Corporate Governance

Director Independence. Under the NASDAQ Stock Market Rules, the Board has a responsibility to make an affirmative determination that those members of its Board that serve as independent directors do not have any relationships with the Company and its businesses that would impair their independence. In connection with these determinations, the Board reviews information regarding transactions, relationships and arrangements involving the Company and its businesses and each director that it deems relevant to independence, including those required by the NASDAQ Stock Market Rules.

The Board has determined that each of Mr. Johnson, Mr. Hipp, Mr. Crowther, Mrs. Tetrault, Mrs. Hannah and Mr. Robison is independent. The Audit Committee and the Compensation Committee are each composed entirely of directors who are independent under the NASDAQ Stock Market Rules and the applicable rules of the United States Securities and Exchange Commission (the SEC).

Director Nominations. Our Board has a standing Nominating and Corporate Governance Committee. The Nominating and Corporate Governance committee considers and recommends candidates for election to the Board and nominees for committee memberships and committee chairs.

Director candidates are considered based upon a variety of criteria, including demonstrated business and professional skills and experiences relevant to our business and strategic direction, concern for long-term stockholder interests, personal integrity and sound business judgment. The Committee seeks men and women from diverse professional backgrounds who combine a broad spectrum of relevant industry and strategic experience and expertise that, in concert, offer us and our stockholders diversity of opinion and insight in the areas most important to us and our corporate mission. However, we do not have a formal policy concerning the diversity of the Board. All director candidates must have time available to devote to the activities of the Board. We also consider the independence of director candidates, including the appearance of any conflict in serving as a director. A director who does not meet all of these criteria may still be considered for nomination to the Board, if our independent directors believe that the candidate will make an exceptional contribution to us and our stockholders.

Generally, when evaluating and recommending candidates for election to the Board, the Committee will conduct candidate interviews, evaluate biographical information and background material and assess the skills and experience of candidates in the context of the then current needs of the Company. In identifying potential director candidates, the Board may also seek input from the executive officers and may also consider recommendations by employees, community leaders, business contacts, third-party search firms and any other sources deemed appropriate by the Committee. The Committee will also consider director candidates recommended by stockholders to stand for election at the annual meeting of stockholders so long as such recommendations are submitted in accordance with the procedures described below under *Stockholder Recommendations For Board Candidates*.

Board Leadership Structure. Our Board does not have a policy on whether the offices of Chairman of the Board and Chief Executive Officer should be separate and, if they are to be separate, whether the Chairman of the Board should be selected from among the independent directors. Our Board believes that it should have the flexibility to make these determinations at any given time in the way that it believes best to provide appropriate leadership for the Company at

that time. Our Board has reviewed our current Board leadership structure in light of the composition of the Board, the Company's size, the nature of the Company's business, the regulatory

Table of Contents

framework under which the Company operates, and other relevant factors. Considering these factors, the Company has determined to have the same individual, Douglas VanOort, serve as Chief Executive Officer and Chairman of the Board. The Board does not have or appoint a lead independent director.

Board Role in Risk Oversight. The Board administers its risk oversight function directly and through the Audit Committee. The Board and the Audit Committee regularly discuss with management the Company's major risk exposures, their potential financial impact on the Company, and the steps taken to monitor and control those risks.

Information Regarding Meetings and Committees of the Board

The Board. The Board met four (4) times for regular meetings during 2014. Four (4) of such meetings were regularly scheduled meetings and telephonic calls were held as needed. During 2014, each incumbent director attended 75% or more of the Board and applicable committee meetings for the periods during which each such director served. Directors are not required to attend annual meetings of our stockholders. We held an annual meeting of stockholders in 2014.

The Board currently has four (4) standing committees: the Audit Committee, the Nominating and Corporate Governance, the Compensation Committee and the Compliance Committee.

Board Committees. The following table sets forth the current members of each standing Committee:

The Board will consider qualified candidates for director recommended and submitted by stockholders. Submissions that meet the then current criteria for board membership are forwarded to the Nominating and Corporate Governance Committee for further review and consideration. The Committee will consider a recommendation only if appropriate biographical information and background material is provided on a timely basis, accompanied by a statement as to whether the stockholder or group of stockholders making the recommendation has beneficially owned more than five percent (5%) of our common stock for at least one (1) year as of the date that the recommendation is made. To submit a recommendation for a nomination, a stockholder may write to the Board, at our principal office, Attention: Fred Weidig, Corporate Secretary.

