Dealing Disclosure Requirements

Under the provisions of Rule 8.3 of the Irish Takeover Panel Act, 1997, Takeover Rules 2013 (the Irish Takeover Rules), if any person is, or becomes, interested (directly or indirectly) in, 1% or more of any class of relevant securities of Perrigo Company plc (Perrigo) or Mylan, all dealings in any relevant securities of Perrigo or Mylan (including by means of an option in respect of, or a derivative referenced to, any such relevant securities) must be publicly disclosed by not later than 3:30 pm (New York time) on the business day following the date of the relevant transaction. This requirement will continue until the date on which the offer period ends. If two or more persons co-operate on the basis of any agreement, either express or tacit, either oral or written, to acquire an interest in relevant securities of Perrigo or Mylan, they will be deemed to be a single person for the purpose of Rule 8.3 of the Irish Takeover Rules.

Under the provisions of Rule 8.1 of the Irish Takeover Rules, all dealings in relevant securities of Perrigo by Mylan or relevant securities of Mylan by Perrigo, or by any party acting in concert with either of them, must also be disclosed by no later than 12 noon (New York time) on the business day following the date of the relevant transaction.

A disclosure table, giving details of the companies in whose relevant securities dealings should be disclosed, can be found on the Irish Takeover Panel's website at www.irishtakeoverpanel.ie.

Interests in securities arise, in summary, when a person has long economic exposure, whether conditional or absolute, to changes in the price of securities. In particular, a person will be treated as having an interest by virtue of the ownership or control of securities, or by virtue of any option in respect of, or derivative referenced to, securities.

Terms in quotation marks are defined in the Irish Takeover Rules, which can also be found on the Irish Takeover Panel's website. If you are in any doubt as to whether or not you are required to disclose a dealing under Rule 8, please consult the Irish Takeover Panel's website at www.irishtakeoverpanel.ie or contact the Irish Takeover Panel on telephone number +353 1 678 9020 or fax number +353 1 678 9289.

connection with the Perrigo Proposal or any matter referred to herein.

Goldman Sachs does not accept any responsibility whatsoever for the contents of this report or for any statement made or purported to be made by them or on their behalf in connection with the offer. Forward-Looking Statements

This report contains forward-looking statements. These statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements may include, without limitation, statements about the Perrigo Proposal, Mylan's acquisition (the Abbott Transaction) of Mylan Inc. and the Abbott Business, the benefits and synergies of the Perrigo Proposal or Abbott Transaction, future opportunities for Mylan, Perrigo, or the combined company and products, and any other statements regarding Mylan's, Perrigo's, or the combined company's future operations, anticipated business levels, future earnings, planned activities, anticipated growth, market opportunities, strategies, competition, and other expectations and targets for future periods.

These may often be identified by the use of words such as will, may, could, should, would, project, believe, expect, plan, estimate, forecast, potential, intend, continue, target and variations of these words or compounds. Because forward-looking statements inherently involve risks and uncertainties, actual future results may differ materially from those expressed or implied by such forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to: uncertainties related to the Perrigo Proposal, including as to the timing of the offer and compulsory acquisition, whether Perrigo will cooperate with Mylan and whether Mylan will be able to consummate the offer and compulsory acquisition, whether Mylan shareholders will provide the requisite approvals for the Perrigo Proposal, the possibility that competing offers will be made, the possibility that the conditions to the consummation of the offer will not be satisfied, and the possibility that Mylan will be unable to obtain regulatory approvals for the offer and compulsory acquisition or be required, as a condition to obtaining regulatory approvals, to accept conditions that could reduce the anticipated benefits of the offer and compulsory acquisition; the ability to meet expectations regarding the accounting and tax treatments of a transaction relating to the Perrigo Proposal and the Abbott Transaction; changes in relevant tax and other laws, including but not limited to changes in healthcare and pharmaceutical laws and regulations in the U.S. and abroad; the integration of Perrigo and the Abbott Business being more difficult, time-consuming, or costly than expected; operating costs, customer loss and business disruption (including, without limitation, difficulties in maintaining relationships with employees, customers, clients, or suppliers) being greater than expected following the Perrigo Proposal and the Abbott Transaction; the retention of certain key employees of Perrigo and the Abbott Business being difficult; the possibility that Mylan may be unable to achieve expected synergies and operating efficiencies in connection with the Perrigo Proposal and the Abbott Transaction within the expected time-frames or at all and to successfully integrate Perrigo and the Abbott Business; expected or targeted future financial and operating performance and results; challenges to our business and strategic plans posed by the recent unsolicited business proposal made by a large competitor to acquire all of our outstanding shares; the capacity to bring new products to market, including but not limited to where Mylan uses its business judgment and decides to manufacture, market, and/or sell products, directly or through third parties, notwithstanding the fact that allegations of patent infringement(s) have not been finally resolved by the courts (i.e., an at-risk launch); success of clinical trials and our ability to execute on new product opportunities; the scope, timing, and outcome of any ongoing legal proceedings and the impact of any such proceedings on financial condition, results of operations and/or cash flows; the ability to protect intellectual property and preserve intellectual property rights; the effect of any changes in customer and supplier relationships and customer purchasing patterns; the ability to attract and retain key personnel; changes in third-party relationships; the impact of competition; changes in the economic and financial conditions of the businesses of Mylan, Perrigo, or the combined company; the inherent challenges, risks, and costs in identifying, acquiring, and integrating complementary or strategic acquisitions of other companies, products or assets and in achieving anticipated synergies; uncertainties and matters beyond the control of management; and inherent uncertainties involved in the estimates and judgments used in the preparation of financial statements, and the providing of estimates of financial measures, in accordance with GAAP and related standards or on an adjusted basis.

