six months of the year to Ps. 5,090 million, mainly driven by higher profitability in the operations outside of Mexico. Our operating margin was 16.9% for the second quarter of 2007 and 16.0% for the first half of the year.

Consolidated majority net income increased 130.3% to Ps. 1,739 million in the second quarter of 2007, and 68.3% to Ps. 2,896 million for the first half of the year, resulting in earnings per share of Ps. 0.94 for the second quarter of 2007, and Ps. 1.57 for the first half of the year.

We have reached an understanding with The Coca-Cola Company to acquire its wholly owned bottling franchise located in the state of Minas Gerais (REMIL) in Brazil.

Mexico City (June 27, 2007), Coca-Cola FEMSA, S.A.B. de C.V. (BMV: KOFL, NYSE: KOF) (Coca-Cola FEMSA or the Company), the largest Coca-Cola bottler in Latin America and the second-largest Coca-Cola bottler in the world in terms of sales volume, announces results for the second quarter 2007 and the first six months of the year.

Our positive results for the quarter reflected higher domestic consumption of our beverage products, supported by our markets strengthening economies and currency revaluations. This growth, along with our greater operating leverage, fueled a double-digit increase in operating income for the quarter and more than compensated for sweetener cost pressures in Mexico. Our company s focus on innovation and advanced multi-segmentation initiatives continued to foster double-digit growth in our markets outside of Mexico and improved results in our Mexican territories. Additionally, in line with our strategy of expand our footprint in Latin America, we have reached an understanding with The Coca-Cola Company to acquire one of its territories in Brazil. The transaction will increase our presence in the growing Brazilian market by more than a third. said Carlos Salazar Lomelín, Chief Executive Officer of the Company.

RECENT DEVELOPMENTS

- We have reached an understanding with The Coca-Cola Company to acquire its wholly owned bottling franchise located in the state of Minas Gerais (Refrigerantes Minas Gerais Ltda., REMIL) in Brazil. The closing, terms and conditions of the transaction are subject to a confirmatory due-diligence process, negotiation and execution of a definitive agreement and approval by the board of directors of both companies. Remil covers a population of approximately 15 million inhabitants, including Belo Horizonte, the third largest city in Brazil. The transaction would be expected to close during the first quarter of 2008.
- On June 25, the Comisión Federal de Competencia in Mexico (CFC), the Mexican Antitrust Commission, officially notified the The Coca-Cola Company and us of its decision to object to the acquisition of Jugos del Valle, S.A.B. de C.V.(Jugos del Valle). Subsequently, we filed a motion of reconsideration with the CFC. On July 17, the CFC made public on its official website its decision to approve the acquisition of Jugos del Valle subject to certain conditions. We expect to receive the final notification in the following weeks.
- On June 25 we filed our annual report for the fiscal year ended December 31, 2006 with the Bolsa Mexicana de Valores and on Form 20-F with the U.S. Securities and Exchange Commission.

CONSOLIDATED RESULTS

Our consolidated total revenues increased 8.2% to Ps. 16,460 million in the second quarter of 2007, compared to the second quarter of 2006 as a result of increases in all of our territories; Mexico and Venezuela represented approximately 55% of this growth. Our consolidated average price per unit case increased 2.2% to Ps. 30.18 (US\$ 2.80) in the second quarter of 2007 compared to the same period of 2006 driven by average price increases in the majority of our operations.

Total sales volume increased 5.9% to 535.9 million unit cases in the second quarter of 2007 as compared to the same period of 2006, mainly driven by 6.4% volume growth of the *Coca-Cola* brand, which accounted for more than 65% of our total incremental volumes during the quarter. Carbonated soft drinks sales volume grew 5.0% to 446.8 million unit cases, driven by volume growth across all of our territories.

Our gross profit increased 8.4% to Ps. 7,916 million in the second quarter of 2007, compared to the second quarter of 2006, driven by increases in all of our operations. Gross margin reached 48.1% in the second quarter of 2007 from 48.0% in the same period of 2006. Increases in average price per unit case more than compensated for higher sweetener costs mainly in Mexico.

