**Item 8.01 Other Events.**

On October 19, 2018, Citizens Financial Group, Inc. ( CFG or Citizens ) reported third quarter net income of \$443 million, up 27% from \$348 million in third quarter 2017 with earnings per diluted common share of \$0.91, up 34% from \$0.68 in third quarter 2017. Third quarter 2018 net income increased \$18 million, or 4%, from second quarter 2018 and diluted earnings per common share increased \$0.03, or 3%. Third quarter 2018 Return on Average Tangible Common Equity\* ( ROTCE ) of 13.3% increased 3.2% from third quarter 2017 and increased from 12.9% in second quarter 2018. Third quarter 2018 results reflect the impact of the Franklin American Mortgage Company ( FAMC ) acquisition on August 1, 2018 and include a \$7 million after-tax, or \$0.02 earnings per share, impact of notable items tied to the FAMC integration.\*

Excluding notable items, Underlying\* third quarter 2018 net income of \$450 million increased \$102 million, or 29%, and earnings per diluted common share of \$0.93 increased \$0.25, or 37%, from third quarter 2017. Third quarter 2018 net income increased \$25 million, or 6%, and earnings per diluted common share increased \$0.05, or 6%, from second quarter 2018. ROTCE\* of 13.5% improved from 10.1% in third quarter 2017 and 12.9% in second quarter 2018.

On October 19, 2018, Citizens also announced that its board of directors declared a fourth quarter 2018 cash dividend of \$0.27 per common share. The dividend is payable on November 14, 2018 to stockholders of record at the close of business on October 31, 2018.

\* Please see important information on Key Performance Metrics and Non-GAAP Financial Measures, as applicable, at the end of this report for an explanation of our use of these metrics and non-GAAP financial measures and their reconciliations to GAAP financial measures. Underlying results exclude the impact of notable items. Where there is a reference to Underlying results in a paragraph, all measures that follow these references are on the same basis, when applicable. References to Underlying results excluding FAMC adjust for the impact of the August 1, 2018 FAMC acquisition. Additional information regarding the impact of the FAMC acquisition and notable items may be found in the Discussion of Results portion of this report. Throughout this report, references to consolidated and/or commercial loans and loan growth include leases. Loans held for sale are also referred to as LHFS. Current reporting-period regulatory capital ratios are preliminary. Select totals may not foot due to rounding.

## **Third Quarter 2018 vs. Second Quarter 2018**

### **Key Highlights**

Third quarter highlights include 2% growth in net interest income, reflecting higher loan yields, and 7% growth in noninterest income, driven by growth in mortgage banking fees, service charges and fees, trust and investment services fees, other income and card fees. Mortgage banking fees increased \$22 million, driven by the FAMC acquisition.

Efficiency ratio of 58.2% remained relatively stable, despite the 1.25% increase tied to the FAMC acquisition. Excluding the impact of FAMC, the Underlying efficiency ratio\* improved by 100 basis points to 57.0%, given expense discipline, and positive operating leverage was 1.8%.

ROTCE improved to 13.3% from 12.9%; 13.5% on an Underlying basis.\*

Tangible book value per common share of \$27.66 remained relatively stable. Fully diluted average common shares outstanding decreased 8.5 million shares, or 2%.

### **Results**

Total revenue of \$1.6 billion increased 4%, reflecting strength in net interest income and noninterest income.

Net interest income of \$1.1 billion increased \$27 million, or 2%, driven by higher loan yields, loan growth and the benefit of day count.

Net interest margin of 3.19% reflects two basis points of net interest margin expansion, largely tied to higher loan yields, partially offset by a one basis point reduction tied to the FAMC acquisition. Net interest margin, excluding the impact of FAMC,\* improved two basis points to 3.20%.

Noninterest income of \$416 million increased \$28 million, or 7%, driven by the \$24 million impact of the FAMC acquisition, largely in mortgage banking fees, as well as higher service charges and fees and trust and investment services fees. Noninterest income, excluding the impact of FAMC,\* of \$392 million increased \$4 million, or 1%.

