OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE
ACT OF 1934

For the transition period from _____ to _____

Commission File Number 001-33166

Allegiant Travel Company
(Exact Name of Registrant as Specified in Its Charter)

Nevada 20-4745737
(State or Other Jurisdiction of Incorporation or (I.R.S. Employer Identification No.)
Organization)

8360 S. Durango Drive,
Las Vegas, Nevada 89113
(Address of Principal Executive Offices) (Zip Code)

Registrant's Telephone Number, Including Area Code: (702) 851-7300

(Former name, former address and former fiscal year if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Edgar Filing: Allegiant Travel CO - Form 10-Q

Non-accelerated filer
(Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares of the registrant's common stock outstanding as of the close of business on May 1, 2014 was 17,907,363.

ALLEGIANT TRAVEL COMPANY
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 (unaudited, in thousands, except share and per share amounts)

Note 1 — Summary of Significant Accounting Policies

Basis of Presentation: The accompanying unaudited consolidated financial statements include the accounts of Allegiant Travel Company (the "Company") and its majority-owned operating subsidiaries. Investments in affiliates in which the Company's ownership interest ranges from 20 to 50 percent and in which the Company has the ability to exercise significant influence over operating and financial policies are accounted for under the equity method. All intercompany balances and transactions have been eliminated.

These unaudited consolidated financial statements reflect all normal recurring adjustments, which management believes are necessary to present fairly the financial position, results of operations, and cash flows of the Company for the respective periods presented. Certain information and footnote disclosures normally included in the annual consolidated financial statements prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP") have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission for Form 10-Q. These unaudited interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements of the Company and notes thereto included in the annual report of the Company on Form 10-K for the year ended December 31, 2013, filed with the Securities and Exchange Commission.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

The interim results reflected in the unaudited consolidated financial statements are not necessarily indicative of the results that may be expected for other interim periods or for the full year.

Note 2 — Investment Securities

The Company's investments in marketable securities are classified as available-for-sale and are reported at fair market value with the net unrealized gain or (loss) reported as a component of accumulated other comprehensive income in stockholders' equity. Investment securities are classified as cash equivalents, short-term investments and long-term investments based on maturity date. Cash equivalents have maturities of three months or less, short-term investments have maturities of greater than three months but equal to or less than one year and long-term investments are those with a maturity date greater than one year. As of March 31, 2014, all of the Company's long-term investments consisted of government debt securities and municipal debt securities with contractual maturities of less than 18 months. Investment securities consisted of the following:

	As of March 31, 2014				As of December 31, 2013			
	Cost	Gains	(Losses)	Market Value	Cost	Gains	(Losses)	Market Value
Money market funds	\$239	\$—	\$—	\$239	\$20,172	\$—	\$—	\$20,172
Certificates of deposit	10,014	—	(4)	10,010	—	—	—	—
Commercial paper	77,790	8	(2)	77,796	75,905	8	(2)	75,911
Municipal debt securities	139,159	23	(1)	139,181	181,870	17	(19)	181,868

Edgar Filing: Allegiant Travel CO - Form 10-Q

Government debt securities	10,003	—	—	10,003	10,008	—	—	10,008
Corporate debt securities	39,073	—	(28)	39,045	45,150	—	(16)	45,134
Total	\$276,278	\$31	\$(35)	\$276,274	\$333,105	\$25	\$(37)	\$333,093

The amortized cost of investment securities sold is determined by the specific identification method with any realized gains or losses reflected in other (income) expense. The Company had minimal realized losses for the three-months ended March 31, 2014 and 2013.

