- Notes: (1) As we prepare quarterly consolidated financial reports, changes in non-consolidated key financial data, among others, are not provided.
- (2) Operating revenues do not include consumption taxes.
- (3) Basic earnings per share attributable to NTT DOCOMO, INC. are calculated after subtracting the number of treasury shares from the total number of shares outstanding.
- (4) Diluted earnings per share attributable to NTT DOCOMO, INC. is not stated because we did not have potentially dilutive common shares that were outstanding during the period.
- (5) The amounts in brackets for operating revenues, net income attributable to NTT DOCOMO, INC. and basic earnings per share attributable to NTT DOCOMO, INC. indicate their respective amounts for the three months ended September 30, 2016 and 2017.

**Table of Contents**

**2. Description of Business**

There were no material changes to the business of NTT DOCOMO, INC. or its affiliated companies during the six months ended September 30, 2017. Material changes with respect to affiliated companies during the six months ended September 30, 2017 were as follows:

**Equity-method Affiliates**

NTT Plala Inc. became an equity-method affiliate of NTT DOCOMO, INC. from the three months ended June 30, 2017 due to our acquisition of its equity shares.

**Table of Contents**

**Item 2. Business Overview**

**1. Risk Factors**

No risks, such as unusual changes in consolidated financial condition, results of operations or cash flow conditions, were newly identified during the six months ended September 30, 2017. There was no material change in the risk factors that were described in our Annual Securities Report for the fiscal year ended March 31, 2017.

**2. Material Contracts**

There were no material contracts relating to our operations that were agreed upon or entered into during the three months ended September 30, 2017.

---

**Table of Contents**

**3. Analysis of Consolidated Financial Condition, Results of Operations, and Cash Flow Conditions**

**(1) Business Overview**

The environment surrounding our business has changed significantly. In Japan's telecommunications market, competition has intensified due to the government's pro-competition policy, the rise of low-cost smartphones offered by Mobile Virtual Network Operators (MVNOs) and other factors. In addition, we have seen technical advancements in areas such as artificial intelligence (AI), IoT\*<sup>1</sup> and drones, as well as an expansion of customer touchpoints by various service providers leveraging loyalty point programs and other means. These changes have brought about both active competition in the telecommunications market and collaboration with new players from other industries, accelerating competition in new markets that transcend the conventional boundaries of the telecommunications business.

Amid these changes in the market environment, in April 2017, we developed and unveiled our Medium-Term Strategy 2020 Declaration beyond to realize a richer future with 5G. We have positioned the fiscal year ending March 31, 2018 as a year to Challenge to Evolve by taking the first steps towards the delivery of our Medium-Term Strategy 2020 Declaration beyond. We will do so by moving forward with the creation and evolution of services, the evolution of our business through +d and the reinforcement and evolution of our business foundations.

During the three months ended September 30, 2017, we launched d enjoy pass, a service that provides customers with preferential offers for a wide array of life-related services, as well as d job, a new smartphone-based job information service. Meanwhile, we also strived to boost the usage and enhance the convenience of d POINTs by increasing the number of stores participating in the program. In addition, we deepened our collaboration with Japan Professional Football League (J. League) and organized live music concerts leveraging various cutting-edge video technologies, in an effort to bring our Medium-Term Strategy 2020 Declaration beyond to reality.

<Actions for Future Growth>

Toward the realization of lifestyle innovation one of the goals raised in our Medium-Term Strategy 2020 Declaration beyond, we developed an AI Agent<sup>2</sup>\*API (API), and started granting access to it from August 2017. By allowing open access to this API, we will step up our AI-related undertakings by accelerating the docomo AI Agent Open Partnership Initiative to promote the co-creation of new services while strengthening the construction of new business models with our partners.

In order to realize the experience innovation raised in our Medium-Term Strategy 2020 Declaration beyond, in September 2017, we conducted a trial of a new virtual experience concert<sup>3</sup>\* through which we presented new ways of enjoying live music consisting of new viewing styles that leverage head mount displays, 3D holographic displays and holographic image projection techniques\*<sup>4</sup>.

We forged a collaborative relationship with J. League, with NTT DOCOMO, INC. entering into a top partnership agreement and NTT Group entering into an official technology partnership agreement, respectively, with J. League. From July 2017, based on these partnership agreements, we started taking actions aimed at strengthening the ties between local fans/supporters and J. League/club teams through the realization of experience innovation brought about by the state-of-the-art technologies owned by us and the NTT Group and stepped up use of digital marketing tools.

## **Table of Contents**

For the six months ended September 30, 2017, operating revenues increased by ¥11.8 billion from the same period of the previous fiscal year to ¥2,300.1 billion. This was mainly due to an increase in optical-fiber broadband service revenues due to growth in the number of docomo Hikari users as well as the recovery of mobile communications services revenues as a result of growth in packet consumption and a decrease in the negative impact of the Monthly Support discount program, despite the negative impact from our various billing initiatives implemented for the purpose of enhancing returns to our customers, due mainly to our provision of lower cost services, and a decrease in equipment sales.

Operating expenses increased by ¥48.6 billion from the same period of the previous fiscal year to ¥1,751.4 billion. This was mainly due to an increase in expenses associated with the expansion of docomo Hikari revenues, an increase of the sales commissions incurred for agent resellers accompanying strengthened initiatives promoting the sale of smartphones and an increase of depreciation expenses, despite a decrease in cost of equipment sold.

