**Item 4.02 Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.**

(a) On December 9, 2016, the Audit Committee (the "Committee") of the Board of Directors of Cytokinetics, Inc. (the "Company"), after discussion with management and its independent registered public accountants, determined that the Company's unaudited condensed consolidated financial statements for the three and nine months ended September 30, 2016, as reported in the Company's Quarterly Report on Form 10-Q filed on November 3, 2016 should no longer be relied upon due to an error identified therein, and that a restatement of these financial statements is required.

During the Company's financial close for October 31, 2016, the Company identified the following non-cash misstatements due to an error in the accounting for the recognition of clinical trial expenses. The Company currently estimates that, upon correction of the error the following adjustments to the financial statements will be made:

1 – Research and Development costs for the three and nine months ended September 30, 2016 were overstated by approximately \$1,475K due to the recognition of clinical trial expenses which were recorded in error. Upon correction, the net income for the three and nine months ended September 30, 2016 will be \$33,362K and \$9,296K, respectively.

2 – An accrued liability in the amount of \$1,475K should not have been reflected in total liabilities in the balance sheet as of September 30, 2016. Upon correction for this total liabilities will be \$16,308K, and including item 1 above, the total for Liabilities and Stockholders' Equity remains \$158,170K.

The Company expects to file an amended Quarterly Report on Form 10-Q for the quarter ended September 30, 2016 with respect to the restatement as soon as practicable.

**Controls and Procedures**

As a result of the errors discussed above and resulting restatement of previously issued financial statements, management has concluded that a material weakness existed in the Company's internal controls over financial reporting and that, as a result, internal controls over financial reporting and disclosure controls and procedures were not effective as of September 30, 2016, specifically as it relates to clinical trial expenses, including in part, because its internal controls failed to identify incorrect information received from a third party service provider.

Management is continuing to assess the Company's internal controls over its financial reporting and disclosure controls and procedures, including the periods affected. Since management has not completed its evaluation of the impact of the restatement on its internal control over financial reporting and disclosure controls and procedures, there can be no assurance that additional control deficiencies which represent material weaknesses will not be identified, or that other reporting periods will not be impacted.

**Discussion with Independent Registered Public Accountants**

The Committee has discussed the matters disclosed in this Current Report on Form 8-K with PricewaterhouseCoopers LLP, the Company's independent registered public accounting firm.

**Cautionary Note Regarding Forward-Looking Statements**

This Current Report on Form 8-K includes information that constitutes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements are based on the Company's current beliefs, assumptions and expectations regarding future events, which in turn are based on information currently available to the Company. Such forward-looking statements include statements regarding the nature of the corrected accounting methodology, the estimated impact of these corrections on both historical and future financial results, the timing of the amended quarterly report on Form 10-Q, and management's ongoing evaluation of the impact of the restatement on its internal control over financial reporting and disclosure controls and procedures. By their nature, forward-looking statements address matters that are subject to risks and uncertainties. A variety of factors could cause actual events and results, including the Company's expectations regarding materiality or significance, the restatement's quantitative effects, the effectiveness of the Company's disclosure controls and procedures and the effectiveness of the Company's internal control over financial reporting, to differ materially from those expressed in or contemplated by the forward-looking statements. These factors include, without limitation, the risk that additional information may become known prior to the expected filing with the U.S. Securities and Exchange Commission of the amended periodic report described herein or that other subsequent events may occur that would require the Company to make additional adjustments to its financial statements or delay the filing of the corrected or future periodic reports with the U.S. Securities and Exchange Commission. Other risk factors affecting the Company are discussed in detail in the Company's filings with the U.S. Securities and Exchange Commission. The Company undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise, except to the extent required by applicable securities laws.
