Ps. 0.87, mainly due to the foreign exchange loss resulting from the depreciation of the Mexican peso against the U.S. dollar as applied to our liability position denominated in foreign currency.

Mexico City (July 26, 2006), Coca-Cola FEMSA, S.A. de C.V. (BMV: KOFL, NYSE: KOF) ("Coca-Cola FEMSA" or the "Company"), the largest *Coca-Cola* bottler in Latin America and the second-largest *Coca-Cola* bottler in the world in terms of sales volume, announces results for the second quarter 2006 and the first six months of the year.

"Our markets' robust domestic consumption combined with our superior execution and understanding of local retail dynamics, supported our results for the quarter. The strong top-line momentum of all of our operations offset higher raw-materials costs in the majority of our territories and the year-over-year depreciation of the peso in Mexico," said Carlos Salazar, Chief Executive Officer of the Company.

CONSOLIDATED RESULTS

Our consolidated revenues increased 3.9% to Ps. 14,108 million in the second quarter of 2006 as a result of increases in all of our territories. Over 70% of our revenues growth came from Brazil¹ and Central America. Consolidated average price per unit case was 1.2% lower in the second quarter of 2006 than in the same period of the previous year, at Ps. 27.38 (US\$ 2.43), driven by a decrease in average price per unit case in Mexico and Argentina.

Total sales volume increased 3.9% to 505.9 million unit cases in the second quarter of 2006 compared to the same quarter of 2005. Sales volume growth in Mexico and Argentina accounted for over 80% of our incremental volume. Carbonated soft drinks sales volume grew 5.1% to 425.4 million unit cases, driven by incremental volumes across all of our territories except for Venezuela.

Our gross profit rose 1.4% to Ps. 6,807 million in the second quarter of 2006, compared to the second quarter of 2005; increased gross profit in the majority of our operations, offset a decline in Venezuela. Gross margin decreased 120 basis points to 48.2% in the second quarter of 2006 from 49.4% in the same period of 2005, due to a 2.3% increase in our average cost per unit case.

Our consolidated operating income grew 0.2% to Ps. 2,379 million in the second quarter of 2006, increases in operating income in Mexico, Central America, Colombia and Brazil, more than compensated decreases in Venezuela, and Argentina. Our operating margin was 16.9% in the second quarter of 2006, a decline of 60 basis points as compared to the same period of 2005.

During the second quarter of 2006, our integral cost of financing increased to Ps. 894 million from Ps. 295 million in the same period of 2005, driven by foreign exchange losses resulting from the depreciation of the Mexican peso against the U.S. dollar as applied to our net liability position denominated in foreign currency, compared to a gain recorded during the same period in 2005, which more than offset a reduction in our interest expenses.

During the second quarter of 2006, income tax, tax on assets and employee profit sharing as a percentage of income before taxes was 43.2% as compared to 32.3% in the same quarter of 2005. The effective tax rate was impacted by foreign exchange losses recorded during the quarter, which were not fully deductible for tax purposes in Mexico.

Our consolidated majority net income was Ps. 681 million in the second quarter of 2006, a decrease of 48.4% compared to the second quarter of 2005 mainly driven by foreign exchange loss mentioned above. Earnings per share ("EPS") were Ps. 0.37 (US\$ 0.33 per ADR) computed on the basis of 1,846.5 million shares outstanding (each ADR represents 10 local shares).

¹ Revenue growth in Brazil was mainly driven by the inclusion of beer in our income statement.

MEXICAN OPERATING RESULTS

Revenues

Revenues from our Mexican territories increased 0.6% to Ps. 7,883 million in the second quarter of 2006, as compared to the same period of the previous year. Sales volume growth compensated lower average price per unit case. During the quarter the majority of our incremental volumes came from our multi-serve presentations, which carry lower prices per unit case, resulting in an average price per unit case decline of 3.0% to Ps. 27.22 (US\$ 2.41) . Excluding *Ciel* water volume in 5.0, 19.0 and 20.0 -liter packaging presentations, our average price per unit case was Ps. 31.63 (US\$ 2.80), a decrease of 3.8% in the second quarter of 2006, as compared to the same period of 2005.

