LETTER TO SHAREHOLDERS

DEAR SHAREHOLDERS,

We are very honored to be SMIC's newly appointed Chairman and Chief Executive Officer. One of our major priorities is to ensure that the board, management, and all employees are working together cohesively and effectively in best serving our valued customers and maximizing shareholder value. Our primary target remains unchanged, which is to achieve sustainable profitability while maintaining our momentum in technology development.

On behalf of the Board, we would like to express sorrow for the loss of our former Chairman Jiang Shang Zhou and sincere gratitude for his dedication to SMIC. We are also happy to welcome Professor Lawrence Juen-Yee Lau and Mr. Frank Meng to our Board.

During the first half of 2011, China Investment Corporation (or "CIC") invested \$250 million in SMIC, becoming our second largest shareholder. Following this announcement, Datang, our largest shareholder, also supported us by expressing their intention to exercise its pre-emptive right by investing additional \$58 million for convertible preferred shares and pre-emptive warrants. We welcome our new and existing shareholders and greatly appreciate their confidence in our future execution. These capital injections will further help SMIC to expand its technology roadmap and strengthen our foothold as one of the leading foundries globally.

We are aware that some investors may have experienced uncertainty or anxiety due to recent events, and we sincerely apologize on behalf of the Board, but we also want to reassure you that none of our operations were interrupted. In addition, the management has been working vigorously in collaborating and in communicating with our customers, suppliers, banks, and investors. We are working to rebuild shareholder value by focusing on our value-added strengths and opportunities.

Given its crucial role in China's semiconductor industry with its advanced node foundry capability, SMIC's position in China provides ample opportunities, meanwhile, it remains independent and international to capture market share globally, and to grow its value.

We recognize the recent macroeconomic turmoil and the need to be equipped for the worst, so we are preparing for a long industry downturn. We will work to implement cost reduction and speed up technology and new product development, and we will pay special attention to refining our mature processes and products. We are determined to achieve company-wide unity and to focus on growth and development; putting in full effort and solid performance to create concrete results, in order to quickly create a new phase of stability, harmony, and progress.

We appreciate your continued support and trust, as we continue to execute for shareholder value.

CAPITALIZED INTEREST

Interest cost incurred on funds used to construct plant and equipment during the active construction period is capitalized, net of government subsidies received. The interest capitalized is determined by applying the borrowing interest rate to the average amount of accumulated capital expenditures for the assets under construction during the period. Capitalized interest is added to the cost of the underlying assets and is amortized over the useful life of the assets. Capitalized interest of US\$8.7 million and US\$3.1 million have been added to the cost of the underlying assets during the six months ended June 30, 2011 and June 30, 2010, respectively, and is amortized over the respective useful life of the assets. COMMITMENTS

As of June 30, 2011, the Company had commitments of US\$83 million for facilities construction obligations in Beijing, Tianjin, Shanghai and Wuhan Living Quarter and US\$537 million to purchase machinery and equipment mainly for the Beijing, Tianjin and Shanghai fabs in the coming 18 months.

DEBT TO EQUITY RATIO

As of June 30, 2011, the Company's debt to equity ratio was 47.1% calculated by dividing the sum of the short-term borrowings, current portion of long-term debt, and long-term debt by total shareholders' equity.

CONTINGENT LIABILITIES

The Company recorded a contingent liability in relation to claims from an unrelated semiconductor manufacturer based on its best estimate of the probable amount of its liability as of December 31, 2010. For the six months ended June 30, 2011, the Company believes that the recorded amount still reflects its best estimate of the probable amount of the liability.

FOREIGN EXCHANGE RATE FLUCTUATION RISK

The Company's revenues, expenses, and capital expenditure are primarily transacted in United States Dollars. However, since the Company has operations consisting of manufacturing, sales activities and capital purchasing conducted in currencies other than U.S. dollar, the Company is primarily exposed to changes in exchange rates for the EURO, Japanese Yen, and Chinese Renminbi.

To minimize these risks, the Company purchases foreign-currency forward exchange contracts with contract terms normally lasting less than twelve months to protect against the adverse effect that exchange rate fluctuations may have on foreign currency denominated activities. These forward exchange contracts are principally denominated in Chinese Renminbi, Japanese Yen or EURO and do not qualify for hedge accounting in accordance with ASC 815. As of June 30, 2011, the Company had outstanding foreign currency forward exchange contracts with a notional amount of US\$274 million all of which matured before Jun 2012. Notional amounts are stated in U.S. dollar equivalent spot market exchange rates, as of the respective dates.