Noninterest expense of \$910 million increased \$35 million, or 4%, driven by the \$34 million impact of the FAMC acquisition and notable items.\* Underlying\* noninterest expense, excluding the impact of FAMC, of \$876 million was stable, reflecting continued execution against our efficiency initiatives.

Provision for credit losses of \$78 million decreased \$7 million, or 8%, given a decrease in reserves tied to improvements in credit quality in retail real estate-secured products.

**Balance Sheet**

Average interest-earning assets increased \$1.6 billion, or 1%, which includes a \$790 million increase tied to the FAMC acquisition, largely in loans held for sale. Results also reflect loan growth of 1% with particular strength in retail including residential mortgage, unsecured and education as well as growth in selective commercial categories and commercial real estate.

Average deposits grew \$1.9 billion, or 2%, with strength in most categories. Results include a \$442 million increase tied to the FAMC acquisition and \$551 million tied to Citizens Access<sup>(TM)</sup>.

Nonperforming loans and leases ( NPLs ) to total loans and leases ratio of 0.73% decreased from 0.75%, and the allowance coverage of NPL ratio improved to 149% from 148%.

Net charge-offs increased modestly to 30 basis points from 27 basis points, driven by seasonally higher retail auto net charge-offs, as well as a modest increase in commercial.

Capital strength remains robust, with a common equity tier 1 ( CET1 ) risk-based capital ratio of 10.8%, which includes an approximately 18 basis point reduction tied to the FAMC acquisition.\*

Repurchased \$400 million of common stock at a weighted-average effective price of \$39.83, and including common dividends, returned \$529 million to stockholders.

### **Third Quarter 2018 vs. Third Quarter 2017**

#### **Key Highlights**

Third quarter results reflect a 28% increase in net income available to common stockholders, driven by 8% revenue growth, with 8% growth in net interest income and 9% growth in noninterest income. Underlying\* net income available to common stockholders increased 30%, while revenue, excluding the impact of FAMC,\* increased 7%.

Continued focus on top-line growth and expense management helped deliver 2.2% operating leverage and a 121 basis point improvement in the efficiency ratio to 58.2%. Underlying\* operating leverage, excluding the impact of FAMC, was 4.4%, with a 246 basis point improvement in the efficiency ratio to 57.0%.

ROTCE of 13.3% improved 3.2% from 10.1%. Underlying ROTCE of 13.5% improved 3.4%.\*

Tangible book value per common share improved to \$27.66, up 2%. Fully-diluted average common shares outstanding decreased 24.6 million shares, or 5%.

#### **Results**

Total revenue of \$1.6 billion increased \$121 million, or 8%, driven by strength in net interest income and noninterest income. Total revenue, excluding the impact of FAMC,\* of \$1.5 billion, increased \$95 million, or 7%.

Net interest income increased \$86 million, or 8%, driven by a 14 basis point improvement in net interest margin and 4% average loan growth. Net interest margin, excluding the impact of FAMC,\* improved 15 basis points to 3.20%.

Noninterest income of \$416 million increased \$35 million, or 9%, driven by strength in mortgage banking and trust and investment services fees. Noninterest income, excluding the impact of FAMC,\* of \$392 million, increased \$11 million, or 3%, reflecting higher trust and investment services fees, foreign exchange and interest rate products fees and card fees.

Noninterest expense increased \$52 million, or 6%, driven by the \$34 million impact of the FAMC acquisition and notable items.\* Underlying\* noninterest expense, excluding the impact of FAMC,\* increased \$18 million, or 2%, driven by higher salary and employee benefits tied to higher revenue-based compensation and the impact of our strategic-growth initiatives.

Provision for credit losses of \$78 million increased \$6 million, or 8%, reflecting higher commercial net charge-offs from third quarter 2017 levels that included higher recoveries in the prior period and higher retail net charge-offs tied to expected seasoning in unsecured products.

### **Balance Sheet**

Average interest-earning assets increased \$4.7 billion, or 3%, driven by 4% loan growth, reflecting a 6% increase in commercial loans and a 2% increase in retail loans, partially offset by a \$423 million, or 2% reduction in investments. The FAMC acquisition added \$790 million in average interest-earning assets. Interest-earning assets, excluding the impact of FAMC,\* increased 3%.