Total sales volume increased 3.8% to 289.2 million unit cases in the second quarter of 2006, as compared to the second quarter of 2005, mainly resulting from a 5.6% sales volume growth in carbonated soft drinks, which more than offset sales volume decline in our water sales volumes. Incremental volumes from *Coca-Cola* brand accounted for more than 75% of our carbonated soft drink growth during the quarter and *Fanta* and *Mundet Multiflavors* accounted for the balance. Excluding non-flavored bottled water, the non-carbonated beverage segment grew 32.6% in the second quarter of 2006 as a result of additional sales volume from *Ciel Aquarius*, our no-calorie flavored water brand, and to a lesser extent from the juice based products under the *Minute Maid* brand.

Operating Income

Our gross profit increased 0.6% to Ps. 4,195 million in the second quarter of 2006 as compared to the same period of 2005. Average cost per unit case reduction compensated lower average prices per unit case, as a result our gross margin remained flat at 53.2% during the second quarter of 2006. Our average cost per unit case decreased 3.1% mainly driven by a lower average sweetener cost and resin prices in U.S. dollars, year over year, which more than offset the depreciation of the Mexican peso as applied to our U.S. dollar-denominated costs.

Operating income increased 2.3% to Ps. 1,786 million in the second quarter of 2006, as compared to the same period of 2005, driven by a 0.6% reduction in our operating expenses combined with operating leverage due to higher revenues. Our operating income margin increased by 40 basis points to 22.7% in the second quarter of 2006, as compared to 22.3% in the same period of 2005.

CENTRAL AMERICAN OPERATING RESULTS (Guatemala, Nicaragua, Costa Rica and Panama)

Revenues

Revenues reached Ps. 1,077 million in the second quarter of 2006, an increase of 14.6% as compared to the same period of the previous year. Volume growth accounted for almost 60% of incremental revenues and higher average price per unit case for the balance. Average price per unit case increased 5.0% to Ps. 35.21 (US\$ 3.13), mainly as a result of price increases implemented during the quarter throughout the region.

Total sales volume in our Central American territories grew 8.2% to 30.3 million unit cases in the second quarter of 2006, as compared to the same period of 2005, resulting from incremental volumes in all the countries that comprise our Central American region. Volume growth from carbonated soft drinks, mainly coming from Nicaragua and Costa Rica, accounted for over 50% of our incremental volume and the non-carbonated segment, including bottled water, represented the balance. Non-carbonated beverages more than doubled its size during the quarter, from a very small base, mainly driven by *Hi-C*, a juice-based product.

Operating Income

Gross profit rose 8.5% in the second quarter of 2006, as compared to the same period of 2005, to Ps. 500 million as a result of operating leverage due to higher revenues. However, as a percentage of total revenues gross margin decreased 260 basis points as a result of higher costs per unit case driven by higher packaging costs coming from a packaging mix shift towards non-returnable presentations.

Our operating income increased 25.0% to Ps. 155 million in the second quarter of 2006, resulting in a margin expansion of 120 basis points to 14.4% as compared to the same period of 2005. Our operating expenses as percentage of total revenues, decreased from 35.9% in the second quarter of 2005 to 32.0% in the same period of 2006 driven by higher fixed-cost absorption due to an increase in revenues.

COLOMBIAN OPERATING RESULTS

Revenues

Total revenues increased 2.9% to Ps. 1,124 million in the second quarter of 2006, as compared to the second quarter of 2005. Higher volumes drove over 65% of this growth, and higher average prices the balance. Our average price per unit case grew 0.9% to Ps. 24.77 (US\$ 2.20), as a result of price increases implemented in the quarter and a packaging mix shift to non-returnable presentations, which have higher prices per unit case.

Total sales volume in the second quarter of 2006 grew 1.8%, as compared to the same period of 2005, to 45.3 million unit cases. This growth includes a 2.0% carbonated soft drinks increase, which more than compensated a bottled water decline. Volume growth of the *Coca-Cola* brand more than compensated a decline in the flavor carbonated beverages.

