COROWARE, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – BASIS OF PRESENTATION

The accompanying unaudited interim consolidated financial statements of CoroWare, Inc. (“CoroWare” or “the Company”) have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission (“SEC”), and should be read in conjunction with the audited financial statements and notes thereto contained in the Company’s annual report filed with the SEC on Form 10-K for the year ended December 31, 2013. The consolidated financial statements include the accounts of the Company and its wholly-owned operating subsidiary, CoroWare Technologies, Inc. Also included in the consolidated statements are the Company’s inactive wholly-owned subsidiaries, Innova Robotics, Inc., Robotic Workspace Technologies, Inc., and Robotics Software Service, Inc. (herein referred to as the “Subsidiaries”). The Company also consolidates its 51% interest in Aricon, LLC. All significant inter-company balances and transactions have been eliminated in the consolidated financial statements. In the opinion of management, all adjustments consisting of normal recurring adjustments necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosure contained in the audited financial statements for the most recent fiscal year ended December 31, 2013 as reported in Form 10-K have been omitted.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Subsequent Events

The Company evaluated events occurring between the end of the current period and the date these financial statements were issued for potential subsequent event disclosures.

Recent Accounting Pronouncements

Management does not expect the impact of any other recently issued accounting pronouncements to have a material impact on its financial condition or results of operations.

Reclassifications

None

Basic and Diluted Loss per Share

Basic loss per share is calculated by dividing the Company’s net loss applicable to shareholders by the weighted average number of shares outstanding during the period. Diluted loss per share is calculated by dividing the Company’s net loss available to shareholders by the diluted weighted average number of shares outstanding during the year. The diluted weighted average number of shares outstanding is adjusted for any potentially dilutive debt or equity instruments. As of June 30 2014 there were 7,710,868,240 common stock equivalents outstanding which were excluded from the calculation of diluted loss per unit as their effect would have been anti-dilutive.

NOTE 3 – FINANCIAL CONDITION AND GOING CONCERN

The Company has a loss from operations for the six months ended June 30, 2014 of \$2,546,377. Because of this loss, the current working capital deficit, and the projection of additional losses for the remainder of 2014, the Company will require additional working capital to develop its business operations.

The Company intends to raise additional working capital through the use of public offerings and/or related party financings.

There are no assurances that the Company will be able to either (1) achieve a level of revenues adequate to generate sufficient cash flow from operations; or (2) obtain additional financing through either private placements, public offerings, bank financing and/or related party financing necessary to support the Company's working capital requirements. To the extent that funds generated from operations, any private placements, public offerings, bank financing and/or related party financings are insufficient, the Company will have to raise additional working capital. No assurance can be given that additional financing will be available or, if available, will be on terms acceptable to the Company.

These conditions raise substantial doubt about the Company's ability to continue as a going concern. The consolidated financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

NOTE 4 – ACCOUNTS RECEIVABLE FACTORING

On March 21, 2010, the Company established a \$200,000 factoring line with an asset-based lender, CapeFirst Funding, LLC (“Capefirst”) that is secured by accounts receivable that the Lender may accept and purchase from the Company. The agreement calls for Capefirst to advance up to 80% of the net face amount of each assigned account or up to 50% of eligible assigned purchase orders. The agreement calls for a maximum facility amount of \$200,000 with a purchase fee of 2% of the net face amount of each assigned account and a collection fee of 0.1% compounded daily. In the event of a dispute or in the event of fraud, misrepresentation, willful misconduct or negligence on the part of the Company, Capefirst may require the Company to immediately repurchase the assigned accounts at a purchase price that includes the amount of the assigned account plus the discount fee, interest and collection fee and may include a processing fee of 10%. Obligations collateralized by receivables under the Capefirst agreement were \$193,133 and \$149,637 as of June 30, 2014 and December 31, 2014, respectively.

Several of the convertible notes are in default, however, the terms of the agreements allow conversion of the debt during periods of default. In computing the derivative liability associated with the conversion, one of the inputs is maturity of the instruments which, in this case, is technically in the past. Accordingly, management has estimated a debt maturity date of six months to one year from the period-end date for purposes of the derivative liability calculations. During the six month period ended June 30, 2014 the Company realized a derivative expense of \$1,155,526 and derivative income for the three months ended June 30, 2014 of \$616,292.

