectivity solutions and small cell distributed antenna systems (DAS) solutions. These solutions, marketed primarily under the Andrew brand, enable wireless operators to deploy both macro cell sites and small cell DAS solutions to meet 2G, 3G and 4G cellular coverage and capacity requirements. The macro cell site solutions can be found at wireless tower sites and include base station antennas, microwave antennas, hybrid fiber-feeder and power cables, coaxial cables, connectors, amplifiers, filters and backup power solutions, including fuel cells. The small cell DAS solutions are primarily composed of distributed antenna systems that allow wireless operators to extend and enhance cellular coverage and capacity in challenging network conditions such as stadiums, transportation systems, commercial buildings and urban areas.

The Enterprise segment provides connectivity and network intelligence for data centers and commercial buildings. These solutions include optical fiber and twisted pair structured cabling applications, intelligent infrastructure software, network rack and cabinet enclosures, intelligent building sensors, advanced LED lighting control systems and network design services.

The Broadband segment consists of cable and communications equipment that support the multi-channel video, voice and high-speed data services provided by cable operators. The segment's products include coaxial and fiber-optic cables, fiber-to-the-home equipment, amplifiers, splitters and taps, conduit and headend solutions for the network core.

9. RESTRUCTURING COSTS

The Company has initiated restructuring actions to realign and lower its cost structure primarily through workforce reductions and other cost reduction initiatives at various facilities, including the cessation of manufacturing operations at the Joliet, Illinois and Statesville, North Carolina facilities. Much of the production capacity from these facilities is being shifted to other existing facilities or contract manufacturers. The Company's net pretax restructuring charges, by segment, were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Wireless	\$ 1,616	\$ 7,462	\$ 2,854	\$ 8,582
Enterprise	(82)	2	132	455
Broadband	775	2,266	1,303	2,496
Total	\$ 2,309	\$ 9,730	\$ 4,289	\$ 11,533

The activity within the liability established for these restructuring actions, which is included in other accrued liabilities, was as follows:

	Employee- Related Costs	Lease Termination Costs	Fixed Asset Related Costs	Total
Balance as of March 31, 2014	\$ 12,723	\$ 1,003	\$	\$ 13,726
Additional charge recorded	(233)	(7)	2,549	2,309
Cash paid	(3,418)	(308)	(2,320)	(6,046)
Foreign exchange and other non-cash items	6		(229)	(223)
Balance as of June 30, 2014	\$ 9,078	\$ 688	\$	\$ 9,766

Balance as of June 30, 2014	\$ 9,078	\$ 688	\$	\$ 9,766

Employee-related costs include the expected severance costs and related benefits as well as any one-time severance benefits that are accrued over the remaining period employees are required to work in order to receive such benefits.

Lease termination costs relate to the cost of vacating leased facilities, net of anticipated sub-rental income.

Table of Contents**CommScope Holding Company, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements (Continued)****(In thousands, unless otherwise noted)**

Fixed asset related costs include non-cash impairment or disposals of fixed assets associated with restructuring actions in addition to the costs to uninstall, pack, ship and reinstall manufacturing equipment and the costs to prepare the receiving facility to accommodate relocated equipment. These costs are expensed as incurred.

As a result of restructuring and consolidation actions, the Company owns unutilized real estate at various facilities in the U.S. and internationally. The Company is attempting to sell or lease this unutilized space. Additional impairment charges may be incurred related to these or other excess assets.

The Company has recognized restructuring charges of \$68.1 million since 2011. The additional pretax costs related to completing restructuring actions initiated to date are expected to be approximately \$1.0 million to \$2.0 million. Cash payments of approximately \$9.0 million to \$10.0 million are expected during the remainder of 2014 with an additional \$1.0 million to \$2.0 million expected to be paid by the end of 2015. In addition to the charges described above, the Company expects to recognize a restructuring charge in the second half of 2014 related to the lease agreement at its Joliet, Illinois facility that expires in 2022. The charge is expected to be \$7.0 million to \$10.0 million for the portion of the facility the Company will attempt to sublease once operations cease at that facility. Additional restructuring actions may be taken and the resulting charges and cash requirements could be material.

The Company contributed \$14.0 million and \$15.0 million to its pension and other postretirement benefit plans during the three and six months ended June 30, 2014, respectively. During the remainder of 2014, the Company anticipates making additional contributions of approximately \$9.3 million to these plans.

11. STOCKHOLDERS EQUITY

Dividends

On May 28, 2013, the Company's Board of Directors declared a dividend of \$2.21 per share of its common stock. The dividend paid on May 28, 2013 was \$342.8 million. On June 28, 2013, the Company's Board of Directors declared a dividend of \$1.26 per share of its common stock, collectively, the 2013 dividends. The dividend paid on June 28, 2013 was \$195.9 million.