As of June 30, 2011, the fair value of foreign currency forward exchange contracts was a gain of approximately US\$0.23 million. The Company does not enter into foreign currency exchange contracts for speculative purposes.

CROSS CURRENCY SWAP FLUCTUATION RISK

At June 30, 2011, the Company had a long-term loan facility agreement outstanding in the aggregate principal amount of EUR5.7 million. The company is primarily exposed to changes in exchange rate for the EURO.

To minimize the risk, the company entered into a cross currency swap contract with contract terms fully matching the repayment schedule of the long-term loan to protect against the adverse effect of exchange rate fluctuations arising from the foreign-currency denominated loan. The cross currency swap contract does not qualify for hedge accounting in accordance with ASC 815.

As of June 30, 2011, the Company had outstanding cross currency swap contracts with a notional amount of US\$8.2 million all of which will mature before May 2012. Notional amounts are stated in U.S. dollar equivalent spot market exchange rates, as of the respective dates.

As of June 30, 2011, the fair value of foreign currency forward exchange contracts was a loss of approximately US\$0.12 million. The Company does not enter into foreign currency exchange contracts for speculative purposes.

INTEREST RATE RISK

The Company's exposure to interest rate risks relates primarily to the Company's long-term debt obligations, which the Company generally assumes to fund capital expenditures and working capital requirements. The Company's long-term debt obligations are all subject to variable interest rates. The interest rates on the Company's U.S. dollar-denominated loans are linked to the LIBOR. The interest on the Company's EURO denominated loans are linked to the EURIBOR. As a result, the interest on the Company's loans are subject to fluctuations in the underlying interest rates to which they are linked.

As of June 30, 2011, the Company had outstanding interest rate swap contracts with a notional amount of US\$72 million all of which will mature before December 2012.

EMPLOYEES EQUITY INCENTIVE PLAN

Pursuant to the shareholders' approval obtained at the annual general meeting held on June 3, 2010, the number of shares reserved for issuance under the 2004 Equity Incentive Plan was increased by an additional 560,522,395 (representing 2.5% of the issued share capital as at March 31, 2010) to a new limit of 1,015,931,725 ordinary shares of the Company.

Save as disclosed in this interim report, there is no material change to the information disclosed in the 2010 annual report of the Company in relation to the number and remuneration of employees, remuneration policies, bonus and share option schemes of employees.

PROSPECTS AND FUTURE PLANS

Looking into the second half of 2011, the Company remains cautious on the overall industry outlook and has revised down its full year capital expenditure for 2011 from the originally stated \$1 billion to \$800 million. We expect third quarter 2011 revenue to decline by -14% to -17% compared to second quarter of 2011. This decline was in part due to our customer transition to 65nm and 45nm, and largely due to unexpected changes in some of our customers' programs. The overall demand from both international and domestic customers is weaker than expected due to relatively soft end-market consumption and high inventory, in addition to sudden customer product changes. Despite these changes, we continue to have new tape outs for 65nm and customers committed to working with us on their 45/40nm products, which will likely contribute meaningful revenue next year.

CORPORATE GOVERNANCE REPORT

The Company is committed to remaining an exemplary corporate citizen and maintaining a high level of corporate governance in order to protect the interests of its shareholders.

CORPORATE GOVERNANCE PRACTICES

The HKSE's Code on Corporate Governance Practices (the "CG Code") as set out in Appendix 14 of the Listing Rules, which contains code provisions to which an issuer, such as the Company, is expected to comply or advise as to reasons for deviations (the "Code Provisions") and recommended best practices to which an issuer is encouraged to comply (the "Recommended Practices"). The Corporate Governance Policy of the Company came into effect on January 25, 2005 after approval by the Board (and was subsequently updated by the Board on July 26, 2005 and April 24, 2009, respectively) (the "CG Policy"). The CG Policy, a copy of which can be obtained on the Company's website at www.smics.com under "Investor Relations" > "Corporate Governance", incorporates all of the Code Provisions of the CG Code except for paragraph E.1.3 which relates to the notice period for general meetings of the Company, and many of the Recommended Practices.

In addition, the Company has adopted or put in place various policies, procedures, and practices in compliance with the provisions of the CG Policy.

Save as disclosed below, none of the Directors is aware of any information which would reasonably indicate that the Company is not, or was not, during the financial period from January 1, 2011 to June 30, 2011, in compliance with the CG Code.