Note 3 — Long-Term Debt

Long-term debt consisted of the following:

	As of March 31, 2014	As of December 31, 2013
Senior secured term loan facility, interest at LIBOR plus 4.25% with LIBOR floor of 1.5%, due March 2017	\$ 120,944	\$ 121,230
Notes payable, secured by aircraft, interest at LIBOR plus 2.46%, due November 2019	46,450	48,000
Note payable, secured by real estate, interest at 2.86%, due October 2018	9,884	9,953
Notes payable, secured by aircraft, interest at 3.99%, due October 2018	43,575	45,775
Note payable, secured by aircraft, interest at 4.65%, due July 2016	8,486	9,342
Total long-term debt	229,339	234,300
Less current maturities	20,434	20,237
Long-term debt, net of current maturities	\$ 208,905	\$ 214,063

Senior Secured Term Loan Facility

In March 2011, the Company borrowed \$125,000 under a senior secured term loan facility (the “Term Loan”). The Term Loan matures in March 2017, bears interest based on the London Interbank Offered Rate (“LIBOR”) or prime rate with interest payable quarterly or more frequently until maturity and includes a LIBOR floor of 1.5 percent. The Term Loan contains restrictions on future borrowing, provides for maximum annual capital expenditures and contains other affirmative and negative covenants. In addition to quarterly principal payments equal to 0.25 percent of the initial loan, the Term Loan also provides for mandatory and optional prepayment provisions.

The mandatory prepayment provisions are associated with cash proceeds from the sale of certain assets (which are not reinvested), cash proceeds from the issuance or incurrence of indebtedness for money borrowed in violation of the covenants in the Term Loan, cash proceeds from insurance or condemnation awards (which are not reinvested) and for 25 percent of the Company’s excess cash flow (as defined in the Term Loan) if the Company’s leverage ratio exceeds 1.5:1 as of the end of any year. In the event the Company does not reinvest the cash proceeds from the sale of certain assets or from insurance or condemnation awards or if the Company incurs indebtedness in violation of the covenants in the Term Loan, the prepayment will be due within three business days following the date of the event requiring the prepayment. The prepayment associated with a failure to meet the leverage ratio test would be payable within a specified number of days after the end of the year for the covenant calculation.

As of March 31, 2014, the Company is in compliance with all covenants under the Term Loan and no events occurred which would have required any prepayment of the debt.

In April 2014, the Company prepaid in full the \$120.9 million balance and accrued interest of \$0.2 million of the Company's Term Loan. See Note 9 — Subsequent Events for additional information related to the Term Loan repayment.

Other

In April 2014, the Company borrowed \$45.3 million under a loan agreement secured by 53 MD-80 aircraft. The note payable issued under the loan agreement bears interest at LIBOR plus 2.95 percent and is payable in monthly installments through April 2018.

In September 2013, the Company borrowed \$48,000 under a modified loan agreement secured by four Airbus A320 series aircraft. The notes payable issued under the modified loan agreement bear interest at 3.99 percent per annum and are payable in monthly installments through October 2018.

In October 2013, the Company borrowed \$10,000 under a loan agreement secured by real estate purchased for the Company's headquarter offices in the second quarter of 2013. The note payable issued under the loan agreement bears interest at 2.86 percent per annum and is payable in monthly installments through October 2018 when a balloon payment is due.

In November 2013, the Company borrowed \$48,000 under a loan agreement secured by four Airbus A320 series aircraft. The notes payable issued under the loan agreement bear interest at LIBOR plus 2.46 percent per annum and are payable in monthly installments through November 2019.

In June 2012, the Company borrowed \$14,000 under loan agreements secured by two Boeing 757-200 aircraft purchased in the first half of 2012. The note payable issued under the loan agreements bears interest at 4.65 percent per annum and is payable in monthly installments through July 2016. In April 2014, the Company prepaid the portion of the note relating to one Boeing 757-200 aircraft in the amount of \$4.1 million. Currently, only one Boeing 757-200 remains encumbered under this loan agreement. See Note 9 — Subsequent Events.

Note 4 — Stockholders' Equity

The Company is authorized by the Board of Directors to acquire the Company's stock through open market purchases under its share repurchase program. During the three months ended March 31, 2014, the Company repurchased 730,162 shares through open market purchases at an average price of \$98.82 per share for a total expenditure of \$72,157. During the three months ended March 31, 2013, the Company repurchased 284,283 shares through open market purchases at an average price of \$78.15 per share for a total expenditure of \$22,218. After an increase in repurchase authority approved in February 2014, the Company had \$67,657 in unused stock repurchase authority remaining as of March 31, 2014.