Average deposits increased \$4.1 billion, or 4%, driven by strength in term, demand and savings.

NPL ratio of 0.73% improved from 0.85%, reflecting improvement in commercial NPLs. Allowance coverage of NPLs of 149% improved from 131%.

Net charge-offs of 30 basis points increased 6 basis points, given higher net charge-offs in commercial from third quarter 2017 levels that included higher recoveries in the prior period, as well as seasoning in retail growth portfolios.

### **Year-Over-Year Update on Plan Execution**

#### **Consumer Banking segment**

Continued balance sheet momentum, with 3% average loan growth, highlighted by improving mix toward more attractive risk-adjusted return categories and 4% average deposit growth.

Successful launch of Citizens Access , a nationwide, digital-deposit platform with approximately \$1.0 billion raised through third quarter 2018. All key metrics tracking favorable to, or on, plan.

Closed the previously announced FAMC transaction, which is expected to expand origination capabilities, help drive scale in servicing and generate increased fee income. The FAMC transaction added a \$612 million mortgage servicing rights portfolio; conforming mix improved to 74%.

Continued progress in Wealth with 18% fee growth; managed money revenue up 23%, assets under management up 15% and number of financial advisors up 5%.

#### **Commercial Banking segment**

Continued strong balance sheet performance with average loan growth of 7%, driven by our geographic-expansion strategies and our focus on Industry Verticals as well as by strength in Private Equity

and in Commercial Real Estate. Average deposits up 2% with solid growth in savings and demand deposits.

Continue to benefit from investments to drive fee income, highlighted by a 30% increase in foreign exchange and interest rate products and an 18% increase in Commercial card fees. Capital Markets pipeline remains robust.

## Efficiency and balance sheet optimization initiatives

Launched TOP V Program, which includes efficiency and revenue initiatives, targeting pre-tax benefit of approximately \$90 – \$100 million by end of 2019. TOP IV Program initiatives are largely complete; on track to deliver end of 2018 run-rate pre-tax benefit of approximately \$105 – \$110 million.

Continued progress on Balance Sheet Optimization ( BSO ) designed to improve the loan portfolio mix toward higher-return categories and help manage deposit costs. BSO delivered approximately 4 basis points of the 14 basis point net interest margin improvement year over year, or 5 basis points excluding the impact of FAMC.\*

***Discussion of Results:***

Third quarter 2018 net income available to common stockholders of \$436 million increased \$11 million, or 3%, and fully diluted earnings per common share increased \$0.03 to \$0.91, up 3% compared to second quarter 2018 results, reflecting growth in revenue and expense as well as a reduction in provision expense. Third quarter 2018 results reflect solid revenue growth and higher noninterest expense largely tied to the FAMC acquisition as well as lower provision expense. The FAMC acquisition contributed \$2 million of net interest income, \$24 million of noninterest income and \$25 million of noninterest expense, as well as \$790 million of average interest-earning assets and \$442 million in average deposits. Additionally, CFG recorded \$9 million pre-tax, or \$7 million after-tax, of notable items tied to the FAMC integration. Third quarter 2018 EPS reflect an 8.5 million reduction in fully diluted average common shares outstanding compared to second quarter 2018.

Compared with second quarter 2018, third quarter 2018 reported results were highlighted by revenue growth of 4%, with net interest income growth of 2% and net interest margin of 3.19%, given 1% loan growth and one basis point of net interest margin expansion. Results also reflect noninterest income growth of 7% and a 4% increase in noninterest expense, a relatively stable efficiency ratio of 58.2%, and relatively stable operating leverage. Provision for credit losses decreased 8%, given a decrease in reserves tied to improvements in credit quality in retail real estate-secured products. ROTCE improved to 13.3% from 12.9%.\*

