(1) Calculated as a percentage of net assets applicable to common stockholders.

(2)

Restricted securities have been fair valued in accordance with procedures approved by the Board of Directors and have

a total fair value of \$56,232,729, which represents 24.9% of net assets.

- (3) All or a portion of the security is segregated as collateral for the margin borrowing facility. Security has characteristics that are similar to corporate bonds although it trades in a manner similar to an equity investment.
  - (4) The security has a quoted price in an active market and is classified as a Level 1 investment within the fair value hierarchy. Security distributions are
  - (5) paid-in-kind.
  - (6) A portion of the security is segregated as collateral for the unrealized depreciation of interest rate swap contracts of \$234,446. Rate indicated is the current yield as
  - (7) of August 31, 2014.
-

Various inputs are used in determining the fair value of the Company's financial instruments. These inputs are summarized in the three broad levels listed below:

Level 1 – quoted prices in active markets for identical investments

Level 2 – other significant observable inputs (including quoted prices for similar investments, market corroborated inputs, etc.)

Level 3 – significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following table provides the fair value measurements of applicable Company assets by level within the fair value hierarchy as of August 31, 2014. These assets are measured on a recurring basis.

Description	Fair Value at August 31, 2014	Level 1	Level 2	Level 3
<b>Assets</b>				
<b>Debt Securities:</b>

Interest Rate Swap Contracts	\$234,446	\$-	\$234,446	\$-

(a) All other industry classifications are identified in the Schedule of Investments.

(b) Short-term investment is a sweep investment for cash balances in the Company at August 31, 2014.

The Company did not hold any Level 3 securities during the period from December 1, 2013 through August 31, 2014. The Company utilizes the beginning of reporting period method for determining transfers between levels. There were no transfers between levels for the period from December 1, 2013 through August 31, 2014.

#### Valuation Techniques

In general, and where applicable, the Company uses readily available market quotations based upon the last updated sales price from the principal market to determine fair value. This pricing methodology applies to the Company's Level 1 investments.

Some debt securities are fair valued using a market value obtained from an approved pricing service which utilizes a pricing matrix based upon yield data for securities with similar characteristics or from a direct written broker-dealer quotation from a dealer who has made a market in the security. This pricing methodology applies to the Company's Level 2 assets.

Edgar Filing: TORTOISE POWER & ENERGY INFRASTRUCTURE FUND INC - Form N-Q

Interest rate swap contracts are valued by using industry-accepted models which discount the estimated future cash flows based on a forward rate curve and the stated terms of the interest rate swap agreement by using interest rates currently available in the market, or based on dealer quotations, if available, which applies to the Company's Level 2 liabilities.

Certain of the Company's investments are restricted and are valued as determined in accordance with procedures established by the Board of Directors. The table below shows the principal amount, acquisition date(s), acquisition cost, fair value and the percent of net assets which the securities comprise at August 31, 2014. Each of the securities in the table below are eligible for resale under Rule 144A under the Securities Act of 1933.
