CAUTIONARY STATEMENT

This Quarterly Report on Form 10-Q, including Management's Discussion and Analysis of Financial Condition and Results of Operations in Item 2, contains forward-looking statements that involve risks, uncertainties and assumptions. If the risks or uncertainties ever materialize or the assumptions prove incorrect, the results of Calavo Growers, Inc. and its consolidated subsidiaries (Calavo, the Company, we, us or our) may differ materially from those expressed or implied by such forward-looking statements and assumptions. All statements, other than statements of historical fact, are statements that could be deemed forward-looking statements, including, but not limited to, any projections of revenue, margins, expenses, earnings, earnings per share, tax provisions, cash flows, currency exchange rates, the impact of acquisitions or other financial items; any statements of the plans, strategies and objectives of management for future operations, including execution of restructuring and integration plans; any statements regarding current or future macroeconomic trends or events and the impact of those trends and events on Calavo and its financial performance; any statements regarding pending investigations, claims or disputes; any statements of expectation or belief; and any statements of assumptions underlying any of the foregoing. Risks, uncertainties and assumptions include the impact of macroeconomic trends and events; the competitive pressures faced by Calavo's businesses; the development and transition of new products and services (and the enhancement of existing products and services) to meet customer needs; integration and other risks associated with business combinations; the hiring and retention of key employees; the resolution of pending investigations, claims and disputes; and other risks that are described herein, including, but not limited to, the items discussed in Item 1A, *Risk Factors*, in our Annual Report on Form 10-K for the fiscal year ended October 31, 2013, and those detailed from time to time in our other filings with the Securities and Exchange Commission. Calavo assumes no obligation and does not intend to update these forward-looking statements.

Table of Contents**1. Description of the business*****Business***

Calavo Growers, Inc. (Calavo, the Company, we, us or our), is a global leader in the avocado industry and an expanding provider of value-added fresh food. Our expertise in marketing and distributing avocados, prepared avocados, and other perishable foods allows us to deliver a wide array of fresh and prepared food products to food distributors, produce wholesalers, supermarkets, and restaurants on a worldwide basis. We procure avocados principally from California, Mexico, and Chile. Through our various operating facilities, we sort, pack, and/or ripen avocados, tomatoes, pineapples and/or Hawaiian grown papayas. Additionally, we also produce salsa and prepare ready-to-eat produce and deli products.

The accompanying unaudited consolidated condensed financial statements have been prepared by the Company in accordance with accounting principles generally accepted in the United States and with the instructions to Form 10-Q and Article 10 of Regulation S-X of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, the accompanying unaudited consolidated condensed financial statements contain all adjustments, consisting of adjustments of a normal recurring nature necessary to present fairly the Company's financial position, results of operations and cash flows. The results of operations for interim periods are not necessarily indicative of the results that may be expected for a full year. These statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended October 31, 2013.

Correction of Immaterial Errors Within Previously Issued Consolidated Condensed Financial Statements

In connection with the preparation of our accompanying Consolidated Condensed Financial Statements, we identified an immaterial error in our Consolidated Condensed Balance Sheet as of April 30, 2014, included within our Form 10-Q for the quarter ended April 30, 2014, as a result of the incorrect recognition of cash as of April 30, 2014 for a wire transfer initiated on April 30, 2014, but not received until May 1, 2014. Accordingly, there was a \$10.0 million overstatement within Cash and cash equivalents, a \$5.4 million overstatement of Additional paid-in capital and a \$4.6 million overstatement of Noncontrolling interest, FreshRealm. Additionally, our Consolidated Condensed Statement of Cash Flows presented an overstatement of \$10.0 million within Cash Flows from Financing Activities, under the line item Proceeds from issuance of FreshRealm stock. Our management evaluated the materiality of these errors both qualitatively and quantitatively in accordance with Staff Accounting Bulletin No. 99, Materiality, and determined that these errors were not material to our previously reported quarterly financial statements as of and for the three and six months ended April 30, 2014. The aforementioned errors have no impact on this Quarterly Report on Form 10-Q, nor any future periodic filings, except that the Consolidated Condensed Statement of Cash Flows for the six months ended April 30, 2014 will be corrected to properly reflect this immaterial error in our Form 10-Q for the quarter ended April 30, 2015.

The effect of recording this immaterial error correction in our consolidated condensed balance sheet as of April 30, 2014 and the related consolidated condensed statement of cash flows for the six months ended April 30, 2014 is as follows:

	April 30, 2014 As previously reported	April 30, 2014 As corrected
Balance Sheet (in thousands)		
Cash and cash equivalents	\$ 19,914	\$ 9,914
Total assets	\$ 259,107	\$ 249,107
Additional paid-in capital	\$ 65,358	\$ 59,968
Noncontrolling interest, FreshRealm	\$ 4,301	\$ (309)
Shareholders equity	\$ 145,602	\$ 135,602

	April 30, 2014 As previously reported	April 30, 2014 As corrected
Statement of cash flows (in thousands)		
Cash flows from operating activities	\$ 13,263	\$ 13,263
Cash flows used in investing activities	\$ (5,589)	\$ (5,589)
Proceeds from issuance of FreshRealm stock	\$ 10,000	\$
Proceeds from financing activities	\$ 4,221	\$ (5,779)
Cash and cash equivalents, end of period	\$ 19,914	\$ 9,914

The correction of this immaterial error on the consolidated condensed statements of income for the three and six months ended April 30, 2014 was inconsequential and corrected in the three months ended July 31, 2014.