In accordance with the antidilution provisions of the Company's stock incentive plans, the exercise prices of certain options outstanding were adjusted to reflect the 2013 dividends. A cash payment of \$7.2 million was made to stock option

Table of Contents**CommScope Holding Company, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements (Continued)****(In thousands, unless otherwise noted)**

holders of options granted prior to 2011 in lieu of a reduction in exercise prices on the May dividend and a payable of \$4.1 million was recorded related to the June dividend and was paid in July 2013. The cash payments and repricings had no effect on the vesting schedules or expiration dates of the stock options and resulted in no additional compensation expense.

Equity-Based Compensation Plans

As of June 30, 2014, \$25.9 million of total unrecognized compensation costs related to non-vested stock options, restricted stock unit awards (RSUs) and share unit awards are expected to be recognized over a remaining weighted average period of 1.6 years. Although the share unit awards may at the Company's discretion be settled in stock, they have historically been settled in cash and are accounted for as liability awards. There were no significant capitalized equity-based compensation costs at June 30, 2014.

Table of Contents**CommScope Holding Company, Inc.****Notes to Unaudited Condensed Consolidated Financial Statements (Continued)****(In thousands, unless otherwise noted)**

The Company uses the Black-Scholes model to estimate the fair value of stock option awards. Key input assumptions used in the model include the grant date fair value of common stock, exercise price of the award, the expected option term, stock price volatility, estimated marketability discount, the risk-free interest rate and the Company's projected dividend yield. The Company believes that the valuation technique and the approach utilized to develop the underlying assumptions are appropriate in estimating the fair values of its stock options. Estimates of fair value are not intended to predict actual future events or the value ultimately realized by employees who receive equity awards. Subsequent events are not indicative of the reasonableness of the original estimates of fair value made by the Company. The following table presents the weighted average assumptions used to estimate the fair value of stock option awards granted.

	Three Months Ended		Six Months Ended	
	June 30,		June 30,

Restricted Stock Units

RSUs entitle the holder to shares of common stock generally after a three-year vesting period. The fair value of the awards is determined on the grant date based on the Company's stock price.

The following table summarizes the RSU activity (in thousands, except per share data):

Other

Share unit award expense of \$2.4 million and \$2.5 million for the six months ended June 30, 2014 and 2013, respectively, is included in equity-based compensation as an adjustment to reconcile net income to net cash (used in) generated by operating activities on the Condensed Consolidated Statements of Cash Flows.

12. SUBSEQUENT EVENT

On July 1, 2014, the Company acquired two of the businesses of United Kingdom-based Alifabs Group (Alifabs) for approximately \$45 million. Alifabs designs and supplies enclosures, monopoles, smaller streetworks towers and tower solutions for the United Kingdom telecommunications, utility and energy markets.

International net sales	429.7	416.3	13.4	3.2	801.8	767.4	34.4	4.5

The increase in net sales for the three and six months ended June 30, 2014 as compared to the corresponding prior year periods was primarily attributable to higher sales in the U.S. Net sales to customers located outside of the United States comprised 40.3% and 40.1% of total net sales for the three and six months ended June 30, 2014, respectively, compared to 44.2% and 44.0% for the three and six months ended June 30, 2013, respectively. In addition to higher net sales in the U.S., the Asia Pacific (APAC) region also showed sales improvement in both the three and six months ended June 30, 2014. The increases in these regions were somewhat offset by lower net sales in the Central and Latin America (CALA) region. Net sales in the Europe, Middle East and Africa (EMEA) region were basically unchanged for the three months ended June 30, 2014 but higher in the six months ended June 30, 2014 as compared to the prior year periods.

From a segment perspective, the increase in net sales for the three and six months ended June 30, 2014 as compared to the prior year periods was primarily attributable to substantially higher net sales in our Wireless segment that was partially offset by lower net sales in our Broadband segment. Net sales for our Enterprise segment were essentially unchanged for the three months ended June 30, 2014 as compared to the prior year period but contributed to the year-over-year improvement in net sales for the six months ended June 30, 2014. Foreign exchange rate changes had a negligible impact on net sales for the three and six months ended June 30, 2014 as compared to the same 2013 periods. For further details by segment, see the section titled **Segment Results** below.

As a percent of sales	3.1%	3.6%			3.2%	3.7%		
Gross profit (net sales less cost of sales)								

The improvements in gross profit and gross profit margin for the three and six months ended June 30, 2014 as compared to the comparable prior year periods were due to higher sales volumes, a favorable change in the mix of products sold and benefits from cost savings initiatives.