On November 14, 2013, the Company's Board of Directors declared a special cash dividend of \$2.25 per share on its outstanding common stock payable to stockholders of record on December 13, 2013. On January 3, 2014, the Company paid cash dividends of \$41,787 to these stockholders.

Note 5 — Fair Value Measurements

The Company measures certain financial assets and liabilities at fair value on a recurring basis. Fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. Accounting standards pertaining to fair value measurements establish a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

Level 1 - Defined as observable inputs such as quoted prices in active markets for identical assets or liabilities

Level 2 - Defined as inputs other than Level 1 inputs that are either directly or indirectly observable

Level 3 - Defined as unobservable inputs for which little or no market data exists, therefore requiring an entity to develop its own assumptions

The Company uses the market approach valuation technique to determine fair value for investment securities. The assets classified as Level 1 consist of money market funds for which original cost approximates fair value. The assets classified as Level 2 consist of certificates of deposit, commercial paper, municipal debt securities, government debt securities, and corporate debt securities, which are valued using quoted market prices or alternative pricing sources including transactions involving identical or comparable assets and models utilizing market observable inputs.

For those assets classified as Level 2 that are not in active markets, the Company obtained fair value from pricing sources using quoted market prices for identical or comparable instruments and based on pricing models which include all significant observable inputs, including maturity dates, issue dates, settlement date, benchmark yields, reported trades, broker-dealer quotes, issue spreads, benchmark securities, bids, offers and other market related data. These inputs are observable or can be derived from or corroborated by observable market data for substantially the full

term of the asset.

Edgar Filing: Allegiant Travel CO - Form 10-Q

Assets measured at fair value on a recurring basis at March 31, 2014 and December 31, 2013 were as follows:

Description	March 31, 2014	Fair Value Measurements at Reporting Date Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Total long-term investments	36,037	—	36,037	—
Total investment securities	\$333,093	\$20,172	\$312,921	\$—

There were no significant transfers between Level 1 and Level 2 assets for the three months ended March 31, 2014 or during the year ended December 31, 2013.

The Company has determined the estimated fair value of its debt to be Level 3 as certain inputs used are unobservable. The fair value of the Company's debt was estimated using either indicative pricing from market information or the discounted amount of future cash flows. The discounted cash flows use the current rates available to the Company for debt of the same remaining maturities and consideration of default and credit risk. As of March 31, 2014, the estimated fair value and the carrying value of its debt, including current maturities were \$218,542 and \$229,339, respectively. As of December 31, 2013, the estimated fair value and the carrying value of its debt, including current maturities were \$224,850 and \$234,300, respectively.

Note 6 — Income Taxes

For the three months ended March 31, 2014, the Company did not have any material unrecognized tax benefits. The Company's policy is to recognize interest and penalties accrued on any unrecognized tax benefits as a component of income tax expense. There was no accrued interest or penalties at March 31, 2014.

Note 7 — Earnings per Share

Basic and diluted earnings per share are computed pursuant to the two-class method. Under this method, the Company attributes net income to two classes, common stock and unvested restricted stock awards. Unvested restricted stock awards granted to employees under the Company's Long-Term Incentive Plan are considered participating securities as they receive non-forfeitable rights to cash dividends at the same rate as common stock.

Diluted net income per share is calculated using the more dilutive of two methods. Under both methods, the exercise of employee stock options and stock-settled stock appreciation rights are assumed using the treasury stock method. The assumption of vesting of restricted stock, however, differs:

1. Assume vesting of restricted stock using the treasury stock method.
2. Assume unvested restricted stock awards are not vested, and allocate earnings to common shares and unvested restricted stock awards using the two-class method.