Recently Adopted Accounting Pronouncements

In February 2013, the FASB issued a standard that revised the disclosure requirements for items reclassified out of accumulated other comprehensive income and requires entities to present information about significant items reclassified out of accumulated other comprehensive income by component either (1) on the face of the statement where net income is presented or (2) as a separate disclosure in the notes to the financial statements. This guidance is effective for annual reporting periods beginning after December 15, 2012. The adoption of this standard had no impact on our financial statements.

In July 2013, the FASB issued a standard permitting the Fed Funds Effective Swap Rate to be used as a U.S. benchmark interest rate for hedge accounting purposes, in addition to the United States Treasury rate and London Interbank Offered Rate (LIBOR). In addition, the restriction on using different benchmark rates for similar hedges is removed. The Company is required to adopt these provisions prospectively for qualifying new or re-designated hedging relationships entered into on or after July 17, 2013. The adoption of this standard had no impact on our financial statements.

Recently Issued Accounting Standards

In March 2013, the FASB issued a standard which requires the release of a Company's cumulative translation adjustment into net income only if the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary or group of assets had resided. This guidance is effective for annual reporting periods beginning after December 15, 2013. The adoption of this amendment will not have a material effect on our financial statements.

In July 2013, the FASB issued a standard to clarify the presentation of unrecognized tax benefits when a net operating loss carryforward, a similar tax loss or a tax credit carryforward exists as of the reporting date. This guidance is effective for annual reporting periods beginning after December 15, 2013. The adoption of this amendment will not have a material effect on our financial statements.

Table of Contents**2. Information regarding our operations in different segments**

We report our operations in three different business segments: (1) Fresh products, (2) Calavo Foods, and (3) RFG. These three business segments are presented based on how information is used by our Chief Executive Officer to measure performance and allocate resources. The Fresh products segment includes all operations that involve the distribution of avocados and other fresh produce products. The Calavo Foods segment represents all operations related to the purchase, manufacturing, and distribution of prepared products, including guacamole and salsa. The RFG segment represents all operations related to the manufacturing and distribution of fresh-cut fruit, ready-to-eat vegetables, recipe-ready vegetables and deli meat products. Selling, general and administrative expenses, as well as other non-operating income/expense items, are evaluated by our Chief Executive Officer in the aggregate. We do not allocate assets, or specifically identify them to, our operating segments. The following table sets forth sales by product category, by segment (in thousands):

Certain members of our Board of Directors market California avocados through Calavo pursuant to marketing agreements substantially similar to the marketing agreements that we enter into with other growers. During the three months ended July 31, 2014 and 2013, the aggregate amount of avocados procured from entities owned or controlled by members of our Board of Directors was \$8.0 million and \$11.0 million. During the nine months ended July 31, 2014 and 2013, the aggregate amount of avocados procured from entities owned or controlled by members of our Board of Directors was \$9.2 million and \$15.6 million. Amounts payable to these board members were \$3.0 million and \$3.3 million as of July 31, 2014 and October 31, 2013.

During the three months ended July 31, 2014 and 2013, we received \$0.1 million as dividend income from Limoneira Company. During the nine months ended July 31, 2014 and 2013, we received \$0.2 million as dividend income from Limoneira Company. Harold Edwards, who is a member of our Board of Directors, is the Chief Executive Officer of Limoneira Company.

The three previous owners and current executives of RFG have a majority ownership of certain entities that provide various services to RFG. RFG's California operating facility leases a building from LIG partners, LLC (LIG) pursuant to an operating lease. LIG is majority owned by an entity owned by three executives of RFG. For the three months ended July 31, 2014 and 2013, total rent paid to LIG was \$0.1 million. For the nine months ended July 31, 2014 and 2013, total rent paid to LIG was \$0.4 million. RFG's Texas operating facility leases a building from THNC, LLC (THNC) pursuant to an operating lease. THNC is majority owned by an entity owned by three executives of RFG. For the three months ended July 31, 2014, total rent paid to THNC was \$0.1 million. For the nine months ended July 31, 2014, total rent paid to THNC was \$0.2 million. Additionally, RFG sells cut produce and purchases raw materials, obtains transportation services, and shares costs for certain utilities with Third Coast Fresh Distribution (Third Coast). Third Coast is majority owned by an entity owned by three executives of RFG. For the three months ended July 31, 2014 and 2013, total sales made to Third Coast were \$0.3 million. For the nine months ended July 31, 2014 and 2013, total sales made to Third Coast were \$0.8 million and \$1.9 million. For the three months July 31, 2014 and 2013, total purchases made from Third Coast were \$0.2 million. For the nine months July 31, 2014 and 2013, total purchases made from Third Coast were \$0.3 million and \$1.0 million. Amounts due from Third Coast were \$0.4 million and \$1.0 million at July 31, 2014 and October 31, 2013. Amounts due to Third Coast were \$0.1 million at July 31, 2014 and October 31, 2013.

6. Stock-Based Compensation

In April 2011, our shareholders approved the Calavo Growers, Inc. 2011 Management Incentive Plan (the 2011 Plan). All directors, officers, employees and consultants (including prospective directors, officers, employees and consultants) of Calavo and its subsidiaries are eligible to receive awards under the 2011 Plan. Up to 1,500,000 shares of common stock may be issued by Calavo under the 2011 Plan.