Selling, general and administrative expense

Selling, general and administrative (SG&A) expense for the three and six months ended June 30, 2014 reflected reductions in expense of \$6.6 million and \$12.0 million, respectively, resulting from adjustments to the estimated fair value of contingent consideration payable related to the Redwood Systems, Inc. (Redwood) acquisition. Excluding these adjustments, SG&A expense increased for the three and six months ended June 30, 2014 as compared to the comparable prior year periods primarily due to increases in cash incentive and equity-based compensation expense and incremental costs from Redwood, which was acquired in July 2013. The reduction in SG&A expense as a percentage of net sales in the 2014 periods primarily resulted from the higher level of net sales and the benefit from the Redwood contingent consideration adjustment.

Table of Contents**Research and development**

Research and development (R&D) expense was relatively unchanged for the three and six months ended June 30, 2014 as compared to the comparable prior year periods. The reduction in R&D expense as a percentage of net sales was mainly the result of higher net sales. R&D activities generally relate to ensuring that our products are capable of meeting the developing technological needs of our customers, bringing new products to market and modifying existing products to better serve our customers.

Amortization of purchased intangible assets, Restructuring costs and Asset impairments

Asset impairments	7.2	28.8	(21.6)	(75.0)	7.2	34.5	(27.3)	(79.1)

Amortization of purchased intangible assets

The amortization of purchased intangible assets was higher in 2014 as compared to 2013 primarily due to the additional amortization resulting from the March 2013 acquisition of iTRACS Corporation (iTRACS) and the July 2013 acquisition of Redwood.

Restructuring costs

The restructuring costs recognized in 2014 were primarily related to the consolidation of operations following the announced closings of manufacturing operations at two locations in the U.S. and continued efforts to realign and lower our cost structure. The 2013 restructuring costs were primarily related to workforce reductions and other cost reduction initiatives at various U.S. and international facilities.

We expect to incur additional pretax costs of \$8.0 million to \$12.0 million in 2014 related to completing actions announced to date. Included in this estimate of future costs is an additional restructuring charge of \$7.0 million to \$10.0 million related to the lease agreement at our Joliet, Illinois facility once operations cease at that facility. Additional restructuring actions may be identified and resulting charges and cash requirements could be material.

Asset impairments

During the second quarter of 2014, as a result of revisions to the business plan for a particular product line, we determined that certain intangible assets in the Broadband segment were no longer recoverable and a \$7.2 million impairment charge was recorded. During the second quarter of 2013, we recorded a goodwill impairment charge of \$28.8 million in the Broadband segment primarily as a result of lower projected operating results than those used in the 2012 annual impairment test. We also recognized impairment charges of \$5.6 million in the six months ended June 30, 2013 related to long-lived assets in the Wireless segment.

Net interest expense

In May 2014, we issued \$1.3 billion of new senior notes (\$650.0 million of 5.00% Senior Notes due June 15, 2021 and \$650.0 million of 5.50% Senior Notes due June 15, 2024) and used substantially all of the net proceeds to redeem the entire outstanding amount of the senior notes that were due in 2019. In connection with the redemption of the 2019 notes in June 2014, we wrote off \$19.1 million of deferred financing costs to interest expense. In May 2013, we issued \$550.0 million of senior PIK toggle notes, which resulted in \$3.5 million of interest expense in both the three and six months ended June 30, 2013 as compared to \$9.5 million and \$19.0 million in the three and six months ended June 30, 2014, respectively. During the six months ended June 30, 2013, we amended our senior secured term loan facility, which resulted in a \$0.5 million write-off of deferred financing costs and original issue discount. Excluding the write-offs of deferred financing costs and original issue discount, net interest expense decreased in the three and six months ended June 30, 2014 compared to the prior year periods primarily due to lower average debt balances and a shift to lower rate debt.

Our weighted average effective interest rate on outstanding borrowings, including the amortization of deferred financing costs and original issue discount, was 5.36% as of June 30, 2014, 6.89% as of December 31, 2013 and 7.09% as of June 30, 2013.

Other expense, net

In connection with the redemption of the 2019 notes in the three months ended June 30, 2014, we recorded a redemption premium of \$93.9 million, which was included in other expense, net. During the six months ended June 30, 2013, we incurred costs of \$1.9 million that were included in net other expense related to amending our senior secured term loan facility.

Foreign exchange losses of \$0.7 million and \$3.0 million were included in other expense, net for the three and six months ended June 30, 2014, respectively, compared to \$2.6 million and \$2.9 million for the three and six months ended June 30, 2013, respectively.