For the three months ended March 31, 2014 and March 31, 2013, the second method which assumes unvested awards are not vested, was used in the computation because it was more dilutive than the first method. The following table sets forth the computation of net income per share, on a basic and diluted basis for the periods indicated (shares in table below are in thousands):

	Three Months Ended March 31,	
	2014	2013
Basic:		
Net income attributable to Allegiant Travel Company	\$34,222	\$31,932
Less: Net income allocated to participating securities	(254) (216
Net income attributable to common stock	\$33,968	\$31,716
Net income per share, basic	\$1.87	\$1.66
Weighted-average shares outstanding	18,166	19,081
Diluted:		
Net income attributable to Allegiant Travel Company	\$34,222	\$31,932
Less: Net income allocated to participating securities	(253) (214
Net income attributable to common stock	\$33,969	\$31,718
Net income per share, diluted	\$1.86	\$1.65
Weighted-average shares outstanding	18,166	19,081
Dilutive effect of stock options, restricted stock and stock-settled stock appreciation rights	121	172
Adjusted weighted-average shares outstanding under treasury stock method	18,287	19,253

Edgar Filing: Allegiant Travel CO - Form 10-Q

Participating securities excluded under two-class method	(39) (46)
Adjusted weighted-average shares outstanding under two-class method	18,248	19,207	

Note 8 — Commitments and Contingencies

The Company is subject to certain legal and administrative actions it considers routine to its business activities. The Company believes the ultimate outcome of any pending legal or administrative matters will not have a material adverse impact on its financial position, liquidity or results of operations.

In August 2013, the Company entered into purchase agreements for two Airbus A320 series aircraft. As of March 31, 2014, the contractual obligations for these two aircraft were \$23.4 million to be paid in 2014 upon taking ownership of the aircraft.

In August 2012, the Company entered into lease agreements for nine used Airbus A319 aircraft with expected deliveries through the third quarter of 2015. As of March 31, 2014, two of these leased Airbus A319 aircraft were inducted into revenue service. The Company expects to take possession of the remaining aircraft under these lease agreements in 2014 and 2015.

Note 9 — Subsequent Events

In April 2014, the Company borrowed \$45.3 million under a loan agreement secured by 53 MD-80 aircraft. The note payable issued under the loan agreement bears interest at a floating rate based on LIBOR and is payable in monthly installments through April 2018. The proceeds along with internally generated funds were used to prepay in full the \$120.9 million balance and accrued interest of \$0.2 million of the Company's Term Loan originally due March 2017. Additionally, in April 2014, the Company prepaid the portion of the note payable related to one Boeing 757-200 aircraft in the amount of \$4.1 million originally due July 2016. Currently, only one Boeing 757-200 remains encumbered under this loan agreement.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis presents factors that had a material effect on our results of operations during the three months ended March 31, 2014 and 2013. Also discussed is our financial position as of March 31, 2014 and December 31, 2013. You should read this discussion in conjunction with our unaudited consolidated financial statements, including the notes thereto, appearing elsewhere in this Form 10-Q and our consolidated financial statements appearing in our annual report on Form 10-K for the year ended December 31, 2013. This discussion and analysis contains forward-looking statements. Please refer to the section below entitled "Special Note About Forward-Looking Statements" for a discussion of the uncertainties, risks and assumptions associated with these statements.

First quarter 2014 results

In April 2014, we prepaid in full the \$120.9 million balance and accrued interest of \$0.2 million of our Term Loan originally due March 2017. At the same time, we borrowed \$45.3 million under a loan agreement secured by 53 MD-80 aircraft. The note payable issued under the loan agreement bears interest at LIBOR plus 2.95 percent and is payable in monthly installments through April 2018. As of May 1, 2014 our unrestricted cash balances and investment securities (short-term and long-term) are \$285.4 million and our total debt, including current maturities, is \$148.5 million.

