(**) Earnings before interest, taxes, depreciation and amortization

In 2006, net operating revenue totaled R\$ 5,527.3 million, an 11.6% increase in comparison to 2005. Costs and expenses, in the amount of R\$ 3,629.6 million were 11.2% higher than in 2005. EBITDA grew from R\$ 2,285.6 million in 2005 to R\$ 2,539.9 million in 2006, corresponding to an 11.1% growth, as revenue increased more than costs.

EBIT recorded a 12.3% growth, from R\$ 1,689.6 million in 2005 to R\$ 1,897.7 million in 2006. Net income reached R\$ 872.7 million, 0.8% above the R\$ 865.6 million recorded in 2005. In 4Q06 net income reached R\$ 173.7 million, down by 7.3% when compared to the same period of 2005.

2. Gross operating revenue growth

In 2006, gross operating revenue increased by R\$ 627.7 million, or 11.7%, moving from R\$ 5,356.4 million in 2005 to R\$ 5,984.1 million in 2006. The main reasons for this increase were:

- The 9% tariff readjustment of 2005, with a 6.6% impact in 2006, and the 6.7% tariff readjustment as of August 2006, with a 1.7% impact in 2006, totaling 8.3%;
- The 3.2% increase in billed volume.

In 4Q06 gross operating revenue reached R\$ 1,599.4 million, up by R\$ 148.3 million or 10.2% when compared to the same period of 2005.

3. Billed volume

4. Costs, administrative and selling expenses

In 2006, the costs of products and services rendered and administrative and selling expenses moved up by R\$ 365.8 million or 11.2% . However, costs and expenses as a percentage of net revenues remained fairly stable, from 65.9% in 2005 to 65.7% in 2006. In 4Q06, it increased by R\$ 168.1 million or 19.2% .

4.1. Payroll and benefits

The Company expanded its services and increased its productivity. The number of connections per employee grew from 651 in 2005 to 684 in 2006, corresponding to a 5.1% productivity growth.

In 2006 payroll and benefits grew by R\$ 152.0 million or 13.7%, moving up from R\$ 1,106.4 million to R\$ 1,258.4 million, due to the following:

- 4.63% (IPCA-IBGE) wage adjustment as of May 2006;
- Employee performance evaluation with the payment of bonus and charges in the amount of R\$ 42.4 million in 2006, as a result of the 2006 wage agreement, non-recurring;
- Profit Sharing Plan, considering the adjustment for the period between January and December 2006, with a R\$ 31.7 million addition in 2006, non-recurring;
- Incentive Resignation Program, with the adhesion of 398 employees in 2006, and dismissal charges totaling R\$ 7.2 million.

In 4Q06 payroll and benefits grew by R\$ 48.1 million or 16.7%, mainly due to the Profit Sharing Plan and the charges with the Incentive Resignation Program, both in the amount of R\$ 40.7 million.

4.2. Supplies

In 2006, this figure increased by R\$ 11.8 million or 10.2%, from R\$ 115.9 million to R\$ 127.7 million, mostly due to:

- Fuel and lubricants, which recorded a R\$ 4.6 million increase due to the 10% growth in the average weighted price;

- Network maintenance and water and sewage residential connections, mainly concentrated in the São Paulo Metropolitan Region, which generated a R\$ 4.8 million hike;
- R\$ 0.9 million increase in building and facility maintenance, security supplies, protection (personnel and collective) and uniforms, resulting in the OHSAS 18001 certification (international occupational health and safety management system specification).

In 4Q06, the R\$ 5.2 million increase was mainly motivated by the increase of R\$ 2.2 million in fuel and lubricant prices and of R\$ 2.5 million in network and system maintenance.

4.3. Treatment supplies

The R\$ 5.7 million or 5.8% increase, from R\$ 98.8 million to R\$ 104.5 million in 2006, was due to a higher volume of treated water as a result of the increase in consumption and of the 8.3% average price readjustment. Despite these factors, the 5.8% increase was mainly due to a better operating efficiency when using chemical products. In 4Q06 treatment supplies moved up by R\$ 0.4 million or 2.0% .