During the three months ended June 30, 2014, we sold a portion of our investment in Hydrogenics that resulted in a pretax gain of \$6.7 million which was recorded in other expense, net. Other expense, net for the three and six months ended June 30, 2014 included our share of losses in our equity investments of \$0.9 million and \$1.5 million compared to income of \$0.8 million and losses of \$0.1 million for the three and six months ended June 30, 2013, respectively.

Also included in other expense, net for the six months ended June 30, 2013 was the write-off of one such equity investment of \$0.8 million.

Income taxes

Our effective income tax rate of 46.4% and 40.1% for the three and six months ended June 30, 2014, respectively, was higher than the statutory rate of 35% primarily due to increases in valuation allowances for foreign tax credit carryforwards, losses in certain jurisdictions where we did not recognize tax benefits due to the likelihood of them not being realizable, the provision for state income taxes and certain tax costs associated with repatriation of foreign earnings. In addition, no tax benefit was recognized on the \$7.2 million asset impairment charge recorded during the second quarter of 2014. These items were partially offset by the \$6.6 million and \$12.0 million gain that resulted from the reduction in the estimated fair value of contingent consideration payable, which is not subject to tax. We also recognized a reduction in tax expense during the six months ended June 30, 2014 related to uncertain tax positions for which the statutes of limitations had lapsed.

Our effective income tax rate for the three and six months ended June 30, 2013 was higher than the statutory rate primarily due to the establishment of a valuation allowance of \$29.5 million related to foreign tax credit carryforwards that was partially offset by the reversal of a previously established valuation allowance of \$8.3 million related to net

Table of Contents

operating loss carryforwards in a foreign jurisdiction as a result of improved profitability. In addition, no tax benefit was recognized on the \$28.8 million goodwill impairment charge recorded during the second quarter of 2013. The effective tax rate for the three and six months ended June 30, 2013 was also impacted by losses in certain foreign jurisdictions where we did not recognize tax benefits due to the likelihood of them not being realizable, tax costs associated with repatriation of foreign earnings and adjustments related to prior years' tax returns in various jurisdictions.

We expect to continue to provide U.S. taxes on a substantial portion of our current year foreign earnings in anticipation that such earnings will be repatriated to the U.S.

Wireless Segment

We provide merchant RF wireless network connectivity solutions and small cell distributed antenna systems (DAS) solutions. Our solutions, marketed primarily under the Andrew brand, enable wireless operators to deploy both macro cell sites and small cell DAS solutions to meet 2G, 3G and 4G cellular coverage and capacity requirements. Our macro cell site solutions can be found at wireless tower sites and on rooftops and include base station antennas, microwave antennas, hybrid fiber-feeder and power cables, coaxial cables, connectors, amplifiers, filters and backup power solutions, including fuel cells. Our small cell DAS solutions are primarily composed of distributed antenna systems that allow wireless operators to increase spectral efficiency and thereby extend and enhance cellular coverage and capacity in challenging network conditions such as stadiums, transportation systems, commercial buildings and urban areas.

The Wireless segment experienced a significant increase in net sales in most major regions for the three and six months ended June 30, 2014 as compared to the prior year periods with particular strength in the U.S. as a result of higher capital spending by wireless operators, including supporting 4G deployments. Wireless segment net sales in Europe and the APAC region improved in both the three and six months ended June 30, 2014 as compared to the prior year periods. These improvements were partially offset by lower Wireless segment net sales in the Middle East. Foreign exchange rate changes had a negligible impact on Wireless segment net sales for the three and six months ended June 30, 2014 as compared to the same periods in 2013.

Wireless segment operating income and adjusted operating income increased substantially for the three and six months ended June 30, 2014 as compared to the prior year periods primarily due to the higher level of net sales, with additional benefit from favorable mix of products sold and the benefit of cost reduction initiatives.

We expect demand for our Wireless products to be positively affected by wireless coverage and capacity expansion in emerging markets and growth in mobile data services (including 4G deployments) in developed markets. Uncertainty in the global economy or a particular region or consolidation among wireless operators may slow the growth or cause a decline in capital spending by wireless operators and negatively impact our net sales.

Enterprise Segment

We provide enterprise connectivity solutions for data centers and commercial buildings. We provide voice, video, data and converged solutions that support mission-critical, high-bandwidth applications including storage area networks, streaming media, data backhaul, cloud applications and grid computing. These comprehensive solutions, sold primarily under the SYSTIMAX and Uniprise brands, include optical fiber and twisted pair structured cable solutions, intelligent infrastructure software, network rack and cabinet enclosures, intelligent building sensors, advanced LED lighting control systems and network design services.

