Item 8.01 Other Events.

Cytokinetics, Incorporated (the "Company") issued a press release announcing positive results from an analysis of the first two patient cohorts of the Company's ongoing Phase IIa clinical trial evaluating CK-1827452, administered intravenously in patients with stable heart failure. This Phase IIa clinical trial is a multi-center, double-blind, randomized, placebo-controlled, dose-escalation, pharmacokinetic and pharmacodynamic trial of CK-1827452. The primary objective of this trial is to evaluate the safety and tolerability of CK-1827452 administered as an intravenous infusion to stable heart failure patients. The secondary objectives of this trial are to establish a relationship between the plasma concentration and pharmacodynamic effects of CK-1827452 and to determine the pharmacokinetics of CK-1827452 in stable heart failure patients.

Data from the first two cohorts of this ongoing Phase IIa clinical trial of CK-1827452 will be presented at the Heart Failure Congress, the annual meeting of the Heart Failure Association of the European Society of Cardiology to be held June 14-17, 2008 in Milan, Italy.

Cytokinetics will be hosting an Investor Breakfast entitled "Investigators' Perspectives on Measurements of Cardiac Performance" on Monday, March 31st from 7:00 a.m. – 8:00 a.m. Central Time in the Mayfair Room at the Westin Michigan Avenue Hotel in Chicago, Illinois. The presentation and accompanying slides will be simultaneously webcast and a live audio of the forum will also be available to investors, members of the news media and the general public. The press release contains information regarding the access to the webcast.

A copy of the press release is being filed as Exhibit 99.1 to this Current Report on Form 8-K, and is incorporated herein by reference.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits of this Current Report on Form 8-K:

Exhibit No. Description

99.1 Press release, dated March 24, 2008.