Compared with third quarter 2017, net income available to common stockholders increased \$95 million, or 28%, and fully diluted earnings per share increased \$0.23, or 34%. Fully diluted average common shares outstanding were lower by 24.6 million shares given buyback activity. Results were highlighted by revenue growth of 8% with net interest income growth of 8%, given 4% loan growth and 14 basis points of net interest margin to 3.19%. Results also reflect noninterest income growth of 9% and a 6% increase in noninterest expense, 2.2% operating leverage and a 1.2% improvement in the efficiency ratio to 58.2%. Provision for credit losses increased 8%, reflecting higher commercial net charge-offs from third quarter 2017 levels that included higher recoveries in the prior period, and higher retail net charge-offs tied to expected seasoning in unsecured products. ROTCE of 13.3% improved 3.2% from 10.1%.\*

On an Underlying basis and excluding the impact of the FAMC acquisition,\* results were highlighted by 2% revenue growth with a 2% increase in net interest income and two basis points of net interest margin expansion to 3.20%, as well as noninterest income growth of 1%. Results reflect continued strong execution against our efficiency initiatives, with relatively stable noninterest expense, a 1% improvement in the efficiency ratio to 57.0% and operating leverage of 1.8%. ROTCE of 13.4% improved from 12.9%.\*

On an Underlying basis,\* which excludes the impact of notable items, net income available to common shareholders increased \$102 million, or 30%, and fully diluted earnings per common share increased \$0.25, or 37%, compared to

third quarter 2017. ROTCE improved to 13.5% from 10.1%.

On an Underlying basis and excluding the impact of FAMC,\* year-over-year results were highlighted by continued strong top line growth, with revenue growth of 7%, led by net interest income growth of 8% and net interest margin expansion of 15 basis points to 3.20% and noninterest income growth of 3%. Noninterest expense growth of 2% reflects strong expense discipline, as the efficiency ratio improved 246 basis points to 57.0%, with positive operating leverage of 4.4%.

Third quarter 2018 net interest income of \$1.1 billion increased \$27 million, or 2%, from second quarter 2018, given a 1% increase in average loans and loans held for sale and a one basis point improvement in net interest margin to 3.19%. The improvement in net interest margin reflects higher loan yields tied to higher rates, partially offset by increased deposit and funding costs. Net interest margin, excluding the impact of FAMC,\* improved two basis points to 3.20%.

Compared with third quarter 2017, net interest income increased \$86 million, or 8%, driven by a 14 basis point improvement in net interest margin and 4% average loan growth. The improvement in net interest margin reflects higher interest-earning asset yields given higher rates and continued mix shift towards higher-yielding assets, partially offset by higher deposit and funding costs. Net interest margin, excluding the impact of FAMC,\* improved 15 basis points to 3.20%.

1) Other income includes bank owned life insurance and other income. Noninterest income of \$416 million increased \$28 million, or 7%, from second quarter 2018, driven by the \$24 million impact of the FAMC acquisition in mortgage banking fees. Noninterest income, excluding the impact of FAMC,\* of \$392 million increased \$4 million, or 1%, largely as seasonally higher service charges and fees and growth in trust and investment services fees, given increased sales volumes and growth in managed money balances were partially offset by a \$3 million reduction in foreign exchange and interest rate products fees from record second quarter 2018 levels, reflecting a \$3 million adjustment tied to a credit-valuation adjustment methodology change.

Compared to third quarter 2017, noninterest income increased \$35 million, or 9%, including a \$24 million impact of the FAMC acquisition. Noninterest income, excluding the impact of FAMC,\* of \$392 million increased \$11 million, or 3%, driven by growth in trust and investment services fees, reflecting increased sales volumes and growth in managed money balances, foreign exchange and interest rate products and card fees. These results were partially offset by lower capital markets fees, driven by lower loan syndication fees, in-line with overall market activity.

Noninterest expense of \$910 million increased \$35 million, or 4%, from second quarter 2018, including a \$25 million impact of the FAMC acquisition, and \$9 million of pre-tax notable items tied to integration, largely in salaries and employee benefits. Underlying\* noninterest expense, excluding the impact of FAMC, remained relatively stable, reflecting continued focus on expense discipline as stable salaries and employee benefits and a reduction in outside services offset an increase in equipment expense.