The Committee will evaluate any such candidates by following substantially the same process, and applying substantially the same criteria, as for candidates submitted by Board members, assuming that appropriate biographical and background material is provided for candidates recommended by stockholders and the process for submitting the recommendation is followed.

PROPOSAL 2 AMENDMENT OF THE AMENDED AND RESTATED EQUITY INCENTIVE PLAN

The Company currently maintains the NeoGenomics, Inc. Amended and Restated Equity Incentive Plan, as most recently amended and restated effective as of April 16, 2013 (the Plan). The Board believes that the Plan has been effective in attracting and retaining highly-qualified employees and other key contributors to the Company's business, and that the awards granted under the Plan have provided an incentive that aligns the economic interests of Plan participants with those of our stockholders. The Compensation Committee has reviewed the Plan to determine whether it remains a flexible and effective source of incentive compensation in terms of the number of shares of common stock available for awards and in terms of its design, as well as whether it generally conforms with best practices in today's business environment.

Based on its review, the Compensation Committee recommended that the Plan be amended to add 2,500,000 shares of the Company's common stock to the reserve available for new awards.

Accordingly, the Board of Directors approved, and is recommending that the Company's stockholders approve, the First Amendment of the Plan (the Amendment). Upon approval of the Amendment by the Company's stockholders, an additional 2,500,000 shares of the Company's common stock will be available for issuance under the Plan. The Plan will remain unchanged otherwise. If the Amendment is not approved by the Company's stockholders, the Plan will remain unchanged and in effect according to its current terms and the Company may continue to grant awards under the Plan until no more shares are available for issuance.

Corporate Governance Aspects of the Plan

The Plan has been designed to include a number of provisions that promote best practices by reinforcing the alignment between equity compensation arrangements for eligible employees and non-employee directors and stockholders interests. These provisions include, but are not limited to, the following:

Clawback Policy. In the event of a restatement of the Company's financials due to material noncompliance with any financial reporting requirements under the law, Plan participants will be required to reimburse the Company for any amounts earned or payable in connection with an award under the Plan to the extent required by law and any applicable Company policies.

No Evergreen Provision. The Plan does not contain an evergreen feature pursuant to which the shares authorized for issuance under the Plan will be automatically replenished.

Conservative Change in Control Provision. The Plan does not provide for automatic vesting of awards upon a change in control of the Company.

No Discounted Stock Options or Stock Appreciation Rights. Stock options and stock appreciation rights may not be granted under the Plan with exercise prices lower than the market value of the underlying shares on the grant date.

No Reload Grants. Reload grants, or the granting of stock options conditioned upon delivery of shares to satisfy the exercise price and/or tax withholding obligation under another stock option, are not permitted under the Plan.

No Transferability. Plan awards generally may not be transferred, except by will or the laws of descent and distribution, unless approved by the Compensation Committee.

No Automatic Grants. The Plan does not provide for automatic grants to any participant.

Tax Deductible Awards. The Plan contains provisions that are required for future awards to certain covered employees to be eligible to be deductible under Section 162(m) of the Internal Revenue Code of 1986 (the Code) as performance-based compensation.

No Tax Gross-Ups. The Plan does not provide for any tax gross-ups.

Table of Contents

Multiple Award Types. The Plan permits the issuance of incentive stock options, nonqualified stock options, stock appreciation rights, restricted stock units, restricted stock awards and other types of equity grants, subject to the share limits of the Plan. This breadth of award types will enable the Compensation Committee to tailor awards in light of the accounting, tax and other standards applicable at the time of grant. Historically, these standards have changed over time.

Independent Oversight. The Plan is administered by the Compensation Committee, which is comprised of independent Board members.

The material features of the Plan, as amended by the Amendment, are summarized below. The summary is qualified in its entirety by reference to the specific provisions of the Plan, the full text of which is set forth as Appendix B to the proxy statement for the Company's 2013 annual meeting of stockholders, which was filed with the SEC on May 8, 2013, and by reference to the specific provisions of the Amendment, the full text of which is set forth as [Appendix A] to this proxy statement.

Administration

The Plan is administered by the Compensation Committee. Subject to the express provisions of the Plan, the Compensation Committee has the authority, in its discretion, to interpret the Plan, establish rules and regulations for the Plan's operation, select eligible individuals to receive awards and determine the form and amount and other terms and conditions of such awards.

Summary of Award Terms and Conditions

Awards under the Plan may include incentive stock options, nonqualified stock options, stock appreciation rights, restricted stock awards, stock bonus awards, deferred stock awards and other stock-based awards.