As a result, operating income decreased by ¥36.8 billion from the same period of the previous fiscal year to ¥548.8 billion for the six months ended September 30, 2017.

Income before income taxes and equity in net income (losses) of affiliates was ¥554.5 billion, and net income attributable to NTT DOCOMO, INC. decreased by ¥31.5 billion from the same period of the previous fiscal year to ¥373.9 billion for the six months ended September 30, 2017.

- \*1: Abbreviation for Internet of Things. A concept that describes a world in which everything is connected to the Internet, enabling remote control and management of devices, etc.
- \*2: An AI solution that enables the delivery of services or operation of various IoT devices by responding accurately to the request of each customer through dialogue. NTT Group's AI technology corevo is used.
- \*3: new experience live music event was hosted in cooperation with our affiliate, NTT Plala Inc.
- \*4: Utilizes 3D holographic stage system, Eyeliner, a stage production system that employs specialized film, projection and technical lighting techniques.

**Table of Contents****Segment Results****Telecommunications business**

&lt;Results of operations&gt;

	Billions of yen			
	Six months ended		Six months ended	
	September 30, 2016	September 30, 2017		Increase (Decrease)
Operating revenues from telecommunications business	¥ 1,856.6	¥ 1,870.8	¥ 14.2	0.8%
Operating income (loss) from telecommunications business	524.7	474.4	(50.4)	(9.6)

Operating revenues from telecommunications business for the six months ended September 30, 2017 increased by ¥14.2 billion, or 0.8%, from ¥1,856.6 billion for the same period of the previous fiscal year to ¥1,870.8 billion. This was mainly due to an increase in optical-fiber broadband service revenues due to growth in the number of docomo Hikari users as well as the recovery of mobile communications services revenues as a result of growth of packet consumption and a decrease in the negative impact of the Monthly Support discount program, despite the negative impact from our various billing initiatives implemented for the purpose of enhancing returns to our customers, due mainly to our provision of lower cost services, and a decrease in equipment sales.

Operating expenses from telecommunications business increased by ¥64.5 billion, or 4.8%, from ¥1,331.9 billion for the same period of the previous fiscal year to ¥1,396.4 billion. This was mainly due to an increase in expenses associated with the expansion of docomo Hikari revenues, an increase of the sales commissions incurred for agent resellers accompanying strengthened initiatives promoting the sale of smartphones and an increase of depreciation expenses, despite a decrease in a cost of equipment sold.

Consequently, operating income from telecommunications business was ¥474.4 billion, a decrease of ¥50.4 billion, or 9.6%, from ¥524.7 billion for the same period of the previous fiscal year.

&lt;&lt;Key Topics&gt;&gt;

Targeting the increasing number of foreign travelers visiting Japan, in July 2017 we launched a data-only prepaid SIM service for visitors from abroad, Japan Welcome SIM. For this service, we lowered the usage fee by utilizing advertisement revenues that we receive by requiring users to view advertisements, and created a business model that provides greater added value to our partners by allowing them to combine Japan Welcome SIM with their own proprietary services.

In September 2017, we started marketing iPhone 8, iPhone 8 Plus and Apple Watch Series 3. In conjunction with the release of iPhone 8, we launched Upgrade Support Program Plus, a program that allows iPhone 8 and other handsets purchasers to easily upgrade to the latest model the next time they switch handsets.

In September 2017, we commenced One Number service, an optional service that allows users to share the same phone number between their smartphone and accessories such as wearable devices. We also improved the convenience of accessory devices, enabling voice communications or mobile data access via accessory devices even when they are placed apart from the main smartphone.

The total number of our smartphone and tablet users grew to 37.09 million as of September 30, 2017, an increase of 3.00 million from September 30, 2016, driven mainly by the brisk sales of handsets covered under the docomo with program, which offers savings to customers who use one handset for an extended period of time as well as the continued implementation of our Senior

## Edgar Filing: NTT DOCOMO INC - Form 6-K

Smartphone Debut Discount package.

To promote the construction of a network that provides a convenient communication environment, we expanded the coverage of our PREMIUM 4G service to 1,554 cities and 86,300 base stations across Japan as of September 30, 2017 and offered Japan's fastest service, a 788Mbps communication service at maximum downlink rates to start in September 2017 by further improving transmission technology. Toward the goal of further expanding the area coverage of our LTE service, we increased the total number of LTE-enabled base stations to 170,900 stations nationwide as of September 30, 2017.

\*4: Churn rate in Basic Plans (excluding Data Plans and Device Plus 500), Xi/FOMA Billing Plans and Type Limit Value / Type Limit for smartphones and feature phones etc.

<Trend of ARPU and MOU>

	Yen		Increase	
	Six months ended September 30, 2016	Six months ended September 30, 2017	(Decrease)	

Edgar Filing: NTT DOCOMO INC - Form 6-K

Aggregate ARPU	¥	4,380	¥	<b>4,650</b>	¥	270	6.2%
Voice ARPU		1,240		<b>1,360</b>		120	9.7
Data ARPU		3,140		<b>3,290</b>		150	4.8
Packet ARPU		2,980		<b>2,980</b>			
docomo Hikari ARPU		160		<b>310</b>		150	93.8
MOU (minutes)		136		<b>136</b>			

Notes:

1. Definition of ARPU and MOU

a. ARPU (Average monthly Revenue Per Unit):

Average monthly revenue per unit, or ARPU, is used to measure average monthly operating revenues attributable to designated services on a per user basis. ARPU is calculated by dividing telecommunications services revenues (excluding certain revenues) by the number of active users to our wireless services in the relevant periods, as shown below under ARPU Calculation Method. We believe that our ARPU figures provide useful information to analyze the average usage per user and the impacts of changes in our billing arrangements. The revenue items included in the numerators of our ARPU figures are based on our U.S. GAAP results of operations.

b. MOU (Minutes of Use):

Average monthly communication time per user.

