Item 2.05 Costs Associated with Exit or Disposal Activities.

On May 10, 2010, Ferro Corporation (the "Company") issued a press release to announce restructuring initiatives associated with the Company's European manufacturing operations. The Company has completed consultation with the works council on the restructuring initiative and will now proceed with the restructuring.

As a result of this action, Ferro expects to discontinue manufacturing of dielectric products in Uden, the Netherlands. Products currently manufactured at the site will be transferred to other Company locations or discontinued and the manufacturing site will be closed. The consolidation will result in a staffing reduction of approximately 120 positions in manufacturing and supporting functions. Operations are expected to be concluded at the site by the end of 2010.

The Company expects to record charges of approximately \$13 million, related to the costs of the restructuring. The charges include approximately \$9 million in severance costs and approximately \$3 million in site clean-up and shutdown costs. Possible non-cash impairments of the property and equipment related to this restructuring action have not yet been determined. The initiatives are expected to generate pre-tax cost and expense savings of approximately \$6 million on an annual basis.

A copy of the press release announcing the actions is attached, hereto, as Exhibit 99.1.

Item 9.01 Financial Statements and Exhibits.

Exhibit 99.1: Press release
