PRELIMINARY SUBJECT TO COMPLETION DATED APRIL 20, 2018

[], 2018

Dear Stockholders of Meta Financial Group, Inc. and Shareholders of Crestmark Bancorp, Inc.:

On January 9, 2018, Meta Financial Group, Inc. (Meta) and MetaBank, a federally chartered stock savings bank and a wholly-owned subsidiary of Meta (MetaBank), entered into an Agreement and Plan of Merger (the merger agreement), with Crestmark Bancorp, Inc., a Michigan corporation (Crestmark), and Crestmark Bank, a Michigan state-chartered bank and a wholly-owned subsidiary of Crestmark (Crestmark Bank). Pursuant to the merger agreement, upon the terms and subject to the conditions set forth therein, Crestmark will merge with and into Meta, with Meta as the surviving entity (the merger), and, immediately thereafter, pursuant to the terms of a separate merger agreement between MetaBank and Crestmark Bank, Crestmark Bank will merge with and into MetaBank, with MetaBank surviving as Meta's wholly-owned subsidiary.

At the effective time of the merger, (i) each outstanding share of common stock of Crestmark, no par value per share (Crestmark common stock), issued and outstanding immediately prior to the closing will automatically be converted into the right to receive 2.65 shares, subject to adjustment for stock splits, stock dividends or distributions, recapitalizations or similar transactions (the exchange ratio), of common stock of Meta, \$0.01 par value per share (Meta common stock), together with cash in lieu of fractional shares (together with the shares of Meta common stock issuable to the holders of Crestmark common stock (Crestmark shareholders) pursuant to the merger agreement, the stock merger consideration) and (ii) each outstanding option to purchase Crestmark common stock (each, a Crestmark stock option) will be cancelled and converted into the right to receive an amount in cash equal to the product of the number of shares of Crestmark common stock underlying such Crestmark stock option, multiplied by the excess, if any, of (a) the dollar amount equal to the product of (x) the exchange ratio multiplied by (y) the average closing price per share of Meta common stock on the NASDAQ Global Select Market for the ten trading day period ending five calendar days before the closing of the merger (such product, the per share purchase price) over (b) the exercise price of such Crestmark stock option, less any applicable withholding taxes (together with the stock merger consideration, the merger consideration). Any Crestmark stock option with an exercise price that is greater than or equal to the per share purchase price will be cancelled and of no further force or effect as of the effective time of the merger, without any consideration therefor. Although the exchange ratio is fixed, the market value of the merger consideration will fluctuate with the market price of Meta common stock and will not be known at the time Crestmark shareholders vote on the merger. Based on the \$91.25 closing price of Meta common stock on the NASDAQ Global Select Market (NASDAQ) on January 9, 2018, the last full trading day before the public announcement of the merger, the per share value of the merger consideration was equal to approximately \$241.81 per share of Crestmark common stock, with a

proposed aggregate value of approximately \$320,462,178. Based on the \$113.35 closing price of Meta common stock on NASDAQ on April 19, 2018, the per share value of the merger consideration was equal to approximately \$300.38, with a proposed aggregate value of approximately \$399,539,393. Based on the exchange ratio and the number of shares of Crestmark common stock outstanding as of April 19, 2018, the maximum number of shares of Meta common stock estimated to be issuable at the effective time of the merger is 3,578,155. In addition, based on the number of issued and outstanding shares of Meta common stock as of April 19, 2018 and Crestmark common stock as of April 19, 2018, and based on the exchange ratio, holders of shares of Crestmark common stock as of immediately prior to the closing of the merger will hold, in the aggregate, approximately 25% of the issued and outstanding shares of Meta common stock immediately following the effectiveness of the merger. We urge you to obtain a current market quotation for Meta (trading symbol CASH).

Meta will hold a special meeting of its stockholders (the Meta special meeting) in connection with the merger. At the Meta special meeting, the holders of Meta common stock (the Meta stockholders) will be asked to vote to adopt the merger agreement and approve the merger and the other transactions contemplated by the merger agreement, including the issuance of shares of Meta common stock in connection with the merger (the Meta merger proposal), and approve an amendment to Meta s certificate of incorporation to increase the number of authorized shares of Meta common stock to 90 million from 30 million shares (the charter amendment proposal) for the purpose of affecting a three-for-one forward split of issued and outstanding shares of Meta common stock through a stock dividend (the stock split), in each case, as described in the accompanying joint proxy statement/prospectus. The discussion above, and, unless the context otherwise requires, the information throughout the accompanying joint proxy statement/prospectus, does not give effect to the stock split. If Meta stockholders approve the charter amendment proposal and the stock split is implemented prior to the consummation of the merger, the exchange ratio pursuant to the merger agreement would be adjusted such that, upon the closing of the merger, Crestmark stockholders would receive 7.95 shares of Meta common stock for each share of Crestmark common stock held by them.

Table of Contents

Meta stockholders are being asked to vote on the Meta merger proposal in order to satisfy the requirements of Section 252 of the Delaware General Corporation Law and NASDAQ Listing Rule 5635(b), which requires stockholder approval prior to the issuance of securities in connection with the acquisition of stock or assets of another company if the issuance would constitute more than 20% of the total number of shares of common stock outstanding before the issuance. Meta stockholders are being asked to vote on the charter amendment proposal to facilitate the stock split, and, without approval of the charter amendment proposal, Meta would not have sufficient authorized shares of Meta common stock to affect the stock split. Meta stockholder approval of the charter amendment proposal is required under Section 242 of the DGCL. Meta will transact such other business as may be properly brought before the Meta special meeting or any adjournment or postponement thereof. Approval of each of the Meta merger proposal and the charter amendment proposal requires approval by Meta stockholders holding a majority of the outstanding shares of Meta common stock entitled to vote thereon.

Crestmark will hold a special meeting of its shareholders (the Crestmark special meeting and, together with the Meta special meeting, the special meetings) in connection with the merger. At the Crestmark special meeting, Crestmark shareholders will be asked to vote to approve the merger agreement, the merger and the other transactions contemplated by the merger agreement (the Crestmark merger proposal), as described in the accompanying joint proxy statement/prospectus. Certain of Crestmark's directors and executive officers and holders of Crestmark common stock, representing an aggregate of approximately 34% of Crestmark's outstanding common stock as of January 9, 2018, have entered into voting agreements with Meta pursuant to which, among other things, each such Crestmark shareholder agreed to vote their shares of Crestmark common stock in favor of the merger agreement, the merger and the other transactions contemplated by the merger agreement, at the Crestmark special meeting. Approval of the Crestmark merger proposal requires the prior affirmative vote from the holders of at least a majority of the outstanding shares of Crestmark common stock entitled to vote thereon.

The Meta special meeting will be held at 5501 South Broadband Lane, Sioux Falls, South Dakota 57108 on May 29, 2018 at 1:00 p.m. local time. The Crestmark special meeting will be held at the Detroit Marriott Troy, 200 W. Big Beaver Road, Troy, Michigan 48064 on May 29, 2018 at 1:00 p.m. local time.

Meta's board of directors unanimously recommends that Meta stockholders vote FOR the adoption of the merger agreement and the approval of the merger and the other transactions contemplated thereby, including the issuance of shares of Meta common stock in connection with the merger, FOR the charter amendment proposal and FOR one or more adjournments of the Meta special meeting, if necessary or appropriate, including adjournments to permit the further solicitation of proxies in favor of the foregoing proposals.

Crestmark's board of directors unanimously recommends that Crestmark shareholders vote FOR the approval of the merger agreement, the merger and the other transactions contemplated by the merger agreement and FOR one or more adjournments of the Crestmark special meeting, if necessary or appropriate, including adjournments to permit the further solicitation of proxies in favor of the foregoing proposals.

We cannot complete the merger without shareholder approval of the Meta merger proposal and the Crestmark merger proposal. It is important that your shares be represented and voted regardless of the size of your holdings. Whether or not you plan to attend the Meta special meeting or the Crestmark special meeting, we urge you to submit a proxy to have your shares voted in advance of the respective special meetings by using one of the methods described in the accompanying joint proxy statement/prospectus.

The accompanying joint proxy statement/prospectus provides important information regarding the special meetings and a detailed description of the merger agreement, the merger, certain related transactions and agreements and the matters to be presented at the special meetings. **We encourage you to read the entire accompanying joint proxy**

statement/prospectus carefully (including any documents incorporated therein by reference). Please pay particular attention to Risk Factors beginning on page 19, for a discussion of the risks relating to the proposed merger.

We look forward to the successful completion of the merger and thank you for your prompt attention to this important matter.

Sincerely,

J. Tyler Haahr

Proposed Merger (Page 39)

We propose that Crestmark will merge with and into Meta, with Meta being the surviving company (the *merger*), and, immediately thereafter, pursuant to the terms of a separate merger agreement between MetaBank and Crestmark Bank (the *bank merger agreement*), Crestmark Bank will merge with and into MetaBank, with MetaBank surviving as Meta's wholly-owned subsidiary (the *bank merger* and, together with the merger, the *mergers*). Following the mergers, it is intended that Crestmark will operate as a division of MetaBank from its offices in Troy, Michigan, and MetaBank will continue to operate as a federally chartered stock savings bank. We expect to complete the mergers in the second calendar quarter of 2018, although delays may occur.

Special Meeting of Meta (Page 30)

Meta plans to hold its special meeting of stockholders at 5501 South Broadband Lane, Sioux Falls, South Dakota 57108 on May 29, 2018 at 1:00 p.m. local time (the *Meta special meeting*). At the Meta special meeting, holders of shares of common stock of Meta, \$0.01 par value per share (*Meta common stock*), will be asked to vote on the following proposals:

to adopt the merger agreement and approve the merger and the other transactions contemplated by the merger agreement, including the issuance of shares of Meta common stock in connection with the merger (the *Meta merger proposal*);

to approve an amendment to Article Fourth of Meta's Certificate of Incorporation to increase the number of authorized shares of Meta common stock to 90 million from 30 million shares (the *charter amendment proposal*) for the purpose of affecting a three-for-one forward split of issued and outstanding shares of Meta common stock; and

to approve one or more adjournments of the Meta special meeting, if necessary or appropriate, including adjournments to permit the further solicitation of proxies in favor of the Meta merger proposal (the Meta adjournment proposal).

Meta stockholder approval of the Meta merger proposal is required to complete the merger. Meta stockholders are being asked to vote on the Meta merger proposal in order to satisfy the requirements of Section 252 of the Delaware General Corporation Law (the DGCL) and NASDAQ Listing Rule 5635(b),

Table of Contents

which requires stockholder approval prior to the issuance of securities in connection with the acquisition of stock or assets of another company if the issuance would constitute more than 20% of the total number of shares of common stock outstanding before the issuance. Meta stockholders are being asked to vote on the charter amendment proposal to facilitate a forward stock split of Meta common stock through a stock dividend, whereby each outstanding share of Meta common stock, as of a to be determined record date, would effectively be split into three shares of Meta common stock (the stock split), and, without approval of the charter amendment proposal, Meta would not have sufficient authorized shares of Meta common stock to affect the stock split. Meta stockholder approval of the charter amendment proposal is required under Section 242 of the DGCL. Meta will transact such other business as may be properly brought before the Meta special meeting or any adjournment or postponement thereof. At this time, Meta's board of directors knows of no other proposals or matters to be presented. You can vote at the Meta special meeting if you owned Meta common stock at the close of business on April 19, 2018 (the Meta record date). As of the Meta record date, there were 9,699,591 shares of Meta common stock outstanding and entitled to vote. A Meta stockholder can cast one vote for each share of Meta common stock owned on the Meta record date.

Approval of each of the Meta merger proposal and the charter amendment proposal requires approval by Meta stockholders holding a majority of the outstanding shares of Meta common stock entitled to vote thereon. Approval of the Meta adjournment proposal requires the affirmative vote of a majority of the total votes cast by holders of Meta common stock on such proposal at the Meta special meeting. If a Meta stockholder marks **ABSTAIN** with respect to the Meta merger proposal or the charter amendment proposal or fails to either submit a proxy card or vote in person at the Meta special meeting or instruct the stockholder's broker with respect to the Meta merger proposal or the charter amendment proposal, it will have the same effect as a vote **AGAINST** the Meta merger proposal or the charter amendment proposal, respectively. If a Meta stockholder marks **ABSTAIN** with respect to the Meta adjournment proposal, it will be counted for purposes of determining whether there is a quorum and will have the same effect as a vote **AGAINST** the Meta adjournment proposal. If a Meta stockholder fails to submit a proxy card or fails to instruct the stockholder's broker with respect to the Meta adjournment proposal, if a quorum is present, it will have no effect on such proposal. For additional and more detailed information regarding the effect of broker non-votes, see Meta Special Meeting Shares Held in Street Name.

As of the Meta record date, Meta's directors and executive officers and their affiliates held approximately 6.91% of the outstanding shares of Meta common stock entitled to vote at the Meta special meeting.

Special Meeting of Crestmark (Page 35)

Crestmark plans to hold its special meeting of shareholders at the Detroit Marriott Troy, 200 W. Big Beaver Road, Troy, Michigan 48084 on May 29, 2018 at 1:00 p.m. local time (the Crestmark special meeting). At the Crestmark special meeting, holders of shares of common stock of Crestmark, no par value per share (Crestmark common stock), will be asked to vote on the following proposals:

to adopt the merger agreement, the merger and the other transactions contemplated by the merger agreement (the Crestmark merger proposal); and

to approve one or more adjournments of the Crestmark special meeting, if necessary or appropriate, including adjournments to permit the further solicitation of proxies in favor of the Crestmark merger proposal (the Crestmark adjournment proposal).

Crestmark shareholder approval of the Crestmark merger proposal is required to complete the merger. Crestmark shareholders are being asked to vote on the Crestmark merger proposal in order to satisfy the requirements of Section 703a of the MBCA. Pursuant to Section 703a of the MBCA and Crestmark's by-laws, approval of the Crestmark merger proposal requires approval by prior affirmative vote from the holders of at

Table of Contents

least a majority of the outstanding shares of Crestmark common stock entitled to vote thereon. Shares of Crestmark common stock held in the Crestmark Employee Stock Ownership Plan (the "ESOP") will be voted by Great Banc Trust Company (the "ESOP Trustee"), as record shareholder, in accordance with ESOP participant directions. Under the ESOP's pass-through provision, and in accordance with applicable Internal Revenue Service ("IRS") regulations, ESOP participants will be allowed to instruct the ESOP Trustee to vote the shares of Crestmark common stock allocated to their respective accounts to approve or disapprove the Crestmark merger proposal and the Crestmark adjournment proposal. Approval of the Crestmark adjournment proposal requires the affirmative vote of a majority of the shares of Crestmark common stock present in person or represented by proxy. Crestmark will transact such other business as may be properly brought before the Crestmark special meeting or any adjournment or postponement thereof. At this time, Crestmark's board of directors knows of no other proposals or matters to be presented.

You can vote at the Crestmark special meeting to approve the Crestmark merger proposal if you owned Crestmark common stock at the close of business on April 19, 2018 (the "Crestmark record date"). As of the Crestmark record date, there were 1,247,747 shares of Crestmark common stock outstanding and entitled to vote. A holder of Crestmark common stock can cast one vote for each share of Crestmark common stock owned on the Crestmark record date.

Certain of Crestmark's directors and executive officers and holders of Crestmark common stock, representing an aggregate of approximately 34% of Crestmark's outstanding common stock as of January 9, 2018, have entered into voting agreements with Meta pursuant to which, among other things, each such Crestmark shareholder agreed to vote such Crestmark shareholder's shares of Crestmark common stock in favor of the merger agreement, the merger and the other transactions contemplated by the merger agreement, at the Crestmark special meeting.

For a list of the number of shares of Crestmark common stock held by (i) each director of Crestmark, (ii) each shareholder that is known to Crestmark as of April 19, 2018 to beneficially own more than 5% percent of the outstanding shares of Crestmark common stock and (iii) all directors and executive officers of Crestmark collectively, see "Security Ownership of Certain Crestmark Beneficial Owners and Management."

Meta's Board Unanimously Recommends That Meta Stockholders Vote FOR the Meta Merger Proposal (Page 30)

Meta's board of directors (i) believes that the merger agreement, the merger and the other transactions contemplated by the merger agreement, including the issuance of shares of Meta common stock in connection with the merger, are consistent with, and will further, the business strategies of Meta and are in the best interests of Meta stockholders, (ii) has unanimously approved and adopted the merger agreement, the merger and the other transactions contemplated by the merger agreement, including the issuance of shares of Meta common stock in connection with the merger, and (iii) unanimously recommends that Meta stockholders vote **FOR** the Meta merger proposal.

Meta's Board Unanimously Recommends That Meta Stockholders Vote FOR the Charter Amendment Proposal (Page 30)

Meta's board of directors (i) believes that the charter amendment proposal, together with the stock split, would increase the affordability, attractiveness and liquidity of shares of Meta common stock and, therefore, is in the best interests of Meta stockholders, (ii) has unanimously approved the charter amendment proposal, and (iii) unanimously recommends that Meta stockholders vote **FOR** the charter amendment proposal.

Table of Contents

Crestmark's Board Unanimously Recommends That Crestmark Shareholders Vote **FOR the Crestmark Merger Proposal (Page 35)**

Crestmark's board of directors (i) believes that the merger agreement, the merger and the other transactions contemplated by the merger agreement, are advisable, fair to and in the best interest of Crestmark and its shareholders, (ii) has unanimously approved and adopted the merger agreement, the merger and the other transactions contemplated by the merger agreement, and (iii) unanimously recommends that holders of Crestmark common stock vote **FOR** the Crestmark merger proposal.

Crestmark Shareholders Will Receive Shares of Meta Common Stock in the Merger (Page 74)

Upon completion of the merger, each holder of Crestmark common stock (collectively, Crestmark common stock) will receive 2.65 shares of Meta common stock (the exchange ratio) in exchange for each share of Crestmark common stock held immediately prior to the completion of the merger, and, in lieu of fractional shares of Meta common stock, Crestmark shareholders will receive cash (rounded down to the nearest whole cent), without any interest and subject to any required withholding tax, in an amount equal to (a) the product of (i) the exchange ratio multiplied by (ii) the average closing price per share of Meta common stock on the NASDAQ Global Select Market for the ten day trading period ending five calendar days before the closing of the merger (such product, the per share purchase price), multiplied by (b) the fractional share interest of such Meta common stock to which such Crestmark share would otherwise be converted (together with the shares of Meta common stock issuable to Crestmark shareholders pursuant to the merger agreement, the stock merger consideration). The exchange ratio is subject to adjustment in the event of a stock split, stock dividend or distribution, recapitalization, reclassification, exchange or similar transaction with respect to the outstanding shares of Meta common stock and, accordingly, would be equitably adjusted to 7.95 shares of Meta common stock if the charter amendment proposal is approved at the Meta special meeting and the stock split is effected prior to the consummation of the merger. Unless the context otherwise requires, the information throughout this joint proxy statement/prospectus does not give effect to the stock split.

As of the effective time of the merger, each outstanding Crestmark stock option (each, a Crestmark stock option) with an exercise price less than the per share purchase price (an in-the-money Crestmark stock option) will be cancelled and converted into the right to receive an amount in cash (without interest) equal to the product of the number of shares of Crestmark common stock underlying such Crestmark stock option, multiplied by the excess of (a) the per share purchase price over (b) the exercise price of such Crestmark stock option, less any applicable withholding taxes (the option merger consideration and, together with the stock merger consideration, the merger consideration). Any Crestmark stock option with an exercise price that is greater than or equal to the per share purchase price (an out-of-the-money Crestmark stock option) will be cancelled and of no further force or effect as of the effective time of the merger, without any consideration therefor.

Tax Consequences of the Merger (Page 67)

Meta and Crestmark intend that the merger will qualify as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code of 1986, as amended (the Code). Based on the qualification of the merger as a reorganization under the Code, U.S. holders (as defined in the section entitled The Merger Material United States Federal Income Tax Consequences of the Merger beginning on page 67) of Crestmark common stock generally will not recognize gain or loss for United States federal income tax purposes upon the exchange of their shares of Crestmark common stock for Meta common stock. U.S. holders will, however, recognize gain or loss in connection with any cash received in lieu of a fractional share of Meta common stock. For a description of the material United States federal income tax consequences of the merger, see The Merger Material United States Federal Income Tax Consequences of the Merger beginning on page 67. Crestmark shareholders are strongly urged to consult with their

tax advisors concerning the United States federal income tax consequences of the merger to them, as well as the effects of state and local, foreign and other tax laws.

Table of Contents

The Merger Will Be Accounted for as a Purchase (Page 70)

For accounting and financial reporting purposes, the merger will be treated as a purchase by Meta of Crestmark under the acquisition method of accounting for business combinations in accordance with generally accepted accounting principles in the United States (U.S. GAAP).

Meta's Reasons for the Merger (Page 44)

For a discussion of the factors considered by Meta's board of directors in reaching its decision to approve the merger agreement, the merger and the other transactions contemplated by the merger agreement, see The Merger Meta's Reasons for the Merger and Recommendation of the Board of Meta.

Opinion of Meta's Financial Advisor (Page 45)

At the January 8, 2018 meeting of Meta's board of directors, representatives of Raymond James & Associates, Inc., which we refer to in this joint proxy statement/prospectus as Raymond James, rendered Raymond James's oral opinion to Meta's board of directors that the exchange ratio was fair, from a financial point of view, to Meta. The oral opinion was subsequently confirmed by Raymond James's delivery of its written opinion to Meta's board of directors, dated January 8, 2018, as to the fairness, as of such date, of the exchange ratio in the merger pursuant to the merger agreement to Meta, based upon and subject to the qualifications, assumptions and other matters considered in connection with the preparation of its opinion.

The full text of the written opinion of Raymond James is attached as *Appendix C* to this joint proxy statement/prospectus. The summary of the opinion of Raymond James set forth in this joint proxy statement/prospectus is qualified in its entirety by reference to the full text of such written opinion. Raymond James provided its opinion for the information of Meta's board of directors (in its capacity as such) in connection with and for purposes of its consideration of the proposed merger. The opinion only addresses the fairness, from a financial point of view, of the exchange ratio provided for in the merger pursuant to the merger agreement to Meta, and does not address any other term or aspect of the merger agreement or the merger. Raymond James's opinion does not constitute a recommendation to Meta's board of directors, any stockholder of Meta or any other party as to how to vote or act on any matter relating to the proposed merger or otherwise.

For a more complete description of Raymond James's opinion, see The Merger Opinion of Meta's Financial Advisor beginning on page 45 of this joint proxy statement/prospectus.

Crestmark's Reasons for the Merger (Page 51)

For a discussion of the factors considered by Crestmark's board of directors in reaching its decision to approve the merger agreement, the merger and the other transactions contemplated by the merger agreement, see The Merger Crestmark's Reasons for the Merger and Recommendation of the Board of Crestmark.

Opinion of Crestmark's Financial Advisor (Page 54)

At the January 8, 2018 meeting at which the Crestmark board of directors considered the merger agreement, Sandler O'Neill & Partners, L.P. (Sandler O'Neill) delivered to the Crestmark board of directors its oral opinion, which was subsequently confirmed in writing on January 8, 2018, to the effect that, as of January 8, 2018 and subject to procedures followed, assumptions made, matters considered and qualifications and limitations described in Sandler

O'Neill's opinion, the exchange ratio provided for in the merger agreement was fair, from a financial point of view, to the holders of Crestmark common stock.

Table of Contents

The full text of Sandler O'Neill's opinion is attached as *Appendix D* to this joint proxy statement/prospectus. The opinion outlines the procedures followed, assumptions made, matters considered and qualifications and limitations on the review undertaken by Sandler O'Neill in rendering its opinion.

Holders of Crestmark common stock are urged to read the entire opinion carefully in connection with their consideration of the proposed transaction.

The opinion was for the information of, and was directed to, the Crestmark board of directors (in its capacity as such) in connection with its consideration of the financial terms of the merger. The opinion did not address the underlying business decision of Crestmark to engage in the merger or enter into the merger agreement or constitute a recommendation to the Crestmark board of directors in connection with the merger, and it does not constitute a recommendation to any holder of Crestmark common stock or any shareholder of any other entity as to how to vote in connection with the stock issuance proposal, the merger or any other matter.

Certain Directors and Executive Officers May Have Interests in the Merger That Differ from Your Interests (Page 70)

Certain directors and executive officers of Crestmark and/or Crestmark Bank have interests in the merger other than their interests as shareholders, including:

Crestmark has entered into a change in control agreement (the "Goik change in control agreement") and a transaction bonus agreement (the "Goik transaction bonus agreement") with Michael Goik, Crestmark Bank's current President and Chief Operating Officer. The Goik change in control agreement and the Goik transaction bonus agreement provide for potential payments of transaction-based compensation in connection with a change in control of Crestmark and termination compensation to Mr. Goik in the event of a qualifying termination of employment.

W. David Tull, Crestmark's current Chairman and Chief Executive Officer, Jack Talkington, Crestmark's current Chief Financial Officer, and Mark Matheson, Crestmark's current Chief Credit Officer, have each entered into a change in control agreement with Crestmark that provides for the potential payment of termination compensation in the event of a qualifying termination of such person's employment with Crestmark or any successor thereto.

Immediately following the closing of the merger, Meta will enter into retention bonus agreements with each of Messrs. Talkington and Matheson (each, a "retention bonus agreement"), which will provide that each such person will be granted 1,000 shares of Meta restricted stock (the "retention units") pursuant to a restricted stock agreement with Meta. Provided that such person remains employed by Meta as of the vesting date of the retention units set forth in the applicable restricted stock agreement, the retention units would vest as follows: 250 shares on September 1 of each of 2018, 2019, 2020 and 2021.

Effective as of the effective time of the merger, each of W. David Tull, Crestmark's Chairman and Chief Executive Officer, and Michael R. Kramer, a member at the law firm Dickinson Wright, PLLC, legal

counsel to Crestmark, will be appointed to the board of directors of each of Meta and MetaBank.

In connection with the execution of the merger agreement, Meta and Mr. Goik entered into an employment agreement (the employment agreement), pursuant to which Mr. Goik will serve as Executive Vice President of MetaBank and President of the Meta Commercial Finance Division, in each case, effective as of the closing date of the merger. The employment agreement provides for the termination of the Goik change in control agreement and the Goik transaction bonus agreement with Crestmark, described above, following the merger. In recognition of the termination of each of the Goik change in control agreement and the Goik transaction bonus agreement with Crestmark as well as

Table of Contents

Mr. Goik's entry into the employment agreement, which contains restrictive covenants, and as a retention incentive, the new employment agreement with Meta provides for a cash payment to Mr. Goik by Meta of \$2.20 million following the merger and a restricted stock award by Meta having a total value not to exceed \$3.80 million as of the closing date of the merger and which is subject to vesting.

To the extent a director or executive officer holds outstanding in-the-money Crestmark stock options immediately prior to the completion of the merger, the in-the-money Crestmark stock options will be cancelled and terminated in exchange for a cash payment, as discussed in *The Merger Agreement* *Interest of Certain Persons in the Merger* *Treatment of Crestmark Stock Options*. As of the date of the merger agreement, directors and executive officers of Crestmark, collectively, held an aggregate of 42,500 outstanding Crestmark stock options.

Pursuant to the terms of the merger agreement, directors and officers of Crestmark will be entitled to certain ongoing indemnification and continued coverage under directors' and officers' liability insurance policies following the merger.

Crestmark's board of directors was aware of these additional interests and considered them when they adopted the merger agreement and approved the merger. For additional details, see *The Merger* *Interests of Certain Persons in the Merger* and *Management of the Combined Company Following the Merger*.

We Have Agreed When and How Crestmark Can Consider Third-Party Acquisition Proposals (Page 80)

We have agreed that neither Crestmark nor its representatives will, directly or indirectly, initiate, solicit, knowingly induce, encourage or knowingly take any action to facilitate the making of, any inquiry, offer or proposal which constitutes, or could reasonably be expected to lead to, an acquisition proposal (as defined in the merger agreement), including entering into any agreement in principle or letter of intent with respect to any acquisition proposal or resolve to approve any acquisition proposal; or participate in any discussions or negotiations regarding any acquisition proposal or furnish, or otherwise afford access, to any person (other than Meta) any information or data with respect to Crestmark or any of its subsidiaries or otherwise relating to an acquisition proposal.

In addition, we have agreed that Crestmark will not engage in negotiations with or provide confidential information to a third party regarding acquiring Crestmark or its businesses. However, if Crestmark receives an unsolicited acquisition proposal from a third party, Crestmark can participate in negotiations with and provide confidential information to the third party if, among other steps, Crestmark's board of directors concludes in good faith that the proposal is, or is reasonably likely to lead to, a superior proposal to Meta's merger proposal. Crestmark's receipt of a superior proposal or participation in such negotiations does not give Crestmark the right to terminate the merger agreement.

Certain Directors, Executive Officers and Shareholders of Crestmark Have Agreed to Vote Their Shares FOR the Merger (Page 91 and *Appendix B*)

As an inducement to and condition of Meta's willingness to enter into the merger agreement, certain of Crestmark's directors and executive officers and holders of Crestmark common stock, representing an aggregate of approximately 34% of Crestmark's outstanding common stock as of January 9, 2018, have entered into voting agreements with Meta, pursuant to which, among other things, they agreed to vote all of their shares of Crestmark common stock in favor of approval of the Crestmark merger proposal and other matters required to be approved or adopted to effect the merger and any other transactions contemplated by the merger agreement.

Table of Contents

We Must Meet Several Conditions to Complete the Merger (Page 84)

Completion of the merger depends on a number of conditions being satisfied or waived, including the following:

the merger agreement and the merger must be approved by the requisite vote of Crestmark shareholders;

the merger agreement, the merger and the issuance of Meta common stock must be approved by the requisite vote of holders of Meta common stock;

all requisite regulatory approvals must be obtained and in full force, and all statutory waiting periods in respect thereof must have terminated;

all other approvals or consents must be obtained and in full force and all statutory waiting periods in respect thereof must have terminated, except for those which will not result in a material adverse effect on Meta;

there must be no government action or other legal restraint or prohibition preventing completion of the merger or the other transactions contemplated by the merger agreement;

the Meta common stock that is to be issued in the merger must be approved for listing on the NASDAQ Global Select Market, and the registration statement filed with the SEC, of which this joint proxy statement/prospectus is a part, must be effective;

Crestmark's adjusted tangible common equity, as defined in the merger agreement, must be greater than or equal to \$97.0 million;

Crestmark must have delivered to Meta Crestmark's 2017 audited financial statements;

Meta must have received (i) resolutions of Crestmark's board of directors terminating Crestmark's employee benefit plans, and (ii) other specified evidence of employee benefit plan compliance;

Crestmark must have delivered to Meta evidence of satisfaction of any corrective actions;

Meta must have received the report from BDO USA LLP regarding the valuation of certain restrictive covenants for purposes of Section 280G of the Code;

Meta stockholders must have approved an amendment to Meta's certificate of incorporation to increase the authorized number of shares of Meta common stock; and

Certain other conditions customary for agreements of this sort, such as the accuracy of representations and warranties subject to materiality standards set forth in the merger agreement, the compliance in all material respects by the parties with their obligations under the merger agreement and the non-existence of a material adverse effect (as such term is defined in the merger agreement).

Where the law permits, either of Meta or Crestmark could choose to waive a condition to its obligation to complete the merger even when that condition has not been satisfied. We cannot be certain when, or if, the conditions to the merger will be satisfied or waived, or that the merger will be completed.

We Must Obtain Regulatory Approvals to Complete the Merger (Page 88)

To complete the merger, Meta and Crestmark must receive prior approval from the Board of Governors of the Federal Reserve System or its designee (the Federal Reserve). Meta filed various applications and notices under the Home Owners Loan Act, 12 U.S.C. §§ 1461 et seq. (HOLA) and the Bank Holding Company Act of 1956, 12 U.S.C. §§ 1841 et seq. (BHCA) for approval of the merger with the Federal Reserve Bank of Minneapolis (FRB-M) on March 14, 2018. In addition, completion of the bank merger is subject to the approval of the

Table of Contents

Office of the Comptroller of the Currency (the OCC). MetaBank filed an application for approval of the bank merger (the bank merger application) with the OCC on March 2, 2018. A copy of one or more of the applications and notices has been furnished to the U.S. Department of Justice (the DOJ), the Federal Deposit Insurance Corporation (the FDIC), and the OCC. Copies of certain of the notices have been filed with the DOJ and the Federal Trade Commission (the FTC) pursuant to the Hart-Scott-Rodino Act. As required by Michigan law, a copy of the bank merger application was filed with the Michigan Department of Insurance and Financial Services (the DIFS) on March 9, 2018. A courtesy copy of one or more of the applications and notices to the Federal Reserve was provided to the DIFS on March 16, 2018.

The DOJ also has the right to provide input into the approval process of federal banking agencies and would have 30 days following any approval of a federal banking agency to challenge the approval of the mergers on antitrust grounds.

There can be no assurance that the Federal Reserve, the OCC or any other regulator will approve the merger or the bank merger, or as to the date of any such approval. See Risk Factors Regulatory approvals may not be received, may take longer than expected or may impose conditions that are not presently anticipated or that could have an adverse effect on the combined company following the mergers.

We May Terminate the Merger Agreement (Page 86)

We can mutually agree at any time to terminate the merger agreement without completing the merger, even if Meta has received approval of the Meta merger proposal by its stockholders and Crestmark has received approval of the Crestmark merger proposal by its shareholders. The merger agreement also provides certain additional termination rights, including, among others, the right of either party to terminate the merger agreement without the consent of the other if (i) any requisite regulatory approvals (as hereinafter defined) are not obtained, (ii) Meta stockholders do not approve the Meta merger proposal or if Crestmark shareholders do not approve the Crestmark merger proposal, (iii) the merger is not completed on or before June 30, 2018, as may be extended for two months in order to obtain regulatory approvals if such regulatory approvals have not obtained as of such date, unless the failure to complete the merger by such date is due to the failure of the party seeking to terminate the merger agreement to comply with any of the provisions of the merger agreement or (iv) the consummation of the merger has been enjoined or prohibited by any governmental regulatory authority.

We May Amend or Waive Merger Agreement Provisions (Page 87)

At any time before completion of the merger, either Meta or Crestmark may, to the extent legally allowed, amend in writing the merger agreement or waive in writing compliance by the other with any provision contained in the merger agreement. However, once Crestmark shareholders have approved the Crestmark merger proposal or Meta stockholders have approved the Meta merger proposal, no amendment may be made that would require further approval by Meta stockholders or Crestmark shareholders unless that approval is obtained.

Meta may also change the structure of the merger or the method effecting the merger before the effective time of the merger, so long as any change does not: (i) change the kind or amount of consideration to be received by Crestmark shareholders; (ii) materially delay receipt of regulatory approvals; (iii) adversely affect the federal income tax consequences of the merger to Crestmark's shareholders; or (iv) cause any of the conditions to complete the merger to be incapable of being satisfied.

The Rights of Crestmark Shareholders Following the Merger Will Be Different (Page 132)

The rights of Meta stockholders are governed by Delaware law, Meta's certificate of incorporation, as amended (Meta's certificate of incorporation), and Meta's amended and restated by-laws, as amended (Meta's

Table of Contents

by-laws). The rights of Crestmark's shareholders are governed by Michigan law, Crestmark's amended and restated articles of incorporation, as amended (Crestmark's articles of incorporation), and Crestmark's by-laws. Upon our completion of the merger, the rights of both stockholder groups will be governed by Delaware law and Meta's certificate of incorporation and Meta's by-laws.

SELECTED UNAUDITED PRO FORMA FINANCIAL INFORMATION

The following table shows selected unaudited pro forma condensed combined financial information about the financial condition and results of operations of Meta giving effect to the merger with Crestmark. The selected unaudited pro forma condensed combined financial information assumes that the merger is accounted for under the acquisition method of accounting for business combinations in accordance with U.S. GAAP, with Meta treated as the acquirer. Under the acquisition method of accounting, the assets and liabilities of Crestmark, as of the effective date of the merger, will be recorded by Meta at their respective estimated fair values, and the excess of the merger consideration over the fair value of Crestmark's net assets will be allocated to goodwill.

Meta's fiscal year ends on September 30 while Crestmark's fiscal year ends on December 31. The unaudited pro forma condensed combined income statement information for the fiscal year ended September 30, 2017 and the three months ended December 31, 2017 is presented as if the merger was consummated on October 1, 2016, the first business day of Meta's 2017 fiscal year. The unaudited pro forma condensed combined income statement for the fiscal year ended September 30, 2017 combines Meta's audited consolidated statement of income for the fiscal year ended September 30, 2017 with Crestmark's audited consolidated statement of income for the fiscal year ended December 31, 2017 (in each case, the most recently completed fiscal year). As a result of the different fiscal year ends, and in order to present results for comparable periods, the unaudited pro forma condensed combined income statement for the three-month period ended December 31, 2017 combines Meta's unaudited consolidated statement of income for the three months ended December 31, 2017 with Crestmark's unaudited consolidated statement of income for the three months ended December 31, 2017. The unaudited pro forma condensed combined balance sheet information as of December 31, 2017 gives effect to the merger as if it occurred on December 31, 2017, and combines the historical balance sheets of Meta and Crestmark as of December 31, 2017.

The selected unaudited pro forma condensed combined financial data has been derived from, and should be read in conjunction with, the unaudited pro forma condensed combined financial information, including the notes thereto, which is included in this joint proxy statement/prospectus under Unaudited Pro Forma Condensed Combined Financial Information.

Table of Contents

The selected unaudited pro forma condensed combined financial information is presented for illustrative purposes only and does not necessarily indicate the financial results of the combined companies had the companies actually been combined at the beginning of each period presented. The selected unaudited pro forma condensed combined financial information also does not consider any potential impacts of current market conditions on revenues, potential revenue enhancements, anticipated cost savings and expense efficiencies, or asset dispositions, among other factors. Further, as explained in more detail in the notes accompanying the more detailed unaudited pro forma condensed combined financial information included under Unaudited Pro Forma Condensed Combined Financial Information, the preliminary allocation of the purchase price reflected in the selected unaudited pro forma condensed combined financial information is based on preliminary estimates and currently available information, some of which assumptions cannot be finalized until the consummation of the merger, is subject to adjustment and may vary from the actual purchase price allocation that will be recorded at the time the merger is completed. Additionally, the adjustments made in the unaudited pro forma condensed combined financial information, which are described in those notes, are preliminary and may be revised.

The foregoing list of factors is not exclusive. We caution you not to place undue reliance on these forward-looking statements. The forward-looking statements included in this joint proxy statement/prospectus speak only as of the date hereof. Additional discussions of these and other risks, uncertainties and other factors applicable to Meta and Crestmark, see Risk Factors in this joint proxy statement/prospectus, in Meta's Annual Report on Form 10-K for Meta's fiscal year ended September 30, 2017, in Meta's Quarterly Report on Form 10-Q for Meta's fiscal quarter ended December 31, 2017 and in other filings made by Meta with the SEC incorporated by reference into this joint proxy statement/prospectus. Meta and Crestmark expressly disclaim any intent or obligation to update any forward-looking statements, whether written or oral, that may be made from time to time by or on behalf of Meta, Crestmark or their respective subsidiaries, whether as a result of new information, changed circumstances or future events, or for any other reason.

RISK FACTORS

In addition to the other information contained in or incorporated by reference into this joint proxy statement/prospectus, including the matters addressed under the heading "Cautionary Statement Regarding Forward-Looking Statements," you should carefully consider the following risk factors in deciding how to vote on the proposals presented in this joint proxy statement/prospectus. You should also consider the other information in, and the other documents incorporated by reference into, this joint proxy statement/prospectus, including in particular the risk factors associated with Meta's business contained under the heading "Risk Factors" and in other sections of Meta's Annual Report on Form 10-K for Meta's fiscal year ended September 30, 2017 as updated by Meta's Quarterly Reports on Form 10-Q. See "Where You Can Find More Information."

Risks Related to the Merger

Because the market price of Meta common stock will fluctuate, Crestmark shareholders cannot be certain of the market value of the merger consideration they will receive.

Upon completion of the merger, holders of Crestmark common stock will receive for each share of Crestmark common stock they hold immediately prior to the completion of the merger a fixed exchange ratio of 2.65 shares of fully paid and non-assessable Meta common stock, and each outstanding in-the-money Crestmark stock option will be cancelled and converted into the right to receive an amount in cash equal to the product of the number of shares of Crestmark common stock underlying such in-the-money Crestmark stock option, multiplied by the excess of (a) the per share purchase price over (b) the exercise price of such in-the-money Crestmark stock option, less any applicable withholding taxes. The exchange ratio will not be adjusted for changes in the market price of Meta common stock between the date of signing the merger agreement and completion of the merger (other than to give effect to a stock split, stock dividend or similar transaction with respect to the outstanding shares of Meta common stock). Any change in the market price of Meta common stock prior to completion of the merger will affect the value of any shares of Meta common stock Crestmark shareholders receive as consideration in the merger and the option merger consideration. The market price of Meta common stock may fluctuate as a result of a variety of factors, including general market and economic conditions, changes in our respective businesses, operations and prospects, and regulatory considerations. Many of these factors are outside our control. Accordingly, at the time of the Crestmark special meeting, Crestmark shareholders will not know or be able to calculate the market price of Meta common stock that they will receive upon completion of the merger.

The lack of a public market for Crestmark's common stock may make it difficult to evaluate the fairness of the merger, and Crestmark shareholders may receive consideration in the merger that is greater than or less than the fair value of the shares of common stock of Crestmark.

Crestmark is privately held and its outstanding capital stock is not traded in any public market. The lack of a public market may make it difficult to determine the fair value of Crestmark or its shares of common stock. As the exchange ratio, and, accordingly, the approximate number of shares of Meta common stock to be issued to the Crestmark shareholders in the merger were determined based on negotiations between the parties, it is possible that, at the effective time of the merger, the aggregate value of the Meta common stock to be issued in connection with the merger may be greater or less than the fair value of Crestmark.

Crestmark will be subject to business uncertainties and contractual restrictions while the merger is pending.

Uncertainty about the effect of the merger on employees and customers may have an adverse effect on Crestmark and consequently on Meta. These uncertainties may impair Crestmark's ability to attract, retain and motivate key personnel

until the merger is completed, and could cause customers and others that deal with Crestmark to seek to change existing business relationships with Crestmark. Retention of certain employees may

Table of Contents

be challenging during the pendency of the merger, as employees may experience uncertainty about their future roles with Meta. If key employees depart because of issues relating to the uncertainty and difficulty of integration or a desire not to remain with Meta, Meta's business following the merger could be harmed. In addition, the merger agreement restricts Crestmark from making certain acquisitions and taking other specified actions without the consent of Meta, and generally requires Crestmark to continue its operations in the ordinary course, until the merger occurs. These restrictions may prevent Crestmark from pursuing attractive business opportunities that may arise prior to the completion of the merger. For a description of the restrictive covenants to which Crestmark is subject, see "The Merger Agreement" Conduct of Business Pending the Merger.

Combining our two companies may be more difficult, costly or time-consuming than we currently expect, and we may fail to realize the anticipated benefits of the merger.

Meta and Crestmark have operated and, until the completion of the merger, will continue to operate, independently. The success of the merger, including anticipated benefits and synergies, will depend, in part, on Meta's ability to successfully combine and integrate the Crestmark business into its own in a manner that permits growth opportunities and does not materially disrupt existing business relationships or result in decreased revenues due to loss of such relationships. It is possible that the integration process could result in uncertainty among Meta and Crestmark employees about their roles within Meta following the merger. As a result, the integration process may have an adverse effect on our ability to attract or retain key management and key employees or lead to the disruption of either company's ongoing business or inconsistencies in standards, controls, procedures and policies that adversely affect our ability to maintain relationships with customers and employees. As with any merger of banking institutions, there also may be business disruptions that cause us to lose customers or business partners or cause customers to take their deposits out of our banks. In particular, MetaBank has limited experience in certain areas of business in which Crestmark operates, including commercial factoring and commercial leasing. As a result of integration issues and business disruptions resulting from such limited experience, or due to a lack of familiarity with MetaBank, current Crestmark Bank customers may turn to other providers of commercial factoring and commercial leasing following the consummation of the merger. The success of the combined company following the merger and the bank merger may depend, in part, on the ability of Meta to integrate the two businesses, business models and cultures. If Meta experiences difficulties in the integration process, including those listed above, Meta may fail to realize the anticipated benefits of the merger in a timely manner or at all. Meta's business or results of operations or the value of its common stock may be materially and adversely affected as a result.

The market price of Meta common stock after the merger may be affected by factors different from those currently affecting Meta common stock.

The businesses of Meta and Crestmark differ in some respects and, accordingly, the results of operations of the combined company and the market price of Meta common stock after the merger may be affected by factors different from those currently affecting the independent results of operations of each of Meta or Crestmark. For a discussion of the business of Meta and of certain factors to consider in connection with the business of Meta, see the documents incorporated by reference into this joint proxy statement/prospectus and referred to under "Where You Can Find More Information," including in particular the section titled "Risk Factors" in Meta's Annual Report on Form 10-K for Meta's fiscal year ended September 30, 2017. For a discussion of the business of Crestmark, see "Information About the Companies" and "Crestmark Management's Discussion and Analysis of Crestmark's Financial Condition and Results of Operations."

Regulatory approvals may not be received, may take longer than expected or may impose conditions that are not presently anticipated or that could have an adverse effect on the combined company following the mergers.

Before the mergers may be completed, Meta and Crestmark must obtain approvals from the Federal Reserve and the OCC. Prior notice of the bank merger must also be provided to the DIFS, which was provided on

Table of Contents

March 9, 2018. Other approvals, waivers, non-objections or consents from regulators may also be required (all such required approvals, collectively, the requisite regulatory approvals). In determining whether to grant the requisite regulatory approvals, regulators consider a variety of factors, including the regulatory standing of each party and the other factors described under The Merger Agreement Regulatory Approvals Required for the Merger. An adverse development in any party's regulatory standing could cause the granting of any such requisite regulatory approval to be delayed or denied. Additionally, the regulators may impose adverse or burdensome conditions on the completion of the merger or the bank merger or require changes to the terms of the merger or the bank merger. Such conditions or changes could have the effect of delaying or preventing completion of the merger or the bank merger or imposing additional costs on, or limiting the revenues of, the combined company following the merger and the bank merger, any of which might have an adverse effect on the combined company following the merger and the bank merger. Receipt of the requisite regulatory approvals could also be adversely impacted by the existence and status of any ongoing investigation of the parties or any of their respective customers, program managers or other marketers, including subpoenas to provide information or investigations by any federal, state or local governmental agency. We may not be able to obtain the requisite regulatory approvals within the timeframe that the parties presently expect, or at all, and we cannot provide any assurances that the regulators will not impose additional conditions to the completion of the merger or the bank merger. Our ability to obtain the requisite regulatory approvals in a timely manner, or at all, could also be adversely impacted if individuals or groups exercise their right to comment on the merger and the bank merger and raise an objection to the transactions. See The Merger Agreement Regulatory Approvals Required for the Merger.

Some Crestmark directors and officers may have interests and arrangements that may have influenced their decisions to support or recommend that you approve the merger.

Certain of Crestmark's directors and executive officers have interests in the merger and have arrangements that are different from, or in addition to, those of Crestmark's shareholders generally. These interests and arrangements may create potential conflicts of interest. For a description of these interests, see The Merger Interests of Certain Persons in the Merger.

The merger agreement limits Crestmark's ability to pursue alternatives to the merger.

The merger agreement contains provisions that limit Crestmark's ability to solicit, encourage or discuss competing third-party proposals to acquire all or a significant part of Crestmark. These provisions, which include a \$10.0 million termination fee, might discourage a potential competing acquirer that might have an interest in acquiring all or a significant part of Crestmark from considering or proposing that acquisition, even if it were prepared to pay consideration with a higher per share price than that proposed in the merger, or might result in a potential competing acquirer proposing to pay a lower per share price to acquire Crestmark than it might otherwise have proposed to pay.

Termination of the merger agreement could negatively impact Meta or Crestmark.

Completion of the merger is conditioned upon the satisfaction of certain closing conditions, including the approval of the Meta merger proposal and the Crestmark merger proposal. In addition, if the merger is not completed on or before June 30, 2018, as may be extended automatically for two months in order to obtain regulatory approvals, either Meta or Crestmark may choose not to proceed with the merger. Meta and/or Crestmark may also terminate the merger agreement under certain circumstances. The required conditions to close the merger may not be satisfied in a timely manner, if at all, or, if permissible, waived. Any delay in completing the merger could cause the combined company not to realize some or all of the benefits that the combined company expects to achieve if the merger is successfully completed within its expected time frame. In the event the merger agreement is terminated, Meta's or Crestmark's business may be adversely impacted by the failure to pursue other beneficial opportunities due to the focus of management on the merger. The market price of Meta common stock might decline to the extent that the current

market price reflects a market assumption that

Table of Contents

the merger will be completed. If the merger agreement is terminated and Crestmark's board of directors seeks another merger or business combination, Crestmark shareholders cannot be certain that Crestmark will be able to find a party willing to offer equivalent or more attractive consideration than the merger consideration provided in the merger. If the merger agreement is terminated under certain circumstances, (i) Crestmark may be required to pay Meta a termination fee of \$10.0 million or (ii) Meta may be required to pay Crestmark a termination fee of \$10.0 million. If the merger agreement is terminated, Meta or Crestmark may experience negative reactions from its customers, vendors and employees. See The Merger Agreement Termination of the Merger Agreement.