2. ARPU Calculation Methods

Aggregate ARPU= Voice ARPU + Packet ARPU + docomo Hikari ARPU

Data ARPU= Packet ARPU + docomo Hikari ARPU

- Voice ARPU : Voice ARPU Related Revenues (basic monthly charges, voice communication charges)  
/ Number of active users
- Packet ARPU : Packet ARPU Related Revenues (basic monthly charges, packet communication charges)  
/ Number of active users
- docomo Hikari ARPU : docomo Hikari ARPU Related Revenues (basic monthly charges, voice communication charges)  
/Number of active users

**Table of Contents**

3. Active Users Calculation Method

Sum of number of active users for each month ((number of users at the end of previous month + number of users at the end of current month) /2) during the relevant period

4. The number of users used to calculate ARPU and MOU is the total number of subscriptions, excluding the subscriptions listed below:

- a. Subscriptions of communication module services, Phone Number Storage, Mail Address Storage, docomo Business Transceiver and wholesale telecommunication services and interconnecting telecommunications facilities that are provided to MVNOs; and
- b. Data Plan subscriptions in the case where the customer contracting for such subscription in his/her name also has a subscription for Xi or FOMA services in his/her name

Revenues from communication module services, Phone Number Storage, Mail Address Storage, docomo Business Transceiver and wholesale telecommunications services and interconnecting telecommunications facilities that are provided to MVNOs are not included in the ARPU calculation.

&lt;Results of operations&gt;

	Billions of yen				
	Six months ended		Six months ended		Increase (Decrease)
	September 30, 2016	September 30, 2017	September 30, 2016	September 30, 2017	
Operating revenues from smart life business	¥ 250.4	¥ 230.2	¥ (20.2)	(8.1)%	
Operating income (loss) from smart life business	37.0	33.5	(3.5)	(9.4)	

Operating revenues from smart life business for the six months ended September 30, 2017 were ¥230.2 billion, a decrease of ¥20.2 billion, or 8.1%, from ¥250.4 billion for the same period of the previous fiscal year. This was due mainly to a decrease in revenues from a subsidiary which began recording revenues on a net basis as a result of a change in its business model effective from April 1, 2017. This decrease in revenues was greater than increases in revenues from our finance/payment services and other services.

Operating expenses from smart life business were ¥196.7 billion, a decrease of ¥16.7 billion, or 7.8%, from ¥213.4 billion for the same period of the previous fiscal year. This was due mainly to a decrease in expenses attributable to a subsidiary as a result of the change in its business model described above. This decrease in expense was greater than an increase in expenses associated with various initiatives that we undertook towards future growth.

As a result, operating income from smart life business was ¥33.5 billion, a decrease of ¥3.5 billion, or 9.4%, from ¥37.0 billion for the same period of the previous fiscal year.

&lt;&lt;Key Topics&gt;&gt;

We expanded the number of stores where d POINTs can be used by adding the Hananomai and Sakanaya-Dojo restaurant chains (operated by Chimney Co. Ltd.) and the EARTH hair salons (operated by EARTH Holdings). We also enabled d Mobile Payment Plus to be used on greater number of online services, including Takashimaya Online Store (operated by Takashimaya Co. Ltd.) and J. League Ticket (operated by PIA Corporation.) As of September 30, 2017, the total number of d POINT Club members had grown to 63.24 million, the total number of d POINT Card users\* had reached 17.08 million and the number of partners participating in the d POINTs program was 149.

In August 2017, we commenced our d enjoy pass service, which provides users with preferential offers in over 50,000 different services encompassing a wide variety of categories including, leisure, spa/beauty care, lifestyle, hotel/accommodation and dining, as well as member events and other opportunities for members to connect with or learn from each other.

In September 2017, we launched d job, a service that enables users to access job-related information via smartphones and other devices. In addition to general job openings data, the service provides information on jobs that can be done online (for example, answering surveys/questionnaires, cloud sourcing\*2, etc.), proposing new workstyles in order to tackle social issues such as balancing child/family care with work, and the reduction in the working population associated with the declining birth rate.

As of September 30, 2017, the total number of d CARD subscribers grew to 18.32 million, an increase of 1.35 million from September 30, 2016, due mainly to initiatives that we undertook such as a campaign for acquiring new subscribers. The total number of d CARD GOLD subscribers topped 3 million in September 2017. The total amount of transactions processed through our finance/payment services reached ¥1,486.8 billion for the six months ended September 30, 2017, an increase of ¥255.7 billion from the same period of the previous fiscal year.

## Edgar Filing: NTT DOCOMO INC - Form 6-K

- \*1: The total number of users who have registered their personal information to accumulate and use d POINT at participating stores.
- \*2: Outsourcing of certain tasks and operations to external parties primarily through the Internet.
- \*3: The total number of subscribers of dCARD and d CARD mini.