For more detailed information on the risks and uncertainties associated with the Company's business activities, see the risks described in Mylan Inc.'s Annual Report on Form 10-K for the year ended December 31, 2014 and our other filings with the Securities and Exchange Commission (SEC). These documents can be obtained free of charge from the sources indicated above. Additional information regarding the interests of these participants, which may, in some cases, be different than those of Mylan's shareholders generally, will also be included in the materials that Mylan intends to file with the SEC when they become available.

Successfully completed the acquisition of the EPD Business

Mylan CEO Heather Bresch commented, "Our solid first quarter results, which included constant currency revenue growth of 15% and adjusted diluted EPS growth of 6%, are in line with our expectations, marked a great start to 2015 and again demonstrated our commitment to deliver strong operational execution while making progress against our

short-term and long-term strategic objectives. During the quarter, Mylan reported positive revenue growth across each of our business segments and regions, with double digit constant currency revenue growth in Europe and Rest of World and high single digit revenue growth in North America and Specialty. We were excited to complete our acquisition of the EPD Business and begin realizing the significant value potential from this transaction. We continue to remain confident in our outlook for the remainder of 2015, and there is no change to our full year financial guidance. We also remain committed to our target of at least \$6.00¹ in adjusted diluted EPS in 2018.

We remain steadfast in our legally-binding commitment to acquire Perrigo and have taken numerous concrete steps to lay out a clear and certain path towards completion. This is a transaction consistent with our previous deals and our stated long-term strategy. The combination brings clear and compelling industrial logic, which will generate significant and long-term value for customers, patients, employees, shareholders and other stakeholders. This transaction brings together complementary businesses and cultures, and results in a company with unmatched scale in operations, one of the industry's broadest and most diversified portfolios, and immense reach across distribution channels around the world. With Perrigo, we have the opportunity to create a one-of-a-kind global healthcare company that is positioned to capitalize on key industry trends, including the growing number of Rx to OTC switches underway, in order to redefine how healthcare is delivered.

Mylan CFO John Sheehan added, Mylan's first quarter results lay the foundation for strong financial and operational performance in 2015. As of the end of Q1, our debt to EBITDA leverage was 2.1 times. Mylan continues to have substantial financial firepower to execute on the right strategic opportunities for our shareholders and stakeholders.

Total Revenue

<i>(Unaudited; in millions)</i>	Three Months Ended March 31,		Percent Change
	2015	2014	
Total Revenues	\$ 1,871.7	\$ 1,715.6	9%
Generics Third Party Net Sales	1,643.5	1,508.3	9%
North America	844.8	782.2	8%
Europe	406.2	355.9	14%
Rest of World	392.5	370.2	6%
Specialty Third Party Net Sales	211.1	194.7	8%
Other Revenue	17.1	12.6	36%

Generics Segment Revenue

Generics segment third party net sales were \$1.64 billion for the quarter, an increase of 9% when compared to the prior year period. When translating third party net sales for the current quarter at prior year comparative period exchange rates (constant currency), third party net sales increased by 15%.

