**Additional Information and Where You Can Find It**

NetScout's Registration Statement on Form S-4, Proxy Statement and other documents concerning the proposed acquisition of Danaher's Communications business have been filed with the Securities and Exchange Commission (the SEC). Investors are urged to read the S-4 Registration Statement and Proxy Statement, along with other relevant documents filed with the SEC as well any amendments or supplements to those documents because they will contain important information. Security holders may obtain a free copy of the Registration Statement and Proxy Statement (when it is available) and other documents filed by NetScout with the SEC at the SEC's website at [www.sec.gov](http://www.sec.gov). The Registration Statement and Proxy Statement, along with other documents, may also be obtained for free by contacting Andrew Kramer, Vice President of Investor Relations, by telephone at 978-614-4000, by email at [ir@netscout.com](mailto:ir@netscout.com), or by mail at Investor Relations, NetScout Systems, Inc., 310 Littleton Road, Westford, MA 01886. This communication is not a solicitation of a proxy from any security holder of NetScout. However, NetScout, Danaher and certain of their respective directors and executive officers may be deemed to be participants in the solicitation of proxies from NetScout's stockholders in connection with the proposed transaction. Information about NetScout's directors and executive officers and their beneficial ownership of NetScout's common stock may be found in its preliminary proxy statement filed with the SEC on January 9, 2015 as amended. This document can be obtained free of charge from the SEC website at [www.sec.gov](http://www.sec.gov).

Safe Harbor & Non-GAAP Financial Metrics

Forward-looking statements in this communication are made pursuant to the safe harbor provisions of the Securities Exchange Act of 1934 and other federal securities laws. Investors are cautioned that statements in this presentation are based on historical statements, including without limitation, the statements related to the timing associated with completing the merger with the communication business and the financial guidance for NetScout's fourth fiscal quarter and other financial guidance, constitute forward-looking statements which involve risks and uncertainties. Actual results could differ materially from the forward-looking statements due to a number of risk, uncertainties, assumptions and other factors. Such factors include slowdowns or downturns in economic conditions generally; changes in advanced network and service assurance solutions specifically, the Company's relationships with strategic partners, dependence on the acceptance of the Company's network performance management solutions, the presence of competitors with greater financial resources and their strategic response to our products, our ability to retain key executives and employees, the failure to obtain, delays in obtaining regulatory approvals related to obtaining shareholder or regulatory approvals; the anticipated tax treatment of the transaction and related transaction costs; unanticipated or unforeseen changes to or the effects on liabilities, future capital expenditures, revenue, expenses, synergies, indebtedness, financial results and future prospects; failure to consummate or delay in consummating the transaction for other reasons; and the ability of NetScout to integrate the merged assets and the associated technology and achieve operational efficiencies. For a more detailed description of the risks associated with the Company, please refer to the Company's Registration Statement on Form S-4, Annual Report on Form 10-K for the year ended March 31, 2014 and Quarterly Reports on Form 10-Q for the quarters ended June 30, 2014, September 30, 2014 and December 31, 2014, all of which are on file with the Securities and Exchange Commission. NetScout assumes no obligation to update any forward-looking information contained in this communication or with respect to the announcements described herein.

This presentation makes reference to certain non-GAAP measures such as non-GAAP revenue and non-GAAP earnings per share. These non-GAAP measures are not in accordance with GAAP, should not be considered an alternative for measures calculated in accordance with GAAP (revenue, net income and diluted net income per share), and may have limitations in that they do not reflect all of the Company's operations as determined in accordance with GAAP. These non-GAAP measures should only be used to evaluate NetScout's performance in conjunction with the corresponding GAAP measures. The presentation of non-GAAP information is not meant to be considered a substitute for or as a substitute for results prepared in accordance with GAAP. NetScout believes these non-GAAP financial measures provide a better overall understanding of NetScout's current financial performance and NetScout's prospects for the future by providing a higher level of disclosure for certain financial measures and providing a level of disclosure that helps investors understand how the Company plans and manages its business. NetScout believes that providing these non-GAAP measures affords investors a view of NetScout's operating results compared to peer companies and also enables investors to consider NetScout's operating results on both a GAAP and non-GAAP basis following the integration period of NetScout's acquisitions. Presenting the GAAP measures on their own would not be indicative of the Company's operating results. Furthermore, NetScout believes that the presentation of non-GAAP measures when shown in conjunction with GAAP measures provide useful information to management and investors regarding present and future business trends relating to the Company's operations and results of operations. NetScout management regularly uses supplemental non-GAAP financial measures internally to understand and evaluate its business and to make operating decisions. These non-GAAP measures are among the primary factors that management uses in its analysis and forecasting. The reconciliation of these non-GAAP metrics to the comparable GAAP metrics are set forth in the accompanying financial statements in this presentation and are available on our website at

Confidential Business Information

Announced on October 13, 2014

NetScout to acquire most of Danaher's Communications  
business\*

Structured as Reverse Morris Trust

DHR shareholders will receive an aggregate of 62.5 million

NetScout

shares,

valued

at

approximately

\$2.3

billion

1

DHR Shareholders will own approximately 59.5% of NetScout,  
NTCT shareholders will own approximately 40.5% on a fully  
diluted basis

NetScout senior management team to lead combined company;  
NetScout board of directors to expand with the addition of DHR  
EVP Jim Lico

Expected to close during the first half of NetScout's FY16,  
subject to approval by NetScout shareholders, regulatory  
approvals and other conditions

\*

Includes

TekComms,

Arbor

Networks,

VSS

Monitoring

and

Enterprise

Network

Solutions

( ENS ) of FNET, excludes Data Communications Installer ( DCI ) and Communications  
Service Providers ( CSP ) portfolios of FNET

Based on NTCT closing stock price of \$36.55 on 2/3/15

Transaction Structure

DHR

Shareholders

NetScout

Shareholders

NetScout

DHR

~59.5% owned

by DHR stockholders and

~40.5% owned by current

NTCT stockholders

Danaher to spin-off or split-off (to be determined at later date) its

Communications business to DHR Shareholders

The separation is immediately followed by a merger with NetScout

Stronger Go-to-Market Capabilities

Furthering our strategic capabilities to our customers

More global and

diverse

Broader customer footprint

outside of North America with

both service provider and

enterprise customers

International revenue will

increase from 25% of total

revenue to ~1/3 of total revenue

Extensive European and Asia-

Pacific operations for sales,

R&D and support

Strong relationships with Tier

One service providers in North

America, Europe and AP

1000s of enterprise customers

Broader sales and

channel presence

worldwide

Extensive direct sales presence

worldwide

Augmented direct presence with

very strong reseller channels

outside of the United States

Top VARs with the technical

knowledge and resources to

drive adoption in key

international markets like

Germany, Australia, and Japan

More customers

worldwide and more

touch points within

the customer

Loyal customer bases in both

the service provider and

enterprise markets

Excellent opportunities to

accelerate Arbor's expansion

into the enterprise market

Compelling cross-selling

opportunities within the

combined NetScout-Fluke base  
of enterprise customers  
Increased customer mindshare

Mid-cap technology leader positioned for solid double-digit revenue growth on a much larger, \$1B+ annual revenue base

We expect substantial operating leverage and strong free cash flow growth as we return non-GAAP gross margin to prior levels in the high-70% range, drive additional synergies across a range of functional areas and invest prudently across a scalable infrastructure

Potential to support incremental EPS gains as we currently evaluate strategies to drive tax efficiencies and capital deployment