On January 9, 2014, all 12 of our non-employee directors were granted 1,750 restricted shares each (total of 21,000 shares). These shares have full voting rights and participate in dividends as if unrestricted. The closing price of our stock on such date was \$32.49. On January 1, 2015, as long as the directors are still serving on the board, these shares lose their restriction and become non-forfeitable and transferable. These shares were granted pursuant to our 2011 Management Incentive Plan.

On January 27, 2014, our executive officers were granted a total of 10,774 restricted shares. These shares have full voting rights and participate in dividends as if unrestricted. The closing price of our stock on such date was \$30.50. These shares vest in one-third increments, on an annual basis, beginning January 1, 2015.

Stock options are granted with exercise prices of not less than the fair market value at grant date, generally vest over one to five years and generally expire two to five years after the grant date. We settle stock option exercises with newly issued shares of common stock.

We measure compensation cost for all stock-based awards at fair value on the date of grant and recognize compensation expense in our consolidated statements of operations over the service period that the awards are expected to vest. We measure the fair value of our stock based compensation awards on the date of grant.

A summary of stock option activity, related to our 2005 Stock Incentive Plan, is as follows (in thousands, except for per share amounts):

	Number of Shares	Weighted-Average Exercise Price	Aggregate Intrinsic Value

Exercisable at July 31, 2014	13	\$ 16.70	\$ 466

At July 31, 2014, outstanding stock options had a weighted-average remaining contractual term of 3.8 years. At July 31, 2014, exercisable stock options had a weighted-average remaining contractual term of 3.3 years. The total recognized stock-based compensation expense was insignificant for the three months ended July 31, 2014.

At July 31, 2014, exercisable stock options had a weighted-average remaining contractual term of 4.0 years. The total recognized stock-based compensation expense was \$0.2 million and \$0.5 million for the three and nine months ended July 31, 2014.

7. Other events*Dividend payment*

On December 12, 2013, we paid a \$0.70 per share dividend in the aggregate amount of \$11.0 million to shareholders of record on November 29, 2013.

Contingencies

From time to time, we are also involved in litigation arising in the ordinary course of our business that we do not believe will have a material adverse impact on our financial statements.

8. Fair value measurements

A fair value measurement is determined based on the assumptions that a market participant would use in pricing an asset or liability. A three-tiered hierarchy draws distinctions between market participant assumptions based on (i) observable inputs such as quoted prices in active markets (Level 1), (ii) inputs other than quoted prices in active markets that are observable either directly or indirectly (Level 2) and (iii) unobservable inputs that require the Company to use present value and other valuation techniques in the determination of fair value (Level 3).

Table of Contents

The following table sets forth our financial assets and liabilities as of July 31, 2014 that are measured on a recurring basis during the period, segregated by level within the fair value hierarchy:

	Level 1	Level 2	Level 3	Total

- (1) The investment in Limoneira Company consists of marketable securities in the Limoneira Company stock. We currently own approximately 12% of Limoneira's outstanding common stock. These securities are measured at fair value by quoted market prices. Limoneira's stock price at July 31, 2014 and October 31, 2013 equaled \$22.05 per share and \$26.34 per share. Unrealized gains and losses are recognized through other comprehensive income. Unrealized investment holding losses arising during the three months ended July 31, 2014 was \$1.6 million. Unrealized investment holding losses arising during the nine months ended July 31, 2014 was \$7.4 million.

- (2) Each period we revalue the contingent consideration obligations to their fair value and record increases or decreases in the fair value into selling, general and administrative expense. Increases or decreases in the fair value of the contingent consideration obligations can result from changes in assumed discount periods and rates, changes in the assumed timing and amount of revenue and expense estimates. Significant judgment is employed in determining the appropriateness of these assumptions as of the acquisition date and for each subsequent period. Accordingly, future business and economic conditions, as well as changes in any of the assumptions described above, can materially impact the amount of contingent consideration expense we record in any given period. No revalue adjustments were necessary during the three and nine months ended July 31, 2014.

The following is a reconciliation of the beginning and ending amounts of the contingent consideration for Salsa Lisa:

- (3) See Note 10 for additional information on the deconsolidation of FreshRealm. We estimated the fair value of our noncontrolling interest in FreshRealm by performing a forecast projection analysis. This analysis was conducted with the consultation from a third party consulting firm. Increases or decreases in the fair value calculation can result from changes in assumed discount periods and rates, changes in the assumed timing and amount of revenue and expense estimates. Significant judgment is employed in determining the appropriateness of these assumptions. We recorded a gain on the deconsolidation of FreshRealm of \$12.6 million, which has been recorded on the face of the income statement. Our investment in FreshRealm has been recorded as investment in unconsolidated subsidiaries on our balance sheet.

For the nine months ended July 31, 2014, FreshRealm has incurred \$1.0 million in expenses, which has been recorded in selling, general and administrative. For the three and nine months ended July 31, 2013, FreshRealm has incurred \$0.5 million in expenses. Since inception, FreshRealm had \$2.9 million in cumulative losses. See Note 10 for discussion on the deconsolidation of FreshRealm on May 2, 2014.