Enterprise segment net sales were essentially unchanged for the three months ended June 30, 2014 compared to the prior year period as higher net sales in the U.S. were offset by lower net sales in most other major geographic regions. For the six months ended June 30, 2014, net sales in the Enterprise segment were higher primarily as a result of improved sales in the U.S. The iTRACS and Redwood acquisitions contributed incremental net sales of \$2.4 million and \$4.8 million for the three and six months ended June 30, 2014, respectively. Foreign exchange rate changes had a negligible impact on Enterprise segment net sales for the three and six months ended June 30, 2014 as compared to the comparable 2013 periods.

Although Enterprise segment operating income increased for the three and six months ended June 30, 2014 as compared to the prior year periods, non-GAAP adjusted operating income was slightly lower for the current year

periods. Operating income for the three and six months ended June 30, 2014 reflected a benefit of \$6.6 million and \$12.0 million, respectively, related to the adjustment of the estimated fair value of contingent consideration payable from the Redwood acquisition. The positive impact of this adjustment to contingent consideration payable was excluded from the calculation of adjusted operating income. Adjusted operating income for the Enterprise segment was slightly lower in the current year periods primarily as a result of the impact of Redwood which decreased operating income for the three and six months ended June 30, 2014 by \$2.9 million and \$5.3 million, respectively, as investments are made to develop product offerings and integrate the acquired business.

We expect long-term demand for Enterprise products to be driven by global information technology and data center spending as the ongoing need for bandwidth and intelligence in the network continues to create demand for high-performance structured connectivity solutions in the enterprise market. Uncertain global economic conditions, variability in the levels of commercial construction activity, uncertain levels of information technology spending and reductions in the levels of distributor inventories may negatively affect demand for our products.

Table of Contents***Broadband Segment***

We provide cable and communications products that support the multi-channel video, voice and high-speed data services provided by multi-system operators (MSOs). We believe we are the leading global manufacturer of coaxial cable for hybrid fiber coaxial networks globally and a leading supplier of fiber optic cable for North American MSOs.

Broadband segment net sales decreased for the three and six months ended June 30, 2014 as compared to the comparable prior year periods in most major geographic regions. Broadband segment net sales decreased as a result of the completion of several projects associated with the U.S. broadband stimulus program, a decline in demand for coaxial products due to the completion of major network upgrades and a decline in market prices. Foreign exchange rate changes had a negligible impact on Broadband segment net sales for the three and six months ended June 30, 2014 as compared to the prior year periods.

The Broadband segment recorded operating losses in the three and six months ended June 30, 2014 and 2013 primarily as a result of asset impairment charges. In the current year, we recorded an impairment charge in the Broadband segment related to certain intangible assets that we have determined are no longer recoverable. The prior year charge related to an impairment of goodwill. Adjusted operating income for the Broadband segment decreased during the three and six months ended June 30, 2014 as compared to the prior year periods primarily due to lower net sales that were partially offset by benefits from cost reduction initiatives. We continue to evaluate alternatives to improve the performance of the Broadband segment. Future actions taken to improve performance could result in charges that may be material.

We expect demand for Broadband products to continue to be influenced by ongoing maintenance requirements of cable networks, cable providers' competition with telecommunication service providers, consolidation in the broadband service provider market and activity in the residential construction market. Spending by our Broadband customers on maintaining and upgrading networks is expected to continue to be influenced by uncertain regional and global economic conditions.

LIQUIDITY AND CAPITAL RESOURCES

The following table summarizes certain key measures of our liquidity and capital resources.

	June 30, 2014	December 31, 2013	Dollar Change	% Change
	(dollars in millions)			
Cash and cash equivalents	\$ 481.0	\$ 346.3	\$ 134.7	38.9%

Total capitalization ⁽²⁾	3,933.9	3,602.6	331.3	9.2
Long-term debt, including current portion, as a percentage of total capitalization	68.9%	69.8%		

(1)

Working capital consists of current assets of \$1,842.9 million less current liabilities of \$603.1 million as of June 30, 2014. Working capital consists of current assets of \$1,453.4 million less current liabilities of \$593.4 million as of December 31, 2013.

(2) Total capitalization includes long-term debt, including the current portion, and stockholders' equity. Our principal sources of liquidity on a short-term basis are cash and cash equivalents, cash flows provided by operations and availability under credit facilities. On a long-term basis, our potential sources of liquidity also include raising capital through the issuance of debt and/or equity. The primary uses of liquidity include funding working capital requirements (primarily inventory and accounts receivable, net of accounts payable and other accrued liabilities), debt service requirements (including voluntary debt payments), capital expenditures, acquisitions, payment of certain restructuring costs, and pension and other postretirement obligations.