Third party net sales from **North America** were \$844.8 million for the quarter, an increase of 8% when compared to the prior year period. This increase was primarily driven by net sales from new products and acquisition as well as favorable pricing on existing products. The effect of foreign currency translation on third party net sales was insignificant in North America.

Third party net sales from **Europe** were \$406.2 million for the quarter, an increase of 14% when compared to the prior year period. Constant currency third party net sales increased by 33%. This increase was primarily driven by net sales from the acquisition of the EPD Business. Further contributing to this increase were higher volumes on existing products, primarily in Italy and France, which were partially offset by lower pricing throughout Europe.

Third party net sales from **Rest of World** were \$392.5 million for the quarter, an increase of 6% when compared to the prior year period. Constant currency third party net sales increased by 12%. This increase was primarily driven by net sales from acquisition, new product launches in Australia and higher sales volumes in India, predominately from growth in our anti-retroviral (ARV) franchise.

Specialty Segment Revenue

Specialty segment reported third party net sales of \$211.1 million for the quarter, an increase of 8% when compared to the prior year period. This increase was primarily due to higher net sales of the **EpiPen® Auto-Injector** driven by increased volume.

Total Gross Profit

Adjusted gross profit was \$990.6 million and **adjusted gross margins** were 53% for the quarter as compared to adjusted gross profit of \$865.6 million and adjusted gross margins of 50% in the comparable prior year period. The

current quarter increase was due to new product introductions and net sales from acquisition. **GAAP gross profit** for the quarter was \$830.1 million and **GAAP gross margins** were 44% as compared to GAAP gross profit of \$737.8 million and GAAP gross margins of 43% in the comparable prior year period.

Total Profitability

Adjusted earnings from operations for the quarter were \$429.7 million, up 9% from the comparable prior year period. **R&D expense** increased primarily from the continued investment in our biologics and respiratory growth programs. **SG&A expense** increased from the prior year period as a result of increased costs related to acquired businesses and increased selling and marketing costs, primarily stemming from the EpiPen® Auto-Injector direct-to-consumer marketing campaign. **GAAP earnings from operations** were \$159.3 million for the quarter, a decrease of 33% from the comparable prior year period. This decrease in earnings from operations during the current quarter was primarily the result of increased acquisition related costs and increased amortization expense as a result of the acquisition of the EPD Business.

EBITDA, which is defined as net earnings (excluding the non-controlling interest and losses from equity method investees) plus income taxes, interest expense, depreciation and amortization, was \$340.5 million for the quarter and \$392.4 million for the comparable prior year quarter. After adjusting for certain items as further detailed in the reconciliation below, **adjusted EBITDA** was \$504.6 million for the quarter and \$459.7 million for the comparable prior year period. **Adjusted net earnings attributable to Mylan N.V.** increased by \$48.7 million to \$309.1 million compared to \$260.4 million for the prior year comparable period. **Adjusted diluted EPS** increased 6% to \$0.70 compared to \$0.66 in the prior year comparable period. **GAAP net earnings attributable to Mylan N.V.** decreased by \$59.3 million to \$56.6 million as compared to \$115.9 million for the prior year comparable period. **GAAP diluted EPS** decreased 55% to \$0.13 compared to \$0.29 in the prior year comparable period.

Cash Flow

Adjusted cash provided by operating activities was \$336 million for the three months ended March 31, 2015, compared to \$286 million for the comparable prior year period. On a GAAP basis, **net cash provided by operating activities** was \$267 million for the three months ended March 31, 2015, compared to \$268 million for the comparable prior year period. **Capital expenditures** were approximately \$48 million for the three months ended March 31, 2015 as compared to approximately \$72 million for the year ended March 31, 2014. **Adjusted free cash flow** was \$288 million for the three months ended March 31, 2015, compared to \$214 million in the prior year period.