NOTE 6 – RELATED PARTY TRANSACTIONS

h) Preferred Stock, Series E:

On March 9, 2012 the Board approved by unanimous written consent an amendment to the Corporation's Certificate of Incorporation to designate the rights and preferences of Series E Preferred Stock. There are 500,000 shares of Series E Preferred Stock authorized with a par value of \$0.001. Each share of Series E Preferred Stock has a stated value equal to \$1.00 and shall be entitled to receive dividends at the rate of 5% per annum on the stated value before dividends are declared on any other outstanding shares of stock of the Company. These preferred shares rank higher than the common shares and pari passu with all other classes of preferred stock. Each outstanding share of Series E Preferred Stock shall be convertible into the number of shares of the Corporation's common stock determined by dividing the Stated Value by the Conversion Price which is defined as \$0.0001. Mandatory conversion can be demanded by the Company prior to October 1, 2013. The holders of the Series E Preferred Stock shall have no voting power.

During the six-month period ended June 30, 2014 the Company issued 607,856 shares of preferred series E for \$212,248 worth of deferred salary, \$60,608 worth of accrued salary, and \$335,000 worth of bonuses. The fair value of the preferred series E shares was based on the trading price of common stock equivalents into which the preferred shares were convertible on the date of issuance and was \$658,707, which resulted in additional charges to professional fees of \$113,386.

There were 788,084 and 339,559 shares of Series E Preferred Stock issued and outstanding as of June 30, 2014 and December 31, 2013, respectively.

i) Preferred Stock, Series F:

On October 4, 2013, the Company filed the certificate of designation pursuant to which the Company set forth the designation, powers, rights, privileges, preferences and restrictions of 500,000 authorized shares of Series F Convertible Preferred Stock, par value \$0.001 per share.

The shares of preferred stock have a stated value of \$1.00, have no voting rights, are entitled to no dividends due or payable and are convertible into the number of shares of the Corporation's common stock determined by dividing the stated value by the conversion price which is defined as eighty five percent (85%) of the average closing bid price of the common stock over the five (5) trading days immediately preceding the date of conversion, but no less than par value of the common stock. At any time after the issuance date through the fifth (5th) anniversary of the issuance of the preferred stock, the Company shall have the option to redeem any unconverted shares at an amount equal to one hundred thirty percent (130%) of the stated value of the stock plus accrued and unpaid dividends, if any. Redemption shall be established by the Company in its sole and absolute discretion and no holder of Series F Preferred Stock may demand that the Series F Preferred Stock be redeemed.

During the six-month period ended June 30, 2014 the Company issued 190,000 shares of preferred series F for \$60,000 worth of deferred salary, \$80,000 worth of accrued salary, and \$50,000 worth of accounts payable. The fair value of the preferred series F shares was based on the trading price of common stock equivalents into which the preferred shares were convertible on the date of issuance and was \$101,824, which resulted in a gain on settlement of accrued liabilities, recorded as a decrease in charges to professional fees, of \$88,176.

There were 190,000 and -0- shares of Series F Preferred Stock issued and outstanding as of June 30, 2014 and December 31, 2013, respectively.

j) Preferred Stock, Series G:

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These statements relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as "may" "should," "expect," "plan," "anticipate," "believe," "estimate," "predict," "potential" or "continue," the negative of such terms, or other comparable terminology. These statements are only predictions. Actual events or results may differ materially from those in the forward-looking statements as a result of various important factors. Although we believe that the expectations reflected in the forward-looking statements are reasonable, they should not be regarded as a representation by CoroWare, Inc., or any other person, that such expectations will be achieved. The business and operations of CoroWare, Inc. are subject to substantial risks, which increase the uncertainty inherent in the forward-looking statements contained in this report.

BACKGROUND

CoroWare, Inc is a public holding company whose principal subsidiary, CoroWare Technologies, Inc. ("CTI"), has expertise in information technology consulting, mobile robotics, and affordable collaboration. Through our subsidiary, CoroWare delivers custom engineering services, hardware and software products, and subscription services that benefit customers in North America, Europe, Australia, Asia and the Middle East. Our customers span multiple industry sectors and comprise universities, large enterprises and small businesses, software and hardware product development companies, and non-profit organizations. The company also maintains a Near Shore practice which is comprised of multiple subcontracting companies with whom the Company maintains close working relationships. Through these relationships, the Company is able to provide services in South America.

COROWARE TECHNOLOGIES, INC.

CTI is a software professional services company with a strong focus on Information Technology integration and robotics integration, business automation solutions, and unmanned systems solutions to its customers in North America and Europe.

CTI's expertise includes the deployment and integration of computing platforms and applications, as well as the development of unmanned vehicle software and solutions for customers in the research, commercial, and homeland security market segments. CTI shall continue to offer its high value software systems development and integration services that complement the growing trend in outsourced software development services in Asia, Latin America, and Eastern Europe.

CoroWare Technologies comprises three separately managed lines of business:

- CoroWare Business Solutions: IT and lab management; business intelligence; software architecture, design and development; content delivery; partner and program management.
- Robotics and Automation: Custom engineering such as visualization, simulation and software development; and mobile robot platforms.
- Enhanced Collaboration Solution: Collaboration and conferencing products, solutions and subscription services.