During the first quarter of 2014, we achieved an 18.9 percent operating margin resulting in net income of \$34.2 million on operating revenues of \$302.5 million. Diluted earnings per share were \$1.86 or 12.7 percent higher compared to diluted earnings per share of \$1.65 for the same period in the prior year. Results for the first quarter of 2014 were driven by a 1.6 percent increase in scheduled passenger revenue available seat mile ("PRASM") on a 10.9 percent increase in scheduled passengers. These positive revenue trends were complimented by relatively flat fuel expense year-over-year despite a 5.7 percent increase in gallons consumed. Our fuel efficiency metrics continue to

improve as we operated 10 Airbus A320 series aircraft and a full contingent of 53 166 seat MD-80 aircraft during the quarter.

Our total operating revenues in the first quarter of 2014 increased \$29.6 million or 10.8 percent compared to the same period in the prior year. The first quarter of 2014 was our 16th consecutive quarter of year-over-year increases in total average fare, which increased 1.0 percent to \$146.51 for the three months ended March 31, 2014.

Our operating expense per ASM ("CASM") increased 1.0 percent from 10.20¢ for the three months ended March 31, 2013 to 10.30¢ for the same period of 2014. Fuel expense per ASM continued to decline into the first quarter with an 8.8 percent decrease year-over-year. Fuel efficiency, as defined as ASMs per gallon, increased 4.0 percent to 70.0 ASMs per gallon

for the three months ended March 31, 2014 compared to the same period in 2013. These results were driven by operating 10 Airbus A320 series aircraft during the quarter, which are approximately 25 percent more fuel efficient on a per block hour basis than the MD-80 aircraft. CASM, excluding fuel, increased 10.4 percent due to \$12 million in nonrecurring expenses resulting from delays in training and crew availability, which impacted our ability to fly our published schedule. The additional costs we incurred were related to aircraft sub service, labor inefficiencies, crew training, and displacement costs.

As of March 31, 2014, we had \$365.8 million in unrestricted cash and investment securities. Our liquidity position continues to provide us with opportunities to return excess capital to shareholders and invest in strategic corporate initiatives, fleet growth, and our IT infrastructure. Our capital expenditures totaled \$11.1 million during the first quarter 2014 and we continue to repurchase shares under our share repurchase program. During the quarter, we repurchased 730,162 shares at an average price of \$98.82 per share for a total expenditure of \$72.2 million.

Aircraft

Operating Fleet

As of March 31, 2014, our total aircraft in service consisted of 53 MD-80 aircraft, six Boeing 757-200 aircraft, three Airbus A319 aircraft, and seven Airbus A320 aircraft. During the first quarter of 2014, we placed two owned Airbus A320 aircraft and returned two MD-80 aircraft out of temporary storage into revenue service. The two MD-80 aircraft were reconfigured to 166 seats prior to being replaced into revenue service. The following table sets forth the number and type of aircraft in service and operated by us as of the dates indicated:

	As of March 31, 2014			As of December 31, 2013			March 31, 2013		
	Own	Lease	Total	Own (b)	Lease	Total	Own (b)	Lease	Total
MD82/83/88s (a)	53	—	53	52	—	52	56	—	56
MD87s (c)	—	—	—	—	—	—	1	—	1
B757-200	6	—	6	6	—	6	6	—	6
A319	1	2	3	1	2	3	—	1	1
A320	7	—	7	5	—	5	—	—	—
Total	67	2	69	64	2	66	63	1	64

(a) Includes the following number of MD-80 aircraft (MD-82/83/88s) modified to a 166-seat configuration: March 31, 2014 – 53; December 31, 2013 – 51; March 31, 2013 – 51.

(b) Does not include aircraft owned, but not added to our operating fleet or temporarily stored as of the date indicated.

(c) Used almost exclusively for fixed fee flying.

Airbus Aircraft

In August 2013, we entered into purchase agreements for two Airbus A320 aircraft. We expect to acquire these two Airbus A320 aircraft in the fourth quarter of 2014 and place them in revenue service in 2015.

In August 2012, we entered into lease agreements for nine Airbus A319 aircraft with expected deliveries through the third quarter of 2015. As of March 31, 2014, we have two of these leased Airbus A319 aircraft in revenue service. We expect to take possession of the remaining aircraft under these lease agreements in 2014 and 2015.