Stock Options. The Compensation Committee may grant to a Plan participant options to purchase Company common stock that qualify as incentive stock options (incentive stock options) for purposes of Code Section 422, options that do not qualify as incentive stock options (nonqualified stock options) or a combination thereof. The terms and conditions of stock option grants, including the quantity, price, vesting periods and other conditions on exercise will be determined by the Committee and will be reflected in a written award agreement or notice.

The exercise price for stock options will be determined by the Compensation Committee in its discretion, but with respect to incentive stock options may not be less than 100% of the fair market value of one share of the Company's common stock on the date when the stock option is granted. Additionally, in the case of incentive stock options granted to a holder of more than 10% of the total combined voting power of all classes of stock of the Company on the date of grant, the exercise price may not be less than 110% of the fair market value of one share of common stock on the date the stock option is granted.

Stock options must be exercised within a period fixed by the Compensation Committee that may not exceed 10 years from the date of grant, except that in the case of incentive stock options granted to a holder of more than 10% of the total combined voting power of all classes of stock of the Company on the date of grant, the exercise period may not exceed five years. The Plan provides for earlier termination of stock options upon the participant's termination of service, unless extended by the Committee, but in no event may the options be exercised after the scheduled expiration date of the options.

At the Compensation Committee's discretion, payment for shares of common stock on the exercise of stock options may be made in cash, shares of the Company's common stock held by the participant or in any other form of consideration acceptable to the Committee (including one or more forms of "cashless" or "net" exercise).

Stock Appreciation Rights. The Compensation Committee may grant to a Plan participant an award of stock appreciation rights, which entitles the participant to receive, upon its exercise, a payment equal to (i) the excess

Table of Contents

of the fair market value of a share of common stock on the exercise date over the stock appreciation right exercise price, multiplied by (ii) the number of shares of common stock with respect to which the stock appreciation right is exercised. The terms and conditions of awards of stock appreciation rights, including the quantity, price, vesting periods and other conditions on exercise will be determined by the Compensation Committee and will be reflected in a written award agreement or notice.

The exercise price for a stock appreciation right will be determined by the Compensation Committee in its discretion, but may not be less than 100% of the fair market value of one share of the Company's common stock on the date when the stock appreciation right is granted. Stock appreciation rights must be exercised within a period fixed by the Compensation Committee that may not exceed 10 years from the date of grant. Upon exercise of a stock appreciation right, payment may be made in cash, shares of Company stock or a combination of cash and stock.

Restricted Stock. The Compensation Committee may grant to a Plan participant shares of common stock subject to specified restrictions (restricted shares). Restricted shares are subject to forfeiture if the participant does not meet certain conditions such as continued employment over a specified forfeiture period and/or the attainment of specified performance targets over the forfeiture period. The terms and conditions of restricted share awards are determined by the Compensation Committee and will be reflected in a written award agreement or notice.

Stock Bonus Awards. The Compensation Committee may grant to a Plan participant shares of common stock in the form of a stock bonus award that are not subject to any restrictions or forfeiture requirements. The terms and conditions of stock bonus awards are determined by the Compensation Committee and will be reflected in a written award agreement or notice.

Deferred Stock Awards. The Compensation Committee may grant to a Plan participant deferred stock awards representing the right to receive shares of common stock (or the value of such shares) in the future subject to the achievement of one or more goals relating to the completion of service by the participant and/or the achievement of performance or other objectives. The terms and conditions of deferred stock awards are determined by the Compensation Committee and will be reflected in a written award agreement or notice.

Other Stock-Based Awards. The Compensation Committee may grant to a Plan participant equity-based or equity-related awards, referred to as other stock-based awards, other than options, stock appreciation rights, restricted shares, stock bonus awards or deferred stock awards. Such awards may include restricted stock units, stock purchase rights, phantom stock arrangements or awards valued in whole or in part by reference to the Company's common stock. The terms and conditions of each other stock-based award will be determined by the Committee and will be reflected in a written award agreement or notice. Payment under any other stock-based awards will be made in common stock or cash, as determined by the Compensation Committee.

Performance Goals

With respect to any awards under the Plan that are intended to qualify as performance-based compensation for purposes of Code Section 162(m), the award will be subject to the attainment of one or more pre-established performance objectives that will relate to corporate, subsidiary, division, group or unit performance based on one or more of the following measures:

Gross revenue;

Earnings per share or ratios of earnings to equity or assets;

Net profits;

Stock price;

Market share;

Table of Contents

Sales; or

Costs.