We expect to incur substantial expenses related to the merger and the integration of Crestmark into Meta.

We expect to incur synergy planning and integration costs in connection with the merger. While we have assumed the level of such expenses we expect to incur, there are many factors beyond our control that could affect the total amount or the timing of the merger and integration expenses. Moreover, many of the expenses that will be incurred are, by their nature, difficult to estimate accurately. To the extent these merger and integration expenses are higher than anticipated, our future operating results and financial condition may be materially adversely affected.

Current holders of Meta common stock and current holders of Crestmark common stock will have a reduced ownership and voting interest in their respective companies after the merger and will exercise less influence over management.

Holders of Crestmark common stock currently have the right to vote on matters affecting Crestmark, and current holders of Meta common stock currently have the right to vote on matters affecting Meta. Upon the completion of the merger, each Crestmark shareholder that receives shares of Meta common stock will become a stockholder of Meta with a percentage ownership interest in Meta with respect to such shares that is smaller than the shareholder's current percentage ownership interest in Crestmark. Upon receiving 2.65 shares of Meta common stock per issued and outstanding share of Crestmark common stock following the effective time of the merger, the former shareholders of Crestmark would collectively receive shares in the merger constituting approximately 25%, and the current stockholders of Meta would hold shares constituting approximately 75%, of the outstanding shares of Meta common stock immediately after the merger based on the number of shares of Meta common stock and Crestmark common stock outstanding as of January 9, 2018. Because of this, current Meta stockholders will have less influence on the management and policies of Meta than they have prior to the merger, and Crestmark shareholders will have less influence on the management and policies of Meta than they have on the management and policies of Crestmark prior to the merger.

The respective opinions of Meta's financial advisor and of Crestmark's financial advisor will not reflect changes in circumstances between the signing of the merger agreement and the completion of the merger.

Meta and Crestmark have not obtained, as of the date of this joint proxy statement/prospectus, and do not expect to obtain, updated opinions from their respective financial advisors. The opinions of Meta's and Crestmark's financial advisors were each based on certain facts and assumptions regarding the operations and prospects of Meta and Crestmark, general market and economic conditions and other factors as of the dates of such opinions. Changes in the operations and prospects of Meta or Crestmark, general market and economic conditions and other factors that may be beyond the control of Meta or Crestmark may significantly alter the value of Meta or Crestmark, the price of the shares of Meta common stock by the time the merger is completed or the future price at which Meta common stock trades. The opinions do not speak as of the time the merger will be completed or as of any date other than the date of such opinions. Because Meta and Crestmark do not currently anticipate asking their respective financial advisors to update their opinions, the opinions will not address the fairness of the merger consideration or the exchange ratio, as applicable, from a financial point of view at the time a Meta stockholder or Crestmark shareholder votes or at the time

the merger is completed. For descriptions of the opinions that Meta and Crestmark received from their respective financial advisors, please

refer to The Merger Opinion of Meta's Financial Advisor and The Merger Opinion of Crestmark's Financial Advisor.

Our future results following the merger may differ materially from the unaudited pro forma financial information included in this document.

The unaudited pro forma financial information included in this joint proxy statement/prospectus is presented for illustrative purposes only and is not necessarily indicative of what the combined company's actual financial position or results of operations would have been had the merger been completed on the date(s) indicated. The preparation of the pro forma financial information is based upon available information and certain assumptions and estimates that Meta and Crestmark currently believe are reasonable. The unaudited pro forma financial information reflects adjustments, which are based upon preliminary estimates, to allocate the purchase price to Crestmark's net assets. The purchase price allocation reflected in this joint proxy statement/prospectus is preliminary, and the final allocation of the purchase price will be based upon the actual purchase price and the fair value of the assets and liabilities of Crestmark as of the date of the completion of the merger. In addition, the assumptions used in preparing the pro forma financial information may not prove to be accurate, and other factors may affect the combined company's financial condition and results of operations following the merger. Any change in the combined company's financial condition or results of operations may cause significant variations in the price of Meta common stock. In addition, following the completion of the merger, there may be further refinements of the purchase price allocation as additional information becomes available. Accordingly, the final purchase accounting adjustments may differ materially from the pro forma adjustments reflected in this joint proxy statement/prospectus. See Unaudited Pro Forma Condensed Combined Financial Information.

The shares of Meta common stock that Crestmark shareholders will receive as a result of the merger will have different rights from shares of Crestmark common stock.

The rights associated with Crestmark common stock are different from the rights associated with Meta common stock. For a discussion of the different rights associated with Meta common stock, see Comparison of Stockholder Rights.

Risks Related to Crestmark's Business

Adverse changes in economic conditions or interest rates may negatively affect Crestmark's earnings, capital and liquidity.

The results of operations for financial institutions, including Crestmark, may be materially and adversely affected by changes in prevailing economic conditions in the markets in which Crestmark operates, including increases or decreases in the value of collateral or the financial health of borrowers. Crestmark's business may also be negatively impacted by changing interest rates and changes in the monetary and fiscal policies of the federal government. Crestmark's profitability is heavily influenced by the spread between the interest rates it earns on loans and investments and the interest rates it pays on deposits and other interest-bearing liabilities. Like most banking institutions, Crestmark's net interest spread and margin is affected by general economic conditions and other factors that influence market interest rates and Crestmark's ability to respond to changes in these rates. At any given time, Crestmark's assets and liabilities may be such that they will be affected differently by a given change in interest rates. Furthermore, a downturn in local or national economic conditions may adversely affect Crestmark's specialty lending operations focused on certain industries or its traditional factoring services because, if Crestmark is unable to collect on purchased receivables, Crestmark will sustain losses, which in some cases may be material. Moreover, a recession may result in a reduction in demand for Crestmark's financial services, which could lead to a reduction in fees and overall profitability of Crestmark's loan portfolio.

Table of Contents

Significant declines in economic conditions may stress the financial health of Crestmark's borrowers and decrease the value of Crestmark's collateral more significantly than traditional banks.

Crestmark provides business-to-business working capital solutions, equipment leasing and asset-based lending services that are outside the realm of what traditional banks typically offer. These services include customizable business lines of credit, machinery and equipment financing, term loans, working capital acquisition funding and expansion financing, discount factoring and traditional factoring. Crestmark typically provides these services to customers who are not "bankable" under traditional lending standards and Crestmark's loans are based in large part on the value of and control over the borrower's collateral. Stressed economic conditions may reduce the ability of Crestmark's borrowers to make loan and lease payments or cause the value of Crestmark's collateral to decline. The effect of a downturn in general economic conditions may be more significant for Crestmark's business than for traditional banks due to the specialized nature of its financial products and collateral.

Changes in pricing, availability or regulation of brokered deposits and listing services as sources of capital could have a negative impact on Crestmark's business.

Crestmark is a non-cash bank and does not maintain a traditional retail branch or deposit network. Crestmark primarily relies upon brokered deposits and internet listing services as sources of capital, which are supplemented by internet-based retail and commercial deposits. If brokered deposits or funds from listing services become more expensive or otherwise more difficult to obtain and Crestmark is unable to replace them with suitable sources of liquidity, Crestmark's net interest margin, liquidity, profitability and results of operations could suffer.

Crestmark's future success is dependent on its ability to compete effectively in the highly competitive banking industry.

Crestmark faces substantial competition in all phases of its operations from a variety of different competitors, and its future growth and success depends on its ability to compete effectively in this highly competitive environment. Crestmark competes for loans, leases and other financial services with numerous national and regional banks, thrifts, credit unions and other financial institutions, as well as other entities that provide financial services, including specialty lenders, securities firms and mutual funds. Some of the financial institutions and financial service organizations with which Crestmark competes are not subject to the same degree of regulation as Crestmark. Many of Crestmark's competitors have been in business for many years, have established customer bases, are larger, have substantially higher lending limits than Crestmark does, offer larger branch networks than Crestmark and offer other services which Crestmark does not, including trust and international banking services. Most of these entities have greater capital and other resources than Crestmark does, which, among other things, may allow them to price their services at levels more favorable to customers and to provide larger credit facilities than Crestmark does. This competition may limit Crestmark's growth or earnings. Under specified circumstances (that have been modified by the Dodd-Frank Act), securities firms and insurance companies that elect to become financial holding companies under the BHCA may acquire banks and other financial institutions. The financial services industry may also become more competitive as further technological advances enable more companies to provide financial services. These technological advances may diminish the importance of depository institutions and other financial intermediaries in the transfer of funds between parties.

Crestmark's risk management systems may fall short of their intended objectives.

Crestmark seeks to monitor and control its risk exposure through a risk and control framework encompassing a variety of separate but complementary financial, credit, operational, compliance and legal reporting systems, internal controls, management review processes and other mechanisms. While Crestmark employs risk monitoring and risk mitigation

techniques, those techniques and the judgments that accompany their application cannot anticipate every economic and financial outcome or the specifics and timing of such outcomes, which may result in Crestmark incurring losses.

Table of Contents

Crestmark may not be able to successfully adapt to evolving industry standards and market pressures.

Crestmark's success depends, in part, on the ability to adapt products and services to evolving industry standards. There is increasing pressure to provide financial products and services at lower prices, which may reduce net interest income and non-interest income from fee-based products and services. In addition, the widespread adoption of new technologies could require Crestmark to make substantial capital expenditures to modify or adapt existing products and services or develop new products and services. Crestmark may not be successful in introducing new products and services in response to industry trends or developments, including trends or developments in technology, or those new products may not achieve market acceptance. As a result, Crestmark could lose business, or be forced to price products and services on less advantageous terms to retain or attract clients. As a result, Crestmark's business, financial condition, or results of operations may be adversely affected.

The soundness of other financial institutions could adversely affect Crestmark.

Crestmark's ability to engage in routine funding transactions could be adversely affected by the actions and commercial soundness of other financial institutions. Financial services institutions are interrelated as a result of trading, clearing and counterparty or other relationships. Crestmark has exposure to many different industries and counterparties, and it routinely executes transactions with counterparties in the financial industry. As a result, defaults by, or even rumors or questions about, one or more financial services institutions, or the financial services industry generally, have led to market-wide liquidity problems and could lead to losses or defaults by Crestmark or by other institutions. Even routine funding transactions expose Crestmark to credit risk in the event of default of its counterparty or client. In addition, Crestmark's credit risk may be exacerbated when the collateral held by it cannot be realized upon or is liquidated at prices insufficient to recover the full amount of the financial instrument exposure due to Crestmark. There is no assurance that any such losses would not materially and adversely affect Crestmark's results of operations.

The timing and effect of Federal Reserve Board policy normalization remains uncertain.

In September 2014, the Federal Reserve Board announced principles it would follow to implement monetary policy normalization, that is, to raise the Federal funds rate and other short-term interest rates to more historically normal levels and to reduce the Federal Reserve's securities holdings, so as to promote its statutory mandate of maximum employment and price stability. The Federal Open Market Committee (FOMC) took the initial step in that process by raising the Federal funds rate by 25 basis points in December 2015, the first such action since December 2008. Subsequently, the FOMC refined the normalization principles and announced greater detail about its planned approach. In September 2017, the FOMC announced the start of gradual reduction in the Federal Reserve's securities holdings, commencing in October 2017. In each of March, June, and December 2017, the FOMC raised the Federal funds rate by 25 basis points, and announced its intention to continue to raise the Federal funds rate gradually over the next few years. There can be no assurance that these reductions in the Federal Reserve's securities holdings, and increases in the Federal funds rate, will continue to occur, that they will be gradual if they do occur, or as to the actual impact of those policies on the financial markets, the broader economy, or on Crestmark's business, financial condition, results of operations, or access to credit.

The effect of financial services legislation and regulations remains uncertain.

On February 3, 2017, President Trump signed Executive Order 13772, specifying new core principles for regulating the U.S. financial system. Among other things, the President directed the Secretary of the Treasury, in consultation with federal regulatory agencies, to review existing laws and regulations and report on the extent to which they were consistent with the core principles. Beginning in February 2017, Congress passed, and the President signed, more than

a dozen resolutions under the Congressional Review Act, repealing various federal regulations, including regulations adopted by the Consumer Financial Protection Bureau (the CFPB). Certain bills pending in Congress would, if enacted, repeal or substantially amend various provisions of the Dodd-Frank

Table of Contents

Act. Proposals to modify existing regulations in light of the new core principles are under consideration by various federal regulatory agencies, including the CFPB. There can be no assurance that any such legislation will be enacted, or that changes in existing regulations will be adopted to implement the new core principles.

Thus, the effect of financial services legislation and regulations remains uncertain. The implementation, amendment, or repeal of federal financial services laws or regulations may limit Crestmark's business opportunities, impose additional costs on Crestmark, impact Crestmark's revenues or the value of its assets, or otherwise adversely affect Crestmark's business.

Crestmark's credit losses could increase and its allowance may not be adequate to cover actual loan losses.

The risk of nonpayment of loans and leases is inherent in lending and leasing activities, and nonpayment, when it occurs, may have a materially adverse effect on Crestmark's earnings and overall financial condition, as well as the value of its common stock. Crestmark's focus on asset-based loans subjects Crestmark to the potential for fraud by borrowers regarding the value of underlying collateral. As a result, Crestmark may assume different or greater lending risks than other banks. Crestmark makes various assumptions and judgments about the collectability of Crestmark's loan portfolio and provides an allowance for losses based on several factors. If Crestmark's assumptions are wrong, Crestmark's allowance may not be sufficient to cover Crestmark's losses, which would have an adverse effect on Crestmark's operating results. The actual amounts of future provisions for loan losses cannot be determined at this time and may exceed the amounts of past provisions. Additions to Crestmark's allowance decrease Crestmark's net income.

Crestmark relies heavily on its management and other key personnel, and the loss of any of them may adversely affect its operations.

Crestmark is dependent upon the services of its management team, including its executive officers and its other senior managers. The unanticipated loss of Crestmark's executive officers, or any of its other senior managers, could have an adverse effect on its growth and performance.

In addition, Crestmark depends on Crestmark's key sales managers. Several of Crestmark's sales managers are responsible, or share responsibility, for generating and managing a significant portion of Crestmark's loan and leasing portfolio. Crestmark's success can be attributed in large part to the relationships these individuals, as well as members of Crestmark's management team, have developed and are able to maintain with Crestmark's customers as Crestmark continues to implement Crestmark's community banking philosophy. The loss of any of these sales managers could adversely affect Crestmark's portfolio and performance, and Crestmark's ability to generate new loans. Many of Crestmark's key employees have signed agreements with Crestmark agreeing not to compete with Crestmark in one or more of Crestmark's markets for specified time periods if they leave employment with Crestmark. However, Crestmark may not be able to effectively enforce such agreements.

Some of the other financial institutions in Crestmark's markets also require their key employees to sign agreements that preclude or limit their ability to leave their employment and compete with them or solicit their customers. These agreements make it more difficult for Crestmark to hire sales managers with experience in Crestmark's markets who can immediately solicit their former or new customers on Crestmark's behalf.

Crestmark's business is subject to operational risks.

Crestmark, like most financial institutions, is exposed to many types of operational risks, including the risk of fraud by borrowers, employees or outsiders, unauthorized transactions by employees or operational errors. Operational errors may include clerical or recordkeeping errors or those resulting from faulty or disabled computer or

telecommunications systems. Given Crestmark's volume of transactions, certain errors may be repeated or compounded before they are discovered and successfully corrected. Crestmark's necessary dependence upon automated systems to record and process its transaction volume may further increase the risk that technical system flaws or employee tampering or manipulation of those systems will result in losses that are difficult to detect.

Table of Contents

Crestmark may also be subject to disruptions of its operating systems arising from events that are wholly or partially beyond its control, including, for example, computer viruses or electrical or telecommunications outages, which may give rise to losses in service to customers and to loss or liability to Crestmark. Crestmark is further exposed to the risk that its external vendors may be unable to fulfill their contractual obligations to it, or will be subject to the same risk of fraud or operational errors by their respective employees as is Crestmark, and to the risk that Crestmark's or its vendors' business continuity and data security systems prove to be inadequate. Crestmark also faces the risk that the design of its controls and procedures proves inadequate or is circumvented, causing delays in detection or errors in information. Although Crestmark maintains a system of controls designed to keep operational risks at appropriate levels, there can be no assurance that it will not suffer losses from operational risks in the future that may be material in amount.

Crestmark is subject to significant government regulation, and any regulatory changes may adversely affect Crestmark.

The banking industry is heavily regulated under both federal and state law. These regulations are primarily intended to protect customers, the federal deposit insurance fund, and the stability of the U.S. financial system, not Crestmark's creditors or shareholders. Existing state and federal banking laws subject Crestmark to substantial limitations with respect to the making of loans, the purchase of securities, the payment of dividends and many other aspects of Crestmark's business. Some of these laws may benefit Crestmark, others may increase Crestmark's costs of doing business, or otherwise adversely affect Crestmark and create competitive advantages for others. Regulations affecting banks and financial services companies undergo continuous change, which may be accelerated by the recent change in the federal administration, and Crestmark cannot predict the ultimate effect of these changes, which could have a material adverse effect on Crestmark's profitability or financial condition. Federal economic and monetary policy may also affect Crestmark's ability to attract deposits, make loans and achieve satisfactory interest spreads.

Minimum capital requirements have increased.

The provisions of the Dodd-Frank Act relating to capital to be maintained by financial institutions approach convergence with the standards (generally known as Basel III) adopted in December, 2010 by the Group of Governors and Heads of Supervision, the oversight body of the Basel Committee on Banking Supervision. Among other things, those standards contain a narrower definition of elements qualifying for inclusion as Tier 1 capital and higher minimum risk-based capital levels than those specified in previous U.S. law and regulations. In July, 2013, the U.S. federal bank regulatory agencies adopted regulations to implement the provisions of the Dodd-Frank Act and Basel III for U.S. financial institutions. The new regulations became applicable to Crestmark effective January 1, 2015.

The new regulations implemented (i) revised definitions of regulatory capital elements, (ii) a new common equity Tier 1 (CET 1) minimum capital ratio requirement, (iii) an increase in the existing minimum Tier 1 capital ratio requirement, (iv) new limits on capital distributions and certain discretionary bonus payments if an institution does not hold a specified amount of CET 1 (called a capital conservation buffer) in addition to the amount required to meet its minimum risk-based capital requirements, (v) new risk-weightings for certain categories of assets, and (vi) other requirements applicable to banking organizations which have total consolidated assets of \$250 billion or more, total consolidated on-balance sheet foreign exposure of \$10 billion or more, elect to use the advanced measurement approach for calculating risk-weighted assets, or are subsidiaries of banking organizations that use the advanced measurement approach (Advanced Approaches Entities).

Among other things, the new regulations generally require banking organizations to recognize in regulatory capital most components of accumulated other comprehensive income (AOCI), including accumulated unrealized gains and losses on available for sale securities. This requirement, which was not imposed under previous risk-based capital

regulations, may be avoided by banking organizations, such as Crestmark, that are not Advanced Approaches Entities, by making a one-time, irrevocable election on the first quarterly regulatory report

Table of Contents

following the date on which the regulations become effective as to them. Crestmark made the one-time, irrevocable election regarding the treatment of AOCI on March 31, 2015.

In addition, the new regulations (unlike the original proposal), permit companies such as Crestmark, which had total assets of less than \$15 billion on December 31, 2009, and had issued trust preferred securities on or prior to May 19, 2010, to continue to include such securities in Tier 1 capital.

On January 1, 2015, for banking organizations such as Crestmark that are not Advanced Approaches Entities, the new regulations mandated a minimum ratio of CET 1 to standardized total risk-weighted assets (RWA) of 4.5%, an increased ratio of Tier 1 capital to RWA of 6.0% (compared to the prior requirement of 4.0%), a total capital ratio (that is, the sum of Tier 1 and Tier 2 capital to RWA) of 8.0%, and a minimum leverage ratio (that is, Tier 1 capital to adjusted average total consolidated assets) of 4.0%. The calculation of these amounts is affected by the new definitions of certain capital elements. The phase-in of the capital conservation buffer comprised solely of CET 1 commenced January 1, 2016, beginning at 0.625% of RWA and rising to 2.5% of RWA on January 1, 2019. Failure by a banking organization to maintain the aggregate required minimum capital ratios and capital conservation buffer will impair its ability to make certain distributions (including dividends and stock repurchases) and discretionary bonus payments to executive officers.

These increased minimum capital requirements may adversely affect Crestmark's ability to pay cash dividends, reduce Crestmark's profitability, or otherwise adversely affect Crestmark's business, financial condition or results of operations. In the event of a need for additional capital to meet these requirements, there can be no assurance of Crestmark's ability to raise funding in the equity and capital markets. Factors that Crestmark cannot control, such as the disruption of financial markets or negative views of the financial services industry generally, could impair Crestmark's ability to raise qualifying equity capital. In addition, Crestmark's ability to raise qualifying equity capital could be impaired if investors develop a negative perception of Crestmark's financial prospects. If Crestmark were unable to raise qualifying equity capital, it might be necessary for Crestmark to sell assets in order to maintain required capital ratios. Crestmark may be unable to sell some of Crestmark's assets, or Crestmark may have to sell assets at a discount from market value, either of which could adversely affect Crestmark's results of operations, cash flow and financial condition.

Crestmark faces the risk of cyber-attack to its computer systems.

In the ordinary course of business, Crestmark collects and stores sensitive data, including proprietary business information and personally identifiable information of Crestmark's customers and employees in systems and on networks. The secure processing, maintenance and use of this information is critical to Crestmark's operations. Crestmark's systems and those of Crestmark's customers and third-party service providers are under constant threat, and it is possible that Crestmark could experience a significant event in the future. Cybersecurity threats include unauthorized access, loss or destruction of data (including confidential client information), account takeovers, unavailability of service, computer viruses or other malicious code, cyber-attacks and other events. These threats may derive from human error, fraud or malice on the part of employees or third parties, or may result from accidental technological failure. If one or more of these events occurs, it could result in the disclosure of confidential client information, damage to Crestmark's reputation with Crestmark's clients and the market, additional costs to Crestmark (such as repairing systems or adding new personnel or protection technologies), regulatory penalties and financial losses, to both Crestmark and Crestmark's clients and customers. Such events could also cause interruptions or malfunctions in Crestmark's operations (such as the lack of availability of Crestmark's online banking system), as well as the operations of Crestmark's clients, customers or other third parties. Risks and exposures related to cybersecurity attacks are expected to remain high for the foreseeable future due to the rapidly evolving nature and sophistication of these threats, as well as due to the expanding use of Internet banking, mobile banking and other technology-based

products and services by Crestmark and Crestmark's customers. There can be no assurance that Crestmark will not suffer losses in the future that may be material in amount.

Table of Contents

In March 2015, federal regulators issued two related statements regarding cybersecurity. One statement indicates that financial institutions should design multiple layers of security controls to establish lines of defense and to ensure that their risk management processes also address the risk posed by compromised customer credentials, including security measures to reliably authenticate customers accessing internet-based services of the financial institution. The other statement indicates that a financial institution's management is expected to maintain sufficient business continuity planning processes to ensure the rapid recovery, resumption and maintenance of the institution's operations after a cyber-attack involving destructive malware. A financial institution is also expected to develop appropriate processes to enable recovery of data and business operations and address rebuilding network capabilities and restoring data if the institution or its critical service providers fall victim to this type of cyber-attack. If Crestmark fails to observe the regulatory guidance, Crestmark could be subject to various regulatory sanctions, including financial penalties.

Damage to Crestmark's reputation could materially harm its business.

Crestmark's relationship with many of its clients is predicated upon its reputation as a fiduciary and a service provider that adheres to the highest standards of ethics, service quality and regulatory compliance. Adverse publicity, regulatory actions, litigation, operational failures, the failure to meet client expectations and other issues with respect to one or more of Crestmark's businesses could materially and adversely affect its reputation, its ability to attract and retain clients or its sources of funding for the same or other businesses. Preserving and enhancing Crestmark's reputation also depends on maintaining systems and procedures that address known risks and regulatory requirements, as well as Crestmark's ability to identify and mitigate additional risks that arise due to changes in its businesses and the marketplaces in which it operates, the regulatory environment and client expectations. If any of these developments has a material effect on Crestmark's reputation, Crestmark's business will suffer.

META SPECIAL MEETING

This section contains information from Meta for Meta stockholders about the special meeting of Meta stockholders that Meta has called to consider and approve the Meta merger proposal and the charter amendment proposal, each as discussed further below. Meta is mailing this joint proxy statement/prospectus to Meta stockholders on or about [], 2018. Together with this joint proxy statement/prospectus, Meta is also sending to Meta stockholders a notice of the Meta special meeting and a form of proxy card that Meta's board of directors is soliciting for use at the special meeting of Meta stockholders and at any adjournments of the meeting.

Date, Time and Place

The special meeting of Meta stockholders will be held at 5501 South Broadband Lane, Sioux Falls, South Dakota 57108 on May 29, 2018 at 1:00 p.m., local time.

Matters to Be Considered

At the Meta special meeting, Meta stockholders as of the Meta record date will be asked to consider and vote on the following matters:

Adoption of the merger agreement, a copy of which is attached as *Appendix A* to this joint proxy statement/prospectus, and approval of the merger and the other transactions contemplated by the merger agreement, including the issuance of shares of Meta common stock in connection with the merger;

Approval of an amendment to Article Fourth of Meta's Certificate of Incorporation to increase the number of authorized shares of Meta common stock to 90 million from 30 million shares for the purpose of affecting a three-for-one forward split of issued and outstanding shares of Meta common stock;

Approval of one or more adjournments of the Meta special meeting, if necessary or appropriate, including adjournments to permit the further solicitation of proxies in favor of the any of the foregoing proposals; and

Transaction of such other business as may properly come before the Meta special meeting and any adjournments or postponements thereof.

Meta stockholders are being asked to vote on the Meta merger proposal in order to satisfy the requirements of Section 252 of the DGCL and NASDAQ Listing Rule 5635(b), which requires stockholder approval prior to the issuance of securities in connection with the acquisition of stock or assets of another company if the issuance would constitute more than 20% of the total number of shares of common stock outstanding before the issuance.

Meta stockholders are being asked to vote on the charter amendment proposal to facilitate the stock split, and, without approval of the charter amendment proposal, Meta would not have sufficient authorized shares of Meta common stock to affect the stock split. Meta stockholder approval of the charter amendment proposal is required under Section 242 of the DGCL.

Recommendation of Meta's Board of Directors

Meta's board of directors recommends that holders of Meta common stock vote **FOR** the Meta merger proposal, **FOR** the charter amendment proposal and **FOR** the adjournment proposal (if necessary or appropriate).

Meta Record Date and Quorum

Meta Record Date

Meta's board of directors has fixed the close of business on April 19, 2018 as the record date for determining the Meta stockholders entitled to receive notice of and to vote at the Meta special meeting (the "Meta record date"). Each share of Meta common stock held of record at the close of business on the Meta record date entitles the holder thereof to one vote on each matter considered and voted on at the Meta special meeting. As of the Meta record date, 9,699,591 shares of Meta common stock were issued and outstanding and held by approximately 133 record holders.

If you hold shares of Meta common stock that are registered in your name through Meta's transfer agent, Computershare Trust Company, N.A., as of the Meta record date, you are the stockholder of record with respect to those shares. If you hold shares of Meta common stock indirectly through a bank, broker, trustee or other nominee (a "broker"), you are considered a beneficial owner of those shares but are not the stockholder of record. In this circumstance, you are a stockholder whose shares are held in "street name" and your broker is considered the stockholder of record. Meta sent copies of this joint proxy statement/prospectus directly to all Meta stockholders of record. If you are a beneficial owner whose shares are held in street name, these materials were sent to you by the broker through which you hold your shares. As the beneficial owner, you may direct your broker how to vote your shares at the Meta special meeting, and the broker is obligated to provide you with a voting instruction form for you to use for this purpose.

Quorum Requirements

A quorum is required to transact business at the Meta special meeting. The holders of one-third of the outstanding shares of Meta common stock on the Meta record date, present in person or represented by proxy and entitled to vote, will constitute a quorum for the transaction of business at the Meta special meeting. Abstentions and broker non-votes are treated as present for quorum purposes.

Vote Required; Treatment of Abstentions and Failure to Vote

Meta Merger Proposal

Approval of the Meta merger proposal requires approval by Meta stockholders holding a majority of the outstanding shares of Meta common stock entitled to vote thereon. If a Meta stockholder marks **ABSTAIN** with respect to the Meta merger proposal or fails to either submit a proxy card or vote in person at the Meta special meeting or instruct the stockholder's broker with respect to the Meta merger proposal, it will have the same effect as a vote **AGAINST** the Meta merger proposal.

Charter Amendment Proposal

Approval of the charter amendment proposal requires approval by Meta stockholders holding a majority of the outstanding shares of Meta common stock entitled to vote thereon. If a Meta stockholder marks **ABSTAIN** with respect to the charter amendment proposal or fails to either submit a proxy card or vote in person at the Meta special meeting or instruct the stockholder's broker with respect to the charter amendment proposal, it will have the same effect as a vote **AGAINST** the charter amendment proposal.

Meta Adjournment Proposal

Approval of the Meta adjournment proposal requires the affirmative vote of a majority of the total votes cast by holders of Meta common stock on such proposal. If a Meta stockholder marks **ABSTAIN** with respect to the Meta adjournment proposal, it will be counted for purposes of determining whether there is a quorum and will have the same effect as a vote **AGAINST** the Meta adjournment proposal. If a Meta stockholder fails to submit a proxy card or fails to vote in person or fails to instruct the stockholder's broker with respect to the Meta adjournment proposal, if a quorum is present, it will have no effect on such proposal. For additional and more detailed information regarding the effect of broker non-votes, see Shares Held in Street Name below.

Table of Contents

Shares Held by Directors and Officers

As of the Meta record date, directors and officers of Meta and their affiliates beneficially owned and were entitled to vote an aggregate of 673,759 shares of Meta common stock, representing approximately 6.91% of the shares of Meta common stock outstanding on that date. Meta currently expects that its directors and executive officers will vote their shares in favor of the Meta merger proposal, the charter amendment and the Meta adjournment proposal (if necessary or appropriate), although none of them has entered into any agreements obligating them to do so. As of the Meta record date, except in a fiduciary capacity, Crestmark and its subsidiaries did not beneficially own any shares of Meta common stock.

Meta Employee Plan Shares

Meta maintains the Meta Financial Employee Stock Ownership Plan and the MetaBank Profit Sharing 401(k) Plan (collectively, the Employee Plans), which hold collectively approximately 2.71% of the Meta common stock outstanding as of the Meta record date for the Meta special meeting. Subject to certain eligibility requirements, employees of Meta and MetaBank participate in one or both of the Employee Plans. Each participant in an Employee Plan is entitled to instruct the trustee of such Employee Plan as to how to vote such participant's shares of Meta common stock allocated to his or her Employee Plan account. If an Employee Plan participant properly executes the voting instruction card distributed by the Employee Plan trustee, the Employee Plan trustee will vote such participant's shares in accordance with the participant's instructions. If properly executed voting instruction cards are returned to the Employee Plan trustee with no specific instruction as to how to vote at the Meta special meeting, the trustee may vote such shares in its discretion. If the Employee Plan participant fails to give timely or properly executed voting instructions to the trustee with respect to the voting of the Meta common stock that is allocated to the participant's Employee Plan account, the Employee Plan trustee may vote such shares in its discretion. The Employee Plan trustee will vote the shares of Meta common stock held in the Employee Plans but not allocated to any participant's account in the manner directed by the majority of the participants who directed the trustee as to the manner of voting their allocated shares. As of the Meta record date, all of the shares held in the Employee Plans were allocated.

Solicitation of Proxies; Payment of Solicitation Expenses

Proxies are being solicited by Meta's board of directors from Meta stockholders. Shares of Meta common stock represented by properly executed proxies, and that have not been revoked, will be voted in accordance with the instructions indicated on the proxies. If no instructions are indicated, such proxies will be voted **FOR** approval of the Meta merger proposal, **FOR** approval of the charter amendment proposal and **FOR** the Meta adjournment proposal (if necessary or appropriate), and in the discretion of the individuals named as proxies as to any other matter that may come before the Meta special meeting, which will be voted in accordance with the best judgment of the named proxies.

Pursuant to the terms of the merger agreement, each of Meta and Crestmark will, at its own expense, mail (or cause to be mailed) this joint proxy statement/prospectus to its shareholders, and, otherwise, each of Meta and Crestmark has agreed to pay for the expenses incurred by it in connection with this joint proxy statement/prospectus, including all listing, filing or registration fees, including fees paid for filing the registration statement of which this joint proxy statement/prospectus is a part with the SEC and any other fees paid for filings with governmental authorities. In addition to the solicitation of proxies by mail, solicitation may be made by certain directors, officers or employees of Meta or its affiliates telephonically, electronically or by other means of communication. Directors, officers and employees will receive no additional compensation for such solicitation. Meta will reimburse brokers for costs incurred by them in mailing proxy materials to beneficial owners in accordance with applicable rules. In addition, Meta has engaged Regan & Associates, Inc. to assist in the solicitation of proxies for the Meta special meeting. Meta

estimates that the fee for such services will be approximately \$10,000.

Voting Your Shares

Meta stockholders may vote in person or by proxy at the Meta special meeting. If you hold your shares of Meta common stock in your name as a stockholder of record, you may cast your vote in one of four ways:

By Internet. The web address for Internet voting can be found on the enclosed proxy card. Internet voting is available 24 hours a day. To be valid, your vote by Internet must be received by the deadline specified on the proxy card.

By Telephone. The telephone number for telephone voting can be found on the enclosed proxy card and is available 24 hours a day. To be valid, your vote by telephone must be received by the deadline specified on the proxy card.

By Mail. Mark the enclosed proxy card, sign and date it, and return it in the postage prepaid envelope provided. To be valid, your vote by mail must be received by the deadline specified on the proxy card.

At the Meta Special Meeting. You can vote your shares in person at the Meta special meeting. You must present an acceptable form of identification (such as a valid driver's license) in order to enter the Meta special meeting.

If you hold your shares in street name, you may vote by following your broker's instructions or, in order to vote in person at the Meta special meeting, you must bring valid picture identification and an authorization letter from the broker, bank or nominee indicating that you were the beneficial owner of Meta common stock on the Meta record date.

YOUR VOTE IS VERY IMPORTANT, REGARDLESS OF THE NUMBER OF SHARES OF META COMMON STOCK YOU OWN. Accordingly, each Meta stockholder should sign, date and return the enclosed proxy card, or vote via the Internet or by telephone, whether or not the Meta stockholder plans to attend the Meta special meeting in person.

Shares Held in Street Name

Under New York Stock Exchange rules, brokers, banks or other nominees that hold shares of Meta common stock in street name for their customers which are beneficial owners of those shares have discretionary authority to vote shares without instructions from beneficial owners on matters considered routine (as determined in accordance with the rules of the New York Stock Exchange). On non-routine matters, brokers, banks and nominees do not have discretion to vote shares without instructions from beneficial owners and, thus, are not entitled to vote on such proposals in the absence of such specific instructions. A broker non-vote is submitted when a member broker returns a proxy card and indicates that, with respect to a particular matter, it is not voting a specified number of shares on that matter, as it has not received voting instructions with respect to those shares from the beneficial owner and does not have discretionary authority to vote those shares on such matter. Meta believes that each of the Meta merger proposal, the charter amendment and the Meta adjournment proposal is considered a non-routine matter, and your broker will not be able to vote your shares with respect to those matters without your instructions. Broker non-votes will not be counted for any purpose in determining whether a matter has been approved. Shares represented by such broker non-votes will,

however, be counted in determining whether there is a quorum.

Revocability of Proxies and Changes to Meta Stockholder's Vote

If you have submitted a proxy and would like to revoke it, you may revoke your proxy or change your vote at any time before your shares are voted at the Meta special meeting by timely:

resubmitting your vote on a later date via the Internet or by telephone and following appropriate instructions;

Table of Contents

executing and mailing a proxy card that is dated and received on a later date (which must be received before the start of the Meta special meeting);

notifying the Corporate Secretary of Meta in writing, at MetaBank Corporate Services, 5501 South Broadband Lane, Sioux Falls, South Dakota, 57108, before the Meta special meeting that you have revoked your proxy (the notification must be received by the close of business on May 28, 2018); or

voting in person at the Meta special meeting (but attendance at the Meta special meeting will not by itself revoke a proxy).

If your shares are held in street name, you should contact your broker to change your vote.

Attending the Meta Special Meeting

All Meta stockholders of record at the Meta record date are invited to attend the Meta special meeting. All stockholders must bring an acceptable form of identification, such as a valid driver's license, in order to attend the Meta special meeting in person. If you hold shares in street name and would like to attend the Meta special meeting, you will also need to bring an authorization letter from the broker, bank or nominee indicating that you were the beneficial owner of Meta common stock on the Meta record date.

If a Crestmark shareholder fails to submit a proxy card or vote in person at the Crestmark special meeting, marks **ABSTAIN** on the shareholder's proxy card or fails to instruct the shareholder's broker with respect to the Crestmark merger proposal, it will have the same effect as a vote **AGAINST** approval of the Crestmark merger proposal.

PROPOSAL NO. 1

THE MERGER AGREEMENT AND THE MERGER

The following discussion describes certain material information about the merger. We urge you to read carefully this joint proxy statement/prospectus in its entirety, including the merger agreement, the financial advisor opinion of Raymond James delivered to the Meta board of directors and the financial advisor opinion of Sandler O'Neill & Partners, L.P., delivered to the Crestmark board of directors, copies of which are attached as Appendices A, C and D, respectively, to this joint proxy statement/prospectus, for a more complete understanding of the merger.

Terms of the Merger

On January 9, 2018, Meta, MetaBank, Crestmark and Crestmark Bank entered into the merger agreement, providing for the merger of Crestmark with and into Meta, with Meta as the surviving entity, and, immediately thereafter, pursuant to the terms of the bank merger agreement between MetaBank and Crestmark Bank (the "bank merger agreement"), Crestmark Bank will merge with and into MetaBank, with MetaBank surviving as Meta's wholly-owned subsidiary (the "bank merger"). As a result of the merger and the bank merger, respectively, the separate existence of Crestmark and Crestmark Bank will terminate. Following the bank merger, MetaBank will continue its existence as a federally chartered stock savings bank. We expect to complete the merger and the bank merger in the second calendar quarter of 2018, although we cannot give any assurance as to whether we will receive any required consents or approvals or the satisfaction or waiver of any other conditions to the obligations of Meta and Crestmark to complete the merger.

Upon completion of the merger, each holder of Crestmark common stock will receive for each share of Crestmark common stock that such holder owns immediately prior to the completion of the merger, 2.65 fully paid and non-assessable shares of Meta common stock, subject to adjustment in the event of a stock split, stock dividend or distribution, recapitalization, reclassification, exchange or similar transaction with respect to the outstanding shares of Meta common stock. Meta will not issue fractional shares of Meta common stock in the merger. Instead, Meta will pay to each Crestmark shareholder that would otherwise be entitled to receive fractional shares an amount in cash equal to (a) the product of (i) the exchange ratio multiplied by (ii) the average closing price per share of Meta common stock on the NASDAQ Global Select Market for the ten trading day period ending five calendar days before the closing of the merger (such product, the "per share purchase price") multiplied by (b) such fractional share interest.

As of the effective time of the merger, each outstanding in-the-money Crestmark stock option will be cancelled and converted into the right to receive an amount in cash (without interest) equal to the product of the number of shares of Crestmark common stock underlying such in-the-money Crestmark stock option, multiplied by the excess of the per share purchase price over the exercise price of such in-the-money Crestmark stock option, less any applicable withholding taxes. Any out-of-the-money Crestmark stock option will be cancelled and of no further force or effect as of the effective time of the merger, without any consideration therefor.

For additional and more detailed information regarding the legal documents that govern the merger, including information about the conditions to the merger and the provisions for terminating or amending the merger agreement, see "The Merger Agreement" below.

Background of the Merger

Meta's board of directors and senior management regularly review and assess Meta's business strategies and objectives, including strategic opportunities for the potential of business combinations, all with the goal of maximizing

shareholder value. The strategic discussions have focused on, among other things, the evaluation of potential asset generating partners, the desire to accelerate the rotation of its earning asset base from lower-yielding securities to high quality, attractive-yielding loans and the benefits of offsetting the seasonality of earnings created by Meta's other divisions.

Crestmark's mission is to add value to small- and medium-sized businesses by providing innovative financial solutions to niche markets. Crestmark's board of directors believes that Crestmark's success is derived primarily from the value and satisfaction provided to its stakeholders—including its clients, employees, shareholders, referral sources, regulators, and the industries and communities Crestmark serves. Crestmark's board of directors regularly evaluates its strategic direction in light of this mission with the goal of fostering an atmosphere of creativity, flexibility, and integrity.

During the latter half of 2016 through the first quarter of 2017, Crestmark held internal discussions and various meetings and conversations with investment banking firms, including Sandler O'Neill, regarding the desire to develop additional sources of capital to support Crestmark's continued growth. These discussions centered around the relative benefits, costs and risks associated with various financing options, and the services offered by the investment banking firms.

On March 20, 2017, Crestmark's board of directors and senior management met to discuss strategic alternatives to facilitate continued growth, including raising private equity, acquiring a traditional community bank to enhance its deposit base and expand its range of services, conducting an initial public offering, or merging with a strategic partner. Representatives of Sandler O'Neill were invited to participate in the March 20, 2017 meeting and made a presentation to the Crestmark board on available capital-raising alternatives and potential merger partners. The Crestmark board determined that pursuing a strategic merger presented a compelling opportunity to further Crestmark's mission, and directed management to further develop its analysis of strategic alternatives with a focus on identifying potential merger candidates that had similar entrepreneurial culture and complementary lines of business.

On May 2 and 3, 2017, Crestmark executive management, including W. David Tull, Crestmark's Chairman and Chief Executive Officer, and Michael Mick Goik, Crestmark's Chief Operating Officer, met at an offsite meeting with representatives of Dickinson Wright PLLC (Dickinson), Crestmark's outside legal counsel, and representatives of Sandler O'Neill where they identified and discussed potential transaction partners that could fit the parameters outlined by the board, and began to develop Crestmark's confidential marketing materials.

In June 2017, Crestmark began populating an online data room with information to be used for due diligence by potential acquirers. On June 29, 2017, Crestmark formally engaged Sandler O'Neill as its financial advisor.

During the week of July 10, 2017, at the direction of Crestmark's board of directors, representatives of Sandler O'Neill contacted nine potential acquirers, including Meta, and set up a series of meetings between Crestmark management and management of each of the potential acquirers.

On July 13, 2017, Crestmark and Meta executed a non-disclosure agreement (NDA), and Meta was provided with Crestmark's confidential marketing materials. During the weeks of July 10 through July 17, 2017, five additional NDAs were distributed to potential acquirers, four of which were executed. Three of these additional parties that signed NDAs were sent Crestmark's confidential marketing materials and met in person with Crestmark's management team.

On July 21, 2017, management teams from Crestmark and Meta, along with representatives of Sandler O'Neill, met at Meta's offices in Sioux Falls, South Dakota, to discuss a potential strategic partnership between Crestmark and Meta. At the meeting, Crestmark and Meta representatives reviewed Crestmark's confidential marketing materials and discussed their respective current and historical businesses, business lines, strategic goals, corporate culture and credit quality.

On July 24, 2017, the boards of directors of Meta and MetaBank met and J. Tyler Haahr, Meta's Chairman and Chief Executive Officer, and Glen Herrick, Meta's Chief Financial Officer, provided an update to the Meta and MetaBank boards of directors from the meeting held on July 21 with Crestmark. Following this meeting, Meta began performing preliminary due diligence on Crestmark.

During the weeks of July 24 through August 1, 2017, Crestmark management held meetings and discussions with four additional potential acquirers, three of which were in-person meetings. On August 11, 2017, one of the potential acquirers, Company A, orally expressed its interest regarding a potential acquisition of Crestmark.

On August 18, 2017, Meta engaged Raymond James & Associates, Inc. (Raymond James) to serve as its financial advisor with respect to the proposed transaction with Crestmark.

On August 22, 2017, Crestmark entered into a reciprocal NDA with Meta relating to Meta's confidential information, and began reverse due diligence on Meta.

On August 25, 2017, Meta sent a non-binding letter of intent (LOI) to Crestmark to acquire Crestmark at a range of \$190.00 per share to \$205.00 per share or \$249 million to \$270 million in the aggregate in an all-stock transaction based on a fixed exchange ratio to be determined at the signing of the definitive agreement. Based on Meta's closing stock price on August 24, 2017, of \$69.10, the implied exchange ratio would have been a range of 2.75 to 2.97. Meta expressed its interest in growing Crestmark's lines of business and with minimal employee reductions, two features that were important to the Crestmark board of directors. The proposed LOI included a proposed seat on the Meta board of directors, to be filled initially by Mr. Tull, as well as the employment of Mr. Goik, by Meta as the president of a new Commercial Finance Division of Meta. The proposed LOI also included a binding 60-day exclusivity period, which required that Crestmark only negotiate a potential transaction with Meta during such time.

On August 28, 2017, members of Crestmark management had discussions with representatives of Sandler O'Neill regarding the likelihood that other potential acquirers, including Company A, would pursue a transaction with Crestmark on terms more attractive than those proposed by Meta. Following those discussions, members of Crestmark management determined that the LOI presented by Meta represented a viable proposal which was a good strategic fit for Crestmark and its shareholders and elected to focus its efforts on negotiations with Meta.

On August 28, 2017, the boards of directors of Meta and MetaBank met and Mr. Herrick provided background information regarding Crestmark and Crestmark Bank and the proposed transaction prepared by Raymond James for review and discussion. Mr. Herrick also updated the boards of directors on the progress of preliminary due diligence with respect to Crestmark.

On September 8, 2017, at the direction of Crestmark, representatives of Sandler O'Neill contacted Raymond James and indicated Crestmark's interest in continuing to explore a potential all-stock transaction with Meta, but that Crestmark was unwilling to execute an LOI prior to fixing the exchange ratio.

In September 2017, representatives of Meta and Crestmark agreed to meet to exchange information and further explore discussions of a business combination between Meta and Crestmark with the goal of agreeing upon a fixed exchange ratio that was representative of each company's relative contribution to the combined company.

On September 25, 2017, Raymond James updated the boards of directors of Meta and MetaBank on the status of the potential transaction.

On September 28 and 29, 2017, Mr. Haahr, Brad Hanson, Meta's President, Mr. Herrick, Scott Van Horssen, Meta's Chief Investment Officer, Mr. Tull, Mr. Goik, Jack Talkington, Crestmark's Chief Financial Officer and other members of both teams met at the offices of Meta, in Sioux Falls, South Dakota, with representatives of Raymond James, Sandler O'Neill and Dickinson to facilitate further due diligence of Crestmark and reverse due diligence of Meta and to discuss ways that the combined company could enhance shareholder value and further assess the cultural fit between the two companies.

On October 11, 2017, Meta sent Crestmark a revised LOI which provided for a fixed exchange ratio of 2.353 shares of Meta Common Stock for each outstanding share of Crestmark common stock, which, based on

Table of Contents

Meta's closing stock price on October 11, 2017 of \$85.00, implied a purchase price of \$200.00 per share. The revised LOI provided that Crestmark stock options and other common stock equivalents would be paid out in cash and included a binding 60-day exclusivity period, which required that Crestmark only negotiate a potential transaction with Meta during such time.

On October 12, 2017, at the direction of Crestmark, representatives of Sandler O'Neill contacted Raymond James and indicated that Crestmark was unwilling to proceed with an exchange ratio of 2.353. Representatives of Sandler O'Neill, in consideration of the respective parties' goals of maximizing shareholder value, expressed to Raymond James and Meta that an exchange ratio of between 2.85 and 2.90 may satisfy such objectives. From October 12 to October 16, 2017, negotiations between Meta and Crestmark continued.

On October 16, 2017, Meta sent to Crestmark a revised LOI, increasing the fixed exchange ratio from 2.353 to 2.65 shares of Meta Common Stock for each share of Crestmark common stock, which, based on the October 13, 2017 closing price of Meta's common stock of \$80.10, implied a purchase price of \$212.27 per share and an aggregate deal value of approximately \$279 million. On the same day, Crestmark convened a meeting of its board of directors at which representatives of Sandler O'Neill discussed the financial terms of Meta's revised proposal with the Crestmark board. Representatives of Dickinson were also present and explained to the Crestmark directors their fiduciary duties in connection with their review and consideration of the proposed transaction with Meta and the proposed deal process. The Crestmark board discussed the financial terms of Meta's proposal and the expected impact on Crestmark and its shareholders, employees and other constituencies. At the conclusion of the meeting, the Crestmark board approved, and Crestmark executed, the LOI.