Table of Contents**10. Deconsolidation of FreshRealm, LLC**

On May 2, 2014, we closed our Second Amended and Restated Limited Liability Company Agreement (Agreement) by and among FreshRealm and the ownership members of FreshRealm. The effective date of this agreement was April 30, 2014. Pursuant to this agreement, Impermanence, LLC (Impermanence) was admitted as an ownership member of FreshRealm. Impermanence contributed \$10.0 million to FreshRealm for 28.6% ownership. We agreed to dilute our ownership percentage in FreshRealm, as an injection of significant working capital would reduce the immediate need of Calavo to provide operating funds to FreshRealm and would also serve to preserve the value of our investment.

As a result of the admission of Impermanence, Calavo's ownership was reduced from 71.1% to 50.8% and \$4.6 million was attributed to noncontrolling interest. Additionally, effective April 1, 2014, the first \$10.0 million of losses will be allocated primarily to Impermanence.

Even though Calavo controlled greater than 50% of the outstanding units of FreshRealm as of May 2, 2014, the minority/non-Calavo unit-holders held substantive participating rights. These rights existed primarily in two forms: (1) two out of a total of four board of director seats and (2) a provision in the Agreement that states that for situations for which the approval of the Members, as defined, (rather than the approval of the board of directors on behalf of the Members) is required by the Agreement, the Members shall act by Super-Majority Vote. Super-Majority Vote is defined in the Agreement as the affirmative vote of the holders of at least seventy percent of the outstanding units that are held by the Members. As such, Calavo cannot control FreshRealm through its two board of director seats, nor its 50.8% ownership. Based on the foregoing, we deconsolidated FreshRealm as of May 2, 2014.

As a result of the deconsolidation, we were required to record a gain related to this transaction. Pursuant to ASC 810-10-40-5, we calculated our gain on deconsolidation by considering: a) the aggregate of (1) the fair value of any retained noncontrolling investment in the former subsidiary at the date the subsidiary is deconsolidated and (2) the carrying amount of any noncontrolling interest in the former subsidiary; less b) the carrying amount of the former subsidiary's assets and liabilities. See following table:

(As of May 2, 2014, in thousands)

Fair value of retained noncontrolling investment	\$ 16,962
Carrying amount of noncontrolling interest	4,031
Carrying amount of FreshRealm's assets and liabilities	(8,371)
Gain on deconsolidation of FreshRealm	\$ 12,622

We estimated the fair value of our noncontrolling interest in FreshRealm by performing a forecast projection analysis. This analysis was conducted with the consultation from a third party consulting firm. See Note 9 to the financial statements for additional information regarding our noncontrolling interest in FreshRealm. See Note 8 to the financial statements for additional information regarding the fair value calculation and assumptions used.

Based on the above, we recorded a gain on the deconsolidation of FreshRealm of \$12.6 million, which has been recorded on the face of the income statement. Our investment in FreshRealm has been recorded as investment in unconsolidated subsidiaries on our balance sheet.

As of July 31, 2014, FreshRealm issued additional units to various 3rd parties, which reduced our ownership percentage to exactly 50%.

11. Subsequent events

We have evaluated subsequent events to assess the need for potential recognition or disclosure in this Quarterly Report on Form 10-Q. Such events were evaluated through the date these financial statements were issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition in the financial statements.

	100.0%	100.0%	100.0%	100.0%

Summary

Net sales for the three months ended July 31, 2014, compared to fiscal 2013, increased by \$23.8 million, or 12.2%. Net sales for the nine months ended July 31, 2014, compared to fiscal 2013, increased by \$81.0 million, or 16.2%. The increases in sales, when compared to the same corresponding prior year periods, are related to increases in sales from all segments. We experienced an increase in RFG sales during the third quarter of fiscal 2014 and the nine months ended July 31, 2014, which was due primarily to increased sales from cut fruit and vegetables platters, as well as an increase in sales of deli products. We experienced an increase in Fresh product sales during the third quarter of fiscal 2014 and the nine months ended July 31, 2014, which was due primarily to increased sales of Mexican sourced avocados. Partially offsetting this increase in Fresh product sales, however, was a decrease in sales of California sourced avocados. We experienced an increase in our Calavo Foods segment during the third quarter of fiscal 2014 and the nine months ended July 31, 2014, which was due primarily to an increase in the sales of our guacamole products. While the procurement of fresh avocados related to our Fresh products segment is very seasonal, our Calavo Foods business is generally not subject to a seasonal effect.

Net sales to third parties by segment exclude value-added services billed by our Uruapan packinghouse and our Uruapan processing plant to the parent company. All intercompany sales are eliminated in our consolidated results of operations.

Fresh products

Third Quarter 2014 vs. Third Quarter 2013

Net sales delivered by the Fresh products business increased by approximately \$4.2 million, or 3.3%, for the third quarter of fiscal 2014, when compared to the same period for fiscal 2013. As discussed above, this increase in Fresh product sales during the third quarter of fiscal 2014 was primarily related to increased sales of Mexican sourced avocados, partially offset by a decrease in sales from California sourced avocados. See details below.

Sales of Mexican sourced avocados increased \$19.5 million, or 43.8%, for the third quarter of 2014, when compared to the same prior year period. The increase in Mexican sourced avocados was primarily due to an increase in the pounds sold, which increased by approximately 12.5 million pounds, or 40.5%. In addition, the sales price per carton also increased. The increase for the sales price per carton for Mexican sourced avocados increased by approximately 2.3%. We attribute much of this change to a higher demand for quality avocados.

