All payments of principal and interest and other amounts payable in respect of the Notes by us will be made without us making any withholding of or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature (Taxes), unless the withholding or deduction of such Taxes is required or authorized by law or the administration thereof. In that event, we will, subject to certain exceptions and limitations set forth below, pay such additional amounts (Additional Amounts) to the holder or beneficial owner of any Note as may be necessary in order that every net payment of the principal of and interest on such Note and any other amounts payable on such Note, after any withholding or deduction for Taxes imposed or levied by or on behalf of Canada or any political subdivision or taxing authority thereof or therein having the power to tax (each a Taxing Jurisdiction) (and Taxes imposed or levied by a Taxing Jurisdiction on such Additional Amounts), will not be less than the amount such holder or beneficial owner would have received if such Taxes imposed or levied by or on behalf of a Taxing Jurisdiction had not been withheld or deducted. We will not, however, be required to make any payment of Additional Amounts to any holder or beneficial owner for or on account of:

any Taxes that would not have been so imposed but for a present or former connection (including, without limitation, carrying on business in a Taxing Jurisdiction or having a permanent establishment or fixed base in a Taxing Jurisdiction) between such holder or beneficial owner of a Note (or between a fiduciary, settlor, beneficiary, member or shareholder of, or possessor of power over, such holder or beneficial owner, if such holder or beneficial owner is an estate, trust, partnership, limited liability company or corporation) and a Taxing Jurisdiction, other than merely holding such Note or receiving payments with respect to such Note;

any estate, inheritance, gift, sales, transfer or personal property Tax or any similar Tax with respect to a Note;

any Tax imposed by reason that such holder or beneficial owner of a Note or other person entitled to payment under the Note does not deal at arm's length within the meaning of the *Income Tax Act* (Canada) with us or is, or does not deal at arm's length with any person who is, a specified shareholder of us for purposes of the thin capitalization rules in the *Income Tax Act* (Canada);

any Tax that is levied or collected otherwise than by withholding from payments on or in respect of a Note;

any Tax required to be withheld by any paying agent from any payment on a Note, if such payment can be made without such withholding by at least one other paying agent;

any Tax that would not have been imposed but for the failure of a holder or beneficial owner of a Note to comply with certification, identification, declaration, information or other reporting requirements, if such compliance is required by a Taxing Jurisdiction (including where required by statute, treaty, regulation or administrative pronouncement) as a precondition to relief or exemption from such Tax;

any Tax which would not have been imposed but for the presentation of a Note (where presentation is required) for payment on a date more than 30 days after (i) the date on which such payment became due and payable or (ii) the date on which payment thereof is duly provided for, whichever occurs later;

any withholding or deduction imposed pursuant to (i) Sections 1471 to 1474 of the U.S. Internal Revenue Code of 1986, as amended (FATCA), or any successor version thereof, or any similar legislation imposed by any other governmental authority, (ii) any treaty, law, regulation or other official guidance enacted by Canada implementing FATCA or an intergovernmental agreement with respect to FATCA or any similar legislation imposed by any other governmental authority, or (iii) any agreement between us and the United States or any authority thereof implementing FATCA; or

any combination of the items listed above;

nor shall Additional Amounts be paid with respect to any payment on a Note to a holder who is a fiduciary or partnership or any person other than the sole beneficial owner of such payment to the extent a beneficiary or settlor with respect to such fiduciary, a member of such partnership or such beneficial owner would not have been entitled to the Additional Amounts had such beneficiary, settlor, member or beneficial owner held its interest in the Note directly.