Compared with third quarter 2017, noninterest expense increased \$52 million, or 6%, driven by the impact of the FAMC acquisition and notable items. Noninterest expense, excluding the impact of FAMC,\* increased \$18 million, or 2%, reflecting a \$15 million increase in salaries and employee benefits tied to higher revenue-based compensation and the impact of our strategic growth initiatives. Results also reflected higher equipment expense, outside services, occupancy and amortization of software tied to investments in our strategic-growth initiatives, partially offset by lower other expense, reflecting lower legal and regulatory costs and insurance costs that more than offset higher advertising costs.

The third quarter 2018 effective tax rate of 23.2% increased modestly from second quarter 2018 and decreased from 32.2% in third quarter 2017, reflecting the impact of December 2017 Tax Legislation.

Period-end investments and interest-bearing deposits of \$28.6 billion as of September 30, 2018 increased 1% from June 30, 2018. Compared with September 30, 2017, period-end investments and interest-bearing deposits increased \$1.3 billion, or 5%, driven by an increase in cash positions. As of September 30, 2018, the average effective duration of the securities portfolio increased to 4.7 years compared to 4.5 years as of June 30, 2018, given higher long-term rates that drove an expected decrease in securities pre-payment speeds. As of September 30, 2017, the securities portfolio average effective duration was 3.8 years.

Period-end loans and leases and loans held for sale of \$116.1 billion as of September 30, 2018 increased \$1.9 billion, or 2%, from \$114.1 billion as of June 30, 2018, including an \$828 million increase in loans held for sale tied to the FAMC acquisition. Results also reflect a \$796 million increase in retail loans and a \$517 million increase in commercial loans. Excluding the impact of FAMC,\* period-end loans and leases and loans held for sale increased 1% from June 30, 2018.

Compared to September 30, 2017, period-end loans and leases and loans held for sale increased \$4.7 billion, or 4%, including the impact of the FAMC acquisition. Results also reflect a \$3.0 billion increase in commercial loans and leases as well as a \$1.5 billion increase in retail loans. Excluding the impact of FAMC,\* period-end loans and leases and loans held for sale increased 3% from September 30, 2017.

Average interest-earning assets of \$142.2 billion increased \$1.6 billion, or 1%, compared to second quarter 2018, and included a \$790 million impact from the August 1, 2018 FAMC acquisition. Results reflect a \$1.1 billion increase in loans and leases and a \$692 million increase in loans held for sale, driven by the \$724 million average impact of the FAMC acquisition. Commercial loan growth largely reflects strength in commercial real estate and selective commercial categories. Retail loan growth was driven by strength in residential mortgage, unsecured and education, partially offset by the planned reduction in auto, as well as lower home equity balances. Excluding the impact of FAMC,\* average loan growth was 1%.

Compared to third quarter 2017, average interest-earning assets increased \$4.7 billion, or 3%, driven by a \$4.5 billion increase in loans and leases and a \$620 million increase in loans held for sale, driven by the impact of the FAMC acquisition. These results were partially offset by a \$423 million decrease in the investment securities portfolio and interest-bearing deposits, largely reflecting the impact of rising rates on securities valuations and lower cash balances. Average loans increased \$4.5 billion, driven by a \$3.1 billion increase in commercial loans with strength in Commercial Real Estate and in mid-corporate and middle market given geographic and industry expansion strategies, partially offset by the continued planned reduction in leasing. Results also reflected a \$1.4 billion increase in retail loans, driven by strength in residential mortgage, education, unsecured and merchant-finance products, partially offset by a planned reduction in auto and lower home equity balances. Excluding the impact of FAMC,\* average loan growth was 4%.

1) Current reporting-period regulatory capital ratios are preliminary.

As of September 30, 2018, our Basel III capital ratios remained well in excess of applicable regulatory requirements with a CET1 ratio of 10.8% compared to 11.2% as of June 30, 2018 and 11.1% as of September 30, 2017, and a total capital ratio of 13.4% versus total capital ratios of 13.8% as of June 30, 2018 and 13.8% as of September 30, 2017. Our capital ratios continue to reflect progress towards our objective of aligning our capital profile with that of peer regional banks, while maintaining a strong capital base to continue to drive future performance.