Our consolidated operating income increased 10.5% to Ps. 2,779 million in the second quarter of 2007. Double-digit increases in operating income in most of our operations more than compensated for the decline in Mexico. Our operating margin was 16.9% in the second quarter of 2007, an improvement of 40 basis points as a result of higher fixed-cost absorption due to incremental revenues.

As we mentioned in our first quarter press release, beginning in 2007, accordingly to the Mexican Financial Reporting Standards, we recorded employee profit sharing in the other expenses line, instead of being recorded in the income tax line. For comparison purposes we are reflecting 2006 information with this change, which amounted to Ps. 92 million in the second quarter of 2006 and Ps. 53 million in the same period of 2007.

Our integral cost of financing declined by 80.2% in the second-quarter of 2007 to Ps. 181 million as compared to the same period of 2006, mainly driven by a foreign exchange gain resulting from the appreciation of the Mexican pesos against the U.S. dollar as applied to our liability position denominated in foreign currency, compared to a loss recorded in the same period of 2006 and a non-hedge accounting derivative instrument gain compared to a loss from the previous year.

During the second quarter of 2007 income tax, as a percentage of income before taxes, was 25.3% as compared to 39.2% in the same quarter of 2006 mainly due to tax credits received during the quarter in the amount of Ps. 67 million.

Our consolidated majority net income increased by 130.3% to Ps. 1,739 million in the second quarter of 2007, compared to the second quarter of 2006, resulting from (i) a decline in our integral cost of financing, (ii) an increase in our operating income, and (iii) a reduction in income taxes. Earnings per share (EPS) were Ps. 0.94 (US\$ 0.87 per ADR) computed on the basis of 1,846.5 million shares outstanding (each ADR represents 10 local shares).

BALANCE SHEET

As of June 30, 2007, Coca-Cola FEMSA had a cash balance of Ps. 6,988 million (US\$ 648 million), an increase of Ps. 2,217 million (US\$ 205 million), compared to December 31, 2006, resulting from the issuance of new debt during the first quarter and from internal cash generation.

Total short-term debt including current maturity of long term debt, was Ps. 2,917 million (US\$ 270 million) and long-term debt was Ps. 17,333 million (US\$ 1,606 million), a gross debt increase of Ps. 704 million (US\$ 65 million) compared with year end 2006, as a result of the issuance of new debt. Net debt decreased approximately Ps. 1,513 million (US\$ 140 million) compared to year end of 2006, due to bank debt prepayment and the maturity of our KOF03 *Certificado Bursátil* in April 2007.

As we mentioned on our first quarter press release, in March 2007 we successfully issued Ps. 3,000 million (US\$ 278 million) in 5 year *Certificados Bursátiles* at a rate of 28-day TIIE minus 6 basis points, a portion of the proceeds from this issuance was used to refinance the maturity of our KOF 03 *Certificado Bursátil* in April 2007. The remaining portion of the proceeds will be used for the financing of the Jugos del Valle acquisition, once all necessary regulatory approvals take place.

The weighted average cost of debt for the quarter was 7.92% . The following charts sets forth the Company's debt profile by currency and interest rate type and by maturity date as of June 30, 2007:

MEXICAN OPERATING RESULTS

Revenues

Total revenues from our Mexican territories increased 4.0% to Ps. 8,537 million in the second quarter of 2007, as compared to the same period of the previous year. Sales volume growth compensated for slightly lower average price per unit case for the quarter. Average price per unit case declined 0.2% to Ps. 28.25 (US\$ 2.62), as compared to the second quarter of 2006. Incremental volumes from jug water, which carry lower average price per unit case, more than offset average price per unit case increases in the carbonated soft drink category. Excluding *Ciel* water volume in 5.0, 19.0 and 20.0 -liter packaging presentations, our average price per unit case was Ps. 32.95 (US\$ 3.05) a 0.9% increase as compared to the same period of 2006.