Redemption for Tax Reasons

We may redeem the Notes, in whole but not in part, at our option at any time prior to maturity, upon the giving of a notice of redemption as described below, if:

(i) as a result of any change (including any announced prospective change) in or amendment to the laws or treaties (or any rules, regulations, rulings or administrative pronouncements thereunder) of Canada or of any political subdivision or taxing authority thereof or therein affecting taxation, or any change in official position regarding the application or interpretation of such laws, treaties, rules, regulations, rulings or administrative pronouncements (including a holding by a court of competent jurisdiction), which change or amendment is announced or becomes effective on or after the date of this pricing supplement, in the written opinion of our legal counsel of recognized standing, we have or will become obligated to pay, on the next succeeding date on which interest is due, Additional Amounts (assuming, in the case of any announced prospective change, that such announced change will become effective as of the date specified in such announcement and in the form announced); or

(ii) on or after the date of this pricing supplement any action has been taken by any taxing authority of, or any decision has been rendered by a court of competent jurisdiction in, Canada or any political subdivision or taxing authority thereof or therein, including any of those actions specified in the paragraph immediately above, whether or not such action was taken or decision was rendered with respect to us, or any change, amendment, application or interpretation shall be officially proposed, which, in any such case, in the written opinion of our legal counsel of recognized standing, will result in our becoming obligated to pay, on the next succeeding date on which interest is due, Additional Amounts (assuming, in the case of any announced prospective change, that such announced change will become effective as of the date specified in such announcement and in the form announced);

and, in any such case, we in our business judgment, determine that such obligation cannot be avoided by the use of reasonable measures available to us. For the avoidance of doubt, reasonable measures do not include a change in the terms of the Notes or a substitution of the debtor.

Prior to the giving of any notice of redemption pursuant to the above paragraph, we will deliver to the trustee:

a certificate stating that we are entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to our right to so redeem have occurred; and

an opinion of counsel prepared in accordance with the terms of the indenture.

Any Notes redeemed for tax reasons will be redeemed at 100% of their principal amount together with interest accrued up to, but excluding, the redemption date. Notice of redemption will be given not less than 30 nor more than 60 days prior to the date fixed for redemption, which date and the applicable redemption price will be specified in the notice.

RISK FACTORS

An investment in your notes is subject to the risks described below, as well as the risks described under Risk Factors in the accompanying prospectus. You should carefully consider whether the notes are suited to your particular circumstances. This prospectus supplement should be read together with the prospectus and the applicable pricing supplement. The information in the prospectus is supplemented by, and to the extent inconsistent therewith replaced and superseded by, the information in this prospectus supplement and the applicable pricing supplement. This section describes the most significant risks relating to the terms of the notes. We urge you to read the following information about these risks, together with the other information in this prospectus supplement and the prospectus and the applicable pricing supplement, before investing in the notes.

Risks Relating to the Notes in General

An Investment in the Notes Is Subject to Our Credit Risk, and Changes in Our Credit Ratings Are Expected to Affect the Market Value of the Notes.

An investment in any of the notes issued under our medium-term note program, which are TD's senior unsecured debt securities, is subject to our credit risk. As a result, your receipt of each interest payment, if any, and the amount due on the maturity date is dependent upon TD's ability to repay its obligations as of each payment date. The existence of a trading market for, and the market value of, any of the notes may be impacted by market perception of our creditworthiness. If market perception of our creditworthiness were to decline for any reason, the market value of your notes, and availability of the trading markets generally, may be adversely affected. No assurance can be given as to what our financial condition will be at any time during the term of the notes, or at maturity.

The Interest Rate of Certain Types of Notes Is Not Certain for One or More Interest Periods, and May Be Zero or Very Low.

Except for any interest periods in which your notes will bear interest at a fixed rate, the interest rate for one or more interest periods during the term of the notes will not be known on the pricing date of your notes. Depending on the terms set forth in the applicable pricing supplement, it is possible that the applicable interest rate for one or more interest periods may be 0%, or if the rate is above 0%, it may be substantially less than the rate of interest that we would pay on conventional debt securities with a comparable term. You should carefully read the terms of the notes that will be set forth in the applicable pricing supplement and the information in this prospectus supplement in order to determine the extent to which the interest rate on your notes during any period may be so limited.

Even if your yield on the notes is positive, and even if your notes have a specified fixed rate of interest for one or more interest periods, your total yield may be less than the yield you would earn if you bought a standard senior non-callable debt security of TD with the same maturity date. The return on your investment may not compensate you for the opportunity cost when you take into account factors, such as inflation, that affect the time value of money.

