PROXY STATEMENT

FOR ANNUAL MEETING OF SHAREHOLDERS

TO BE HELD APRIL 22, 2016

Your proxy is solicited by the Board of Directors of Graco Inc. in connection with our Annual Meeting of Shareholders to be held on April 22, 2016 and any adjournments of that meeting (the Meeting). Throughout this Proxy Statement, we may refer to Graco Inc. as us, we, Graco, our Company or the Company.

We have provided you with access to our proxy materials on the Internet. We are providing a Notice Regarding the Availability of Proxy Materials (the Notice) to our shareholders of record and our beneficial owners. All shareholders will have the ability to access the proxy materials free of charge on the website identified in the Notice or request email or paper copies of the proxy materials. The Notice contains instructions on how to access the proxy materials through the Internet or request electronic or paper copies. If your shares are held by a broker, bank, broker-dealer or similar organization, you are the beneficial owner of shares held in street name and the Notice will be forwarded to you by that organization. As the beneficial owner, you have the right to direct the organization holding your shares how to vote the shares.

The costs of the solicitation, including the cost of preparing and mailing the Notice, Notice of Annual Meeting of Shareholders, and this Proxy Statement, will be paid by us. Solicitation will be primarily through Internet availability of this Proxy Statement to all shareholders entitled to vote at the Meeting. Proxies may be solicited by our officers personally, but at no compensation in addition to their regular compensation as officers. We may reimburse brokers, banks and others holding shares in their names for third parties for the cost of forwarding proxy material to, and obtaining proxies from, third parties. The Notice will be mailed to shareholders on or about March 9, 2016, and the proxy materials will be available at that time on www.proxyvote.com.

Proxies may be revoked at any time prior to being voted by giving written notice of revocation to our Secretary. All properly executed proxies received by management will be voted in the manner set forth in this Proxy Statement or as otherwise specified by the shareholder giving the proxy.

Shares voted as abstentions on any matter will be counted as shares that are present and entitled to vote for purposes of determining the presence of a quorum at the Meeting, and as unvoted (although present and entitled to vote) for purposes of determining the approval of each matter as to which the shareholder has abstained. If a broker submits a proxy which indicates that the broker does not have discretionary authority as to certain shares to vote on one or more matters, those shares will be counted as shares that are present and entitled to vote for purposes of determining the presence of a quorum at the Meeting, but will not be considered as present and entitled to vote with respect to such matters. The election of directors and the advisory vote on our executive compensation will be considered proposals on which your broker does not have discretionary authority to vote. Thus, if your shares are held in street name and you do not provide instructions as to how your shares are to be voted on these matters, your broker or other nominee may not be able to vote your shares in these matters. Accordingly, we urge you to provide instructions to your broker or nominee so that your votes may be counted on these matters. You should vote your shares by following the

instructions provided on the voting instruction card that you receive from your broker.

The vote required for the election of directors in an uncontested election is a majority of votes cast, where the number of votes cast for a nominee exceeds the number of votes cast against a nominee. In a contested election, the vote required for the election of directors is a plurality of votes cast. In the event an incumbent director does not receive a sufficient number of the votes cast for re-election, our Corporate Governance Guidelines require that the director promptly offer to tender his or her resignation to the Board. The Governance Committee will make a recommendation to the Board on whether to accept or reject the offer. The Board, taking into account the recommendation of the Governance Committee, will decide whether to accept or reject the offer, and will publicly disclose its decision and the rationale behind it within 90 days after the date of the election. The vote required to ratify the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for the fiscal year 2016 is the greater of a majority of the shares present at the Meeting and entitled to vote, or a majority of the voting power of the minimum number of shares necessary to constitute a quorum. The vote on our executive compensation is advisory and non-binding. However, the Board will consider shareholders to have approved our executive compensation if the number of the votes cast for that proposal exceeds the number of votes cast against that proposal. An abstention will have no effect on the election of directors or the vote on our executive compensation, but will have the effect of a vote against the ratification of the appointment of Deloitte and Touche LLP.

Table of Contents

Mr. Van Sant's strong leadership experience and seasoned business valuation skills make him a key contributor to our Board on strategy and growth topics, particularly with respect to mergers and acquisitions. Qualification Standards

Our Company will only consider as candidates for director individuals who possess a high level of ethics, integrity and values, and who are committed to representing the long-term interests of our shareholders. Such candidates must be able to make a significant contribution to the governance of our Company by virtue of their business and financial expertise, educational and professional background, and current or recent experience as a chief executive officer or other senior leader of a public company or other major organization. The business discipline that may be sought at any given time will vary depending on the needs and strategic direction of our Company, and the disciplines represented by incumbent directors. In evaluating candidates for nomination as a director of Graco, the Governance Committee will also consider other criteria, including geographical representation, independence, practical wisdom, mature judgment and the ability of the candidate to represent the interests of all shareholders and not those of a special interest group. One or more of our directors is required to possess the education or experience required to qualify as an audit committee financial expert as defined in the applicable rules of the Securities and Exchange Commission.

Once elected, all directors are subject to the standards set forth in our Corporate Governance Guidelines, which include, among others, the requirement to tender the director's resignation if his or her employment status significantly changes, and the requirement to resign from the Board effective as of the date of the Annual Meeting of Shareholders next following the director's 75th birthday unless the director has current, substantial engagement in business activities that require skills relevant to Graco's business and useful to the Board. In August 2015, Mr. Van Sant reached age 77. At its September 2015 meeting, the Board considered whether Mr. Van Sant had current, substantial engagement in business activities that require skills relevant to our Company's business and useful to the Board. The Board once again unanimously determined that it would waive the mandated retirement of Mr. Van Sant, which waiver shall be reviewed annually, because Mr. Van Sant's current and substantial engagement with private equity firms and their portfolio companies requires skills relevant to Graco's business and useful to the Board.

The Governance Committee is responsible for the identification and recruitment of suitable prospective director candidates and has the sole authority to hire an outside search firm to identify director candidates. In 2015, Ms. Feragen was identified and recommended for consideration as a director on our Board by an independent search firm retained by the Governance Committee.

Qualifications of Current Directors

All of our directors meet the qualification standards and expectations described above. In addition to possessing a high level of ethics, integrity and values, excellent judgment and a commitment to representing the long-term interests of our shareholders, each of our directors brings a particular set of skills and experience that enable him or her to make a significant contribution to the governance of our Company.

Board Diversity

In considering whether to recommend an individual for election to our Board, the Governance Committee considers diversity of experience, geographical representation, gender and race, in addition to the other qualifications described in the Qualification Standards section above. The Committee views diversity expansively and considers, among other things, functional areas of business and financial expertise, educational and professional background, and those competencies that it deems appropriate to develop a cohesive Board such as ethics, integrity, values, practical wisdom, mature judgment and the ability of the candidate to represent the interests of all shareholders and not those of a special interest group.

Our Board of Directors and each of its committees engage in an annual self-evaluation process. As part of that process, directors, including our President and Chief Executive Officer, provide feedback on, among other things, whether the Board has the right set of skills, experience and expertise. This evaluation encompasses a consideration of diversity as described above.

Table of Contents

Nominee Selection Process

The selection process for director candidates reflects guidelines established from time to time by the Governance Committee. A shareholder seeking to recommend a prospective candidate for the Governance Committee's consideration should submit such recommendation in writing, addressed to the Governance Committee in care of the Secretary of the Company at our Company's corporate headquarters.

To nominate a director, our bylaws provide that timely notice must be received by the Secretary not less than 90 days prior to the anniversary of the date of our Annual Meeting of Shareholders. The nominations must set forth: (i) the name, age, business and residential addresses and principal occupation or employment of each nominee proposed in such notice; (ii) the name and address of the shareholder giving the notice and any beneficial owner on whose behalf the nomination is made, as they appear in our Company's stock register; (iii) the number of shares of capital stock of our Company which are beneficially owned by, or any other direct or indirect interest in the capital stock of our Company held by, each such nominee and such shareholder; and (iv) such other information concerning each such nominee as would be required under the rules of the Securities and Exchange Commission in a proxy statement soliciting proxies for the election of such nominee. Such notice must also include a signed consent of each such nominee to serve as a director of our Company, if elected. Shareholder nominees will be evaluated in the same manner as nominees from other sources.

DIRECTOR INDEPENDENCE

Our Board of Directors has determined that Mr. Carroll, Mr. Etchart, Mr. Eugster, Ms. Feragen, Mr. Gilligan, Mr. Mitau, Ms. Morfitt and Mr. Van Sant are independent directors. The independent directors constitute a majority of the Board, and the only director who is not independent is Mr. McHale, the Company's President and Chief Executive Officer. In making its determination regarding the independence of the directors, our Board noted that each independent director meets the standards for independence set out in the New York Stock Exchange corporate governance rules, and that there is no material business relationship between our Company and any independent director, including any business entity with which any independent director is affiliated.

In making its determination, our Board reviewed information provided by each of the independent directors and information gathered by our management, and determined that none of the independent directors have any relationship with our Company other than as a director and shareholder.