Awards that are designed to qualify as performance-based compensation may not be adjusted upward. However, the Compensation Committee has the discretion to adjust these awards downward and may grant awards that do not qualify as performance-based compensation.

Effect of a Change in Control or Similar Corporate Transactions

In the event of a merger, reorganization or consolidation between the Company and another person or entity (other than an affiliate) resulting in the Company's stockholders prior to the transaction holding less than a majority of the outstanding voting stock of the surviving entity immediately after the transaction, or in the event of a sale of all or substantially all of the Company's assets, outstanding awards will be subject to the specific terms as may be set forth in the applicable award agreement, which may include assumption or substitution of such awards with equivalent awards, accelerated vesting or settlement in cash or cash equivalents.

Eligibility and Limitation on Awards

The Compensation Committee may grant awards under the Plan to any employee, non-employee director or consultant of the Company or any of its participating subsidiaries. While the selection of Plan participants is within the discretion of the Committee, it is currently expected that participants will be primarily officers and key senior level employees, as well as non-employee directors of the Company. It is presently contemplated that approximately twenty five (25) persons will be eligible to receive awards under the Plan.

The maximum amount of awards that can be granted under the Plan to a single participant in any 12-month period in the form of stock options or stock appreciation rights may not exceed 500,000 shares. In addition, to the extent such awards are intended to qualify as performance-based compensation under Code Section 162(m), the maximum awards that can be granted under the Plan to a single participant in any 12-month period in the form of restricted shares, stock bonus awards, deferred stock awards or other stock-based awards is 500,000 shares.

Shares Subject to the Plan

The number of shares of the Company's common stock reserved for issuance for awards under the Plan currently is 7,000,000, of which approximately 317,440 shares remain available for new awards. The Board has authorized in the First Amendment, subject to stockholder approval, an additional 2,500,000 shares of the Company's common stock to be available for new awards under the Plan, so that the aggregate number of shares reserved for issuance under the Plan will be 9,500,000, with approximately 2,817,440 shares being available for new awards.

Shares of common stock underlying awards granted under the Plan that expire or are forfeited or terminated for any reason (as a result, for example, of the lapse of stock options or forfeiture of restricted shares), as well as any shares underlying an award that is settled in cash rather than stock, will be available for future grants under the Plan. In addition, shares of stock that are surrendered to or withheld by the Company in payment or satisfaction of the exercise price of an award or any tax withholding obligation with respect to an award will be available for future grants. Shares to be issued under the Plan will be authorized but unissued shares of common stock or shares of stock reacquired by the Company.

Anti-Dilution Protections

In the event of a change in the outstanding shares of Company common stock, without the receipt of consideration by the Company, by reason of a stock dividend, stock split, reverse stock split or distribution, recapitalization, merger, reorganization, reclassification, consolidation, split-up, spin-off, combination of shares, exchange of shares or other similar event, the Compensation Committee will make appropriate and equitable

Table of Contents

adjustments to (i) the number and kind of shares of stock available under the Plan, (ii) the number and kind of shares of stock subject to outstanding Plan awards, (iii) the per-share exercise or other purchase price under any outstanding Plan award and (iv) the annual award or other maximum award limits applicable under the Plan.

Clawback Provisions

The Plan provides that in the event of a restatement of the Company's financials due to material noncompliance with any financial reporting requirements under the law, a participant will be required to reimburse the Company for any amounts earned or payable in connection with an award under the Plan to the extent required by law and any applicable Company policies.

Amendment and Termination

The Board may suspend, terminate, modify or amend the Plan, provided that any amendment that would (i) increase the aggregate number of shares of stock that may be issued under the Plan, (ii) change the method of determining the exercise price of option awards or (iii) materially modify the eligibility requirements for the Plan, will be subject to the approval of the Company's stockholders, except for modifications or adjustments relating to the anti-dilution protection described above. The Board expressly reserves the right under the Plan to approve, without obtaining stockholder approval, a cancellation and reissuance or other exchange of an outstanding stock option or stock appreciation right, the amendment of any option or stock appreciation right to lower the exercise price, or any other amendment, adjustment or action taken with respect to an outstanding option or stock appreciation right that constitutes a repricing under any applicable rule of any stock exchange that lists the Company's common stock. Any such exchange, amendment, adjustment or action constituting a repricing must be approved by at least a two-thirds majority of the non-employee, independent members of the Board.

In addition, no suspension, termination, modification or amendment of the Plan may terminate a participant's existing award or materially and adversely affect a participant's rights under such award without the participant's consent. However, these provisions do not limit the Board's authority to amend or revise the Plan to comply with applicable laws or governmental regulations.