(a) Code Provision A.2.1

Code Provision A.2.1 provides that "the roles of chairman and chief executive officer should be separate and should not be performed by the same individual". On July 13, 2011, Dr. David N.K. Wang resigned from his position as the Chief Executive Officer of the Company. Subsequently, Mr. Zhang Wenyi was appointed as the Chairman of the Board and the Acting Chief Executive Officer with effect from July 15, 2011. Mr. Zhang ceased to be the Acting Chief Executive Officer when Dr. Tzu-Yin Chiu was appointed as the Chief Executive Officer on August 5, 2011. As a result, the Company did not meet the requirement under Code Provision A.2.1 for the interim period from July 15, 2011 to August 4, 2011.

(b) Code Provision E.1.2

Code provision E.1.2 of the CG Code provides that "the chairman of the board should attend the annual general meeting". Following the passing away of Mr. Jiang Shang Zhou, former Chairman of the Board, on June 27, 2011, the chairman position was vacated until being filled by Mr. Zhang Wenyi on July 15, 2011. As a result, no chairman of the Board attended the 2011 AGM which was held on June 29, 2011.

MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS OF LISTED ISSUERS

The Company has adopted an Insider Trading Compliance Program (the "Insider Trading Policy") which encompasses the requirements of the Model Code as set out in Appendix 10 of the Listing Rules (the "Model Code"). The Company, having made specific enquiry of all Directors, confirms that all members of the Board have complied with the Insider Trading Policy and the Model Code throughout the six months ended June 30, 2011. The senior management of the Company as well as all officers, Directors, and employees of the Company and its subsidiaries are also required to comply with the provisions of the Insider Trading Policy.

THE BOARD

The Board has a duty to the Company's shareholders to direct and oversee the affairs of the Company in order to maximize shareholder value. The Board acting itself and through the various committees of the Board, actively participates in and is responsible for the determination of the overall strategy of the Company, the establishment and monitoring of the achievement of corporate goals and objectives, the oversight of the Company's financial performance and the preparation of the accounts, the establishment of corporate governance practices and policies, and the review of the Company's system of internal controls. The management of the Company is responsible for the implementation of the overall strategy of the Company and its daily operations and administration. The Board has access to the senior management of the Company to discuss enquiries on management information.

The Board consists of nine Directors as at the date of this interim report. Directors may be elected to hold office until the expiration of their respective terms upon a resolution passed at a duly convened shareholders' meeting by holders of a majority of the Company's issued shares being entitled to vote in person or by proxy at such meeting. The Board is divided into three classes with one class of directors eligible for re-election at each annual general meeting of shareholders.

Each class of Director will serve a term of three years. The Class I Directors were re-elected for a term of three years at the 2011 AGM (except Dr. David N.K. Wang who was not re-elected at that AGM, and Mr. Zhang Wenyi and Dr. Tzu-Yin Chiu whose appointment as Directors took effect on June 30, 2011 and August 5, 2011 respectively) to hold office until the 2014 annual general meeting of the Company. The Class II Directors were re-elected for a term of three years at the 2009 annual general meeting (except Dr. Chen Shanzhi who was elected at that annual general meeting, and Mr. Frank Meng whose appointment as Director took effect from August 23, 2011) to hold office until the 2012 annual general meeting of the Company. The Class III Directors were re-elected at the 2010 annual general meeting (except Professor Lawrence Juen-Yee Lau whose appointment as Director took effect from June 30, 2011) for a term of three years to hold office until the 2013 annual general meeting of the Company.

Following the passing away of Mr. Jiang Shang Zhou on June 27, 2011, the Company only had two independent non-executive directors ("INEDs"), namely, Mr. Tsuyoshi Kawanishi and Mr. Lip-Bu Tan, until the appointment of Mr. Zhang Wenyi as INED took effect on June 30, 2011. Subsequently on July 2, 2011, Mr. Zhang Wenyi was redesignated as executive director, following which the position of the third INED of the Company as required by Rule 3.10(1) of the Listing Rules was vacated. On August 23, 2011, Mr. Frank Meng was appointed as the third INED. Following the appointment of Mr. Meng, the Company complies with the minimum number requirement under Rule 3.10(1).

Save as disclosed above, for the six months ended June 30, 2011, the Board has complied with the minimum requirements of the Listing Rules relating to the appointment of at least three INEDs on the Board, and complied with the requirement that these should include one such director with appropriate professional qualifications or accounting or related financial management expertise.

As of the date of this interim report, the roles of the chairman and chief executive officer are segregated and such roles are exercised by Mr. Zhang Wenyi and Dr. Tzu-Yin Chiu respectively.