Partially offsetting this increase was a decrease in sales of California sourced avocados, which decreased \$12.9 million, or 17.8%, for the third quarter of 2014, when compared to the same prior year period. The decrease in California sourced avocados was due to a decrease in pounds sold. California sourced avocados sales reflect a decrease in 25.1 million pounds of avocados sold, or 36.6%, when compared to the same prior year period. We attribute most of this decrease in volume to the cyclically smaller California avocado crop for fiscal 2014. Partially offsetting this decrease, however, was the increase in the sales price per carton, which increased by approximately 29.5%. We attribute this increase primarily to a lower overall volume of avocados in the marketplace and an overall increase in the demand of quality avocados.

Sales of tomatoes decreased to \$0.6 million for the third quarter of fiscal 2014, compared to \$3.3 million for the same period for fiscal 2013. The decrease in sales for tomatoes is due to a decrease in cartons sold to 0.1 million cartons from 0.3 million cartons. In addition to this decrease is a decrease in the sales price per carton, which decreased approximately 72.1%.

Nine Months Ended 2014 vs. Nine Months Ended 2013

Net sales delivered by the Fresh products business increased by approximately \$30.3 million, or 9.4%, for the nine months ended July 31, 2014, when compared to the same period for fiscal 2013. As discussed above, this increase in Fresh product sales during the nine months ended July 31, 2014, was primarily related to increased sales of Mexican sourced avocados, partially offset by a decrease in sales from California sourced avocados. See details below.

Sales of Mexican sourced avocados increased \$57.2 million, or 31.1%, for the nine months ended July 31, 2014, when compared to the same prior year period. The increase in Mexican sourced avocados was primarily due to an increase in the sales price per carton, which increased by approximately 26.0%. We attribute this increase primarily to a lower overall volume of avocados in the marketplace and an overall increase in the demand of quality avocados. In addition, there was an increase in the pounds sold, which increased by approximately 7.5 million pounds of avocados sold, or 4.1%, when compared to the same prior year period.

Sales of Chilean sourced avocados increased \$2.5 million for the nine months ended July 31, 2014, when compared to the same prior year period. The increase in Chilean sourced avocados was due to an increase in pounds sold. Chilean sourced avocados sales reflect an increased in 2.3 million pounds of avocados sold, when compared to the same prior year period. This increase in sales is due to the lower availability of other avocado sources, and an increased focus on obtaining an increased supply of avocados from more diversified sources.

Partially offsetting such increases was a decrease in sales of California sourced avocados, which decreased \$26.3 million, or 25.9% for the nine months ended July 31, 2014, when compared to the same prior year period. The decrease in California sourced avocados was due to a decrease in pounds sold. California sourced avocados sales

Table of Contents

reflect a decrease in 41.0 million pounds of avocados sold, or 42.3%, when compared to the same prior year period. We attribute most of this decrease in volume to the cyclically smaller California avocado crop for fiscal 2014. Partially offsetting this decrease, however, was the increase in the sales price per carton, which increased by approximately 28.4%. We attribute this increase primarily to a lower overall volume of avocados in the marketplace and an overall increase in the demand for avocados.

Sales of tomatoes decreased to \$19.7 million for the nine months ended July 31, 2014, compared to \$22.7 million for the same period for fiscal 2013. The decrease in sales for tomatoes is due to a decrease in cartons sold to 1.9 million cartons from 2.6 million cartons. Partially offsetting this decrease is an increase in the sales price per carton, which increased approximately 19.3%. We attribute this increase in the per carton selling price primarily to the 2013 [tomato] suspension agreement, which increased the floor sales price of Mexican tomatoes sold in the U.S. marketplace. We do not anticipate any tomato sales during our 4th fiscal quarter.

We anticipate that net sales related to Mexican sourced avocados will increase during our fourth fiscal quarter of 2014, as compared to the third fiscal quarter of 2014. We anticipate that sales of Mexican grown avocados will increase in the fourth quarter of fiscal 2014, when compared to the same prior year period, due to higher overall volume.

We anticipate that California avocado sales will experience a seasonal and cyclical decrease during our fourth fiscal quarter of 2014, as compared to the third quarter of fiscal 2014. We believe that there will be a decrease in California avocado volume when compared to the fourth fiscal quarter of 2013.

Calavo Foods

Third Quarter 2014 vs. Third Quarter 2013

Sales for Calavo Foods for the quarter ended July 31, 2014, when compared to the same period for fiscal 2013, increased \$2.6 million, or 17.5%. This increase is due to an increase in sales of prepared guacamole products which increased approximately \$2.7 million, or 19.5%, in the third quarter of fiscal year 2014, when compared to the same prior year period. The increase in sales of prepared guacamole was primarily related to an increase in overall pounds sold, which increased 1.3 million pounds, or 21.1%.

Nine Months Ended 2014 vs. Nine Months Ended 2013

Sales for Calavo Foods for the nine months ended July 31, 2014, when compared to the same period for fiscal 2013, increased \$6.4 million, or 16.5%. This increase is due to an increase in sales of prepared guacamole products which increased approximately \$6.8 million, or 18.5%, for the nine months ended July 31, 2014, when compared to the same prior year period. The increase in sales of prepared guacamole was primarily related to an increase in overall pounds sold, which increased 3.9 million pounds, or 24.5%, partially offset by a decrease in the average net selling price per pound for both our frozen guacamole products and our refrigerated guacamole products of approximately 2.6%, primarily due to a change in the product mix.