4.4. Third-party services

In 2006 third-party services grew by R\$ 12.2 million or 2.6%, from R\$ 474.0 million to R\$ 486.2 million. The main reasons for this performance were:

- Preventive maintenance in sewage treatment stations, adjustment maintenance in the Baixo Cotia Water Treatment Station, due to the inundation in 2006, and the concentration of services for sludge disposal at the Stabilization Lagoon in the Capivari/Jundiaí District Department in the amount of R\$ 16.2 million;
- Expansion of the research for the detection of non visible leakage at the São Paulo Metropolitan Region, as part of the Loss Control Program, in the amount of R\$ 6.8 million;
- Contractual updates and the hiring of surveillance in the amount of R\$ 6.0 million;
- Handset meter-reading and invoicing, with the contracts adjusted by 1.96% (IPC-FIPE), adding R\$ 5.0 million to the cost of this service;
- Software expenses in the amount of R\$ 7.4 million;
- These expenses were offset by the decrease in technical-professional services in 2006, in the amount of R\$ 31.0 million. In 2005, there were some expenses related to the structuring of capital market operations (7th and 8th Debenture issue), the tariff study and the development of a plan for the final disposal and/or use of sludge in the scope of the Tietê River Decontamination Program Stage II.

In 4Q06 third-party services jumped by R\$ 10.0 million or 7.0%, chiefly due to software maintenance, expansion of the research for the detection of leakage and maintenance and preservation of operating areas.

4.5. Electric power

It increased by R\$ 25.4 million or 6.0%, from R\$ 423.5 million to R\$ 448.9 million, mainly due to:

- The growth of the water (2%) and sewage collection volumes;
- The average tariff adjustment of 6.7% in the captive market and for the tariff for the distribution centers, which represented 84% of the total electric power expense;
- The 16.3% average price increase, corresponding to 16% of Sabesp's electric power expenditure;
- Electric Power Efficiency Program that enabled a R\$ 4.9 million saving in the electric power bill;
- The R\$ 24.9 million saving with the purchase of electric power in the free market in 2006;
- The optimization of the electric power supply agreements with concessionaries, which enabled a R\$ 0.5 million saving in 2006 at the São Paulo Metropolitan Region;
- The extinction of the tax on Emergency Capacity Charges - ECE in December 2005, which saved R\$ 7.3 million.

In 4Q06 this expense grew by R\$ 10.6 million, also due to the factors mentioned above.

4.6. General expense

In 2006, general expenses moved up by R\$ 45.5 million or 27.6%, from R\$ 164.6 million to R\$ 210.1 million, as a result of:

- The R\$ 38.1 million increase in indemnifications and provision for contingencies, mainly due to the provision for contingencies related to environmental and labor matters;
- The R\$ 6.5 million increase of the charge for the use of water resources from the Piracicaba, Capivari and Jundiaí Basins as from January 2006 (from R\$ 0.7 million to R\$ 7.2 million).

In 4Q06 the R\$ 57.1 million increase was mainly due to provisions for contingencies.

4.7. Depreciation and amortization

Depreciation and amortization grew by R\$ 46.2 million or 7.8%, from R\$ 596.0 million to R\$ 642.2 million, due to the transfer of works in place to operating permanent assets in the fiscal year 2006.

4.8. Credit write-offs

In 2006, credit write-offs climbed by R\$ 62.9 million or 24.6%, moving up from R\$ 255.3 million in 2005 to R\$ 318.2 million this year, mostly as a result of the following:

- The accounts written off in 2005 refer to the 2004 billing, which was 15.4% below the 2005 figure, due to the water consumption reduction program, showing a non recurring movement during 2005;
- The main variation is in residential bills, which grew by 20% in 2005.

In 4Q06 dropped by R\$ 4.6 million or 5.4%, due to a lower provisioning of the wholesale segment.

4.9. Tax expenses

In 2006 rose by R\$ 4.1 million or 14.0% as a result of federal taxes and charges, which moved up by R\$ 2.3 million due to services hired abroad for the management of the Environmental Recovery Program for the Metropolitan Region of the Santos Costal Area; and the CPMF tax, which grew by R\$ 1.1 million due to the settlement of part of the principal, interest and premium of the 2008 Eurobond, in November 2006.

In 4Q06, the R\$ 2.2 million increase is mainly a result of the expenses related to the issue of the 2016 Eurobond in November.

5. Financial expenses and revenues

5.1. Financial expenses

In 2006 financial expenses dropped by R\$ 104.5 million or 13.2%, as follows:

	<i>R\$ million</i>			
	2005	2006	Chg.	%
Financial expenses				
Interest and charges on domestic loans and financing	528.4	517.6	(10.8)	(2.0)
Interest and charges on international loans and financing	141.8	121.2	(20.6)	(14.5)
Taxes over offshore remittances	9.5	12.6	3.1	32.6
Other financial expenses	35.6	38.6	3.0	8.4
Provision	76.5	(2.7)	(79.2)	(103.5)
Total financial expenses	791.8	687.3	(104.5)	(13.2)
Financial revenues	80.7	97.5	16.8	20.8
Financial expenses net of revenues	711.1	589.8	(121.3)	(17.1)