The following table sets forth the names, classes and categories of the directors as at the date of this report:

Name of Director	Category of Director	Class of Director
Zhang Wenyi	Chairman, Executive Director	Class I
Tzu-Yin Chiu	Chief Executive Officer, Executive Director	Class I
Gao Yonggang	Non-executive Director	Class I
Chen Shanzhi	Non-executive Director	Class II
Lip-Bu Tan	Independent Non-executive Director	Class II
Frank Meng	Independent Non-executive Director	Class II
Tsuyoshi Kawanishi	Independent Non-executive Director	Class III
Zhou Jie	Non-executive Director	Class III
Lawrence Juen-Yee Lau	Non-executive Director	Class III

On an annual basis, each independent non-executive director confirms his independence to the Company, and the Company considers these directors to be independent as such term is defined in the Listing Rules. There are no relationships among members of the Board, including between the Chairman of the Board and the Chief Executive Officer.

The Board meets in person at least on a quarterly basis and on such other occasions as may be required to discuss and vote upon significant issues affecting the Company. The Board meeting schedule for the year is planned in the preceding year. The Company Secretary (and on some occasions, the Chief Administrative officer assisted) assists the Chairman in preparing the agenda for meetings and the Board in complying with relevant rules and regulations. The relevant papers for the Board meetings were dispatched to Board members in accordance with the CG Code. Directors may include matters for discussion in the agenda if the need arises. Upon the conclusion of the Board meeting, minutes are circulated to all Directors for their comment and review prior to their approval of the minutes at the following or subsequent Board meeting. Transactions in which Directors are considered to have a conflict of interest or material interests are not passed by written resolutions and the interested Directors are not counted in the quorum and abstain from voting on the relevant matters.

All Directors have access to the Company Secretary who is responsible for assisting the Board in complying with applicable procedures regarding compliance matters. Every Board member is entitled to have access to documents provided at the Board meeting or filed into the Company's minute-book. Furthermore, the Board has established the procedures pursuant to which a Director, upon reasonable request, may seek independent professional advice at the Company's expense in order for such Director to exercise such Director's duties. The Company Secretary continuously updates all Directors on the latest development of the Listing Rules and other applicable regulatory requirements to assist the Company's compliance with and maintenance of good corporate governance practices. Each new Director is provided with training with respect to such Director's responsibilities under the Listing Rules and other regulatory requirements and the Company's corporate governance policies and practices.

Please refer to the section entitled "Changes in Directorate and Update of Directors' Information" below for further details on the changes in certain information relating to the Directors during the course of their respective terms of office.

BOARD COMMITTEE

The Board has established the following principal committees to assist it in exercising its obligations. These committees (except the Audit Committee) consist of a majority of Independent Non-executive Directors who have been invited to serve as members. The committees are governed by their respective charters setting out clear terms of reference.

Audit Committee

As of June 30, 2011, the Company's Audit Committee (the "Audit Committee") consisted of only two members, namely Mr. Lip-Bu Tan (chairman of Audit Committee) and Mr. Gao Yonggang. The position of the third member of the Audit Committee as required under rule 3.21 of the Listing Rules has been vacated following the passing away of former Independent Non-executive Director and Audit Committee member Mr. Jiang Shang Zhou on June 27, 2011. The Company is taking steps to arrange for the appointment of the third member of the Audit Committee as soon as practicable. None of the members of the Audit Committee has been an executive officer or employee of the Company or any of its subsidiaries. In addition to acting as Audit Committee member of the Company, Lip-Bu Tan, one of the members of the Audit Committee, currently also serves on the audit committee of another publicly traded company, SINA Corporation. In general and in accordance with section 303A.07(a) of the Listed Company Manual of the New York Stock Exchange, the Board considered and determined that such simultaneous service would not impair the ability of Mr. Tan to effectively serve on the Company's Audit Committee.

