Item 2.05 Costs Associated with Exit or Disposal Activities.

On September 19, 2006, management of Cabot Corporation ("Cabot" or the "Company") committed Cabot to a number of cost reduction initiatives that include the termination of employees under a plan of termination described in paragraph 8 of FASB Statement of Financial Accounting Standards No. 146 Accounting for Costs Associated with Exit or Disposal Activities, under which material charges will be incurred under generally accepted accounting principles applicable to Cabot. These initiatives, some of which are subject to certain local procedures, include streamlining the Company's sales, manufacturing, technical service and certain functional groups by eliminating approximately 130 positions. Subject to completion of the necessary local legal requirements, implementation will begin immediately and conclude during the course of fiscal year 2007. The Company is undertaking these initiatives principally to reduce the fundamental cost structure of the carbon black product lines and strengthen the Company's financial health in light of the continued volatility of feedstock and utility costs.

The Company expects these actions to result in a charge to earnings of approximately \$15 million pre-tax, approximately \$8 million of which is expected to be recorded in the fourth quarter of fiscal 2006 and the remainder in fiscal 2007. Most of the charge will be for one-time employment termination benefits. The Company estimates that it will incur a total cash outlay related to these initiatives of approximately \$15 million, with a cash payback period of roughly one and one half years.

A copy of the Company's press release announcing these cost reduction initiatives is attached hereto as Exhibit 99.1.