The increase in cash and cash equivalents during the first six months of 2014 was primarily driven by strong operating performance and the issuance of \$1.3 billion of new senior notes that was partially offset by the redemption of the \$1.1 billion outstanding amount of the 8.25% senior notes and the payment of a redemption premium of \$93.9 million. The increase in working capital, excluding cash and cash equivalents and current portion of long-term debt is primarily due to the increase in the level of accounts receivable resulting from higher net sales and higher inventory expected to be needed to meet demand in the second half of 2014. The increase in long-term debt was primarily the result of issuance of the new senior notes partially offset by the redemption of the 8.25% senior notes. Total capitalization reflects the increase in long-term debt and current year earnings.

Table of Contents**Cash Flow Overview**

	Six Months Ended June 30,		
	2014	2013	Dollar Change
	(dollars in millions)		
Net cash (used in) generated by operating activities	\$ (48.9)	\$ 24.2	\$ (73.1)
Net cash used in investing activities	\$ (2.7)	\$ (46.1)	\$ 43.4
Net cash generated by (used in) financing activities	\$ 187.4	\$ (14.2)	\$ 201.6

Operating Activities

During the six months ended June 30, 2014, \$48.9 million of cash was used in operating activities compared to \$24.2 million of cash generated by operating activities during the six months ended June 30, 2013. Cash flow from operations during the first six months of 2014 decreased from the first six months of 2013 primarily due to the \$93.9 million premium paid and the acceleration of \$38.1 million of cash interest paid in connection with the redemption of the 8.25% senior notes. We also experienced higher working capital requirements, particularly an increase in accounts receivable as a result of higher net sales and higher inventory expected to be needed to meet demand in the second half of 2014. These uses of cash were partially offset by improved operating performance.

Investing Activities

Investment in property, plant and equipment during the first half of 2014 was \$16.2 million and primarily related to supporting improvements to manufacturing operations as well as investments in information technology (including internally developed software). We currently expect total capital expenditures of \$35 million to \$40 million in 2014.

During the six months ended June 30, 2014, we received proceeds of \$7.1 million related to the sale of 0.5 million shares of our investment in Hydrogenics Corporation.

During the six months ended June 30, 2013, we paid \$34.0 million related to the acquisition of iTRACS. We received \$4.7 million in April 2014 related to the final determination of the iTRACS purchase price.

Financing Activities

During the six months ended June 30, 2014, we issued \$1.3 billion of new senior notes at a weighted average interest rate of 5.25%. Proceeds from the new senior notes were used to redeem the entire \$1.1 billion of outstanding 8.25% senior notes. In connection with issuing the new senior notes, we paid financing costs of approximately \$22.7 million during the six months ended June 30, 2014.

Also during the first half of 2014, we borrowed and repaid \$15.0 million under our revolving credit facility and repaid \$4.4 million of our senior secured term loans. As of June 30, 2014, we had no outstanding borrowings under our \$400.0 million revolving credit facility and the remaining availability was approximately \$352.8 million, reflecting a borrowing base of \$400.0 million reduced by \$47.2 million of letters of credit issued under the revolving credit facility.

During the six months ended June 30, 2013, we issued \$550.0 million of senior PIK toggle notes and amended our senior secured term loan facility, primarily to lower the interest rate. The amendment resulted in the repayment of \$32.0 million to certain lenders who exited the senior secured term loan and the receipt of \$32.0 million in proceeds from new lenders and existing lenders who increased their positions. Also during the first half of 2013, we paid cash dividends of \$538.7 million to common shareholders and made distributions to certain option holders of \$7.2 million in lieu of repricing their stock options due to the dividend. We borrowed and repaid \$135.0 million under our revolving credit facility and repaid \$5.0 million of our senior secured term loan during the first half of 2013.

Future Cash Needs

We expect that our primary future cash needs will be debt service, funding working capital requirements (including operating leases), capital expenditures, funding acquisitions, paying certain restructuring costs, tax payments (including the cost of repatriation), and funding pension and other postretirement benefit obligations. We paid \$12.9 million of

Table of Contents

restructuring costs during the first six months of 2014 and expect to pay an additional \$10 million to \$12 million by 2015 related to restructuring actions that have been initiated. Any future restructuring actions would likely require additional cash expenditures and such requirements may be material. As of June 30, 2014, we have an unfunded obligation related to pension and other postretirement benefits of \$22.0 million. We made contributions of \$15.0 million to our pension and other postretirement benefit plans during the six months ended June 30, 2014 and currently expect to make additional contributions of \$9.3 million during the balance of 2014. These contributions include those required to comply with an agreement with the Pension Benefit Guaranty Corporation. We expect that our noncurrent employee benefit liabilities will be funded from existing cash balances and cash flow from future operations.