The responsibilities of the Audit Committee include, among other things:

- making recommendations to the Board concerning the appointment, reappointment, retention, evaluation, oversight and termination of compensating and overseeing the work of the Company's independent auditor, including reviewing the experience, qualifications and performance of the senior members of the independent auditor team and pre-approving all non-audit services to be provided by the Company's independent auditor;
- approving the remuneration and terms of engagement of the Company's independent auditor;
- reviewing reports from the Company's independent auditor regarding its internal quality-control procedures and any material issues raised in the most recent review or investigation of such procedures and regarding all relationships between the Company and the independent auditor;
- pre-approving the hiring of any employee or former employee of the Company's independent auditor who was a member of the audit team during the preceding two years;
- reviewing the Company's annual and interim financial statements, earnings releases, critical accounting policies and practices used to prepare financial statements, alternative treatments of financial information, the effectiveness of the Company's disclosure controls and procedures and important trends and developments in financial reporting practices and requirements;
- reviewing the planning and staffing of internal audits, the organization, responsibilities, plans, results, budget and staffing of the Company's Internal Audit Department (as defined and discussed below) and the quality and effectiveness of the Company's internal controls;
- reviewing the Company's risk assessment and management policies;

- reviewing any legal matters that may have a material impact and the adequacy and effectiveness of the Company's legal and regulatory compliance procedures;
- establishing procedures for the treatment of complaints received by the Company regarding accounting, internal accounting controls, auditing matters, potential violations of law and questionable accounting or auditing matters; and
- obtaining and reviewing reports from management, the Company's internal auditor and the Company's independent auditor regarding compliance with applicable legal and regulatory requirements.

The Audit Committee reports its work, findings and recommendations to the Board during each quarterly Board meeting.

The Audit Committee meets in person at least on a quarterly basis and on such other occasions as may be required to discuss and vote upon significant issues affecting the audit policy of the Company. The meeting schedule for the year is planned in the preceding year. The Company Secretary (and on some occasions, the Chief Administrative Officer assisted) assists the chairman of the Audit Committee in preparing the agenda for meetings and assists the Audit Committee in complying with the relevant rules and regulations. The relevant papers for the Audit Committee meetings were dispatched to the Audit Committee in accordance with the CG Code. Members of the Audit Committee may include matters for discussion in the agenda if the need arises. Upon the conclusion of the Audit Committee meeting, minutes are circulated to the members of the Audit Committee for their comment and review prior to their approval of the minutes at the following or a subsequent Audit Committee meeting.

At each quarterly Audit Committee meeting, the Audit Committee reviews with the Chief Financial Officer and the Company's outside auditors, the financial statements for the financial period and the financial and accounting principles, policies and controls of the Company and its subsidiaries. In particular, the Committee discusses (i) the changes in accounting policies and practices, if any; (ii) the going concern assumptions, (iii) compliance with accounting standards and applicable rules and other legal requirements in relation to financial reporting and (iv) the internal controls of the Company and the accounting and financial reporting systems. Upon the recommendation of the Audit Committee, the Board approves the financial statements.

Compensation Committee

As of June 30, 2011, the members of the Company's Compensation Committee (the "Compensation Committee") were Mr. Lip-Bu Tan (chairman of Compensation Committee), Mr. Tsuyoshi Kawanishi and Mr. Zhou Jie. None of these members of the Compensation Committee has been an executive officer or employee of the Company or any of its subsidiaries.

The responsibilities of the Compensation Committee include, among other things:

- approving and overseeing the total compensation package for the Company's executive officers and any other officer, evaluating the performance of and determining and approving the compensation to be paid to the Company's Chief Executive Officer and reviewing the results of the Chief Executive Officer's evaluation of the performance of the Company's other executive officers;
- reviewing and making recommendations to the Board with respect to Director compensation, including equity-based compensation;

- administering and periodically reviewing and making recommendations to the Board regarding the long-term incentive compensation or equity plans made available to the Directors, employees and consultants;
- reviewing and making recommendations to the Board regarding executive compensation philosophy, strategy and principles and reviewing new and existing employment, consulting, retirement and severance agreements proposed for the Company's executive officers; and
- ensuring appropriate oversight of the Company's human resources policies and reviewing strategies established to fulfill the Company's ethical, legal, and human resources responsibilities.

The Compensation Committee reports its work, findings and recommendations to the Board during each quarterly Board meeting.

The Compensation Committee meets in person at least on a quarterly basis and on such other occasions as may be required to discuss and vote upon significant issues affecting the compensation policy of the Company. The meeting schedule for the year is planned in the preceding year. The Company Secretary (and on some occasions, the Chief Administrative Officer assisted) assists the chairman of the Compensation Committee in preparing the agenda for meetings and assists the Compensation Committee in complying with the relevant rules and regulations. The relevant papers for the Compensation Committee meeting were dispatched to Compensation Committee members in accordance with the CG Code. Members of the Compensation Committee may include matters for discussion in the agenda if the need arises. Upon the conclusion of the Compensation Committee meeting, minutes are circulated to the members of the Compensation Committee for their comment and review prior to their approval of the minutes at the following or a subsequent Compensation Committee meeting.