The highlights regarding domestic financing are:

- The R\$ 9.0 million drop in the amount paid of interest on domestic financing due to the prepayment of the 1st series of the 5th Debenture issuance in April 2006 and to the amortization of the 4th Debenture issuance in 2006, being settled in December. The settlement of the 1st series of the 5th Debentures issuance with proceeds from the FIDC in March 2006, pushed the interest rate down from 1.1% p.a. to 0.70% p.a.;
- The decrease in expenses related to the Debentures structuring and distribution in the amount of R\$ 1.8 million related to the 7th Debenture issuance, held in March 2005 and the 8th Debenture issuance, held in June 2005.

The highlights for international financing are:

- The R\$ 42.5 million drop in the payment of interest on Eurobonds, due to the settlement of the 2005 Eurobonds in July 2005 and the prepayment of part of the 2008 Eurobonds in November 2006. The new funding, the 2016 Eurobonds, dragged the interest rate down from 12% p.a. to 7.5% p.a.;
- The R\$ 9.4 million drop as a result of the payment of the principal to the IDB, and interest on syndicated loans due to the full settlement of the loan in October 2005;
- The increase in charges with the payment of premium due to the adhesion of the 2008 Eurobonds

- prepayment, in the amount of R\$ 31.3 million, non-recurring;
The R\$ 3.1 million increase in the income tax on the offshore remittance, due to the payment of a part of the principal of the 2008 Eurobond.

Regarding other financial expenses, despite the R\$ 3.0 million increase, we highlight the R\$ 9.8 million drop, resulting from the decrease in the Long-Term Interest Rate (TJLP) on interest from PAES.

In 2006, contingencies related to interest and monetary restatement of lawsuits were reversed, due to a lower probability of loss, resulting in a R\$ 79.2 million decrease in provisions.

5.2. Financial revenues

Financial revenues grew by R\$ 16.8 million or 20.8%, from R\$ 80.7 million to R\$ 97.5 million in 2006, due to the agreement reached with Companhia de Saneamento de Diadema – SANED and the return on financial investments.

6. Passive and active monetary variation

6.1. Passive monetary variation

The net effect of passive monetary variation was negative by R\$ 1.5 million in 2006, in comparison to a positive R\$ 230.1 million in 2005. This negative variation of R\$ 231.6 million was due to:

- The increase in the IGPM Index in 2006 (from 1.2% to 3.8%), generating a R\$ 15.6 million monetary variation;
- Lower appreciation of the real in 2006 (8.7%) and currency basket, in comparison to the appreciation of the real in 2005 (11.8%), as well as the lower US dollar exposure, generating a R\$ 216.0 million variation.

	<i>R\$ million</i>			
	2005	2006	Chg.	%
Monetary variation over loans and financing	82.0	97.6	15.6	19.0
Currency exchange variation over loans and financing	(312.1)	(96.1)	216.0	(69.2)
Passive monetary variation	(230.1)	1.5	231.6	(100.7)

6.2. Active monetary variation

Active monetary variation dropped by R\$ 6.0 million or 17.6%, from R\$ 34.0 million to R\$ 28.0 million, in 2006 as a result of the update of the GESP Agreement balance due to the lower remaining balance.

8. Loans and financing

Regarding debt management in the capital market, the Company, in line with its pro active attitude, issued the FIDC SABESP I in the amount of R\$ 250 million. These proceeds were used to settle the debt maturing in 2006 and to anticipate the withdrawal of the total outstanding balance of the Debentures from the first series of the 5th issuance, in the amount of R\$ 104.5 million as principal and R\$ 1.9 million as interest, which would mature in March 2007.

Also in line with this trend, in November the Company issued international bonds in the amount of US\$ 140 million (2016 Eurobonds), at a rate of 7.5% per year due in November 2016. These proceeds were used to repurchase 56.4% of the notes issued in 2003 (2008 Eurobonds) in the amount of US\$ 225 million, at a rate of 12% p.a., due in June 2008. This operation enabled the extension of the Company's debt maturity and the reduction of its average cost.

9. Balance Sheet

On December 31, 2006, the balance of the account collection to be discriminated, pertaining to Accounts Receivable group of accounts, was R\$ 43 million negative, although it is a crediting account of the balance sheet.

The Company is under a process of analysis and reconciliation of this balance, in order to identify the causes for the inversion of the nature of this balance, with a view to adequate the respective accounting impacts to the Company's accounting statements. This fact is mentioned in the Independent Auditors' Report, issued on March 30, 2007.