BOARD LEADERSHIP STRUCTURE

Our Corporate Governance Guidelines provide for the position of Chairman of the Board of Directors, who may or may not be the same person who serves as our President and Chief Executive Officer. Mr. Mitau has served as our independent Chairman of the Board from May 2002 until April 2006 and again since June 2007. Our Board currently believes that separating the roles of Chairman of the Board and CEO is appropriate for our Company because, in the wake of difficult or volatile economic times such as those experienced during the economic recession of the late 2000's, it is desirable to have our CEO focused on the management and operation of our business without the additional responsibilities of Chairman. Moreover, Mr. Mitau has significant public company and governance experience. Our Corporate Governance Guidelines set forth several responsibilities of the Chairman of the Board, including setting agendas for board meetings and presiding at executive sessions of non-employee directors.

BOARD OVERSIGHT OF RISK

Our Board of Directors takes an active role in oversight of our Company's risk by assessing risks inherent in our Company's decisions and key strategies. The Audit Committee specifically discusses policies with respect to risk assessment and risk management as part of its responsibility to oversee our Company's compliance with legal and regulatory requirements.

Our Company engages in an Enterprise Risk Management (ERM) process. The ERM process consists of periodic risk assessments performed by each division, region and functional group during the year. Executive management periodically reviews the divisional, regional and functional risk assessments. These assessments are presented to the Audit Committee each September for approval to ensure completeness, appropriate oversight and review. We believe that the active oversight role played by our Audit Committee, which consists solely of independent directors, provides the appropriate level of independent oversight of risk within our Company.

MEETINGS OF THE BOARD OF DIRECTORS

During 2015, our Board of Directors met five times. Attendance of our directors at all Board and committee meetings averaged 98%. During 2015, every director attended at least 75% of the aggregate number of meetings of the Board and all committees of the Board on which he or she served. Our Corporate Governance Guidelines require that each director make all reasonable efforts to attend the Company’s Annual Meeting of Shareholders. In 2015, all of the then-serving directors attended the Annual Meeting of Shareholders. Each regularly scheduled meeting of the Board includes an executive session of only non-employee directors. Mr. Mitau, Chairman of the Board, presides at the executive sessions.

Audit Committee (8 meetings in fiscal year 2015)

The Audit Committee is composed entirely of directors who meet the independence requirements of the Securities Exchange Act of 1934. All of the Audit Committee members are, in the judgment of the Board, financially literate. Our Board has determined that Mr. Carroll, Ms. Feragen and Mr. Van Sant are audit committee financial experts.

The Audit Committee assists the Board in its oversight of the integrity of our financial statements, our compliance with legal and regulatory requirements, the qualification and independence of the independent auditor, and the performance of the internal audit function and the independent auditors.

The responsibilities of the Audit Committee are set forth in a written charter. The Audit Committee has reviewed and reassessed the adequacy of its charter and concluded that the charter satisfactorily states the responsibilities of the Audit Committee. The Audit Committee Charter was most recently approved by the Board on February 18, 2011.

Governance Committee (6 meetings in fiscal year 2015)

The Governance Committee has the following functions:

- Sets criteria for the selection of prospective Board members, identifies and recruits suitable candidates, and presents director nominees to the Board;

Periodically evaluates our Company's shareholder value protections, board structure, and business continuity provisions, and recommends any changes to the Board; and

Recommends to the Board requirements for Board membership, including minimum qualifications and retirement policies; the appropriate number of directors; the compensation, benefits and retirement programs for directors; the committee structure, charters, chairs and membership; the number and schedule of Board meetings; a set of Corporate Governance Guidelines; and the appropriate person(s) to hold the positions of Chair of the Board and Chief Executive Officer.

The responsibilities of the Governance Committee are fully set forth in its written charter, which was most recently approved by the Board on February 17, 2006.

Reviews the performance of the Chief Executive Officer based on individual goals and objectives, and communicates to the CEO its assessment of the CEO's performance on an annual basis;

Administers our Company's stock option and other stock-based compensation plans; and

Reviews and makes recommendations on executive management organization and succession plans. The responsibilities of the Management Organization and Compensation Committee are fully set forth in its written charter, which was most recently approved by the Board on September 20, 2013.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

None of the members of the Board who served on the Management Organization and Compensation Committee during 2015 has ever been an officer or employee of our Company or any of its subsidiaries.

- (1) Approximate economic value of annual equity grant based on Black-Scholes value per share on the date two days prior to the date of grant.

A non-employee director may elect to receive shares of our common stock instead of cash for all or part of the director's annual retainer (including committee chair retainer) and meeting fees. A director may choose to receive the shares currently or defer receipt until the director leaves the Board, at which time the director may receive the shares in a lump sum or installments. Payments, whether in a lump sum or by installments, will be made in shares of common stock, plus cash in lieu of any fractional share. When our Board declares a dividend, the director's deferred stock account is credited with additional shares of stock in an account held by a trustee in the name of the non-employee director equivalent to the number of shares that could be purchased with the dividends at the current fair market value of the shares.

Non-employee directors receive an annual option grant. In 2015, non-employee directors received an annual option grant of 5,440 shares on the date of the Company's Annual Meeting of Shareholders. The number of shares granted was based on an estimated Black-Scholes value of \$21.13 per share on April 22, 2015, and an economic value of approximately \$115,000. Upon first joining the Board, non-employee directors are also eligible to receive an initial option grant with an economic value equal to that of the most recent option grant for non-employee directors. Ms. Feragen received an initial option grant of 6,030 shares on

Table of Contents

September 17, 2015. The number of shares granted to Ms. Feragen was based on an estimated Black-Scholes value of \$19.07 on September 16, 2015, and an economic value of approximately \$115,000. Options granted to non-employee directors are issued under the Graco Inc. 2015 Stock Incentive Plan. The options are non-statutory, have a 10-year duration and become exercisable in equal installments over four years, beginning with the first anniversary of the date of the grant. The option exercise price is the fair market value of the stock on the date of grant, as defined in the plans. The plans define fair market value as the last sale price of the stock as reported by the New York Stock Exchange on the date immediately prior to the date of grant.

Our Board's philosophy is to target retainer and meeting fee compensation at a level approximately comparable to the median of the market, and to target equity compensation in the form of stock options at a level approximately comparable to the 75th percentile of the market, in order to attract and retain capable Board members, to encourage above-market Company performance, and to strengthen the link between our director compensation program and the interests of our shareholders in Graco stock performance.

Our Governance Committee requested that the Graco Compensation Department conduct a peer group comparison of director compensation and present such data at its February 2015 meeting. The peer companies selected for the comparison matched the peer group identified for executive compensation on page 20 of the Compensation Discussion and Analysis section of the Proxy Statement for the 2015 Annual Meeting of Shareholders. In reviewing the peer group comparison, the Governance Committee concluded that its current retainer and meeting fee compensation, in the aggregate, was approximately at the median of the peer group, and that the economic value of its equity compensation, in the aggregate, was approximately at the 75th percentile of the peer group, so no changes were proposed for 2015.

Our Governance Committee retained Willis Towers Watson to conduct a peer group comparison of director compensation and present such data at its February 2016 meeting. The peer companies used for the 2016 benchmarking study matched the peer group identified for executive compensation on page 20 of the Compensation Discussion and Analysis section of this Proxy Statement. In reviewing the peer group comparison, the Governance Committee concluded that total director compensation fell below the median of the peer group. As a result, the Board of Directors, upon recommendation of the Governance Committee, determined that, effective May 1, 2016, the annual retainer for non-employee directors (excluding the Chairman) will increase from \$50,500 to \$65,000, and that the annual retainer for the Chairman will increase from \$75,000 to \$95,000. The Board of Directors also determined that board and committee meeting fees will be eliminated in favor of annual retainers of \$5,000 for the Governance Committee, \$5,000 for the Management Organization and Compensation Committee, and \$10,000 for the Audit Committee. In addition, the Board of Directors determined that committee chair annual retainers will remain the same, and that, effective immediately, the economic value of the annual option grant for non-employee directors and the initial option grant for non-employee directors first joining the Board will increase from \$115,000 to \$125,000. As a result of the foregoing determinations, non-employee director cash and equity compensation will approximate the 50th and 75th percentiles of the peer group, respectively.

Share ownership guidelines for our directors were adopted effective February 15, 2008. The guidelines require each of our non-employee directors to own a minimum of approximately five times the total value of their annual retainer and meeting fees in Company stock. Shares of common stock directly and beneficially owned, as well as phantom stock shares, are used to calculate each director's ownership level; stock options are not used. Directors have five years from their initial date of appointment to reach the minimum ownership level. All of our directors who have served for at least five years exceed this ownership requirement.

In February 2001, our Board terminated the retirement benefit for non-employee directors, which provided that, upon cessation of service, a non-employee director who has served for five full years or more will receive payments for five

years at a rate equal to the director's annual retainer in effect on the director's last day of service on the Board. The annual retainer calculation is set at the rate then in effect for the non-Chairman annual retainer and does not include Committee Chair retainer fees. Such retirement payments will be prorated and made quarterly. Payments will be made in accordance with this retirement benefit to Mr. Mitau and Ms. Morfitt upon their respective retirements.