On October 23, 2017, Mr. Herrick provided the signed LOI to the boards of directors of Meta and MetaBank. Mr. Herrick also provided an update on the preliminary due diligence, discussed Meta's plan for due diligence, and identified the outside advisors and consultants Meta intended to use to assist with due diligence.

During October, November and December 2017, Meta conducted extensive due diligence, through face-to-face meetings and conference calls with select officers of Crestmark, as well as Meta's accountants and legal advisors. Meta's due diligence review encompassed both public and non-public information related to Crestmark, including financial, credit, operational, regulatory and compliance, corporate and legal due diligence.

During October, November and December 2017, Crestmark conducted extensive reverse due diligence on Meta, focusing on understanding Meta's lines of business, larger credit exposures, acquisition and integration history and stock transactions. Crestmark's due diligence of Meta also evaluated Meta's regulatory relationships, tax, lending, business and customer relationships.

On November 27, 2017, Mr. Herrick provided the boards of directors of Meta and MetaBank with an update on the status of the potential acquisition of Crestmark. The boards had extensive discussions on the due diligence process and the proposed terms of the definitive transaction documents.

On November 28, 2017, Messrs. Haahr and Herrick met with Messrs. Tull and Goik to discuss certain details surrounding the merger, including personnel and reporting structures for the combined company following the consummation of the proposed merger.

Throughout the months of November and December 2017, the parties negotiated various drafts of the transaction documents. Katten Muchin Rosenman LLP (Katten), counsel for Meta, coordinated the review and comments of the proposed documents by Meta and Meta's officers and directors. Dickinson coordinated the review and comments of the proposed documents by Crestmark and Crestmark's officers and directors and certain shareholders owning in

excess of 5% of the common stock of Crestmark, who were asked to enter into a voting agreement to support the transaction.

On December 20, 2017, the boards of directors of Meta and MetaBank met. Mr. Herrick provided the boards with an update on the completed due diligence. Katten discussed with the boards their fiduciary duties in

connection with the proposed transaction, including a discussion of the Business Judgement Rule, and discussed the key terms of the proposed merger agreement with Crestmark. Raymond James provided a review of the due diligence process and status of the negotiations to date. After updates from Mr. Herrick, Katten and Raymond James, there was a lengthy discussion on the transaction and it was agreed that the management team would continue to move forward with the transaction with Crestmark.

On January 8, 2017, Meta and MetaBank held a special joint meeting of the boards of directors to consider the transaction with Crestmark and the definitive transaction documents, including the merger agreement. Katten provided the boards with an overview of the directors' fiduciary duties.

During the meeting, Meta's management and legal advisors reported on, and the Meta board of directors discussed in detail, the comprehensive due diligence process undertaken by Meta and its advisors with respect to Crestmark. Management reported favorably regarding the complementary culture and business objectives of Crestmark and Meta.

Following this discussion, representatives of Raymond James reviewed the financial aspects of the proposed merger and discussed in detail their financial analyses as of the date of the meeting, including those described under "Opinion of Meta's Financial Advisor." At this meeting, Raymond James delivered its oral opinion to the board, subsequently confirmed in writing, to the effect that as of January 8, 2018, and based upon and subject to various assumptions made, procedures followed, matters considered and qualifications and limitations on the review undertaken described in its opinion, the exchange ratio was fair, from a financial point of view, to Meta, as described under "Opinion of Meta's Financial Advisor."

After further discussion among members of Meta's board, Katten led a comprehensive review of the definitive transaction documents, including the merger agreement, the voting agreements, the employment agreement with Mr. Goik and the schedules and exhibits that had been previously provided to each member of the board.

Following extensive discussion at the special January 8, 2018 board meeting and after considering the foregoing and the proposed terms of the transaction documents, and taking into consideration the factors described under "The Merger Agreement and the Merger," Meta's Reasons for the Merger and Recommendations of the Board of Meta, the board of directors of each of Meta and MetaBank, having determined that the terms of the merger agreement and the transactions contemplated thereby, including the merger, were fair to and in the best interests of Meta and its stockholders, approved and declared advisable the merger agreement and the transactions contemplated thereby, including the merger and the exchange ratio of 2.65. The boards directed that the merger agreement be submitted to its stockholders for approval, and recommended that stockholders vote in favor of the approval of the merger agreement and the transactions contemplated thereby.

On January 8, 2018, the Crestmark board of directors met with members of Crestmark's executive management team and its financial and legal advisors to review the proposed transaction documents. Members of Crestmark's executive management discussed with the Crestmark board of directors the strategic rationale, financial terms, consideration and integration risk for the proposed transaction with Meta. Crestmark management reported favorably regarding the complementary culture and business objectives of Meta and Crestmark. Members of Crestmark's executive management team and representatives of Dickinson updated the Crestmark board of directors on the progression of negotiations with Meta and the material terms of the transaction documents. Representatives of Sandler O'Neill presented to the Crestmark board of directors on the financial aspects of the proposed transaction, and delivered its oral opinion to the Crestmark board of directors, which was subsequently confirmed in writing, to the effect that, as of January 8, 2018 and subject to procedures followed, assumptions made, matters considered and qualifications and limitations as described in Sandler O'Neill's written opinion, the exchange ratio as proposed in the merger agreement was fair, from a financial point of view, to the holders of Crestmark common stock. See "Opinion of Crestmark's

Financial Advisor.

Following these discussions, as well as review and discussion among Crestmark's directors, including consideration of the factors described under Crestmark's Reasons for the Merger, and consideration of the above referenced presentations, the Crestmark board of directors unanimously approved and adopted the merger agreement and the transactions contemplated thereby, and declared the merger and other transactions contemplated by the merger agreement to be advisable and in the best interests of Crestmark and its stockholders. The Crestmark board of directors then directed management and its advisors to execute the definitive merger agreement.

The merger agreement and related documents were executed by the parties on January 9, 2017. The transaction was announced after market close on January 9, 2017, by a press release issued by Meta.

Meta's Reasons for the Merger and Recommendation of the Board of Meta

In reaching its decision to adopt and approve the merger agreement, the merger and the other transactions contemplated by the merger agreement, including the issuance of shares of Meta common stock in connection with the merger, the Meta board of directors evaluated the merger in consultation with members of Meta's management team as well as Meta's financial and legal advisors, and considered a number of factors, including the following:

management's review of the business, operations, earnings and financial condition, including capital levels and asset quality, of Crestmark;

the merger would result in the complementary combination of a low-cost deposit generator with a premier, high-margin asset generator;

the projected 65% increase in Meta's loan portfolio, providing additional recurring interest income to complement Meta's non-interest income revenue and reduce the seasonality of Meta's earnings;

the opportunity for Meta to utilize its technology proficiency to drive new product development amongst Crestmark's customer base;

the opportunity to increase growth in Crestmark's loan portfolio with a higher loan-to-one borrower limit, a lower loan-to-deposit ratio and access to additional core deposit funding

a detailed contribution analysis;

management's due diligence review of Crestmark and the discussions thereof with Raymond James and Katten Muchin Rosenman LLP;

the projected impact on Meta's financial statements including the impact on earnings per share and tangible book value;

the price paid relative to the recurring earnings stream of Crestmark;

the expectation of management that Meta will maintain its strong capital ratios upon completion of the proposed Crestmark transaction;

the commitment of Crestmark's key executives to assume leadership positions in the combined company following closing of the proposed transaction;

the expectation that minimal projected cost savings and minimal system conversions would lower integration risk;

the complementary business cultures of Meta and Crestmark;

the financial and other terms of the merger agreement, including the exchange ratio and the merger consideration, the expected tax treatment and the deal protection and termination fee provisions, which Meta reviewed with its outside financial and legal advisors;

the opinion, dated January 8, 2018, of Raymond James to the Meta board of directors as to the fairness, from a financial point of view as of the date of the opinion, to Meta of the exchange ratio in the proposed merger, subject to procedures followed, assumptions made, matters considered and qualifications and limitations described in Raymond James' opinion, as more fully described under Opinion of Meta's Financial Advisor below;

that, concurrently with the execution of the merger agreement, certain of the directors and officers and large Crestmark shareholders, representing an aggregate of approximately 34% of Crestmark's outstanding voting common stock as of January 8, 2018, entered into voting agreements with Meta agreeing to vote for approval of the Crestmark merger proposal; and

the requisite regulatory approvals and other approvals required in connection with the proposed Crestmark transaction and the expected likelihood that such approvals will be received in a reasonably timely manner and without the imposition of unacceptable conditions.

The preceding list is not intended to disclose all material information related to the analysis and discussion of Meta's board of directors related to the proposed Crestmark transaction. The Meta board of directors considered numerous risks associated with the proposed Crestmark transaction, including the risks described in sections of this joint proxy statement/prospectus entitled Risk Factors beginning on page 19 and Cautionary Statement Regarding Forward-Looking Statements beginning on page 18.

In reaching the decision to unanimously approve the proposed Crestmark transaction, the Meta board of directors did not assign any relative weights to the reasons for the merger and, instead, believes that the totality of the factors are favorable to and supportive of the determination to approve Meta's and MetaBank's entry into the merger agreement. As such, and for the reasons set forth above, the Meta board of directors unanimously approved the merger agreement and unanimously recommends that Meta stockholders vote **FOR** the Meta merger proposal, the charter amendment proposal and the Meta adjournment proposal.

Opinion of Meta's Financial Advisor

Meta retained Raymond James as financial advisor on August 18, 2017. Meta selected Raymond James because it is a nationally recognized investment banking firm that regularly advises companies in connection with mergers and acquisitions and because of its familiarity with Meta and the financial services industry generally. Raymond James is actively engaged in the investment banking business and regularly undertakes the valuation of investment securities in connection with public offerings, private placements, business combinations and similar transactions.

At the January 8, 2018 meeting of Meta's board of directors, representatives of Raymond James rendered Raymond James's oral opinion to Meta's board of directors that the exchange ratio was fair, from a financial point of view, to Meta. The oral opinion was subsequently confirmed by Raymond James's delivery of its written opinion to Meta's board of directors, dated January 8, 2018, as to the fairness, as of such date, from a financial point of view, of the exchange ratio in the merger pursuant to the merger agreement to Meta, based upon and subject to the qualifications, assumptions and other matters considered in connection with the preparation of its opinion.

The full text of the written opinion of Raymond James is attached as *Appendix C* to this joint proxy statement/prospectus. The summary of the opinion of Raymond James set forth in this joint proxy statement/prospectus is qualified in its entirety by reference to the full text of such written opinion. Raymond James provided its opinion for the information of Meta's board of directors (in its capacity as such) in

connection with, and for purposes of, its consideration of the proposed merger. No limitations were imposed by Meta's board of directors upon Raymond James with respect to the investigations made or procedures followed in rendering its opinion. The opinion only addresses the fairness, from a financial point of view, of the exchange ratio provided for in the merger pursuant to the merger agreement to Meta,

With Meta's consent, Raymond James assumed and relied upon the accuracy and completeness of all information supplied by or on behalf of Meta or Crestmark or otherwise reviewed by or discussed with Raymond James, and Raymond James did not undertake any duty or responsibility to verify independently, and did not so verify, any of such information. In addition, Raymond James did not make or obtain an independent appraisal or valuation of the assets or liabilities (fixed, contingent, derivative, off-balance sheet or otherwise) of Meta or Crestmark.

With respect to the Projections and other information and data provided to or otherwise reviewed by or discussed with Raymond James, Raymond James, with Meta's consent, assumed that such Projections and other information and data were reasonably prepared in good faith on bases reflecting the best available estimates and judgments of management of Meta then-available, and Raymond James relied upon Meta to advise Raymond James promptly if any information previously provided became inaccurate or was required to be updated during the period of its review. Raymond James was authorized by Meta to rely upon such Projections and Raymond James expressed no view as to any such Projections or the basis of the assumptions on which they were prepared. Raymond James relied on all such information without independent verification or analysis and does not in any respect assume any responsibility or liability for the accuracy or completeness thereof. material respects to the draft of the merger agreement reviewed by Raymond James, and that the merger would be consummated in accordance with the terms of the merger agreement without waiver or amendment of any conditions thereto. Furthermore, Raymond James assumed, in all respects material to its analysis, that the representations and warranties of each party contained in the merger agreement are true and correct and that each such party would perform all of the covenants and agreements required to be performed by it under the merger agreement without being waived.

Raymond James relied upon and assumed, without independent verification, that (i) the merger will be consummated in a manner that complies in all respects with all applicable international, federal and state statutes, rules and regulations, (ii) the merger will constitute a tax-free reorganization and (iii) all governmental, regulatory, and other consents and approvals necessary for the consummation of the merger will be obtained and that no delay, limitations, restrictions or conditions will be imposed or amendments, modifications or waivers made that would have an effect on the merger or Meta that would be material to its analyses or its opinion. Raymond James expressed no opinion as to the legal, regulatory, accounting and tax matters relating to the merger and relied upon, without independent verification, the assessment of Meta's management and its legal, tax, accounting and regulatory advisors with respect to all legal, tax, accounting and regulatory matters, including without limitation that the merger will qualify as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code of 1986, as amended.

Raymond James relied upon and assumed, without independent verification, that there were no changes in the business, assets, liabilities, financial condition, results of operations, cash flows or prospects of Meta or Crestmark since the respective dates of the most recent financial statements and other information, financial or otherwise, provided to Raymond James that would be material to Raymond James's analyses or its opinion, and that there was no information or any facts that would make any of the information reviewed by Raymond James incomplete or misleading in any material respect.

Raymond James expressed no opinion as to the underlying business decision to effect the merger, the structure or tax consequences of the merger or the availability or advisability of any alternatives to the merger. Raymond James provided advice to Meta with respect to the merger, but did not recommend any specific amount of consideration or that any specific consideration constituted the only appropriate consideration for the merger. Raymond James did not express any opinion as to the value of Meta common stock following the merger or the likely trading range of Meta's common stock following the merger, which may vary depending on numerous factors that generally impact the price of securities or on the financial condition of Meta at that time.

Raymond James's opinion is limited to the fairness, from a financial point of view, of the exchange ratio in the merger pursuant to the merger agreement to Meta. Raymond James expressed no opinion with respect to any other reasons, legal, business, or otherwise, that may support the decision of Meta's board of directors to approve or consummate the merger. Furthermore, no opinion, advice or interpretation was intended or provided by Raymond James on matters that require legal, accounting or tax advice.

In formulating its opinion, Raymond James considered only what it understood to be the exchange ratio in the merger as described in its opinion, and Raymond James did not consider and Raymond James expressed no opinion on the fairness of the amount or nature of any compensation to be paid or payable to any of Crestmark's officers, directors or employees, or class of such persons, whether relative to the exchange ratio or otherwise. Raymond James was not requested to opine as to, and its opinion did not express an opinion as to or otherwise address, among other things, (i) the fairness of the merger to the holders of any class of securities, creditors, or other constituencies of Meta, or to any other party or (ii) the fairness of the merger to any one class or group of Meta's or any other party's security holders or other constituencies vis-à-vis any other class or group of Meta's or such other party's security holders or other constituents (including, without limitation, the allocation of any such consideration to be received in the merger

amongst or within such classes or groups of security holders or other constituents). Raymond James did not express any opinion as to the impact of the merger on the solvency or viability of Meta or Crestmark or the ability of Meta or Crestmark to pay their respective obligations when they come due.

Meta and Crestmark as of September 30, 2017. For Meta, Raymond James used the mean and median TBV and EPS multiples of the Meta Comparable Group. For Crestmark, Raymond James used the mean and median TBV and EPS multiples of the Crestmark Comparable Group. Raymond James reviewed the ranges of implied per share values and calculated a range of implied exchange ratios by dividing the higher implied per share value of Crestmark by the lower implied per share value of Meta to calculate the high implied exchange ratio, and by dividing the lower implied per share value of Crestmark by the higher implied per share value of Meta to calculate the low implied exchange ratio. The results of the selected companies analysis are summarized below:

Discounted Cash Flow Analysis. Raymond James performed a discounted cash flow analysis of Meta and Crestmark by calculating, based on the Projections, the estimated present value of Meta's and Crestmark's respective projected free cash flows during the fiscal year ended September 30, 2018 through fiscal year ending September 30, 2022. In performing this analysis, Raymond James applied two different methodologies for calculating the terminal values for each of Meta and Crestmark. Raymond James applied a range of terminal values using (i) multiples of 13.0x to 15.0x applied to estimated 2023 earnings for Meta (2022 earnings plus 2% growth) and multiples of 12.0x to 14.0x applied to estimated 2023 earnings for Crestmark (2022 earnings plus 2% growth) and (ii) perpetual growth rates of 1.0% to 3.0% applied to estimated 2022 earnings for Meta and Crestmark. Raymond James arrived at its terminal value multiple ranges by observing the price to 2019 estimated earnings for both selected company groups. For Meta, Raymond James used discount rates ranging from 10.0% to 12.0%. For Crestmark, Raymond James used discount rates ranging from 11.5% to 13.5%. Raymond James arrived at its discount ranges by using the Modified CAPM methodology as presented in the 2017 Duff & Phelps Valuation Handbook. Raymond James reviewed the ranges of implied per share values indicated by the discounted cash flow analysis for each of Meta and Crestmark and calculated a range of implied exchange ratios by dividing the maximum implied per share value of Crestmark by the minimum implied per share value of Meta common stock to calculate the maximum implied exchange ratio, and by dividing the minimum implied per share value of Crestmark by the maximum implied per share value of Meta to calculate the minimum implied exchange ratio. The results of the discounted cash flow analysis are summarized in the table below:

	Implied Equity Value				Implied Exchange Ratio		
	Meta		Crestmark		Low/High	High/Low	
	Low	High	Low	High			
Net Income Terminal Multiple	\$ 129.84	\$ 158.26	\$ 387.83	\$ 478.26	2.45x	-	3.68x

Pro Forma Impact Analysis. Raymond James performed a pro forma financial impact analysis that combined projected income statement and balance sheet information of Meta and Crestmark. In performing this analysis,

Raymond James utilized the following information and assumptions: (i) closing balance sheet estimates as of June 30, 2018 for Meta and Crestmark based on Meta's management estimates; (ii) financial forecasts and projections of Meta and Crestmark for the years ending September 30, 2018 and 2019 and (iii) pro forma assumptions (including, without limitation, the cost savings expected to result from the merger as well as the

Table of Contents

purchase accounting adjustments and restructuring charges assumed with respect thereto) provided by Meta management. This analysis indicated that the merger could be dilutive to Meta's estimated TBV per share at June 30, 2018, accretive to Meta's estimated full year 2018 earnings per share (excluding the impact of charges relating to the merger) and accretive to Meta's estimated 2019 earnings per share. For all of the above analysis, the actual results achieved by Meta following the merger may vary from the projected results, and the variations may be material.

Additional Considerations. The preparation of a fairness opinion is a complex process and is not susceptible to a partial analysis or summary description. Raymond James believes that its analyses must be considered as a whole and that selecting portions of its analyses, without considering the analyses taken as a whole, would create an incomplete view of the process underlying its opinion. In addition, Raymond James considered the results of all such analyses and did not assign relative weights to any of the analyses, but rather made qualitative judgments as to significance and relevance of each analysis and factor.

In performing its analyses, Raymond James made numerous assumptions with respect to industry performance, general business, economic and regulatory conditions and other matters, many of which are beyond the control of Meta and Crestmark. The analyses performed by Raymond James are not necessarily indicative of actual values, trading values or actual future results which might be achieved, all of which may be significantly more or less favorable than suggested by such analyses. The analyses do not purport to be appraisals or to reflect the prices at which companies may actually be sold, and such estimates are inherently subject to uncertainty. The opinion of Raymond James was one of many factors taken into account by Meta's board of directors in making its determination to approve the merger. Neither Raymond James's opinion nor the analyses described above should be viewed as determinative of positions held by Meta's board of directors or Meta management with respect to Meta, Crestmark or the merger.

Raymond James's opinion was based upon market, economic, financial and other circumstances and conditions existing and disclosed to Raymond James as of January 5, 2018. Although subsequent developments may affect the opinion of Raymond James, Raymond James does not have any obligation to update, revise or reaffirm its opinion.

For its services as financial advisor to Meta in connection with the merger, Raymond James received an initial retainer of \$25,000 (which will be credited against any transaction fee) and will receive a transaction fee of \$1.45 million, which fee is contingent upon successful completion of the merger. Upon the rendering of its opinion, Raymond James became entitled to a fee of \$300,000, which fee is not contingent upon the successful completion of the merger or the conclusion rendered in the opinion. In addition, Meta agreed to reimburse Raymond James for its expenses incurred in connection with its services, including the fees and expenses of its counsel, and to indemnify Raymond James and certain related parties against certain liabilities arising out of Raymond James's engagement.

Over the last two years, Raymond James and its affiliates have provided certain other investment banking and financial services to Meta for which Raymond James or its affiliates have received fees totaling \$25,000 (excluding out-of-pocket expenses reimbursement) from Meta. Raymond James and its affiliates have not in the past provided investment banking or other financial services to Crestmark. Raymond James and its affiliates may provide investment banking, financial advisory and other financial services to Meta and its affiliates in the future, for which Raymond James may receive compensation.

In the ordinary course of Raymond James's business, Raymond James may trade in the securities of Meta for its own account or for the accounts of its customers and, accordingly, may at any time hold a long or short position in such securities.

Crestmark's Reasons for the Merger and Recommendation of the Board of Crestmark

In reaching its decision to adopt and approve the merger agreement, the merger and the other transactions contemplated by the merger agreement, and to recommend that the shareholders of Crestmark approve the

Table of Contents

Crestmark merger proposal, the Crestmark board of directors evaluated the merger in consultation with Crestmark management, as well as Crestmark's financial and legal advisors, and considered a number of factors, including, without limitation, the following material factors:

the approximately \$316.3 million implied value of the merger consideration as of January 5, 2018, based on the closing price of Meta common stock on that date of \$90.15;

the Crestmark board's evaluation, with the assistance of Crestmark's management and financial and legal advisors, of strategic alternatives available to Crestmark for facilitating liquidity and enhancing value over the long term for Crestmark's shareholders and the potential risks, rewards and uncertainties associated with such alternatives, and the Crestmark board's belief that the proposed merger with Meta was the best option available to Crestmark and its shareholders;

the fact that the merger consideration offers the Crestmark shareholders the opportunity to participate in the future growth and opportunities of the combined company;

the expectation that shareholders will have increased liquidity upon receipt of Meta common stock in exchange for their shares of Crestmark common stock because Crestmark is a private company with no public trading market for its shares whereas Meta common stock trades on the NASDAQ Global Select Market;

the expectation that receipt of the stock merger consideration will generally be tax-free to Crestmark's shareholders based on the expected tax treatment of the merger as a reorganization for U.S. federal income tax purposes, as further described under "Material Federal Income Tax Consequences of the Merger" beginning on page 67;

the complementary aspects of the Crestmark and Meta businesses, including Meta's ability to generate fee-based income and a low-cost deposit base, Crestmark's expertise in business-to-business lending and leasing and the expectation that the combined company will be able to offer an increased breadth of banking products;

the due diligence conducted on Meta during the negotiation of the merger agreement and its understanding of Meta's management team, business, operations, financial condition, earnings and prospects;

the similarity of Crestmark's and Meta's company cultures and their commitments to employees and other constituencies in the communities in which they operate, including their entrepreneurial focus and the compatibility of the companies' management and operating styles;

Meta's understanding of Crestmark's business, operations, financial condition, earnings and prospects;

Meta's understanding of the current environment in the financial services industry, including national and regional economic conditions, the regulatory environment, evolving trends in technology, increasing competition, the current financial market and the likely effects of these factors on the potential growth of the combined company's development, productivity, profitability and strategic options following the completion of the mergers;

the financial presentation of Crestmark's financial advisor, Sandler O'Neill, to the Crestmark board of directors on January 8, 2018, and the delivery of the written opinion of Sandler O'Neill, dated January 8, 2018, to the Crestmark board, to the effect that, as of such date and based on and subject to the assumptions made, procedures followed, matters considered and qualifications and limitations on the review undertaken by Sandler O'Neill as described in its opinion, the exchange ratio was fair, from a financial point of view, to Crestmark's common shareholders, as further described under Opinion of Crestmark's Financial Advisor beginning on page 54; and

the availability and interest of other potential merger parties that might be attractive and have sufficient market capitalization or other resources to consummate a merger with Crestmark.

Table of Contents

The Crestmark board of directors weighed the foregoing against a number of potentially negative factors, including:

the restrictions imposed by the merger agreement on the conduct of Crestmark's business during the period between the execution of the merger agreement and the completion of the merger;

the costs associated with the completion of the merger, including management's time and energy and potential opportunity cost prior to the closing of the merger, and the risks of realizing the expected benefits of the merger;

the risk that regulatory agencies may not approve the merger or may impose terms and conditions on their approvals that adversely affect the business and financial results of the combined company as more fully described under the caption "The Merger Agreement - Regulatory Approvals Required for the Merger" beginning on page 88;

the risk that the merger may not be consummated or that the closing may be unduly delayed, including as a result of factors outside either party's control;

the challenges in absorbing the effect of any failure to complete the merger, including potential termination fees and shareholder and market reactions;

the challenges inherent in the combination of two businesses of the size and complexity of Crestmark and Meta following the merger, including the possible diversion of management attention for an extended period of time;

the risk of not being able to realize all of the anticipated synergies between Crestmark and Meta and the risk that other anticipated benefits might not be realized; and other risks described under the sections entitled "Risk Factors" and "Cautionary Statement Regarding Forward-Looking Statements."

Crestmark's board of directors believes that the merger and the merger agreement are fair to, and in the best interests of, Crestmark and its shareholders and recommends that Crestmark shareholders vote **FOR** the Crestmark merger proposal and **FOR** the Crestmark adjournment proposal (if necessary or appropriate). In considering the recommendation of the Crestmark board of directors, you should be aware that the directors and executive officers of Crestmark have interests in the merger that may be different from, or in addition to, interests of Crestmark shareholders generally and may create potential conflicts of interest. The Crestmark board of directors was aware of these interests and considered them when evaluating and negotiating the merger agreement, the merger and the other transactions contemplated by the merger agreement, and in recommending that Crestmark shareholders vote in favor of the Crestmark merger proposal. See "Interests of Certain Persons in the Merger" beginning on page 70.

This discussion of the information and factors considered by the Crestmark board of directors includes the material factors considered by the board, but it is not intended to be exhaustive and may not include all the factors considered by the board. In view of the wide variety of factors considered, and the complexity of these matters, the Crestmark

board of directors did not quantify or assign any relative or specific weights to the various factors that it considered in reaching its determination to adopt and approve the merger agreement, the merger and the other transactions contemplated by the merger agreement. Rather, the Crestmark board of directors viewed its position and recommendation as being based on the totality of the information presented to and factors considered by it, including discussions with, and questioning of, Crestmark's management and its financial and legal advisors. In addition, individual members of the Crestmark board may have given differing weights to different factors.

It should be noted that this explanation of the reasoning of the Crestmark board of directors and certain information presented in this section is forward-looking in nature and, therefore, should be read in light of the factors discussed in the section entitled "Cautionary Statement Regarding Forward-Looking Statements."

Opinion of Crestmark's Financial Advisor

Crestmark retained Sandler O'Neill on June 29, 2017 to act as an independent financial advisor to Crestmark's board of directors in connection with Crestmark's consideration of a possible business combination. Crestmark selected Sandler O'Neill because Sandler O'Neill is a nationally recognized investment banking firm whose principal business specialty is financial institutions. In the ordinary course of its investment banking business, Sandler O'Neill is regularly engaged in the valuation of financial institutions and their securities in connection with mergers and acquisitions and other corporate transactions.

Sandler O'Neill acted as an independent financial advisor in connection with the proposed transaction and participated in certain of the negotiations leading to the execution of the merger agreement. At the January 8, 2018 meeting at which Crestmark's board of directors considered and discussed the terms of the merger agreement and the merger, Sandler O'Neill delivered to Crestmark's board of directors its oral opinion, which was subsequently confirmed in writing, to the effect that, as of January 8, 2018, the exchange ratio provided for in the merger agreement was fair to the Crestmark common shareholders from a financial point of view. **The full text of Sandler O'Neill's opinion is attached as Appendix C to this joint proxy statement/prospectus. The opinion outlines the procedures followed, assumptions made, matters considered and qualifications and limitations on the review undertaken by Sandler O'Neill in rendering its opinion. The description of the written opinion set forth below is qualified in its entirety by reference to the full text of the written opinion. Holders of Crestmark common stock are urged to read the entire opinion carefully in connection with their consideration of the proposed merger.**

Sandler O'Neill's opinion speaks only as of the date of the opinion. The opinion was directed to Crestmark's board of directors in connection with its consideration of the merger agreement and the merger and does not constitute a recommendation to any Crestmark shareholder as to how any such shareholder should vote at any meeting of shareholders called to consider and vote upon the approval of the merger agreement and the merger. Sandler O'Neill's opinion was directed only to the fairness, from a financial point of view, of the exchange ratio to the Crestmark shareholders and does not address the underlying business decision of Crestmark to engage in the merger, the form or structure of the merger or any other transactions contemplated by the merger agreement, the relative merits of the merger as compared to any other alternative transactions or business strategies that might exist for Crestmark or the effect of any other transaction in which Crestmark might engage. Sandler O'Neill did not express any opinion as to the fairness of the amount or nature of the compensation to be received in the merger by any officer, director or employee of Crestmark or Meta, or any class of such persons, if any, relative to the compensation to be received in the merger by any other shareholder, including the merger consideration to be received by the Crestmark shareholders. Sandler O'Neill's opinion was approved by Sandler O'Neill's fairness opinion committee.

In connection with its opinion, Sandler O'Neill reviewed and considered, among other things:

A draft of the merger agreement, dated January 3, 2018;

Certain publicly available financial statements and other historical financial information of Crestmark and Crestmark Bank that Sandler O'Neill deemed relevant;

Certain publicly available financial statements and other historical financial information of Meta and MetaBank that Sandler O'Neill deemed relevant;

Certain internal financial projections for Crestmark for the years ending December 31, 2017 through December 31, 2021, as provided by the senior management of Crestmark;

Publicly available consensus mean analyst earnings per share estimates for Meta for the years ending September 30, 2018 and September 30, 2019 as confirmed by the senior management of Meta, as well as long-term earnings per share estimates for the years ending September 30, 2020 through September 30, 2022 and estimated dividends per share for the years ending September 30, 2018 through September 30, 2022, as provided by the senior management of Meta;

The pro forma financial impact of the merger on Meta based on certain assumptions relating to purchase accounting adjustments, cost savings and transaction expenses, as provided by the senior management of Meta, as well as financial projections for Crestmark for the years ending September 30, 2018 through September 30, 2021, as adjusted by the senior management of Meta;

The publicly reported historical price and trading activity for Meta common stock, including a comparison of certain stock market information for Meta common stock and certain stock indices as well as publicly available information for certain other similar companies, the securities of which are publicly traded;

A comparison of certain financial information for Crestmark and Meta with similar financial institutions for which information is publicly available;

The financial terms of certain recent business combinations in the banking industry (on a nationwide basis), to the extent publicly available;

The current market environment generally and the banking environment in particular; and

Such other information, financial studies, analyses and investigations and financial, economic and market criteria as Sandler O'Neill considered relevant.

Sandler O'Neill also discussed with certain members of the management of Crestmark and its representatives the business, financial condition, results of operations and prospects of Crestmark and held similar discussions with certain members of the management of Meta and its representatives regarding the business, financial condition, results of operations and prospects of Meta.

In performing its review, Sandler O'Neill relied upon the accuracy and completeness of all of the financial and other information that was available to and reviewed by Sandler O'Neill from public sources, that was provided to Sandler O'Neill by Crestmark or Meta or their respective representatives, or that was otherwise reviewed by Sandler O'Neill, and Sandler O'Neill assumed such accuracy and completeness for purposes of rendering its opinion without any independent verification or investigation. Sandler O'Neill relied on the assurances of the respective managements of Crestmark and Meta that they were not aware of any facts or circumstances that would make any of such information inaccurate or misleading. Sandler O'Neill has not been asked to and did not undertake an independent verification of any of such information and Sandler O'Neill did not assume any responsibility or liability for the accuracy or completeness thereof. Sandler O'Neill did not make an independent evaluation or perform an appraisal of the specific assets, the collateral securing assets or the liabilities (contingent or otherwise) of Crestmark or Meta or any of their respective subsidiaries, nor was Sandler O'Neill furnished with any such evaluations or appraisals. Sandler O'Neill rendered no opinion or evaluation on the collectability of any assets or the future performance of any loans of Crestmark or Meta. Sandler O'Neill did not make an independent evaluation of the adequacy of the allowance for loan losses of Crestmark or Meta, or of the combined entity after the merger, and Sandler O'Neill did not review any individual credit files relating to Crestmark or Meta. Sandler O'Neill assumed, with Crestmark's consent, that the respective allowances for loan losses for both Crestmark and Meta were adequate to cover such losses and will be adequate on a pro forma basis for the combined entity.

In preparing its analyses, Sandler O'Neill used certain internal financial projections for Crestmark for the years ending December 31, 2017 through December 31, 2021, as provided by the senior management of Crestmark. In addition, Sandler O'Neill used publicly available consensus mean analyst earnings per share estimates for Meta for the years ending September 30, 2018 and September 30, 2019, as well as long-term earnings per share estimates for the years ending September 30, 2020 through September 30, 2022 and estimated dividends per share for the years ending September 30, 2018 through September 30, 2022, as provided by the senior management of Meta. Sandler O'Neill also received and used in its pro forma analyses certain assumptions relating to purchase accounting adjustments, cost savings and transaction expenses, as provided by the senior management of Meta, as well as financial projections for Crestmark for the years ending

Table of Contents

September 30, 2018 through September 30, 2021, as adjusted by the senior management of Meta. With respect to the foregoing information, Crestmark's and Meta's management each confirmed to Sandler O'Neill that such information reflected (or, in the case of the publicly available consensus mean analyst estimates referred to above, were consistent with) the best currently available projections, estimates and judgments of those respective managements as to the future financial performance of Crestmark and Meta, respectively, and the other matters covered thereby, and Sandler O'Neill assumed that the future financial performance reflected in such information would be achieved. Sandler O'Neill expressed no opinion as to such information, or the assumptions on which such information was based. Sandler O'Neill also assumed that there had been no material change in the respective assets, financial condition, results of operations, business or prospects of Crestmark or Meta since the date of the most recent financial statements made available to Sandler O'Neill. Sandler O'Neill assumed in all respects material to its analysis that Crestmark and Meta would remain as going concerns for all periods relevant to its analysis.

Sandler O'Neill also assumed, with Crestmark's consent, that (i) each of the parties to the merger agreement would comply in all material respects with all material terms and conditions of the merger agreement and all related agreements, that all of the representations and warranties contained in such agreements are true and correct in all material respects, that each of the parties to such agreements will perform in all material respects all of the covenants and other obligations required to be performed by such party under such agreements and that the conditions precedent in such agreements are not and will not be waived, (ii) in the course of obtaining the necessary regulatory or third party approvals, consents and releases with respect to the merger, no delay, limitation, restriction or condition will be imposed that would have an adverse effect on Crestmark, Meta or the merger or any related transaction, (iii) the merger and any related transactions will be consummated in accordance with the terms of the merger agreement without any waiver, modification or amendment of any material term, condition or agreement thereof and in compliance with all applicable laws and other requirements, and (iv) the merger will qualify as a tax-free reorganization for federal income tax purposes. Finally, with Crestmark's consent, Sandler O'Neill relied upon the advice that Crestmark received from its legal, accounting and tax advisors as to all legal, accounting and tax matters relating to the merger and the other transactions contemplated by the merger agreement. Sandler O'Neill expressed no opinion as to any such matters.

Sandler O'Neill's opinion was necessarily based on financial, economic, market and other conditions as in effect on, and the information made available to Sandler O'Neill as of, the date thereof. Events occurring after the date thereof could materially affect Sandler O'Neill's opinion. Sandler O'Neill has not undertaken to update, revise, reaffirm or withdraw its opinion or otherwise comment upon events occurring after the date thereof. Sandler O'Neill expressed no opinion as to the trading value of Meta common stock at any time or what the value of Meta common stock will be once it is actually received by Crestmark shareholders.

In rendering its opinion, Sandler O'Neill performed a variety of financial analyses. The summary below is not a complete description of the analyses underlying Sandler O'Neill's opinion or the presentation made by Sandler O'Neill to Crestmark's board of directors, but is a summary of all material analyses performed and presented by Sandler O'Neill. The summary includes information presented in tabular format. **In order to fully understand the financial analyses, these tables must be read together with the accompanying text. The tables alone do not constitute a complete description of the financial analyses.** The preparation of a fairness opinion is a complex process involving subjective judgments as to the most appropriate and relevant methods of financial analysis and the application of those methods to the particular circumstances. The process, therefore, is not necessarily susceptible to a partial analysis or summary description. Sandler O'Neill believes that its analyses must be considered as a whole and that selecting portions of the factors and analyses to be considered without considering all factors and analyses, or attempting to ascribe relative weights to some or all such factors and analyses, could create an incomplete view of the evaluation process underlying its opinion. Also, no company included in Sandler O'Neill's comparative analyses described below is identical to Crestmark or Meta and no transaction is identical to the merger. Accordingly, an analysis of comparable

companies or transactions involves complex considerations and judgments concerning differences in financial and operating characteristics of the companies and other factors that could affect the public trading values or merger transaction values, as the case

Table of Contents

may be, of Crestmark and Meta and the companies to which they are being compared. In arriving at its opinion, Sandler O'Neill did not attribute any particular weight to any analysis or factor that it considered. Rather, Sandler O'Neill made qualitative judgments as to the significance and relevance of each analysis and factor. Sandler O'Neill did not form an opinion as to whether any individual analysis or factor (positive or negative) considered in isolation supported or failed to support its opinion, rather, Sandler O'Neill made its determination as to the fairness of the exchange ratio on the basis of its experience and professional judgment after considering the results of all its analyses taken as a whole.

In performing its analyses, Sandler O'Neill also made numerous assumptions with respect to industry performance, business and economic conditions and various other matters, many of which are beyond the control of Crestmark, Meta and Sandler O'Neill. The analyses performed by Sandler O'Neill were not necessarily indicative of actual values or future results, both of which could be significantly more or less favorable than suggested by such analyses. Sandler O'Neill prepared its analyses solely for purposes of rendering its opinion and provided such analyses to Crestmark's board of directors at its January 8, 2018 meeting. Estimates on the values of companies do not purport to be appraisals or necessarily reflect the prices at which companies or their securities may actually be sold. Such estimates are inherently subject to uncertainty and actual values may be materially different. Accordingly, Sandler O'Neill's analyses do not necessarily reflect the value of Crestmark common stock or the prices at which Meta common stock may be sold at any time. The analyses of Sandler O'Neill and its opinion were among a number of factors taken into consideration by Crestmark's board of directors in making its determination to approve the merger agreement and should not be viewed as determinative of the exchange ratio or the decision of Crestmark's board of directors or management with respect to the fairness of the merger. The type and amount of consideration payable in the merger were determined through negotiation between Crestmark and Meta.

Summary of Exchange Ratio and Implied Transaction Metrics. Sandler O'Neill reviewed the financial terms of the proposed merger. Subject to certain adjustments, as more fully described in the merger agreement, at closing, each share of Crestmark common stock and common stock equivalents issued and outstanding prior to the effective time, except for certain shares of Crestmark common stock as specified in the merger agreement, will receive 2.65 shares of the common stock of Meta. Based on 1,247,747 shares of Crestmark common stock and common stock equivalents issued and outstanding, as of January 5, 2018, the closing price of Meta common stock on January 5, 2018 of \$90.15 and a per share exchange ratio of 2.65, Sandler O'Neill calculated an implied transaction price per share for Crestmark common stock of \$238.90 and an aggregate implied transaction value of approximately \$316.3 million. Based upon historical financial information for Crestmark as of or for the last twelve months (LTM) ended September 30, 2017, as provided by Crestmark senior management, Sandler O'Neill calculated the following implied transaction metrics.

Price / Last Twelve Months Earnings Per Share:	15.9x
Price / Book Value Per Share	305%
Price / Tangible Book Value Per Share	343%
Tangible Book Premium / Core Deposits ¹	586.3%
Tangible Book Premium / Core Deposits ²	25.9%

(1) Core deposits defined as total deposits less time deposit accounts greater than \$100,000.

(2) Core deposits defined as total deposits less time deposit accounts greater than \$250,000.

Crestmark Net Present Value Analyses. Sandler O'Neill performed an analysis that estimated the net present value per share of Crestmark common stock assuming Crestmark performed in accordance with internal financial projections for the years ending December 31, 2017 through December 31, 2021, as provided by the senior management of Crestmark. To approximate the terminal value of a share of Crestmark common stock at December 31, 2021, Sandler O'Neill applied the implied transaction price to 2021 earnings per share multiples ranging from 7.0x to 14.0x and the implied transaction price to December 31, 2021 tangible book value per share multiples ranging from 125% to 200%. The terminal values were then discounted to present values using different discount rates ranging from 11.0% to 17.0% which were chosen to reflect different assumptions regarding required rates of return of holders or prospective buyers of Crestmark common stock. As illustrated in the following tables, the analysis indicated an imputed range of values per share of Crestmark common stock of \$183.58 to \$453.21 when applying multiples of earnings per share, and \$158.93 to \$313.89 when applying multiples of tangible book value per share.

Sandler O'Neill also considered and discussed with the Crestmark board of directors how this analysis would be affected by changes in the underlying assumptions, including variations with respect to net income. To illustrate this impact, Sandler O'Neill performed a similar analysis assuming Crestmark's net income varied from 15% above projections to 15% below projections. This analysis resulted in the following range of per share values for Crestmark common stock, applying the implied transaction price to 2021 earnings per share multiples range of 7.0x to 14.0x referred to above and a discount rate of 13.09%:

Sandler O'Neill also considered and discussed with the Crestmark board of directors how this analysis would be affected by changes in the underlying assumptions, including variations with respect to net income. To illustrate this impact, Sandler O'Neill performed a similar analysis assuming Meta's net income varied from 15% above estimates to 15% below estimates. Sandler O'Neill noted that the net present value analysis is a widely used valuation methodology, but the results of such methodology are highly dependent upon the numerous assumptions that must be made, and the results thereof are not necessarily indicative of actual values or future results.

Pro Forma Merger Analysis. Sandler O'Neill analyzed certain potential pro forma effects of the merger. In performing this analysis, Sandler O'Neill utilized the following information and assumptions: (i) the merger closes on June 30, 2018; (ii) certain purchase accounting adjustments, cost savings and transaction expenses, as well as net income estimates for Crestmark as adjusted by Meta's senior management; and (iii) publicly available consensus mean analyst net income and EPS estimates for Meta for the years ending September 30, 2018 and September 30, 2019, as confirmed by the senior management of Meta, as well as estimated long-term earnings per share and balance sheet growth rates for the years ending September 30, 2020 and September 30, 2022 and estimated dividends per share for the years ending September 30, 2018 through September 30, 2022, as provided by the senior management of Meta. The analysis indicated that the merger could be (i) dilutive to Meta's estimated tangible book value at the closing of the merger, (ii) accretive to Meta's earnings per share (excluding one-time transaction costs and expenses) for the year ended September 30, 2018 and (iii) accretive to Meta's earnings per share for the years ended September 30, 2019, September 30, 2020 and September 30, 2021.

In connection with this analysis, Sandler O'Neill considered and discussed with the Crestmark board of directors how the analysis would be affected by changes in the underlying assumptions, including the impact of final purchase accounting adjustments determined at the closing of the merger, and noted that the actual results achieved by the combined company may vary from projected results and the variations may be material.

Sandler O'Neill's Relationship. Sandler O'Neill is acting as Crestmark's financial advisor in connection with the merger and will receive a fee for its services in an amount equal to 1.50% of the aggregate purchase price, which fee at the time of announcement of the merger would have been equal to approximately \$4.8 million, \$500,000 of which was paid to Sandler O'Neill upon signing of the merger agreement with the remainder contingent upon consummation of the merger. Sandler O'Neill also received a fee for rendering its opinion in an amount equal to \$250,000, which fairness opinion fee will be credited in full towards the fee becoming due and payable to Sandler O'Neill on the day of closing of the merger. Crestmark has also agreed to indemnify Sandler O'Neill against certain claims and liabilities arising out of Sandler O'Neill's engagement and to reimburse Sandler O'Neill for certain of its out-of-pocket expenses incurred in connection with Sandler O'Neill's engagement. Sandler O'Neill has not provided, nor received any compensation for, any other investment banking services provided to Crestmark in the two years preceding the date of Sandler O'Neill's opinion.

In the two years preceding the date of Sandler O'Neill's opinion, Sandler O'Neill has provided certain investment banking services to Meta and has received fees totaling approximately \$415,000 from Meta for those services. Most recently, Sandler O'Neill acted as book manager in connection with Meta's \$75.0 million subordinated debt offering, which closed in August 2016, and advised Meta on its acquisition of substantially all of the assets of EPS Financial Services LLC, which closed November 1, 2016, and on Meta's acquisition of substantially all of the assets of Specialty Consumer Services, L.P., which closed December 14, 2016. In the ordinary course of Sandler O'Neill's business as a broker-dealer, Sandler O'Neill may purchase securities from and sell securities to Meta and its affiliates. Sandler O'Neill may also actively trade the equity and debt securities of Meta and its affiliates for its own account and for the accounts of its customers.

Neither Meta nor Crestmark can provide any assurance that the unaudited prospective financial information and the underlying estimates and assumptions will be realized. Further, these assumptions do not include all potential actions that management could or might have taken during these time periods and the financial forecasts may not reflect the manner in which Meta would operate the Crestmark business after the merger. In addition, since the unaudited prospective financial information covers multiple years, such information by its nature becomes less predictive with each successive year. Neither Meta, Crestmark nor, after completion of the merger, the combined company undertakes any obligation to update or otherwise revise the financial forecasts or financial information to reflect circumstances existing since their preparation or to reflect the occurrence of subsequent or unanticipated events, even in the event that any or all of the underlying assumptions are shown to be in error, or to reflect changes in general economic or industry conditions. Furthermore, the prospective financial information does not take into account any circumstances or events occurring after the date it was prepared. Neither party can give any assurance that, had the unaudited prospective financial information been prepared as of the date of this joint proxy statement/prospectus, similar estimates and assumptions would be used.

The unaudited prospective financial information does not take into account the possible financial and other effects on either Meta or Crestmark, as applicable, of the merger and does not attempt to predict or suggest future results of the combined company following the merger. The information included below does not comprise all of the prospective financial information provided by Meta to Raymond James or by Crestmark to Sandler O'Neill and does not take into account the effect on either Meta or Crestmark, as applicable, of any possible failure to complete the merger.

You are strongly cautioned not to place undue reliance on the prospective financial information set forth below. The inclusion of the prospective financial information in this joint proxy statement/prospectus should not be regarded as an indication that any of Meta, Crestmark, Raymond James, Sandler O'Neill or their respective affiliates, advisors or

representatives considered or considers such information to be necessarily predictive of

actual future events, and the prospective financial information should not be relied upon as such. None of Meta, Crestmark, Raymond James, Sandler O'Neill or their respective affiliates, advisors or representatives makes any representation to any shareholder or any other person regarding the prospective financial information, including the ultimate performance of Meta or Crestmark compared to such prospective financial information. The prospective financial information is not being included in this joint proxy statement/prospectus to influence any Meta stockholder's or Crestmark shareholder's decision regarding how to vote on any given proposal at the Meta special meeting or the Crestmark special meeting. In light of the foregoing, and considering that the parties' respective special meetings will be held several months after the prospective financial information was prepared, as well as the uncertainties inherent in any forecasted information, Meta stockholders and Crestmark shareholders are cautioned not to place undue reliance on such information.

Material United States Federal Income Tax Consequences of the Merger*General*

The following discussion describes the material United States federal income tax consequences of the merger to U.S. holders of Crestmark common stock that exchange shares of Crestmark common stock for shares of Meta common stock pursuant to the merger. For purposes of this discussion, a U.S. holder is a beneficial owner of Crestmark common stock that for United States federal income tax purposes is:

a citizen or individual resident of the United States;

a corporation, or an entity treated as a corporation for United States federal income tax purposes, created or organized in or under the laws of the United States or any state or political subdivision thereof;

a trust that (1) is subject to (A) the primary supervision of a court within the United States and (B) the authority of one or more United States persons to control all substantial decisions of the trust or (2) has a valid election in effect under applicable United States Treasury Regulations to be treated as a United States person; or

an estate that is subject to United States federal income tax on its income regardless of its source.

If a partnership (including for this purpose any entity treated as a partnership for United States federal income tax purposes) holds Crestmark common stock, the tax treatment of a partner generally will depend on the particular circumstances of the partner and the activities of the partnership. A Crestmark shareholder which is a

Table of Contents

partnership should consult its tax advisor concerning the tax consequences of the merger. Crestmark shareholders that are not U.S. holders may have different tax consequences than those described below, and are urged to consult their tax advisors about the tax treatment of the merger to them under United States and non-U.S. laws.