**Table of Contents****Other businesses**

&lt;Results of operations&gt;

	Billions of yen				
	Six months ended		Six months ended		Increase (Decrease)
	September 30, 2016	September 30, 2017	September 30, 2016	September 30, 2017	
Operating revenues from other businesses	¥ 193.4	¥ 215.2	¥ 21.8	11.3%	
Operating income (loss) from other businesses	23.9	40.9	17.0	71.2	

Operating revenues from other businesses for the six months ended September 30, 2017 amounted to ¥215.2 billion, an increase of ¥21.8 billion, or 11.3%, from ¥193.4 billion for the same period of the previous fiscal year, driven mainly by an increase in the number of subscriptions to our Mobile Device Protection Service and the growth of revenues relating to IoT businesses.

Operating expenses from other businesses were ¥174.3 billion, an increase of ¥4.8 billion, or 2.8%, from ¥169.5 billion for the same period of the previous fiscal year, due mainly to an increase in expenses associated with IoT businesses, despite a decrease in expenses as a result of pursuing further cost efficiency.

Consequently, operating income from other businesses was ¥40.9 billion, an increase of ¥17.0 billion, or 71.2%, from ¥23.9 billion for the same period of the previous fiscal year.

&lt;&lt;Key Topics&gt;&gt;

In July 2017, we launched docomo Smart Parking system (the system) for parking lot operators. The system brings about a significant reduction in the initial investments required for coin-operated parking space business through the use of IoT devices, etc. We also introduced the Smart Parking Peasy application for the drivers who use the system in an effort to boost the utilization of parking lots adopting the system.

The total number of subscriptions to Anshin Pack, a package that combines Mobile Device Protection Service and various other services to ensure worry-free use of smartphones, grew to 18.34 million as of September 30, 2017.

**Table of Contents**

**(2) CSR Activities**

We aspire to help build a society in which everyone can share in a prosperous life of safety, security and comfort, beyond borders and across generations. We believe it is our corporate social responsibility (CSR) to fulfill the two aspects of (i) Innovative docomo, to solve various social issues in the fields of mobility, healthcare and medicine, education and learning, and climate change through the co-creation of social values, an initiative that we plan to pursue together with various partners to create new services and businesses, and (ii) Responsible docomo, to thoroughly ensure fair, transparent and ethical business operations as a foundation for the creation of such values. Accordingly, we will strive to realize a sustainable society while expanding our own businesses.

In July 2017, we unveiled our CSR Mid-Term Target for 2020, which will serve as a new guideline for our CSR activities. Looking ahead to the year 2020 and beyond, we will take on the challenge to create a richer future in accordance with the clear directions and objectives laid out in our CSR Mid-Term Target for 2020.

In September 2017, we were selected as a component of Dow Jones Sustainability Indices (DJSI), one of the world's leading indices for ESG investment\*<sup>1</sup>. We were assessed highly for our endeavors for improved network reliability, environmental actions and related reporting activities, our development of a safe and healthy workplace and our human resource development.

The principal CSR actions we undertook in the three months ended September 30, 2017 are summarized below:

<Innovative docomo>

Aiming to improve the productivity of agriculture and other primary industries and to solve social issues such as job creation, we commenced a verification trial of a new AI\*<sup>2</sup>-based IoT solution in August 2017. This solution, which blends AI-based analytics and provides new decision capabilities (for example, the ability to choose between cultivation techniques or make decisions based on weather conditions), allows even farmers with limited experience to easily detect signs of disease, grasp the status of vegetation growth and predict the optimal harvest time, thereby reducing the burdens of farm work.

<Responsible docomo >

In the aftermath of the July 2017 torrential rain that hit northern Kyushu, we worked toward an early restoration of communication services, airlifting our portable base stations to the affected areas with helicopters and renting our satellite mobile phones to support the local governments and other agencies. We also implemented measures to assist disaster victims, including the free-of-charge provision of battery chargers and other equipment and partial waiver of handset repair charges. In addition, we launched a charity site to provide assistance to the people and areas affected by the disaster, and collected donations using docomo Kouza accounts and POINTs .

Through our Smartphone and Mobile Phone Safety Classes we teach participants the rules and manners of using smartphones and mobile phones, as well as to how to respond to troubles that may arise with their use. We held a total of approximately 4,500 sessions with a cumulative participation of approximately 910,000 people in the six months ended September 30, 2017 and a cumulative participation from starting this measure topped 10 million. In addition, in order to effectively promote activities aimed at preventing delinquency and troubles in the cyber space, in collaboration with Tokyo Metropolitan Police Department (MPD), from September 2017, we started hosting a program dubbed ~Minnade manabu~ TOKYO net kyoshitsu a joint session of MPD's cyber class and our Smartphone and Mobile Phone Safety Class, at elementary and junior and senior high schools in Tokyo.

Under our Village Social Entrepreneur initiative, through which we provide assistance to entrepreneurs tackling social issues, we decided to extend support to the following two organizations for the fiscal year ending March 31, 2018: International Medical Co. Ltd., a company supporting the assessment and optimized treatment of anxiety disorders and depression, and Ma-tourism, an organization engaged in activities promoting the continuation of traditional festivals as well as the vitalization of regional areas.

## Edgar Filing: NTT DOCOMO INC - Form 6-K

- \*1: An investment method that is named after and focuses on the three elements of Environment, Social and Governance.
- \*2: NTT Group's AI technology corevo is used.