- (3) Each non-employee director received an annual option grant of 5,440 shares on April 24, 2015, the date of the Annual Meeting of Shareholders. The amounts reported in the Option Awards column represent the aggregate grant date fair value of stock options granted in 2015, computed in accordance with financial accounting principles, which is based on a per share value of \$21.01 for options granted on April 24, 2015. Ms. Feragen received an initial option grant of 6,030 shares on the effective date of her appointment to the Board. The per share value of the stock options granted to Ms. Feragen on September 17, 2015, was \$19.07. Mr. Mitau	13,325	48,461
Ms. Morfitt	13,325	35,561
Mr. Van Sant	13,325	40,561

- (4) Prior to February 2001, non-employee directors who served five or more full years on the Board were eligible for a retirement benefit when they left the Board. In February 2001, the Board terminated this retirement benefit for those non-employee directors who had not met the five-year service level. Mr. Mitau and Ms. Morfitt, who satisfied the service requirement in 2001, will receive this retirement benefit when they leave the Board. The underlying plan provides that,

Table of Contents

upon retirement, an eligible non-employee director shall receive quarterly payments for five years equal to one-fourth of the annual base retainer of the non-Chairman directors in effect immediately prior to the director's retirement. The plan further provides that if an eligible non-employee director dies before retirement, payment shall be made to the director's beneficiary (or estate if no beneficiary is designated) in one lump sum in an amount equal to the total amount of the payments that would have been made had he or she retired on the date of his or her death and survived to the date of the final payment.

- (5) The assumptions that were made in calculating the aggregate change in the actuarial present value of the accumulated benefit are as follows:

Discount rate: 4.70% at December 31, 2015.

Retirement age: The plan does not have a specified normal retirement age. Therefore, the values reflect the increase/decrease in present value of the accrued benefit as of December 31, 2015.

Form of payment: Five-year certain (payable quarterly).

- (6) As of December 31, 2015, the aggregate change in the actuarial present value of the accumulated benefit was -\$2,000 for each of Mr. Mitau and Ms. Morfitt.

AUDIT COMMITTEE REPORT

Report of the Audit Committee

The Audit Committee has reviewed and discussed the audited financial statements of our Company for the fiscal year ended December 25, 2015 (the Financial Statements) with both the Company's management and its independent registered public accounting firm, Deloitte & Touche LLP. The Audit Committee has discussed with Deloitte & Touche LLP the matters required by the applicable Public Company Accounting Oversight Board standards. Our management has represented to the Audit Committee that the Financial Statements were prepared in accordance with accounting principles generally accepted in the United States of America.

The Audit Committee has received from Deloitte & Touche LLP the written disclosure and the letter required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the Audit Committee concerning independence, and the Audit Committee has discussed with Deloitte & Touche LLP its

independence. The Audit Committee has also received written material addressing Deloitte & Touche LLP's internal quality control procedures and other matters, as required by the New York Stock Exchange listing standards. The Audit Committee has considered the effect of non-audit fees on the independence of Deloitte & Touche LLP and has concluded that such non-audit services are compatible with the independence of Deloitte & Touche LLP.

Based on these reviews and discussions, the Audit Committee recommended to our Board of Directors that the Financial Statements for the fiscal year ended December 25, 2015, be included in the Company's 2015 Annual Report on Form 10-K for filing with the Securities and Exchange Commission.

The Members of the Audit Committee

Mr. William J. Carroll, Chair
 Mr. Eric P. Etchart
 Mr. Jack W. Eugster
 Ms. Jody H. Feragen

Independent Registered Public Accounting Firm Fees and Services

The following table sets forth the aggregate audit fees incurred by Graco Inc. and its subsidiaries from our Company's independent registered public accounting firm, Deloitte & Touche LLP, the member firms of Deloitte Touche Tohmatsu and their respective affiliates (collectively, the Deloitte Firms), and the fees paid to the Deloitte Firms for services in the other fee categories during the fiscal years ended December 25, 2015 and December 26, 2014. The Audit Committee has considered the scope and fee arrangements for all services provided by the Deloitte Firms to our Company, taking into account whether the provision of non-audit services is compatible with maintaining the Deloitte Firms' independence. The Audit Committee pre-approved 100% of the services described below.

Audit Fees ⁽¹⁾	\$ 1,051,000	\$ 1,615,000

Tax Fees ⁽²⁾	\$ 590,000	\$ 437,000
Total	\$ 1,641,000	\$ 2,052,000

Pre-Approval Policies

The Audit Committee's policy on approval of services performed by the independent registered public accounting firm is to pre-approve all audit and permissible non-audit services to be provided by the independent registered public accounting firm during the fiscal year. The Audit Committee reviews each non-audit service to be provided and assesses the impact of the service on the firm's independence.

Table of Contents**EXECUTIVE COMPENSATION****Compensation Discussion and Analysis*****Overview***

In 2015, the Company again achieved record levels of sales and earnings and increased its dividend while continuing to invest in its four core strategies for growth and long-term value creation: new product development; new markets; global expansion; and acquisitions. During the year, net sales were \$1.286 billion (up 5% from 2014), diluted earnings per share (EPS) were \$5.86 (up 61% from 2014), and dividends paid per share were \$1.20 (up 9% from 2014 out of 16 consecutive annual increase). Net income included \$141 million (\$2.40 per diluted share) related to the sale in 2015 of the Liquid Finishing business assets that had been acquired in 2012 and held as a cost-method investment. Total shareholder return during the period was -9%. The Company's short-term cash incentive plan continued to use net sales and EPS as the sole metrics to reward top and bottom-line performance. The EPS metrics used for 2015 were adjusted to exclude certain unusual items as defined by the Management Organization and Compensation Committee (for purposes of this Executive Compensation section, the MOCC), as described in more detail on pages 22 and 23, which we refer to as Adjusted EPS. Accordingly, the Adjusted EPS measures in this Proxy Statement differ from the similarly named measure reported in our earnings releases. For 2015, Adjusted EPS were \$3.52. The following charts detail the Company's net sales and Adjusted EPS results against targets and prior year performance.

The Company's named executive officers (Named Executive Officers or NEOs) for 2015 were:

Name	Title
Patrick J. McHale	President and Chief Executive Officer
Christian E. Rothe	Chief Financial Officer and Treasurer (Effective September 1, 2015)
Dale D. Johnson	Vice President and General Manager, Contractor Equipment Division
Mark W. Sheahan	Vice President and General Manager, Applied Fluid Technologies Division
Karen P. Gallivan	Vice President, General Counsel and Secretary
James A. Graner	Former Chief Financial Officer (Retired August 31, 2015)

Consideration of Say-on-Pay Voting Results

The MOCC targets a competitive and equitable executive compensation program that rewards Company (or, in some cases, region or division) and individual performance. In making executive compensation decisions, the MOCC considers the results of the most recent advisory, non-binding vote on the compensation paid to our NEOs. At the Annual Meeting of Shareholders in April of 2014, our shareholders approved the compensation paid to our NEOs by over 93%. The MOCC believes this favorable outcome reflects our shareholders' strong support of the Company's executive compensation philosophy, program and practices. As a result, the MOCC determined it was not necessary to make any material changes to the Company's executive compensation program for 2015. Our executive compensation

received a similar level of support at the Annual Meeting of Shareholders in April of 2015, of over 94%.

Table of Contents***Compensation Philosophy***

Pay-for-Performance	Shareholder Alignment	Accountability for Short- and Long-Term Performance
All components of variable compensation are tied to the performance of the Company, division or region.	Long-term incentives are designed to align the financial interests of the executive officers with the long-term interests of the Company's shareholders.	Annual performance bonuses and long-term incentives are intended to reward a reasonable and competitive balance of short- and long-term financial and strategic business results, with an emphasis on managing the business over the long-term.
Competitiveness	Attraction and Retention	
All components of compensation are designed to be competitive with companies in similar industries with comparable sales volume and financial performance in order to attract, retain and motivate high performing executives in an environment where companies are increasingly competing for high-caliber talent.	Graco's executive compensation program is designed to achieve the Company's goal of attracting, developing and retaining global business leaders who can establish and drive financial and strategic growth objectives that are intended to build long-term shareholder value.	
Reducing the Possibility for Excessive Risk-Taking		

The Company's executive compensation program is designed to motivate and reward the executive officers for their performance during the fiscal year and over the long-term, and for taking appropriate risks toward achieving the long-term financial and strategic growth objectives of the Company. Certain characteristics of the Company's executive compensation program are designed to motivate our executive officers, individually and as a group, to not take excessive risks that could maximize short-term results at the expense of long-term value. These characteristics include:

Balanced Mix of Pay Components: The target compensation mix represents a balance of base salary, short-term and long-term incentive-based compensation.

Vesting Schedules: Long-term incentives typically vest over four years and have overlapping vesting schedules, thereby reducing an executive officer's motivation to maximize performance in any one period.

Capped Incentive Awards: Annual short-term incentive payouts are capped.