Depending on the terms of your notes, you should, therefore, be prepared to realize no return at maturity over the principal amount of your notes.

Your Notes May Be Subject to Early Redemption.

Depending upon the terms of your notes, we may have the right to redeem them, or the notes may be automatically redeemable under some circumstances. If we have the right to redeem them, we will be more likely to do so as the rate of interest payable on your notes increases. If we redeem your notes, depending on the market conditions at the time

of redemption, you may not be able to reinvest the redemption proceeds in a security with a comparable return.

Table of Contents

There May Not Be an Active Trading Market for the Notes Sales in the Secondary Market May Result in Significant Losses.

There may be little or no secondary market for the notes. The notes will not be listed on any securities exchange. TD Securities (USA) LLC and other affiliates of TD may make a market for the notes; however, they are not required to do so. TD Securities (USA) LLC or any other affiliate of TD may stop any market-making activities at any time. Even if a secondary market for the notes develops, it may not provide significant liquidity or trade at prices advantageous to you. We expect that transaction costs in any secondary market would be high. As a result, the difference between bid and asked prices for your notes in any secondary market could be substantial.

If you sell your notes before maturity, you may have to do so at a substantial discount from the issue price, and as a result, you may suffer substantial losses.

The Market Value of Your Notes May Be Influenced by Many Unpredictable Factors.

The following factors, which are beyond our control, may influence the market value of your notes:

Changes in the level of the interest rate basis. For example, if you purchase floating rate notes, an increase in the level of the interest rate basis could cause a decrease in the market value of the notes. Conversely, a decrease in the level of the interest rate basis for any of the notes could cause an increase in the market value of the notes. However, if the level of the interest rate basis decreases and remains low, the likelihood of the notes being redeemed (if the notes are redeemable) would increase. In all cases, the level of the interest rate basis itself will be influenced by complex and interrelated political, economic, financial and other factors that can affect the money markets generally and the London interbank market or other applicable market in particular.

Changes in U.S. interest rates. In general, if U.S. interest rates increase, the market value of the notes may decrease, and if U.S. interest rates decrease, the market value of the notes may increase.

Volatility of the interest rate basis. Depending on the terms of your notes, if the size and frequency of fluctuations of the interest rate basis changes, the market value of the notes may decrease.

These factors may influence the market value of your notes if you sell your notes before maturity. Our creditworthiness, as represented by our credit ratings or as otherwise perceived in the market will also affect the market value of your notes. If you sell your notes prior to maturity, you may receive less than the principal amount of your notes.

For Certain Types of Notes, the Interest Rate Payable During the Initial Interest Period May Not Be Indicative of the Interest Rate Payable During Subsequent Interest Periods.

The interest rate of certain notes that we may offer with this prospectus supplement, may be based on a different rate during the initial interest period than in subsequent interest periods. In particular, during the interest period(s) where a fixed rate of interest (or other financial measure) applies, this fixed rate of interest (or other financial measure) may be higher than the floating rate of interest (or other financial measure) that will be applicable during subsequent interest period(s). As noted above, the interest rate during the interest period where a floating rate of interest is applicable is

uncertain and could be as little as 0.0%.

The Interest Rate on the Notes Will Be Limited if the Notes have a Maximum Interest Rate.

If the applicable pricing supplement specifies that your notes have a maximum interest rate, the interest rate payable on your notes during any period will be limited to the maximum rate specified in the applicable pricing supplement. Therefore, the return you receive during any interest period may be less than what you would have received had you invested in a security that was not subject to a maximum interest rate.

Trading Activities by TD or its Affiliates May Adversely Affect the Market Value of the Notes.

We or one or more affiliates may hedge our obligations under the notes by purchasing securities, futures, options or other derivative instruments with returns linked or related to changes in the level of the interest rate basis, and we may adjust these hedges by, among other things, purchasing or selling securities, futures, options or other derivative instruments at any time. It is possible that we or one or more of our affilia
