CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING INFORMATION

This quarterly report contains forward-looking statements. For this purpose, any statements contained herein that are not statements of historical fact may be deemed to be forward looking statements. These statements relate to future events or to the Company's future financial performance. In some cases, you can identify forward-looking statements by terminology such as "may", "should," "expects," "plans," "anticipates," "believes," "estimates," "predicts," "potential," or "continue" or the negative of such terms or other comparable terminology. These statements are only predictions. Actual events or results may differ materially. There are a number of factors that could cause the Company's actual results to differ materially from those indicated by such forward-looking statements. Although the Company believes that the expectations reflected in the forward-looking statements are reasonable, it cannot guarantee future results, levels of activity, performance, or achievements.

GENERAL

The Company's operations for the quarter ending June 30, 2005 were primarily affected through its subsidiaries, Net2Auction, Inc. ("Net2Auction"), and Net2Auction Corporation, RoboServer Systems Corp. ("RoboServer"), and Self-Serve Technologies, Inc. As of June 30, 2005, the Company owned 45.5% of Net2Auction, which owns 100% of Net2Auction Corporation. Net2Auction is publicly traded on the NQB Pink Sheets under the symbol of NAUC. As of June 30, 2005, the Company owned approximately 44.5% of RoboServer, while RoboServer wholly owns Self-Serve Technologies, Inc. 4

NET2AUCTION, INC.

Net2Auction has become one of the largest operators of online auction drop-off locations by developing relationships through partnership agreements with independently owned and/or franchised pack and ship centers. In order to assist in growing the operations and increasing revenues, management made the decision to utilize a proprietary software program that provides an all encompassing system which ties in eBay, PayPal, Net2Auction, and the customer. Net2Auction's relationship with EBay allows Net2Auction to reach millions of potential buyers for our customers' unwanted goods.

Management believes Net2Auction's operations and revenues will continue to grow whereby increasing revenues each month through the end of 2005 and into 2006, which will bring meaningful revenues for the Company. Currently, Net2Auction operates forty (40) drop-off locations in San Diego and Orange County, California. Net2Auction's goal is to have seventy-five (75) drop-off locations in place by the end of 2005. Net2Auction moved its headquarters in May 2005 to 10979 San Diego Mission Rd., San Diego, CA 92108. To learn more go to www.net2auction.com.

ROBOSERVER SYSTEMS CORP.

RoboServer continues to explore market opportunities in the restaurant business and has uncovered several potential markets outside of the traditional fast food arena. Although the flagship point of sale software remains potentially a significant module to the main product line of self-service kiosks, emphasis has migrated from the flagship POS system to new applications and product models of kiosks. Through market research, management believes the POS market is near saturation and RoboServer will use all available resources on the kiosk products. The shift in emphasis to kiosk based ordering systems, while delaying revenue generation, has uncovered an underserved market.

Edgar Filing: AMERIRESOURCE TECHNOLOGIES INC - Form 10QSB

RoboServer is spending considerable efforts to educate corporate offices about its Kiosk based customer system. RoboServer has signed its first pilot site for this new technology and anticipates the deployment of its first finished product in late summer of 2005. RoboServer believes that within the next two to three years, 20% to 30% of the fast food restaurants in the United States will deploy some type of this technology to their retail outlets to provide customer service plus accrue the benefits in labor cost savings. Management believes RoboServer's operations and revenues will begin to generate meaningful revenue prior to December 31, 2005. To learn more go to www.roboservercorp.com.

WEST TEXAS REAL ESTATE AND RESOURCES, INC.

West Texas did not have any business operations in the second quarter of 2005.

Net cash used in investing activities increase to \$187,514 for the six-months ended June 30, 2005, up from \$0 for the same period in 2004. This increase is due to the purchase of Voipcom USA, Inc.

6

Net cash provided by financing activities was \$737,033 for six-months ended June 30, 2005, compared to \$0 for the same period in 2004. This increase is due to increased borrowing and the issuance of common stock.

The Company has relied upon its chief executive officer for its capital requirements and liquidity. The Company's recurring losses, lack of cash flow and lack of cash on hand raise substantial doubt about the Company's ability to continue as a going concern. Management's plans with respect to these matters include raising additional working capital through equity or debt financing and acquisitions of ongoing concerns, which generate profits, ultimately allowing the Company to achieve consistent profitable operations. The accompanying financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

ITEM 3. CONTROLS AND PROCEDURES

Within the 90 days prior to the date of this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and the person performing functions similar to that of a Principal Financial Officer of the Company, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15. Based upon the evaluation, the Company's Chief Executive Officer and the person performing functions similar to that of a Principal Financial Officer of the Company concluded that the Company's disclosure controls are effective in timely alerting them to material information relating to the Company (including its consolidated subsidiaries) required to be included in the Company's periodic SEC filings. There have been no significant changes in the Company's internal controls or in other factors which could significantly affect internal controls subsequent to the date the Company conducted its evaluation.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Although the Company did not issue any of its own common stock during the quarter ended June 30, 2005, two of the Company's subsidiaries, RoboServer and Net2Auction, did issue common stock in unregistered offerings. Because we have consolidated our financial statements to include RoboServer and Net2Auction, the following is a disclosure of their equity issuances during the second quarter.

On or about April 19, 2005, Roboserver issued 165,000 shares of common stock as consideration for consulting services rendered. On or about June 28, 2005, Roboserver issued 30,000 shares of common stock in conjunction with the private placement of securities. Additionally, Net2Auction, on or about May 13, 2005, issued 1,000,000 shares in conjunction with a private placement of securities, and on or about June 23, 2005, Net2Auction issued an additional 5,000,000 shares of common stock following the exercise of options by Net2Auction option holders. The securities, which were taken for investment and were subject to appropriate transfer restrictions, were issued without registration under the Securities Act upon the exemption provided in Section 4(2) of the Securities Act and Regulation D.