As part of CFG's 2018 Capital Plan (the Plan), during third quarter 2018, the company increased its dividend by 23% and repurchased \$400 million of common shares at a weighted-average price of \$39.83. Total capital returned to stockholders was \$529 million. The Plan also anticipates the potential to raise the quarterly common dividend per share an additional 19% to \$0.32 per share beginning in first quarter 2019. Future capital actions are subject to consideration and approval by CFG's Board of Directors.

Overall credit quality remains strong, reflecting the benefit of continued growth in lower-risk retail loan portfolios and a relatively stable risk profile in commercial. As of September 30, 2018, nonperforming loans and leases (NPLs) of \$832 million decreased \$13 million, or 2%, from June 30, 2018, reflecting a reduction in commercial NPLs, primarily driven by a reduction in non-performing commodities-related credits and a modest increase in retail reflecting the impact of the FAMC acquisition and a seasonal increase in auto. Compared to September 30, 2017, NPLs decreased \$100 million, or 11%, reflecting a \$67 million decrease in commercial, driven by a reduction in non-performing commodities-related credits, and a \$33 million decrease in retail tied to improvement in real estate secured portfolios, partially offset by the impact of FAMC. The non-performing loans and leases to total loans and leases ratio of 0.73% as of September 30, 2018 improved from 0.75% as of June 30, 2018 and improved from 0.85% as of September 30, 2017.

Third quarter 2018 net charge-offs of \$86 million increased \$10 million, or 13%, from second quarter 2018, largely reflecting a \$6 million increase in retail, driven by seasonally higher auto charge-offs and expected seasoning in growth categories, partially offset by seasonally lower education losses, and a \$4 million increase in commercial. Compared to third quarter 2017, net charge-offs increased \$21 million, or 32%, reflecting a \$16 million increase in commercial, driven by lower recoveries, and a \$5 million increase in retail, driven by expected seasoning in growth portfolios.

The third quarter 2018 allowance for loan and lease losses of \$1.2 billion decreased \$11 million compared to second quarter 2018 and increased \$18 million compared to third quarter 2017.

The allowance for loan and lease losses to total loans and leases ratio of 1.08% as of September 30, 2018 remained relatively stable with June 30, 2018 and September 30, 2017 levels. The allowance for loan and lease losses to non-performing loans and leases ratio of 149% as of September 30, 2018 improved from 148% as of June 30, 2018 and 131% as of September 30, 2017.

**Key Performance Metrics and Non-GAAP Financial Measures and Reconciliations**

**(in millions, except share, per-share and ratio data)**

**Key Performance Metrics:**

Our Management uses certain key performance metrics (KPMs) to gauge our progress against strategic and operational goals, as well as to compare our performance against peers. The KPMs are referred to in our Registration Statements on Form S-1 and our external financial reports filed with the Securities and Exchange Commission. The KPMs include:

Return on average tangible common equity (ROTCE);

Return on average total tangible assets (ROTA);

Efficiency ratio;

Operating leverage; and

Common equity tier 1 capital ratio.

Established targets for the KPMs are based on Management-reporting results and are referred to by the Company as Underlying results. We believe that Underlying results, which exclude notable items, as applicable, provide the best representation of our underlying financial progress toward the KPMs as they exclude items that our Management does not consider indicative of our on-going financial performance. We have consistently shown these metrics on this basis to investors since our initial public offering in September of 2014. KPMs that reflect Underlying results are considered non-GAAP financial measures.

**Non-GAAP Financial Measures:**

This document contains non-GAAP financial measures denoted as Underlying results. Underlying results for any given reporting period exclude certain items that may occur in that period which Management does not consider indicative of the Company's on-going financial performance. We believe these non-GAAP financial measures provide useful information to investors because they are used by our Management to evaluate our operating performance and make day-to-day operating decisions. In addition, we believe our Underlying results in any given reporting period reflect our on-going financial performance in that period and, accordingly, are useful to consider in addition to our GAAP financial results. We further believe the presentation of Underlying results increases comparability of period-to-period results. The following tables present reconciliations of our non-GAAP measures to the most directly comparable GAAP financial measures.