Non-GAAP Financial Measures

This press release includes the presentation and discussion of certain financial information that differs from what is reported under accounting principles generally accepted in the United States (GAAP). These non-GAAP financial measures, including, but not limited to, adjusted diluted EPS, adjusted cash provided by operating activities, adjusted gross profit, adjusted gross margins, adjusted earnings from operations, adjusted net earnings attributable to Mylan N.V., constant currency total revenue, constant currency third party net sales, EBITDA, adjusted EBITDA, debt to EBITDA leverage, and adjusted free cash flow, are presented in order to supplement investors' and other readers' understanding and assessment of the Company's financial performance. Management uses these measures internally for forecasting, budgeting and measuring its operating performance. In addition, primarily due to acquisitions, Mylan believes that an evaluation of its ongoing operations (and comparisons of its current operations with historical and future operations) would be difficult if the disclosure of its financial results were limited to financial measures

prepared only in accordance with GAAP. In addition, the Company believes that including EBITDA and supplemental adjustments applied in presenting adjusted EBITDA pursuant to our credit agreement is appropriate to provide additional information to investors to demonstrate the Company's ability to comply with financial debt covenants (which are calculated using a measure similar to adjusted EBITDA) and assess the Company's ability to incur additional indebtedness. We also report sales performance using the non-GAAP financial measure of constant currency total revenues and third party net sales. This measure provides information on the change in net sales assuming that foreign currency exchange rates had not changed between the prior and current

period. The comparisons presented as constant currency rates reflect comparative local currency sales at the prior year's foreign exchange rates. We routinely evaluate our third party net sales performance at constant currency so that sales results can be viewed without the impact of foreign currency exchange rates, thereby facilitating a period-to-period comparison of our operational activities, and believe that this presentation also provides useful information to investors for the same reason. The Summary of Revenues by Segment table below compares third party net sales on an actual and constant currency basis for each reportable segment and the geographic regions within the Generics segment for the three months ended March 31, 2015 and 2014. Also, set forth below, Mylan has provided reconciliations of such non-GAAP financial measures to the most directly comparable GAAP financial measures. Investors and other readers are encouraged to review the related GAAP financial measures and the reconciliations of the non-GAAP measures to their most directly comparable GAAP measures set forth below, and investors and other readers should consider non-GAAP measures only as supplements to, not as substitutes for or as superior measures to, the measures of financial performance prepared in accordance with GAAP.

Dealing Disclosure Requirements

Under the provisions of Rule 8.3 of the Irish Takeover Panel Act, 1997, Takeover Rules 2013 (the Irish Takeover Rules), if any person is, or becomes, interested (directly or indirectly) in, 1% or more of any class of relevant securities of Perrigo Company plc (Perrigo) or Mylan, all dealings in any relevant securities of Perrigo or Mylan (including by means of an option in respect of, or a derivative referenced to, any such relevant securities) must be publicly disclosed by not later than 3:30 pm (New York time) on the business day following the date of the relevant transaction. This requirement will continue until the date on which the offer period ends. If two or more persons

co-operate on the basis of any agreement, either express or tacit, either oral or written, to acquire an interest in relevant securities of Perrigo or Mylan, they will be deemed to be a single person for the purpose of Rule 8.3 of the Irish Takeover Rules.

Under the provisions of Rule 8.1 of the Irish Takeover Rules, all dealings in relevant securities of Perrigo by Mylan or relevant securities of Mylan by Perrigo, or by any party acting in concert with either of them, must also be disclosed by no later than 12 noon (New York time) on the business day following the date of the relevant transaction.

A disclosure table, giving details of the companies in whose relevant securities dealings should be disclosed, can be found on the Irish Takeover Panel's website at www.irishtakeoverpanel.ie.

Interests in securities arise, in summary, when a person has long economic exposure, whether conditional or absolute, to changes in the price of securities. In particular, a person will be treated as having an interest by virtue of the ownership or control of securities, or by virtue of any option in respect of, or derivative referenced to, securities.

Terms in quotation marks are defined in the Irish Takeover Rules, which can also be found on the Irish Takeover Panel's website. If you are in any doubt as to whether or not you are required to disclose a dealing under Rule 8, please consult the Irish Takeover Panel's website at www.irishtakeoverpanel.ie or contact the Irish Takeover Panel on telephone number +353 1 678 9020 or fax number +353 1 678 9289.