Operating Income

Gross profit increased 1.9% to Ps. 490 million in the second quarter of 2006, as compared to the same period of the previous year, resulting in a gross margin of 43.6%. The gross margin decline of 40 basis points as compared to the second quarter of 2005 was driven by higher packaging costs resulting from a packaging mix shift to non-returnable

presentations, and sugar price increases, which more than compensated lower resin prices.

Operating income increased 12.1% to Ps. 111 million in the second quarter of 2006, as compared to the same period of 2005, resulting in a margin improvement of 80 basis points. Operating expenses remained almost flat in absolute terms and declined by 130 basis points as percentage of total revenues, due to operating leverage achieved by higher revenues.

VENEZUELAN OPERATING RESULTS

Revenues

Revenues from our Venezuelan operations increased 4.4% to Ps. 1,513 million in the second quarter of 2006, as compared to the same period of 2005, resulting from higher average price per unit case, which more than offset sales volume decline in the quarter. Our average price grew 6.8% to Ps. 34.14 (US\$ 3.02) as a result of price increases implemented during the last twelve months.

Total sales volume decreased 2.4% to 44.2 million unit cases during the second quarter of 2006, as compared to the same quarter of 2005, flavored carbonated soft drinks incremental volumes were more than offset by sales volume decline of the *Coca-Cola* brand and the non-carbonated beverages, including bottled water.

Operating Income

Gross profit decreased 2.4% to Ps. 581 million in the second quarter of 2006, as compared to the same period of the previous year, resulting in a margin decline of 270 basis points to 38.4% . This decline was a result of i) higher sugar prices, ii) salary increases and iii) higher packaging costs due to a shift in packaging mix to non-returnable presentations.

Operating expenses increased 5.5% to Ps. 559 million in the second quarter of 2006, as percentage of total revenues slightly increased from 36.6% in the same period of 2005 to 36.9% . The increase reflected inflation pressures primarily in higher freight costs and salary increases implemented during the last twelve months. Our operating income was Ps. 22 million, a reduction of 300 basis points as percentage of total revenues to 1.5% as compared to the same period of 2005 mainly driven by the gross margin reduction.

ARGENTINE OPERATING RESULTS

Revenues

In Argentina, our total revenues increased 9.0% to Ps. 715 million in the second quarter of 2006, as compared to the same period of the previous year; a strong 14.3% sales volume growth more than compensated lower average prices per unit case. Average price per unit case declined 3.5% to Ps. 19.16 (US\$ 1.70) in the second quarter of 2006.

In the second quarter of 2006, total sales volume increased 14.3% to 36.7 million unit cases, as compared to the same period of 2005. This included a 14.7% growth in carbonated soft drinks volumes, with the *Coca-Cola* brand accounting for over 60% of the incremental volumes and the value protection brands for the majority of the balance. Sales volume of non-carbonated beverages, excluding non-flavored bottled water, increased 38.3% driven by incremental volumes of *Cepita*, the juice based brand.

Operating Income

Gross profit increased 13.5% to Ps. 285 million in the second quarter of 2006, as compared to the second quarter of 2005. Our gross margin increased 160 basis points to 39.9%, as compared to the second quarter of 2005, due to lower raw material prices that more than compensated higher labor costs.

Operating expenses increased 20.5% in the second quarter of 2006 mainly due to higher freight costs and salaries. Higher revenues and lower costs per unit case were more than offset by incremental expenses, resulting in an operating income decrease of 1.3% to Ps. 79 million in the second quarter of 2006 as compare to the same period of 2005 and a decline of 120 basis points in our operating margin to 11.0% .