Federal Income Tax Consequences

THE FEDERAL INCOME TAX CONSEQUENCES OF THE ISSUANCE AND EXERCISE OF AWARDS UNDER THE PLAN GENERALLY ARE AS DESCRIBED BELOW. THE FOLLOWING INFORMATION IS ONLY A SUMMARY OF THE TAX CONSEQUENCES OF THE AWARDS, AND THE COMPANY ENCOURAGES PARTICIPANTS TO CONSULT WITH THEIR OWN TAX ADVISORS WITH RESPECT TO THE TAX CONSEQUENCES INHERENT IN THE OWNERSHIP OR EXERCISE OF THEIR AWARDS, AND THE OWNERSHIP AND DISPOSITION OF ANY UNDERLYING SECURITIES. TAX CONSEQUENCES FOR ANY PARTICULAR INDIVIDUAL OR UNDER STATE OR NON-U.S. TAX LAWS MAY BE DIFFERENT.

Incentive Stock Options. A participant who is granted an incentive stock option generally will not recognize any taxable income for federal income tax purposes on either the grant or exercise of the incentive stock option (except for AMT purposes, as described below). If the participant disposes of the shares purchased pursuant to the incentive stock option more than two years after the date of grant and more than one year after the exercise of the option by the participant (the required statutory holding period), (i) the participant will recognize long-term capital gain or loss, as the case may be, equal to the difference between the selling price and the exercise price; and (ii) the Company will not be entitled to a deduction with respect to the shares of stock so issued. If the holding period requirements are not met, any gain realized upon disposition will be taxed as ordinary income to the extent of the lesser of (1) the excess of the

fair market value of the shares at the time of exercise over the exercise price, and (2) the gain on the sale. Also in that case, the Company will be entitled to a deduction in the year of disposition in an amount equal to the ordinary income recognized by the participant. Any additional gain

Table of Contents

will be taxed as short-term or long-term capital gain depending upon the actual holding period for the stock. A sale for less than the exercise price results in a capital loss. The excess of the fair market value of the shares on the date of exercise over the exercise price is includable in the participant's income for alternative minimum tax purposes whether or not the statutory holding period requirements are met.

Nonqualified Stock Options. A participant who is granted a nonqualified stock option under the Plan generally will not recognize any income for federal income tax purposes on the grant of the option. Generally, on the exercise of the option, the participant will recognize taxable ordinary income equal to the excess of the fair market value of the shares on the exercise date over the option price for the shares. The Company generally will be entitled to a deduction on the date of exercise in an amount equal to the ordinary income recognized by the participant. Upon disposition of the shares purchased pursuant to the stock option, the participant will recognize long-term or short-term capital gain or loss, as the case may be, equal to the difference between the amount realized on such disposition and the basis for such shares, which basis includes the amount previously recognized by the participant as ordinary income.

Stock Appreciation Rights. A participant who is granted stock appreciation rights generally will not recognize any taxable income on the receipt of the award. Upon the exercise of a stock appreciation right, (i) the participant will recognize ordinary income equal to the amount received (the increase in the fair market value of one share of our stock from the date of grant of the award to the date of exercise multiplied by the number of shares subject to the award), and (ii) the Company will be entitled to a deduction on the date of exercise in an amount equal to the ordinary income recognized by the participant.

Restricted Stock. A participant generally will not recognize any taxable income on the grant date of an award of restricted shares, but will be taxed at ordinary income rates on the fair market value of any restricted shares as of the date that the restrictions lapse, unless the participant, within 30 days after transfer of such restricted shares to the participant, elects under Code Section 83(b) to include in income the fair market value of the restricted shares as of the date of such transfer. The Company generally will be entitled to a corresponding deduction. Any disposition of shares after the restrictions lapse will be subject to the regular rules governing long-term and short-term capital gains and losses, with the basis for this purpose equal to the fair market value of the shares at the end of the restricted period (or on the date of the transfer of the restricted shares, if the employee elects to be taxed on the fair market value upon such transfer). To the extent dividends are payable during the restricted period under the applicable award agreement, any such dividends will be taxable to the participant at ordinary income tax rates and will be deductible by the Company unless the participant has elected to be taxed on the fair market value of the restricted shares upon transfer, in which case they will thereafter be taxable to the participant as dividends and will not be deductible by the Company.