Goldman Sachs does not accept any responsibility whatsoever for the contents of this communication or for any statement made or purported to be made by them or on their behalf in connection with the offer. Forward-Looking Statements

This press release contains forward-looking statements. These statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements may include, without limitation, statements about the Perrigo Proposal, Mylan's acquisition (the Abbott Transaction) of Mylan Inc. and the EPD Business, the benefits and synergies of the Perrigo Proposal or Abbott Transaction, future opportunities for Mylan, Perrigo, or the combined company and products, and any other statements regarding Mylan's, Perrigo's, or the combined company's future operations, anticipated business levels, future earnings, planned activities, anticipated growth, market opportunities, strategies, competition, and other expectations and targets for future periods.

These may often be identified by the use of words such as will, may, could, should, would, project, believe, expect, plan, estimate, forecast, potential, intend, continue, target and variations of these words or compounds. Because forward-looking statements inherently involve risks and uncertainties, actual future results may differ materially from those expressed or implied by such forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to: uncertainties related to the Perrigo Proposal, including as to the timing of the offer and compulsory acquisition, whether Perrigo will cooperate with Mylan and whether Mylan will be able to consummate the offer and compulsory acquisition, whether Mylan shareholders will provide the requisite approvals for the Perrigo Proposal, the possibility that competing offers will be made, the possibility that the conditions to the consummation of the offer will not be satisfied, and the possibility that Mylan will be unable to obtain regulatory approvals for the offer and compulsory acquisition or be required, as a condition to obtaining regulatory approvals, to accept conditions that could reduce the anticipated benefits of the offer and compulsory acquisition; the ability to meet expectations regarding the accounting and tax treatments of a transaction relating to the Perrigo Proposal and the Abbott Transaction; changes in relevant tax and other laws, including but not limited to changes in healthcare and pharmaceutical laws and regulations in the U.S. and abroad; the integration of Perrigo and the EPD Business being more difficult, time-consuming, or costly than expected; operating costs, customer loss and business disruption (including, without limitation, difficulties in maintaining relationships with employees, customers, clients, or suppliers) being greater than expected following the Perrigo Proposal and the Abbott Transaction; the

retention of certain key employees of Perrigo and the EPD Business being difficult; the possibility that Mylan may be unable to achieve expected synergies and operating efficiencies in connection with the Perrigo Proposal and the Abbott Transaction within the expected time-frames or at all and to successfully integrate Perrigo and the EPD Business; expected or targeted future financial and operating performance and results; challenges to our business and strategic plans posed by the recent unsolicited business proposal made by a large competitor to acquire all of our outstanding shares; the capacity to bring new products to market, including but not limited to where Mylan uses its business judgment and

decides to manufacture, market, and/or sell products, directly or through third parties, notwithstanding the fact that allegations of patent infringement(s) have not been finally resolved by the courts (i.e., an at-risk launch); success of clinical trials and our ability to execute on new product opportunities; the scope, timing, and outcome of any ongoing legal proceedings and the impact of any such proceedings on financial condition, results of operations and/or cash flows; the ability to protect intellectual property and preserve intellectual property rights; the effect of any changes in customer and supplier relationships and customer purchasing patterns; the ability to attract and retain key personnel; changes in third-party relationships; the impact of competition; changes in the economic and financial conditions of the businesses of Mylan, Perrigo, or the combined company; the inherent challenges, risks, and costs in identifying, acquiring, and integrating complementary or strategic acquisitions of other companies, products or assets and in achieving anticipated synergies; uncertainties and matters beyond the control of management; and inherent uncertainties involved in the estimates and judgments used in the preparation of financial statements, and the providing of estimates of financial measures, in accordance with GAAP and related standards or on an adjusted basis.

For more detailed information on the risks and uncertainties associated with the Company's business activities, see the risks described in Mylan Inc.'s Annual Report on Form 10-K for the year ended December 31, 2014 and our other filings with the Securities and Exchange Commission (SEC). You can access Mylan's filings with the SEC through the SEC website at www.sec.gov, and the Company strongly encourages you to do so. These documents can be obtained free of charge from the sources indicated above. Additional information regarding the interests of these participants, which may, in some cases, be different than those of Mylan's shareholders generally, will also be included in the materials that Mylan intends to file with the SEC when they become available.