Recoupment Policy: If there is a material restatement of a financial statement due to an executive officer's intentional misconduct or fraud, our executive officers must, upon request of the MOCC, pay back the portion of any short-term incentive payment that would not have been earned if the payment had originally been made based on the restated financials, net of taxes. In addition, any executive officer who engaged in the intentional misconduct or fraud that caused or contributed to the need for the restatement must, upon request of the MOCC, pay back the *entire* amount of any short-term incentive payment, net of taxes. If an executive officer is terminated for gross and willful misconduct, including but not limited to misconduct that caused or contributed to the need for a material restatement of a financial statement, the executive officer's unexercised options will terminate as of the time of the misconduct. Similarly, if the Company determines that an executive officer who is no longer with the Company engaged in gross and willful misconduct while employed by the Company, the executive officer's unexercised options will terminate as of the time of the misconduct. Further, if an executive officer's options are exercised and the Company later determines that the executive officer engaged in gross and willful misconduct during employment before the options were exercised, the executive officer's options will be terminated as of the time of the misconduct and the Company may rescind the exercise of the options.

Stock Ownership Guidelines: We require the CEO to retain, until twelve months following retirement or other termination of employment, an amount equal to 50% of net shares from awards granted under the Company's equity programs, and to own a minimum of five times the CEO's annual base salary in Company stock. Executive officers below the CEO level are required to retain, until retirement or other termination of employment, an amount equal to 50% of net shares from awards granted under the Company's equity programs on or after April 23, 2010 up to three times the current base salary for individuals reporting directly to the CEO and two times the current base salary for individuals reporting to someone other than the CEO.

Compensation Risk Assessment

The Company's Internal Audit Department conducts an annual risk assessment on the Company's executive compensation program and presents its findings to the MOCC and the Audit Committee. The risk assessment identifies, among other things, certain potential risks in the Company's short- and long-term incentive plans and the Company's severance and change of control arrangements, and various factors that serve to mitigate those risks. Such mitigating factors include those set forth above, as well as the annual plan design and benchmarking review by the independent compensation consultant and the MOCC, the MOCC's review and approval of incentive awards, the Company's internal controls, and the use of double-triggers in severance and change of control arrangements. At its September 2015 meeting, the MOCC reviewed and discussed the risk assessment and determined that the Company's executive compensation program is not likely to have a material adverse impact on the Company, and recommended that the Audit Committee make the same determination as well. As a result, the MOCC did not make any changes to the Company's executive compensation program.

Table of Contents

Executive Officer Compensation Processes

The MOCC uses the following resources, processes and procedures to help it effectively perform its responsibilities:

Executive sessions without management present to discuss various compensation matters, including the compensation of our CEO;

An independent executive compensation consultant who advises the MOCC from time to time on compensation matters;

An annual review of all executive compensation and, when applicable, benefit programs for competitiveness, reasonableness and cost-effectiveness;

Program design and competitive market data for each compensation component using a reputable third-party salary survey of similarly sized manufacturing companies and industry peer group data;

An annual review of NEO compensation and benefits tally sheets;

An annual assessment of the executive compensation program to ensure it is consistent with the MOCC's philosophy of reducing the possibility of excessive risk-taking; and

Consideration of the results of the most recent advisory, non-binding vote on the compensation of the NEOs.

Executive Compensation Consultant

The MOCC has the authority under its charter to engage the services of outside consultants, to determine the scope of the consultants' services and to terminate such consultants' engagement. The MOCC retained Willis Towers Watson as its independent outside executive compensation consultant to advise the MOCC on matters relating to the determination of base salary, short-term incentive and long-term incentive programs for the Company's executive officers.

In its capacity as the executive compensation consultant, Willis Towers Watson advises the MOCC on the following matters:

Preparing a competitive compensation review of the CEO and other executive officer positions, including a peer group analysis;

Providing advice and guidance with respect to trends and regulatory issues related to executive compensation;

Reviewing the composition of the industry peer group used to benchmark executive compensation; and

Reviewing the Company's executive compensation risk assessment.

Our Company's management engaged Willis Towers Watson to perform certain non-executive compensation services in 2015. The total fees for these services were less than \$120,000.

The MOCC reviews the independence of the executive compensation consultant on an annual basis. In evaluating Willis Towers Watson's independence, the MOCC considers all factors relevant to Willis Towers Watson's independence from management, including the following:

The provision of other services to the Company by Willis Towers Watson;

The amount of fees received by Willis Towers Watson from the Company as a percentage of Willis Towers Watson's total revenue;

Willis Towers Watson's compliance with the policies and procedures it has adopted to prevent conflicts of interest;

The lack of any business or personal relationships between the individual Willis Towers Watson consultants performing services for the Company and any member of the MOCC;

Table of Contents

The lack of any ownership of Company stock by the individual Willis Towers Watson consultants performing services for the Company; and

The lack of any business or personal relationships between any executive officers of the Company and Willis Towers Watson or the individual Willis Towers Watson consultants performing services for the Company.

Based on its review, the MOCC concluded there was no conflict of interest that impaired Willis Towers Watson's independence.

Role of Management in Executive Compensation Decisions

Our management is involved in the following executive compensation processes:

The Vice President, Human Resources and Corporate Communications (Vice President HR) and the Compensation Manager develop and oversee the creation of written background and supporting materials for distribution to the MOCC prior to its meetings;

The CEO, the Vice President HR, the Vice President, General Counsel and Secretary and the Compensation Manager attend the MOCC's meetings, but leave during the executive officer performance review discussion (except for the CEO who only leaves for the discussion of his performance review) and the non-employee director executive sessions;

The CEO and the Vice President HR review executive officer compensation competitive analyses and annually present and make recommendations to the MOCC relating to short- and long-term incentive plan designs and changes, if warranted;

The CEO annually recommends to the MOCC base salary adjustments and long-term incentive awards for all executive officers, excluding the CEO (management does not make a recommendation on CEO pay or pay components); and

Following the MOCC's executive sessions, the Chair of the MOCC provides the Vice President HR with a summary of the executive session decisions, actions and underlying rationale for implementation, as appropriate.

Benchmarking

The MOCC annually retains Willis Towers Watson to provide survey market data of companies with similar revenues for all executive officer positions, with a focus on the manufacturing industry. The MOCC meets in the fall of each year to review this market data. The market data is derived from Willis Towers Watson's database and is statistically adjusted to reflect variation in revenues among the companies. The MOCC is presented with data showing total direct compensation amounts at the 50th and 75th percentiles of the market data. In addition, the MOCC considers data from this survey reflecting the general mix of compensation elements among base salary, short-term incentives and

long-term incentives. At the same time, the MOCC reviews information showing the relative positioning of the compensation of the Company's executive officers in relation to the market data. When reviewing the relative positioning of each executive officer's total direct compensation level, the MOCC compares each executive officer to generally comparable positions identified within the market data. The purpose of this annual review is to gather a general sense for whether the Company's compensation levels and mix of compensation elements are generally consistent with this market data, with a general expectation that total direct compensation should be between the 50th and the 75th percentiles of the market data depending on Company and individual performance. At the same time, Willis Towers Watson provides general information to the MOCC about market trends and expected compensation level changes for the upcoming fiscal year (Market Increase Projection).

At the MOCC's last meeting of each fiscal year, the MOCC sets base salaries for executive officers for the upcoming fiscal year. The decisions about the specific base salary levels are based on individual performance and budgetary constraints, and are guided by the 50th percentile of the market data without a specific market position targeted.

At the MOCC's first meeting of each fiscal year, the MOCC approves short-term incentive targets and long-term incentive awards. The target short-term cash award is determined as a percentage of base salary for the executive officer annual incentive plan, which percentage has been consistent for several years. The MOCC targets the value of the long-term incentive awards for the NEOs at the 75th percentile for comparable positions within the Willis Towers Watson database, although the number of shares granted may be adjusted downward based on the Company's stock dilution guidelines and internal equity. The reason for targeting the 75th percentile is to encourage above-market performance. In addition, the MOCC believes that the opportunity for above-market compensation should be primarily earned in the area of long-term performance. Once the value of the long-term

incentive award is determined, the number of shares subject to the equity awards granted to each executive officer is determined by dividing the long-term incentive award value by a projected Black-Scholes value based on assumptions used for financial accounting purposes.

Refer to the discussions of each compensation element below, as well as the Compensation of Individual Named Executive Officers section below, for specific information on how this benchmarking process applied to specific compensation decisions for our NEOs for 2015.

Our Company's Peer Group

The Company's peer group (the Graco Peer Group) was revised in 2013 with the assistance of Willis Towers Watson to improve the alignment of the Graco Peer Group with the Company based on similarity to us on a variety of factors, including industry, size, labor market, growth trajectory and valuation as compared to revenue. The following table lists the companies in the Graco Peer Group and includes financial and headcount data for the Company and the Graco Peer Group:

(1) Pall Corporation was removed from the Graco Peer Group at the time it was acquired by Danaher Corporation in August 2015.

(2) Represents most recent fiscal year data available from Equilar as of January 27, 2016.