RFG

Third Quarter 2014 vs. Third Quarter 2013

Sales for RFG for the quarter ended July 31, 2014, when compared to the same period for fiscal 2013, increased \$17.0 million, or 31.1%. This increase is due primarily to increased sales from cut fruit and vegetable platters, as well as an

increase in sales of deli products. The overall increase in sales is primarily due to an increase in sales volume. Collectively, cut fruit, cut vegetable, and deli product sales increased 4.9 million units, or 23.8%. We believe the overall increase in sales volume is primarily due to an increase in demand for the variety of innovative products that we offer.

Table of Contents

Nine Months Ended 2014 vs. Nine Months Ended 2013

Sales for RFG for the nine months ended July 31, 2014, when compared to the same period for fiscal 2013, increased \$44.3 million, or 31.9%. This increase is due primarily to increased sales from cut fruit and vegetable platters, as well as an increase in sales of deli products. The overall increase in sales is primarily due to an increase in sales volume. Collectively, cut fruit, cut vegetable, and deli product sales increased 15.2 million units, or 29.0%. We believe the overall increase in sales volume is primarily due to an increase in demand for the variety of innovative products that we offer.

Gross Margins

The following table summarizes our gross margins and gross profit percentages by business segment for each of the three and nine-month periods ended July 31, 2014 and 2013:

(in thousands)	Three months ended July 31,			Nine months ended July 31,		
	2014	Change	2013	2014	Change	2013
Gross margins:						
Fresh products	\$ 9,514	2.6%	\$ 9,271	\$ 25,405	26.4%	\$ 20,106
Calavo Foods	3,840	(18.0)%	4,683	10,255	(15.1)%	12,074
RFG	7,591	84.1%	4,124	17,952	70.0%	10,558
Total gross margins	\$ 20,945	15.9%	\$ 18,078	\$ 53,612	25.4%	\$ 42,738
Gross profit percentages:						
Fresh products	7.3%		7.4%	7.2%		6.2%
Calavo Foods	22.5%		32.2%	22.8%		31.2%
RFG	10.6%		7.5%	9.8%		7.6%
Consolidated	9.6%		9.3%	9.2%		8.5%

Summary

Our cost of goods sold consists predominantly of fruit costs, packing materials, freight and handling, labor and overhead (including depreciation) associated with preparing food products and other direct expenses pertaining to products sold. Gross margins increased by approximately \$2.9 million, or 15.9%, for the third quarter of fiscal 2014, when compared to the same period for fiscal 2013. Gross margins increased by approximately \$10.9 million, or 25.4%, for the first nine months of fiscal 2014 when compared to the same period for fiscal 2013. These increases were attributable to gross margin increases in our Fresh products and RFG segments, partially offset by a decrease in our Calavo Foods segment.

Fresh products

During our three month periods of fiscal 2014, as compared to the same prior year periods, the decrease in our Fresh products segment gross margin percentage was primarily the result of a decrease in the gross margin percentage for California sourced avocados for the three month periods of fiscal 2014, as compared to the same prior year periods. This decrease is due to the smaller California avocado crop in fiscal 2014, which increases per pound operating costs and decreases the overall gross margin. Partially offsetting this decrease, Mexican sourced avocados gross margin

percentage increased from 2.1% in prior year to 5.7% in the current year. In the current year, we were able to manage the spread between the sales price and the fruit cost of Mexican sourced avocados more effectively, as average sales prices increased 16.0%, while average costs of goods sold increased 15.0% from the second quarter of fiscal 2014 to the third quarter of fiscal 2014. In the prior year, average sales prices increased 17.8%, while average costs of goods sold increased 19.5% from the second quarter of fiscal 2013 to the third quarter of fiscal 2013.

During our nine months ended July 31, 2014, as compared to the same prior year periods, the increase in our Fresh products segment gross margin percentage was primarily the result of significantly higher Mexican sourced

Table of Contents

avocado fruit costs in the prior year that uncharacteristically increased at a pace faster than anticipated in the latter part of March 2013 and remained higher than expected through April 2013. In the prior year, the average sales price of Mexican sourced avocados increased 3.2%, yet average fruit costs increased 31.8% from the first quarter of fiscal 2013 to the second quarter of fiscal 2013. In the current year, we were able to manage the spread between the sales price and the fruit cost of Mexican sourced avocados more effectively, as average sales prices increased 16.8%, while average fruit costs increased 18.4% from the first quarter of fiscal 2014 to the second quarter of fiscal 2014.

Calavo Foods

The Calavo Foods segment gross margin percentage during our three and nine months ended July 31, 2014, when compared to the same prior year periods, decreased primarily due to an increase in fruit costs. Fruit costs increased during our three and nine months ended July 31, 2014, by approximately 16.1% and 20.7%. In addition, gross margins decreased due to an increase in sales of frozen, high volume but low margin customers. Partially offsetting these decreases to the gross margin percentage was the strengthening of the U.S. Dollar compared to the Mexican Peso, which decreased many of our per pound costs. We anticipate that the gross margin percentage for our Calavo Foods segment will continue to experience significant fluctuations during this fiscal year primarily due to the uncertainty of the cost of fruit that will be used in the production process. In addition, any significant fluctuation in the exchange rate between the U.S. Dollar and the Mexican Peso may have a material impact on future gross margins for our Fresh products and Calavo Foods segments.