Internal Audit Department

The Internal Audit Department works with and supports the Company's management team and the Audit Committee in monitoring the Company's compliance with its internal governance policies. On a regular basis, the internal audit department audits the practices, procedures, expenditure and internal controls of the various departments in the Company. After completing an audit, the internal audit department furnishes the Company's management team and the Audit Committee with analyses, appraisals, recommendations, counsel, and information concerning the activities reviewed. The internal audit department can also conduct reviews and investigations on an ad hoc basis.

CODE OF BUSINESS CONDUCT AND ETHICS

The Board has adopted a code of business conduct and ethics (the "Code of Conduct") which provides guidance about doing business with integrity and professionalism. The Code of Conduct addresses issues including among others, fraud, conflicts of interest, corporate opportunities, protection of intellectual property, transactions in the Company's securities, use of the Company's assets, and relationships with customers and third parties. Any violation of the Code of Conduct is reported to the Compliance Office, which will subsequently report such violation to the Audit Committee.

U.S. Corporate Governance Practices

Companies listed on the New York Stock Exchange must comply with certain corporate governance standards under Section 303A of the New York Stock Exchange Listed Company Manual. Because the Company's American Depositary Shares are registered with the United States Securities and Exchange Commission and are listed on the New York Stock Exchange, or the NYSE, the Company is also subject to certain U.S. corporate

governance requirements, including many of the provisions of the Sarbanes-Oxley Act of 2002. However, because the Company is a “foreign private issuer”, many of the corporate governance rules in the NYSE Listed Company Manual, or the NYSE Standards, do not apply to the Company. The Company is permitted to follow corporate governance practices in accordance with Cayman Islands law and the Hong Kong Stock Exchange Listing Rules in lieu of most of the corporate governance standards contained in the NYSE Standards.

Set forth below is a brief summary of the significant differences between the Company’s corporate governance practices and the corporate governance standards applicable to U.S. domestic companies listed on the NYSE, or U.S. domestic issuers:

- The NYSE Standards require U.S. domestic issuers to have a nominating/corporate governance committee composed entirely of independent directors. The Company is not subject to this requirement, and the Company has not established a nominating/corporate governance committee.
- The NYSE Standards provide detailed tests that U.S. domestic issuers must use for determining independence of directors. While we may not specifically apply the NYSE tests, our board assesses independence in accordance with Hong Kong Stock Exchange Listing Rules, and in the case of audit committee members in accordance with Rule 10A-3 under the U.S. Securities and Exchange Act of 1934, as amended, and considers whether there are any relationships or circumstances which are likely to affect such director’s independence from management.
- The Company believes that the composition of the Board and its committees and their respective duties and responsibilities are otherwise generally responsive to the relevant NYSE Standards applicable to U.S. domestic issuers. However, the charters for our audit and compensation committees may not address all aspects of the NYSE Standards. For example, NYSE Standards require compensation committees of U.S. domestic issuers to produce a compensation committee report annually and include such report in their annual proxy statements or annual reports on Form 10-K. The Company is not subject to this requirement, and we have not addressed this in our compensation committee charter. We disclose the amounts of compensation of our directors on a named basis and the five highest individuals on an aggregate basis in our annual report in accordance with the requirements of the Hong Kong Stock Exchange Listing Rules.
- The NYSE Standards require that shareholders must be given the opportunity to vote on all equity compensation plans and material revisions to those plans. The Company complies with the requirements of Cayman Islands law and the Hong Kong Stock Exchange Listing Rules in determining whether shareholder approval is required, and we do not take into consideration the NYSE’s detailed definition of what are considered “material revisions”.

(1) As of June 30, 2011, the total number of convertible preferred shares of the Company in issue was 360,589,053. The terms of the convertible preferred shares are set out in Appendix III to the shareholders’ circular of the Company dated May 11, 2011.

(2) On April 18, 2011, the Company entered into a subscription agreement with Country Hill Limited, a wholly-owned subsidiary of China Investment Corporation, or CIC, whereby (i) the Company conditionally agreed to allot and issue to CIC, and CIC conditionally agreed to subscribe through Country Hill Limited for 360,589,053 convertible preferred shares at a

subscription price of HK\$5.39 per convertible preferred share and (ii) the Company will issue a warrant to CIC to subscribe, in aggregate, up to 72,117,810 convertible preferred shares (subject to adjustment) at an exercise price of HK\$5.39 per preferred share (the "CIC Warrant"). The 360,589,053 convertible preferred shares and the CIC Warrant were issued to CIC on June 3, 2011. As of the date of this interim report, CIC has not exercised any part of the CIC Warrant.