Total sales volume increased 3.8% to 300.4 million unit cases in the second quarter of 2007, as compared to the second quarter of 2006, resulted from (i) a 1.7% sales volume growth in carbonated soft drinks, driven by a 3.0% increase in the *Coca-Cola* brand, with *Coca-Cola Zero* accounting for more than 65% of this incremental volume, (ii) a 9.5% sales volume growth in jug water, and (iii) incremental volumes in bottled water in single serve presentations. The non-carbonated beverage segment excluding bottled water grew almost 40% in the second quarter of 2007 as compared to the same period of 2006, mainly driven by strong volume growth from the no calorie flavored water *Ciel Aquarius*, and *Powerade*, an isotonic beverage.

Operating Income

Our gross profit increased by 1.5% to Ps. 4,436 million in the second quarter of 2007 as compared to the same period of 2006. Gross margin declined from 53.3% in the second quarter of 2006 to 52.0% in the same period of 2007, as a result of higher sweetener costs year over year.

Operating income declined 1.6% to Ps. 1,827 million in the second quarter of 2007, as compared to Ps. 1,856 million in the same period of 2006 as a result of higher sweetener costs. Our operating margin was 21.4% in the second quarter of 2007, a decline of 120 basis points as compared to the second quarter of 2006, due to the gross margin decrease.

Average price per unit case increased by 1.6% to Ps. 35.66 (US\$ 3.30) in the second quarter of 2007, as compared to the second quarter of 2006, mainly as a result of strong volume growth in single serve presentations, which carry higher average price per unit case, combined with price increases implemented during the last twelve months throughout Central America.

Total sales volume in our Central American territories grew 6.0% to 32.0 million unit cases in the second quarter of 2007, as compared to the same period of 2006, resulting from incremental volumes of the carbonated soft drink category, which accounted for more than 65% of the growth. Incremental volumes of the *Coca-Cola* brand accounted for more than 40% of the growth, and flavored carbonated soft drinks and non-carbonated beverages, excluding bottled water contributed almost equally to the balance. In the second quarter of 2007 non-carbonated beverages, excluding bottled water, increased more than 25% as compared to the same period of 2006 due to strong growth of *Hi-C*, a juice based product and *Powerade*, an isotonic beverage.

Operating Income

Gross profit reached Ps. 537 million, an increase of 9.6% in the second quarter of 2007, as compared to the same period of 2006, as a result of improved operating leverage due to higher revenues. Total sales volume in the second quarter of 2007 grew 5.3%, as compared to the same period of 2006, to 47.7 million unit cases. Carbonated soft drinks volume growth accounted for more than 85% of the incremental volume in the quarter, mainly driven by the *Coca-Cola* brand, with bottled water accounting for the majority of the balance. Non-carbonated beverages, excluding bottled water, increased over 20% as a result of strong growth of *Powerade*, the isotonic beverage.

Operating Income

Our gross profit increased 26.4% to Ps. 833 million in the second quarter of 2007, as compared to the same period of the previous year. The strong appreciation of the Colombian peso as applied to our U.S. dollar denominated raw materials combined with lower sweetener costs and operating efficiencies, resulted in a gross margin expansion of 560 basis points from 43.5% in the second quarter of 2006 to 49.1% in the second quarter of 2007.

Operating expenses declined by 130 basis points as percentage of total revenues, due to operating leverage achieved by higher revenues as compared to the same period of 2006. Total sales volume increased 16.1% to 51.3 million unit cases during the second quarter of 2007, as compared to the same quarter of 2006. Carbonated soft drinks sales volume growth more than offset a decrease in jug water. Operating Income

Gross profit reached Ps. 824 million, an increase of 25.6% in the second quarter of 2007, as compared to the same period of the previous year. In spite of the increase in the average cost per unit case driven by higher raw material prices, our gross margin improved 140 basis points from 38.4% in the second quarter of 2006 to 39.8% in the same period of 2007, due to higher revenues.

Operating income reached Ps. 89 million, in the second quarter of 2007, a significant increase from a small base, as compared to the same period of the previous year, resulting in an operating margin increase of 280 basis points to 4.3%.