RFG

RFG's improved gross-margin is reflective of certain economies of scale resulting from significant sales growth (see discussion above), improved labor utilization and improved raw-material quality and yield. Benefits from superior fruit quality/yield extend beyond just lower fruit costs, but also reduce other costs, including the labor needed to process such fruit.

Selling, General and Administrative

(in thousands)	Three months ended			Nine months ended July 31,		
	2014	July 31, Change	2013	2014	Change	2013
Selling, general and administrative	\$ 9,431	8.3%	\$ 8,706	\$ 26,814	4.3%	\$ 25,717
Percentage of net sales	4.3%		4.5%	4.6%		5.1%

Selling, general and administrative expenses include costs of marketing and advertising, sales expenses and other general and administrative costs. Selling, general and administrative expenses increased \$0.7 million, or 8.3%, for the three months ended July 31, 2014, when compared to the same period for fiscal 2013. This increase was primarily related to higher corporate costs, including, but not limited to, general and administrative costs related to accrued management bonuses (approximately \$1.3 million), salaries (approximately \$0.4 million), and stock option expense (approximately \$0.1 million), partially offset by decreases in the RFG revalue adjustment of contingent consideration (approximately \$0.4 million) and the start-up operations of FreshRealm (approximately \$0.7 million).

Selling, general and administrative expenses increased \$1.1 million, or 4.3%, for the nine months ended July 31, 2014, when compared to the same period for fiscal 2013. This increase was primarily related to higher corporate costs, including, but not limited to, general and administrative costs related to accrued management bonuses (approximately

\$2.1 million), salaries (approximately \$0.6 million), stock option expense (approximately \$0.2 million) accounting fees (approximately \$0.2 million), bad debt expense (approximately \$0.1 million) and employee benefits (approximately \$0.1 million), partially offset by a decrease in the RFG revalue adjustment of contingent consideration (approximately \$1.7 million), the start-up operations of FreshRealm (approximately \$0.4 million), and promotions and advertising (approximately \$0.1 million).

Table of Contents**Provision for Income Taxes**

(in thousands)	Three months ended July 31,			Nine months ended July 31,		
	2014	Change	2013	2014	Change	2013
Provision for income taxes	\$ 8,064	154.9%	\$ 3,163	\$ 13,318	131.9%	\$ 5,742
Percentage of income before provision for income taxes	33.5%		34.1%	34.0%		34.3%

For the third quarter of fiscal 2014, our provision for income taxes was \$8.1 million, as compared to \$3.2 million recorded for the comparable prior year period.

For the first nine months of fiscal 2014, our provision for income taxes was \$13.3 million, as compared to \$5.7 million recorded for the comparable prior year period. We expect our effective tax rate to approximate 34.9% during fiscal 2014.

Liquidity and Capital Resources

Cash provided by operating activities was \$27.5 million for the nine months ended July 31, 2014, compared to \$15.6 million provided operations for the similar period in fiscal 2013. Operating cash flows for the nine months ended July 31, 2014 reflect our net income of \$25.9 million, net decrease in non-cash activities (depreciation and amortization, stock compensation expense, interest on deferred consideration, gain on deconsolidation of FreshRealm and income from unconsolidated entities) of \$6.9 million and a net increase in the noncash components of our operating capital of approximately \$8.5 million.

Our operating capital increase includes a net increase in trade accounts payable and accrued expenses of \$9.8 million, an increase in payable to growers of \$7.3 million, an increase in income taxes payable of \$3.7 million, a decrease in income tax receivable of \$2.2 million, a decrease in advances to suppliers of \$1.8 million, and a decrease in other assets of \$0.1 million, partially offset by an increase in prepaid expenses and other current assets of \$3.3 million, an increase in inventory of \$4.3 million, and a net increase in accounts receivable of \$8.8 million.

The increase in payable to growers primarily reflects an increase in California fruit delivered in the month of July 2014, as compared to October 2013. The decrease in advances to suppliers primarily reflects fewer advances made to Agricola Belher related to the receipt of tomatoes in July 2014, compared to October 2013. The increase in inventory is primarily related to an increase in the fresh fruit on hand at July 31, 2014. This was primarily driven by an increase in the volume of California avocados purchased during our third fiscal quarter of 2014, as compared to October 2013. The increase in our accounts receivable, as of July 31, 2014, when compared to October 31, 2013, primarily reflects higher sales recorded in the month of July 2014, as compared to October 2013.

Cash used in investing activities was \$15.8 million for the nine months ended July 31, 2014, which related to the purchase of property, plant and equipment items of \$7.1 million, the deconsolidation of FreshRealm, net of cash \$6.8 million, an investment of \$1.7 million to the new joint venture which is expected to operate under the name of Agricola Don Memo, and an investment in an unconsolidated entity of \$0.2 million.

Cash used in financing activities was \$10.3 million for the nine months ended July 31, 2014, which related principally to the payment of our \$11.0 million dividend, payments on our credit facilities totaling \$5.2 million and payments on long-term obligations of \$4.2 million, partially offset by proceeds received for the issuance of FreshRealm stock of

\$10.0 million (see Note 10 in the consolidated financial statements for more information) and exercises of stock options of \$0.1 million.