This discussion addresses only those Crestmark shareholders that hold their Crestmark common stock as a capital asset within the meaning of Section 1221 of the Code, and does not address all the United States federal income tax consequences that may be relevant to particular Crestmark shareholders in light of their individual circumstances or to Crestmark shareholders that are subject to special rules, such as:

financial institutions;

pass-through entities or investors in pass-through entities;

insurance companies;

tax-exempt organizations;

dealers in securities or currencies;

traders in securities that elect to use a mark-to-market method of accounting;

persons that hold Crestmark common stock as part of a straddle, hedge, constructive sale or conversion transaction;

regulated investment companies;

real estate investment trusts;

certain expatriates or persons that have a functional currency other than the U.S. dollar; and

shareholders who acquired their shares of Crestmark common stock through the exercise of an employee stock option or otherwise as compensation or through a tax-qualified retirement plan.

In addition, this discussion does not address any alternative minimum tax or any state, local or foreign tax consequences of the merger, nor does it address any tax consequences arising under the 3.8% unearned income Medicare contribution tax.

The following discussion is based on the Code, its legislative history, existing and proposed regulations thereunder, and published rulings and decisions, all as currently in effect as of the date hereof, and all of which are subject to change, possibly with retroactive effect. Any such change could affect the continuing validity of this discussion.

Meta's obligation to complete the merger is conditioned upon the receipt of an opinion from Meta's counsel, Katten Muchin Rosenman LLP, dated as of the closing date, to the effect that the merger will qualify as a reorganization within the meaning of Section 368(a) of the Code. Crestmark's obligation to complete the merger is conditioned upon the receipt of an opinion from Crestmark's counsel, Dickinson Wright PLLC, dated as of the closing date, to the effect that the merger will qualify as a reorganization within the meaning of Section 368(a) of the Code. Neither Meta nor Crestmark currently intends to waive this opinion condition to its obligation to complete the merger.

The following discussion, subject to the limitations and qualifications described herein, constitutes the opinion of Katten Muchin Rosenman LLP and Dickinson Wright PLLC as to the material United States federal income tax consequences of the merger applicable to a U.S. holder of Crestmark common stock that exchanges Crestmark common stock in the merger, to the extent such discussion sets forth statements of United States federal income tax law or legal conclusions with respect thereto. This opinion does not address any state, local or foreign tax consequences of the merger. This opinion is based on certain assumptions and representations as to factual matters by Meta and Crestmark, and cannot be relied upon if any of the assumptions or representations

Table of Contents

are inaccurate as of the date hereof or the effective time of the merger. In addition, this opinion is based on current law and cannot be relied upon if current law changes with retroactive effect. The opinion of counsel is not binding upon the IRS or the courts, and there is no assurance that the IRS or a court will not take a contrary position. Neither Meta nor Crestmark has requested, and neither Meta nor Crestmark intends to request, any ruling from the IRS as to the United States federal income tax consequences of the merger.

Crestmark shareholders are urged to consult their tax advisors as to the particular United States federal income tax consequences of the merger to them, as well as any tax consequences arising under any state, local and non-U.S. tax laws or any other United States federal tax laws.

Assuming that the merger is completed according to the terms of the merger agreement without waiver or modification of any provision thereof, based on and subject to the foregoing, the merger will qualify as a reorganization within the meaning of Section 368(a) of the Code. Based on the qualification of the merger as a reorganization under the Code, the following material United States federal income tax consequences will result to a U.S. holder upon the exchange of its Crestmark common stock in the merger:

No gain or loss will be recognized by a U.S. holder of Crestmark that receives shares of Meta common stock in exchange for shares of Crestmark common stock pursuant to the merger (except for any gain or loss that may result from the receipt of cash in lieu of fractional shares of Meta common stock that the shareholder of Crestmark would otherwise be entitled to receive, as discussed below).

Such U.S. holder generally will have an aggregate tax basis in the shares of Meta common stock received by the U.S. holder with respect to each identifiable block of shares of Crestmark common stock (generally, Crestmark common stock acquired at the same cost in a single transaction) exchanged by the U.S. holder in the merger (including any fractional share of Meta common stock deemed received and redeemed for cash, as discussed below) equal to the U.S. holder's aggregate tax basis in the shares of Crestmark common stock in such block.

The holding period of the shares of Meta common stock received by such U.S. holder with respect to each identifiable block of shares of Crestmark common stock exchanged in the merger (including any fractional share of Meta common stock deemed received and redeemed for cash, as discussed below) will include the holding period of the shares of Crestmark common stock in such block.

A U.S. holder of Crestmark common stock who receives cash in lieu of a fractional share of Meta common stock will be treated as having received the fractional share pursuant to the merger and then as having exchanged the fractional share for cash in a redemption by Meta. Subject to the discussion below regarding possible dividend treatment, a U.S. holder generally will recognize capital gain or loss with respect to cash received in lieu of a fractional share, measured by the difference, if any, between the amount of cash received and the tax basis in such fractional share (determined as described above). Any gain or loss recognized generally will be capital gain or loss, and will be long-term capital gain or loss if, as of the effective date of the merger, the shares of Crestmark common stock comprising the block of shares of Crestmark common stock exchanged in the merger were held for more than one year. The deductibility of capital losses is subject to limitations. If the U.S. holder's receipt of cash has the effect of a distribution of a

dividend under the provisions of the Code, such gain will be treated as dividend income rather than capital gain. The Internal Revenue Service has indicated in rulings that any reduction in the interest of a shareholder that owns a small number of shares in a publicly and widely held corporation and that exercises no control over corporate affairs would result in capital gain as opposed to dividend treatment. Because the possibility of dividend treatment depends primarily upon a U.S. holder's particular circumstances, including the application of constructive ownership rules, U.S. holders should consult their tax advisors regarding this possibility.

Backup Withholding and Information Reporting

U.S. holders may be subject to information reporting and backup withholding on any cash payments they receive in the merger in lieu of fractional shares of Crestmark common stock. Payments will not be subject to

Table of Contents

backup withholding if the U.S. holder (i) is a corporation or comes within certain other exempt categories and, when required, demonstrates this fact or (ii) provides Meta or the exchange agent, as appropriate, with a properly completed Internal Revenue Service Form W-9 (or its successor form) certifying that the U.S. holder is a United States person, the taxpayer identification number provided is correct and the U.S. holder is not subject to backup withholding. The taxpayer identification number of an individual is his or her Social Security number. Any amounts withheld from payments to a U.S. holder under the backup withholding rules are not additional tax and will be allowed as a refund or credit against the U.S. holder's United States federal income tax liability, provided the required information is timely furnished by the U.S. holder to the Internal Revenue Service.

A U.S. holder of Crestmark common stock that receives Meta common stock as a result of the merger will be required to retain records pertaining to the merger. Each U.S. holder of Crestmark common stock that is required to file a United States federal income tax return and is a significant holder that receives Meta common stock in the merger will be required to file a statement with such United States federal income tax return in accordance with Treasury Regulations Section 1.368-3 setting forth information regarding the parties to the merger, the date of the merger, such holder's basis in the Crestmark common stock surrendered and the fair market value of Meta common stock (including fractional shares) received in the merger. A significant holder generally is a holder of Crestmark common stock that, immediately before the merger, owned at least 1% (by vote or value) of the Crestmark common stock.

The discussion of the material United States federal income tax consequences set forth above is intended to provide only a general summary, and is not intended to be a complete analysis or description of all potential United States federal income tax consequences of the merger. Moreover, the discussion set forth above does not address tax consequences that may vary with, or are dependent on, individual circumstances. In addition, the discussion set forth above does not address any non-income tax or any foreign, state or local tax consequences of the merger and does not address the tax consequences of any transaction other than the merger.

Accounting Treatment

Meta will account for the merger as a purchase by Meta of Crestmark under the acquisition method of accounting for business combinations in accordance with U.S. GAAP. Under the acquisition method of accounting, the total consideration paid in connection with the merger is allocated among Crestmark's assets, liabilities and identified intangibles based on the fair values of the assets acquired, the liabilities assumed and the identified intangibles. The difference between the total consideration paid in connection with the merger and the fair values of the assets acquired, the liabilities assumed and the identified intangibles, if any, is allocated to goodwill. The results of operations of Crestmark will be included in Meta's results of operations from the date of acquisition. Financial statements of Meta issued before completion of the merger will not be restated retroactively to reflect Crestmark's historical financial position or results of operation.

Interests of Certain Persons in the Merger

General

In considering the recommendations of Crestmark's board of directors with respect to the merger, you should be aware that certain directors and executive officers of Crestmark and/or Crestmark Bank have agreements or arrangements that provide them with interests in the merger, including financial interests, that may be different from, or in addition to, the interests of the other shareholders of Crestmark. Crestmark's board of directors was aware of these interests during its deliberations of the merits of the merger and in determining to recommend that Crestmark shareholders vote in favor of the Crestmark merger proposal (and thereby approve the transactions contemplated by the merger agreement, including the merger). These interests are described in more detail below, and certain of them are

quantified in the narrative below.

Table of Contents

Stock Ownership

As of April 19, 2018, Crestmark's directors and executive officers beneficially owned, in the aggregate, 425,765 shares of Crestmark common stock (including all shares that such directors and executive officers can acquire within 60 days of April 19, 2018 through the exercise of any stock options or other rights), representing approximately 33.1% of the outstanding shares of Crestmark common stock. For more information, see Security Ownership of Certain Crestmark Beneficial Owners and Management.

Treatment of Crestmark Stock Options

All Crestmark stock options, including those held by a director or executive officer of Crestmark, whether vested or unvested, will be cancelled and converted into the right to receive an amount in cash equal to the product of the number of shares of Crestmark common stock underlying such Crestmark stock option, multiplied by the excess, if any, of (a) the per share purchase price over (b) the exercise price of such Crestmark stock option, less any applicable withholding taxes, upon completion of the merger, as discussed in the The Merger Agreement Merger Consideration. Any Crestmark stock option with an exercise price that is greater than or equal to the per share purchase price will be cancelled and of no further force or effect. As of the date of the merger agreement, directors and executive officers of Crestmark, collectively, held 42,500 outstanding Crestmark stock options, and, assuming the closing of the merger occurred on January 9, 2018 and stock merger consideration of \$241.81 per share of Crestmark common stock (based on the \$91.25 closing price per share of Meta common stock as quoted on the NASDAQ Global Select Market on such date multiplied by 2.65, the exchange ratio), and a weighted average option exercise price of \$52.94 with an estimated aggregate net cash value of approximately \$8 million. In the event that the exercise price of any such Crestmark stock option outstanding immediately prior to the completion of the merger is greater than or equal to the per share purchase price, no cash payment or other consideration for such Crestmark stock option will be due or payable in respect thereof, and such Crestmark stock option will be cancelled and of no further force or effect as of the completion of the merger.

Arrangements with Respect to the Board of Directors of each of Meta and MetaBank

Pursuant to the merger agreement, Meta and MetaBank will each be required to increase the size of their respective boards of directors, and, effective as of the effective time of the merger, each of W. David Tull, Crestmark's Chairman and Chief Executive Officer, and Michael R. Kramer, a member at the law firm Dickinson Wright, PLLC, legal counsel to Crestmark, will be appointed to the board of directors of each of Meta and MetaBank. Each of such new directors will be entitled to compensation consistent with Meta's current compensation practices for non-employee directors.

Change in Control Agreement, Transaction Bonus Agreement and Employment Agreement with Michael Mick Goik

Crestmark is party to the Goik change in control agreement and the Goik transaction bonus agreement with Mr. Goik. In connection with the merger, Mr. Goik agreed to waive those agreements and any and all such payments when otherwise due and owing to Mr. Goik thereunder.

In connection with the execution of the merger agreement, MetaBank entered into an employment agreement with Mr. Goik, Crestmark Bank's current President and Chief Operating Officer (the employment agreement), pursuant to which Mr. Goik will serve as Executive Vice President and President of the Meta Commercial Finance Division as of the closing date of the merger. The employment agreement will have an initial three-year term (the initial term), which will commence upon the closing date of the merger, and provides for a one year extension on each anniversary of the expiration of initial term or any subsequent renewal term, unless earlier terminated in accordance with the terms of the

employment agreement. The employment agreement entitles Mr. Goik to an annual base salary equal to \$435,000 (subject to annual review and adjustment

Table of Contents

by the MetaBank board of directors). The employment agreement also provides for incentive compensation opportunities that are performance based and consist of Meta's customary bonus program and incentives based upon Mr. Goik's base salary. In addition, pursuant to the employment agreement, Mr. Goik will receive a \$2.20 million signing bonus that is payable within thirty (30) days following the closing date of the merger. Mr. Goik will be entitled to participate in all MetaBank benefit plans, programs and arrangements that are commensurate with Mr. Goik's position and responsibilities. Additionally, MetaBank will provide Mr. Goik substantially similar perquisites, in the aggregate, as he received as an officer of Crestmark Bank immediately prior to the closing date of the merger. Pursuant to, and subject to the conditions set forth in, the employment agreement, Mr. Goik and Meta will enter into a Restricted Stock Agreement as of the closing date of the merger with respect to an award of a number of restricted shares of Meta common stock to be agreed upon by the parties but not to exceed a total value of \$3.80 million as of the closing date of the merger (the "initial equity award"), which will be subject to certain vesting conditions.

In the event Mr. Goik's employment is terminated due to death, Disability, without Cause or for Good Reason (each as defined in the employment agreement), Mr. Goik (or his estate or beneficiaries, as the case may be) will be entitled to (i) receive his base salary through the effective date of termination and any earned but unpaid bonus for any completed fiscal year, and (ii) subject to execution of a release of claims Mr. Goik may have against Meta and its affiliates, (A) continued payment of Mr. Goik's base salary (as in effect as of the termination date) for two years following his termination (his "base salary"), (B) a pro-rata portion of the annual bonus payment for the year of the termination based on actual performance, (C) payment of the premiums required to continue health care coverage for up to 18 months, and (D) acceleration of the initial equity award. In the event Mr. Goik's employment is terminated by Meta within 12 months following a Change of Control (as defined in the employment agreement), due to death, Disability, without Cause or for Good Reason, Mr. Goik will be eligible to receive his base salary in a lump sum payment and the payments in (B)-(D) above and any accrued amounts (as noted in (i) above) will be paid at the same rate and form as noted above. In addition, the employment agreement provides for a 24-month non-solicitation period (both employees and business relationships) and a 24-month non-compete requirement in addition to other restrictive covenants. The employment agreement also provides for clawback of compensation paid to Mr. Goik under certain circumstances.

Change in Control Agreements with other Crestmark Executive Officers

W. David Tull, Crestmark's current Chairman and Chief Executive Officer, Jack Talkington, Crestmark's current Chief Financial Officer, and Mark Matheson, Crestmark's current Chief Credit Officer, each entered into a Crestmark executive change in control agreement with Crestmark on July 19, 2017 (each, a "Crestmark executive change in control agreement"), that provides for the potential payment of termination compensation in the event of a qualifying termination of such person's employment with Crestmark or any successor thereto. Each Crestmark executive change in control agreement provides that, if the Crestmark executive that is party to such agreement is terminated by Crestmark or any successor thereto for any reason other than for Cause or a Voluntary Resignation (in each case, as defined in the applicable Crestmark executive change in control agreement) within 24 months following the date of a change of control of Crestmark or any successor thereto, then, such Crestmark executive would be entitled to (i) receive a lump sum payment from Crestmark or its successor, as applicable, in an amount equal to two times such Crestmark executive's highest base salary and bonus earned in the 24-month period prior to the date on which the change in control occurred, (ii) receive company-paid health and dental insurance for 18 months following the change in control date, except that the Crestmark executive will be responsible for the employee portion of premiums as though such Crestmark executive were an active employee, and (iii) continue receiving certain employer-paid perquisites and benefits, including but not limited to, an automobile allowance and company-paid country club dues, during the two year period following the change in control date.

Table of Contents

Other Agreements with Certain Crestmark Executive Officers

Immediately following the closing of the merger, Meta will enter into retention bonus agreements with each of Messrs. Talkington and Matheson, which will provide that each such person will be granted the retention units pursuant to a restricted stock agreement with Meta. Provided that such person remains employed by Meta as of the vesting date of the retention units set forth in the applicable restricted stock agreement, the retention units would vest as follows: 250 shares on September 1 of each of 2018, 2019, 2020 and 2021.

Indemnification and Insurance

The merger agreement provides that, upon completion of the merger, Meta will indemnify, defend and hold harmless the directors and officers of Crestmark (when acting in such capacity) against all costs and liabilities arising out of actions or omissions occurring at or before the completion of the merger, in accordance with Crestmark's articles of incorporation and Crestmark's by-laws, to the extent permitted by law.

The merger agreement also provides that for a period of six years after the merger is completed, Meta will maintain Crestmark's existing directors' and officers' liability insurance to reimburse the present and former officers and directors of Crestmark with respect to claims against such directors and officers arising from facts or events which occurred before the completion of the merger, provided that the total premium therefor is not in excess of 200% of the last annual premium paid prior to the date of the merger agreement.

THE MERGER AGREEMENT

The following discussion is a summary of what we believe are the material provisions of the merger agreement. This summary, however, is qualified in its entirety by references to the merger agreement, which is attached as Appendix A and incorporated by reference in this joint proxy statement/prospectus. We urge you to read the merger agreement carefully and in its entirety.

Structure

Subject to the terms and conditions of the merger agreement, Crestmark will merge with and into Meta, with Meta being the surviving company. Immediately following such merger, pursuant to the terms and conditions of the bank merger agreement, Crestmark Bank will merge with and into MetaBank, with MetaBank being the surviving bank. As a result of the merger, the separate existence of each of Crestmark and Crestmark Bank shall terminate.

Merger Consideration

In connection with the merger, each share of Crestmark common stock outstanding at the effective time of the merger will convert into the right to receive 2.65 fully paid and non-assessable shares of Meta common stock. At the effective time of the merger, each outstanding in-the-money Crestmark stock option will be cancelled and converted into the right to receive an amount in cash (without interest) equal to the product of (a) the number of shares of Crestmark common stock underlying such in-the-money Crestmark stock option, multiplied by (b) the excess of (i) the per share purchase price over (ii) the exercise price of such in-the-money Crestmark stock option, less any applicable withholding taxes. Any out-of-the-money Crestmark stock option will be cancelled and of no further force or effect as of the effective time of the merger, without any consideration therefor.

In addition, upon the effective time of the merger, in lieu of fractional shares of Meta common stock that would otherwise be issued as stock merger consideration, all fractional shares will be converted into the right to receive cash (rounded down to the nearest whole cent), without any interest and subject to any required withholding tax, in an amount equal to the per share purchase price multiplied by the fractional share interest of such Meta common stock to which such Crestmark share would otherwise be converted.

The exchange ratio of 2.65 shares of Meta common stock for each share of Crestmark common stock is subject to adjustment in the event of a stock split, stock dividend or distribution, recapitalization, reclassification, exchange or similar transaction with respect to the outstanding shares of Meta common stock.

Based upon the closing sale price of Meta common stock on the NASDAQ Global Select Market of \$113.35 on April 19, 2018, the per share value of the stock merger consideration was equal to approximately \$300.38.

The value of the shares of Meta common stock to be issued to Crestmark shareholders in the merger will fluctuate between now and the closing date of the merger. We make no assurances as to whether or when the merger will be completed, and you are advised to obtain current sale prices for Meta common stock. See **Risk Factors** Because the market price of Meta common stock will fluctuate, Crestmark shareholders cannot be certain of the market value of the merger consideration they will receive beginning on page 19 of this joint proxy statement/prospectus.

Conversion of Shares; Exchange of Certificates; Fractional Shares

Conversion. The conversion of Crestmark common stock and Crestmark stock options into the right to receive the merger consideration will occur automatically at the effective time of the merger.

Table of Contents

Exchange Procedures. At or prior to the effective time of the merger, Meta will deposit with the exchange agent, Computershare Trust Company, N.A. and Computershare Inc. (collectively, the “exchange agent”), which also serves as Meta’s transfer agent, (i) certificates, or, at Meta’s option, evidence of shares in book-entry form, representing the shares of Meta common stock to be issued under the merger agreement and (ii) cash payable in lieu of any fractional shares of Meta common stock to be issued under the merger agreement. As promptly as practicable after the effective time of the merger, but in no event later than five business days after the closing date of the merger, the exchange agent will provide Crestmark shareholders with appropriate and customary transmittal materials and instructions in order to exchange their shares of Crestmark common stock for the stock merger consideration to be received in the merger pursuant to the terms of the merger agreement. No interest will accrue or be paid with respect to any property to be delivered upon surrender of Crestmark common stock. Upon surrender to the exchange agent of its certificates or book-entry shares representing Crestmark common stock accompanied by a properly completed letter of transmittal timely delivered to the exchange agent, Crestmark shareholders will be entitled to receive as promptly as practicable the stock merger consideration, including any cash in lieu of fractional shares of Meta common stock.

If any letter of transmittal from a holder of Crestmark common stock provides that Meta common stock is to be issued, or cash payment made, in a name other than that in which the Crestmark common stock surrendered in exchange for the stock merger consideration is registered, then the letter of transmittal must be properly endorsed with a signature guarantee from an eligible guarantor institution and accompanied by any other evidence of authority reasonably requested by the exchange agent, and otherwise put in proper form for transfer.

At or as soon as practicable following the effective time of the merger, and in each case following the receipt by Meta, as the surviving entity, of a cancellation and consent letter agreement from a holder of an in-the-money Crestmark stock option in such form as is acceptable to Meta, Meta shall pay the option cash consideration (less any applicable withholding or other required taxes) payable, pursuant to the terms of the merger agreement, to each holder of an in-the-money Crestmark stock option in accordance with Meta’s ordinary payroll practices, subject to section 409A of the Code.

Dividends and Distributions. Until your Crestmark common stock is surrendered for exchange, any dividends or other distributions declared after the effective time with respect to Meta common stock into which shares of Crestmark common stock may have been converted will accrue but will not be paid. When such Crestmark common stock has been duly surrendered, Meta will pay, without interest (i) at the time of such surrender, the dividends or other distributions with a record date after the effective time of the merger payable with respect to such whole shares of Meta common stock and not paid, and (ii) at the appropriate payment date, the dividends or other distributions payable with respect to whole shares of Meta common stock with a record date after the effective time of the merger but with a payment date subsequent to surrender.

Withholding. Meta (through the exchange agent, if applicable) will be entitled to deduct and withhold from the merger consideration payable to any Crestmark shareholder or any holder of in-the-money Crestmark stock options the amounts it is required to deduct and withhold under any federal, state, local or foreign tax law. If Meta or the exchange agent withholds any amounts, these amounts will be treated for all purposes of the merger as having been paid to the stockholders or optionholders, as applicable, from whom they were withheld.

No Fractional Shares Will Be Issued. Meta will not issue fractional shares of Meta common stock in the merger. There will be no dividends or distributions with respect to any fractional shares of common stock or any voting or other rights with respect to any fractional shares of common stock. Instead of fractional shares of Meta common stock, Meta will pay to each Crestmark shareholder that would otherwise receive fractional shares of Meta common stock an amount in cash (without interest and rounded down to the nearest whole cent) determined by multiplying the fractional share interest in Meta common stock to which such Crestmark shareholder would otherwise be entitled by

the per share purchase price.

Lost, Stolen or Destroyed Crestmark Common Stock Certificates. If a Crestmark shareholder has lost a certificate representing Crestmark common stock, or it has been stolen or destroyed, Meta will issue to such

Table of Contents

shareholder the Meta common stock or cash payable under the merger agreement if such shareholder submits an affidavit of that fact and indemnity agreement, or, if requested by Meta or the exchange agent, if such shareholder posts bond in a customary amount as indemnity against any claim that may be made against Meta about ownership of the lost, stolen or destroyed certificate, together with the payment of any applicable fees.

For a description of Meta common stock and a description of the differences between the rights of Crestmark shareholders and Meta stockholders, see [Description of Meta Capital Stock](#) and [Comparison of Stockholder Rights](#).

Effective Time

We plan to complete the merger on a business day designated by Meta and Crestmark that is no later than five business days after the satisfaction or waiver of the last remaining conditions to the merger, other than those conditions that, by their nature, are to be satisfied at the closing of the merger, but subject to the fulfillment or waiver of those conditions, or such other time as the parties may mutually agree in writing. The time the merger is completed is referred to as the [effective time](#) of the merger. See [Conditions to Completion of the Merger](#).

We anticipate that we will complete the merger during the second calendar quarter of 2018. However, completion could be delayed if there is a delay in obtaining the necessary regulatory approvals or the shareholder approvals or for other reasons. There can be no assurances as to if or when these approvals will be obtained or as to whether or when the merger will be completed. If we do not complete the merger by June 30, 2018, subject to an automatic two-month extension to obtain regulatory approvals if such approvals are not obtained as of June 30, 2018, then either party may terminate the merger agreement without penalty, unless the failure to complete the merger by such date is due to the material breach of the merger agreement by the party seeking to terminate the merger agreement. See [Conditions to Completion of the Merger](#) and [Regulatory Approvals Required for the Merger](#).

Representations and Warranties

The merger agreement includes customary representations and warranties of Meta and Crestmark relating to their respective businesses that are made as of the date of the merger agreement and as of the closing date of the merger. However, it should be noted that these representations and warranties:

have been qualified by information set forth in confidential disclosure schedules delivered in connection with signing the merger agreement the information contained in those schedules modifies, qualifies and creates exceptions to the representations and warranties in the merger agreement;

will not survive consummation of the merger;

may be intended not as statements of fact, but rather as a way of allocating the risk to one of the parties to the merger agreement if those statements turn out to be inaccurate; and

Acquisition Proposals by Third Parties

Crestmark has agreed that neither it nor its representatives will, directly or indirectly:

initiate, solicit, knowingly induce, encourage or knowingly take any action to facilitate the making of, any inquiry, offer or proposal which constitutes, or could reasonably be expected to lead to, an acquisition proposal, including entering into any agreement in principle or letter of intent with respect to any acquisition proposal or resolve to approve any acquisition proposal; or

participate in any discussions or negotiations regarding any acquisition proposal or furnish, or otherwise afford access, to any person (other than Meta) any information or data with respect to Crestmark or any of its subsidiaries or otherwise relating to an acquisition proposal.

In addition, Crestmark agreed not to release any person from, waive any provisions of, or fail to enforce any confidentiality agreement or standstill agreement to which Crestmark is a party.

Under the merger agreement, an acquisition proposal means any inquiry, offer or proposal (other than an inquiry, offer or proposal from Meta), whether or not in writing, contemplating, relating to, or that could reasonably be expected to lead to, an acquisition transaction. An acquisition transaction means:

any transaction or series of transactions involving any merger, consolidation, recapitalization, share exchange, liquidation, dissolution or similar transaction involving Crestmark or any of its subsidiaries that results in a third party acquiring 20% or more of any class of equity of Crestmark or Crestmark Bank;

any transaction pursuant to which any third party or group acquires or would acquire (whether through sale, lease or other disposition), directly or indirectly, 20% or more of the consolidated assets of Crestmark or Crestmark Bank;

Table of Contents

any issuance, sale or other disposition of (including by way of merger, consolidation, share exchange or any similar transaction) securities (or options, rights or warrants to purchase or securities convertible into, such securities) representing 20% or more of the votes attached to the outstanding securities of Crestmark or Crestmark Bank;

any tender offer or exchange offer that, if consummated, would result in any third party or group beneficially owning 20% or more of any class of equity securities of Crestmark or Crestmark Bank; or

any transaction which is similar in form, substance or purpose to any of the transactions listed above, or any combination of these types of transactions.

If Crestmark receives a bona fide unsolicited written acquisition proposal that did not result from a breach of the non-solicitation provisions in the merger agreement as discussed above, the Crestmark board of directors may participate in discussions or negotiations regarding the unsolicited acquisition proposal if the Crestmark board of directors first determines in good faith, after consultation with its outside legal counsel and outside financial advisor, that such acquisition proposal is or is reasonably likely to lead to a superior proposal, and its failure to take action on such proposal would be inconsistent with its fiduciary duties to its shareholders under applicable law, provided that Crestmark provides Meta with at least three business days prior notice of such determination and any person making such alternate proposal signs a confidentiality agreement with terms no less favorable than the confidentiality agreement with Meta.

A superior proposal means a bona fide, unsolicited acquisition proposal that:

if consummated, would result in a third party (or in the case of a direct merger between such third party and Crestmark or its subsidiaries, the shareholders of such third party) acquiring, directly or indirectly, more than 50% of the outstanding Crestmark common stock or more than 50% of the assets of Crestmark and its subsidiaries, taken as a whole, for consideration consisting of cash and/or securities, and

the Crestmark board of directors reasonably determines in good faith, after consultation with its outside financial advisor and outside legal counsel, (1) is reasonably capable of being completed on a timely basis, taking into account all financial, legal, regulatory and other aspects of such proposal, including all conditions contained therein and the person making such acquisition proposal, and (2) taking into account any changes to the merger agreement proposed by Meta in response to such acquisition proposal, and all financial, legal, regulatory and other aspects of such takeover proposal, including all conditions contained therein and the person making such proposal, is more favorable to the shareholders of Crestmark from a financial point of view than the merger with Meta.

Crestmark has agreed to promptly, and in any event within 24 hours, notify Meta in writing if any proposals or offers are received by, any information is requested from, or any negotiations or discussions are sought to be initiated or continued with, Crestmark or any of its representatives, in each case in connection with any acquisition proposal and to keep Meta informed, on a reasonably current basis, of the status and terms of any such proposal, offer, information request, negotiations or discussions (including any amendments or modifications to such proposal, offer or request). Crestmark has also agreed to provide Meta with any non-public information about Crestmark or any of its subsidiaries provided to any other person that was not previously provided to Meta, no later than the date provided to such other person.

In addition, under the merger agreement, Crestmark agreed that its board of directors, or any committee thereof, will not:

withdraw, qualify, amend or modify, or propose to withdraw, qualify, amend or modify, in a manner adverse to Meta in connection with the transactions contemplated by the merger agreement (including the merger), its recommendation that Crestmark shareholders vote to approve the merger agreement (including failing to reaffirm its recommendation if requested by Meta), or make any statement, filing or release inconsistent with its recommendation;

Table of Contents

approve or recommend, or propose to approve or recommend, any acquisition proposal; or

enter into any letter of intent, or other agreement related to any acquisition transaction (other than a confidentiality agreement entered into in accordance with the non-solicitation provisions of the merger agreement) or requiring Crestmark to abandon, terminate or fail to consummate the merger or any other transaction contemplated by the merger agreement;

unless, the Crestmark board determines that an unsolicited acquisition proposal that Crestmark received (that did not result from a breach of the non-solicitation provisions of the merger agreement) constitutes a superior proposal, but only if it so determines in good faith, after consultation with outside legal counsel and its financial advisor, and it is reasonably necessary to do so in order to comply with its fiduciary duties to the Crestmark shareholders under applicable law. In the event that the Crestmark board makes this determination, Crestmark must provide five business days' prior written notice to Meta that its board has made such determination. During the five business days after Meta's receipt of such notice, Crestmark and its board must cooperate and negotiate in good faith with Meta to make any adjustments, modifications or amendments to the terms and conditions of the merger agreement as Meta may elect to propose that would enable Crestmark to proceed with its board's original recommendation with respect to the merger agreement. At the end of the five business day period, and after taking into account any such adjusted, modified or amended terms as may have been proposed by Meta during that period, the Crestmark board must again determine:

in good faith, after consultation with outside legal counsel, whether it is reasonably necessary to withdraw, qualify, amend or modify its recommendation with respect to the merger agreement to comply with its fiduciary duties to its stockholders under applicable law; and

whether the acquisition proposal is a superior proposal.

In the event of any material revisions to the superior proposal, Crestmark must provide a new notice of such superior proposal to Meta. During the three business day period following receipt of such new written notice, Crestmark and its board must cooperate and negotiate in good faith with Meta to make any adjustments, modifications or amendments to the terms and conditions of the merger agreement as would enable Crestmark to proceed with its board's original recommendation with respect to the merger agreement without requiring Crestmark to withdraw, qualify, amend or modify its board's recommendation with respect to the merger agreement, provided that Meta does not have any obligation to propose any such modifications, amendments or adjustments to the merger agreement.

Crestmark is obligated to submit the merger agreement to its shareholders for a vote to approve the merger agreement and the merger, with a recommendation to approve it; provided, however, in the event the Crestmark board has determined there is a superior proposal as described above, the Crestmark board may recommend such superior proposal and submit the merger agreement without recommendation, along with the basis for such recommendation and lack thereof.

Under certain circumstances, including if the merger agreement is terminated in the event Crestmark breaches certain obligations described above, Crestmark must pay Meta a fee equal to \$10.0 million. See Termination of the Merger Agreement.

Other Agreements

In addition to the agreements described above, the parties to the merger agreement have agreed to take several other actions, including:

to use commercially reasonable efforts to consummate the merger and the other transactions contemplated by the merger agreement;

to convene a special meeting of Meta stockholders within 45 days from the date the registration statement, of which this joint proxy statement/prospectus is a part, becomes effective to consider and

to convene a special meeting of Crestmark shareholders within 45 days from the date the registration statement, of which this joint proxy statement/prospectus is a part, becomes effective to consider and vote on the Crestmark merger proposal, and that Crestmark will adjourn or postpone such meeting (i) if there are insufficient shares of Crestmark common stock to constitute a quorum, (ii) if Crestmark has not then received sufficient proxies to approve the Crestmark merger proposal, or (iii) to allow reasonable additional time for the filing or mailing of any supplemental or amended disclosure required under law;

to each confer on a regular basis with representatives of the other party and to report the general status of the ongoing operations of each party and its respective subsidiaries, including promptly providing copies of each report filed by such party or any of its subsidiaries with a governmental authority, subject to confidentiality and certain other limitations;

to supplement our respective disclosure schedules to the merger agreement with respect to any matter which would have been required to have been disclosed if existing on the date of the merger agreement;

that, for a period of six years after the effective time of the merger, Meta will indemnify, defend and hold harmless the directors and officers of Crestmark (when acting in such capacity) against all costs and liabilities arising out of actions or omissions occurring at or before the completion of the merger, in accordance with Crestmark's articles of incorporation and Crestmark's by-laws, to the extent permitted by law;

that, for a period of six years after the effective time of the merger, Meta will maintain Crestmark's existing directors' and officers' liability insurance for liabilities that arose prior to the completion of the merger if the total premium therefor is not in excess of 200% of the last annual premium paid prior to the date of the merger agreement (see "The Merger" Interests of Certain Persons in the Merger);

that, not later than the day immediately preceding the closing date of the merger, Crestmark will cause any employee benefit plan of Crestmark to be fully funded, to terminate all such employee benefit plans of Crestmark as of the effective time of the merger, and to commence the process to pay out any vested benefits thereunder to participating and eligible employees of Crestmark;

that Crestmark will terminate its employee stock ownership plan (ESOP) the day immediately preceding the closing date of the merger and repay the full outstanding balance of any loans under the ESOP;

that Meta and Crestmark will give notice to the other party of any fact, event or circumstance that is reasonably likely to result in any material adverse effect, as defined in the merger agreement, or that would constitute a material breach of any of its or its respective subsidiaries' representations, warranties, covenants or agreements in the merger agreement;

that Meta and Crestmark will facilitate the integration of Crestmark with the business of Meta and will meet on a regular basis to discuss and plan for the conversion of the data processing and related electronic informational systems of Crestmark prior to filing regulatory approvals;

that Crestmark will cooperate with certain environmental examinations, if required by Meta and at Meta's cost, within 45 business days after the execution of the merger agreement to real property owned by Crestmark and its subsidiaries in order to determine, as provided in the merger agreement, whether certain environmental conditions exist on such real property;

to increase the size of each of Meta's and MetaBank's board of directors by two directorships and nominate W. David Tull and another individual designated jointly by Meta and Crestmark, who has subsequently been determined to be Michael R. Kramer, to such boards as of the effective time of the merger (see "The Merger" Interests of Certain Persons in the Merger);

to cause the officers and directors of Crestmark and each of its subsidiaries to resign such positions as of the effective time of the merger;

to take such actions reasonably requested by the other party for integration of the parties' operations and to cause Crestmark Bank to merge into MetaBank;

to keep any non-public confidential information of the other party confidential;

to use each of our reasonable best efforts to cause the merger to qualify as a reorganization within the meaning of Section 368(a) of the Code;

promptly following execution of the merger agreement, to deliver evidence to the other party of stockholder approval by Meta's and Crestmark's respective subsidiary banks; and

that Crestmark will deliver to Meta a copy of its 2017 audited financial statements as soon as such financial statements are made available.

We cannot be certain when, or if, the conditions to the merger will be satisfied or waived, or that the merger will be completed.

Termination of the Merger Agreement

The merger agreement may be terminated prior to the closing, before or after approval by Meta stockholders or Crestmark shareholders, for various reasons, including by:

mutual consent of Meta and Crestmark;

either party if any requisite regulatory approvals are not obtained or if the consummation of the merger has been enjoined or prohibited by any governmental regulatory authority;

either party if Meta stockholders do not approve the merger agreement or the share issuance, or if Crestmark shareholders do not approve the merger agreement;

a party who is not in material breach of the merger agreement if the other party (1) materially breaches any covenants or undertakings contained in the merger agreement or (2) materially breaches any representations or warranties contained in the merger agreement, in each case, subject to cure provisions set forth in the merger agreement;

either party if the merger has not occurred on or before June 30, 2018, as shall be automatically extended for two months in order to obtain regulatory approvals if such regulatory approvals have not obtained as of such date, unless the failure to complete the merger by such date is due to the material breach of the merger agreement by the party seeking to terminate;

Meta, if the board of directors of Crestmark (1) materially breaches its non-solicitation obligations provided in the merger agreement, (2) fails to recommend, or withdraws its previous recommendation,

Table of Contents

that Crestmark shareholders approve the merger and the merger agreement, (3) recommends, proposes or publicly announces its intention to recommend or propose to engage in an acquisition transaction with any person other than Meta, (4) fails to convene the Crestmark special meeting, (5) fails to publicly recommend against an alternative acquisition proposal within five business days after being asked to do so by Meta, or (6) fails to publicly reconfirm its recommendation that Crestmark shareholders approve the merger or the merger agreement within five business days after being asked to do so by Meta; or

Crestmark, if the board of directors of Meta materially breaches its obligations to call, give notice of and commence the Meta special meeting.

If the merger agreement is terminated, it will become void and have no effect and the parties will be relieved of all obligations and liabilities, except that (i) certain specified provisions of the merger agreement will survive and (ii) if the merger agreement is terminated because of a material breach of a representation, warranty, covenant or agreement, the breaching party will not be relieved of liability for any breach giving rise to the termination; provided, however, if either party is required by the terms of the merger agreement, and does pay, the termination fee described below, then such party will have no further obligations under the merger agreement.

Crestmark will be required to pay a termination fee to Meta equal to \$10.0 million, in the following circumstances:

Meta terminates the merger agreement because Crestmark (1) materially breaches its non-solicitation obligations provided in the merger agreement, subject to a five-day cure period, (2) fails to recommend, or withdraws its previous recommendation, that Crestmark shareholders approve the merger and the merger agreement, (3) recommends, proposes or publicly announces its intention to recommend or propose to engage in an acquisition transaction with any person other than Meta, (4) materially breaches its obligations to convene the Crestmark special meeting, subject to a 5-day cure period, or (5) fails to publicly reconfirm its recommendation that Crestmark shareholders approve the merger or the merger agreement after being asked to do so by Meta; or

in the event that (1) a third party acquisition proposal had been made known to Crestmark or made directly to its shareholders and not withdrawn, and thereafter the merger agreement is terminated (x) by either party because the Crestmark shareholders fail to approve the merger agreement or because the merger is not consummated by June 30, 2018 without the Crestmark shareholders having approved the merger, or (y) by Meta because of a material uncured breach by Crestmark of its representations, warranties or covenants under the merger agreement, or (2) within six months after the date of termination, Crestmark consummates an acquisition transaction (as defined in the merger agreement) or enters into a definitive agreement with respect to such acquisition proposal.

Meta will be required to pay a termination fee to Crestmark equal to \$10.0 million, in the following circumstances:

Crestmark terminates the merger agreement because Meta materially breaches its obligation to convene the Meta special meeting, subject to a five-day cure period; or

in the event that there is a publicly announced offer to purchase at least 20% or more of Meta's or MetaBank's capital stock or consolidated assets, and, thereafter, the merger agreement is terminated by Meta because the Meta stockholders fail to approve the merger agreement.

Waiver and Amendment of the Merger Agreement

At any time before completion of the merger, either Meta or Crestmark may, to the extent legally allowed, amend in writing the merger agreement or waive in writing compliance by the other with any provision contained

in the merger agreement. However, once Crestmark shareholders have approved the Crestmark merger proposal or Meta stockholders have approved the Meta merger proposal, no amendment may be made that would require further approval by Meta stockholders or Crestmark shareholders unless that approval is obtained.

Meta may also change the structure of the merger or the method effecting the merger before the effective time of the merger, so long as any change does not: (i) change the kind or amount of consideration to be received by Crestmark shareholders; (ii) materially delay receipt of the requisite regulatory approvals; (iii) adversely affect the federal income tax consequences of the merger to Crestmark's shareholders; or (iv) cause any of the conditions to complete the merger to be incapable of being satisfied.

Regulatory Approvals Required for the Merger

In the merger agreement, we have agreed to use commercially reasonable efforts to obtain the requisite regulatory approvals, which include approvals from the Federal Reserve and the OCC. Meta filed applications and notices under relevant provisions of the HOLA and the BHCA for approval of the merger with the FRB-M on March 14, 2018. In addition, Meta filed an application under the Bank Merger Act, 12 U.S.C. § 1828(c), and HOLA § 10(s), for approval of the bank merger with the OCC on March 2, 2018. A copy of one or more of the applications and notices has been furnished to the DOJ, the FDIC, and the OCC. Copies of certain of the notices have been filed with the DOJ and the FTC pursuant to the Hart-Scott-Rodino Act. As required by Michigan law, a copy of the bank merger application was filed with the DIFS on March 9, 2018. A courtesy copy of one or more of the applications and notices to the FRB-M was provided to the DIFS on March 16, 2018. Meta and Crestmark cannot provide any assurance that the requisite regulatory approvals will be obtained in a timely manner or at all, or, if the requisite regulatory approvals are obtained, that such approvals will not contain a burdensome condition. In addition, Meta and Crestmark cannot provide any assurance that there will not be any public objection to or litigation challenging the requisite regulatory approvals, including any challenge by the DOJ, a state attorney general or a private party on antitrust grounds, or, if such a challenge is made, as to the result of any such challenge.

Federal Reserve.

The merger will be effected after a transitory conversion by Meta into a bank holding company, as such term is defined in the BHCA, for which a filing on Form FR Y-3 pursuant to BHCA Section 3(a)(1) was provided to the FRB-M on March 14, 2018. After such transitional conversion and the completion of the merger and the bank merger, Meta will resume its legal status as a savings and loan holding company and MetaBank will be the sole insured depository institution subsidiary of Meta. Additionally, a FR Y-4 notice filing was provided to the FRB-M on March 14, 2018 in connection with Meta's momentary holding of (i) Crestmark Bank's majority interests in certain subsidiary limited liability companies, and (ii) MetaBank, a federal savings bank, during Meta's transitory conversion into a bank holding company. The merger, the bank merger and the other transactions contemplated by the merger agreement cannot be completed unless and until the requisite regulatory approvals are received and any required waiting periods in connection with such regulatory approvals have expired.

The Federal Reserve will review the merger pursuant to the relevant provisions in the HOLA, including as set forth in Section 10 of the HOLA, 12 U.S.C. § 1467a, and the Board's Regulation LL, 12 CFR Part 238, as well as the BHCA, including as set forth in 12 U.S.C. §§ 1842 and 1843 and the Board's Regulation Y, 12 CFR Part 225. The Federal Reserve is prohibited from approving any merger transaction under Section 10(e) of the HOLA (i) which would result in a monopoly or be in furtherance of any combination or conspiracy to monopolize, or attempt to monopolize, the savings and loan business in any part of the United States, or (ii) whose effect in any section of the United States may be substantially to lessen competition, or to tend to create a monopoly or which in any other manner would be in restraint of trade, unless the Federal Reserve finds that the anti-competitive effects of the merger transaction are

clearly outweighed in the public interest by the probable effect of the merger transaction in meeting the convenience and needs of the community to be served.

Table of Contents

In addition, the Federal Reserve generally considers the following specific factors in evaluating applications presented pursuant to HOLA Section 10(e): (a) the financial and managerial resources and future prospects of the company and association involved (including a consideration of the competence, experience, and integrity of the officers, directors, and principal shareholder of the company or association), (b) the effect of the acquisition on the association, (c) the insurance risk to the Deposit Insurance Fund, and (d) the convenience and needs of the community to be served (including the record of performance under the Community Reinvestment Act of 1977, as amended).

The Federal Reserve is further prohibited from approving a merger application if after consummation of the mergers, the applicant would control more than 10% of the total amount of aggregate consolidated liabilities of financial companies (as defined under the BHCA) in the United States. On a pro forma basis, using data as of December 31, 2017, assuming approval and consummation of the mergers, Meta would control only 0.0383% of nationwide liabilities of financial companies. Accordingly, Meta believes that this prohibition does not apply to the mergers, and will not prevent the Federal Reserve from granting approval under the HOLA.

The Federal Reserve will render a decision on the HOLA application within 90 days after submission of the complete record on the application.

In acting on the application and notice under the BHCA, the Federal Reserve will consider factors similar to those described above that are applicable under the HOLA. In addition, the Federal Reserve will consider the effectiveness of the companies in combatting money laundering services, and the extent to which the proposed merger would result in greater or more concentrated risks to the financial stability of the United States banking or financial system.

Because, under the BHCA, the home state of MetaBank and of Crestmark Bank is not the same state, the Federal Reserve is prohibited from approving the merger if (i) the applicant is not well capitalized and well managed (as those terms are defined in the BHCA), or (ii) after consummation of the mergers, the applicant would control more than 10% of the total amount of deposits of insured depository institutions in the United States. Meta believes that it is both well capitalized and well managed, as those terms are used in the BHCA. On a pro forma basis, using deposit data as of December 31, 2017, assuming approval and consummation of the mergers, Meta would control only 0.0342% of nationwide deposits of insured depository institutions. Accordingly, Meta believes that this prohibition does not apply to the mergers, and will not prevent the Federal Reserve from granting approval under the BHCA.

Office of the Comptroller of the Currency. Under federal law, the OCC must review the bank merger as set forth in the applicable provisions of the Bank Merger Act, 12 U.S.C. § 1828(c), and Section 10(s) of the HOLA. The requisite application materials have been filed with the OCC and include information related to both depository institutions and their current and pro forma financials. The OCC will consider the following factors, among others, in evaluating the bank merger application: (a) the financial and managerial resources and future prospects of the existing and proposed institutions; (b) the convenience and needs of the community to be served; (c) the risk to the stability of the United States banking or financial system; (d) the activities of the combined institution; and (e) the existing institutions compliance with Bank Secrecy Act/Anti-Money Laundering requirements and obligations. Because the Federal Reserve will be reviewing the competitive effects of the merger and the holding company merger will occur before the bank merger, the OCC will not review the competitive effect of the mergers.

Because MetaBank and Crestmark Bank are located in different states, the OCC must consider additional matters under both the Bank Merger Act and Section 5(r) of the HOLA. Under the Bank Merger Act, the OCC may not approve a bank merger application if, after consummation of the mergers, the applicant would control more than 10% of the total amount of deposits of insured depository institutions in the United States. On a pro forma basis, using deposit data as of December 31, 2017, assuming approval and consummation of the mergers, Meta would control only 0.0342% of nationwide deposits of insured depository institutions. Accordingly, Meta

Table of Contents

believes that this prohibition does not apply to the mergers, and that the deposit concentration standard will not prevent the OCC from granting approval under the Bank Merger Act.

Under the bank merger, Meta proposes to operate the former principal office of Crestmark Bank as a branch office of MetaBank. Section 5(r) of the HOLA prohibits any federal savings association (which includes MetaBank) from retaining or operating a branch office located outside its home state, unless (i) that branch office (and any other branch offices located in the same state), taken as a whole, would satisfy the asset requirements of a qualified thrift lender (as defined in HOLA) or a domestic building and loan association (as defined in the Internal Revenue Code), (ii) a statutory exception applies, or (iii) the OCC grants a temporary waiver of the requirements of Section 5(r) to permit the federal savings association to bring the branch office(s) outside its home state into compliance.

Because MetaBank's home state is South Dakota, and the principal office of Crestmark Bank is located in Michigan, HOLA § 5(r) applies to the bank merger. The assets of Crestmark Bank's principal office do not meet the asset requirements of a qualified thrift lender or a domestic building and loan association, and it is unclear whether any of the statutory exceptions applies. Accordingly, in its bank merger application, MetaBank has requested that the OCC grant a two-year waiver of the requirements of HOLA § 5(r), as permitted by the statute.