Other companies may use similarly titled non-GAAP financial measures that are calculated differently from the way we calculate such measures. Accordingly, our non-GAAP financial measures may not be comparable to similar measures used by such companies. We caution investors not to place undue reliance on such non-GAAP financial measures, but to consider them with the most directly comparable GAAP measures. Non-GAAP financial measures have limitations as analytical tools and should not be considered in isolation or as a substitute for our results reported

under GAAP.

- 1 As of January 1, 2018, we retrospectively adopted ASU 2017-07, *Compensation - Retirement Benefits (Topic 715): improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*, which requires the service cost component of net periodic pension and postretirement benefit cost to be reported separately in the Consolidated Statements of Operations from the other components. Prior periods have been adjusted to conform with the current period presentation.

## Forward-Looking Statements

This document contains forward-looking statements within the Private Securities Litigation Reform Act of 1995. Statements regarding potential future share repurchases and future dividends are forward-looking statements. Also, any statement that does not describe historical or current facts is a forward-looking statement. These statements often include the words believes, expects, anticipates, estimates, intends, plans, goals, targets, initiatives, probably, projects, outlook or similar expressions or future conditional verbs such as may, will, should, would, could.

Forward-looking statements are based upon the current beliefs and expectations of management, and on information currently available to management. Our statements speak as of the date hereof, and we do not assume any obligation to update these statements or to update the reasons why actual results could differ from those contained in such statements in light of new information or future events. We caution you, therefore, against relying on any of these forward-looking statements. They are neither statements of historical fact nor guarantees or assurances of future performance. While there is no assurance that any list of risks and uncertainties or risk factors is complete, important factors that could cause actual results to differ materially from those in the forward-looking statements include the following, without limitation:

Negative economic and political conditions that adversely affect the general economy, housing prices, the job market, consumer confidence and spending habits which may affect, among other things, the level of nonperforming assets, charge-offs and provision expense;

The rate of growth in the economy and employment levels, as well as general business and economic conditions, and changes in the competitive environment;

Our ability to implement our business strategy, including the cost savings and efficiency components, and achieve our financial performance goals;

Our ability to meet heightened supervisory requirements and expectations;

Liabilities and business restrictions resulting from litigation and regulatory investigations;

Our capital and liquidity requirements (including under regulatory capital standards, such as the U.S. Basel III capital rules) and our ability to generate capital internally or raise capital on favorable terms;

The effect of changes in interest rates on our net interest income, net interest margin and our mortgage originations, mortgage servicing rights and mortgages held for sale;

Changes in interest rates and market liquidity, as well as the magnitude of such changes, which may reduce interest margins, impact funding sources and affect the ability to originate and distribute financial products in the primary and secondary markets;

The effect of changes in the level of checking or savings account deposits on our funding costs and net interest margin;

Financial services reform and other current, pending or future legislation or regulation that could have a negative effect on our revenue and businesses, including the Dodd-Frank Act and other legislation and regulation relating to bank products and services;

A failure in or breach of our operational or security systems or infrastructure, or those of our third party vendors or other service providers, including as a result of cyber-attacks; and

Management's ability to identify and manage these and other risks.

In addition to the above factors, we also caution that the amount and timing of any future common stock dividends or share repurchases will depend on our financial condition, earnings, cash needs, regulatory constraints, capital requirements (including requirements of our subsidiaries), and any other factors that our Board of Directors deems relevant in making such a determination. Therefore, there can be no assurance that we will repurchase shares or pay any dividends to holders of our common stock, or as to the amount of any such repurchases or dividends.

More information about factors that could cause actual results to differ materially from those described in the forward-looking statements can be found under "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2017.

Note: Percentage changes, per share amounts and ratios presented in this document are calculated using whole dollars.