Given that compensation data for the CEO and CFO positions of the Graco Peer Group are readily available in securities filings, the MOCC used the Graco Peer Group as a primary source of data when setting 2015 compensation levels for the Company's CEO and CFO. Compensation data for all other executive officer positions in the Graco Peer Group are limited to those executive officers identified in securities filings, which positions may or may not correspond to the positions held by, and responsibilities of, our other executive officers. Therefore, the MOCC used the Willis Towers Watson survey data as a primary source of data, and the Graco Peer Group as a secondary source of data to the extent applicable, when setting 2015 compensation levels for the Company's other executive officers.

Table of Contents***Components of the Executive Compensation Program***

Our executive compensation program is designed to reward short-term results and motivate long-term performance through the use of three primary total compensation components: base salary; short-term incentives; and long-term incentives. The following table summarizes each of these components of compensation:

Component	Form of Compensation	Purpose	Key Characteristics	At Risk
Base Salary	Cash	Recognizes individual work experience, performance, skill and level of responsibility	Fixed compensation Guided by the 50 th percentile market data, but subject to individual performance in prior year and budget constraints Used to compute other components of compensation	No
Short-Term Incentives (STI)	Cash	Establishes a strong link between pay and results Motivates attainment of annual key business objectives	Variable compensation tied to actual performance Bonus thresholds, targets and maximums are set as a percentage of base salary	Yes, fluctuates based on corporate and division/region performance; may not pay out if pre-established, measurable goals are not met
Long-Term Incentives (LTI)	Stock options	Motivates attainment of the long-term goals and overall operational growth Aligns executives' interests with shareholders	Variable compensation provided to reward Company's long-term performance Annual vesting of 25% over a four-year period from grant date	Yes, stock options increase in value only if share price rises above grant date fair market value

In addition to reviewing the benchmark data described above, the MOCC reviews compensation and benefits tally sheets for our NEOs showing their current and potential total compensation and benefits components. The tally sheets also display projected compensation and benefits for hypothetical change of control and involuntary and voluntary terminations. Specifically, the tally sheets reviewed by the MOCC in September 2015 provided actual compensation for 2013 and 2014 and target annual compensation for 2015. These tally sheets also provided retirement balances as of December 31, 2014, projected to normal retirement age or the age at which the benefit is not subject to reduction, deferred compensation balances and the projected value of stock awards based on assumptions regarding stock price appreciation.

The MOCC strives to maintain a reasonable and competitive balance between fixed and variable elements of compensation. The MOCC believes the compensation mix and amount paid to each of our executive officers is market-based, reasonable and competitive. The 2015 pay mix at target for our CEO and other NEOs is displayed below. The percentage allocation among each pay element may vary based on an individual's experience, responsibilities, performance and corporate/division/region results. The at risk pay components comprised between 65% and 85% of the total target annual direct compensation for 2015 to align our NEOs' compensation with the performance of the Company and the creation of shareholder value.

Base Salary

Base salary is fixed compensation. Annual salary increases are predominately driven by individual performance, taking into account factors related to the NEO's areas of responsibility, the NEO's ability to contribute to our future success, and budgetary constraints.

For 2015, the merit increase decisions for the NEOs were based on the criteria identified above. Additional information on individual salary adjustments for 2015 is provided in the Compensation of Individual Named Executive Officers section below.

Short-Term Incentives (STI)

The Graco Inc. Incentive Bonus Plan (the Incentive Bonus Plan) is designed to motivate the executive officers of the Company to improve the overall performance of the Company and to reward them when the Company achieves specific measurable results. The Incentive Bonus Plan provides cash rewards to executive officers to encourage them to produce a strong return for the Company's shareholders and to encourage them to remain employees of the Company. The Incentive Bonus Plan gives the MOCC discretion to grant awards that qualify as performance-based compensation under Section 162(m) of the Internal Revenue Code, as well as awards that are not intended to so qualify. The MOCC has the discretion to designate executive officers and other employees of the Company as participants in the Incentive Bonus Plan. The Incentive Bonus Plan also permits the MOCC to establish performance periods based on a performance period of any length. Potential payouts under the Incentive Bonus Plan are expressed as a percentage of base salary, which percentages have remained constant within each level (CEO and other executive officers) for several years. Specific financial performance thresholds must be attained in order for the executive officers to earn an incentive payment. If specified performance levels are not achieved or exceeded, there is no payout. The annual incentives, to the extent earned, are typically paid in cash in March following the calendar year-end and are based upon the MOCC's determination of financial performance against pre-established targets.

At its meeting in February 2015, the MOCC approved participation of the CEO and other executive officers in the Incentive Bonus Plan for 2015. The MOCC designated Mr. McHale as the only participant whose bonus award is intended to qualify as performance-based compensation under Section 162(m). The threshold, target and maximum payout levels as a percent of target and as a percent of base salary for 2015 are displayed below. Achievement of performance levels between threshold and target, and target and maximum, result in a payout that is interpolated based on the level of performance, and permit a partial payout as soon as the threshold level of achievement has been exceeded.

The MOCC established two financial measures for the Incentive Bonus Plan: net sales and EPS growth over the prior year. Net sales and EPS growth were selected as the metrics against which to measure the executive officers performance for the Incentive Bonus Plan because the MOCC desires to motivate the officers to achieve profitable business growth consistent with our long-term financial objectives. The MOCC utilized projected global gross domestic product (GDP) growth rates as a guide in setting the 2015 target performance levels. At the time the MOCC established the 2015 target performance levels, the MOCC determined that final bonus payout calculations for corporate, worldwide division and region EPS would exclude certain purchase accounting and one-time transaction costs related to acquisitions, and exclude any dividends or earnings received from the liquid finishing (Liquid Finishing) businesses acquired from Illinois Tool Works, Inc. (ITW) in April 2012 that were held separate from the Company's other businesses by order of the United States Federal Trade Commission (FTC). These adjustments

resulted in Adjusted EPS of \$3.52. For any participant whose bonus award is intended to qualify as performance-based compensation under Section 162(m), the MOCC further determined that the calculation for EPS would include any gain on

Table of Contents

divestiture of the Liquid Finishing business, and exclude the effect of write-down or write-off of intangible assets (other than regular amortization), although the MOCC reserved the right to exercise negative discretion to exclude any such gain and/or include the effect of write-down or write-off of intangible assets, thereby reducing the amount of any payout that may otherwise be payable to any such participant. In calculating final 2015 bonus payouts, the MOCC elected not to exercise negative discretion to exclude the gain on divestiture of the Liquid Finishing business from the EPS calculation for Mr. McHale, the sole participant whose bonus award is intended to qualify as performance-based compensation under Section 162(m). As a result, 2015 Adjusted EPS results for Mr. McHale were higher than for the other executive officers.

The 2015 incentive award payouts were based upon the achievement of specified levels of net sales and Adjusted EPS at the corporate and division/region levels. Financial performance levels and actual results for the 2015 Incentive Bonus Plan were as follows:

For the portion of the annual performance period beginning January 1, 2015 and ending August 31, 2015, Mr. Rothe's annual base salary was \$268,200, his target payout was 40% of his base salary, and his maximum payout was 80% of his base salary. For the portion of the annual performance period beginning September 1, 2015 and ending December 25, 2015, Mr. Rothe's annual base salary was increased to \$350,000, his target payout was increased to 70% of his base salary, and his maximum payout was increased to 105% of his base salary.
- (2) Represents Mr. Graner's base salary earnings from January 1, 2015 until his retirement on August 31, 2015. Mr. Graner's annual base salary for 2015 was \$425,100.

The MOCC has the authority to make adjustments to Incentive Bonus Plan awards that are not intended to qualify as performance-based compensation under Section 162(m) based on unanticipated or special circumstances, but no such adjustments were made. The MOCC also has the authority to award special bonuses outside of the Incentive Bonus Plan to individual executive officers. At its February 2016 meeting, the MOCC awarded special discretionary bonuses to each individual who served as an executive officer during fiscal year 2015, other than Mr. McHale, as more fully described below.

In March 2012, the FTC issued an order that allowed the Company to proceed to closing on the Company's April 2012 acquisition of the finishing businesses of ITW. Pursuant to the order, the Liquid Finishing business was to be held separate from the rest of the Company's businesses and maintained as a viable and competitive business until the FTC determined which portions, if any, of the Liquid Finishing business the Company would be required to divest. In October 2014, the FTC approved a final decision and order requiring the Company to divest the entire Liquid Finishing business within 180 days of the final order. On April 2, 2015, the Company successfully completed the divestiture of the Liquid Finishing business in compliance with the final order. The Company recognized a \$150 million pre-tax gain on sale, net of transaction and other related expenses, as a result of the divestiture, and received dividend income of \$42 million from the Liquid Finishing business in 2015 prior to the divestiture. The gain on sale and dividend income were not included in the EPS calculation for the executive officer incentive bonus award payouts under the Incentive Bonus Plan, other than for Mr. McHale, whose EPS calculation included the gain on sale (but not the dividend income). At its February 2016 meeting, the MOCC awarded a discretionary bonus to the individuals who served as executive officers during fiscal year 2015, other than Mr. McHale, to: (i) recognize their efforts in connection with the divestiture; and (ii) account for the economic value created by the divestiture and the Liquid Finishing business dividends distributed to the Company in 2015. The MOCC did not award a discretionary bonus to Mr. McHale as the gain on divestiture was included in the EPS calculation for his incentive award payout under the Incentive Bonus Plan.

