**EXHIBIT A**

**GOLAR LNG LIMITED**

**DE-LISTING FROM OSLO STOCK EXCHANGE**

Golar LNG Limited has maintained a dual listing on NASDAQ and the Oslo Stock Exchange ("OSE") for several years. The Company's shares were originally listed on the OSE in July, 2001 and were subsequently listed on NASDAQ in the US in December, 2002. The Board has monitored the benefit of having two separate listings throughout this period.

In recent years, there has been a significant increase in trading in the Company's stock in the US, whilst only limited volumes have traded in Norway. The concentration of trades in the US is further supported by the fact that less than 18% of the total shares of the Company, excluding World Shipholding, are currently held in the Norwegian VPS system.

The Board has therefore concluded, supported by these facts, that there are limited benefits in continuing with two separate listings. It is clear that a single listing on NASDAQ and a delisting from the OSE will lead to significant cost reductions, clearer regulatory requirements, a simplified filing process and most likely increased trading volume in the US as a function of the concentration of trading.

If the delisting from the OSE is approved, the Company will maintain a Norwegian branch Register for a minimum period of nine months. In addition, the Company will provide assistance to shareholders wishing to transfer their shares to the branch Register maintained in the United States.