**Table of Contents****(3) Trend of Capital Expenditures**

&lt;Capital expenditures&gt;

	Billions of yen				Increase (Decrease)	
	Six months ended		Six months ended			
	September 30, 2016	September 30, 2017	September 30, 2016	September 30, 2017		
Total capital expenditures	¥ 246.1	¥ 267.7	¥ 246.1	¥ 267.7	21.6	8.8%
Telecommunications business	237.6	255.3	237.6	255.3	17.7	7.4
Smart life business	5.8	6.5	5.8	6.5	0.7	12.7
Other businesses	2.6	5.8	2.6	5.8	3.2	119.4

We pursued more efficient use of capital expenditures and further cost reduction, and expanded the area coverage of our PREMIUM 4G service to construct a more convenient mobile telecommunications network. As a result, the total amount of capital expenditures we made increased by 8.8% from the same period of the previous fiscal year to ¥267.7 billion for the six months ended September 30, 2017.

**Table of Contents****(4) Financial Position**

	Billions of yen					Increase (Decrease)	%	(Reference) March 31, 2017
	September 30, 2016	September 30, 2017						
Total assets	¥ 7,208.4	¥ 7,641.7	¥	433.4	6.0%	¥	7,453.1	
NTT DOCOMO, INC. shareholders' equity	5,427.8	5,760.3		332.5	6.1		5,530.6	
Liabilities	1,724.9	1,827.1		102.2	5.9		1,869.0	
Including: Interest bearing liabilities	222.5	221.7		(0.7)	(0.3)		221.9	
Shareholders' equity ratio (1) (%)	75.3%	75.4%		0.1point			74.2%	
Debt to Equity ratio (2) (multiple)	0.041	0.038		(0.003)			0.040	

Notes: (1) Shareholders' equity ratio = NTT DOCOMO, INC. shareholders' equity / Total assets

(2) Debt to Equity ratio = Interest bearing liabilities / NTT DOCOMO, INC. shareholders' equity

**(5) Cash Flow Conditions**

	Billions of yen					Increase (Decrease)	%
	Six months ended		Six months ended				
	September 30, 2016	September 30, 2017	September 30, 2016	September 30, 2017			
Net cash provided by operating activities	¥ 671.7	¥ 762.9	¥	91.2	13.6%		
Net cash used in investing activities	(425.3)	(373.7)		51.6	12.1		
Net cash provided by (used in) financing activities	(238.3)	(151.4)		86.9	36.5		
Free cash flows (1)	246.4	389.3		142.8	58.0		
Changes in investments for cash management purposes	(95.2)	(9.9)		85.3	89.6		
Free cash flows excluding changes in investments for cash management purposes (2)	341.6	399.1		57.5	16.8		

Notes: (1) Free cash flows = Net cash provided by operating activities + Net cash used in investing activities

(2) Changes in investments for cash management purposes = Changes by purchases, redemption at maturity and disposals of financial instruments held for cash management purposes with original maturities of longer than three months

For the six months ended September 30, 2017, net cash provided by operating activities was ¥762.9 billion, an increase of ¥91.2 billion, or 13.6%, from the same period of the previous fiscal year. This was due mainly to a decrease in cash outflows for the payments of income taxes.

Net cash used in investing activities was ¥373.7 billion, a decrease of ¥51.6 billion, or 12.1%, from the same period of the previous fiscal year. This was due mainly to an increase in cash inflows from proceeds from redemption of short-term bailment for consumption to a related party.

Net cash used in financing activities was ¥151.4 billion, a decrease of ¥86.9 billion, or 36.5%, from the same period of the previous fiscal year. This was due mainly to a decrease in cash outflows for payments to acquire treasury stock, despite an increase in dividends paid.

As a result of the foregoing, the balance of cash and cash equivalents was ¥527.5 billion as of September 30, 2017, an increase of ¥237.9 billion, or 82.2%, from the previous fiscal year end.

**(6) Operational and Finance Issues Facing the Corporate Group**

## Edgar Filing: NTT DOCOMO INC - Form 6-K

There were no material changes in the operational and finance issues facing the corporate group for the six months ended September 30, 2017 and no new additional issues arose during the period.

### **(7) Research and Development**

Our research and development expenses for the six months ended September 30, 2017 were ¥44.6 billion.

**Table of Contents**

**NTT DOCOMO, INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

**1. Basis of presentation:**

The accompanying quarterly consolidated financial statements of NTT DOCOMO, INC. and its subsidiaries ( **DOCOMO** ) were prepared in accordance with U.S. generally accepted accounting principles ( **U.S. GAAP** ). Certain disclosures required by U.S. GAAP have been omitted. Since DOCOMO 's American Depositary Shares were listed on the New York Stock Exchange in March 2002, DOCOMO has prepared its consolidated financial statements pursuant to the terminology, forms and preparation methods required in order to issue American Depositary Shares, which are registered with the Securities and Exchange Commission of the United States of America.

**2. Summary of significant accounting and reporting policies:**

**(a) Adoption of new accounting standards**

**Balance sheet classification of deferred taxes**

On November 20, 2015, the Financial Accounting Standards Board ( **FASB** ) issued Accounting Standards Update ( **ASU** ) 2015-17 **Balance Sheet Classification of Deferred Taxes**. Effective April 1, 2017, DOCOMO adopted prospectively ASU 2015-17 **Balance Sheet Classification of Deferred Taxes**. This ASU requires that all deferred tax liabilities and assets be classified as noncurrent on the consolidated balance sheet.

**(b) Recently issued accounting standards**

**Revenue from Contracts with Customers**

On May 28, 2014, FASB issued ASU 2014-09 **Revenue from Contracts with Customers (Topic 606)**, which requires an entity to recognize the amount to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective.