Fleet Plan

The following table provides the expected number of operating aircraft in service at the end of the respective quarters:

	June 30, 2014	September 30, 2014	December 31, 2014
MD-80 (166 seats)	53	53	53
B757-200	6	6	6
A319	3	3	4
A320	7	7	7
Total	69	69	70

Network

On March 31, 2014, we offered scheduled service on 227 routes into 14 leisure destinations. On March 31, 2014, we served 86 small cities in 39 states (including small cities and destinations) in our route network. Network changes during the second quarter included the addition of a new seasonal base in Myrtle Beach, SC starting May 2014.

The following shows the number of destinations and small cities served, and routes operated as of the dates indicated (includes cities served seasonally):

	As of March 31, 2014	As of December 31, 2013	March 31, 2013
Leisure destinations	14	14	13
Small cities served	86	86	75
Total cities served	100	100	88
Total routes	227	226	198

Trends and Uncertainties

Fuel cost volatility has significantly impacted our operating results in prior years but crude oil prices stabilized during 2013 and remained largely unchanged in the first quarter of 2014. Our system average fuel cost per gallon decreased from \$3.37 for the first quarter of 2013 to \$3.20 for the same period of 2014. Our fuel cost per ASM declined 8.8 percent from 5.02¢ in first quarter 2013 to 4.58¢ in 2014 due to a 4.0 percent increase in ASMs per gallon. We added additional capacity over which we spread our fuel cost with the introduction of larger (177 seats) used A320 series Airbus aircraft into our operating fleet and additional seats from the completion of our MD-80 seat reconfiguration program. Fuel costs in the long-term remain uncertain and fuel cost volatility could materially affect our future operating costs.

During the first quarter 2014, we placed two A320 series Airbus aircraft and returned two remaining MD-80 aircraft out of temporary storage into revenue service. In addition, we completed the reconfiguration of our Boeing 757 fleet from 223 seats to 215 seats and installed six Giant Seats per aircraft which will provide additional ancillary revenue opportunities. We expect our MD-80 aircraft fleet to remain at 53 aircraft during 2014. We believe our six Boeing 757-200 aircraft, our MD-80 aircraft fleet, and the purchase and acquisition of used Airbus A320 series aircraft under contract will meet our aircraft needs to support our planned growth through 2015.

Our network grew from 198 routes as of March 31, 2013, to 227 routes at March 31, 2014. We announced 12 new routes to begin operation in the second quarter 2014. We expect to continue to aggressively manage capacity in our markets in an attempt to maximize profitability. TRASM improved to 12.87¢ in the first quarter of 2014 compared to 12.79¢ for the same period in 2013, primarily due to continued strength in our base fare. CASM, excluding fuel, rose by 10.4 percent due to \$12 million in nonrecurring expenses related to aircraft sub service, labor inefficiencies, elevated crew training and crew displacement costs. Currently, we do not anticipate these additional costs to extend

past June 2014. We continue to focus on operating a higher percentage of our flights during peak windows and a lower percentage of flights during off-peak windows. We believe this approach with our planned departure and ASM growth, primarily in our Florida markets, will contribute to the achievement of our profitability goals in the current operating environment.

14

We have three employee groups which have voted for union representation: pilots, flight attendants, and flight dispatchers. These three employee groups make up approximately 50 percent of our total employee base. We are currently in various stages of negotiations for collective bargaining agreements with the labor organizations representing these employee groups. Any labor actions following an inability to reach collective bargaining agreements could materially impact our operations during the continuance of any such activity.