Deferred Stock Awards. A participant generally will not recognize taxable income upon grant of a deferred stock award, and the Company will not be entitled to a deduction until the lapse of the applicable restrictions. Upon the lapse of the restrictions and the issuance of the underlying shares or settlement of the award, the participant will recognize ordinary taxable income in an amount equal to the fair market value of the common stock or other value received and the Company generally will be entitled to a deduction in the same amount. Any disposition of shares after restrictions lapse will be subject to the regular rules governing long-term and short-term capital gains and losses, with the basis for this purpose equal to the fair market value of the shares at the end of the restricted period.

Stock Bonus Awards and Other Stock-Based Awards. A participant generally will not recognize taxable income upon the grant of stock bonus awards or other stock-based awards under the Plan unless and until the conditions and requirements for the grants have been satisfied and the payment determined. Once subject to tax, any cash received and the fair market value of any common stock received generally will constitute ordinary income to the participant. The Company generally will be entitled to a deduction in the same amount.

Code Section 162(m). Because the Company is a public company, special rules limit the deductibility of compensation paid to our Chief Executive Officer and to each of our three most highly compensated executive

Table of Contents

officers other than our Chief Executive Officer (and not including our Chief Financial Officer) whose compensation is required to be reported annually in our proxy statement. Under Code Section 162(m), the annual compensation paid to each of these executives may not be deductible to the extent that it exceeds \$1 million. The limitation on deductions does not apply, however, to qualified performance-based compensation. Certain awards under the Plan, including stock options, stock appreciation rights and stock-based performance awards, may constitute qualified performance-based compensation and, as such, would be exempt from the \$1 million limitation on deductible compensation. The Compensation Committee may choose to grant awards under the Plan that are not deductible under Code Section 162(m).

Effective Date

The Amendment will be effective as of June 12, 2015, if approved by the stockholders of the Company. If the Amendment is not approved by the stockholders, the Plan will continue in effect unchanged, subject to its existing terms and conditions. The Plan is currently scheduled to expire on April 26, 2023, unless terminated earlier by the Board.

New Plan Benefits

The following New Plan Benefits table lists (i) each of the Company's named executive officers, (ii) all of the Company's named executive officers and current executive officers as a group, (iii) all of the Company's eligible non-employee directors as a group and (iv) all other current employees who are not executive officers as a group, indicating the number of awards that have been approved by the Compensation Committee under the Plan for each of the foregoing, subject to stockholder approval of the Amendment:

Vote Required for Approval

The Amendment will be approved if a majority of the votes cast by stockholders in person or via proxy with respect to this matter are cast in favor of the proposal. The proposal to approve the Amendment is a non-discretionary or non-routine item, meaning that brokerage firms cannot vote shares in their discretion on behalf of a client if the client has not given voting instructions. Accordingly, if you hold your shares in street name and fail to instruct your broker to vote your shares for the proposal, your shares will not be counted as votes cast for the proposal and will have no

effect on the outcome of this Proposal 2. If the stockholders do not approve the Amendment, it will not be implemented, but the Company reserves the right to adopt such other compensation plans and programs as it deems appropriate and in the best interests of the Company and its stockholders.

Board Recommendation

The Board unanimously recommends a vote FOR approval of this Proposal 2.

Employment Agreements and Potential Payments Upon Termination or Change in Control

The Company is a party to employment contracts with several of its officers that contain commitments as detailed below.

On March 16, 2009, the Company entered into an employment agreement with Douglas M. VanOort to employ Mr. VanOort in the capacity of Executive Chairman and interim Chief Executive Officer. Such employment agreement was amended on October 28, 2009 to appoint Mr. VanOort as Chairman and Chief Executive Officer (the employment agreement, as amended, hereafter, the Employment Agreement). The Employment Agreement had an initial term from March 16, 2009 through March 16, 2013, which subsequent to the initial term automatically renews for one year periods. Pursuant to the Employment Agreement, Mr. VanOort receives a base salary of \$325,000 per year and is eligible to receive an annual cash bonus for any given fiscal year in an amount equal to 60% of his base salary if he meets certain goals established for him by the Compensation Committee of the Board. Such bonus is eligible to be increased to up to 150% of the target bonus in any fiscal year in which he meets certain performance thresholds established by the Compensation Committee. Mr. VanOort is also entitled to participate in all of the Company's employee benefit plans and any other benefit programs established for officers of the Company. In the event that Mr. VanOort is terminated without cause by the Company, the Company has agreed to pay Mr. VanOort's base salary and maintain his benefits for a period of a year.