The FASB also issued ASU 2016-08 **Principal versus Agent Considerations (Reporting Revenue Gross versus Net)**, ASU 2016-10 **Identifying Performance Obligations and Licensing**, ASU 2016-12 **Narrow-Scope Improvements and Practical Expedients**, ASU 2016-20 **Technical Corrections and Improvements to Topic 606**, and ASU 2017-05 **Clarifying the Scope of Asset Derecognition Guidance and Accounting for Partial Sales of Nonfinancial Assets** in March, April, May and December 2016, and February 2017, respectively, to partially amend ASU 2014-09.

On August 12, 2015, the FASB issued ASU 2015-14 **Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date**, and deferred the effective date of the ASU by one year. Consequently, the standard is expected to take effect for DOCOMO on April 1, 2018 and early adoption with original effective date for periods beginning April 1, 2017 is permitted.

---

**Table of Contents**

**NTT DOCOMO, INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - (Continued)**

The two permitted transition methods under the new standard are the full retrospective method, or the modified retrospective method. Under the full retrospective method, all periods presented will be updated upon adoption to conform to the new standard and a cumulative adjustment for effects on periods prior to the reporting period will be recorded to retained earnings at the beginning of the initial reporting period. Under the modified retrospective approach, the current reporting period will be updated to conform to the new standard and a cumulative adjustment for effects of applying the new standard to periods prior to the reporting period that includes the date of initial application is recorded to retained earnings as of the date of initial application, and also incremental disclosures related to the amount affected by the application of this new standard are required. DOCOMO has not decided on a transition method and are currently evaluating the impact of the new standard on DOCOMO's consolidated financial statements and related disclosures. The impact on revenue resulting from the application of the new standard will be subject to assessments that are dependent on many variables, including, but not limited to, the terms, the transaction prices including discounts and the mixture of the goods and services of DOCOMO's contractual arrangements. While DOCOMO is continuing to assess all potential impacts resulting from the application of the new standard, DOCOMO believes that the most significant impacts may include the following items:

The standard requires the recognition of incremental costs of obtaining and direct costs of fulfilling contracts with customers as assets. Accordingly, DOCOMO expects that part of the sales commissions and other charges that have previously been treated as expenses will be recognized as additional assets, which will be amortized over the estimated average period of the subscription for each service.

The standard requires that if customers are granted by an entity the option to acquire additional goods or services at a discount by a contract agreed between the customer and the entity, the entity shall identify this option as a separate performance obligation upon granting such option as a part of the consideration of the transaction being recognized as contract liabilities, and recognize revenue when the additional good or service is transferred at a discount to the customer or when such option expires. Accordingly, DOCOMO expects that in relation to docomo POINTs and d POINTs which have traditionally been recorded as accrued liabilities, DOCOMO will recognize a part of the considerations for the transaction of mobile communications and other services as contract liabilities at the time when the points are granted, and recognize revenue when the points are used for the additional good or service at a discount or when the points expire.

DOCOMO has established a team to implement the introduction of the new standard. DOCOMO is in the process of implementing changes to DOCOMO's systems and setting up reporting processes and internal controls for the adoption of the new revenue recognition standard.

**Table of Contents**

**NTT DOCOMO, INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - (Continued)**

**Recognition and Measurement of Financial Assets and Financial Liabilities**

On January 5, 2016, the FASB issued ASU 2016-01 Recognition and Measurement of Financial Assets and Financial Liabilities, which makes targeted improvements to the accounting for, and presentation and disclosure of, financial instruments. ASU 2016-01 requires that most equity investments be measured at fair value, with subsequent changes in fair value recognized in net income. ASU 2016-01 does not affect the accounting for investments that would otherwise be consolidated or accounted for under the equity method. The new standard also affects the recognition of changes in fair value of financial liabilities under the fair value option and the presentation and disclosure requirements for financial instruments. The new standard is effective for DOCOMO on April 1, 2018. DOCOMO is currently evaluating the effect of adopting the ASU.

**Lease**

On February 25, 2016, the FASB issued ASU 2016-02 Lease, which requires all lessees to recognize the right-of-use asset and lease liability, principally. The new standard is effective for DOCOMO on April 1, 2019. DOCOMO is currently evaluating the effect of adopting the ASU.

**Simplifying the Test for Goodwill Impairment**

On January 26, 2017, the FASB issued ASU 2017-04 Simplifying the Test for Goodwill Impairment, which eliminates Step 2 from the goodwill impairment test. Instead, the amendments in this update require that an entity should perform its annual, or interim, goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount and an entity should recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value. The amendments in this update are effective for DOCOMO on April 1, 2020. Early adoption of the standard for goodwill impairment tests with measurement dates after January 1, 2017 would also be permitted. DOCOMO is currently evaluating the effect of adopting the ASU.

**Table of Contents**

**NTT DOCOMO, INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - (Continued)**

**3. Equity:**

**(a) Dividends**

The Companies Act of Japan (the Companies Act ) provides that (i) dividends of earnings require approval at a general meeting of shareholders, (ii) interim cash dividends can be distributed upon the approval of the Board of Directors, if the articles of incorporation provide for such interim cash dividends and (iii) an amount equal to 10% of the decrease in retained earnings, as a result of a dividend payment, shall be contributed to a legal reserve that can be funded up to an amount equal to 25% of capital stock. The legal reserve is available for distribution upon approval of the shareholders. In accordance with (ii) above, a provision in NTT DOCOMO, INC. 's articles of incorporation stipulates that NTT DOCOMO, INC. may, pursuant to a resolution of the Board of Directors, pay interim dividends with a record date as of September 30th of the relevant year.