We may be required to pay up to an additional \$49.0 million of consideration and retention payments in 2015 related to the 2013 acquisition of Redwood if certain net sales targets are met. In July 2014, we paid approximately \$45 million to acquire two businesses of Alifabs Group. We may also pursue additional strategic acquisition opportunities, which may impact our future cash requirements.

We expect to pay the interest on the senior PIK toggle notes in cash during 2014. We may also voluntarily repay existing debt or repurchase our new senior notes or our senior PIK toggle notes, if market conditions are favorable and the applicable indenture permits such repayment or repurchase.

Although there are no financial maintenance covenants under the terms of our new senior notes or senior PIK toggle notes, there is a limitation, among other limitations, on certain future borrowings based on an adjusted leverage ratio or a fixed charge coverage ratio. These ratios are based on financial measures similar to Adjusted EBITDA as presented in this Quarterly Report on Form 10-Q (see Reconciliation of Non-GAAP Measures), which also give pro forma effect to certain events, including acquisitions, synergies and cost savings initiatives. For the twelve months ended June 30, 2014, our pro forma adjusted EBITDA as measured pursuant to indentures governing our notes was \$825.8 million, which included the impact of cost reduction initiatives (\$20.0 million) so that the impact of the initiatives are fully reflected in the twelve-month period used in the calculation of the ratios. In addition to limitations under these indentures, our senior secured credit facilities contain customary negative covenants. We are currently in compliance with the covenants under our indentures and senior secured credit facilities.

As of June 30, 2014, approximately 61% of our cash and cash equivalents was held outside the United States. Income taxes have been provided on foreign earnings sufficient to repatriate substantially all of this cash without significant incremental income tax expense. However, the cash tax requirements to repatriate existing funds may vary from year to year.

We believe that our existing cash, cash equivalents and cash flows from operations, combined with availability under our revolving credit facility, will be sufficient to meet our presently anticipated future cash needs. We may, from time to time, increase borrowings under our revolving credit facility or issue securities, if market conditions are favorable, to meet our future cash needs or to reduce our borrowing costs.

Table of Contents**CONTRACTUAL OBLIGATIONS**

In May 2014, we issued \$650.0 million of 5.00% Senior Notes due June 15, 2021 and \$650.0 million of 5.50% Senior Notes due June 15, 2024, and used substantially all of the net proceeds to redeem the entire outstanding amount of our 8.25% senior notes. The following table summarizes our contractual obligations as of June 30, 2014:

Contractual Obligations	Amount of Payments Due per Period				
	Total Payments Due	Remainder of 2014	2015-2016	2017-2018	Thereafter

Unrecognized tax benefits (f)					
Total contractual obligations	\$ 3,773.8	\$ 127.5	\$ 335.5	\$ 1,101.1	\$ 2,209.7

- (a) No other prepayment or redemption of any of our long-term debt balances has been assumed. Refer to Note 5 in the Notes to Condensed Consolidated Financial Statements included in our Form 10-Q and Note 6 in the Notes to Consolidated Financial Statements included in our 2013 Annual Report for information regarding the terms of our long-term debt agreements.
- (b) Interest on long-term debt excludes the amortization of deferred financing fees and original issue discount. Interest on variable rate debt is estimated based upon rates in effect as of June 30, 2014.
- (c) Purchase obligations include minimum amounts owed under take-or-pay or requirements contracts. Amounts covered by open purchase orders are excluded as there is no contractual obligation until goods or services are received.
- (d) Amounts reflect expected contributions related to payments under the postretirement benefit plans through 2022 and expected pension contributions of \$7.6 million during the remainder of 2014 and \$10.4 million in 2015-2016 (see Note 10 in the Notes to Consolidated Financial Statements included in our 2013 Annual Report).
- (e) Additional payments of up to \$49.0 million related to the acquisition of Redwood Systems, Inc. could be due in 2015 if net sales of Redwood products reach various levels of up to \$55.0 million over various periods through July 31, 2015.
- (f) Due to the uncertainty in predicting the timing of tax payments related to our unrecognized tax benefits, \$77.9 million has been excluded from the presentation. We anticipate a reduction of up to \$21.0 million of unrecognized tax benefits during the remainder of 2014 (see Note 11 in the Notes to Consolidated Financial Statements included in our 2013 Annual Report).