Our principal sources of liquidity are our existing cash balances, cash generated from operations and amounts available for borrowing under our existing credit facilities. Cash and cash equivalents as of July 31, 2014 and October 31, 2013 totaled \$9.4 million and \$8.0 million. Our working capital at July 31, 2014 was \$22.7 million, compared to \$12.4 million at October 31, 2013.

Table of Contents

We believe that cash flows from operations and available credit facilities will be sufficient to satisfy our future capital expenditures, grower recruitment efforts, working capital and other financing requirements. We will continue to evaluate grower recruitment opportunities and exclusivity arrangements with food service companies to fuel growth in each of our business segments. Our non-collateralized, revolving credit facilities with Farm Credit West, PCA and Bank of America, N.A. expire in February 2016. Under the terms of these agreements, we are advanced funds for both working capital and long-term productive asset purchases. Total credit available under these combined borrowing agreements was \$65 million, with a weighted-average interest rate of 1.7% at July 31, 2014 and October 31, 2013. Under these credit facilities, we had \$28.7 million and \$34.0 million outstanding as July 31, 2014 and October 31, 2013. These credit facilities contain various financial covenants, the most significant relating to Tangible Net Worth (as defined), Current Ratio (as defined), and Fixed Charge Coverage Ratio (as defined). We were in compliance with all such covenants at July 31, 2014.

Contractual Obligations

There have been no material changes to our contractual commitments from those previously disclosed in our Annual Report on Form 10-K for our fiscal year ended October 31, 2013. For a summary of the contractual commitments at October 31, 2013, see Part II, Item 7, in our 2013 Annual Report on Form 10-K.

Impact of Recently Issued Accounting Pronouncements

See Note 1 to the consolidated condensed financial statements that are included in this Quarterly Report on Form 10-Q.

Table of Contents**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Our financial instruments include cash and cash equivalents, accounts receivable, payable to growers, accounts payable, current and long-term borrowings pursuant to our credit facilities with financial institutions, and long-term, fixed-rate obligations. All of our financial instruments are entered into during the normal course of operations and have not been acquired for trading purposes. The table below summarizes interest rate sensitive financial instruments and presents principal cash flows in U.S. dollars, which is our reporting currency, and weighted-average interest rates by expected maturity dates, as of July 31, 2014.

(All amounts in thousands)	Expected maturity date July 31,						Total	Fair Value
	2014	2015	2016	2017	2018	Thereafter		
Assets								
Cash and cash equivalents (1)	\$ 9,436	\$	\$	\$	\$	\$	\$ 9,436	\$ 9,436
Accounts receivable (1)	63,731						63,731	63,731
Advances to suppliers (1)	1,385						1,385	1,385
Liabilities								
Payable to growers (1)	\$ 20,920	\$	\$	\$	\$	\$	\$ 20,920	\$ 20,920
Accounts payable (1)	16,061						16,061	16,061
Current borrowings pursuant to credit facilities (1)	28,740						28,740	28,740
Fixed-rate long-term obligations (2)	5,231	3,047	112	92	92	286	8,860	8,965

- (1) We believe the carrying amounts of cash and cash equivalents, accounts receivable, advances to suppliers, payable to growers, accounts payable, and current borrowings pursuant to credit facilities approximate their fair value due to the short maturity of these financial instruments.
- (2) Fixed-rate long-term obligations bear interest rates ranging from 1.7% to 5.7% with a weighted-average interest rate of 2.8%. We believe that loans with a similar risk profile would currently yield a return of 2.5%. We project the impact of an increase or decrease in interest rates of 100 basis points would result in a change of fair value of approximately \$136,000.

Except as disclosed with the acquisition of Calavo Salsa Lisa and RFG (and related amendments), we were not a party to any derivative instruments during the fiscal year. It is currently our intent not to use derivative instruments for speculative or trading purposes. Additionally, we do not use any hedging or forward contracts to offset market volatility.

Our Mexican-based operations transact business in Mexican pesos. Funds are transferred by our corporate office to Mexico on a weekly basis to satisfy domestic cash needs. Historically, the consistency of the spot rate for the Mexican peso has led to a small-to-moderate impact on our operating results. We do not anticipate using derivative instruments to hedge fluctuations in the Mexican peso to U.S. dollar exchange rates during fiscal 2014. Total foreign currency losses for the three months ended July 31, 2014, net of gains, was less than \$0.1 million. Total foreign currency losses for the three months ended July 31, 2013, net of gains, was \$0.1 million. Total foreign currency losses for the nine months ended July 31, 2014 and 2013, net of gains, was \$0.1 million and \$0.4 million.

ITEM 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act), as of the end of the period covered by this report. Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective.

There were no changes in the Company's internal control over financial reporting during the quarter ended July 31, 2014 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

See Item 2 of Part I with respect to the resolution of the Hacienda Suits, which is incorporated by reference, into this Item 1.

We are involved in litigation in the ordinary course of business, none of which we believe will have a material adverse impact on our financial position or results of operations.

ITEM 1A. RISK FACTORS

For a discussion of our risk factors, see Part 1, item 1A Risk Factors of our Annual Report on Form 10-K for the year ended October 31, 2013. There have been no material changes from the risk factors set forth in such Annual Report on Form 10-K. However, the risks and uncertainties that we face are not limited to those set forth in the 2013 Form 10-K. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also adversely affect our business and the trading price of our common stock.