The Company's revenues are principally derived from standing contracts that include Microsoft (partner management and IT professional services), a European auto manufacturer (simulation software custom development), and other customers whose product development groups require custom software development and consulting companies. Existing contract revenues vary month by month based on the demands of the clients. The Company's collaboration effort is in the early stages of growth and will require additional working capital to compete effectively against new

entrants in this rapidly growing market.

RESULTS OF OPERATIONS

THREE MONTHS ENDED JUNE 30, 2014 COMPARED TO SIX MONTHS ENDED JUNE 30, 2013:

During the three-month period ended June 30, 2014 (the "2014 Period") revenues were \$391,213 compared to revenues of \$239,596 during the three-month period ended June 30, 2013 (the "2013 Period"). Our revenues increased compared to the previous year as customers continued to increase spending on software development services for IT consulting and software development projects.

Cost of revenues was \$360,745 for the 2014 Period compared to \$178,192 for the 2013 Period. Cost of revenues represents primarily labor and labor-related costs in addition to overhead costs. Gross profit on these 2014 revenues amounted to \$30,468 (8% gross profit percentage) compared to \$178,192 (26% gross profit percentage) for the 2013 Period. The decreased gross profit percentage resulted from increased labor costs and retaining key service delivery personnel for anticipated service engagements in the upcoming 2014 Period.

Research and development was \$38,291 (5% of gross revenues) for the 2014 Period compared to \$0 (0% of gross revenues) in the 2013 Period. The increased research and development investment resulted from completing our software development and testing initiatives related to robotics software product development.

Operating expenses were \$336,531 during the 2014 Period compared to \$213,565 during the 2013 Period. General and Administration expenses increased to \$271,872 in the 2014 Period compared to \$209,334 for the 2013. This increase was due to an increase in stock issued for professional services. Sales and marketing expenses increased to \$24,260 in the 2014 Period compared to \$0 for the 2013 Period as the Company refocused its sales and marketing efforts on selling IT consulting and software development services. Loss from operations was \$651,367 during the 2014 Period compared to \$152,161 in the 2013 Period.

Total other income was \$536,595 during the 2014 Period compared to \$56,656,998 in the 2013 Period. Other income is comprised primarily of derivative income and expense as well as interest expense. Keeping the number of shares constant, the liability associated with the embedded conversion features increases as our share price and volatility increases and, likewise, decreases when our share price and share price volatility decreases. Derivative income (expense) displays the inverse relationship. The derivative expense in the 2014 Period is primarily due to expense recognized in connection with redemptions on various debentures during the quarter. Interest expense for the three month 2014 Period is \$125,510 compared to \$354,049 for the three month 2013 Period. The debt discount amortized using the effective interest method was \$2,398 during 2014 compared to \$0 during 2013. Under this method, the amount of amortization increases exponentially as the underlying carrying value of the amortized debt increases.

Net income for the 2014 Period was \$230,495 compared to net income of \$56,515,030 for the 2013 Period.

Basic weighted average shares outstanding were 5,962,079,900 during the 2014 Period compared to 2,935,326,681 in the 2013 Period.

Diluted weighted average shares outstanding were 15,753,270,261 during the 2014 Period compared to 2,935,326,681 in the 2013 Period.

SIX MONTHS ENDED JUNE 30, 2014 COMPARED TO SIX MONTHS ENDED JUNE 30, 2013:

During the six-month period ended June 30, 2014 (the "2014 Period") revenues were \$682,751 compared to revenues of \$558,184 during the six-month period ended June 30, 2013 (the "2013 Period"). Our revenues increased compared to the previous year as customers continued increased spending on software development services for IT consulting

and software development projects.

Cost of revenues was \$593,301 for the 2014 Period compared to \$376,820 for the 2013 Period. Cost of revenues represents primarily labor and labor-related costs in addition to overhead costs. Gross profit on these 2014 revenues amounted to \$89,450 (13% gross profit percentage) compared to \$181,364 (32% gross profit percentage) for the 2013 Period. The decreased gross profit percentage resulted from increased labor costs and retaining key service delivery personnel for anticipated service engagements in the upcoming 2014 Period.

Research and development was \$54,860 (8% of gross revenues) for the 2014 Period compared to \$0 (0% of gross revenues) in the 2013 Period. The increased research and development investment resulted from completing our software development and testing initiatives related to robotics software product development.