The amounts of the 2015 discretionary bonus awards to the NEOs (other than Mr. McHale) were as follows:

Named Executive Officer	Discretionary Bonus Amount
Christian E. Rothe	\$150,000
Dale D. Johnson	\$150,000
Mark W. Sheahan	\$150,000
Karen P. Gallivan	\$150,000
James A. Graner	\$150,000

Long-Term Incentives (LTI)

The MOCC typically grants long-term incentive awards in the form of stock options to each executive officer at its regularly scheduled February meeting based on a review of the market data. The MOCC is guided by the 75th percentile of the market data for comparable groupings of positions to determine the economic value of such awards. The stock option awards are designed to promote the interests of the Company and its shareholders through the attraction and retention of experienced and capable leaders. The MOCC considers, except in the case of the award to the CEO, the recommendation of the CEO for such awards. The MOCC also considers the dilutive effect on our shareholders in determining the number of stock options granted to each executive officer. The MOCC believes that executive officers who have a financial stake in the Company's performance will be motivated to put forth sustained effort on behalf of the Company's shareholders to support the continued growth of the Company's share price.

Under the terms of the Graco Inc. 2010 Stock Incentive Plan (the 2010 Plan), the MOCC must approve all stock option grants to executive officers. In February 2015, executive officers were awarded non-qualified stock options with an exercise price equal to the fair market value of our common stock on the grant date, defined in the 2010 Plan as the last sale price of the stock on the day immediately preceding the grant date. Each option has a 10-year term and becomes exercisable in equal installments over four years, beginning with the first anniversary of the grant date. Additionally, the 2010 Plan prohibits the repricing of stock options.

Table of Contents

In 2015, the MOCC granted the following stock option awards to the NEOs under the 2010 Plan:

Named Executive Officer	Stock Option Award	Grant Date Fair Value
	(Number of Shares)	(\$)
Patrick J. McHale	145,071	3,397,563
Christian E. Rothe	10,760	251,999

Mark W. Sheahan	15,710	367,928
Karen P. Gallivan	15,710	367,928
James A. Graner	26,340	616,883

At the Annual Meeting of Shareholders in 2015, the shareholders approved the Graco Inc. 2015 Stock Incentive Plan (the 2015 Plan) upon recommendation of the Company s Board of Directors. The 2015 Plan operates in substantially the same manner as the 2010 Plan. As proposed and approved, all future equity-based grants to employees and non-employee directors will be made under the 2015 Plan and no further grants will be made under the 2010 Plan. As a result, all option grants to our executive officers in February 2016 were made under the 2015 Plan.

At its February 2016 meeting, the MOCC kept each NEO's target annual cash incentive payout as a percent of base salary the same for 2016, and granted under the 2015 Plan stock option awards of 201,160 shares to Mr. McHale, 26,460 shares to Mr. Rothe, and 21,170 shares to each of Messrs. Johnson and Sheahan and Ms. Gallivan. The MOCC also determined it would use Adjusted EPS of \$3.52 as the baseline in establishing threshold, target and maximum performance levels for the Incentive Bonus Plan for 2016.

Benefits and Perquisites

In an effort to attract and retain talented employees, we offer retirement, health and welfare programs competitive within our local markets (the Benefit Programs). The only Benefit Programs offered to our U.S. executive officers, either exclusively or with terms different from those offered to other eligible employees, are the following:

Restoration Plan. Since the Internal Revenue Code limits the pension benefits that can be accrued under a tax-qualified defined benefit pension plan, we established the Graco Inc. Restoration Plan. This plan is a nonqualified excess benefit plan designed to provide retirement benefits to eligible participants in the United States as a replacement for those retirement benefits reduced under the Graco Employee Retirement Plan by operation of Section 415 and Section 401(a)(17) of the Internal Revenue Code.

Supplemental Long-Term Disability Program. Each U.S. executive officer is enrolled in an individual executive long-term disability plan under which Graco pays the premiums. Each plan provides the executive with a monthly disability benefit of up to \$21,800 in the event of long-term disability.

Other Perquisites. We provide few other perquisites to our executive officers. We reimburse our CEO and the U.S.-based executive officers reporting directly to him for certain financial planning expenses to encourage them to maximize the value of their compensation and benefit programs. In 2015, the maximum amount reimbursable for financial planning was \$10,000 for the CEO and \$7,000 for the other U.S.-based NEOs. In order to motivate the executives to receive appropriate preventative medical care to support their continued health and productivity, we offer executive officers in the U.S. an executive physical examination program through the Mayo Clinic. This program provides a physical examination every three years for executives under age 40, every other year for executives from age 40 through 49, and every year for executives age 50 and

older. Executives may also be reimbursed and/or receive a tax gross-up for certain limited spousal travel and entertainment events.

Severance and Change of Control Arrangements

We have entered into Key Employee Agreements with the CEO and each of the other NEOs, the terms of which are described below under Change of Control and Post-Termination Payments. The MOCC believes it is in the best interests of our Company and its shareholders to design compensation programs that:

Assist our Company in attracting and retaining qualified executive officers;

Assure our Company will have the continued dedication of our Company's executive officers in the event of a pending, threatened or actual change of control;

Provide certainty about the consequences of terminating certain executive officers' employment;

Protect our Company by obtaining non-compete covenants from certain executive officers that continue after their termination of employment not involving a change of control; and

Obtain a release of any claims from those former executive officers.

Accordingly, the agreements generally provide for certain benefits if the executive officer's employment or service is involuntarily terminated by our Company without cause prior to a change of control or if, within two years after a change of control, the executive officer's employment or service is terminated involuntarily by the Company without cause or the executive officer resigns for good reason. The current form of Key Employee Agreement was approved by the MOCC in December 2007 after reviewing the Key Employee Agreements previously in effect and current market practices related to severance arrangements and benefit levels related thereto.

The MOCC believes it is imperative to diminish any potential distraction of the executive officers by the personal uncertainties and risks created by a pending or threatened change of control. By offering an agreement that will financially protect the executive officer in the event his or her employment or service is involuntarily terminated or terminated by the executive officer for good reason following a change of control, the MOCC believes each executive officer's full attention and dedication to our Company will be enhanced. The MOCC also believes the officers' dedication will help the Company appropriately evaluate and complete a change of control transaction, and facilitate an orderly transition. In the event of a change of control of our Company, the agreements provide benefits only if the executive officer's employment or service is terminated involuntarily without cause or if the executive officer resigns for good reason, including by reason of material demotion, decrease in compensation, relocation or increased travel, within two years after the change of control. The MOCC believes this "double-trigger" approach is most consistent with the objectives described above. The MOCC believes a termination by an executive officer for good reason may be conceptually the same as termination by our Company without cause, and that a potential acquirer would otherwise have an incentive to constructively terminate the executive's employment to avoid paying severance benefits. Thus, the Key Employee Agreements provide severance benefits in the case of resignation for good reason following a change of control.

The MOCC believes it is important to attract and retain our executive officers by agreeing to provide certain benefits if the executive officer's employment or service is terminated without cause prior to a change of control. In addition, the MOCC believes these benefits are appropriate to compensate these executive officers for agreeing not to work with competitors for a specified period of time following termination of employment, and that compensation enhances the enforceability of these non-compete covenants. The MOCC also believes the Company benefits from obtaining a release of any claims from these former executive officers and the severance payments provide consideration for obtaining the release.

Our equity awards for executive officers and certain key managers provide for accelerated vesting or lapse of restrictions upon a change of control. The MOCC believes that acceleration upon a change of control is appropriate to minimize the risk that executive officers might favor a transaction based on the likely impact on the executive officers equity awards, to increase the likelihood that the employees will remain with us after becoming aware of a pending or threatened change of control, and due to the increased likelihood that employees may be terminated by a successor through no fault of their own.

Hedging and Pledging

The Company's directors and executive officers are prohibited from hedging Company stock. The Company's directors and executive officers are also prohibited from pledging Company stock without first obtaining the proper level of approval. Any pledges of Company stock by a director or an executive officer (other than the CEO or the General Counsel) must be approved in advance by the CEO and the General Counsel. Any pledges of Company stock by the CEO or the General Counsel must be approved in advance by the Governance Committee. All approvals of pledges of Company stock, if granted, will be on a discretionary basis, considering the following criteria:

To ensure continued alignment between the interests of individual directors and executive officers with the long-term interests of shareholders, pledged shares will not be counted toward the Company's stock ownership guidelines. As a result, an individual director or executive officer may only pledge those shares he or she owns that are in excess of his or her individual holding requirement.

To reduce the potential adverse impact pledged shares may have on the Company's stock price, approvals will not be granted unless the sum of (i) the aggregate number of shares pledged by all directors and executive officers at the time of the requested pledge plus (ii) the number of shares requested to be pledged is equal to or less than an amount equal to two times (2X) the average daily trading volume in the Company's stock during the preceding thirty (30) days.