Table of Contents**Reconciliation of Non-GAAP Measures**

We believe that presenting certain non-GAAP financial measures enhances an investor's understanding of our financial performance. We further believe that these financial measures are useful financial metrics to assess our operating performance from period to period by excluding certain items that we believe are not representative of our core business. We also believe that certain of these financial measures provide investors with a useful tool for assessing the comparability between periods of our ability to generate cash from operations sufficient to pay taxes, to service debt and to undertake capital expenditures. We also use certain of these financial measures for business planning purposes and in measuring our performance relative to that of our competitors. We believe these financial measures are commonly used by investors to evaluate our performance and that of our competitors. However, our use of the terms Adjusted Operating Income and Adjusted EBITDA may vary from that of others in our industry. These financial measures should not be considered as alternatives to operating income (loss), net income (loss) or any other performance measures derived in accordance with U.S. GAAP as measures of operating performance or operating cash flows or as measures of liquidity.

We also believe presenting results for the twelve months ended June 30, 2014 provides an additional tool for assessing our recent performance. Such amounts are unaudited and are derived by subtracting the data for the six months ended June 30, 2013 from the data for the year ended December 31, 2013 and then adding the data for the six months ended June 30, 2014.

FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q or any other oral or written statements made by us or on our behalf may include forward-looking statements which reflect our current views with respect to future events and financial performance. These forward-looking statements are identified by their use of such terms and phrases as intend, goal, estimate, expect, project, projections, plans, anticipate, should, designed to, foreseeable future, believe, think, outlook, guidance and similar expressions. This list of indicative terms and phrases is not intended to be all-inclusive.

These statements are subject to various risks and uncertainties, many of which are outside our control, including, without limitation, our dependence on customers capital spending on communication systems; concentration of sales among a limited number of customers or distributors; changes in technology; our ability to fully realize anticipated benefits from prior or future acquisitions or equity investments; industry competition and the ability to retain customers through product innovation, introduction and marketing; risks associated with our sales through channel partners; possible production disruptions due to supplier or contract manufacturer bankruptcy, reorganization or restructuring; the risk our global manufacturing operations suffer production or shipping delays causing difficulty in meeting customer demands; the risk that internal production capacity and that of contract manufacturers may be insufficient to meet customer demand or quality standards for our products; customer orders, including those for which we have ordered or purchased inputs, may be cancelled; our ability to maintain effective information management systems and to successfully implement major systems initiatives; cyber-security incidents, including data security breaches or computer viruses; product performance issues and associated warranty claims; significant international operations and the impact of variability in foreign exchange rates; our ability to comply with governmental anti-corruption laws and regulations and export and import controls worldwide; risks associated with currency fluctuations and currency exchange; the divestiture of one or more product lines; political and economic instability, both in the U.S. and internationally; potential difficulties in realigning global manufacturing capacity and capabilities among our global manufacturing facilities, including delays or challenges related to removing, transporting or reinstalling equipment, that may affect ability to meet customer demands for products; possible future restructuring actions; possible future impairment charges for fixed or intangible assets, including goodwill; increased obligations under employee benefit plans; cost of protecting or defending intellectual property; changes in laws or regulations affecting us or the industries we serve; costs and challenges of compliance with domestic and foreign environmental laws and the effects of climate change; changes in cost and availability of key raw materials, components and commodities and the potential effect on customer pricing; risks associated with our dependence on a limited number of key suppliers; our ability to attract and retain qualified key employees; allegations of health risks from wireless equipment; availability and adequacy of insurance; natural or man-made disasters or other disruptions; income tax rate variability and ability to recover amounts recorded as value-added tax receivables; labor unrest; risks associated with future research and development projects; increased costs as a result of operating as a public company; our ability to comply with new regulations related to conflict minerals; risks associated with the seasonality of our business; substantial indebtedness and maintaining compliance with debt covenants; our ability to incur additional indebtedness; cash requirements to service indebtedness; ability of our lenders to fund borrowings under their credit commitments; changes in capital availability or costs, such as changes in interest rates, security ratings and market perceptions of the businesses in which we operate, or the ability to obtain capital on commercially reasonable terms or at all; continued global economic weakness and uncertainties and disruption in the capital, credit and commodities markets; any statements of belief and any statements of assumptions underlying any of the foregoing; and other factors beyond our control. These and other factors are discussed in greater detail in our 2013 Annual Report on Form 10-K. The information contained in this Quarterly Report on Form 10-Q represents our best judgment at the date of this report based on information currently available. However, we are not undertaking any duty or obligation to update this information to reflect developments or information obtained after the date of this report.