BRAZILIAN OPERATING RESULTS

In January 2006, FEMSA Cerveza acquired an indirect controlling stake in Cervejarias Kaiser Brasil S.A. or Cervejarias Kaiser. As of February 2006, Coca-Cola FEMSA has subsequently agreed to continue to distribute the Kaiser beer portfolio and to resume the sales function in São Paulo, Brazil, consistent with the arrangements in place prior to 2004. Beer sales volume will not be included in our sales volume for the 2006 period, although revenues and costs will be recorded in our income statement. In 2005, we did not include beer that we distributed in Brazil in our sales volumes and net sales. Instead, the amount we received for distributing beer in Brazil is included in other revenues. Therefore, financial information will not be comparable with previous quarters until the first quarter of 2007, and on a yearly basis, until the end of 2007.

Revenues

Net revenues increased 14.4% to Ps. 1,788 million in the second quarter of 2006 as compared to the same period of 2005. Excluding beer, net revenues increased 1.1% to Ps. 1,581 million in the second quarter of 2006, as compared to the same period of 2005, volume growth more than offset a decline in average price per unit case. Excluding beer, average price per unit case decreased 1.7% to Ps. 26.26 (US\$ 2.33) during the second quarter of 2006, driven by strong growth of our returnable presentations, which carry lower average price per unit case. Total revenues from beer were Ps. 207 million.

Sales volume, excluding beer, increased 2.9% to 60.2 million unit cases in the second quarter of 2006. Sales volume growth from the *Coca-Cola* brand more than compensated volume decline in the flavored carbonated soft drinks resulting in a 3.1% of carbonated sales volume growth. Non-carbonated beverages, excluding non-flavored bottled water, increased 13.1%, driven by the introduction of a juice based product under the *Minute Maid Mais* brand.

Operating Income

In the second quarter of 2006, our gross profit remained relatively stable at Ps. 756 million, as compared to the same period of the previous year, in spite of the increasing pressures on sugar prices that were partially offset by the appreciation of the Brazilian real year over year as applied to our U.S. dollar-denominated costs. Gross margin was 42.1% in the second quarter of 2006..

Our operating expenses in absolute terms remained relatively stable in the second quarter of 2006 as compared to the same period of 2005. Operating income was Ps. 226 million in the second quarter of 2006, an increase of 2.7% as compared to the same quarter of 2005.

SUMMARY OF SIX-MONTH RESULTS

Our consolidated revenues increased 5.8% to Ps. 27,048 million in the first half of 2006, as compared to the first half of 2005, as a result of growth in all of our territories; Mexico and Brazil represented over 65% of this growth. Consolidated average price per unit case decreased 0.5% to Ps. 27.31 (US\$ 2.42) in the first half of 2006. Average price increases in Colombia, Venezuela, Brazil and Central America partially offset lower average price per unit case in Mexico and Argentina.

Total sales volume increased 5.1% to 972.1 million unit cases in the first half of 2006, as compared to the same period of the previous year. Sales volume growth in Mexico and Brazil, excluding beer, accounted for over 75% of our incremental volumes. Carbonated soft-drink sales volume grew 5.3% to 819.3 million cases, driven by incremental volume across all of our territories except for Venezuela.

Our gross profit increased 4.2% to Ps. 12,999 million in the first half of 2006, as compared to the first half of the previous year, driven by gross profit growth across all of our territories except Venezuela. Gross margin decreased slightly to 48.1% during the first half of 2006 from 48.8% in the first half of 2005, due to higher cost per unit case in all of our territories except Mexico and Argentina.

Our consolidated operating income increased 3.3% to Ps. 4,330 million in the first half of 2006, as compared to the first half of 2005. Mexico and Brazil accounted for over 75% of this growth and more than offset an operating income decline in Venezuela and Argentina. Our operating margin decreased 40 basis points to 16.0% in the first half of 2006, mainly driven by the gross margin reduction.

Our consolidated majority net income was Ps. 1,602 million in the first half of 2006 a decrease of 21.3% compared to the first half of 2005, mainly driven by the year to date depreciation of the Mexican peso versus the U.S. dollar, compared to an appreciation during the same period in 2005 as applied to our net liabilities position denominated in foreign currency. EPS were Ps. 0.87 (US\$ 0.77 per ADR) computed on the basis of 1,846.5 million shares outstanding (each ADR represents 10 local shares).