The terms related to the conversion of the convertible preferred shares are set out below:

The holders of the convertible preferred shares will have the right at any time to convert (in whole or in part) their convertible preferred shares into fully paid ordinary shares at the conversion rate of ten ordinary shares per convertible preferred share (which shall be for a minimum amount of 70,000,000 convertible preferred shares or, if less than 70,000,000 convertible preferred shares are then held by CIC, all of such convertible preferred shares). The holders of the convertible preferred shares are not required to pay any amount for conversion of their convertible preferred shares into ordinary shares. The ordinary shares issued upon conversion will be credited as fully paid, and will rank pari passu in all respects with the other ordinary shares in issue as at the date of the conversion, and will be allotted and issued free from all liens, charges and encumbrances and together with all rights attaching thereto upon allotment and issue and at any time thereafter, including all rights to any dividend or other distribution declared, made or payable by reference to a record date falling on or after the date of the conversion notice.

The convertible preferred shares will be mandatorily converted into ordinary shares at the then applicable conversion rate on the day immediately following the expiry of twelve months commencing from the closing date as if the holder of the convertible preferred shares has elected to convert its convertible preferred shares into ordinary shares on the mandatory conversion date.

The initial conversion rate of ten ordinary shares per convertible preferred share is subject to adjustment upon the occurrence of certain prescribed events, among other things, capitalisation of profits or reserves, consolidations, sub-divisions and re-classifications of shares, capital distributions, issue of shares or other securities, and the issue of a new class of shares carrying voting rights.

In the event of any issue of any ordinary share or any securities which by their terms are convertible into or exchangeable for, or carry right(s) of subscription for, any ordinary share, the conversion rate in force immediately before such issue will be adjusted to compensate the holders of convertible preferred shares by reference to the lowest of:

- (i) the reference price per ordinary share which initially is HK\$0.5390 (subject to adjustment as described in this section);
- (ii) the amount which represents:
 - a. in respect of any rights issue of ordinary shares by the Company, 90% of the relevant theoretical ex-rights price for an ordinary share under that rights issue;
 - b. in respect of any issue of securities which by their terms are convertible into or exchangeable for, or carry right(s) of subscription for, ordinary share(s):
 - (1) in the case of options, warrants or similar instruments, the aggregate of the subscription price or premium for such instrument and the initial exercise price at which the holder of such instrument may subscribe for ordinary shares;
 - (2) in the case of convertible bonds or convertible shares or similar instruments, the initial conversion price at which such instrument may be converted into ordinary shares; or
 - (3) in any other case, the aggregate price paid and initially payable by the subscriber of such securities in order to receive ordinary shares; and
 - c. in respect of any other issue of ordinary shares by the Company, the relevant issue price for an ordinary share under that issue;
- (iii) the amount which represents a discount of 10% to the arithmetic average of the daily volume weighted average price for an ordinary share as shown on the VAP page of Bloomberg for the:
 - a. ten consecutive trading days immediately after the date on which the relevant issue is announced;
 - b. in the case of a rights issue, ten consecutive trading days immediately after the ex-rights date; or
 - c. if the reference price to determine the issue price is based on share prices for a period after the relevant issue is announced, all the trading days during that period.

The adjustment will become effective immediately following the date of the issuance of the new securities.

No adjustment to the conversion rate will be made which has the effect or result of: (i) reducing the initial conversion rate upon the issue of the convertible preferred shares, except upon any consolidation of ordinary shares or any corporate exercise with the effect of increasing the nominal value of the ordinary shares; or (ii) any ordinary share, upon conversion, falling to be issued at a price below the nominal value of the ordinary share.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the six months ended June 30, 2011 and 2010

(unaudited, in US\$ thousands, except share data and those specified)