Such other factors as the CEO and the General Counsel (or the Governance Committee, as the case may be) deem relevant in determining whether or not to approve the requested pledge.

During 2015, there were no Company shares pledged by directors or executive officers.

Tax Implications of Executive Compensation

Section 162(m) of the Internal Revenue Code places a limit of \$1 million in compensation per year on the amount we may deduct with respect to each of our NEOs (other than the CFO). This limitation does not apply to compensation that qualifies as performance-based compensation. Annual cash incentives meeting certain conditions and stock option awards constitute performance-based compensation and will generally be fully deductible. The MOCC believes all compensation paid to the NEOs for fiscal year 2015 will be deductible for federal income tax purposes. However, the MOCC reserves the flexibility to approve elements of compensation for specific officers in the future which may not be fully deductible should the MOCC deem the compensation appropriate in light of its philosophies.

Report of the Management Organization and Compensation Committee

The Management Organization and Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management, and based on such review and discussions, the Management Organization and Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

The amounts shown in the column entitled All Other Option Awards: Number of Securities Underlying Options reflect the number of common shares covered by the stock option granted to each NEO. Each option has a 10-year term and becomes exercisable in equal installments over four years, beginning with the first anniversary of the grant date.

Under the Incentive Bonus Plan, the payout upon achievement of applicable financial measures ranges from a minimum of 0% to a maximum of 150% of base salary for Mr. McHale and a minimum of 0% to a maximum of 105% of base salary for the other NEOs.

The fair market value of the shares is defined as the last sale price on the day preceding the date of grant, unless otherwise determined by the MOCC. The MOCC has not changed this definition.

(2) The aggregate grant date fair value of the award was calculated in accordance with U.S. accounting standards using a value per share of \$23.42.

Change of Control and Post-Termination Payments***Summary of the Key Employee Agreement***

The Key Employee Agreement provides for payment of the following benefits if the Company terminates the employment of an executive officer involuntarily without Cause (as defined below) prior to a Change of Control (as defined below):

Pro-rata bonus for year of termination based on actual performance;

Severance pay equal to one times (two times for CEO) base salary plus bonus based on the target level of performance for the year of termination, payable over the severance period;

Continued medical, dental and life insurance for the severance period;

Outplacement services; and

Reimbursement of reasonable legal fees incurred to enforce the agreement.

The Key Employee Agreement provides for payment of the following benefits if, within two years after a Change of Control, the Company without Cause terminates an executive officer's employment involuntarily or if the executive

officer resigns for Good Reason (as defined below):

Pro-rata bonus for year of termination based on performance at the target level;

Severance pay equal to two times (three times for CEO) the sum of base salary plus bonus based on the target level of performance for the year of termination, payable in a lump sum six months after the termination date or over the severance period (if the Change of Control does not conform to the requirements of Internal Revenue Code Section 409A);

Continued medical, dental and life insurance for the severance period;

Attribution of two years (three years for CEO) service credit for purposes of nonqualified excess benefit pension plan;

Reimbursement of reasonable legal fees incurred to enforce the agreement; and

Gross-up of income taxes, and excise taxes related to such gross-up payment, due under the excess parachute provisions of the Internal Revenue Code (the Code), subject to a reduction of benefits of up to \$25,000 to avoid such taxes.

The definition of Change of Control in the Key Employee Agreements generally includes: (i) acquisition of beneficial ownership by a person or group which results in aggregate beneficial ownership of 30% or more of voting power or common stock, subject to certain exceptions; (ii) change of 50% or more of the Board members, without Board approval; and (iii) consummation of a merger or other business combination unless our Company's shareholders own a majority of the voting

power and common stock of the surviving corporation and other conditions are satisfied.

As used in the Key Employee Agreement, **Cause** means: (i) conviction of, or guilty or no contest plea to, any felony or other criminal act involving moral turpitude; (ii) gross misconduct or any act of fraud, disloyalty or dishonesty related to or connected with the executive officer's employment or otherwise likely to cause material harm to our Company or its reputation; (iii) a willful and material violation of our Company's written policies or codes of conduct; (iv) wrongful appropriation of our Company's funds or property or other material breach of the executive officer's fiduciary duties to our Company; or (v) the willful and material breach of the Key Employee Agreement by the executive officer.

As used in the Key Employee Agreement, **Good Reason** means: (i) assignment of duties materially inconsistent with, or other material diminution of, the executive officer's position, duties or responsibilities as in effect immediately prior to the Change of Control; (ii) material reduction, in the aggregate, to the compensation and benefit plans, programs and perquisites applicable to the executive officer in effect immediately prior to the Change of Control; (iii) relocation of the executive officer to a location more than 50 miles from where the executive officer was based immediately prior to the Change of Control, or requiring the executive to travel to a substantially greater extent; or (iv) failure by our Company to assign the Key Employee Agreement to a successor.

Under the Key Employee Agreement, the executive officers agree to protect our Company's confidential information, and not to compete with our Company or solicit employees for two years after termination of employment (or, if the executive officer's employment is terminated involuntarily other than for Cause prior to a Change of Control, the non-compete covenant may expire after the executive officer is no longer receiving severance payments). The non-compete restriction does not apply if the executive officer's employment is terminated involuntarily without Cause or voluntarily for Good Reason within two years after a Change of Control. In order to receive severance, the executive officer must sign a release of claims in favor of our Company and be in compliance with the terms of the Key Employee Agreement. The term of the Key Employee Agreement for each Named Executive Officer is three years, followed by automatic annual renewals, unless either party gives six months' notice of non-renewal.

Except as indicated above with respect to the CEO, the same form of agreement has been provided to each Named Executive Officer.

Other Compensation and Benefits Payable Upon a Change of Control or Certain Terminations

Each NEO is eligible for the benefits described in this section as part of our Company's standard practice or policy; however, the benefits are not triggered by any specific termination reason. Incremental amounts for each of these benefits are disclosed in the Summary Compensation Table, Potential Payments Upon Termination or Following a Change of Control table, or Pension Benefits table.

Pursuant to the Incentive Bonus Plan, each participant is eligible to receive a prorated bonus based on the amount of base salary earned during the fiscal year and the bonus percentage actually paid for that year for an employment termination due to death, disability or retirement. Unvested stock option awards provided to any executive officer will automatically accelerate and the options will become fully vested in the event of a Change of Control of our Company or if the employment is terminated due to death, disability or retirement. All unvested restricted stock provided to any executive officer will automatically be accelerated and fully vested in the event of a Change of Control of our Company or if the employment is terminated due to death or disability.

Participants in the Graco Employee Retirement Plan and the Graco Inc. Restoration Plan are entitled to receive the accumulated pension benefits over their lifetime, over a specific defined time or at the time of their retirement. These

amounts are reflected in the Present Value of Accumulated Benefit column of the Pension Benefits table.

Upon any termination of employment, all employees are eligible to receive payment for any credited but unused vacation time. Each Named Executive Officer would receive reimbursement for any miscellaneous travel and spousal travel perquisites and associated tax gross-up payments incurred during the fiscal year.

The following table discloses the potential payments and benefits, other than those available generally on a nondiscriminatory basis to all U.S. salaried employees, provided upon a Change of Control or termination of employment for each of the Named Executive Officers, calculated as if the Change of Control or termination of employment had occurred on December 25, 2015:

- (1) The amounts represent aggregated payments if a Change of Control and qualifying termination of employment occurred on December 25, 2015, which include:

Severance payment under the Key Employee Agreement. Upon certain terminations of employment within two years following a Change of Control, Mr. McHale is entitled to a severance payment equal to three times his base salary and target annual bonus and the other NEOs are entitled to two times their base salary and target annual bonus.

The intrinsic value (or spread between the exercise and market price) of the stock options whose exercisability would be accelerated. The value of accelerated stock options is determined by multiplying the number of unvested options by the difference between the closing share price on December 25, 2015 and the option exercise price.

Annual incremental qualified pension and restoration benefit amount. Actuarial annual retirement benefit amount of the accumulated benefit and the accompanying valuation method and assumptions applied for the qualified Graco Employee Retirement Plan and the nonqualified Graco Inc. Restoration Plan may be found in the Pension Benefits table and the accompanying narrative on page 37. The incremental benefit amount was determined using additional pay and earnings based on December 25, 2015 base pay and target bonus amounts. The Change of Control annual retirement benefit amount providing for additional years of service credit is calculated as of the earliest possible benefit

commencement date. Assuming a December 25, 2015 termination date, current year bonus would be paid in accordance with the Incentive Bonus Plan. See the Non-Equity Incentive Plan Compensation column and accompanying footnotes in the Summary Compensation Table on page 29.

Gross-up of income taxes and related excise taxes.

The value of other benefits (post-employment health care premiums and life insurance premiums).