Michigan Department of Insurance and Financial Services. Completion of the merger and the related transactions, including the bank merger, requires prior notice to the DIFS pursuant to the Michigan Banking Code of 1999, 1999 P.A. 276, as amended, M.C.L. §§ 487.11101 et seq., as set forth in M.C.L. § 487.13702(b). As required by Michigan law, a copy of the bank merger application to the OCC was filed with the DIFS on March 9, 2018.

Stock Exchange Listing

Meta has agreed to use its commercially reasonable efforts to list the shares of Meta common stock to be issued in connection with the merger on the NASDAQ Global Select Market. It is a condition to the completion of the merger that those shares be approved for listing on the NASDAQ Global Select Market, subject to official notice of issuance. Following the merger, Meta expects that its common stock will continue to trade on the NASDAQ Global Select Market under the symbol CASH.

Restrictions on Resales by Affiliates

Meta is registering its shares of common stock to be issued in the merger with the SEC under the Securities Act pursuant to this joint proxy statement/prospectus. No restrictions on the sale or other transfer of shares of Meta common stock issued in the merger will be imposed solely as a result of the merger, except for restrictions on the transfer of shares of Meta common stock issued to any Crestmark shareholder who is or becomes an affiliate of Meta for purposes of Rule 144 under the Securities Act. The term affiliate is defined in Rule 144 under the Securities Act as a person that directly, or indirectly through one or more intermediaries, controls, is controlled by, or is under common control with, Meta or the combined company, as the case may be.

No Dissenters' Rights of Appraisal

Dissenters' rights of appraisal are rights that, if available under applicable law or otherwise, enable shareholders to dissent from an extraordinary transaction, such as a merger, and to demand that the corporation pay the fair value for their shares as determined by a court in a judicial proceeding instead of receiving the consideration offered to shareholders in connection with the extraordinary transaction. Dissenters' rights of appraisal are not available in all circumstances, and exceptions to those rights are provided in the Michigan Business Corporation Act (MBCA). Under Section 762(2) of the MBCA and Crestmark's articles of incorporation and by-laws, Crestmark shareholders will not

have dissenters' rights of appraisal in connection with the merger because the merger consideration will consist of shares of Meta common stock, which are listed on the NASDAQ Global Select Market, or, in the event a Crestmark shareholder would be entitled to cash in lieu of fractional shares of Meta common stock, a combination of Meta common stock and cash.

Voting Agreements

In connection with the execution of, and as a condition to Meta's willingness to enter into, the merger agreement, certain of Crestmark's directors and executive officers and holders of Crestmark common stock, representing an aggregate of approximately 34% of Crestmark's outstanding common stock as of January 9, 2018 have entered into voting agreements with Meta. A copy of the form of these voting agreements is attached as *Appendix B* to this joint proxy statement/prospectus.

Under the voting agreements, each such shareholder has agreed, with respect to the shares of Crestmark common stock owned of record or beneficially by the shareholder, that at any meeting of Crestmark shareholders in relation to the merger agreement and transactions contemplated by the merger agreement and at the special shareholders meeting or any other meeting or action of Crestmark shareholders called in relation to such matters, the shareholder shall vote, or cause to be voted, such shares as follows:

vote in favor of the approval of the merger agreement and the transactions contemplated by the merger agreement, including the merger, any other matters required to be approved or adopted in order to effect the merger and the transactions contemplated by the merger agreement; and

not vote in favor of any competing acquisition proposal or any action that is intended or could reasonably be expected to materially impede, interfere with, delay or materially and adversely affect the merger or any transactions contemplated by the merger agreement.

The voting agreements also contain restrictions on the sale, transfer, assignment, pledge or other disposition of shares of Crestmark common stock held or beneficially owned by Crestmark shareholders party to the voting agreements prior to the effective time of the merger.

The voting agreement will terminate automatically upon the termination of the merger agreement.

PROPOSAL NO. 2

**AMENDMENT TO META S CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF
AUTHORIZED SHARES OF COMMON STOCK FROM 30 MILLION TO 90 MILLION SHARES FOR
THE PURPOSE OF EFFECTING A THREE-FOR-ONE FORWARD STOCK SPLIT**

Proposal 2 contemplates an amendment to Article Fourth of Meta s certificate of incorporation to increase the number of authorized shares of Meta common stock from 30 million shares to 90 million shares (the charter amendment and this proposal with respect to the approval of the charter amendment, the charter amendment proposal). No change in the number of authorized shares of Meta nonvoting common stock or Meta preferred stock is proposed.

The complete text of the charter amendment is set forth on *Appendix E* to this joint proxy statement/prospectus. Such text is, however, subject to revision for such changes as may be required by the Delaware Secretary of State or other changes consistent with this proposal that Meta may deem necessary or appropriate.

On March 15, 2018, Meta s board of directors voted to approve and adopt, and to recommend that Meta stockholders approve and adopt, the charter amendment. If Meta stockholders approve the charter amendment proposal, Meta intends to file the charter amendment with the Delaware Secretary of State promptly following the Meta special meeting.

Meta s certificate of incorporation authorizes up to 30 million shares of Meta common stock. As of the Meta record date:

9,720,536 shares of Meta common stock were issued (including 20,945 shares of Meta common stock held in treasury) and 9,699,591 shares were outstanding;

812,001 shares of Meta common stock have been reserved for issuance under Meta s equity compensation plans;

An additional approximate 3.3 million shares of Meta common stock are expected to be issued in connection with the merger, leaving a balance of 16,167,463 shares of Meta common stock authorized and unissued and not reserved for any specific purpose;

No shares of Meta preferred stock were issued and outstanding; and

No shares of Meta nonvoting common stock were issued and outstanding.

Reasons for the charter amendment

On March 15, 2018, Meta s board of directors approved pursuing the stock split. The closing market price of Meta common stock on March 14, 2018 was \$113.75, as reported on the NASDAQ Global Select Market. In light of the rise in the market price of Meta common stock in recent years, Meta s board of directors believes that effecting the stock split would make shares of Meta common stock more affordable and attractive to a broader group of potential

investors, increase liquidity in the trading of Meta common stock and increase the attractiveness of Meta's employee equity awards. Meta's board of directors also considered a study published by The Ambassador Financial Group concluding that stock splits improve stockholder liquidity and market valuation. Finally, Meta's board of directors considered the cost of effecting a stock split and believes the cost to be insignificant in light of the benefits to be obtained.

Conditioned on receiving approval by Meta stockholders of the charter amendment proposal to effect the 3-for-1 forward stock split and subject to further action by Meta's board of directors, Meta plans to issue a dividend of two shares of Meta common stock for every one share issued and outstanding as of a record date to be determined in the future. Without approval of the charter amendment proposal, Meta would not have sufficient authorized Meta common stock to declare a three-for-one forward stock split.

Table of Contents

Approval of the charter amendment proposal will allow Meta to declare the stock split while also maintaining Meta's flexibility to use capital stock for various purposes, including capital raising, providing equity incentives to directors and employees to attract and retain talented personnel, paying stock dividends or effecting future stock splits, expanding Meta's business through acquisitions or other strategic transactions involving the issuance of shares, including mergers, acquisitions and other business combinations, and other general corporate purposes.

Consistent with the currently authorized but unissued shares of Meta common stock, the additional shares of Meta common stock authorized by the charter amendment proposal, if approved by Meta stockholders, would be available for issuance without further action by Meta stockholders, unless further action is required by law, the rules of the NASDAQ Stock Market or any other stock exchange on which Meta common stock, as applicable, may be then listed.

⁽¹⁾ This approximation is based upon the number of shares of Crestmark common stock outstanding as of the date of the merger agreement.

⁽²⁾ Reflects (a) pre-increase ratio to Authorized Shares of Common Stock in the Current column and (b) post-increase ratio to Authorized Shares of Common Stock in the After Authorized Share Increase and Stock Split column.

The board of directors of Meta believe it is in the best interests of its stockholders to increase the number of authorized shares of Meta common stock to accommodate the stock split.

Consequences of the charter amendment and stock split

If Meta stockholders approve the Meta merger proposal, upon the closing of the transactions contemplated by the merger agreement, based upon the shares of Crestmark common stock outstanding as of the date of the merger agreement, Meta would issue approximately 3.3 million shares of Meta common stock to Crestmark shareholders. If the charter amendment proposal is approved by Meta's stockholders and the stock split is implemented prior to the consummation of the merger, the exchange ratio pursuant to the merger agreement will be adjusted such that, upon the closing of the merger, Crestmark stockholders would receive 7.95 shares of Meta common stock for each share of Crestmark common stock held by them. See the section entitled "The Merger Agreement Conversion of Shares;

Exchange of Certificates; Fractional Shares beginning on page 74.

Table of Contents

The newly authorized shares of Meta common stock would constitute additional shares of the existing class of Meta common stock and, if and when issued, will have the same rights and privileges as the shares of Meta common stock currently authorized. Meta common stock is not entitled to preemptive rights.

The par value per share of Meta common stock will, upon approval of the charter amendment proposal and effectiveness of the charter amendment and the stock split, remain unchanged at \$0.01 per share.

Following the effective date of the stock split, if approved by Meta's board of directors, each Meta stockholder would own three times the number of shares of Meta common stock that such stockholder held prior to the effective date. The stock split, however, would affect all of Meta's stockholders uniformly and will not affect any stockholder's percentage ownership of Meta's common stock.

Following the effectiveness of the charter amendment and the stock split, shares of Meta common stock issuable upon exercise of outstanding stock options, or otherwise reserved for issuance under Meta's equity compensation plans would increase proportionately.

While the charter amendment is not intended to prevent or discourage any actual or threatened takeover of Meta, if the charter amendment proposal is adopted, under certain circumstances, the charter amendment could have anti-takeover effects. For example, in the event of a hostile attempt to acquire control of Meta, it may be possible for Meta to endeavor to impede the attempt by issuing shares of Meta common stock, thereby diluting the voting power of the other outstanding shares of Meta common stock and increasing the potential cost to acquire control of Meta. The proposed charter amendment may also have the effect of permitting Meta's current members of management and the current members of Meta's board of directors to retain their respective positions, and resist changes to Meta's board of directors that Meta stockholders may wish to make if they are dissatisfied with the performance of Meta or Meta common stock. The additional shares of Meta common stock could also be issued in private placements or other transactions without stockholder approval, subject to applicable law and applicable rules and regulations of any securities exchange on which Meta's shares of capital stock are listed, permitting the acquisition by a holder of a large number of shares of Meta common stock or Meta Preferred Stock (which may be convertible into shares of Meta common stock). Accordingly, because Meta stockholders do not have preemptive rights with respect to Meta common stock, to the extent that additional authorized shares of Meta common stock are issued in the future, they will decrease the respective percentage equity ownership of existing holders of Meta common stock, if any, and depending on the price at which they are issued, could be dilutive to existing Meta stockholders. If this proposal is adopted, the increase in the number of authorized shares of Meta common stock may render more difficult or discourage a merger, tender offer or proxy contest (and thereby potentially limit the opportunity for Meta stockholders to dispose of their shares of Meta common stock at a premium to the then-current market price generally available in takeover attempts or that may be available under a merger proposal). Any such anti-takeover effects may have an adverse impact on Meta stockholders.

Effectiveness of the charter amendment

If Meta stockholders approve and adopt the proposed charter amendment contemplated by the charter amendment proposal, Meta will (i) promptly file the charter amendment with the Delaware Secretary of State following the Meta special meeting, whereupon the charter amendment will become effective and (ii) provide additional details about the implementation of the stock split following the Meta special meeting.

Potential Impact if the Charter Amendment is Not Adopted

Rejection of the proposed charter amendment by Meta's stockholders will not impact approval of the merger proposal. However, if the proposed charter amendment is not approved and adopted by Meta's stockholders and Meta is unable to increase the number of authorized shares of Meta common stock, Meta will not have the ability to effect the desired three-for-one forward stock split.

Meta's board of directors unanimously recommends a vote FOR the approval of the charter amendment proposal.

PRICE RANGE OF COMMON STOCK AND DIVIDENDS

Crestmark common stock is not listed on an exchange or quoted on any automated services, and there is no established trading market for shares of Crestmark common stock. As of April 19, 2018, there were 1,247,747 shares of Crestmark common stock issued and outstanding, which were held by approximately 140 shareholders of record. Crestmark did not declare dividends in 2017. On December 10, 2015, Crestmark paid a cash dividend of \$4.25 per share of Crestmark common stock to shareholders of record as of November 16, 2015. On December 13, 2016, Crestmark declared a cash dividend of \$4.50 per share of Crestmark common stock to shareholders of record as of November 21, 2016.

Holders of Crestmark's common stock are entitled to receive dividends that the Crestmark board of directors may declare from time to time. Crestmark may only pay dividends out of funds that are legally available for that purpose. Crestmark is a bank holding company, and substantially all of its assets are held by Crestmark Bank and its subsidiaries. Crestmark's ability to pay dividends to its shareholders depends primarily on Crestmark Bank's ability to pay dividends to Crestmark. Dividend payments and extensions of credit to Crestmark from Crestmark Bank are subject to legal and regulatory limitations, generally based on capital levels and current and retained earnings, imposed by law and regulatory agencies. The ability of Crestmark Bank to pay dividends is also subject to its profitability, financial condition, capital expenditures and other cash flow requirements.

Crestmark Bank is subject to regulatory capital requirements administered by state and federal banking agencies. Failure to meet the various capital requirements can result in regulatory action that could have a direct material effect on Crestmark's financial statements. Additionally, Crestmark's credit facility and subordinated debentures issued in connection with its trust preferred securities place certain restrictions on Crestmark's ability to pay dividends.

Table of Contents**NOTES TO UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL INFORMATION****Note 1 Description of Transaction**

On January 9, 2018, Meta and Crestmark announced that they had entered into a merger agreement under which Crestmark will merge with and into Meta, with Meta continuing as the surviving corporation. Immediately following the completion of the merger, Crestmark Bank, Crestmark's wholly-owned bank subsidiary, will merge with and into MetaBank, Meta's wholly-owned bank subsidiary, with MetaBank continuing as the surviving entity in the bank merger.

At the effective time of the merger, each share of Crestmark common stock issued and outstanding immediately prior to the closing, except for Crestmark dissenting shares and shares of Crestmark common stock owned by Crestmark or Meta will automatically be converted into the right to receive 2.65 shares of Meta common stock. In addition, subject to the terms and conditions set forth in the merger agreement, immediately prior to the effective time, each outstanding option to purchase Crestmark common stock will be cancelled and converted in the right to receive an amount in cash equal to the product of the number of shares of Crestmark common stock underlying such option, multiplied by the excess, if any, of (a) the dollar amount equal to (x) 2.65 multiplied by (y) the per share purchase price over the (b) the exercise price of such option, less any applicable withholding taxes. Any option with an exercise price that is greater than or equal to the per share purchase price will be cancelled and of no further force or effect.

Note 2 Basis of Presentation

Meta's fiscal year ends on September 30 while Crestmark's fiscal year ends on December 31. The unaudited pro forma condensed combined income statement information for the fiscal year ended September 30, 2017 and the three months ended December 31, 2017 is presented as if the merger was consummated on October 1, 2016, the first business day of Meta's 2017 fiscal year. The unaudited pro forma condensed combined income statement for the fiscal year ended September 30, 2017 combines Meta's audited consolidated statement of income for the fiscal year ended September 30, 2017 with Crestmark's audited consolidated statement of income for the fiscal year ended December 31, 2017 (in each case, the most recently completed fiscal year). As a result of the different fiscal year ends, and in order to present results for comparable periods, the unaudited pro forma condensed combined income statement for the three-month period ended December 31, 2017 combines Meta's unaudited consolidated statement of income for the three months ended December 31, 2017 with Crestmark's unaudited consolidated statement of income for the three months ended December 31, 2017. The unaudited pro forma condensed combined balance sheet information as of December 31, 2017 gives effect to the merger as if it occurred on December 31, 2017, and combines the historical balance sheets of Meta and Crestmark as of December 31, 2017.

The unaudited pro forma condensed combined financial information has been prepared using the acquisition method of accounting for business combinations in accordance with U.S. GAAP giving effect to the merger of Crestmark with and into Meta, with Meta surviving the merger. The unaudited pro forma condensed combined financial information is presented for illustrative purposes only and does not necessarily indicate the financial results of the combined companies had the companies actually been combined at the beginning of the period presented. The merger provides for the issuance of approximately 3,306,530 shares of Meta common stock based on the number of shares of Crestmark common stock outstanding at January 9, 2018 and the 2.65 exchange ratio in the merger pursuant to the merger agreement. Based on Meta's closing stock price on January 9, 2018 and including a cash payment for outstanding stock options, the total consideration would be approximately \$320.3 million. This amount is subject to change based on the number of outstanding Crestmark stock options at the closing date of the merger.

Under the acquisition method of accounting, the assets and liabilities of Crestmark will be recorded at the respective fair values on the date of the closing of the merger. The fair value on the date of the closing of the merger represents management's best estimates based on available information and facts and circumstances in existence on January 9, 2018, the date of the merger agreement. The pro forma allocation of purchase price

Table of Contents

reflected in the unaudited pro forma condensed combined financial information is based on preliminary estimates and currently available information, some of which assumptions cannot be finalized until the consummation of the merger. Adjustments may include, but not limited to, changes in (i) Crestmark's balance sheet through the effective time of the merger; (ii) total merger related expenses if consummation and/or implementation costs vary from currently estimated amounts; and (iii) the underlying values of assets and liabilities if market conditions differ from current assumptions.

Note 3 Estimated Merger and Integration Costs

In connection with the merger, the plan to integrate Meta's and Crestmark's operations is still being developed. Over the next several months, the specific details of these plans will continue to be refined. Meta and Crestmark are currently in the process of the two companies' personnel, benefit plans, premises, equipment, computer systems, and service contracts to determine where they may take advantage of redundancies or where it will be beneficial or necessary to convert to one system. Certain decisions arising from these assessments may involve changing information systems, canceling contracts between Crestmark and certain service providers and selling or otherwise disposing of certain premises, furniture and equipment owned by Crestmark. Additionally, as part of the parties' formulation of the integration plan, certain actions regarding existing Meta information systems, premises, equipment, and supplier contracts may be taken. Meta expects to incur merger-related expenses including system conversion costs, employee retention agreements, communications to customers, and others. To the extent there are costs associated with these actions, the costs will be recorded based on the nature and timing of these integration actions. Most acquisition and restructuring costs are recognized separately from a business combination and generally will be expensed as incurred. Meta estimates the merger-related costs to be approximately \$18.0 million pre-tax and expect they will be incurred in fiscal years 2018 and 2019. These merger-related costs are not reflected in the accompanying pro forma financial information.

Note 4 Pro Forma Merger Adjustments

The following pro forma adjustments have been reflected in the unaudited pro forma condensed combined financial information. All taxable adjustments were calculated using a 28% tax rate to arrive at deferred tax asset or liability adjustments. All adjustments are based on current assumptions and valuations, which are subject to change. Management has evaluated the estimated effects resulting from accreting or amortizing the purchase accounting adjustments reflected in the pro forma combined financial information on pre-tax income over the appropriate period for each pro forma adjustment following the acquisition and has concluded that the impact is not significant for these periods.

The unaudited pro forma condensed combined financial information reflects the issuance of 3,306,530 shares of Meta common stock and cash of \$18.5 million, totaling approximately \$320.3 million of merger consideration, based upon 1,247,747 shares of Crestmark common stock and the \$91.25 closing price of Meta common stock on the NASDAQ Global Select Market on January 9, 2018. See Note 2 Basis of Presentation. The merger will be accounted for using the acquisition method of accounting for business combinations in accordance with U.S. GAAP; accordingly Meta's cost to acquire Crestmark will be allocated to the assets (including identifiable intangible assets) and liabilities of Crestmark at their respective estimated fair values as of the merger closing date. CONDITION AND RESULTS OF OPERATIONS**

The following discussion describes the results of operations for the years ended December 31, 2017, 2016 and 2015 and also analyzes the financial condition as of December 31, 2017 as compared to December 31, 2016 for Crestmark and its subsidiaries (referred to in this section as "Crestmark"). This discussion should be read in conjunction with the Selected Historical Consolidated Financial Data of Crestmark and the audited consolidated financial statements and accompanying footnotes thereto included elsewhere in this joint proxy statement/prospectus. Historical results of operations and the percentage relationships among any amounts included, and any trends that may appear, may not indicate trends in operations or results of operations for any future periods.

Crestmark from time to time makes various forward-looking statements with respect to financial and business matters. Comments regarding Crestmark's business that are not historical facts are considered forward-looking statements that involve inherent risks and uncertainties. Actual results may differ materially from those contained in these forward-looking statements. For additional information regarding cautionary disclosures, see "Cautionary Statement Regarding Forward-Looking Statements" beginning on page 18 of this joint proxy statement/prospectus.

Overview

Crestmark is a registered bank holding company that provides working capital solutions through its wholly-owned subsidiary, Crestmark Bank. Crestmark Bank is a Michigan-chartered banking institution that specializes in the provision of commercial lending and leasing products to business customers throughout the United States. Crestmark Bank conducts its business through its headquarters in Troy, Michigan and a network of loan production offices in Los Angeles, California; Boynton Beach, Florida; Baton Rouge, Louisiana; New York, New York; Franklin, Tennessee; and Toronto, Canada. Crestmark is a non-cash bank and does not maintain a traditional retail branch or deposit network. Crestmark is primarily reliant upon brokered deposits and internet listing services as sources of capital, which are supplemented by internet-based retail and commercial deposits. Its primary lending products are commercial asset-based loans, leases, and accounts receivable purchasing (factoring), both discount and traditional.

The profitability of Crestmark's operations is influenced heavily by its net interest income after provision for credit losses, which is the difference between interest earned on interest-earning assets and interest paid on interest-bearing liabilities less provision for credit losses. The provision for credit losses is dependent on changes in the financing receivables portfolio and Crestmark management's assessment of the collectability of those receivables, as well as current and future economic and market conditions. Additionally, Crestmark's net income is impacted by non-interest income, non-interest expense, and income tax expense.

Critical Accounting Policies

The consolidated financial statements of Crestmark are prepared in accordance with U.S. GAAP and are consistent with general practices within the depository institutions industry. The application of U.S. GAAP requires Crestmark management to make certain estimates, assumptions, and judgments based on information available as of the date of its financial statements that affect the amounts reported in the consolidated financial statements. Accordingly, as this information changes, actual results could differ from the estimates, assumptions, and judgments reflected in the consolidated financial statements.

Critical accounting estimates are those estimates that Crestmark management believes are the most important to the financial position and results of operations. The most significant accounting policies and estimates are presented in

Note 1 of the audited consolidated financial statements of Crestmark included in this joint proxy statement/prospectus. These consolidated financial statements and related footnotes provide

Table of Contents

information on how significant assets and liabilities are valued in the financial statements and how those values are determined. In determining the critical accounting estimates, Crestmark considered the valuation techniques and inputs used and the sensitivity of these to the financial statement amounts, estimates, assumptions, and judgments underlying those amounts. Based on this assessment, Crestmark management determined that the critical accounting policies are those related to the allowance for credit losses (including contingency reserves on factoring receivables), estimated residual values of leased equipment and income taxes.

Allowance for Credit Losses

The allowance for credit losses (ALLL) is established through a provision for credit losses charged to expense with credit exposures charged against the ALLL when Crestmark management believes that collectability of the principal is unlikely. The allowance is an amount that Crestmark management believes will be appropriate to absorb probable incurred losses on existing loans, leases and receivables based on an evaluation of the collectability of loans and prior loss and recovery experience as appropriate under U.S. GAAP. The determination of the ALLL is inherently subjective as it requires significant management judgment based on factors that are susceptible to significant change. These judgments include estimates associated with the amounts and timing of expected future cash flows on impaired loans, actual historical loss experience, specific borrower circumstances and estimated collateral values, and consideration of current economic trends and conditions, and other factors. For factoring receivables, Crestmark Bank withholds a contingency reserve which is the difference between the fair value of the invoice amount and the amount advanced. A contingency reserve is withheld for nonpayment of factored receivables, service fees and other adjustments. Any shortfalls of the collection of the amortized cost of the factoring receivables are charged to the allowance for credit losses. For additional discussion of the allowance for credit losses, see Notes 1 and 4 of the audited consolidated financial statements of Crestmark included in this joint proxy statement/prospectus.

Residual Value of Direct Finance, Sales-Type, and Operating Leases

Lease residual values are estimated at lease inception and represent the present value of the estimated fair value of the leased equipment at the termination date of the lease. Realization of these residual values depends on many factors, including Crestmark management's use of estimates, assumptions, and judgment to determine such values. Several other factors outside of Crestmark management's control may reduce the residual values realized, including general market conditions at the time of expiration of the lease, whether there has been technological or economic obsolescence or unusual wear and tear on, or use of, the equipment and the cost of comparable equipment. To the extent the actual residual at termination of the lease is different than its carrying amount, a gain or loss will be recorded on the subsequent settlement of the residual asset. If Crestmark Bank fails to realize the aggregate recorded residual values, the financial condition and profitability could be adversely affected. See Note 1, Note 4, and Note 5 of the Notes to Consolidated Financial Statements included in this joint proxy statement/prospectus.

Income Taxes

Income tax expense is based on Crestmark management's judgments and estimates regarding permanent differences in the treatment of specific items of income and expense for financial statement and income tax purposes. These permanent differences result in an effective tax rate that differs from the federal statutory rate. In addition, deferred tax assets and liabilities are recognized in the Consolidated Balance Sheets of Crestmark based on Crestmark management's judgment and estimates regarding timing differences in the recognition of income and expenses for financial statement and income tax purposes.

Crestmark assesses the likelihood that any deferred tax assets will be realized through the reduction or refund of taxes in future periods and establishes a valuation allowance for those assets for which recovery is not more likely than not.

Deferred tax assets and liabilities are the expected future tax amounts for the temporary differences between carrying amounts and tax bases of assets and liabilities, computed using enacted tax rates. A valuation allowance, if needed, reduces deferred tax assets to the amount expected to be realized.

Table of Contents

A tax position is recognized as a benefit only if it is more likely than not that the tax position would be sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized is the largest amount of tax benefit that is greater than 50% likely of being realized on examination. For tax positions not meeting the more likely than not test, no tax benefit is recorded. Crestmark management believes that it is more likely than not that deferred tax assets included in the accompanying Consolidated Balance Sheets of Crestmark will be fully realized, although there is no guarantee that those assets will be recognizable in future periods.

Crestmark management also makes certain interpretations of federal and state income tax laws for which the outcome of the tax position may not be certain. Uncertain tax positions are periodically evaluated and Crestmark management may establish tax reserves for benefits that may not be realized. For additional discussion of income taxes, see Notes 1 and 10 of the Notes to Consolidated Financial Statements included in this joint proxy statement/prospectus.

Accounting Standards Updates

See the following section for a description of pronouncements that have been released but, as of December 31, 2017, were not yet adopted by Crestmark.

Pending Accounting Pronouncements

Revenue Recognition

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers* (ASU 2014-09), which outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance. The core principle of the revenue model is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU 2014-09 is intended to clarify and converge the revenue recognition principles under U.S. GAAP and International Financial Reporting Standards and to streamline revenue recognition requirements in addition to expanding required revenue recognition disclosures. In August 2015, the FASB issued ASU 2015-14, *Deferral of the Effective Date* (ASU 2015-14), which provides a one year deferral to the effective date, therefore, ASU 2014-09 is effective for public companies for annual periods, and interim periods within those annual periods, beginning on or after December 15, 2017. The adoption of the ASU is not anticipated to have a material impact on the financial statements in fiscal year 2018.

Recognition and Measurement

In January 2016, the FASB issued ASU No. 2016-01, *Financial Instruments Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities* (ASU 2016-01). ASU 2016-01 amends current guidance by: (i) requiring equity investments with readily determinable fair values to be measured at fair value with changes in fair value recognized in net income, (ii) allowing an entity to measure equity investments that do not have readily determinable fair values at either fair value or cost minus impairment, if any, plus or minus changes in observable prices, with changes in measurement recognized in net income, (iii) simplifying the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment, (iv) eliminating the requirement to disclose the methods and significant assumptions used to estimate the fair value for financial instruments measured at amortized cost on the balance sheet; (v) requiring use of the exit price notion when measuring the fair value of financial instruments for disclosure purposes; (vi) requiring recognition of changes in the fair value related to instrument-specific credit risk in other comprehensive income if the fair value option for financial liabilities is elected, (vii) requiring separate presentation in the financial statements of

financial assets and financial liabilities

Table of Contents

by measurement category, and (viii) clarifying that an entity should evaluate the need for a valuation allowance on deferred tax assets related to available-for-sale securities in combination with the entity's other deferred tax assets. ASU 2016-01 is effective for interim and annual reporting periods beginning after December 15, 2017. As such, Crestmark adopted ASU No. 2016-01 as of January 1, 2018.

The adoption of ASU 2016-01 is not expected to have a material impact on Crestmark's balance sheet and statement of income and will primarily impact disclosures only.

Leases

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)* (ASU 2016-02). Under ASU 2016-02, Crestmark will be required to recognize the following for all leases (with the exception of short-term leases): (i) a right to use asset, which is an asset that represents the lessee's right to use, or control the use of, a specified asset for the lease term, and (ii) a lease liability, which is a liability that represents lessee's obligation to make lease payments arising from a lease, measured on a discounted basis. ASU 2016-02 requires a modified retrospective transition approach for leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements. ASU 2016-02 is effective for public companies for interim and annual periods beginning after December 15, 2018. The adoption of ASU 2016-02 will result in the recording of right of use assets and offsetting liabilities and will increase total assets, and is not expected to have a material impact on Crestmark's results of operations.

Credit Losses

In June 2016, the FASB issued ASU No. 2016-13, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments* (ASU 2016-13). ASU 2016-13 changes how entities will measure credit losses for most financial assets and certain other instruments that are not measured at fair value through net income.

ASU 2016-13 requires an entity to measure expected credit losses for financial assets over the estimated lifetime of expected credit loss and record an allowance that, when deducted from the amortized cost basis of the financial asset, presents the net amount expected to be collected on the financial asset. The standard includes the following core concepts in determining the expected credit loss estimate: (a) be based on an asset's amortized cost (including premiums or discounts, net deferred fees and costs, foreign exchange and fair value hedge accounting adjustments), (b) reflect losses expected over the remaining contractual life of an asset (considering the effect of voluntary prepayments), (c) consider available relevant information about the estimated collectability of cash flows (including information about past events, current conditions, and reasonable and supportable forecasts), and (d) reflect the risk of loss, even when that risk is remote.

ASU 2016-13 also amends the recording of purchased credit-deteriorated assets. Under the new guidance, an allowance will be recognized at acquisition through a gross-up approach whereby an entity will record as the initial amortized cost the sum of (a) the purchase price and (b) an estimate of credit losses as of the date of acquisition. In addition, the guidance also requires immediate recognition in earnings any subsequent changes, both favorable and unfavorable, in expected cash flows by adjusting this allowance.

ASU 2016-13 amends the impairment model for available-for-sale debt securities and requires entities to determine whether all or a portion of the unrealized loss on an available-for-sale debt security is a credit loss. Crestmark management may not use the length of time a security has been in an unrealized loss position as a factor in concluding whether a credit loss exists, as is currently permitted. In addition, an entity will recognize an allowance for credit losses on available-for-sale debt securities as a contra-account to the amortized cost basis rather than as a direct

reduction of the amortized cost basis of the investment, as is currently required. As a result, entities will recognize improvements to credit losses on available-for-sale debt securities immediately in earnings rather than as interest income over time under current practice.

Table of Contents

New disclosures required by ASU 2016-13 include the following: (a) for financial assets measured at amortized cost, an entity will be required to disclose information about how it developed its allowance, including changes in the factors that influenced Crestmark management's estimate of expected credit losses and the reasons for those changes, (b) for financial receivables and net investments in leases measured at amortized cost, an entity will be required to further disaggregate the information it currently discloses about the credit quality of these assets by year or the asset's origination or vintage for as many as five annual periods, and (c) for available-for-sale debt securities, an entity will be required to provide a roll-forward of the allowance for credit losses and an aging analysis for securities that are past due.

Upon adoption of ASU 2016-13, a cumulative-effect adjustment to retained earnings will be recorded as of the beginning of the first reporting period in which the guidance is effective. ASU 2016-13 is effective for public companies for interim and annual periods beginning after December 15, 2019, with early adoption permitted for annual periods beginning after December 15, 2018. Crestmark is currently evaluating the provisions of ASU 2016-13 to determine the potential impact on Crestmark's consolidated financial condition and results of operations.

RESULTS OF OPERATIONS**Net Income**

Crestmark's net income attributable to parent for 2017 was \$29.1 million, as compared to \$15.5 million in 2016, and \$12.5 million in 2015.

The primary source of income for Crestmark is its net interest income, which increased \$16.7 million or 25.3% to \$82.7 million for the year ended December 31, 2017 from \$66.0 million for the year ended December 31, 2016. The net interest margin remained relatively flat from 2016 to 2017. The net interest margin decreased from 10.18% to 9.44% from December 31, 2015 to December 31, 2016. The decrease in net interest margin was mainly due to a decrease in rates on leases from 2015 to 2016 and increases in both volume and rate on interest bearing liabilities. The income on commercial and consumer loans, factoring receivables, and leases increased \$18.0 million primarily due to increased volume in 2017, while the cost of interest bearing liabilities increased \$2.5 million due to volume in 2017. Crestmark management believes that volume increases were primarily driven by strong activity in the broader economy and as a result of Crestmark's efforts to invest in and expand its leasing business since 2014. In addition, rental income from equipment on operating leases was \$45.9 million in 2017 as compared to \$34.4 million in 2016 and \$17.8 million in 2015, as a result of the factors described above. Offsetting the rental income from equipment on operating leases was depreciation on equipment on operating leases of \$37.2 million in 2017, \$29.3 million in 2016, and \$16.4 million in 2015. The increase in depreciation is primarily attributable to the growth in Crestmark's leasing business. The impact of rental income from equipment on operating leases and related depreciation resulted in net earnings of \$8.7 million in 2017, \$5.1 million in 2016, and \$1.4 million in 2015.

Also contributing to the increase in net income for each of the years in the three-year period ended December 31, 2017 was a decrease in income tax expense in each such year over the prior year. Crestmark reported income tax (benefit) expense of approximately (\$2.0) million in 2017, \$2.6 million in 2016, and \$5.4 million in 2015. This resulted in an effective tax rate of (7%), 11%, and 25% for the years ended December 31, 2017, 2016, and 2015, respectively. The decline in the effective tax rate in 2017 as compared to 2016 was primarily the result of an income tax benefit due to the re-measurement of the net deferred tax liability, as well as increases in energy related tax credits. This re-measurement during 2017 approximated \$5.7 million and was based upon the enactment of a change in the federal corporate tax rate from 35% to 21% by the December 22, 2017 Tax Cuts and Jobs Act (TCJA). Without this one-time re-measurement adjustment reflected in income tax expense, the effective tax rate would have been 11.8% for the year ended December 31, 2017. In addition, Crestmark recognized \$6.3 million, \$2.5 million, and \$1.3 million in credits

related to investments in energy-related assets for the three years ended December 31, 2017, 2016 and 2015, respectively.

Table of Contents

The decline in the effective tax rate in 2016 as compared to 2015 was also due to a \$1.6 million deduction related to stock compensation.

Net Interest Income

Crestmark's net interest income can be influenced by a variety of factors, including overall loan demand, economic conditions, credit risk, the amount of interest and the mix of interest-earning and non-interest earning assets held by Crestmark, the amounts of and rates at which assets and liabilities reprice, variance of prepayments, and general declines or rises in interest rates. Net interest income is the amount by which interest income on earning assets exceeds the interest expenses on interest bearing liabilities. Net interest income, which includes loan fees, is influenced by changes in the balance and mix of assets and liabilities and market interest rates. Crestmark exerts some control over these factors; however, Federal Reserve Bank monetary policy and competition have a significant impact.

The following tables present the total dollar amount of interest income from average interest-earning assets and the related yields, as well as the interest expense on average interest-bearing liabilities, and the related costs, expressed both in dollars and rates for the years set forth below. For the purpose of these tables, changes in interest due to volume and rate were determined as follows:

Volume change in volume multiplied by the previous period's rate.

Rate change in the rate multiplied by the previous period's volume.

Table of Contents

The change in interest due to both volume and rate has been allocated to volume and rate changes in proportion to the relationship of the absolute dollar amounts of the change in each.

Table of Contents

Net interest income increased \$16.7 million to \$82.7 million for the year ended December 31, 2017 as compared to \$66.0 million for the year ended December 31, 2016. The overall increase in net interest income was primarily due to a higher volume and yield on interest-earning assets. Factoring receivables interest income increased \$8.1 million or 23.1% to \$43.0 million for the year ended December 31, 2017 from \$34.9 million for the same period ended December 31, 2016. In addition, commercial and consumer loans increased \$7.7 million or 24.7% to \$39.0 million from \$31.3 million. Crestmark management believes these increases are the result of efforts by Crestmark over the period in question to expand its factoring and lending businesses, including investments in personnel, and improved economic conditions for Crestmark's customer base. These increases were offset by a 30 basis point increase in the cost of interest-bearing liabilities primarily due to increased volume and rates associated with originated and brokered certificates of deposit.

Net interest income increased \$2.5 million to \$66.0 million for the year ended December 31, 2016 as compared to \$63.5 million for the year ended December 31, 2015. The overall increase in net interest income was primarily due to a higher volume of interest-earning assets, particularly commercial and consumer loans, factoring receivables and leases, offset in part by a decrease in yield of 0.56% on interest-earning assets and an 18 basis point increase in the cost of interest-bearing liabilities. In addition, due to competitive factors within the industry, lease yield decreased from 9.68% to 8.00% from 2015 to 2016.

Total non-interest income	\$ 58,552	\$ 46,711	\$ 11,841	25.3%

Non-interest income increased \$11.8 million, or 25.3%, for the year ended December 31, 2017 compared to the year ended December 31, 2016. This increase was nearly entirely due to the increase in rental income from equipment on operating leases. Rental income from equipment on operating leases increased \$11.5 million due to the continued growth in average balances related to lease equipment. Average lease equipment balances increased \$22.1 million or 26.5% to \$105.5 million as of December 31, 2017 from \$83.3 million for the year ended December 31, 2016. In addition, depreciation expense on equipment on operating leases included in non-interest expense increased 26.8%, consistent with the increase in rental income. The decrease in the net (loss) gain on sale of leases and off lease equipment of \$1.0 million was due to a recognized loss during the year ended December 31, 2017 of \$2.5 million from equipment returned and repossessed from a borrower that was subsequently sold at a loss. Lastly, other income increased \$1.5 million or 209.0% due to building rental income charged to lessors from the purchase of the main office building of Crestmark in Troy, Michigan in 2017 and an increase in late charges, over-advance and wire fees to loan customers throughout the year based on volume increases.

Non-interest income increased \$18.6 million, or 66.2%, for the year ended December 31, 2016 compared to the year ended December 31, 2015. This increase was primarily due to the increases in rental income from equipment on

operating leases and gains on sale of government guaranteed loans. Proceeds from sales of government guaranteed loans increased from \$28.7 million in 2015 to \$60.1 million in 2016, resulting in an increase of \$1.9 million in the related gains on sale for the year ended December 31, 2016 as compared to the year ended December 31, 2015. Rental income from equipment on operating leases increased \$16.6 million from 2015 to 2016 due to continued growth in average balances related to lease equipment. Average lease equipment balances increased \$42.9 million or 105.9% to \$83.3 million for the year ended December 31, 2016 from \$40.5 million as of December 31, 2015. Crestmark management believes increases in rental income primarily result from Crestmark's efforts to invest in and expand its leasing business since 2014.

Non-interest expense increased \$17.6 million, or 20.5%, for the year ended December 31, 2017 compared to the year ended December 31, 2016. The primary contributor to the change in non-interest expense relates to a \$7.9 million, or 26.8%, increase in depreciation on equipment on operating leases that directly relates to the increase in demand and lease contracts entered into by Crestmark and its customers during the year ended December 31, 2017. As noted above in the non-interest income discussion, average balances of leases outstanding increased approximately 26.5% for 2017 as compared to 2016, which directly correlates to the increase in depreciation expense on operating leases. The second largest contributor to the increase in non-interest expense relates to a \$4.9 million, or 12.3%, increase in salaries and employee benefits as the number of full-time equivalent employees increased to 333 at December 31, 2017 from 299 at December 31, 2016. Lastly, servicing fee paid to minority partner increased by approximately \$2.0 million, or 115.5% for 2017 as compared to 2016. This fee represents amounts paid to joint venture partners that service loans and leases on behalf of Crestmark whereby the minority partner is paid a servicing fee based on either balances outstanding or revenue generated throughout the year.

The primary contributor to the change in non-interest expense relates to a \$13.0 million, or 79.2%, increase in depreciation on equipment on operating leases that directly relates to the increase in demand and lease contracts entered into by Crestmark and its customers during the year ended December 31, 2016. As noted above in the non-interest income section, average balances of leases outstanding increased 105.9% which in turn, correlates to the increase in depreciation expense on equipment on operating leases above. Additionally, salaries and employee benefits increased \$1.3 million, or 3.2%, as the number of full-time equivalent employees increased to 299 at December 31, 2016 from 284 at December 31, 2015. Lastly, servicing fee paid to minority partner increased by \$1.3 million, or 241.7%, for 2016 as compared to 2015.

Table of Contents**Income Taxes**

For each of the years in the three-year period ended December 31, 2017, there has been a decline in Crestmark's effective tax rate relative to the prior year. Crestmark reported income tax (benefit) expense of (\$2.0) million in 2017, \$2.6 million in 2016, and \$5.4 million in 2015. This resulted in an effective tax rate of (7%), 11%, and 25% for the years ended December 31, 2017, 2016, and 2015, respectively. The decline in the effective tax rate in 2017 as compared to 2016 was primarily the result of an income tax benefit recorded due to the re-measurement of the net deferred tax liability. This re-measurement during 2017 approximated \$5.7 million and was based upon the enactment of a change in the federal corporate tax rate from 35% to 21% by the TCJA. In addition, Crestmark has invested in energy related tax credits each of the past three years, which further reduced the effective tax rate.

FINANCIAL CONDITION**Balance Sheet**

Total assets increased \$305.2 million, or 33.6%, from \$908.2 million at December 31, 2016 to \$1.2 billion as of December 31, 2017. Total securities increased \$7.6 million, or 37.4%, at December 31, 2017 from December 31, 2016, reflecting an allocation of excess funds to earning assets while maintaining access to liquidity. Loans, leases and receivables net of the allowance increased \$205.5 million, or 30.4%, to \$882.2 million at December 31, 2017 from \$676.7 million at December 31, 2016. When comparing December 31, 2017 and December 31, 2016 loan types, the largest change was an increase in lease receivables of \$82.2 million to \$201.4 million at December 31, 2017 from \$119.1 million at December 31, 2016. In addition, commercial loans increased \$71.1 million to \$334.0 million at December 31, 2017 from \$262.9 million at December 31, 2016. Increases in both leases and commercial loans represented 74.6% of the increase in loans, leases and receivables, net of allowance for the year ended December 31, 2017. Lease equipment inventory increased by \$11.2 million, or 124.6%, at December 31, 2017 as compared to \$9.0 million at December 31, 2016, in conjunction with the overall growth in Crestmark's leasing business. Lease equipment inventory consists of both equipment inventory purchased by Crestmark Bank for future transfer to direct-financing, sales-type, and operating leases and equipment, net as well as lease equipment inventory returned to Crestmark Bank after lease termination. Premises, leasehold improvements, net increased \$17.6 million at December 31, 2017 from \$1.0 million at December 31, 2016 as Crestmark purchased its headquarters building in Troy, Michigan for \$15.6 million in July 2017. The additional increase was due to furniture and equipment purchases at various locations, due to growth at Crestmark. Lastly, acquired lease residuals decreased \$11.6 million to \$2.9 million at December 31, 2017 from \$14.5 million at December 31, 2016. The decrease was due to the acquired assets coming off lease and Crestmark Bank liquidating or re-leasing the assets.

During the year ended December 31, 2017, Crestmark management continued to fund loan growth with both originated and brokered certificates of deposits. Certificates of deposit increased by \$299.6 million, or 41.7%, from \$719.2 million at December 31, 2016 to \$1.0 billion as of December 31, 2017. From December 31, 2016 to December 31, 2017, federal funds purchased decreased \$30.0 million as Crestmark Bank increased its reliance on brokered and originated certificate of deposits for funding. Additionally, other borrowings increased \$12.0 million from December 31, 2016 to December 31, 2017 as Crestmark entered into an agreement with another financial institution in 2017 to provide additional liquidity and capital for Crestmark Bancorp, Inc. and Crestmark Bank to continue and support loan and lease growth, as well as pay-off the perpetual preferred stock associated with the Small Business Lending Fund program in March 2017.

Total stockholders' equity increased by \$21.9 million, or 23.8%, from \$92.0 million to \$113.9 million for the years ending December 31, 2017 and 2016, respectively. The increase was due primarily to an increase in net income and the redemption of \$8.25 million of preferred stock.

Table of Contents**Securities**

The following table sets forth the amortized cost and fair value of Crestmark's securities, by type of security, for the dates indicated below:

Crestmark maintains a diversified securities portfolio, which includes obligations of U.S. treasury and federal agency, municipal bonds, residential mortgage-backed securities, and corporate securities. Crestmark regularly evaluates asset/liability management needs and attempts to maintain a portfolio structure that provides sufficient liquidity and cash flow. Crestmark believes that the unrealized losses on securities available for sale are temporary in nature and are expected to be recovered within a reasonable time period. Crestmark has the ability to hold securities with unrealized losses to maturity or until such time as the unrealized losses reverse.

The portfolio of securities available for sale is reviewed quarterly for impairment in value. In performing this review, Crestmark management considers (1) the length of time and extent that fair value has been less than cost, (2) the financial condition and near term prospects of the issuer, (3) the impact of changes in market interest rates on the market value of the security and (4) an assessment of whether Crestmark intends to sell, or it is more likely than not that Crestmark will be required to sell, a security in an unrealized loss position before recovery of its amortized cost basis. For securities that do not meet these recovery criteria, the amount of impairment recognized in earnings is limited to the amount related to credit losses, while impairment related to other factors is recognized in other comprehensive income (loss).

Available for sale investment securities totaled approximately 2% of Crestmark's total assets at December 31, 2017. Crestmark management believes that the maturities of those investment securities is not material to the balance sheet nor significant to an understanding of Crestmark's financial condition.

Loan Portfolio

Loans are the largest component of Crestmark's interest-earning assets. The proper management of credit and market risk inherent in the loan portfolio is critical to Crestmark's financial well-being. To control these risks, Crestmark has adopted strict underwriting standards which include established and authorized credit limits, attentive portfolio management, use of lock box arrangements, verification of receivables and inventory, and in many instances, Crestmark receiving and controlling the borrowers' cash receipts.

Crestmark also monitors and limits loan concentrations to specific industries. While Crestmark's customers are diversified with respect to industry, as of December 31, 2017 approximately 35% of loans, leases and receivables were to customers in the truck transportation, merchant wholesalers and durable goods, administrative support services, and support activities for transportation. There were no concentrations greater than 10% of total loans that are not disclosed as a separate category in the following table.

The following portfolio segments have been identified:

Commercial loans: Crestmark's commercial loans are primarily asset-based lending agreements secured by debtor's short-term assets such as inventory, accounts receivable, and work-in-process. Commercial loans may also be secured by real estate and equipment.

Table of Contents

Consumer loans: Crestmark's consumer loan portfolio is primarily comprised of loans to individuals for medical services received. The majority of these loans are guaranteed by the hospital providing the service to the debtor and this guarantee serves to reduce credit risk as the guarantors agree to repurchase severely delinquent loans. Credit risk is minimized on these loans based on the guarantor's repurchase agreement.

Leases: Crestmark's lease portfolio is primarily comprised of leases on high-tech equipment, information systems hardware, capital equipment and durable goods, and vehicles such as automobiles and tractors. Beginning in 2016, Crestmark shifted its focus to middle market companies specializing in capital equipment and durable goods.

Factoring receivables: Crestmark's factoring clients provide detailed inventory, accounts receivable, and work-in-process reports for lending arrangements. With these loans, Crestmark withholds a contingency reserve which is the difference between the fair value of the invoice amount and the amount advanced. This reserve is withheld for nonpayment of factored receivables, service fees and other adjustments.