The Employment Agreement also provides that Mr. VanOort was granted an option to purchase 1,000,000 shares of the Company's common stock under the Company's Amended and Restated Equity Incentive Plan (the Amended Plan). The exercise price of such option is \$0.80 per share. 500,000 shares of common stock subject to the option vest according to the following schedule (i) 200,000 shares vested on March 16, 2011; (ii) 12,500 shares vest each month beginning on April 16, 2011 until March 16, 2012; (iii) 8,000 shares vest each month beginning on April 16, 2012 until March 16, 2012 and (iv) 4,500 shares vest each month beginning on April 16, 2012 until March 16, 2013. 500,000 shares of common stock subject to the option vest based on the achievement of certain performance metrics by the Company. Any unvested portion of the option described above shall vest in the event of a change of control of the Company.

Either party may terminate Mr. VanOort's employment with the Company at any time upon giving sixty days advance written notice to the other party. The Company and Mr. VanOort also entered into a Confidentiality, Non-Solicitation and Non-Compete Agreement in connection with the Employment Agreement.

On March 16, 2009, the Company and the Douglas M. VanOort Living Trust entered into a Subscription Agreement (the Subscription Agreement) pursuant to which the Douglas M. VanOort Living Trust purchased 625,000 shares of the Company's common stock at a purchase price of \$0.80 per share (the Subscription Shares). The Subscription Shares are subject to a two year lock-up that restricts the transfer of the Subscription Shares; provided, however, that such lock-up shall expire in the event that the Company terminates Mr. VanOort's employment. The Subscription Agreement also provides for certain piggyback registration rights with respect to the Subscription Shares.

In addition to the Subscription Agreement, on March 16, 2009, the Company and Mr. VanOort entered into a Warrant Agreement (the Warrant Agreement) pursuant to which Mr. VanOort, subject to the vesting schedule described below, may purchase up to 625,000 shares of the Company's common stock at an exercise price of \$1.05 per share (the Warrant Shares). The Warrant Shares vest based on the following vesting schedule:

- (i) 20% of the Warrant Shares vested immediately,

- (ii) 20% of the Warrant Shares will be deemed to be vested on the first day on which the closing price per share of the Company's common stock has reached or exceeded \$3.00 per share for 20 consecutive trading days,

Table of Contents

(iii) 20% of the Warrant Shares will be deemed to be vested on the first day on which the closing price per share of the Company's common stock has reached or exceeded \$4.00 per share for 20 consecutive trading days,

(iv) 20% of the Warrant Shares will be deemed to be vested on the first day on which the closing price per share of the Company's common stock has reached or exceeded \$5.00 per share for 20 consecutive trading days and

(v) 20% of the Warrant Shares will be deemed to be vested on the first day on which the closing price per share of the Company's common stock has reached or exceeded \$6.00 per share for 20 consecutive trading days.

On March 12, 2014 Mr. VanOort exercised 375,000 warrants to purchase shares of NeoGenomics common stock at an exercise price of \$1.05 per share. On March 16, 2014 250,000 warrants expired unvested because performance requirements were not met.

On February 14, 2012, Mr. VanOort had his annual salary raised to \$425,000 per year and was granted a supplemental non-qualified stock option to purchase 800,000 shares of common stock at an exercise price of \$1.71 per share, which option has a five year term (the Supplemental Options). These Supplemental Options are scheduled to vest according to the passage of time with 200,000 shares vesting each year on the anniversary of the grant date for the first four years after the grant.

In the event of a change of control of the Company in which the consideration payable to common stockholders of the Company in connection with such change of control has a deemed value of at least \$4.00 per share, the Warrant Shares and the Supplemental Options shall immediately vest in full. In the event that Mr. VanOort resigns his employment with the Company or the Company terminates Mr. VanOort's employment for cause at any time prior to the time when all Warrant Shares and Supplemental Options have vested, then the rights under the Warrant Agreement and the Supplemental Options with respect to the unvested portion of each will immediately terminate as of the date of termination.

On April 15, 2014, the Company granted 125,000 shares of restricted stock to Douglas M. VanOort. Such restricted shares vest on the third anniversary of the grant date so long as Mr. VanOort remains Chairman and Chief Executive Officer of the Company. The fair market value of the grant of restricted stock on award date was deemed to be \$381,250 or \$3.05 per share, which was the closing price of the Company's common stock on the day before the grant as approved by the board of directors.