1. BASIS OF PRESENTATION

The accompanying condensed consolidated financial statements include the results of Semiconductor Manufacturing International Corporation and subsidiaries (the "Company"). All inter-company accounts and transactions have been eliminated in consolidation. The interim condensed consolidated financial statements have been prepared using the same accounting policies as those used in the preparation of the annual consolidated financial statements. The interim condensed consolidated financial statements included herein are unaudited and have been prepared in accordance with accounting principles generally accepted in the United States of America, or GAAP and applicable rules and regulations of the Securities and Exchange Commission, regarding interim financial reporting and Appendix 16, "Disclosure of financial information," of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited. They do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. Accordingly, these interim condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and accompanying notes thereto contained in the Company's Annual Report for the year ended December 31, 2010 dated on March 30, 2011. The December 31, 2010 condensed consolidated balance sheet included herein was derived from the audited financial statements as of that date, but does not include all other statements and disclosures required by GAAP. In the opinion of management, these interim condensed consolidated financial statements reflect all adjustments of a normal recurring nature necessary to present fairly the Company's results for the interim periods. The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities as of the date of the financial statements, as well as the reported amount of revenue and expenses during the reporting periods. Actual results could differ from those estimates. In addition, the Company's operating results for the six months ended June 30, 2011 may not be indicative of the operating results for the full fiscal year or any other future period.

Certain items from prior period have been reclassified to conform to current year presentation.

2. FAIR VALUE

The Company defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required or permitted to be recorded at fair value, we consider the principal or most advantageous market in which we would transact and we consider assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of non-performance.

2. FAIR VALUE (CONTINUED)

The Company utilizes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs are obtained from independent sources and can be validated by a third party, whereas unobservable inputs reflect assumptions regarding what a third party would use in pricing an asset or liability. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The Company establishes three levels of inputs that may be used to measure fair value that gives the highest priority to observable inputs and the lowest priority to unobservable inputs as follows:

Level 1	—	Quoted prices in active markets for identical assets or liabilities.
Level 2	—	Inputs other than quoted market prices in active markets that are observable, either directly or indirectly.
Level 3	—	Unobservable inputs to the valuation methodology that are significant to the measurement of fair value of assets or liabilities.

The Company uses valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. The Company performs a thorough analysis of its assets and liabilities that are subject to fair value measurements and disclosures to determine the appropriate level based on the observability of the inputs used in the valuation techniques. Assets and liabilities carried at fair value are classified in the categories described above based on the lowest level input that is significant to the fair value measurement in its entirety.

Assets/Liabilities measured at fair value on a recurring basis

Assets and liabilities measured on the Company's balance sheet at fair value on a recurring basis subsequent to initial recognition consisted of the following:

3. DISCONTINUED OPERATIONS

On March 1, 2011, the Company sold its majority ownership interest in Semiconductor Manufacturing International (AT) Corporation (“AT”) and deconsolidated the entity. As a result, all previously issued preferred securities by AT were cancelled. The Company retained a 10% interest in AT and will account for such investment under the cost method in future periods as it no longer has a controlling financial interest nor significant influence over AT. The Company reported the results of the AT as a discontinued operation in the condensed consolidated statement of operations. No cash or other consideration was received by the Company in conjunction with the disposition.

The Company recorded a gain of \$17,103 on the deconsolidation of AT equal to the difference between (i) the sum of (a) the fair value of the retained noncontrolling investments in AT, and (b) the carrying amount of the aforementioned noncontrolling interest in AT, and (ii) the carrying amount of AT’s assets and liabilities. Income from discontinued operations of \$14,741 represents both the results of operations of AT for the period from January 1, 2011 to the date it was deconsolidated and the gain on deconsolidation of AT.

4. REVENUE RECOGNITION

The Company manufactures semiconductor wafers for its customers based on the customers’ designs and specifications pursuant to manufacturing agreements and/or purchase orders. The Company also sells certain semiconductor standard products to customers. Revenue is recognized when persuasive evidence of an arrangement exists, service has been performed, the fee is fixed or determinable and collectability is reasonably assured. Sales to customers are recognized upon shipment and title transfer, if all other criteria have been met. The Company also provides certain services, such as mask making, testing and probing. Revenue is recognized when the services are completed or upon shipment of semiconductor products, if all other criteria have been met.

Customers have the right of return within one year pursuant to warranty and sales return provisions. The Company typically performs tests of its products prior to shipment to identify yield rate per wafer. Occasionally, product tests performed after shipment identify yields below the level agreed with the customer. In those circumstances, the customer arrangement may provide for a reduction to the price paid by the customer or for the costs to return products and to ship replacement products to the customer. The Company estimates the amount of sales returns and the cost of replacement products based on the historical trend of returns and warranty replacements relative to sales as well as a consideration of any current information regarding specific known product defects that may exceed historical trends.

The Company provides management services to certain government-owned foundries. Service revenue is recognized when persuasive evidence of an arrangement exists, service has been performed, the fee is fixed or determinable, and collectability is reasonably assured.