Table of Contents**Asset Quality**

The following table sets forth information regarding Crestmark's non-performing assets, accruing restructured loans, levels of the allowance for credit losses, and certain ratios associated with these amounts (dollars in thousands):

Allowance for credit losses to non-performing loans	158.30%	263.35%	146.90%	119.22%	108.82%

Non-performing loans consist of non-accrual loans and loans 90 days or greater past due but still accruing. Crestmark management continuously monitors the loans, leases and receivables for credit risk by analyzing relevant information about the borrower's ability to service their debt such as: current financial information, historical payment performance, repayment probability based on the liquidation value of the collateral pledged, credit documentation, and current economic trends and other relevant factors. While improvements in the overall economy have been evident in the last five years, Crestmark management believes future performance of the portfolio may be limited by macroeconomic events such as continued increases to interest rates that could adversely affect Crestmark's totals for non-performing assets.

Loans, leases and receivables that may not be able to service the debt instruments in accordance with the loan agreements are placed under close management supervision. These loans are assessed for non-accrual status and adjustments to the allowance for credit losses. Should a loan be placed on non-accrual status, any interest previously accrued but not yet collected is reversed against interest income in the current year. Payments received on non-accrual loans are generally accounted for on the cash-basis or cost recovery method until qualifying for return to accrual status.

Borrowers that are unable to have their loan returned to accrual status generally proceed toward foreclosure and ultimate repossession of collateral. These assets are initially recorded at the fair value, less costs to sell, when acquired, establishing a new cost basis. The valuation of reposessed assets is evaluated regularly to ensure the recorded amount is supported by its current fair value. If the fair value of the asset declines, a valuation allowance is recorded in the consolidated statement of income.

Year-end non-performing assets, which include non-accrual loans, loans 90 days or more past due, renegotiated debt, non-accrual securities, and other real estate owned, increased \$0.9 million, or 11.7%, from December 31, 2016 to December 31, 2017. Non-performing assets as a percent of total assets at year-end decreased from 0.85% in 2016 to 0.71% in 2017.

Table of Contents**Risk Category of Loans**

Crestmark regularly analyzes the loan, leases and receivables and assigns certain risk grades as further described in Note 4 of the consolidated financial statements of Crestmark included in this joint proxy statement/prospectus. (1) Balance is gross of contingency reserve

Risk rating categories of special mention and substandard loans, leases and receivables totaled \$213.6 million at December 31, 2017, up from \$132.6 million, or 61.0%, at December 31, 2016. The primary reason for this increase was the inclusion of \$56.4 million of leases in special mention due to naturally occurring growth in the lease portfolio as well as Crestmark's efforts to diversify from Fortune 1000 technology sector leases to more collateral reliant, equipment-based leases to middle market customers. Crestmark Equipment Finance (CEF) experienced the majority of the growth in lease balances in 2017.

Crestmark's internal monitoring mechanism does not reflect any specific weakness in these lease transactions but is used to monitor and identify this new customer base. These equipment leases originated at CEF have been underwritten to standards that would result in a pass classification in the Corporation's non-lease portfolio. Performance is monitored and measured by the same qualifying pass standards. Crestmark management has implemented a rigorous credit monitoring program for all loans and leases including the use of lock box agreements with borrowers to control customer cash receipts, attentive portfolio management, and established credit limits for borrowers. All special mention loans and leases were performing as of December 31, 2017.

Special mention and substandard loans, leases and receivables decreased \$5.8 million, or 4.2%, from \$138.4 million at December 31, 2015 to \$132.6 million at December 31, 2016. This decrease was attributable to the continued positive economic growth noted in Crestmark's targeted industries of lending focus.

Allowance for Credit Losses

The viability of any financial institution is ultimately determined by its management of credit risk. Loans represent Crestmark's single largest concentration of risk. The allowance for credit losses is Crestmark's estimation of incurred losses within the existing loan and lease portfolio. Crestmark allocates the allowance for credit losses throughout the loan and lease portfolio based on its assessment of the underlying risks associated with each loan segment. Crestmark's assessments include allocations based on specific impairment valuation allowances, historical charge-offs, internally assigned credit risk ratings, and past due and non-accrual balances. A portion of the allowance for credit losses is not allocated to any one loan segment, but is instead a reflection of other qualitative risks that reflects the margin of imprecision inherent in the underlying assumptions used in the methodologies for estimating specific and general losses in the portfolio.

Net charge-offs of \$7.1 million were recorded during the year ended December 31, 2017 compared to net charge-offs of \$3.8 million for the year ended December 31, 2016. During 2017, following several years of favorable charge-off performance, Crestmark Bank incurred higher than average historical charge-off activity as a result of three large accounts; one as a result of customer fraud and two from the inherent risk associated with these credits. These three charge-offs in 2017 equated to approximately 70% of the total charge-offs for the year. As Crestmark Bank asset size increases, the average loan and lease dollar amount continues to increase as well for certain segments of the portfolio. Crestmark Bank continues to diversify and expand its portfolio into larger commercial loans secured by inventory across the United States. These loans and leases are inherently more risky, due to the collateral securing these credits. As credits do experience charge-offs, and the corresponding average loan size increases, the charge-offs will tend to increase as well. However, the higher yields that are earned by Crestmark Bank on the leases are used to offset and compensate for the additional risk on these credits. Crestmark management believes the ratio of net charge-offs to average loans of 0.92% for fiscal year 2017 is well-within acceptable parameters.

A provision for credit losses of \$7.3 million was recorded during 2017 as compared to \$4.4 million during 2016. This increase in provision for credit losses was primarily associated with the increase in the overall balance of the loan portfolio and to compensate for the aforementioned increased charge-offs in 2017.

Net charge-offs of \$3.8 million were recorded during the year ended December 31, 2016 compared to net charge-offs of \$434,000 for the year ended December 31, 2015. During 2016, the bank had one large charge-off in the amount of \$1.3 million, which was subsequently collected in full and included in recoveries as of December 31, 2017. A provision for credit losses of \$4.4 million was recorded during 2016 as compared to \$47,000 during 2015. This increase in provision for credit losses was primarily associated with the increase in the overall balance of the loan portfolio.

In each period, the provision for loan losses in Crestmark's statement of operations is derived from the combination of an estimate by Crestmark of loan and lease losses that occurred during such period and the ongoing adjustment of prior estimates of losses.

The provision for credit losses increases the allowance for credit losses, a valuation account which appears on Crestmark's consolidated statements of condition. As the specific customer and amount of a loan loss is confirmed, including by gathering additional information and taking collateral in full or partial settlement of the loan, and bankruptcy of the borrower, the loan is charged off, reducing the allowance for loan losses. If, subsequent to a charge off, Crestmark Bank is able to collect additional amounts from the customer or sell collateral worth more than earlier estimated, a recovery is recorded.

At December 31, 2017, the allowance for credit losses of \$10.4 million consisted of general reserves of \$9.2 million and specific reserves on \$1.2 million of individually evaluated impaired loans of \$19.3 million. At December 31, 2016, the allowance for credit losses of \$10.2 million consisted of general reserves of \$8.9 million and specific reserves on \$1.3 million of individually evaluated impaired loans of \$24.8. For further discussion on the allocation of the allowance for loan and lease losses, see Note 4 of the audited consolidated financial statements of Crestmark included in this joint proxy statement/prospectus.

Although Crestmark management believes the general and specific components of the allowance for credit losses have been measured in accordance with U.S. GAAP, actual losses are ultimately dependent upon future events and, as such, further provision for credit losses may become necessary.

Source of Funds

Crestmark's ability to fund operations, meet depositor withdrawals, meet loan demand, and to meet maturing obligations and existing commitments depends on the cash flows generated from operations. Certificates of deposits, borrowings, loan and investment repayments and payments, and proceeds from the sale of securities and loans are the

primary sources of funds for Crestmark. Crestmark continually monitors its cash position and borrowing capacity as part of its liquidity management process.

Crestmark has the ability to borrow from the Federal Reserve Bank and through various correspondent banks in the form of federal funds purchased lines of credit. These funding sources require Crestmark to pledge assets, typically in the form of available for sale securities or loans as collateral. As of December 31, 2017, Crestmark had available lines of credit of \$152.0 million.

Other borrowings represents both a term loan and a line of credit with another financial institution, of which the bank had \$5.0 million outstanding on the term loan and \$7.0 million drawn on a \$10.0 million line of credit. Additional information on funding sources is included in Notes 12 and 13 of the consolidated financial statements of Crestmark included in this joint proxy statement/prospectus.

Table of Contents**Contractual Obligations**

Crestmark has various financial obligations that may require future cash payments. The ability to generate sufficient liquidity to fund these obligations is primarily dependent upon Crestmark management being able to purchase funds at favorable rates. Additional sources of liquidity available to Crestmark include, but are not necessarily limited to, loan payments received, sales of investment securities, and borrowings on established lines of credit. The following table presents, as of December 31, 2017, significant fixed and determinable contractual obligations to third parties by payment date (dollars in thousands):

Off-Balance Sheet Financing Arrangements

At December 31, 2017, Crestmark had available balances on lines of credit of \$363,631 and standby letters of credit of \$1,613. For discussion of Crestmark's off-balance sheet financing arrangements, see Note 11 of Notes to Audited Consolidated Financial Statements, beginning on page F-8. Depending on the extent to which the commitments or contingencies described in Note 11 occur, the effect on Crestmark's capital and net income could be significant.

Capital Ratios

Banks and bank holding companies are subject to regulatory capital requirements administered by federal banking agencies. Capital adequacy guidelines and, additionally for banks, prompt corrective action regulations, involve quantitative measures of assets, liabilities, and certain off-balance-sheet items calculated under regulatory accounting practices. Capital amounts and classifications are also subject to qualitative judgments by regulators. Failure to meet capital requirements can initiate regulatory action. The final rules implementing Basel Committee on Banking Supervision's capital guidelines for U.S. banks (Basel III rules) became effective for Crestmark Bank on January 1, 2015 with full compliance with all of the requirements including a capital conservation buffer being phased in over a multi-year schedule, and fully phased in by January 1, 2019. The capital conservation buffer is being phased in from 0.00% in 2015 to 2.50% by 2019.

The net unrealized gain or loss on available for sale securities is not included in computing regulatory capital. Under the Basel III capital requirements, in order to be considered well-capitalized, Crestmark Bank must have a common equity tier 1 (CET1) ratio of 7.0%, a Tier 1 ratio of 8.5%, a total risk-based capital ratio of 10.5% and a leverage ratio of 5.0%. When fully phased in on January 1, 2019, the Basel III Capital Rules would require Crestmark to maintain the following:

A minimum ratio of CET1 to risk-weighted assets of at least 4.5%, *plus* a 2.5% capital conservation buffer (resulting in a minimum ratio of CET1 to risk-weighted assets of at least 7% upon full implementation).

A minimum ratio of Tier 1 capital to risk-weighted assets of at least 6.0%, *plus* the capital conservation buffer (resulting in a minimum Tier 1 capital ratio of 8.5% upon full implementation).

A minimum ratio of total capital (Tier 1 capital *plus* Tier 2 capital) to risk-weighted assets of at least 8.0%, *plus* the capital conservation buffer (resulting in a minimum total capital ratio of 10.5% upon full implementation).

A minimum leverage ratio of 5%, calculated as the ratio of Tier 1 capital to average assets.

Crestmark management believes that, as of December 31, 2017, Crestmark Bank met all capital adequacy requirements to which they are subject. There are no significant regulatory constraints placed on Crestmark Bank's capital. The following sets forth the actual and required capital amounts and ratios (dollars in thousands):

Prompt corrective action regulations provide five classifications: well capitalized, adequately capitalized, undercapitalized, significantly undercapitalized, and critically undercapitalized, although these terms are not used to represent overall financial condition. If adequately capitalized, regulatory approval is required to accept brokered deposits. If undercapitalized, capital distributions are limited, as is asset growth and expansion, and capital restoration plans are required. At December 31, 2017 and December 31, 2016, the most recent regulatory notifications categorized Crestmark Bank as well capitalized under the regulatory framework for prompt corrective action.

For additional information regarding Crestmark Bank's Regulatory Matters, see Note 15 of the Notes to Consolidated Financial Statements included in this joint proxy statement/prospectus.

Quantitative and Qualitative Market Risk Disclosures

Crestmark's primary market risks are interest rate risk and liquidity risk. There is limited foreign exchange risk within Crestmark's loan portfolio. Any changes in foreign exchange rates or commodity prices would not have a significant impact on Crestmark's interest income or cash flows.

Crestmark, like other financial institutions, is subject to direct and indirect market risk. Direct market risk exists from changes in interest rates. Crestmark's net income is significantly dependent on its net interest income. Net interest income is susceptible to interest rate risk to the degree that interest-bearing liabilities mature or reprice on a different

basis than interest-earning assets. When interest-bearing liabilities mature or reprice more quickly than interest-earning assets in a given period, a significant increase in market rates of interest could adversely affect net interest income. Similarly, when interest-earning assets mature or reprice more quickly than interest-bearing liabilities, falling interest rates could result in a decrease in net income. Interest rate risk (IRR) is the fundamental method by which financial institutions earn income and create shareholder value. Excessive exposure to IRR could pose a significant risk to Crestmark Bank's earnings and capital.

Table of Contents

In order to manage its exposure to changes in interest rates, Crestmark management closely monitors Crestmark's interest rate risk. One component of the monitoring process is performing a net interest income analysis. A net interest income analysis measures the change in net interest income over a one-year period in the event of a hypothetical change in interest rates. This analysis assesses the risk of change in net interest income in the event of a sudden and sustained increase or decrease in increments of 100 basis points.

Key assumptions in the simulation analysis include prepayments on loans, probable calls of investment securities, changes in market conditions, loan volumes and loan pricing, deposit sensitivity, and customer preferences. These assumptions are inherently uncertain as they are subject to fluctuation and revision in a dynamic environment. The assumptions used in the interest rate sensitivity analysis are inherently uncertain and, as a result, the simulations cannot precisely measure net interest income or precisely predict the related changes in net interest income. Actual results will differ from simulated results due to timing, magnitude and frequency of interest rate changes as well as changes in market conditions and management strategies.

The table below presents projected changes in net interest income for the various rate shock levels at December 31, 2017 and December 31, 2016.

DESCRIPTION OF META CAPITAL STOCK

As a result of the merger, Crestmark shareholders that receive shares of Meta common stock in the merger will become stockholders of Meta. Meta stockholders' rights will be governed by Delaware law, Meta's certificate of incorporation, Meta's by-laws and federal law governing bank holding companies, in each case, as may be amended and in effect from time to time. We urge all Meta stockholders to read the applicable provisions of Delaware law, Meta's certificate of incorporation, Meta's by-laws and federal law governing bank holding companies carefully and in their entirety. Copies of Meta's certificate of incorporation and Meta's by-laws have been filed with the SEC. To find out where copies of these documents can be obtained, see [Where You Can Find More Information](#).

General

Under Meta's certificate of incorporation, Meta's authorized capital stock consists of 30,000,000 shares of common stock, par value \$0.01 per share, 3,000,000 shares of nonvoting common stock, par value \$0.01 per share, and 3,000,000 shares of preferred stock, par value \$0.01 per share (Meta preferred stock). As of the Meta record date, there were 9,699,591 shares of Meta common stock issued and outstanding, and no shares of Meta nonvoting common stock or Meta preferred stock were issued or outstanding. In addition, as of the Meta record date, 812,001 shares of Meta common stock were reserved for issuance upon exercise of stock options and vesting of other awards under Meta's equity compensation plans.

Common Stock

Meta common stock is currently traded on the NASDAQ Global Select Market under the symbol CASH. Each share of Meta common stock has the same relative rights and is identical in all respects with each other share of Meta common stock, except that Meta nonvoting common stock only has those voting rights required by the DGCL. Each share of Meta nonvoting common stock will automatically convert into one share of Meta common stock only in the event of a Permitted Transfer (as defined in Meta's certificate of incorporation) to a transferee. Meta common stock represents non-withdrawable capital, is not of an insurable type and is not insured by the Federal Deposit Insurance Corporation.

Except with respect to the nonvoting common stock, each holder of Meta common stock is entitled to one vote for each share held on all matters voted upon by Meta stockholders, subject to the restrictions on acquisitions of stock and related takeover defensive provisions set forth in Meta's certificate of incorporation and Meta's by-laws summarized below.

Liquidation or Dissolution. In the event of the liquidation or dissolution of Meta, the holders of Meta common stock are entitled to receive after payment or provision for payment of all debts and liabilities of Meta (including all deposits in MetaBank and accrued interest thereon) and after the distribution to certain eligible account holders who continue their deposit accounts at MetaBank all assets of Meta available for distribution, in cash or in kind. If Meta issues preferred stock, the holders thereof may have a priority interest over the holders of Meta common stock in the event of liquidation or dissolution.

No Preemptive Rights. Holders of Meta common stock are not entitled to preemptive rights with respect to any shares of Meta common stock which may be issued. Meta common stock is not subject to call for redemption, and each outstanding share of Meta common stock is fully paid and nonassessable.

Dividends. Meta's board of directors (or an authorized committee thereof) has the power to declare dividends from time to time as permitted by applicable law. Subject to limitations under the laws of the State of Delaware and

preferences that may apply to outstanding shares of Meta preferred stock, holders of Meta common stock are entitled to receive ratably dividends declared by Meta's board of directors out of funds legally available therefor. The ability to pay dividends depends on the amount of dividends paid to Meta by MetaBank. Meta's

Table of Contents

payment of dividends, and MetaBank's payment of dividends to Meta, are subject to government regulation, in that regulatory authorities may prohibit banks and their holding companies from paying dividends in a manner that would constitute an unsafe or unsound banking practice or would reduce the amount of its capital below that necessary to meet minimum applicable regulatory capital requirements. In addition, under the Dodd-Frank Act and Federal Reserve regulations, a bank holding company is required to serve as a source of financial and managerial strength to its subsidiary banks and may not conduct its operations in an unsafe or unsound manner. Under these requirements, the holding company may be required to contribute additional capital to an undercapitalized subsidiary bank. This additional capital may be required at times when the holding company may not have the resources to provide such support. The board of directors may fix a record date, which shall not be more than 60 days prior to the date on which a dividend is to be paid, for determining stockholders entitled to receive payment of such dividend, provided that if no record date is fixed by the board of directors in connection with the declaration of a dividend, the record date shall be at the close of business on the day on which the board of directors adopts a resolution declaring such dividend.

Dividend Restrictions-Meta. Meta, a Delaware corporation and savings and loan holding company, is regulated by the Federal Reserve. The Federal Reserve has issued a policy statement on the payment of cash dividends by financial institution holding companies, which expresses its view that such companies should pay cash dividends only to the extent that its net income for the past year is sufficient to cover both the cash dividends and a rate of earnings retention that is consistent with the holding company's capital needs, asset quality and overall financial condition. The Federal Reserve also indicated that it would be inappropriate for a company experiencing serious financial problems to borrow funds to pay dividends. Furthermore, a holding company may be prohibited from paying any dividends if the holding company's bank subsidiary is not adequately capitalized. Delaware law also imposes restrictions on the payment of dividends that may prohibit Meta from paying dividends under certain circumstances.

Dividend Restrictions-MetaBank. Federal regulations govern the permissibility of capital distributions by MetaBank, as a federal savings association. Pursuant to the Dodd-Frank Act, savings associations that are part of a savings and loan holding company structure must now file a notice of a declaration of a dividend with the Federal Reserve at least 30 days before the proposed dividend declaration by MetaBank's board of directors. In the case of cash dividends, OCC regulations require that federal savings associations that are subsidiaries of a stock savings and loan holding company must file an informational copy of that notice with the OCC at the same time the notice is filed with the Federal Reserve. OCC regulations further set forth the circumstances under which a federal savings association is required to submit an application or notice before it may make a capital distribution. Each of the Federal Reserve and OCC have primary reviewing responsibility for the applications or notices required to be submitted to them by savings associations relating to a proposed distribution. The OCC's regulations set forth separate, enumerated factors for a savings bank to determine whether it must file a notice or an application in connection with a proposed capital distribution. Under current OCC regulations, MetaBank is also restricted from paying dividends on its stock if such dividends would cause its regulatory capital to fall below the amount required for the liquidation account established to provide a limited priority claim to the assets of MetaBank to qualifying depositors at March 31, 1992.

Unissued Stock. The authorized but unissued and unreserved shares of Meta common stock are available for general corporate purposes including, but not limited to, possible issuance as stock dividends or stock splits, in future mergers or acquisitions, under a cash dividend reinvestment and stock purchase plan, in a future underwritten or other public offering or under an employee stock ownership plan. Except as described above, or as otherwise required to approve the transaction in which the additional authorized shares of Meta common stock would be issued, no stockholder approval will be required for the issuance of these shares of Meta common stock. The board of directors of Meta, without stockholder approval, can issue preferred stock with voting and conversion rights which could adversely affect the voting power of the holders of Meta common stock.

Transfer Agent. Meta's transfer agent for the common stock is Computershare Trust Company, N.A.

Certain Restrictions on Acquisitions of Stock and Related Takeover Defensive Provisions. The following discussion is a general summary of certain material provisions in Meta's certificate of incorporation and Meta's by-laws and certain provisions of the DGCL, which may be deemed to have an anti-takeover effect and could potentially discourage or even prevent a bid for Meta, which might otherwise result in stockholders receiving a premium for their stock.

Meta's certificate of incorporation:

provides that Meta's board of directors will be divided into three classes, with directors in each class elected for three-year staggered terms. With seven directors currently serving on the board of directors of Meta (without giving effect to the transactions contemplated by the merger agreement), it would take two annual elections to replace a majority of the board of directors. The size of Meta's board of directors may be increased or decreased only by a majority vote of the board of directors and any vacancy occurring on the board of directors, including a vacancy created by an increase in the number of directors, shall be filled for the remainder of the unexpired term by a majority vote of the directors then in office. Meta stockholders do not have cumulative voting rights in the election of directors and a director may only be removed for cause by the affirmative vote of 75% of the shares of stock eligible to vote. Meta's by-laws impose certain notice and information requirements in connection with the nomination by stockholders of candidates for election to the board of directors or the proposal by stockholders of business to be acted upon at an annual meeting of stockholders.

establishes that any action required or permitted to be taken by Meta stockholders must be effected at a duly called annual or special meeting of stockholders and may not be effected by any consent in writing by such stockholders. Meta's certificate of incorporation further provides that a special meeting of Meta stockholders may be called only pursuant to a resolution adopted by a majority of the board of directors.

currently authorizes the issuance of 3,000,000 shares of Meta preferred stock, none of which are outstanding. Meta's board of directors is authorized by Meta's certificate of incorporation to issue shares of Meta preferred stock from time to time in one or more series subject to applicable provisions of law. In the event of a proposed merger, tender offer or other attempt to gain control of Meta that the Meta board of directors does not approve, it might be possible for the Meta board of directors to authorize the issuance of a series of Meta preferred stock with rights and preferences that would impede the completion of such a transaction.

provides that in no event shall any record owner of any outstanding common stock which is beneficially owned (pursuant to Rule 13d-3 promulgated under Securities Exchange Act of 1934, as amended (the Exchange Act)), directly or indirectly, by a person who beneficially owns in excess of 10% of the then-outstanding shares of Meta common stock (the Limit) be entitled or permitted to any vote in respect of the shares of Meta common stock held in excess of the Limit.

requires that amendments to Meta's certificate of incorporation be approved by a majority vote of the Meta board of directors and also by a majority of the outstanding shares of Meta voting common stock; except that approval by at least 75% of the outstanding shares of Meta voting common stock is generally required to approve amendments to certain provisions included in Meta's certificate of incorporation (i.e., provisions

relating to number, classification, election and removal of directors; amendment of bylaws; call of special stockholder meetings; offers to acquire and acquisitions of control; director liability; certain business combinations; power of indemnification; and amendments to provisions relating to the foregoing in Meta's certificate of incorporation).

provides that purchases by Meta of any of Meta's equity securities traded on a public exchange or system from a 5% or more stockholder must be approved by at least 75% of the total number of outstanding shares of Meta voting common stock (excluding any shares held by the proposed selling stockholder), unless such purchase is made (1) in connection with a tender or exchange offer applicable to all holders of the same securities, (2) under an open market purchase program approved by a

majority of the disinterested directors of Meta, or (3) at no more than the market price and with the approval of a majority of the disinterested directors of the board of directors of Meta.

requires that certain business combinations (as defined in Meta's certificate of incorporation) between Meta (or any majority-owned subsidiary thereof) and a 10% or more stockholder either (1) be approved by at least 75% of the total number of outstanding shares of Meta voting common stock, voting as a single class, (2) be approved by a majority of the disinterested directors of Meta or (3) involve consideration per share of stock generally equal to that paid by such 10% stockholder when it acquired its block of stock.

Restrictions on Business Combinations and Other Transactions

Meta. Since Meta has not opted out of the requirements of Section 203 of the DGCL, Meta is subject to certain restrictions with respect to transacting business with interested stockholders. Amendments to Certificate of Incorporation and By-Laws

Meta. Under the DGCL, a certificate of incorporation may be amended if: (i) the board of directors adopts a resolution setting forth the proposed amendment, declares the advisability of the amendment and directs that it be submitted to a vote at a meeting of stockholders (except that unless required by the certificate of incorporation, no meeting or vote is required to adopt an amendment for certain specified changes); and (ii) the holders of a majority of shares of stock entitled to vote on the matter approve the amendment, unless the certificate of incorporation requires the vote of a greater number of shares, and a class of stockholders has the right to vote separately as a class on an amendment to the corporation's certificate of incorporation, even if the certificate of incorporation does not provide such a right, if the amendment would: (i) increase or decrease the aggregate number of authorized shares of such class (unless the certificate of incorporation adopted prior to the

officer, partner, trustee, employee or agent of another corporation or other entity against all expenses (including attorneys' fees, judgments, fines, and amounts paid in settlement) actually and reasonably incurred by such person in connection with such action, suit, or proceeding, in each case, if the person acted in good faith in a manner that such person believed to be in or not opposed to the best interests of Crestmark or its shareholders and, with respect to a criminal action or proceeding, if such person had no reasonable cause to believe such person's conduct was unlawful.

Crestmark. Under the MBCA, an amendment to Crestmark's articles of incorporation must be proposed by the board of directors and approved by (unless the articles of incorporation provide for a higher voting requirement) the holders of a majority of the outstanding stock entitled to vote upon the proposed amendment and, if any class or series of shares is entitled to vote as a class, the approval of a majority of the outstanding shares of that class or series.

Under the MBCA, Crestmark's by-laws may be altered, amended or repealed by the affirmative vote of shareholders holding a majority of the votes cast by shareholders at a meeting at which the normal quorum requirements are met.

Crestmark's articles of incorporation provide that

issuance of any shares of such class of stock, or as amended with	amendment of certain provisions of Crestmark's articles of incorporation (including the provisions concerning the board of directors, shareholder action and amendment) require the approval of Crestmark shareholders holding at least 80% of the shares of

the affirmative vote of the holders of a majority of such class, permits such increase or decrease by only an affirmative vote of the holders of a majority of stock entitled to vote, as permitted under the Meta certificate of incorporation, as further described below); (ii) increase or decrease the par value of the shares of the class; or (iii) change the powers, preferences or special rights of the shares of such class so as to affect them adversely. If the powers, preferences or special rights of one or more series of a class but not the entire class are affected, only the shares of such series that would be affected will be considered a class for the purposes of such voting.

Under the DGCL, the stockholders entitled to vote have the power to adopt, amend or repeal bylaws. In addition, a corporation may, in its certificate of incorporation, confer such power upon the directors, but such conferral does not divest the stockholders of their power to adopt, amend or repeal the bylaws. Meta's certificate of incorporation provides that Meta's certificate of incorporation and Meta's by-laws may be amended only upon the affirmative vote of a majority of all of the directors or upon the affirmative vote of the holders of at least 75% of the outstanding shares of Meta voting common stock.

Crestmark common stock and any other securities entitled to vote generally in the election of directors. Crestmark's by-laws may be amended upon the approval of at least a majority of the entire board of directors and (i) with respect to certain provisions of Crestmark's by-laws (including the provisions concerning special meetings of shareholders, the general powers of the board of directors, the number, qualifications and term of office of directors, removal of directors and vacancies on the board of directors), the approval of Crestmark shareholders holding at least 80% of the shares of Crestmark common stock and any other securities entitled to vote generally in the election of directors and (ii) otherwise, the approval of a majority of votes cast by holders present in person or by proxy at a meeting with respect to such amendment.

Management s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor s Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor s judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity s preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Crestmark Bancorp, Inc. as of December 31, 2017 and 2016, and the results of its operations and its cash flows for each of the years in the three year period ended December 31, 2017 in accordance with accounting principles generally accepted in the United States of America.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations and Principles of Consolidation: The consolidated financial statements include Crestmark Bancorp, Inc. (CBI) and its majority owned subsidiaries, together referred to as the Corporation after the elimination of intercompany transactions and balances. Crestmark Bank (the Bank), a wholly owned subsidiary of CBI, owns 100% of Crestmark Financial Corporation (CFC), Crestmark Partner Services, Inc., Crestmark Commercial Capital Lending, LLC, Crestmark TPG, LLC, Crestmark Westgate, LLC, Crestmark Equipment Finance, Inc.(CEF), and 80% of CM HELP, LLC, Capital Equipment Solutions, LLC, CM TFS, LLC, CM Sterling, CM Southgate and CM Southgate II.

The Corporation provides working capital solutions through the Bank, which is headquartered in Troy, Michigan, with regional offices in Boynton Beach, Florida; Franklin, Tennessee; Baton Rouge, Louisiana; New York City, New York; Los Angeles, California; and Canada. The Bank also has sales production offices in various locations outside its regional offices. The Bank is a cashless bank and primarily derives its funding from certificates of deposit. Its primary lending products are commercial asset based loans, leases, and accounts receivable purchasing (factoring) both discount and traditional.

In 2004, the Bank entered into a venture with H.E.L.P. Financial Corporation (HELP), a Michigan hospital debt financing institution, to form CM HELP, LLC. The Bank holds an 80% majority interest in the entity and HELP owns 20%. The purpose of the transaction was to increase both investors' hospital financing portfolios. As part of the arrangement, HELP collects the payments on the loans and remits the Bank's portion via a correspondent bank lockbox. HELP and the Bank share equally in the profits from the venture. In 2011, the Bank entered into a venture, Capital Equipment Solutions, LLC, which originates equipment term loans. The Bank owns an 80% interest in the entity and shares profit or loss equally with its venture partners. In 2012, the Bank entered into three ventures, CM TFS, LLC, which originates high-tech equipment leases, CM Sterling which originates smaller-dollar factoring relationships, and CM Southgate which originates leases on automobiles, tractors, and tractor trailers. The Bank owns an 80% interest in each venture and shares profit or loss with its venture partners equally. In 2014, the Bank entered into a venture, CM Southgate II, which originates leases on automobiles, tractors, and tractor trailers. The Bank owns an 80% interest in the venture and shares profit or loss with its partners equally. During 2017, CM Southgate was liquidated and any remaining assets were merged into CM Southgate II, ownership and shares of profit or loss remains unchanged.

Use of Estimates: To prepare consolidated financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions based on available information. These estimates and assumptions affect the amounts reported in the consolidated financial statements and the disclosures provided, and actual results could differ.

Cash Flows: Cash and cash equivalents includes cash, deposits with other financial institutions under 90 days, and federal funds sold. Net cash flows are reported for loans, leases and receivables, leasehold improvements and equipment transactions, interest-bearing deposit transactions and federal funds purchased.

Subsequent Events: The Corporation has evaluated subsequent events for recognition and disclosure through March 19, 2018 which is the date the consolidated financial statements were available to be issued.

Securities Available for Sale: Securities are classified as available for sale when they might be sold before maturity. Securities available for sale are carried at fair value, with unrealized holding gains and losses reported in other comprehensive income (loss), net of income tax expense. Purchase premiums and discounts are recognized in interest income using the level-yield method without anticipating prepayments. Realized gains or losses on the sale of securities available for sale are recorded in noninterest income on the trade date and are determined using the specific identification method.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Management evaluates securities for other-than-temporary impairment (OTTI) on at least a quarterly basis, and more frequently when economic or market conditions warrant such an evaluation. For securities available for sale in an unrealized loss position, management considers the extent and duration of the unrealized loss, and the financial condition and near-term prospects of the issuer. Management also assesses whether it intends to sell, or it is more likely than not that it will be required to sell, a security in an unrealized loss position before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the entire difference between amortized cost and fair value is recognized as impairment in the consolidated statements of income. For securities available for sale that do not meet the aforementioned criteria, the amount of impairment is split into two components as follows: 1) OTTI related to credit loss, which must be recognized in the consolidated statements of income and 2) OTTI related to other factors, which is recognized in other comprehensive income (loss). The credit loss is defined as the difference between the present value of the cash flows expected to be collected and the amortized cost basis. In 2017, 2016 and 2015, there were no other-than-temporary impairment recorded.

Loans Originated for Sale: The Corporation originates commercial loans under government programs overseen by the United States Small Business Administration (SBA) and United States Department of Agriculture (USDA) and sells the guaranteed portion in the secondary market. Gains or losses on sales are recorded in gain on sale of government guaranteed loans in the consolidated statements of income. Loans originated and held for sale are carried at the lower of aggregate cost or fair value, as determined by outstanding commitments to investors. As of December 31, 2017 and 2016, the Bank serviced \$96,034,171 and \$71,985,756, respectively in outstanding principal balance of loans for others. The value of originated servicing rights at year-end 2017 and 2016 was immaterial to the Corporation.

Loans: Loans that management has the intent and ability to hold for the foreseeable future or until maturity or payoff are reported at the principal balance outstanding, net of deferred loan, lease and receivables fees and costs and an allowance for credit losses. Interest income is reported on the interest method and includes amortization of net deferred loan, lease and receivables fees and costs over the loan term using the level-yield method without anticipating prepayments.

Accounts Receivable Factoring: The Corporation withholds a contingency reserve which is the difference between the fair value of the invoice amount and the amount advanced. A contingency reserve is withheld for nonpayment of factored receivables, service fees and other adjustments. Interest income on factored receivables is recognized according to the terms set forth in each factoring agreement. Typically, factoring service fee revenue is recognized into income over specified time periods, until the receivable is paid. Revenue is calculated on the gross receivable.

When the factored receivable is collected, the Corporation remits to its client the contingency reserve that was withheld at the date of purchase, less recognized service fees and other adjustments. Shortfalls that cannot be recouped from the client are charged to the allowance for credit losses. The Corporation may elect to alter the foregoing fee

structure if the specific conditions warrant such action.

Leases: The Corporation accounts for each lease by either the direct financing, sales-type, or operating method (hereinafter referred to as accounting methods). Revenue, cost, and resulting profit are recognized during all of the periods within the lease term. The allocation of profit among the periods within a lease term will vary depending on which accounting method is applied.

For all types of leases, the determination of profit considers the estimated fair market value of the equipment at lease termination, commonly referred to as residual value. Residual values are estimated at the inception of the

lease. If subsequent to the date a lease is entered into, the Corporation determines that the residual will be less than the amounts originally estimated, a provision for write-downs of residuals will be recorded in the consolidated financial statements. There were no residual write downs in 2017, 2016 or 2015. To the extent the actual residual at termination of the lease is different from its carrying amount, a gain or loss will be recorded on the subsequent settlement of the residual asset.

Direct Financing and Sales-Type Leases: These leases transfer substantially all of the benefits and risks of equipment ownership to the lessee. Profit recognition under these two accounting methods is similar, except that the sales-type method recognizes dealer profit at inception.

Under the sales-type method, dealer profit is recognized at lease inception by recording revenue and costs. Revenue consists of the present value of the minimum lease payments. Cost consists of the equipment's carrying value plus initial direct costs, less the present value of its estimated residual value. Present value is determined using the interest rate implicit in the lease.

Direct financing and sales-type leases are carried at the present value of the future minimum lease payments, including guaranteed residual values, plus the present value of the estimated unguaranteed residual value of the equipment at the end of the lease term. Unearned income represents the difference between the gross future minimum lease payments receivable plus estimated residual values and the carrying value of direct financing and sales-type leases. In each period, unearned income is amortized and financing income is recognized as a constant percentage return based on the lease's carrying value.

Equipment on Operating Leases: Operating lease revenue consists of periodic payments on equipment rentals. The cost of equipment is recorded as leased assets and is depreciated on a straight-line method over the lease term to the Corporation's estimate of the fair market value of the equipment at lease termination. Operating lease revenue and depreciation expense are recorded on a straight-line method.

Lease Equipment Sales: Off-lease sales represents revenue from the sale of equipment previously on lease. Off-lease sales consist of both sales in place to the existing lessee and sales to third parties for equipment returned off lease. Sale of equipment off lease is recorded when title is transferred. Sale of equipment acquired for sale is recorded when shipped to the customer. Revenue and costs associated with the sale of lease equipment is included in noninterest income and noninterest expense on the consolidated statements of income.

Acquired Lease Residuals: The Corporation acquired a portfolio of lease residual assets in 2014. The balance at the acquisition was \$59,025,615 which was the estimated fair value of the leased assets at the termination of existing direct financing and sales-type or operating leases. Fair value was based on estimated post-lease cash flows including

post-lease rents, re-lease agreements and proceeds from the sale of the leased assets discounted to estimate fair value. Management evaluates acquired lease residuals for impairment with any impairment recorded as a charge to income in the consolidated statements of income. During 2016, a \$600,000 impairment charge was recorded. There was no impairment charge recorded in 2017 or 2015.

Income Recognition: Recognition of income on loans, leases and receivables is generally discontinued at the time the contract is 90 days delinquent unless the loan, lease or receivable is well-secured and in process of collection. Past due status is based on the contractual terms of the contract. In all cases, income recognition ceases and loans, leases or receivables are placed on nonaccrual or charged-off at an earlier date if collection of principal or interest is considered doubtful.

CRESTMARK BANCORP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Interest accrued but not received for loans, leases, and receivables placed on nonaccrual is reversed against interest income. Interest received on such loans, leases and receivables is accounted for on the cash-basis or cost-recovery method, until qualifying for return to accrual. Loans, leases and receivables are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

Concentrations of Credit Risk: Most of the Corporation's customers are drawn from throughout the United States. However, customers in 6 states; Texas, Michigan, California, Florida, Illinois, and Ohio comprise 65% of total loans, leases and receivables at year end 2017 with the largest state concentration being 17% in the state of Texas. The Corporation's customers are diversified with respect to industry but 35% of loans, leases and receivables outstanding at year end 2017 are to customers in the truck transportation, merchant wholesalers and durable goods, administrative support services, and support activities for transportation. Accordingly, the Corporation's exposure to credit risk is affected by changes in the economy affecting the geographic locations and industries within which its customers operate.

Allowance for Credit Losses: The allowance for credit losses is a valuation allowance for probable incurred credit losses related to loans, leases and receivables, increased by the provision for credit losses and decreased by charge-offs less recoveries. Management estimates the allowance balance required using past loss experience, the nature and volume of the portfolio, information about specific borrower situations and estimated collateral values, economic conditions, and other factors. Allocations of the allowance may be made for specific loans, leases and receivables, but the entire allowance is available for any loan, lease or receivable that, in management's judgment, should be charged-off.

Losses are charged against the allowance when management believes the uncollectibility of a loan, lease or receivable balance is confirmed. The allowance consists of specific and general components. The specific component relates to loans, leases or receivables that are individually classified as impaired. A loan, lease or receivable is impaired when full payment under the terms of the agreement is not expected. If a loan, lease or receivable is impaired, a portion of the allowance is allocated so that the loan, lease or receivable is reported, net, at the present value of estimated future cash flows using the asset's existing rate or at the fair value of collateral if repayment is expected solely from the collateral.

Large groups of smaller balance homogeneous loans, leases and receivables such as consumer loans are collectively evaluated for impairment, and accordingly, they are not separately identified for impairment disclosures unless classified as a troubled debt restructuring.

Troubled debt restructurings (TDRs) are loans, leases or receivables, the terms of which have been modified and a concession granted to debtors in financial difficulty. TDRs are impaired and are measured for impairment based on

the present value of estimated future cash flows using the contract's effective rate at inception. If a TDR is considered to be collateral dependent, impairment is measured based upon the fair value of the collateral. For TDRs that subsequently default, the Corporation determines the amount of reserve in accordance with the accounting policy for the allowance for credit losses on loans individually identified as impaired.

The general component covers all other loans, leases and receivables and is based on past loss experience adjusted for current factors that impact credit risk including consideration of the following: levels of and trends in delinquencies and impaired loans, leases and receivables; levels of and trends in charge-offs and recoveries; trends in volume and terms of loans, leases and receivables; effects of any changes in risk selection and underwriting standards; other changes in lending policies, procedures, and practices; experience, ability, and

depth of lending management and other relevant staff; national and local economic trends and conditions; industry conditions; and effects of changes in credit concentrations.

The following portfolio segments have been identified:

Commercial Loans: The Corporation's commercial loans are primarily asset based lending agreements secured by debtor's short-term assets such as inventory, accounts receivable and work-in-process. Commercial loans may also be secured by real estate and equipment. Credit risk is managed through standardized loan policies, established and authorized credit limits, attentive portfolio management and the use of lock box agreements and similar arrangements which result in the Corporation receiving and controlling the debtor's cash receipts.

Consumer Loans: The Corporation's consumer loan portfolio is primarily comprised of loans to individuals obligated to hospitals for medical services received. These loans are originated through CM HELP, LLC, one of the Corporation's joint ventures. The majority of these loans are guaranteed by the hospital providing the service to the debtor and this guarantee serves to reduce credit risk as the guarantors agree to repurchase severely delinquent loans. The performance of the loans is affected by general economic conditions and the Corporation's risk is affected by the financial strength of the guaranteeing entities as well as the individual debtors.

Factoring Receivables: The Corporation's factoring clients are diversified as to industry and geography. Credit risk is managed by standardized advance policies, established and authorized credit limits, verification of receivables, attentive portfolio management and the use of lock box agreements and similar arrangements which result in the Corporation receiving and controlling the client's cash receipts. In addition, clients generally guarantee the payment of purchased accounts receivable.

Leases: The Corporation's lease portfolio is primarily comprised of leases on high-tech equipment, information systems hardware, capital equipment and durable goods, and vehicles such as automobiles and tractors. Starting in 2016, the Corporation through its leasing subsidiary CEF, shifted its emphasis on leases for high-tech equipment to Fortune 1,000 and higher investment grade companies to an emphasis on leases for capital equipment and durable goods to qualified middle market companies. Credit risk is managed through monitoring of the lessee's business operations as repayment is typically dependent on the cash flow of the lessee.

Lease residuals (or the value of the leased asset after the completion of the lease term) also represent an area of risk although changes in the value of lease residuals are not specifically reserved for in the allowance for credit losses.

Lease Equipment Inventory: Inventory consists of equipment purchased by the Corporation for future transfer to direct financing and sales-type or operating leases which is recorded at cost. In addition, lease equipment inventory includes

lease equipment returned to the Corporation after termination of a lease. Equipment returned after lease termination is recorded at the lower of its carrying amount or its estimated fair value at the lease termination date.

Reposessed Assets: Assets acquired through or instead of foreclosure are initially recorded at fair value, less cost to sell, when acquired, establishing a new cost basis. If fair value declines, a valuation allowance is recorded in the consolidated statements of income. Costs after acquisition are expensed in the consolidated statements of income. As of December 31, 2017 the Corporation had approximately \$2,087,000 of reposessed assets which is included in other assets on the consolidated balance sheet. There were approximately \$3,855,000 of reposessed assets in 2016.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Transfers of Financial Assets: Transfers of financial assets are accounted for as sales, when control over the assets has been relinquished. Control over transferred assets is deemed to be surrendered when the assets have been isolated from the Corporation, the transferee obtains the right (free of conditions that constrain it from taking advantage of that right) to pledge or exchange the transferred assets, and the Corporation does not maintain effective control over the transferred assets through an agreement to repurchase them before their maturity.

Premises, leasehold Improvements and Equipment: Land is carried at cost. Building, leasehold improvements and equipment are stated at cost less accumulated depreciation. Depreciation is computed over the asset useful lives on a straight-line basis, or over the terms of the lease, if shorter, for leasehold improvements.

Goodwill: Goodwill resulting from business combinations represents the excess of the purchase price over the fair value of the net assets of businesses acquired. Goodwill acquired in a business combination and determined to have an indefinite useful life is not amortized, but tested for impairment at least annually. The Corporation performed its impairment evaluation as of September 30, 2017. If the impaired fair value of goodwill is lower than its carrying amount, goodwill impairment is indicated and goodwill is written down to its implied fair value. No goodwill impairment was recognized during the years ended December 31, 2017, 2016 or 2015.

Long-Term Assets: Leasehold improvements and equipment and other long-term assets are reviewed for impairment when events indicate their carrying amount may not be recoverable from future undiscounted cash flows. If impaired, the assets are recorded at fair value.

Fair Value of Financial Instruments: Fair values of financial instruments are estimated using relevant market information and other assumptions, as more fully disclosed in a separate note. Fair value estimates involve uncertainties and matters of significant judgment regarding interest rates, credit risk, prepayments, and other factors, especially in the absence of broad markets for particular items. Changes in assumptions or in market conditions could significantly affect the estimates.

Stock-Based Compensation: Compensation cost is recognized for stock options issued to employees, based on the fair value of these options at the date of grant. A Black-Scholes model is utilized to estimate the fair value of stock options. Compensation cost is recognized over the required service period, generally defined as the vesting period. For options with graded vesting, compensation cost is recognized on a straight-line basis over the requisite service period for the entire option.

In 2016, the Corporation adopted ASU 2016-09 which amended existing guidance to simplify the accounting for share-based payment award transactions, including: (a) recording the income tax consequences of share based award transactions in current period tax expense as opposed to capital; (b) classification of awards as either equity or

liabilities; (c) classification on the statement of cash flows; and (d) policy election to estimate the number of awards that are expected to vest (current GAAP) or account for forfeitures when they occur. The amendments are effective for annual periods beginning after December 15, 2017, however early adoption is permitted.

Income Taxes: Income tax expense is the total of the current year income tax due or refundable and the change in deferred tax assets and liabilities. Deferred tax assets and liabilities are the expected future tax amounts for the temporary differences between carrying amounts and tax bases of assets and liabilities, computed using enacted tax rates. A valuation allowance, if needed, reduces deferred tax assets to the amount expected to be realized.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A tax position is recognized as a benefit only if it is more likely than not that the tax position would be sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized is the largest amount of tax benefit that is greater than 50% likely of being realized on examination. For tax positions not meeting the more likely than not test, no tax benefit is recorded.

The Corporation recognizes interest and/or penalties related to income tax matters in income tax expense.

Loan Commitment and Related Financial Instruments: Financial instruments include off-balance-sheet credit instruments, such as commitments to make loans and standby letters of credit, issued to meet customer financing needs. The face amount for these items represents the exposure to loss, before considering customer collateral or ability to repay. Such financial instruments are recorded when they are funded.

Comprehensive Income: Comprehensive income consists of net income and other comprehensive income (loss). Other comprehensive income (loss) includes unrealized gains and losses on securities available for sale, net of income tax expense and foreign currency translation adjustments, net of income tax (expense) benefit, which are also recognized as separate components of equity.

Loss Contingencies: Loss contingencies, including claims and legal actions arising in the ordinary course of business, are recorded as liabilities when the likelihood of loss is probable and an amount or range of loss can be reasonably estimated. Management does not believe there now are such matters that will have a material effect on the consolidated financial statements.

Canadian Activity: The Corporation engages in cross-border activity by serving clients in Canada, resulting in transactions being originated and settled in Canadian dollars instead of US dollars. At year-end 2017 and 2016, approximately \$5,413,000 and \$5,417,000 (US) of the Corporation's loans, leases and factoring receivables were originated in and will be settled with Canadian dollars. In addition, at year-end 2017 and 2016, the Corporation had approximately \$1,776,000 and \$3,390,000 (US) on deposit in a Canadian financial institution in Canadian dollars. These transactions subject the Corporation to foreign currency risk.

Earnings per Share: Basic earnings per share is net income divided by the weighted average number of common shares outstanding during the period. ESOP shares are considered outstanding for this computation unless unearned. Diluted earnings per share includes dilutive effect of additional potential common shares issuable under stock options. Earnings and dividends per share are restated for all stock splits and stock dividends through the date of issuances of the financial statements.

Dividend Restriction: Banking regulations require maintaining certain capital levels and may limit the dividends paid by the bank to the holding company or by the holding company to shareholders.

Reclassifications: Certain prior year amounts have been reclassified to conform to the current year presentation. Reclassifications had no effect on prior year net income or equity.

NOTE 2 ACQUISITION

On May 11, 2017, the Corporation, through Crestmark Equipment Finance, Inc. (CEF), completed the acquisition of substantially all of the assets and certain liabilities of Allstate Capital, LLC (Allstate) from its members. The assets acquired by CEF in the Allstate acquisition include the Allstate trade name, operating platform, and other assets. Allstate engages in the business of originating transactions which involve the financing or leasing of personal property. All Allstate employees became CEF employees.