On November 30, 2009, we entered into an employment agreement with George Cardoza, our Chief Financial Officer. In addition, Mr. Cardoza was granted 150,000 stock options at an exercise price of \$1.55 and with a five year term so long as Mr. Cardoza remains an employee of the Company. These options are scheduled to vest according to the passage of time. Mr. Cardoza's employment agreement also specifies that he is entitled to four weeks of paid vacation per year and other insurance benefits. In the event that Mr. Cardoza is terminated without cause by the Company, the Company has agreed to pay Mr. Cardoza's base salary and maintain his benefits for a period of six months. On

April 14, 2011 Mr. Cardoza was granted an additional option to purchase 100,000 shares of common stock at an exercise price of \$1.46 per share. Compensation Discussion and Analysis

Executive Compensation Philosophy

Our compensation philosophy is to offer our executive officers compensation and benefits that are competitive and meet our goals of attracting, retaining and motivating highly skilled management, which is necessary to

Table of Contents

achieve our financial and strategic objectives and create long-term value for our stockholders. We believe the levels of compensation we provide should be competitive, reasonable and appropriate for our business needs and circumstances.

Advisory Vote on Executive Compensation

The Company provides its stockholders with the opportunity to cast an annual vote on executive compensation. At the 2013 Annual Meeting of Stockholders held on June 6, 2013, 64.9% of the votes cast on the advisory vote on executive compensation proposal were in favor of our NEO compensation as described in the proxy statement for the 2013 Annual Meeting of Stockholders. The Compensation Committee reviewed these final vote results and took them into account when considering its compensation decisions for fiscal 2013. The Compensation Committee determined that given the leadership role of the NEOs in the Company's continued steady performance the Company's executive compensation program remains appropriate and no changes were necessary. However, the Compensation Committee continues to review our executive compensation program consistent with the compensation goals set forth herein and will continue to consider the outcome of the stockholder votes on the annual executive compensation proposal when making future decisions regarding our executive officers.

Process for Determining Executive Compensation

Our Compensation Committee reviews and approves the annual base compensation and other compensation of our NEOs. Our Compensation Committee also establishes and reviews the achievement of performance goals and other matters relating to the Annual Bonus Plans.

Base Compensation

Our base compensation philosophy is to offer our executive officers compensation and benefits that are competitive and meet our goals of attracting, retaining and motivating highly skilled management, which is necessary to achieve our financial and strategic objectives and create long-term value for our stockholders. We believe the levels of base compensation we provide should be competitive, reasonable and appropriate for our business needs and circumstances.

The base compensation of our NEOs is reviewed annually and changes to base salary are made pursuant to a review process and salary increase recommendations are made by the Chief Executive Officer and subsequently reviewed and approved by the Compensation Committee. Any changes to the Chief Executive Officer base salary are discussed and approved by the Compensation Committee.

Benefits

Our policy is to provide health benefits as well as access to our 401(k) Plan to which we contribute a match of 50% on the dollar up to a 4% employee contribution (2% Company match), to all of our employees including our NEOs.

Annual Bonus Plan and Goal Sharing Plan

The Compensation Committee adopts an Annual Bonus Plans for each year which it believes incentivizes senior management to push to achieve operating results that the Compensation Committee believes will inure to the benefit of stockholders as well as management. Each Annual Bonus Plan provides goals which the Compensation Committee believes could only be achieved through extraordinary team efforts by senior management and that are designed to incentivize senior management to operate the Company in the most efficient manner possible. In developing the

Annual Bonus Plan for each year, the Compensation Committee takes into consideration the economy in general and the goals of the Company that it wishes to reward, achieving our revenue goals, our Adjusted EBITDA goals and the successful completion of Company determined critical success factors. There are also some individual goals that are provided to each of our NEOs.

Table of Contents

The NEOs also participate in a goal sharing plan which is available to all employees on a quarterly basis which has up to a 4.0% pay-out for achieving certain common goals defined for the business such as revenue goals, turnaround time metrics, cost per test goals, employee satisfaction and customer satisfaction goals. This plan has been disbanded for the current fiscal year of 2015 and the NEOs will no longer participate in this goal sharing plan.

Tax Compliance Policy

Section 162(m) of the Code generally disallows a tax deduction to public corporations for compensation in excess of \$1,000,000 paid for any fiscal year to a corporation's chief executive officer and to the three other most highly compensated executive officers in office as of the end of the fiscal year, other than the chief financial officer. The statute exempts qualifying performance-based compensation from the deduction limit if certain requirements are met. However, shareholder interests may at times be best served by not restricting the Compensation Committee's discretion and flexibility in developing compensation programs, even though the programs may result in non-deductible compensation expenses. Accordingly, the Compensation Committee may from time to time approve elements of compensation for certain officers that are not fully deductible.

Compensation Committee Interlocks