In the general meeting of shareholders held on June 20, 2017, the shareholders approved cash dividends of ¥148,183 million or ¥40 per share, payable to shareholders of record as of March 31, 2017, which were declared by the Board of Directors on April 27, 2017. The source of such dividends was Retained earnings. NTT DOCOMO, INC. started paying the dividends on June 21, 2017.

On October 26 2017, the Board of Directors declared interim cash dividends of ¥185,229 million or ¥50 per share, payable to shareholders of record as of September 30, 2017. The source of such dividends will be Retained earnings. NTT DOCOMO, INC. plans to start paying the interim cash dividends on November 21, 2017.

**(b) Issued shares and treasury stock**

With regard to the acquisition of treasury stock, the Companies Act provides that (i) it can be executed according to a resolution of the general meeting of shareholders, and (ii) the acquisition of treasury stock through open market transactions can be done according to a resolution of the Board of Directors, if the articles of incorporation contain such a provision. In accordance with (ii) above, a provision in NTT DOCOMO, INC. 's articles of incorporation stipulates that NTT DOCOMO, INC. may repurchase treasury stock through open market transactions, by a resolution of the Board of Directors, for the purpose of improving capital efficiency and implementing flexible capital policies in accordance with the business environment.

**Table of Contents****NTT DOCOMO, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - (Continued)****4. Segment information:**

DOCOMO's chief operating decision maker (the CODM) is its Board of Directors. The CODM evaluates the performance and makes resource allocations of its segments based on the information provided by DOCOMO's internal management reports.

DOCOMO has three operating segments, which consist of telecommunications business, smart life business and other businesses.

The telecommunications business includes mobile phone services (LTE(Xi) services and FOMA services), optical-fiber broadband services, satellite mobile communications services, international services and the equipment sales related to these services. The smart life business includes video and music distribution, electronic books and other services offered through DOCOMO's dmarket portal, as well as finance/payment services, shopping services and various other services to support our customers' daily lives. The other businesses primarily include Mobile Device Protection Service, as well as the development, sales and maintenance of IT systems.

Accounting policies used to determine segment operating revenues and operating income (loss) are consistent with those used to prepare the consolidated financial statements in accordance with U.S. GAAP.

Consolidated ¥ 286,306 ¥ **270,477**

Segment operating income (loss) is segment operating revenues less segment operating expenses.

DOCOMO does not disclose geographical information because the amounts of operating revenues generated outside Japan are immaterial.

**Table of Contents**

**NTT DOCOMO, INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - (Continued)**

**5. Contingencies:**

**(a) Litigation**

DOCOMO is involved in litigation and claims arising in the ordinary course of business. DOCOMO believes that none of the litigation or claims outstanding, pending or threatened against DOCOMO would have a materially adverse effect on DOCOMO's results of operations, financial position or cash flows.

**(b) Guarantees**

DOCOMO enters into agreements in the normal course of business that provide guarantees for counterparties. These counterparties include subscribers, related parties, foreign wireless telecommunications service providers and other business partners.

DOCOMO provides subscribers with guarantees for product defects of cellular phone handsets sold by DOCOMO, but DOCOMO is provided with similar guarantees by the handset vendors and no liabilities were recognized for these guarantees.

Though the guarantees or indemnifications provided in transactions other than those with the subscribers are different in each contract, the likelihood of almost all of the performance of these guarantees or indemnifications are remote and amount of payments DOCOMO could be claimed for is not specified in almost all of the contracts. Historically, DOCOMO has not made any significant guarantee or indemnification payments under such agreements. DOCOMO estimates the fair value of the obligations related to these agreements is not significant. Accordingly, no liabilities were recognized for these obligations.

**Table of Contents****NTT DOCOMO, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - (Continued)****6. Fair value measurements:**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. U.S. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value according to observability. The inputs are described as follows:

Level 1 quoted prices in active markets for identical assets or liabilities

Level 2 inputs other than quoted prices included within Level 1 that are observable for the asset or liability

Level 3 unobservable inputs for the asset or liability

DOCOMO also distinguishes assets and liabilities measured at fair value every period on a recurring basis from those measured on a nonrecurring basis in certain circumstances.

**(a) Assets and liabilities measured at fair value on a recurring basis**

DOCOMO's assets and liabilities measured at fair value on a recurring basis include available-for-sale securities and derivatives.

DOCOMO's assets and liabilities that were measured at fair value on a recurring basis at March 31, 2017 and September 30, 2017 were as follows:

	Total	Millions of yen March 31, 2017		
		Level 1	Level 2	Level 3

Total	¥	837	¥	¥	837	¥

There were no transfers between Level 1 and Level 2.

#### Available-for-sale securities

Available-for-sale securities include marketable equity securities and debt securities, which are valued using quoted prices in active markets for identical assets. Therefore, these securities are classified as Level 1.

#### Derivatives

Derivative instruments are foreign currency option contracts and foreign exchange forward contracts, which are valued based on observable market data. Therefore, these derivatives are classified as Level 2.

**Table of Contents****NTT DOCOMO, INC. AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - (Continued)****(b) Assets and liabilities measured at fair value on a nonrecurring basis**

Certain assets and liabilities are measured at fair value on a nonrecurring basis in certain circumstances.