- (2) Reflects two years of base salary and target annual bonus for Mr. McHale and one year of base salary and target annual bonus for the other NEOs. Should our Company elect to extend the non-compete duration beyond one year, the payment amount for the NEOs, except for Mr. McHale, would increase.
- (3) Assumes NEO is not age 65 or above and disabled for a full calendar year. Benefit reflects an annualized amount that would be paid on a monthly basis and would cease if NEO reaches his or her Social Security normal retirement age or is no longer disabled.

Retirement Benefits

Graco Employee Retirement Plan (1991 Restatement)

The Graco Employee Retirement Plan (the Retirement Plan) is a funded defined benefit plan designed to coordinate with Social Security benefits to provide a basic level of retirement benefits for all eligible employees. Eligible executive officers participate in our tax-qualified defined benefit pension plan on the same terms as the rest of our eligible employees. The Retirement Plan was frozen to employees newly hired on or after January 1, 2006. Each of the Named Executive Officers is

Table of Contents

eligible for benefits under the Retirement Plan except for Mr. Rothe as he was hired by the Company after January 1, 2006.

Benefits for those eligible under the Retirement Plan consist of a fixed benefit, which is designed to provide a retirement income at age 65 of 43.5% of a participant's average monthly compensation, less 18% of Social Security-covered compensation (calculated in a life annuity option) for an employee with 30 years of service. Average monthly compensation is defined as the average of the five consecutive highest years' cash compensation during the last ten years of service, divided by sixty. The Retirement Plan defines eligible cash compensation as base salary, holiday pay, income earned outside of the United States but paid in the United States, annual bonus, CEO award, sales incentive, area differential, short-term disability payments, vacation pay, paid out accrued vacation, deferrals made under a cash or deferred agreement under Code Section 401(k), contributions to a plan established under Code Section 125, and transit and parking reimbursements made under Code Section 132. Benefits under the Retirement Plan vest upon five years of benefit service.

Normal retirement age is defined as age 65 or age 62 with at least 30 years of service. Early retirement is available to participants age 55 or older with 5 years of vesting service. The monthly amount of a participant's benefit when retiring prior to age 65, or age 62 with less than 30 years of benefit service, will be reduced by one-half of one percent (0.5%) for each month by which a participant's pension benefit is to begin prior to the participant turning age 65. If a participant continues in employment with the Company after his normal retirement date, payment of the benefit shall be suspended for each calendar month during which the participant continues employment.

The default form of pension benefit is a single life annuity that provides a monthly benefit for the life of the participant. A participant may elect an optional form of payment. The optional forms available are survivor annuity form or a term certain form. A survivor annuity form is an annuity that is payable monthly to and for the lifetime of the participant with a survivor annuity that is payable monthly after the participant dies to and for the lifetime of a participant's designated joint annuitant in an amount equal to 50%, 66 2/3%, 75% or 100% (as elected by the participant) of the amount payable during the joint lives of the participant and the designated joint annuitant. The value of the amounts payable in the survivor annuity form shall be actuarially equivalent to the value of the amounts payable in the single life annuity form. Term certain form is a form of annuity that is payable monthly to and for the lifetime of the participant or, if longer, for 120 or 180 months, as elected by the participant before the participant's pension is to begin.

Graco Inc. Restoration Plan (2005 Statement)

Because the Internal Revenue Code limits the pension benefits that can be accrued under a tax-qualified defined benefit pension plan, we have established the Graco Inc. Restoration Plan (the "Restoration Plan"). This plan is a nonqualified excess benefit plan, designed to provide retirement benefits to eligible executives and other highly compensated employees as a replacement for the retirement benefits limited under the Retirement Plan by operation of Section 415 and Section 401(a)(17) of the Code or who have experienced a reduction in benefits due to participant contributions to the Graco Deferred Compensation Plan. The Restoration Plan provides comparable level retirement benefits as a percentage of compensation as those provided to other employees.

An employee who is a participant in the Retirement Plan and who has experienced a legislative reduction in benefits under the Retirement Plan due to limitations imposed by Section 415 of the Code, Section 401(a)(17) of the Code, or who has experienced a reduction in benefits due to participant contributions to the Graco Deferred Compensation Plan (2005 Restatement), and is selected for participation, is eligible to participate in the Restoration Plan.

Benefits under the Restoration Plan supplement the benefits under the Retirement Plan. The Restoration Plan will pay to a participant as a benefit the amount by which the benefit under the Retirement Plan is exceeded by the benefit to which the participant would have been entitled under the Retirement Plan if the benefit limitations under Section 415 of the Code and the compensation limitations of Section 401(a)(17) of the Code did not apply. The Restoration Plan provides for several default forms of distribution. If the participant is single at the time distribution of a participant's benefit is to commence, the participant's benefit is to be paid in a single life annuity. If the participant is married at the time distribution of a participant's benefit is to commence, a participant's benefit is to be paid in the form of a joint and survivor annuity. The joint and survivor annuity will be paid over the life of the participant and the participant's spouse, with a reduced annuity paid to the survivor after the death of the participant or the participant's spouse. Alternatively, a participant may elect any of the distribution options available under the Retirement Plan or a lump sum option. A participant may elect to change the form of distribution to one of the optional forms of distribution. If the participant's form of payment prior to electing one of the alternate forms is an annuity and the alternate form elected is an actuarially equivalent annuity, the benefit will commence on the same date that the benefit would have been paid but for the election to change the form. If a participant wishes to elect the lump sum option or any option which does not meet the conditions listed above, the election will not take effect until the date that is twelve months after the date on which the participant made the election, and the distribution will be delayed for at least five years after the distribution would have otherwise been made absent the election unless the participant elected a lump sum for the prospective benefits earned after December 31, 2010.

Table of Contents

A participant's benefit will commence on the first day of the month after the later of: (i) the date the participant attains age 62; or (ii) the participant separates from service. In the case of a distribution to a specified employee (as defined in Section 409A of the Code), where commencement is based on the specified employee's separation from service, the date that the distribution will commence will be the first day of the month following the date that is six months after the specified employee's separation from service.

If the value of a participant's benefit under the Restoration Plan is \$10,000 or less as of the date the benefit of a participant is to commence, the benefit will be paid in a single lump sum. There is no cap on the maximum benefits under the Restoration Plan.

The actuarial present values of accumulated benefits as of December 25, 2015 for both the Retirement Plan and Restoration Plan are reflected in the Present Value of Accumulated Benefit column of the Pension Benefits table below. The actuarial present values are based on the valuation method and the assumptions applied in the calculations referenced in footnote 1 to the Pension Benefits table.

Nonqualified Deferred Compensation

The Graco Inc. Deferred Compensation Plan (2005 Statement) (the "Deferred Compensation Plan") is a nonqualified, unfunded deferred compensation plan intended to meet the requirements of Section 409A of the Code. Our Company has purchased insurance contracts on the lives of certain employees who are eligible to participate in the Restoration Plan and the Deferred Compensation Plan to fund the Company's liability under these plans. These insurance contracts are held in trust and are available to general creditors in the event of the Company's insolvency. This plan was adopted following the freezing of the Graco Inc. Deferred Compensation Plan (1992 Restatement) (the "1992 Deferred Compensation Plan") effective December 31, 2004. Only a select group of management and highly compensated employees are eligible to participate in the Deferred Compensation Plan.

A participant in the Deferred Compensation Plan may elect to defer 1% to 50% of his or her base salary or advance sales incentive and/or 1% to 100% of his or her annual bonus and year-end sales incentive award. The Deferred Compensation Plan uses measurement funds to value the performance of the participants' accounts. Participants can select one or more measurement funds and allocate their accounts in whole percentages. Participants have the ability to change their measurement funds on a daily basis. Participants are fully vested in the funds credited to their account at all times.

Upon enrollment in the Deferred Compensation Plan, the participant elects the year distributions are to begin and the form of distribution. The participant may elect a one-time change to the year in which the distribution is to begin. A change will delay the first distribution date for at least five years after the date the distributions would have begun under the original election. Participants have the ability to select between the following distribution forms: lump sum or annual installments for five, ten or fifteen years. In the event of a separation from service, the account will be distributed as soon as administratively possible in the January next following the date of separation from service. For a specified employee (as defined by Code Section 409A) distributions where the timing of the distribution is based on a separation from service, the date of distribution will be the first of the month following the date that is six months after the date the specified employee separated from service.

Effective December 31, 2004, Graco froze the 1992 Deferred Compensation Plan. A participant in the 1992 Deferred Compensation Plan could have deferred 1% to 25% of his or her base salary or advance sales incentive and/or 1% to 50% of his or her annual bonus and year-end sales incentive award. The 1992 Deferred Compensation Plan was amended August 1, 2007 to use the same measurement funds as provided for in the Deferred Compensation Plan.

A participant in the 1992 Deferred Compensation Plan is eligible for distribution upon his or her retirement on or after the date the participant attains age 55 and completes at least five years of service. The monthly amount of a participant's benefit will be determined by dividing his or her account balance by the number of months of the payout period that was irrevocably selected by the participant upon enrollment or the number of months necessary to provide a minimum monthly payment of \$1,000.

As of December 25, 2015, Ms. Gallivan was the only executive officer contributing to the Deferred Compensation Plan.