Table of Contents**CRESTMARK BANCORP, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****NOTE 2 ACQUISITION (Continued)**

Under the terms of the purchase agreement, the aggregate purchase price for the purchased assets was \$2,200,000. The Corporation acquired assets with approximate fair values of \$1,200,000, resulting in \$1,000,000 of goodwill. The Corporation established a Holdback from the purchase price totaling \$220,000 to indemnify the Corporation for losses incurred due to breaches or inaccuracies in any representation, warranty or covenant offered by the Seller. To date no claims have been made against the Holdback account. The balance remaining in the Holdback account will be paid to the Seller on the one year anniversary of the purchase agreement.

The Corporation has included the financial results of Allstate in its consolidated financial statements subsequent to the acquisition date. The Allstate transaction has been accounted for under the acquisition method of accounting. The assets and liabilities, both tangible and intangible, were recorded at their estimated fair values as of the transaction date.

The Corporation recognized goodwill of \$1,000,000 as of May 11, 2017, which is calculated as the excess of both the consideration exchanged and the liabilities assumed, which were negligible, as compared to the fair value of identifiable assets acquired. Goodwill resulted due to Allstate's recognized market presence in the small ticket leasing market and expected operating efficiencies in the future and expected to be deductible for tax purposes.

The fair value is expected to recover as the interest rates

Credit Quality Indicators:

The Corporation categorizes loans, leases and receivables into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, and repayment probability based on the liquidation value of the collateral pledged, credit documentation, public information, and current economic trends, among other factors. The Corporation analyzes loans, leases and receivables individually by classifying the loans, leases and receivables based on credit risk. This analysis includes commercial loans, leases and factoring receivables. This analysis is performed continuously and formally reported on a monthly basis. The Corporation uses the following definitions for risk ratings:

Special Mention. Loans, leases and receivables classified as special mention have certain characteristics that deserve management's closer attention. This can include specific weaknesses identified in a specific account that may result in deterioration of the repayment prospects for the account. Special mention accounts also identify general characteristics that management wants to monitor in more detail, such as industry segment, geographic location or type of account.

Substandard. Loans, leases and receivables classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans, leases and receivables so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the Corporation will sustain some loss if the deficiencies are not corrected.

Doubtful. Loans, leases and receivables classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Loans, leases and receivables not meeting the risk rating above that are analyzed as part of the above described process are considered to be pass-rated loans, leases and receivables.

CEF, which originates most of the Corporations leasing transactions and some of its commercial loans, uses the Special Mention category to identify credit qualified middle market customers. As noted in Note 1, CEF switched its emphasis from leases and loans for technology equipment to Fortune 1,000 and other higher investment grade companies to leases and loans for capital equipment and durable goods to qualified middle market companies. The Special Mention category is used to identify and assist management in monitoring these customers and does not identify any specific weakness in most of the transactions. Such accounts are underwritten to standards that would generally result in a Pass classification in the Corporation's non-leasing portfolio. Performance is monitored and measured by the same qualifying Pass standards.

Consumer loans are not risk rated but are monitored based on performance, as previously presented in the aging of the recorded investment in past due loans, leases and receivables table.

Upon retirement or separation, a participant or beneficiary may elect to receive an immediate lump sum cash distribution, but the ESOP may elect to make the distribution, attributable to stock value over a longer period, generally not to exceed 5 years. A participant may also elect to receive common stock.

This stock is subject to a put option for a limited period of time and may be sold back to the ESOP or the Corporation at the current fair value and, further, provides the Corporation a right of first refusal if the participant desires to sell the stock after the expiration of the put period. There was no ESOP expense in 2017 and no contribution made. ESOP expense was \$1,250,000 and \$1,000,000 for 2016 and 2015, respectively. As of December 31, 2017 and 2016 the ESOP held 90,933 and 82,177 shares of stock. Substantially all of the stock has been allocated to participants at the end of both years. Dividends paid on shares are allocated to a participant based on their shares held. The stock valuation received during 2017 indicated a value of \$127 per share. As discussed in Note 19, Crestmark has entered into a merger agreement with Meta Financial Group, Inc. The terms of the proposed merger agreement are that each share of Crestmark common stock will be automatically converted to 2.65 shares of common stock of Meta Bank

which had a value of \$91.35 at the close of business on January 8, 2018. Pursuant to the merger agreement the Corporation has entered into, the common stock held by ESOP participants is expected to be exchanged for shares of Meta Financial Group, Inc. Employees will have the option to liquidate their shares or transfer them to other non-taxable plans. See additional details in Note 19.

At December 31, 2017, the Corporation has a pre-tax general business credit carryforward of approximately \$1,400,000, which will begin to expire in 2036 if not used.

A valuation allowance related to deferred tax assets is required when it is considered more likely than not that all or part of the benefit related to such assets will not be realized. In the opinion of management, it is more likely than not that the results of future operations will generate sufficient taxable income to realize the deferred tax assets. Management has determined that no valuation allowance is required at year-end 2017 and 2016.

There were no unrecognized tax benefits at December 31, 2017, and the Corporation does not expect the total amount of unrecognized tax benefits to significantly increase in the next twelve months. There were no tax penalties or

interest recorded in 2017, 2016 or 2015.

The Corporation is no longer subject to examination by the Internal Revenue Service for the years before 2014.

The Tax Cuts and Jobs Act (the Tax Act) was signed into law on December 22, 2017. The Tax Act has a significant impact on the U.S. corporate income tax regime by lowering the U.S. corporate tax rate from 35 percent to 21 percent effective for taxable years beginning on or after January 1, 2018 in addition to implementing numerous other changes. U.S. GAAP requires that the impact of tax legislation be recognized in the period in which the law was enacted.

As a result of the Tax Act, the Company remeasured its deferred tax assets and deferred tax liabilities during year end December 31, 2017, resulting in an income tax benefit of \$5.7 million.

In December 2017, the Securities and Exchange Commission staff issued Staff Accounting Bulletin No. 118 (SAB 118), which provides guidance regarding how a company is to reflect provisional amounts when necessary

F-28

information is not yet available, prepared or analyzed sufficiently to complete its accounting for the effect of the changes in the Tax Act. The income tax benefit of \$5.7 million represents all known and estimable impacts of the Tax Act and is a provisional amount based on the Company's current best estimate. This provisional amount incorporates assumptions made based upon the Company's current interpretations of the Tax Act and may change as the Company receives additional clarification and implementation guidance, and as data becomes available allowing for a more accurate scheduling of the deferred tax assets and liabilities, including those related to items potentially impacted by the Tax Act such as fixed assets, leasing and employee compensation. Adjustments to this provisional amount through December 31, 2018 will be included in income from operations as an adjustment to tax expense in future periods.

NOTE 11 OFF-BALANCE-SHEET RISK ACTIVITIES

Some financial instruments, such as loan commitments, credit lines, letters of credit, and overdraft protection, are issued to meet client financing needs. These are agreements to provide credit or to support the credit of others, as long as conditions established in the contract are met, and usually have expiration dates. Commitments may expire without being used. Off-balance-sheet risk to credit loss exists up to the face amount of these instruments, although material losses are not anticipated. The same credit policies are used to make such commitments as are used for loans, including obtaining collateral at the exercise of the commitment.

The contractual amount of financial instruments with off-balance-sheet risk was as follows at year-end:

	2017	2016
Available balances on client lines of credit	\$ 363,631,414	\$ 280,080,472
Standby letter of credit	1,613,417	1,523,417

NOTE 12 NON-RECOURSE NOTES PAYABLE

The Corporation assigns cash flows from certain leases to financial institutions and in return the Corporation receives a discounted cash payment. The discounted leases are collateralized by the related leased equipment and future contractual lease payments. The obligations are nonrecourse to the Corporation. As of December 31, 2017 and 2016, the balance of the notes payable were \$30,765,489 and \$30,477,360, respectively. The weighted average interest rate at December 31, 2017 and 2016 was 3.34% and 3.47%, respectively.

The contractual payments on these non-recourse notes payable at year-end 2017 were as follows:

2018	\$ 14,829,209
2019	10,058,390
2020	4,307,142
2021	1,570,748

NOTE 13 SUBORDINATED DEBT AND OTHER BORROWINGS

Crestmark Preferred, Limited Partnership, a business trust formed by CBI, sold 30,000 floating rate series A securities (trust preferred securities) at \$25 per trust preferred security in a September 29, 2004 offering. The trust preferred securities bear interest at prime rate plus 1.25%, have a stated maturity of 30 years, are guaranteed

by CBI, and are redeemable at par with regulatory approval after five years. The interest rate is reset quarterly at distribution dates in March, June, September and December. The interest rate was 5.75% as of December 31, 2017. The Corporation has the option to defer interest payments on the subordinated debenture from time to time for a period not to exceed 5 consecutive years. CBI issued \$750,000 of subordinated debentures, with terms identical to the securities, to the trust. In 2016, the Corporation redeemed 20,000 shares of trust preferred securities in exchange for \$500,000 of subordinated debentures at a cost to the Corporation of \$300,000 resulting in a gain on extinguishment of debt of \$200,000 recorded in the consolidated statements of income. At December 31, 2017, the remaining outstanding balance of subordinated debentures related to this issuance was \$250,000.

Crestmark Capital Trust I, a business trust formed by CBI, sold 3,250 of floating rate capital securities of the trust at \$1,000 per trust preferred security in a June 20, 2005 offering. CBI issued \$3,351,000 of subordinated debentures to the trust in exchange for the ownership of all of the common securities of the trust and the proceeds of the preferred securities sold by the trust. The subordinated debentures bear interest at LIBOR plus 3.00%, have a stated maturity of 30 years and are redeemable by the Corporation at par, with regulatory approval, after five years. The interest rate is reset quarterly at distribution dates in February, May, August, and November. The interest rate as of December 31, 2017 was 4.45%. The Corporation has the option to defer interest payments on the subordinated debentures from time to time for a period not to exceed 5 consecutive years.

CBI is not considered the primary beneficiary of these trusts (variable interest entities), therefore they are not consolidated in CBI's consolidated financial statements, but rather the subordinated debentures are shown as a liability on the consolidated balance sheets. The Corporation's investment in the common stock of the trusts is \$101,000 and is included in other assets on the consolidated balance sheets.

The subordinated debentures may be included in Tier I capital (with certain limitations applicable) under current regulatory guidelines and interpretations.

The Corporation has an existing line of credit with another financial institution for \$10,000,000 at both December 31, 2017 and 2016. At December 31, 2017 there was \$7,000,000 outstanding on the line of credit. There was no outstanding balance on the line of credit at December 31, 2016. The line of credit matures on August 26, 2018. The interest rate on the line of credit is variable based upon current market rates. At December 31, 2017 the interest rate was 4.00 percent. To maintain the line of credit, certain financial covenants are required to be achieved by the Corporation. As of December 31, 2017 and 2016, the Corporation was in compliance with these covenants.

In August 2017, the Corporation entered into a note payable with the same financial institution for \$5,000,000 payable in quarterly installments of principal beginning March 1, 2018. The interest rate on the note is variable based upon current market rates. At December 31, 2017 the interest rate was 4.00 percent. The note matures on August 22, 2022.

NOTE 14 STOCK OPTIONS

The Corporation has two stock-based compensation plans. Under the employees' 1998 Stock Option Plan, the Corporation may grant options to key employees for up to 180,000 shares of common stock. Under the 1998 Stock Option Plan for Directors, the Corporation is authorized to grant options to directors for up to 70,000 shares of common stock. Under the Director plan, all of the options are vested two years after the date of grant. Under the Employee plan, options are vested over a 5 year period with 40% of the options vesting two years after the date of grant and an additional 20% vesting in each subsequent year. All options expire 10 years after the date of the grant.

Under both plans, the exercise price of each option equals the market price of the Corporation's common stock on the date of grant.

The fair value of each option award is estimated on the date of grant using a closed form option valuation (Black-Scholes) model that uses the assumptions noted in the table below. Expected volatilities are based on historical volatilities of the Corporation's common stock. The Corporation uses historical data to estimate option exercise and post-vesting termination behavior. The expected term of options granted is based on historical data and represents the period of time that options granted are expected to be outstanding, which takes into account that the options are not transferable. The risk-free interest rate for the expected term of the option is based on the U.S. Treasury yield curve in effect at the time of the grant. Upon exercise, shares will be issued from the Corporation's authorized, but unissued shares.

The fair value of options granted was determined using the following weighted-average assumptions as of grant date.

	2017	2016	2015
Risk-free interest rate	2.20%	2.20%	2.00%
Expected term	10 years	10 years	10 years
Expected stock price volatility	0.25	0.25	0.25

NOTE 15 REGULATORY MATTERS

Banks and bank holding companies are subject to regulatory capital requirements administered by federal banking agencies. Capital adequacy guidelines and, additionally for banks, prompt corrective action regulations, involve quantitative measures of assets, liabilities, and certain off-balance-sheet items calculated under regulatory accounting practice. Capital amounts and classifications are also subject to qualitative judgments by regulators. Failure to meet capital requirements can initiate regulatory action. The final rules implementing Basel Committee on Banking Supervision's capital guidelines for U.S. banks (Basel III rules) became effective for the Bank on January 1, 2015 with full compliance with all of the requirements including a capital conservation buffer being phased in over a multi-year schedule, and fully phased in by January 1, 2019. The capital conservation buffer is being phased in from 0.00% in 2015 to 2.50% by 2019. The net unrealized gain or loss on securities available for sale is not included in computing regulatory capital. Management believes as of December 31, 2017, the Corporation and Bank meet all capital adequacy requirements to which they are subject.

Prompt corrective action regulations provide five classifications: well capitalized, adequately capitalized, undercapitalized, significantly undercapitalized, and critically undercapitalized, although these terms are not used

NOTE 15 REGULATORY MATTERS (Continued)

to represent overall financial condition. If adequately capitalized, regulatory approval is required to accept brokered deposits. If undercapitalized, capital distributions are limited, as is asset growth and expansion, and capital restoration plans are required. At year-end 2017 and 2016, the most recent regulatory notifications categorized the Bank as well capitalized under the regulatory framework for prompt corrective action. There are no conditions or events since that notification that management believes have changed the Bank's category.

Banking regulations require maintaining certain capital levels and may limit the dividends paid by the Bank to the holding company or by the holding company to shareholders.

The Bank's actual and required capital amounts including the phase-in of the capital conservation buffer (in thousands) and ratios were as follows for year-end 2017 and 2016:

	Actual		Minimum Required for Capital Adequacy Purposes		Minimum Required To Be Well Capitalized Under Prompt Corrective Action Regulations

At December 31, 2017, the Corporation is not subject to regulatory capital requirements issued by the Federal Reserve Bank.

NOTE 16 FAIR VALUE

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that an entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

F-33

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 16 FAIR VALUE (Continued)

The fair values of securities available for sale are determined by matrix pricing, which is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2). The Corporation did not have any Level 3 fair value measurements for securities available for sale at December 31, 2017 or 2016.

The fair value of impaired loans, leases and receivables with specific allocations of the allowance for credit losses are generally based on the estimated fair value of the underlying collateral. The value of the underlying collateral, generally accounts receivable, is adjusted to consider the probability of collection and expense to be incurred during the collection process. Such adjustments are typically significant and result in a Level 3 classification of the inputs for determining fair value.

Appraisals for collateral-dependent impaired loans, leases, and receivables are generally performed by certified general appraisers (for commercial real estate properties and equipment) whose qualifications and licenses have been reviewed and verified by the Corporation. Values of certain types of equipment are determined by reference to trade publications. Management reviews the assumptions and approaches utilized in the appraisal and will discount a property's or equipment's appraised or estimated values to account for a number of factors including but not limited to the cost of liquidating the collateral, the age of the appraisal, observable deterioration since the appraisal, or other factors unique to the property or equipment.

Assets and Liabilities Measured on a Recurring Basis

Assets and liabilities measured at fair value on a recurring basis at December 31, 2017 and 2016 were securities available for sale. The fair value of securities available for sale are level 1 for other securities and level 2 for all others. The values by class of security are presented in Note 3.

NOTE 16 FAIR VALUE (Continued)

As discussed previously, the fair values of impaired loans, leases, and receivables carried at fair value are determined by third party appraisals or collateral evaluations. Management makes adjustments to these values based on the age of the appraisal and the types of collateral underlying. The following table presents quantitative information about level 3 fair value measurements for the larger classes of financial instruments measured at fair value on a non-recurring basis at December 31, 2017 and 2016:

NOTE 16 FAIR VALUE (Continued)

The methods and assumptions used to estimate fair value are described as follows:

Carrying amount is the estimated fair value for cash and cash equivalents, accrued interest receivable and payable, federal funds purchased, and variable rate loans, leases and receivables and interest bearing deposits that reprice frequently and fully. For loans, leases and receivables and interest-bearing deposits with infrequent repricing or repricing limits, fair value is based on discounted cash flows using current market rates applied to the estimated life and credit risk. The methods used to determine the fair value of loans, leases and receivables do not necessarily represent an exit price. Fair value of the Corporations subordinated debt approximates book value as a result of the variable interest rate paid which resets to a market rate on a regular basis. The fair value of non-recourse notes payable is based on current rates for similar financing. The fair value of off-balance-sheet items is not considered material.

NOTE 17 - PREFERRED STOCK

On August 9, 2011, the Corporation consummated a securities purchase agreement with the Secretary of the Treasury of the United States, as a participant in the Small Business Lending Fund (SBLF) program. The SBLF program provides Tier 1 capital to qualifying community banking organizations in an effort to increase small business lending. Pursuant to which the Corporation issued 8,250 shares of the Corporation's non-cumulative perpetual preferred stock, having a liquidation amount of \$1,000 per share, for an aggregate amount of \$8,250,000. On March 15, 2017, the Corporation redeemed all of its shares of preferred stock with the SBLF, including accrued dividends, by drawing on the corporation's line of credit in the amount of \$8 million, as disclosed in Note 13.

ARTICLE 2.

MERGER CONSIDERATION; EXCHANGE PROCEDURES

Section 2.01. *Merger Consideration.* Upon the terms and subject to the conditions set forth in this Agreement, and in accordance with the relevant provisions of the DGCL and the MBCA, at the Effective Time, automatically by virtue of the Merger and without any action on the part of the Buyer Parties, the Company Parties or any holder of their respective securities:

(a) Each Company Common Share owned directly by Buyer, Company or any of their respective Subsidiaries (other than shares in trust accounts, managed accounts and the like for the benefit of customers) immediately prior to the Effective Time shall be cancelled and retired at the Effective Time without any conversion thereof, and no payment shall be made with respect thereto.

(b) Except as set forth in Section 2.03 with respect to fractional Company Common Shares, each Company Common Share issued and outstanding immediately prior to the Effective Time (other than shares described in Section 2.01(a) above) shall be converted into the right to receive such number of shares of Buyer Common Stock determined by multiplying (i) one (1) by (ii) the Exchange Ratio (the **Merger Consideration**).

(c) Each share of Buyer Common Stock shall remain outstanding without change following the Effective Time as shares of the Surviving Entity.

Section 2.02. *Rights as Shareholders; Share Transfers.* At the Effective Time, all Company Common Shares, when converted in accordance with Section 2.01, shall no longer be outstanding and shall automatically be cancelled and retired and shall cease to exist, and each Certificate or Book-Entry Share previously evidencing such shares shall thereafter represent only the right to receive for each such Company Common Share, the Merger Consideration (and any cash in lieu of fractional shares of Buyer Common Stock as set forth in Section 2.03) in accordance with this Article 2. At the Effective Time, holders of Company Common Shares shall cease to be, and shall have no rights as, shareholders of Company, other than the right to receive the Merger Consideration (and any cash in lieu of fractional shares of Buyer Common Stock as set forth in Section 2.03) in accordance with this Article 2. After the Effective Time, there shall be no registration of transfers of Company Common Shares on the share transfer books of Company.

Section 2.03. *Fractional Shares*. Notwithstanding any other provision hereof, no fractional shares of Buyer Common Stock and no certificates or scrip therefor, or other evidence of ownership thereof, will be issued in the Merger. In lieu thereof, Buyer shall pay or cause to be paid to each Person who would otherwise be a holder of a

fractional share of Buyer Common Stock as a result of the conversion set forth in Section 2.01, rounded to the nearest one hundredth of a share, an amount of cash (without interest and rounded down to the nearest whole cent) determined by multiplying the fractional share interest in Buyer Common Stock to which such Person would otherwise be entitled (after taking into account all Company Common Shares held at the Effective Time by such holder) by the Purchase Price. No such Person will be entitled to dividends, voting rights, or any other rights as a shareholder in respect of any fractional shares.

Section 2.04. Options and Other Share-Based Awards.

(a) The provisions of this Section 2.04 shall pertain to all (i) Company Options and (ii) other share-based awards granted by Company under the Company Equity Plans that are outstanding immediately prior to the Effective Time.

(b) Treatment of Company Options.

(i) Immediately prior to the Effective Time, all unvested Company Options, whether In-the-money Company Options or Out-of-the-money Company Options, shall become vested and exercisable with respect to all shares covered thereby.

(ii) As of the Effective Time, (A) all In-the-money Company Options shall be cancelled and automatically converted into the right of each holder of such In-the-money Company Option to receive an amount in cash (without interest) equal to the product of (1) the number of Company Common Shares underlying such Company Option multiplied by (2) the excess of the Purchase Price (in this case rounded down to the nearest whole cent) over the exercise price per share under such Company Option, less any applicable withholding Taxes (the **Option Payment**) and (B) all Out-of-the-money Company Options shall be cancelled and of no further force and effect, and cease to represent a right to acquire Company Common Shares or Buyer Common Stock, without any consideration therefor.

(iii) Prior to the Effective Time, Company shall (i) provide each holder of a Company Option a cancellation and consent letter agreement in such form as is acceptable to Buyer (an **Option Cancellation Letter**) and (ii) shall obtain the receipt from each such holder of a Company Option a duly executed Option Cancellation Letter.

(iv) The payment of the Option Payment, if any, to a holder of a Company Option shall be conditioned upon the receipt of such executed Option Cancellation Letter from such holder. The Option Payment shall be made at or as soon as practicable following the Effective Time, in accordance with the Surviving Entity's ordinary payroll practices; *provided, however*, that to the extent any payments cannot be paid during such period without causing the recipient to incur an additional income tax under Section 409A of the Code, then such payment shall be distributed in accordance with Section 409A of the Code. All Option Payments will be reduced by any withholding for Taxes or other deductions required under applicable Law.

(c) As of the Effective Time, all Company Equity Plans (and, except as provided under this Section 2.04, all awards thereunder) shall be terminated and no further awards or other rights shall be granted thereunder. Prior to the Effective Time, Company shall provide such notice, if any, to the extent required under the terms of the applicable Company Equity Plans or by Buyer, obtain any necessary consents, adopt applicable resolutions, amend the terms of the Company Equity Plans or any outstanding awards, and take all other appropriate actions in cooperation with Buyer to: (a) give effect to the transactions contemplated herein; (b) terminate the Company Equity Plans as of the Effective Time; and (c) ensure that after the Effective Time, neither any holder of Company Options, any beneficiary thereof, nor any other participant in any Company Equity Plan shall have any right thereunder to acquire any securities of Company Parties or the Buyer Parties or their respective Subsidiaries or to receive any payment or benefit with respect to any award previously granted under the Company Equity Plans, except as provided in this Section 2.04 or

Section 5.12(c) with respect to the

ESOP. Any awards under the Company Equity Plans, and any payments or benefits in respect thereof, will be subject to withholding for Taxes or other deductions, required under applicable Law. The Buyer Parties and the Company Parties agree that none of the Company Options or the Company Equity Plans will be assumed by the Buyer Parties.

Section 2.05. *Exchange Procedures.* As promptly as practicable after the Effective Time but in no event later than five (5) Business Days after the Closing Date, and *provided* that Company has delivered, or caused to be delivered, to the Exchange Agent all information that is reasonably required under the terms of the Exchange Agent Agreement, the Exchange Agent shall mail or otherwise cause to be delivered to each holder of record of Company Common Shares immediately prior to the Effective Time appropriate and customary transmittal materials in a form reasonably satisfactory to Company, Buyer and the Exchange Agent, which shall specify that delivery shall be effected, and risk of loss and title to the Certificates or Book-Entry Shares shall pass, only upon delivery of the Certificates (or affidavits of loss and/or bonds in such amounts as may be required in each case by Buyer or the Exchange Agent in lieu of such Certificate(s)) or Book-Entry Shares to the Exchange Agent, as well as instructions for use in effecting the surrender of the Certificates or Book-Entry Shares in exchange for the Merger Consideration (and any cash in lieu of fractional shares of Buyer Common Stock as set forth in Section 2.03) in accordance with this Article 2 as provided for in this Agreement (the **Letter of Transmittal**). Buyer and the Exchange Agent shall be entitled to rely upon the share transfer books of Company to establish the identity of the holders of Company Common Shares, which books shall be conclusive with respect thereto.

Section 2.06. *Deposit of Merger Consideration.*

(a) At or before the Effective Time, Buyer shall deposit, or shall cause to be deposited, with the Exchange Agent stock certificates, or, at Buyer's option, evidence of book-entry shares in book entry form, representing the number of shares of Buyer Common Stock sufficient to deliver the aggregate Merger Consideration payable under the terms hereof (together with, to the extent then determinable any cash payable in lieu of fractional shares of Buyer Common Stock as set forth in Section 2.03) in accordance with this Article 2 (collectively, the **Exchange Fund**), and Buyer shall instruct the Exchange Agent to timely pay such consideration in accordance with the terms and conditions of this Agreement.

(b) Any portion of the Exchange Fund that remains unclaimed by the shareholders of Company for one (1) year after the Effective Time (as well as any dividends or other distributions thereof) shall be delivered by the Exchange Agent to Buyer. Any shareholders of Company who have not theretofore complied with this Section 2.06 and Section 2.07(a) shall thereafter look only to Buyer for the Merger Consideration (and any cash in lieu of fractional shares of Buyer Common Stock as set forth in Section 2.03 and any applicable dividends or other distributions with respect to the Buyer Common Stock) in accordance with this Article 2 deliverable in respect of each Company Common Share such shareholder held as of immediately prior to the Effective Time, as determined pursuant to this Agreement, in each case without any interest thereon. If outstanding Certificates or Book-Entry Shares for Company Common Shares are not surrendered or the payment for them is not claimed prior to the date on which such shares of Buyer Common Stock or cash would otherwise escheat to or become the property of any governmental unit or agency, the unclaimed items shall, to the extent permitted by the Law of abandoned property and any other applicable Law, become the property of Buyer (and to the extent not in its possession shall be delivered to it), free and clear of all claims or interest of any Person previously entitled to such property. Neither the Exchange Agent nor any party to this Agreement shall be liable to any holder of Company Common Shares represented by any Certificate or Book-Entry Share for any Merger Consideration (or any dividends or distributions with respect thereto) paid to a public official pursuant to applicable abandoned property, escheat or similar Laws.

Section 2.07. *Delivery of Merger Consideration.*

The Exchange Agent and Buyer, as the case may be, shall not be obligated to deliver cash and/or shares of Buyer Common Stock to a holder of Company Common Shares to which such holder would otherwise be entitled as a result of the Merger until such holder surrenders the Certificates or Book-Entry Shares representing the Company Common Shares for exchange as provided in this [Article 2](#), or, an appropriate affidavit of loss and indemnity agreement and/or a bond in such amount as may be reasonably required in each case by Buyer or the Exchange Agent.

(b) In the event of a transfer of ownership of a Certificate or Book-Entry Shares for Company Common Shares that is not registered in the share transfer records of Company, the Merger Consideration (and any cash in lieu of fractional shares of Buyer Common Stock as set forth in [Section 2.03](#)) in accordance with this [Article 2](#) shall be issued or paid in exchange therefor to a Person other than the Person in whose name the Certificate or Book-Entry Share so surrendered is registered if the Certificate or Book-Entry Share formerly representing such Company Common Shares shall be properly endorsed or otherwise be in proper form for transfer and the Person requesting such payment or issuance shall pay any transfer or other similar Taxes required by reason of the payment or issuance to a Person other than the registered holder of the Certificate or Book-Entry Shares, or establish to the reasonable satisfaction of Buyer that the Tax has been paid or is not applicable, and the Person requesting payment for such Certificate or Book-Entry Share shall have complied with the provisions of the Letter of Transmittal. In the event of a dispute with respect to ownership of any Company Common Shares represented by any Certificate or Book-Entry Share, Buyer and Exchange Agent shall be entitled to tender to the custody of any court of competent jurisdiction any Merger Consideration (and any cash in lieu of fractional shares of Buyer Common Stock as set forth in [Section 2.03](#)) represented by such Certificate or Book-Entry Share and file legal proceedings interpleading all parties to such dispute, and will thereafter be relieved with respect to any claims thereto.

(c) All shares of Buyer Common Stock to be issued pursuant to the Merger shall be deemed issued and outstanding as of the Effective Time and if ever a dividend or other distribution is declared by Buyer in respect of the Buyer Common Stock, the record date for which is at or after the Effective Time, that declaration shall include dividends or other distributions in respect of all shares of Buyer Common Stock issuable pursuant to this Agreement. No dividends or other distributions in respect of the Buyer Common Stock shall be paid to any holder of any unsurrendered Certificate or Book-Entry Share until such Certificate (or affidavit of loss and/or a bond in such amount as may be required in each case by Buyer or the Exchange Agent in lieu of such Certificate) or Book-Entry Share is surrendered for exchange in accordance with this [Article 2](#). Subject to the effect of applicable Laws, following surrender of any such Certificate (or affidavit of loss and/or a bond in such amount as may be required in each case by Buyer or the Exchange Agent in lieu of such Certificate(s)) or Book-Entry Share, there shall be issued and/or paid to the holder of the certificates representing whole shares of Buyer Common Stock issued in exchange therefor, without interest, (i) at the time of such surrender, the dividends or other distributions with a record date after the Effective Time theretofore payable with respect to such whole shares of Buyer Common Stock and not paid, and (ii) at the appropriate payment date, the dividends or other distributions payable with respect to such whole shares of Buyer Common Stock with a record date after the Effective Time but with a payment date subsequent to surrender.

(d) Buyer (through the Exchange Agent, if applicable) shall be entitled to deduct and withhold from any amounts otherwise payable pursuant to this Agreement to any Person such amounts as Buyer is required to deduct and withhold under applicable Law. Any amounts so deducted and withheld shall be remitted to the appropriate Governmental Authority and upon such remittance shall be treated for all purposes of this Agreement as having been paid to the Person in respect of which such deduction and withholding was made by Buyer or the Exchange Agent, as applicable.

Section 2.09. *Anti-Dilution Provisions.* In the event that before the Effective Time Buyer changes (or establishes a record date for changing) the number of, or provides for the exchange of, shares of Buyer Common Stock issued and outstanding prior to the Effective Time as a result of a stock split, reverse stock split, stock dividend or distribution, recapitalization, reclassification, exchange or similar transaction with respect to the outstanding Buyer Common Stock, the Exchange Ratio shall be equitably adjusted.

Section 2.10. *No Further Ownership Rights.* All shares of Buyer Common Stock issued upon conversion of Company Common Shares in accordance with the terms hereof (as well as any cash paid pursuant to Sections 2.03 and 2.04) shall be deemed to have been issued in full satisfaction of all rights pertaining to such Company Common Shares or Company Options; *subject, however,* to the Surviving Entity's obligation to pay any dividends or make any other distributions with a record date prior to the Effective Time which may have been declared or made by Company in accordance with the terms of this Agreement on or prior to the Effective Time and which remain unpaid at the Effective Time.

(iii) Buyer shall adjourn or postpone (and may only adjourn or postpone) the Buyer Meeting, (1) if, as of the time for which such meeting is originally scheduled, there are insufficient shares of Buyer Common Stock represented (either in person or by proxy) to constitute a quorum necessary to conduct the business of such meeting, (2) if on the date of such meeting Buyer has not received proxies representing a sufficient number of shares necessary to obtain the Requisite Buyer Stockholder Approval or (3) to allow reasonable additional time for the filing or mailing of any supplemental or amended disclosure that Buyer has determined after consultation with outside legal counsel is reasonably likely to be required under Law and for such supplemental or amended disclosure to be disseminated and reviewed by stockholders of Buyer prior to the Buyer Meeting. For the avoidance of doubt, nothing in this Section 5.04(b) shall limit Buyer's obligation to ensure that the Buyer Meeting is called, noticed, convened, held and ultimately conducted for purposes of considering and voting upon the approval of this Agreement and the transactions contemplated hereby (including the Merger)).

(c) *Cooperation.* Buyer and Company shall cooperate to schedule and convene the Buyer Meeting and the Company Meeting on the same date. Each party shall cooperate and keep the other party informed on a current basis regarding its solicitation efforts and voting results following the dissemination of the Proxy Statement-Prospectus to the stockholders or shareholders of each party.

Section 5.05. Registration Statement; Proxy Statement-Prospectus.

(a) Buyer and Company agree to cooperate in the preparation of the Registration Statement to be filed by Buyer with the SEC in connection with the transactions contemplated by this Agreement in connection with the issuance of Buyer Common Stock in the Merger (including the Proxy Statement-Prospectus and all related documents). Company shall use reasonable best efforts to promptly deliver to Buyer such information with respect to Company, Company Bank, their respective Affiliates and the respective holders of their capital stock as may be reasonably requested or required in order to file the Registration Statement or any other report required to be filed by Buyer with the SEC, or in connection with the qualification of the issuance of the Buyer Common Stock with respect to state securities or "blue sky" Laws, in each case, in compliance with applicable Laws, and shall, as promptly as practicable following execution of this Agreement, prepare and deliver drafts of such information to Buyer to review. Each of Buyer and Company agree to use reasonable best efforts to cause the Registration Statement to be filed with the SEC as promptly as reasonably practicable after the date of this Agreement, but in any event within sixty (60) days of the date of this Agreement, and to be declared effective by the SEC as promptly as reasonably practicable after the filing thereof and keep the Registration Statement effective for so long as necessary to complete the Merger. Company agrees to cooperate with Buyer and Buyer's counsel and accountants in requesting and obtaining appropriate opinions, consents and letters from Company's independent auditors in connection with the Registration Statement and the Proxy Statement-Prospectus. After the Registration Statement is declared effective under the Securities Act, Company, at its own expense, shall promptly mail or cause to be mailed the Proxy Statement-Prospectus to its shareholders, and Buyer, at its own expense, shall promptly mail or cause to be mailed the Proxy Statement-Prospectus to its shareholders.

(b) The Proxy Statement-Prospectus and any amendment or supplement thereto and the Registration Statement shall comply as to form in all material respects with the applicable provisions of the Securities Act and the Exchange Act and the rules and regulations thereunder. Each of Buyer and Company agrees, as to itself and its Subsidiaries, that none of the information supplied or to be supplied by or on behalf of itself for inclusion or incorporation by reference in (i) the Registration Statement will, at the time the Registration Statement is filed with the SEC, at any time it is amended or supplemented or at the time it becomes effective under the Securities Act, contain any untrue statement of a material fact or omit to state any material fact required to be stated therein or necessary in order to make the statements therein not misleading or (ii) the Proxy Statement-Prospectus and any amendment or supplement thereto will, at the date it is first mailed to shareholders or stockholders of Company and of Buyer (or such other persons

entitled to vote in respect of matters covered thereby, including ESOP participants as applicable) or at the time of the Company Meeting or at the time of the Buyer Meeting, contain any untrue statement of a material fact or omit to state a material fact necessary in order to make the

statements, in light of the circumstances in which they were made, not misleading. If, at any time prior to the Effective Time, any information relating to Company or Buyer, or any of their respective Affiliates, shall be discovered by Company or Buyer which, in the reasonable judgment of Company or Buyer, should be set forth in an amendment of, or a supplement to, any of the Registration Statement or the Proxy Statement-Prospectus, so that any of such documents would not include any misstatement of a material fact or omit to state any material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading, the party which discovers such information shall promptly notify the other parties hereto, and Company and Buyer shall cooperate in the prompt filing with the SEC of any necessary amendment of, or supplement to, the Proxy Statement-Prospectus or the Registration Statement and, to the extent required by Law, in disseminating the information contained in such amendment or supplement to shareholders of Company and stockholders of Buyer. Buyer will advise Company, promptly after Buyer receives notice thereof, of the time when the Registration Statement has become effective, of the issuance of any stop order or the suspension of the qualification of Buyer Common Stock issuable for offering or sale in any jurisdiction, or of any request by the SEC for the amendment or supplement of the Registration Statement or upon the receipt of any comments (whether written or oral) from the SEC or its staff. Buyer will provide Company and its counsel with a reasonable opportunity to review and comment on the Registration Statement and the Proxy Statement-Prospectus, including any amendments or supplements thereto, and, except to the extent such response is submitted under confidential cover, all responses to requests for additional information by and replies to comments of the SEC (and reasonable good faith consideration shall be given to any comments made by Company and its counsel) prior to filing such with, or sending such to, the SEC, and Buyer will provide Company and its counsel with a copy of all such filings made with the SEC.

(c) Buyer agrees to use commercially reasonable efforts to cause the shares of Buyer Common Stock to be issued in connection with the Merger to be approved for listing on NASDAQ Global Select, subject to official notice of issuance, prior to the Effective Time.

Section 5.06. Regulatory Filings; Consents.

(a) Except with respect to any forms, reports, statements or certifications filed, furnished or otherwise submitted to or with the SEC (which shall be governed exclusively by Section 5.05), each of Buyer and Company and their respective Subsidiaries shall (i) prepare and file all documentation, all Federal Reserve Y designated reports and all call reports to with the appropriate bank regulators), to obtain all Regulatory Approvals, including making any notices to or filings with the SBA, making any notices or filings under the HSR Act, if any is required, making any filings with and obtaining any consents in connection with compliance with the applicable provisions of the rules and regulations of any applicable industry self-regulatory organization, including approvals from FINRA and any relevant state regulator in connection with a change of control of any Company Subsidiaries that are broker-dealers, or that are required under consumer finance, mortgage banking and other similar Laws, and clearance from the Department of Justice and Federal Trade Commission under the HSR Act, if applicable, approvals from the FRB, the OCC, the FDIC and the DIFS and any other Governmental Authorities from which Regulatory Approvals are required, (ii) cooperate and use their respective commercially reasonable efforts to comply with the terms and conditions of such permits, consents, approvals and authorizations and (iii) cooperate and use their respective commercially reasonable efforts to cause the transactions contemplated by this Agreement to be consummated as expeditiously as practicable; *provided, however*, that in no event shall Buyer be required to agree to any Burdensome Condition. Without limiting the generality of the foregoing, as soon as practicable and in no event later than sixty (60) days after the date of this Agreement, Buyer and Company shall, and shall cause their respective Subsidiaries to, each prepare and file any applications, notices and filings required in order to obtain the Regulatory Approvals and other Governmental Authority consents and approvals required to consummate the Merger and the Bank Merger, including any notices to or filings with the SBA, making any notices or filings under the HSR Act, if any is required, making any filings with and obtaining any consents in connection with compliance with the applicable provisions of the rules and regulations of any applicable industry

Subject to applicable Laws, (A) Buyer and Company will furnish each other and each other's counsel with all information concerning themselves, their Subsidiaries, directors, trustees, officers, shareholders and stockholders and such other matters as may be necessary or advisable in connection with any application, or petition made by or on behalf of Buyer or Company or their respective Subsidiaries to any Governmental Authority in connection with the transactions contemplated by this Agreement, (B) each party hereto shall have the right to review and approve in advance all characterizations of the information relating to such party and any of its Subsidiaries that appear in any filing made in connection with the transactions contemplated by this Agreement with any Governmental Authority, (C) Buyer and Company shall each furnish to the other for review a copy of each such filing made solely in connection with the transactions contemplated by this Agreement with any Governmental Authority prior to its filing and (D) Buyer and Company will notify the other promptly and shall promptly furnish the other with copies of any communication from any Governmental Authority received by it with respect to the regulatory applications filed solely in connection with the transactions contemplated by this Agreement (and its response thereto); *provided*, that in no event shall Buyer or Buyer Bank be obligated to provide or otherwise disclose to Company confidential information regarding Buyer, Buyer Bank or any of their respective Subsidiaries or Affiliates or any pending merger transaction, other than the Merger and the Bank Merger.

(b) Each of Buyer and Company will use commercially reasonable efforts, and each shall reasonably cooperate with the other upon request, to obtain all Regulatory Approvals; *provided*, that neither party nor any of its Subsidiaries will be required to make any payment to or grant any concessions to any third party in connection therewith. Each of Buyer and Company will, to the extent permitted by applicable Law, notify the other promptly and shall promptly furnish the other with copies of notices or other communications received by such party or any of its Subsidiaries of any communication from any Person alleging that the consent of such Person (or another Person) is or may be required in connection with the transactions contemplated by this Agreement (and the response thereto from such party, its Subsidiaries or its representatives). Company will reasonably consult with Buyer and its representatives so as to permit Company and Buyer and their respective representatives to cooperate to take appropriate measures to obtain such consents and avoid or mitigate any adverse consequences that may result from the foregoing.

(c) Notwithstanding the foregoing or anything else to the contrary contained in this Agreement, nothing in this Agreement shall preclude either Company or Buyer from meeting with its regulators on its own volition to discuss confidential supervisory information in connection with the transactions contemplated by this Agreement or otherwise.

Section 5.07. Publicity. So long as this Agreement is in effect, the Buyer Parties, on the one hand, and the Company Parties, on the other hand, shall consult with each other before issuing any press release with respect to this Agreement or the transactions contemplated hereby and shall not issue any such press release or make any such public statement without the prior consent of the other, which shall not be unreasonably delayed, conditioned or withheld; *provided, however*, that (a) any such press release or public statement as may be required by Law (including, for the avoidance of doubt, any filing with the SEC) or any listing agreement with or notice or application to any national securities exchange may be issued or made without prior consent of such other party (but after consultation with the other party, to the extent practicable in the circumstances) and (b) a party may issue a press release or make a public statement (including, for the avoidance of doubt, any filing with the SEC) that is consistent with prior press releases issued or public statements made in compliance with the first sentence of this Section 5.07 without such consultation. It is understood that Buyer shall assume primary responsibility for the preparation of joint press releases relating to this Agreement, the Merger and the other transactions contemplated hereby.

Section 5.08. Access; Current Information.

(a) For the purposes of verifying the representations and warranties of the other and preparing for the Merger and the other matters contemplated by this Agreement, upon reasonable notice and subject to applicable Laws, each of Buyer and Company agrees to afford the other and its officers, employees, counsel, accountants and other authorized representatives such access during normal business hours at any time and from time to time throughout the period prior to the Effective Time to its and its Subsidiaries' books, records (including Tax Returns and, subject to the consent of the independent auditors, work papers of independent auditors), information technology systems, properties and personnel and to such other information relating to them as a party may reasonably request and the other shall use commercially reasonable efforts to provide any appropriate notices to employees and/or customers in accordance with applicable Law and its privacy policy and, during such period, each of Buyer and Company shall furnish to the other, upon reasonable request, all such other information concerning its business, properties and personnel and its Subsidiaries that is substantially similar in scope to the information provided to the other in connection with its diligence review prior to the date of this Agreement.

(b) As soon as reasonably practicable after they become available, to the extent permitted by applicable Law, Company will furnish to Buyer copies of the board packages distributed to Company Board or the board of directors of Company Bank, or any of their respective Subsidiaries, and minutes from the meetings thereof, copies of any internal management financial control reports showing actual financial performance against plan and previous period, and copies of any reports provided to its board of directors or any committee thereof relating to its financial performance and risk management.

(c) During the period from the date of this Agreement to the Effective Time, each of Company and Buyer will cause one or more of its designated representatives to confer on a regular basis with representatives of the other and to report the general status of the ongoing operations of Company and its Subsidiaries and Buyer and its Subsidiaries, respectively. Without limiting the foregoing, each of Company and Buyer agrees to provide to the other party, to the extent permitted by applicable Law, a copy of each report filed by such party or any of its Subsidiaries with a Governmental Authority reasonably promptly following the filing thereof.

(d) No investigation by the Buyer Parties or the Company Parties or their respective representatives shall be deemed to modify or waive any representation, warranty, covenant or agreement of the other set forth in this Agreement, or the conditions to the respective obligations of Buyer and Company to consummate the transactions contemplated hereby. Any investigation hereunder shall be conducted in such manner as not to interfere unreasonably with the conduct of business of the other party or any of its Subsidiaries.

(e) Notwithstanding anything in this Section 5.08 to the contrary, neither Company nor Buyer shall be required to provide the other party with access to or to disclose information that such party or its Subsidiary bank's board of directors has been advised by counsel that such disclosure of which to the other party would violate a confidentiality obligation or fiduciary duty or any Law or regulation, or would result in its waiver of or jeopardize the attorney-client privilege held by such party or its Subsidiaries. In the event any of the restrictions in this Section 5.08(e) shall apply, each party shall use commercially reasonable efforts to provide or obtain appropriate consents, waivers, decrees and approvals necessary to satisfy any confidentiality issues relating to documents prepared or held by third parties (including work papers), and the parties will use commercially reasonable efforts to make appropriate alternate disclosure arrangements, including adopting additional specific procedures to protect the confidentiality of sensitive material and to ensure compliance with applicable Laws.

Section 5.09. Disclosure Schedules. During the period from the date of this Agreement to the Effective Time, the Buyer Parties and the Company Parties agree to provide each other with supplemental disclosure schedules reflecting

inaccurate thereby (a **Schedule Supplement**). The delivery of any Schedule Supplement shall not cure any breach by, or modify any representation or warranty of, this Agreement by the party delivering such Schedule Supplement.

Section 5.10. *No Solicitation by Company; Superior Proposals.*

(a) Subject to Section 5.10(b), Company shall not, and shall cause its Subsidiaries and each of their respective officers, directors and employees not to, and will not authorize any investment bankers, financial advisors, attorneys, accountants, consultants, affiliates or other agents of Company or any Subsidiary of Company (collectively, the **Company Representatives**) to, directly or indirectly: (i) initiate, solicit, knowingly induce or encourage, or knowingly take any action to facilitate the making of, any inquiry, offer or proposal which constitutes, or could reasonably be expected to lead to, an Acquisition Proposal; (ii) participate in any discussions or negotiations with any Person (other than, for the avoidance of doubt, its officers, directors, employees and advisors or Buyer) regarding any Acquisition Proposal or furnish, or otherwise afford access, to any Person (other than, for the avoidance of doubt, its officers, directors, employees and advisors or Buyer) any non-public information or data with respect to Company or any of its Subsidiaries in connection with an Acquisition Proposal; (iii) release any Person from, waive any provisions of, or fail to enforce any confidentiality agreement or standstill agreement to which Company is a party; or (iv) enter into any agreement, agreement in principle or letter of intent with respect to any Acquisition Proposal or approve or resolve to approve any Acquisition Proposal or any agreement, agreement in principle or letter of intent relating to an Acquisition Proposal. Any violation of the foregoing restrictions by any of the Company Representatives, whether or not such Company Representative is so authorized and whether or not such Company Representative is purporting to act on behalf of Company or otherwise, shall be deemed to be a breach of this Agreement by Company. Company and its Subsidiaries shall, and shall cause each of the Company Representatives to, immediately cease and cause to be terminated any and all existing discussions, negotiations, and communications with any Persons with respect to any existing or potential Acquisition Proposal.

(b) Notwithstanding Section 5.10(a) or any other provision of this Agreement, prior to the date of the Company Meeting, Company may take any of the actions described in Section 5.10(a) if, but only if, (A) Company has received a bona fide unsolicited written Acquisition Proposal that did not result from a breach of this Section 5.10; (B) Company Board reasonably determines in good faith, after consultation with and having considered the advice of its outside financial advisor and outside legal counsel, that (1) such Acquisition Proposal constitutes or is reasonably likely to lead to a Superior Proposal and (2) the failure to take such actions would be inconsistent with its fiduciary duties to Company's shareholders under applicable Law; (C) Company has provided Buyer with at least three (3) Business Days' prior notice of such determination; and (D) prior to furnishing or affording access to any information or data with respect to Company or any of its Subsidiaries or otherwise relating to an Acquisition Proposal, Company receives from such Person a confidentiality agreement with terms no less favorable to Company than those contained in the confidentiality agreement with Buyer (it being understood that nothing therein shall have the effect of a standstill provision). Company shall promptly provide to Buyer any non-public information regarding Company or its Subsidiaries provided to any other Person which was not previously provided to Buyer, such additional information to be provided no later than the date of provision of such information to such other party.

(c) Company shall promptly (and in any event within 24 hours) notify Buyer in writing if any proposals or offers are received by, any information is requested from, or any negotiations or discussions are sought to be initiated or continued with, Company or the Company Representatives, in each case in connection with any Acquisition Proposal, and such notice shall indicate the name of the Person initiating such discussions or negotiations or making such proposal, offer or information request and the material terms and conditions of any proposals or offers (and, in the case of written materials relating to such proposal, offer, information request, negotiations or discussion, providing copies of such materials (including e-mails or other electronic communications) except to the extent that such materials constitute confidential information of the party making such offer or proposal under an effective

confidentiality agreement). Company agrees that it shall keep Buyer

informed, on a reasonably current basis, of the status and terms of any such proposal, offer, information request, negotiations or discussions (including any amendments or modifications to such proposal, offer or request).