DOCOMO may be required to measure fair value of receivables held for sale, long-lived assets, equity securities whose fair values are not readily determinable, and other assets or liabilities on a nonrecurring basis.

DOCOMO's assets that were measured at fair value on a nonrecurring basis for the six months ended September 30, 2016 and 2017 were as follows:

	Millions of yen				Gains (losses) (before taxes)
	Six months ended September 30, 2016				
	Total	Level 1	Level 2	Level 3	
Assets:					
Receivables held for sale	¥ 646,101	¥	¥ 646,101	¥	¥ (7,053)

	Millions of yen				Gains (losses) (before taxes)
	Six months ended September 30, 2017				
	Total	Level 1	Level 2	Level 3	
Assets:					
Receivables held for sale	¥ 605,124	¥	¥ 605,124	¥	¥ (4,278)

DOCOMO's assets that were measured at fair value on a nonrecurring basis for the three months ended September 30, 2016 and 2017 were as follows:

	Millions of yen				Gains (losses) (before taxes)
	Three months ended September 30, 2016				
	Total	Level 1	Level 2	Level 3	
Assets:					
Receivables held for sale	¥ 500,890	¥	¥ 500,890	¥	¥ (6,278)

	Millions of yen				Gains (losses) (before taxes)
	Three months ended September 30, 2017				
	Total	Level 1	Level 2	Level 3	
Assets:					
Receivables held for sale	¥ 482,122	¥	¥ 482,122	¥	¥ (4,193)

## Edgar Filing: NTT DOCOMO INC - Form 6-K

Receivables held for sale

Receivables held for sale are measured at the lower of cost or fair value.

Receivables held for sale are classified as Level 2. DOCOMO measures the fair value of the receivables held for sale by discounting, at LIBOR-based discount rates, estimated future cash flows while taking into account factors such as default probabilities and loss severity of similar trade receivables.

**Table of Contents**

**NTT DOCOMO, INC. AND SUBSIDIARIES**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) - (Continued)**

**7. Subsequent event:**

**Resolution of share repurchase up to prescribed maximum limit**

On October 26, 2017, the Board of Directors resolved that NTT DOCOMO, INC. may repurchase outstanding shares of its common stock. Related information is disclosed in Note 3 Equity.

**Tata Teleservices Limited**

Tata Teleservices Limited ( TTSL ) is a telecommunication operator in India and a privately held company.

As of September 30 2017, DOCOMO held approximately 21.6% of the outstanding common shares of TTSL and accounted for the investment under the equity method.

Under the shareholders agreement (the Agreement ) entered into among TTSL, Tata Sons Limited ( Tata Sons ) and DOCOMO when DOCOMO entered into a business alliance with TTSL in March 2009, DOCOMO shall have certain shareholder rights, including the right to require Tata Sons to find a suitable buyer for DOCOMO s entire stake (1,248,974,378 shares, or approximately 26.5% of outstanding shares) in TTSL for 50% of the DOCOMO s acquisition price, which amounts to 72.5 billion Indian rupees (or ¥127.6 billion<sup>b</sup>), or at fair value, whichever is higher, in the event that TTSL fails to achieve certain specified performance targets by March 31, 2014. The right became exercisable on May 30, 2014, and DOCOMO exercised the right on July 7, 2014.

The obligation of Tata Sons under the Agreement was not fulfilled, although DOCOMO repeatedly held discussions with Tata Sons regarding the sale of DOCOMO s entire stake in TTSL pursuant to the Agreement. Accordingly, DOCOMO submitted a request for arbitration to the London Court of International Arbitration ( LCIA ) on January 3, 2015.

DOCOMO received a binding arbitration award from the LCIA on June 23, 2016. The award ordered that Tata Sons pay damages to DOCOMO in the amount of approximately \$1,172 million (or ¥132.6 billion<sup>\*2</sup>) for Tata Sons breach of the Agreement, upon DOCOMO s tender of its entire stake in TTSL to Tata Sons or its designee.

On July 8, 2016, DOCOMO submitted an application to the High Court in India ( the Court ) requesting enforcement of the LCIA Award in India. On February 25, 2017, DOCOMO and Tata Sons submitted a joint application to the Court requesting that the Court declare the LCIA Award enforceable in India. On April 28, 2017, the Court delivered a court decision approving the joint application.

On October 31, 2017, DOCOMO received ¥144.9 billion<sup>\*3</sup> from Tata Sons as payment of the arbitration award amount in accordance with the Court decision regarding DOCOMO s stake in TTSL. As a result of this transaction, DOCOMO expects to include the award amount of ¥144.9 billion in other income on the consolidated financial statements for the three month period ending December 31, 2017.

Concurrent with the receipt of the above award amount, all shares in TTSL held by DOCOMO have been transferred to Tata Sons and companies designated by Tata Sons. Upon the transfer of DOCOMO s shares in TTSL, DOCOMO no longer accounts for investments in TTSL under the equity method. As a result, DOCOMO expects to include a loss on transfer of investments in affiliates of ¥29.8 billion, equal to the reclassification adjustments of foreign currency translation adjustments, in other expense on its consolidated financial statements for the three month period ending December 31, 2017.

\*1 1 rupee = ¥1.76 as of October 31, 2017

\*2 \$1 = ¥113.16 as of October 31, 2017

\*3 The amount received included interest earned and other costs awarded.
