Oil and natural gas production in July

Rio de Janeiro, August 15, 2017 - Petróleo Brasileiro S.A. - Petrobras reports that its total oil and natural gas production in July was 2.74 million barrels of oil equivalent per day (boed), 2.63 million boed of which produced in Brazil and 114 thousand boed produced abroad.

The average oil production in the country was 2.12 million barrels per day (bpd), a volume 3.3% lower than in June. This result is due mainly to the scheduled stoppage of platform P-58, which operates in the Jubarte, Baleia Anã, Baleia Azul, and Baleia Franca fields, in the Campos Basin.

Meanwhile, natural gas production in Brazil, excluding the liquefied volume, was 80 million m³/d, 0.4% below the previous month.

Pre-salt production

In July, the oil and natural gas production operated by Petrobras (wholly-owned and partner shares) in the pre-salt layer was 1.61 million boed, a volume 4.3% lower than the previous month. This result is due mainly to the scheduled stoppage of P-58.

Oil and gas production abroad

Oil production in overseas fields was 65 thousand bpd in July, in line with the previous month.

Natural gas production was 8.4 million m³/d, 2.9% above the volume produced in June. This increase resulted mainly from higher demand for Bolivian gas.

FORWARD-LOOKING STATEMENTS

This release includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, that are subject to risks and uncertainties. The forward-looking statements, which address the Company's expected business and financial performance, among other matters, contain words such as "believe," "expect," "estimate," "anticipate," "optimistic," "intend," "plan," "aim," "will," "may," "should," "could," "would," "likely," and similar expressions. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date on which they are made. There is no assurance that the expected events, trends or results will actually occur. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.

The Company's actual results could differ materially from those expressed or forecast in any forward-looking statements as a result of a variety of assumptions and factors. These factors include, but are not limited to, the following: (i) failure to comply with laws or regulations, including fraudulent activity, corruption, and bribery; (ii) the outcome of ongoing corruption investigations and any new facts or information that may arise in relation to the "Lava Jato Operation"; (iii) the effectiveness of the Company's risk management policies and procedures, including operational risk; and (iv) litigation, such as class actions or proceedings brought by governmental and