Operating expenses were \$519,316 during the 2014 Period compared to \$563,175 during the 2013 Period. General and Administration expenses decreased to \$428,616 in the 2014 Period compared to \$554,713 for the 2013 Period as the Company. . Sales and marketing expenses increased to \$54,860 in the 2014 Period compared to \$0 for the 2013 Period as the Company refocused its sales and marketing efforts on selling IT consulting and software development services. Loss from operations was \$429,866 during the 2014 Period compared to \$381,811 in the 2013 Period.

-17-

Total other expense was \$2,119,267 during the 2014 Period compared to other income of \$57,344,060 in the 2013 Period. Other income is comprised primarily of derivative income and expense as well as interest expense. Keeping the number of shares constant, the liability associated with the embedded conversion features increases as our share price and volatility increases and, likewise, decreases when our share price and share price volatility decreases. Derivative income (expense) displays the inverse relationship. The derivative expense in the 2014 Period is primarily due to expense recognized in connection with redemptions on various debentures during the quarter. Interest expense for the six month 2014 Period is \$1,009,254 compared to \$408,555 for the six month 2013 Period. The debt discount amortized using the effective interest method was \$35,764 during 2014 compared to \$0 during 2013. Under this method, the amount of amortization increases exponentially as the underlying carrying value of the amortized debt increases.

Net Loss for the 2014 Period was \$2,546,377 compared to net income of \$56,985,075 for the 2013 Period.

Basic and Diluted weighted average shares outstanding were 3,161,912,157 during the 2014 Period compared to 2,401,827,198 in the 2013 Period.

LIQUIDITY AND CAPITAL RESOURCES

At June 30, 2014, we had current assets of \$89,117, current liabilities of \$13,929,476, negative working capital of \$13,840,359 and an accumulated deficit of \$43,920,351. For the six months ending June 30, 2014, we had net cash flows used in operating activities of (\$353,678), net cash flows used in investing activities of \$1,419 and net cash flows provided by financing activities of \$356,940.

We will need to obtain additional capital in order to expand operations and become profitable. In order to obtain capital, we may need to sell additional shares of our common stock or borrow funds from private lenders. There can be no assurance that we will be successful in obtaining additional funding. We will still need additional capital in order to continue operations until we are able to achieve positive operating cash flow. Additional capital is being sought, but we cannot guarantee that we will be able to obtain such investments. Financing transactions may include the issuance of equity or debt securities, obtaining credit facilities, or other financing mechanisms. If we do not obtain additional capital, we may cease operations.

However, even if we are able to raise the funds required, it is possible that we could incur unexpected costs and expenses, fail to collect significant amounts owed to us, or experience unexpected cash requirements that would force us to seek alternative financing. Furthermore, if we issue additional equity or debt securities, stockholders may experience additional dilution or the new equity securities may have rights, preferences or privileges senior to those of existing holders of our common stock. If additional financing is not available or is not available on acceptable terms, we will have to curtail our operations.

OFF-BALANCE SHEET ARRANGEMENTS

We do not have any off balance sheet arrangements that are reasonably likely to have a current or future effect on our financial condition, revenues, results of operations, liquidity or capital expenditures.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a smaller reporting company, as defined in Rule 12b-2 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), we are not required to provide the information required by this item.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

With the participation of Lloyd T. Spencer, who serves as the Chief Executive Officer (the principal executive officer) and Interim Chief Financial Officer (the principal financial officer); the Company's management has evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of the end of the quarterly period covered by this Quarterly Report on Form 10-Q. As of the end of the period covered by this Report, we conducted an evaluation, under the supervision and with the participation of our chief executive officer and interim chief financial officer, of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934). Based on this evaluation, our chief executive officer and interim chief financial officer concluded that our disclosure controls and procedures are not effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. The ineffectiveness of our disclosure controls and procedures is the result of certain deficiencies in internal controls constituting material weaknesses as discussed below.

The Company has historically had limited operating revenue and, as such, all accounting and financial reporting operations have been and are currently performed by a limited number of individuals. The parties that perform the accounting and financial reporting operations are the only parties with any significant knowledge of generally accepted accounting principles. Thus, we lack segregation of duties in the period-end financial reporting process. This lack of additional accounting/auditing staff with significant knowledge of generally accepted accounting principles in order to properly segregate duties could result in ineffective oversight and monitoring and the possibility of a misstatement within the consolidated financial statements. However, the material weaknesses identified did not result in the restatement of any previously reported financial statements or any other related financial disclosure, nor does management believe that it had any effect on the accuracy of the Company's consolidated financial statements for the current reporting period.

The Company is currently reviewing its policies and is evaluating its disclosure controls and procedures so that it will be able to determine the changes it can and should make to make such controls more effective.

Changes in Internal Controls over Financial Reporting

There were no changes in the Company's internal control over financial reporting during the Company's last fiscal quarter that have materially affected, or are likely to materially affect, the Company's internal control over financial reporting.