(d) Subject to Section 5.10(e), neither Company Board nor any committee thereof shall: (i) withhold, withdraw, change, qualify, amend or modify, or publicly propose to withdraw, change, qualify, amend or modify, in a manner adverse in any respect to the interest of Buyer, in connection with the transactions contemplated by this Agreement (including the Merger), or take any other action or make any other statement inconsistent with, the Company Recommendation, fail to reaffirm the Company Recommendation within three (3) Business Days following a request by Buyer, or make any statement, filing or release, in connection with the Company Meeting or otherwise, inconsistent with the Company Recommendation (it being understood that taking a neutral position or no position with respect to an Acquisition Proposal shall be considered an adverse modification of the Company Recommendation); (ii) approve or recommend, or propose to approve or recommend, any Acquisition Proposal; (iii) resolve to take, or announce an intention to take, any of the foregoing actions (each of (i), (ii) or (iii) a **Company Subsequent Determination**); or (iv) enter into (or cause Company or any of its Subsidiaries to enter into) any letter of intent, agreement in principle, acquisition agreement or other agreement (A) related to any Acquisition Transaction (other than a confidentiality agreement entered into in accordance with the provisions of Section 5.10(b)) or (B) requiring Company to abandon, terminate or fail to consummate the Merger or any other transaction contemplated by this Agreement.

(e) Notwithstanding Section 5.10(d), prior to the date of the Company Meeting, Company Board may make a Company Subsequent Determination after the fifth (5th) Business Day following Buyer's receipt of a notice (the **Notice of Superior Proposal**) from Company advising Buyer that Company Board has decided that a bona fide unsolicited written Acquisition Proposal that it received (that did not result from a breach of this Section 5.10) constitutes a Superior Proposal if, but only if, (i) Company Board has determined in good faith, after consultation with and having considered the advice of outside legal counsel and its financial advisor, that the failure to take such actions would be inconsistent with its fiduciary duties to Company's shareholders under applicable Law (it being understood that the initial determination under this clause (i) will not be considered a Company Subsequent Determination), (ii) during the five (5) Business Day period after receipt of the Notice of Superior Proposal by Buyer (the **Notice Period**), Company and Company Board shall have cooperated and negotiated in good faith with Buyer to make such adjustments, modifications or amendments to the terms and conditions of this Agreement as would enable Company to proceed with the Company Recommendation without a Company Subsequent Determination; *provided, however*, that Buyer shall not have any obligation to propose any adjustments, modifications or amendments to the terms and conditions of this Agreement, and (iii) at the end of the Notice Period, after taking into account any such adjusted, modified or amended terms, if any, as may have been proposed by Buyer since its receipt of such Notice of Superior Proposal, Company Board has again in good faith made the determination (A) in clause (i) of this Section 5.10(e) and (B) that such Acquisition Proposal constitutes a Superior Proposal. In the event of any material revisions to the Superior Proposal, Company shall be required to deliver a new Notice of Superior Proposal to Buyer and again comply with the requirements of this Section 5.10(e), except that the Notice Period shall be reduced to three (3) Business Days.

(f) Notwithstanding any Company Subsequent Determination, this Agreement shall be submitted to Company's shareholders at the Company Meeting for the purpose of voting on the approval of this Agreement and the transactions contemplated hereby (including the Merger) and nothing contained herein shall be deemed to relieve Company of such obligation; *provided, however*, that if Company Board shall have made a Company Subsequent Determination with respect to a Superior Proposal, then Company Board may recommend approval of such Superior Proposal by the shareholders of Company and may submit this Agreement to Company's shareholders without recommendation, in which event Company Board shall communicate the basis for its recommendation of such Superior Proposal and the basis for its lack of a recommendation with respect to this Agreement and the transactions

contemplated hereby to Company's shareholders in the Proxy Statement-Prospectus or an appropriate amendment or supplement thereto.

Section 5.11. *Indemnification.*

(a) For a period of six (6) years from and after the Effective Time, and in any event subject to the provisions of Section 5.11(b)(iii), Buyer shall indemnify and hold harmless the present and former directors and officers of the Company Parties (the **Indemnified Parties**), against all costs or expenses (including reasonable attorney's fees), judgments, fines, losses, claims, damages, or liabilities incurred in connection with any actual or threatened claim, action, suit, proceeding or investigation, whether civil, criminal, administrative or investigative arising out of actions or omissions of such Persons in the course of performing their duties for Company or Company Bank or any of their respective subsidiaries occurring at or before the Effective Time (including the transactions contemplated by this Agreement) (each a **Claim**), to the same extent as such Persons have the right to be indemnified pursuant to Company's articles of incorporation and bylaws in effect on the date of this Agreement, to the extent permitted by applicable Law and in connection with any such Claim promptly advance expenses from time to time as incurred, to the same extent as such Persons have the right to expense advancement pursuant to Company's articles of incorporation and bylaws in effect on the date of this Agreement, to the extent permitted by applicable Law, *provided*, the Person to whom expenses are advanced provides a reasonable and customary undertaking (which shall not include posting of any collateral) to repay such advances, if it is ultimately determined that such Person is not entitled to indemnification.

(b) Any Indemnified Party wishing to claim indemnification under this Section 5.11 shall promptly notify Buyer upon learning of any Claim, *provided*, that failure to so notify shall not affect the obligation of Buyer under this Section 5.11, unless, and only to the extent that, Buyer is materially prejudiced in the defense of such Claim as a consequence. In the event of any such Claim (whether asserted or claimed prior to, at or after the Effective Time), (i) (A) Buyer shall have the right to assume the defense thereof and Buyer shall not be liable to such Indemnified Parties for any legal expenses or other counsel or any other expenses subsequently incurred by such Indemnified Parties in connection with the defense thereof, unless such Indemnified Party is advised in writing by counsel that the defense of such Indemnified Party by Buyer would create an actual or potential conflict of interest (in which case, Buyer shall not be obligated to reimburse or indemnify any Indemnified Party for the expenses of more than one such separate counsel for all Indemnified Parties, in addition to one local counsel in the jurisdiction where defense of any Claim has been or is to be asserted), and (B) the Indemnified Parties will cooperate in the defense of any such matter, (ii) Buyer shall not be liable for any settlement effected without its prior written consent and Buyer shall not settle any Claim without such Indemnified Party's prior written consent (which consent shall not be unreasonably withheld or delayed) and (iii) Buyer shall have no obligation hereunder to any Indemnified Party if such indemnification would be in violation of any applicable federal or state banking Laws or regulations, or in the event that a federal or state banking agency or a court of competent jurisdiction shall determine that indemnification of an Indemnified Party in the manner contemplated hereby is prohibited by applicable Laws and regulations, whether or not related to banking Laws.

(c) For a period of six (6) years following the Effective Time, Buyer will use its commercially reasonable efforts to purchase and provide director's and officer's liability insurance (herein, **D&O Insurance**) that serves to reimburse the present and former officers and directors of Company or its Subsidiaries (determined as of the Effective Time) with respect to claims against such directors and officers arising from acts and omissions occurring before the Effective Time (including the transactions contemplated hereby), which insurance will contain at least the same coverage and amounts, and contain terms and conditions no less advantageous to the Indemnified Parties, as that coverage currently provided by Company, *provided* that, if Buyer is unable to maintain or obtain the insurance called for by this Section 5.11, Buyer will provide as much comparable insurance as is reasonably available (subject to the limitations described below in this Section 5.11(c)); and *provided, further*, that officers and directors of Company or its Subsidiaries may be required to make application and provide customary representations and warranties to the carrier of the D&O Insurance for the purpose of obtaining such insurance. In no event shall Buyer be required to expend for

such tail insurance a premium amount in excess of an amount equal to 200% of the annual premium paid by Company for D&O Insurance in effect as of the date of this Agreement (the **Maximum D&O Tail Premium**). If the aggregate cost of such tail insurance exceeds the Maximum D&O Tail Premium, Buyer shall obtain tail insurance coverage or a separate

A-50

tail insurance policy with the greatest coverage available for an aggregate cost not exceeding the Maximum D&O Tail Premium for, in the case of a tail insurance policy, the aggregate Maximum D&O Tail Premium for the 6-year period). At the option of Company, prior to the Effective Time and in lieu of the foregoing insurance coverage, Company may, purchase a tail policy for directors and officers liability insurance on the terms described in this Section 5.11(c) (including subject to the aggregate Maximum D&O Tail Premium, except if one or more directors elects to pay for any excess over such amount) and fully pay for such 6-year policy prior to the Effective Time, in which event Buyer's obligations under this Section 5.11(c) shall be fully satisfied. If such prepaid tail policy has been obtained by Company prior to the Effective Time, Buyer will not, and will not permit any of its Affiliates to, take any action that would reasonably be expected to result in the cancellation or modification of such policy.

(d) If Buyer or any of its successors and assigns (i) shall consolidate with or merge into any other corporation or entity and shall not be the continuing or surviving corporation or entity of such consolidation or merger or (ii) shall transfer all or substantially all of its property and assets to any individual, corporation or other entity, then, in each such case, proper provision shall be made so that the successors and assigns of Buyer and its Subsidiaries shall assume the obligations set forth in this Section 5.11.

(e) These rights shall survive consummation of the Merger and are intended to benefit, and shall be enforceable by, each Indemnified Party. After the Effective Time, the obligations of Buyer under this Section 5.11 shall not be terminated or modified in such a manner as to adversely affect any Indemnified Party unless the affected Indemnified Party shall have consented in writing to such termination or modification. If any Indemnified Party makes any claim for indemnification or advancement of expenses under this Section 5.11 that is denied by Buyer, and a court of competent jurisdiction determines that the Indemnified Party is entitled to such indemnification or advancement of expense, in whole or in part, then Buyer or the Surviving Entity shall pay such Indemnified Party's costs and expenses, including legal fees and expenses, incurred in connection with enforcing such claim against Buyer.

(f) Nothing in this Agreement is intended to, shall be construed to or shall release, waive or impair any rights to directors and officers insurance claims under any policy that is or has been in existence with respect to Company or any of its Subsidiaries for any of their respective directors, officers or other employees, it being understood and agreed that the indemnification provided for in this Section 5.11 is not prior to or in substitution for any such claims under such policies.

Section 5.12. *Employees; Benefit Plans.*

(a) Employees of Company and Company Bank shall be retained as at will employees of the Surviving Entity or Buyer Bank after the Effective Time as employees of Buyer or Buyer Bank. In addition, Company and Company Bank agree, upon Buyer's reasonable request, to facilitate discussions between Buyer and Company employees a reasonable time in advance of the Closing Date regarding employment, consulting or other arrangements to be effective prior to or following the Effective Time. Prior to the Effective Time, any interaction between Buyer and Company employees shall be coordinated by Company or Company Bank.

(b) Except as otherwise provided in this Agreement, or is otherwise determined in writing by the Buyer no less than ten (10) days preceding the Closing Date, not later than the day immediately preceding the Closing Date, Company shall take all action required to (i) cause any Company Benefit Plan that has liabilities in respect of its participants, to be fully funded to the reasonable satisfaction of Buyer; (ii) terminate via duly adopted resolution all such Company Benefit Plans, including any nonqualified deferred compensation plans or arrangements Company 401(k) Plan and the ESOP, effective immediately prior to Closing and fully vest each participant in any unvested account balances thereunder; and (iii) commence the process to pay out any vested benefits thereunder to participating and eligible Company employees in such form or forms as Company or Company Bank reasonably determined under the

applicable Company Benefit Plans and as permitted or required under applicable Law.

(c) The ESOP shall be terminated via duly adopted resolution the day immediately preceding the Closing Date (the **ESOP Termination Date**). On or prior to the ESOP Termination Date, Company shall direct the ESOP trustee to remit a sufficient number of unallocated shares of the Company Common Shares held by the ESOP's suspense account to Company or any other lender (as applicable) to repay the full outstanding balance of the ESOP loan(s). None of the unallocated shares used to repay the ESOP loan(s) will be entitled to receive any Merger Consideration. On or prior to the ESOP Termination Date, the Company shall make a contribution to the ESOP and/or take such other actions as requested by Buyer for prior years' hires in connection with the ESOP, as amended and restated effective January 1, 2016, in either case as may be directed by Buyer. All remaining unallocated Company Common Shares and other unallocated plan assets, if any, held by the ESOP shall be allocated among the participant accounts on the ESOP Termination Date in accordance with the terms of the ESOP, and, as of the Closing, all Company Common Shares held by the ESOP shall be converted into the right to receive the Merger Consideration. As soon as administratively feasible following the Closing Date, the account balances of the ESOP shall be distributed in accordance with the terms of the ESOP and the requirements of the Code and ERISA. Company shall adopt the necessary amendment(s) and board resolution(s) to effect the provisions of this Section 5.12(b), upon prior written notice and consent of Buyer. From the date of this Agreement until the ESOP Termination Date, contributions by Company to the ESOP shall continue to be accrued and made in accordance with the terms of the ESOP except as otherwise directed by Buyer in accordance with this clause (c).

This Agreement may not be amended except by an instrument in writing signed on behalf of each of the parties.

Section 9.03. *Extension; Waiver.* At any time prior to the Effective Time, the parties, by action taken or authorized by their respective board of directors, may, to the extent legally allowed, (a) extend the time for the performance of any of the obligations or other acts of the other party, (b) waive any inaccuracies in the representations and warranties contained herein or in any document delivered pursuant hereto and (c) waive compliance with any of the agreements or conditions contained herein. transactions contemplated hereby and thereby, and supersede any and all other oral or written agreements heretofore made among the parties hereto with respect to the subject matter of this Agreement. Except for the Indemnified Parties rights under Section 5.11 and shareholders of Company with respect to Article 2, each of the Buyer Parties and each of the Company Parties hereby agree that their respective representations, warranties and covenants set forth herein and therein are solely for the benefit of the other applicable parties hereto, in accordance with and subject to the terms of this Agreement, and this Agreement is not intended to, and does not, confer upon any Person (including any Person or employees who might be affected by Section 5.12), other than the parties hereto, any rights or remedies hereunder, including, the right to rely upon the representations and warranties set forth herein. The representations and warranties in this Agreement are the product of negotiations among the parties hereto and are for the sole benefit of the parties hereto. Consequently, Persons other than the parties hereto may not rely upon the representations and warranties in this Agreement as characterizations of actual facts or circumstances as of the date of this Agreement or as of any other date.

Section 9.08. Severability. Any term or provision of this Agreement which is invalid or unenforceable in any jurisdiction shall, as to that jurisdiction, be ineffective to the extent of such invalidity or unenforceability and, unless the effect of such invalidity or unenforceability would prevent the parties from realizing the major portion of the economic benefits of the Merger that they currently anticipate obtaining therefrom, shall not render invalid or unenforceable the remaining terms and provisions of this Agreement or affect the validity or enforceability of any of the terms or provisions of this Agreement in any other jurisdiction. If any provision of this Agreement is so broad as to be unenforceable, the provision shall be interpreted to be only as broad as is enforceable.

Section 9.09. Enforcement of this Agreement; Submission to Jurisdiction. The parties agree that irreparable damage would occur in the event that any of the provisions of this Agreement were not performed in accordance with their specific terms on a timely basis or were otherwise breached. It is accordingly agreed that the parties shall be entitled to an injunction or other equitable relief, without the necessity of proving actual monetary loss or posting any bond or other security, to prevent breaches of this Agreement and to enforce specifically the terms and provisions of this Agreement in any court identified in this Section 9.09, this being in addition to any other remedy to which they are entitled at Law or in equity. Each of the parties (i) irrevocably submits itself to the personal jurisdiction of all state and federal courts sitting in the State of Delaware, including to the jurisdiction of all courts to which an appeal may be taken from such courts, in any action, suit or proceeding arising out of or relating to this Agreement, any of the transactions contemplated by this Agreement or any facts and circumstances leading to its execution or performance, (ii) agrees that all claims in respect of any such action, suit or proceeding must be brought, heard and determined exclusively in the Court of Chancery of the State of Delaware (*provided* that, in the event that subject matter jurisdiction is declined by or unavailable in the Court of Chancery of the State of Delaware, then such action, suit or proceeding shall be heard and determined exclusively in any other state or federal court sitting in the State of Delaware), (iii) agrees that it shall not attempt to deny or defeat such personal jurisdiction by motion or other request for leave from such courts, (iv) agrees not to bring any action, suit or proceeding against the other party or its Affiliates arising out of or relating to this Agreement, any of the transactions contemplated by this Agreement or any facts and circumstances leading to its execution or performance in any other courts, and (v) waives any defense of inconvenient forum to the maintenance of any action, suit or proceeding so brought. Each of the parties agrees to waive any bond, surety or other security that might be required of any other party with respect to any such action, suit or proceeding, including any appeal thereof. Each of the parties agrees that service of any process, summons, notice or document in accordance with Section 9.06 shall be effective service of process for any action, suit or proceeding brought against it by the other party in connection with this Section 9.09, *provided* that nothing contained herein shall affect the right of any party to serve legal process in any other manner permitted by applicable Law.

Section 9.10. Interpretation.

(a) When a reference is made in this Agreement to sections, exhibits or schedules, such reference shall be to a Section of, or Exhibit or schedule to, this Agreement unless otherwise indicated. The table of contents and captions and headings contained in this Agreement are included solely for convenience of reference and shall be

disregarded in the interpretation of this Agreement. Whenever the words *include*, *includes* or *including* are used in this Agreement, they shall be deemed to be followed by the words *without limitation*. The parties acknowledge and agree that if an unreasonable condition is imposed on a consent, such consent will be deemed to have been withheld.

(b) The parties hereto have participated jointly in the negotiation and drafting of this Agreement and the other agreements and documents contemplated herein. In the event an ambiguity or question of intent or interpretation arises under any provision of this Agreement or any other agreement or document contemplated herein, this Agreement and such other agreements or documents shall be construed as if drafted jointly by the parties thereto, and no presumption or burden of proof shall arise favoring or disfavoring any party by virtue of authorizing any of the provisions of this Agreement or any other agreements or documents contemplated herein.

(c) Any reference contained in this Agreement to specific statutory or regulatory provisions or to any specific Governmental Authority shall include any rule or regulation promulgated thereunder and any successor statute or regulation, or successor Governmental Authority, as the case may be. Unless the context clearly indicates otherwise, the masculine, feminine, and neuter genders will be deemed to be interchangeable, and the singular includes the plural and vice versa.

(d) Unless otherwise specified, the references to *Section* and *Article* in this Agreement are to the Sections and Articles of this Agreement. When used in this Agreement, words such as *herein*, *hereinafter*, *hereof*, *hereto*, and *hereunder* refer to this Agreement as a whole, unless the context clearly requires otherwise. When used in this Agreement, references to (i) *in respect of debt previously contracted* and similar phrases include actions taken in respect thereof such as foreclosure and similar proceedings and arrangements and (ii) *foreclosure* include other similar proceedings and arrangements including a deed in lieu.

Section 9.11. *Assignment*. No party may assign either this Agreement or any of its rights, interests or obligations hereunder without the prior written approval of the other parties, and any purported assignment in violation of this Section 9.11 shall be void. Subject to the preceding sentence, this Agreement shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and permitted assigns.

Section 9.12. *Counterparts*. This Agreement may be executed and delivered by facsimile or by electronic data file and in one or more counterparts, all of which shall be considered one and the same agreement and shall become effective when one or more counterparts have been signed by each of the parties and delivered to the other parties, it being understood that all parties need not sign the same counterpart. Signatures delivered by facsimile or by electronic data file shall have the same effect as originals.

Section 9.13. *Disclosure Schedules*. The parties hereto agree that any reference in a particular Section or subsection of either the Company Party Disclosure Schedule or the Buyer Party Disclosure Schedule shall be deemed to be an exception to (or, as applicable, a disclosure for purposes of) the representations and warranties or covenants, as applicable, of the relevant party that are contained in the corresponding Section or subsection of this Agreement and to any other representations, warranties or covenants of such party that are contained in this Agreement, but only if the relevance of that reference as an exception to (or a disclosure for purposes of) such other non-corresponding representations, warranties and covenants would be readily apparent to a reasonable Person who has read that reference and such representations, warranties or covenants without any independent knowledge on the part of the reader regarding the matter(s) so disclosed. The mere inclusion of an item in either the Company Party Disclosure Schedule or the Buyer Party Disclosure Schedule as an exception to a representation, warranty or covenant shall not be deemed an admission that such item represents a material exception or material fact, event or circumstance or that such item has had or would reasonably be expected to have a Material Adverse Effect.

WHEREAS, as a condition to the willingness of Buyer to enter into the Merger Agreement, Buyer has required Shareholder to execute and deliver this Agreement.

NOW, THEREFORE, in consideration of, and as a material inducement to, Buyer entering into the Merger Agreement and proceeding with the transactions contemplated thereby, and in consideration of the expenses incurred and to be incurred by Buyer in connection therewith, Shareholder and Buyer, intending to be legally bound, hereby agree as follows:

1. Definitions. For purposes of this Agreement, capitalized terms used and not otherwise defined herein shall have the respective meanings ascribed to them in the Merger Agreement.

2. Representations and Warranties of Shareholder. Shareholder represents and warrants to and agrees with Buyer as follows:

(a) Shareholder is the beneficial owner or record owner of the Shares free and clear of any and all pledges, liens, security interests, mortgage, claims, charges, restrictions, options, title defects, or encumbrances, except as otherwise disclosed on Schedule 2(a) attached hereto. Shareholder does not own, of record or beneficially, any shares of capital stock of Company other than (i) the Original Shares and (ii) any options, warrants or other rights to acquire any additional Common Shares or any security exercisable for or convertible into Common Shares, set forth on the signature page of this Agreement (collectively, the **Options**).

(b) Shareholder has full power and authority to (i) make, enter into, and carry out the terms of this Agreement; and (ii) vote all of the Shares in the manner set forth in this Agreement without the consent or approval of, or any other action on the part of, any other person or entity (including any governmental body), except as otherwise disclosed on Schedule 2(b) attached hereto.

(c) This Agreement has been duly and validly executed and delivered by Shareholder and constitutes a valid and binding agreement of Shareholder enforceable against Shareholder in accordance with its terms. (d) No consent, approval or authorization of, or designation, declaration or filing with, any Governmental Authority or other Person on the part of the Shareholder is required in connection with the valid execution and delivery of this Agreement, except as otherwise disclosed on Schedule 2(d) attached hereto. If the Shareholder is an individual, no consent of such Shareholder's spouse is necessary under any community property or other laws in order for Shareholder to enter into and perform his or her obligations under this Agreement.

3. Agreement to Vote Shares. Shareholder agrees that, while this Agreement is in effect, at every meeting of shareholders of Company, however called, or at any adjournment or postponement thereof, or in any other circumstances in which Shareholder is entitled to vote, consent or give any other approval, except as otherwise agreed to in writing in advance by Buyer, Shareholder shall:

(a) appear at each such meeting or otherwise cause the Shares to be counted as present thereat for purposes of calculating a quorum; and

(b) vote (or cause to be voted), in person or by proxy, all the Shares (i) in favor of adoption and approval of the Merger Agreement and the transactions contemplated thereby (including, without limitation, any amendments or modifications of the terms thereof adopted in accordance with the terms thereof); (ii) against any action or agreement that could reasonably be expected to result in a breach of any covenant, representation or warranty or any other obligation or agreement of Company contained in the Merger Agreement or of Shareholder contained in this Agreement; and (iii) against any Acquisition Proposal or any other action, agreement or transaction that is intended, or could reasonably be expected, to materially impede, interfere or be inconsistent with, delay, postpone, discourage, materially and adversely affect or inhibit the timely consummation of the transactions contemplated by the Merger Agreement or this Agreement.

Shareholder further agrees not to vote or execute any written consent to rescind or amend in any manner any prior vote or written consent, as a shareholder of Company, to approve or adopt the Merger Agreement unless this Agreement shall have been terminated in accordance with its terms.

While this Agreement is in effect, Shareholder agrees not to, directly or indirectly, sell, assign, transfer, tender, exchange, pledge, hypothecate, or otherwise dispose of, or enter into any contract option, commitment or other arrangement or understanding with respect to the sale, assignment, transfer, tender, exchange, pledge, hypothecation or other disposition of, or grant or create a lien, security interest, or encumbrance in or upon, or gift, grant, or place in trust of, any of the Shares; *provided, however*, that transfers by will or operation of law shall be permitted, in which case this Agreement shall bind the transferee. Without limiting the generality of the foregoing, except for this Agreement and as otherwise permitted by this Agreement, Shareholder shall not enter into any voting agreement with any person or entity with respect to any of the Shares, grant any person or entity any proxy (revocable or irrevocable) or power of attorney with respect to any of the Shares, deposit any of the Shares in a voting trust, or otherwise enter into any agreement or arrangement with any person or entity limiting or affecting Shareholder's legal power, authority, or right to vote the Shares in favor of the approval of the Merger Agreement and the transactions contemplated thereby. Any transfer or other disposition in violation of the terms of

this Section 4 shall be null and void.

5. Additional Shares. Shareholder agrees that all Common Shares that Shareholder purchases, acquires the right to vote or otherwise acquires the beneficial ownership of during the period from and including the date

hereof through and including the date on which this Agreement is terminated in accordance with its terms, shall be subject to the terms of this Agreement and shall constitute Shares for all purposes of this Agreement.

6. No Agreement as Director or Officer. If Shareholder is an individual, Shareholder makes no agreement or understanding in this Agreement in Shareholder's capacity as a director or officer of the Company or any of its subsidiaries (if Shareholder holds such office) and noting in this Agreement: (a) will limit or affect any actions or omissions taken by Shareholder in Shareholder's capacity as such a director or officer, including in exercising rights under the Merger Agreement, and no such actions or omissions shall be deemed a breach of this Agreement, or (b) will be construed to prohibit, limit or restrict Shareholder from exercising Shareholder's fiduciary duties as an officer or director to the Company or its shareholders.

7. Termination. This Agreement shall terminate and be of no further force or effect whatsoever as of the earlier of (a) termination of the Merger Agreement pursuant to Article 7 thereof or (b) the Effective Time; *provided, however,* that (i) Section 8 below shall survive the termination of this Agreement, and (ii) the termination of this Agreement shall not relieve Shareholder from any liability for any inaccuracy in or breach of any representation, warranty, or covenant contained in this Agreement.

8. Miscellaneous.

(a) **Amendments.** No amendment of this Agreement shall be effective against any party unless it shall be in writing and signed by the parties hereto.

(b) **Waivers.** No action taken pursuant to this Agreement, including any investigation by or on behalf of any party, or any failure or delay on the part of any party in the exercise of any right hereunder, shall be deemed to constitute a waiver by the party taking such action of compliance with any representations, warranties, or covenants contained in this Agreement. The waiver by any party of a breach of any provision hereunder shall not operate or be construed as a waiver of any prior or subsequent breach of the same or any other provision hereunder. Any waiver by a party of any provision of this Agreement shall be valid only if set forth in a written instrument signed on behalf of such party.

(c) **Entire Agreement.** This Agreement constitutes the entire agreement between the parties to this Agreement and supersedes all other prior agreements, arrangements, and understandings, both written and oral, between the parties with respect to the subject matter hereof.

Each of the parties hereto agrees that mailing of process or other papers in connection with any such action or proceeding in the manner provided in Section 8(n) or in such other manner as may be permitted by applicable Laws, will be valid and sufficient service thereof. Each of the parties hereto hereby irrevocably submits with regard to any such action or proceeding for itself and in respect of its property, generally and unconditionally, to the personal jurisdiction of the aforesaid courts and agrees that it will not bring any action relating to this Agreement or any of the transactions

contemplated by this Agreement in any court or tribunal other than the aforesaid courts. Each of the parties hereto hereby irrevocably waives, and agrees not to assert, by way of motion, as a defense, counterclaim or otherwise, in any action or proceeding with respect to this

(h) Assignment and Successors. This Agreement and all of the provisions hereof shall be binding upon and inure to the benefit of the parties and their respective successors and permitted assigns, including Shareholder's estate and heirs upon the death of Shareholder, provided that except as otherwise specifically provided herein, neither this Agreement nor any of the rights, interests, or obligations of the parties may be assigned or delegated by any of the parties without prior written consent of the other parties. Any assignment in violation of the foregoing shall be void and of no effect.

(i) No Third-Party Rights. Nothing in this Agreement, express or implied, is intended to or shall confer upon any person (other than the parties) any right, benefit, or remedy of any nature whatsoever under or by reason of this Agreement.

(j) Further Assurances. Shareholder agrees to cooperate fully with Buyer and to execute and deliver such further documents, certificates, agreements, and instruments and to take such other actions as may be reasonably requested by Buyer to evidence or reflect the transactions contemplated by this Agreement and to carry out the intent and purpose of this Agreement. Shareholder agrees to notify Buyer promptly of any additional shares of capital stock of Company of which Shareholder becomes the record or beneficial owner after the date of this Agreement.

With respect to the Projections and any other information and data provided to or otherwise reviewed by or discussed with us, we have, with your consent, assumed that the Projections and such other information and data have been reasonably prepared in good faith on bases reflecting the best currently available estimates and judgments of management of the Company, and we have relied upon the Company to advise us promptly if any information previously provided became inaccurate or was required to be updated during the period of our review. We express no opinion with respect to the Projections or the assumptions on which they are based. We have assumed that the final form of the Agreement will be substantially similar to the draft reviewed by us, and that the Transaction will be consummated in accordance with the terms of the Agreement without waiver or amendment of any conditions thereto. Furthermore, we have assumed, in all respects material to our analysis, that the representations and warranties of each party contained in the Agreement are true and correct and that each such party will perform all of the covenants and agreements required to be performed by it under the Agreement without being waived. We have relied upon and assumed, without independent verification, that (i) the Transaction will be consummated in a manner that complies in all respects with all applicable international, federal and state statutes, rules and regulations, and (ii) all governmental, regulatory, and other consents and approvals necessary for the consummation of the Transaction will be obtained and that no delay, limitations, restrictions or conditions will be imposed or amendments, modifications or waivers made that would have an effect on the Transaction or the Company that would be material to our analyses or this Opinion.

We express no opinion as to the legal, regulatory, accounting and tax matters relating to the Transaction, and have relied upon, without independent verification, the assessment of the Company's management and its legal, tax, accounting and regulatory advisors with respect to all legal, tax, accounting and regulatory matters, including without limitation that the Transaction will qualify as a reorganization within the meaning of Section 368(a) and related

sections of the Internal Revenue Code of 1986, as amended.

Our opinion is based upon market, economic, financial and other circumstances and conditions existing and disclosed to us as of January 5, 2018 and any material change in such circumstances and conditions would require a reevaluation of this Opinion. We have no obligation to reaffirm, update or revise this Opinion or

otherwise comment upon any event occurring after January 5, 2018. We have relied upon and assumed, without independent verification, that there has been no change in the business, assets, liabilities, financial condition, results of operations, cash flows or prospects of the Company or Crestmark since the respective dates of the most recent financial statements and other information, financial or otherwise, provided to us that would be material to our analyses or this Opinion, and that there is no information or any facts that would make any of the information reviewed by us incomplete or misleading in any material respect.

We express no opinion as to the underlying business decision to effect the Transaction, the structure or tax consequences of the Transaction or the availability or advisability of any alternatives to the Transaction. We provided advice to the Company with respect to the proposed Transaction. We did not, however, recommend any specific amount of consideration or that any specific consideration constituted the only appropriate consideration for the Transaction. This letter does not express any opinion as to the likely trading range of the Company's stock following the Transaction, which may vary depending on numerous factors that generally impact the price of securities or on the financial condition of the Company at that time. Our opinion is limited to the fairness, from a financial point of view, of the Exchange Ratio in the Transaction to the Company. We express no opinion with respect to any other reasons, legal, business, or otherwise, that may support the decision of the Board of Directors to approve or consummate the Transaction.

In formulating our opinion, we have considered only what we understand to be the Exchange Ratio in the Transaction as described above and we did not consider and we express no opinion on the fairness of the amount or nature of any compensation to be paid or payable to any of Crestmark's officers, directors or employees, or class of such persons, whether relative to the consideration paid by the Company or otherwise. We have not been requested to opine as to, and this Opinion does not express an opinion as to or otherwise address, among other things: (1) the fairness of the Transaction to the holders of any class of securities, creditors, or other constituencies of the Company, or to any other party, except and only to the extent expressly set forth in the last sentence of this Opinion or (2) the fairness of the Transaction to any one class or group of the Company's or any other party's security holders or other constituencies vis-à-vis any other class or group of the Company's or such other party's security holders or other constituents (including, without limitation, the allocation of any consideration to be received in the Transaction amongst or within such classes or groups of security holders or other constituents). We are not expressing any opinion as to the impact of the Transaction on the solvency or viability of the Company or Crestmark or the ability of the Company or Crestmark to pay their respective obligations when they come due.

The delivery of this opinion was approved by an opinion committee of Raymond James.

Raymond James has been engaged to render financial advisory services to the Company in connection with the proposed Transaction and will receive a fee for such services, a substantial portion of which is contingent upon consummation of the Transaction. Raymond James will also receive a fee upon the delivery of this Opinion, which is not contingent upon the successful completion of the Transaction or on the conclusion reached herein. In addition, the

Company has agreed to reimburse certain of our expenses and to indemnify us against certain liabilities arising out of our engagement.

In the ordinary course of our business, Raymond James may trade in the securities of the Company for our own account or for the accounts of our customers and, accordingly, may at any time hold a long or short position in such securities. Raymond James has provided certain services to the Company (in the previous two years), including providing investment banking advisory services, for which it has been paid a fee. Furthermore,

Raymond James may provide investment banking, financial advisory and other financial services to the Company and/or Crestmark or their respective affiliates or other participants in the Transaction in the future, for which Raymond James may receive compensation.

It is understood that this letter is for the information of the Board (solely in each directors capacity as such) in evaluating the proposed Transaction and does not constitute a recommendation to any shareholder of the Company regarding how said shareholder should vote on the proposed Transaction or any other matter. Furthermore, this letter should not be construed as creating any fiduciary duty on the part of Raymond James to any such party. Board of Directors

Crestmark Bancorp Inc.

5480 Corporate Drive, Suite 350

Troy, MI 48098

Ladies and Gentlemen:

Crestmark Bancorp Inc. (*Company*), Crestmark Bank, a wholly-owned subsidiary of Company (*Company Bank*), Meta Financial Group, Inc. (*Buyer*) and MetaBank, a wholly-owned subsidiary of Buyer (*Buyer Bank*), are proposing to enter into an Agreement and Plan of Merger (the *Agreement*) pursuant to which Company will merge with and into Buyer with Buyer being the surviving entity (the *Merger*). Pursuant to the terms and conditions of the Agreement, at the Effective Time, each share of common stock, no par value, of Company (*Company Common Stock*) issued and outstanding immediately prior to the Effective Time, except for certain shares of Company Common Stock as specified in the Agreement, will be converted into the right to receive 2.65 shares (the *Exchange Ratio*) of common stock, par value \$0.01 per share, of Buyer (*Buyer Common Stock*). Capitalized terms used herein without definition shall have the meanings assigned to them in the Agreement. The terms and conditions of the Merger are more fully set forth in the Agreement. You have requested our opinion as to the fairness, from a financial point of view, of the Exchange Ratio to the holders of Company Common Stock.

Sandler O'Neill & Partners, L.P. (*Sandler O'Neill* , *we* or *our*), as part of its investment banking business, is regularly engaged in the valuation of financial institutions and their securities in connection with mergers and acquisitions and other corporate transactions. In connection with this opinion, we have reviewed and considered, among other things: (i) a draft of the Agreement, dated January 3, 2018; (ii) certain publicly available financial statements and other historical financial information of Company and Company Bank that we deemed relevant; (iii) certain publicly available financial statements and other historical financial information of Buyer and Buyer Bank that we deemed relevant; (iv) certain internal financial projections for Company for the years ending December 31, 2017 through December 31, 2021, as provided by the senior management of Company; (v) publicly available consensus mean analyst earnings per share estimates for Buyer for the years ending September 30, 2018 and September 30, 2019, as well as long-term earnings per share estimates for the years ending September 30, 2020 through September 30, 2022 and estimated dividends per share for the years ending September 30, 2018 through September 30, 2022, as provided by the senior management of Buyer; (vi) the pro forma financial impact of the Merger on Buyer based on certain assumptions relating to purchase accounting adjustments, cost savings and transaction expenses, as provided by the senior management of Buyer, as well as financial projections for Company for the years ending September 30, 2018 through September 30, 2021, as adjusted by the senior management of Buyer; (vii) the publicly reported historical price and trading activity for Buyer Common Stock, including a comparison of certain stock market information for Buyer Common Stock and certain stock indices as well as publicly available information for certain other similar

companies, the

securities of which are publicly traded; (viii) a comparison of certain financial information for Company and Buyer with similar financial institutions for which information is publicly available; (ix) the financial terms of certain recent business combinations in the banking industry (on a nationwide basis), to the extent publicly available; (x) the current market environment generally and the banking environment in particular; and (xi) such other information, financial studies, analyses and investigations and financial, economic and market criteria as we considered relevant. We also discussed with certain members of the management of Company and its representatives the business, financial condition, results of operations and prospects of Company and held similar discussions with certain members of the management of Buyer and its representatives regarding the business, financial condition, results of operations and prospects of Buyer.

In performing our review, we have relied upon the accuracy and completeness of all of the financial and other information that was available to and reviewed by us from public sources, that was provided to us by Company or Buyer or their respective representatives, or that was otherwise reviewed by us, and we have assumed such accuracy and completeness for purposes of rendering this opinion without any independent verification or investigation. We have relied on the assurances of the respective managements of Company and Buyer that they are not aware of any facts or circumstances that would make any of such information inaccurate or misleading. We have not been asked to and have not undertaken an independent verification of any of such information and we do not assume any responsibility or liability for the accuracy or completeness thereof. We did not make an independent evaluation or perform an appraisal of the specific assets, the collateral securing assets or the liabilities (contingent or otherwise) of Company or Buyer or any of their respective subsidiaries, nor have we been furnished with any such evaluations or appraisals. We render no opinion or evaluation on the collectability of any assets or the future performance of any loans of Company or Buyer. We did not make an independent evaluation of the adequacy of the allowance for loan losses of Company or Buyer, or of the combined entity after the Merger, and we have not reviewed any individual credit files relating to Company or Buyer. We have assumed, with your consent, that the respective allowances for loan losses for both Company and Buyer are adequate to cover such losses and will be adequate on a pro forma basis for the combined entity.

In preparing its analyses, Sandler O'Neill used certain internal financial projections for Company for the years ending December 31, 2017 through December 31, 2021, as provided by the senior management of Company. In addition, Sandler O'Neill used publicly available consensus mean analyst earnings per share estimates for Buyer for the years ending September 30, 2018 and September 30, 2019, as well as long-term earnings per share estimates for the years ending September 30, 2020 through September 30, 2022 and estimated dividends per share for the years ending September 30, 2018 through September 30, 2022, as provided by the senior management of Buyer. Sandler O'Neill also received and used in its pro forma analyses certain assumptions relating to purchase accounting adjustments, cost savings and transaction expenses, as provided by the senior management of Buyer, as well as financial projections for Company for the years ending September 30, 2018 through September 30, 2021, as adjusted by the senior management of Buyer. With respect to the foregoing information, the respective managements of Company and Buyer confirmed to us that such information reflected (or, in the case of the publicly available consensus mean analyst estimates referred to above, were consistent with) the best currently available projections, estimates and judgments of those respective managements as to the future financial performance of Company and Buyer, respectively, and the other matters covered thereby, and we assumed that the future financial performance reflected in such information would be achieved. We express no opinion as to such information, or the assumptions on which such information is based. We have also assumed that there has been no material change in the respective assets, financial condition, results of operations, business or prospects of Company or Buyer since the date of the most recent financial statements

made available to us. We have assumed in all respects material to our analysis that Company and Buyer will remain as going concerns for all periods relevant to our analysis.

We have also assumed, with your consent, that (i) each of the parties to the Agreement will comply in all material respects with all material terms and conditions of the Agreement and all related agreements, that all of the representations and warranties contained in such agreements are true and correct in all material respects, that each of the parties to such agreements will perform in all material respects all of the covenants and other obligations required to be performed by such party under such agreements and that the conditions precedent in such agreements are not and will not be waived, (ii) in the course of obtaining the necessary regulatory or third party approvals, consents and releases with respect to the Merger, no delay, limitation, restriction or condition will be imposed that would have an adverse effect on Company, Buyer or the Merger or any related transaction, (iii) the Merger and any related transactions will be consummated in accordance with the terms of the Agreement without any waiver, modification or amendment of any material term, condition or agreement thereof and in compliance with all applicable laws and other requirements, and (iv) the Merger will qualify as a tax-free reorganization for federal income tax purposes. Finally, with your consent, we have relied upon the advice that Company has received from its legal, accounting and tax advisors as to all legal, accounting and tax matters relating to the Merger and the other transactions contemplated by the Agreement. We express no opinion as to any such matters.

Our opinion is necessarily based on financial, economic, market and other conditions as in effect on, and the information made available to us as of, the date hereof. Events occurring after the date hereof could materially affect this opinion. We have not undertaken to update, revise, reaffirm or withdraw this opinion or otherwise comment upon events occurring after the date hereof. We express no opinion as to the trading value of Buyer Common Stock at any time or what the value of Buyer Common Stock will be once it is actually received by the holders of Company Common Stock.

We have acted as Company's financial advisor in connection with the Merger and will receive a fee for our services, a substantial portion of which is contingent on the closing of the Merger. We will also receive a fee for rendering this opinion, which opinion fee will be credited in full towards the transaction fee which will become payable to Sandler O'Neill on the day of closing of the Merger. Company has also agreed to indemnify us against certain claims and liabilities arising out of our engagement and to reimburse us for certain of our out-of-pocket expenses incurred in connection with our engagement. We have not provided any other investment banking services to Company in the two years preceding the date of this opinion. In the two years preceding the date hereof we have provided certain investment banking services to, and received investment banking fees from, Buyer and Buyer Bank. Most recently, Sandler O'Neill acted as sole bookrunner in connection with Buyer's offer and sale of subordinated debt, which transaction occurred in August 2016. In addition, Sandler O'Neill acted as financial advisor to Buyer Bank in connection with its acquisition of Specialty Consumer Services LP, which transaction closed in December 2016, as well as Buyer Bank's acquisition of EPS Financial, LLC, which transaction closed in November 2016. In the ordinary course of our business as a broker-dealer, we may purchase securities from and sell securities to Buyer and its affiliates. We may also actively trade the equity and debt securities of Buyer and its affiliates for our own account and for the accounts of our customers.

Our opinion is directed to the Board of Directors of Company in connection with its consideration of the Agreement and the Merger and does not constitute a recommendation to any shareholder of Company as to how any such shareholder should vote at any meeting of shareholders called to consider and vote upon the approval of

D-3

Table of Contents

the Agreement and the Merger. Our opinion is directed only to the fairness, from a financial point of view, of the Exchange Ratio to the holders of Company Common Stock and does not address the underlying business decision of Company to engage in the Merger, the form or structure of the Merger or any other transactions contemplated in the Agreement, the relative merits of the Merger as compared to any other alternative transactions or business strategies that might exist for Company or the effect of any other transaction in which Company might engage. We also do not express any opinion as to the fairness of the amount or nature of the compensation to be received in the Merger by any officer, director or employee of Company or Buyer, or any class of such persons, if any, relative to the compensation to be received in the Merger by any other shareholder. This opinion has been approved by Sandler O'Neill's fairness opinion committee. This opinion shall not be reproduced without Sandler O'Neill's prior written consent; provided, however, Sandler O'Neill will provide its consent for the opinion to be included in regulatory filings to be completed in connection with the Merger.

Based upon and subject to the foregoing, it is our opinion that, as of the date hereof, the Exchange Ratio is fair to holders of Company Common Stock from a financial point of view.

Very truly yours,

/s/ Sandler O'Neill & Partners L.P.

PART II

INFORMATION NOT REQUIRED IN PROSPECTUS

Item 20. Indemnification of Directors and Officers

Section 145 of the DGCL, provides that a corporation may indemnify any person who was or is a party, or is threatened to be made a party, to any threatened, pending or completed action, suit or proceeding whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that he or she is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by him or her in connection with such action, suit or proceeding if he or she acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful. Section 145 further provides that a corporation similarly may indemnify any such person serving in any such capacity who was or is a party, or is threatened to be made a party, to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor, against expenses actually and reasonably incurred in connection with the defense or settlement of such action or suit if he or she acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the best interests of the corporation. No indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Delaware Court of Chancery or such other court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper.

The DGCL further authorizes a Delaware corporation to purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation or enterprise, against any liability asserted against him and incurred by him in any such capacity, arising out of his status as such, whether or not the corporation would otherwise have the power to indemnify him under Section 145.

Section 102(b)(7) of the DGCL permits a corporation to provide in its certificate of incorporation that a director of the corporation shall not be personally liable to the corporation or its stockholders for monetary damages for breach of fiduciary duty as a director, except for liability for any breach of the director's duty of loyalty to the corporation or its stockholders, for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, for payments of unlawful dividends or unlawful stock repurchases or redemptions or for any transaction from which the director derived an improper personal benefit.

Article ELEVENTH of Meta's certificate of incorporation (Article ELEVENTH), provides that each person who was or is made a party or is threatened to be made a party to or is otherwise involved in any action, suit or proceeding, whether civil, criminal, administrative or investigative (a Proceeding), by reason of the fact that he or she is or was a director or an officer of Meta or is or was serving at the request of Meta as a director or officer of another corporation, including, without limitation, any subsidiary, partnership, joint venture, trust or other enterprise, including service with respect to an employee benefit plan (or to any employee or agent of Meta that a majority of disinterested directors of Meta grants the rights provided by Article ELEVENTH) (an Indemnitee), whether the basis of such Proceeding is alleged action in an official capacity as a director or officer or in any other capacity while serving as a director or officer, shall be indemnified and held harmless by Meta to the fullest extent provided by the DGCL, as

amended (to the extent such amendment permits Meta to provide broader indemnification rights than such law permitted prior to such amendment), against all expense, liability and loss (including attorneys' fees, judgments, fines, ERISA excise taxes or penalties and amounts paid in settlement) reasonably incurred or suffered by such Indemnitee in connection therewith; provided, however, that, with respect to Proceedings to enforce rights to indemnification (except suits brought under certain circumstances by the Indemnitee against Meta to recover unpaid amounts of claims), Meta shall indemnify any such Indemnitee in connection with a Proceeding (or part thereof) initiated by such Indemnitee only if such Proceeding (or part thereof) was authorized by the board of directors of Meta.

The right to indemnification conferred by Article ELEVENTH includes the right of the Indemnitee to be advanced expenses by Meta; provided, however, that an advancement of expenses incurred by an Indemnitee in his or her capacity as a director or officer (and not in any other capacity in which service was or is rendered by such Indemnitee, including, without limitation, service to an employee benefit plan) shall be made only upon delivery to Meta of an undertaking, by or on behalf of such Indemnitee, to repay all amounts so advanced if it shall ultimately be determined by final judicial decision from which there is no further right to appeal, that such Indemnitee is not entitled to be indemnified for such expenses under Article ELEVENTH or otherwise.

Article ELEVENTH also provides that Meta may maintain insurance, at its expense, to protect itself and any director, officer, employee or agent of Meta or another corporation, partnership, joint venture, trust or other enterprise against any expense, liability or loss, whether or not Meta would have the power to indemnify such person against such expense, liability or loss under the DGCL.

Item 22. Undertakings

The undersigned registrant hereby undertakes:

(a) To file, during any period in which it offers or sells securities, a post-effective amendment to this registration statement:

(1) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933.

(2) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) that, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the SEC pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement.

(3) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.

(b) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

(c) To remove from registration by means of a post-effective amendment any of the securities being registered that remain unsold at the termination of the offering.

(d) For purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Exchange Act) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

(e) That prior to any public reoffering of the securities registered hereunder through use of a prospectus that is a part of this registration statement, by any person or party who is deemed to be an underwriter within the meaning of Rule 145(c), the issuer undertakes that such reoffering prospectus will contain the information called for by the applicable registration form with respect to reofferings by persons who may be deemed underwriters, in addition to the information called for by the other items of the applicable form.

(f) That every prospectus (1) that is filed pursuant to paragraph (e) immediately preceding, or (2) that purports to meet the requirements of Section 10(a)(3) of the Securities Act of 1933 and is used in connection with an offering of securities subject to Rule 415, will be filed as a part of an amendment to the registration statement and will not be used until such amendment is effective, and that, for purposes of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

(g) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the provisions described in Item 20 above, or otherwise, the registrant has been informed that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question of whether such indemnification by it is against public policy as expressed in the Securities Act of 1933 and will be governed by the final adjudication of such issue.

(h) To respond to requests for information that is incorporated by reference into the prospectus pursuant to Item 4, 10(b), 11, or 13 of this form, within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means. This includes information contained in documents filed subsequent to the effective date of the registration statement through the date of responding to the request.