RESULTS OF OPERATIONS

Comparison of three months ended March 31, 2014 to three months ended March 31, 2013

The table below presents our operating expenses as a percentage of operating revenue for the periods indicated:

	Three Months Ended March 31,			
	2014	2013		
Total operating revenues	100.0	% 100.0		%
Operating expenses:				
Aircraft fuel	36.0	39.7		
Salaries and benefits	15.4	15.1		
Station operations	7.3	7.1		
Maintenance and repairs	6.8	6.6		
Sales and marketing	2.6	2.1		
Aircraft lease rentals	3.1	0.1		
Depreciation and amortization	6.1	6.2		
Other	3.8	3.9		
Total operating expenses	81.1	% 80.8		%
Operating margin	18.9	% 19.2		%

Operating Revenue

Our operating revenue increased 10.8 percent to \$302.5 million for the three months ended March 31, 2014, up from \$273.0 million for the same period of 2013 primarily due to a 13.1 percent increase in scheduled service revenue and a 9.8 percent increase in ancillary revenue. Scheduled service revenue and ancillary revenue increases were primarily driven by a 10.9 percent increase in scheduled service passengers and a 1.0 percent increase in our total average fare per passenger from \$144.99 to \$146.51.

Scheduled service revenue. Scheduled service revenue increased 13.1 percent to \$203.5 million for the three months ended March 31, 2014, up from \$179.9 million in the same period of 2013. The increase was driven by a 10.9 percent increase in the number of scheduled service passengers and a 2.0 percent increase in the scheduled service average fare. Passenger growth was attributable to an 11.5 percent increase in the number of scheduled service departures while the average number of passengers per departure and scheduled service seats per departure remained relatively unchanged for the three months ended March 31, 2014 compared to the three months ended March 31, 2013.

Ancillary revenue. Ancillary revenue increased 9.8 percent to \$96.1 million for the three months ended March 31, 2014, up from \$87.5 million in the same period of 2013, primarily driven by 10.9 percent increase in scheduled service passengers. Our air-related ancillary revenue per scheduled service passenger increased \$0.15 primarily attributable to an increase in charges for bags and charges for trip-flex fees resulting from the implementation of a new carry-on bag fee and new change fee polices. In addition, the completion of our MD-80 seat reconfiguration program allowed us to sell additional assigned seats on these aircraft which resulted in increases assigned seats sales. The following table details ancillary revenue per scheduled service passenger from air-related charges and third party products:

	Three Months Ended March 31,		Percentage	
	2014	2013	Change	
Air-related charges	\$41.79	\$41.64	0.4	%
Third party products	5.20	5.81	(10.5))%
Total ancillary revenue per scheduled service passenger	\$46.99	\$47.45	(1.0))%

The following table details the calculation of ancillary revenue from third party products. Third party products consist of revenue from the sale of hotel rooms, ground transportation (rental cars and hotel shuttle products), attraction and show tickets, and fees we receive from other merchants selling products through our website:

16

Edgar Filing: Allegiant Travel CO - Form 10-Q

(in thousands except room nights and rental car days)	Three Months Ended March 31,		Percentage	
	2014	2013	Change	
Gross ancillary revenue - third party products	\$35,739	\$34,327	4.1	%
Cost of goods sold	(24,651)	(22,962)	7.4	%
Transaction costs (a)	(458)	(648)	(29.3))%
Ancillary revenue - third party products	\$10,630	\$10,717	(0.8))%
As percent of gross ancillary revenue - third party	29.7	% 31.2	% (1.5)	pp
Hotel room nights	143,760	156,466	(8.1))%
Rental car days	281,311	250,099	12.5	%

(a) Includes payment expenses and travel agency commissions.

During the three months ended March 31, 2014, we generated gross revenue of \$35.7 million from the sale of third party products, which resulted in net revenue of \$10.6 million. Net third party products revenue decreased 0.8 percent primarily due to the reduction of hotel room nights partially offset by an increase in the sale of rental car days. The 12.5 percent increase in rental car days sold was driven by an increase in scheduled service passengers to those markets where a higher percentage of rental car days are typically sold, such as Florida and Phoenix. The reduction in hotel rooms was primarily from the impact of certain promotions in the prior year which have been phased out, such as offering an air discount tied to hotel sales. Additionally, our previous pre-purchase agreement for discounted rooms in Las Vegas concluded in the third quarter of 2013 and was renewed with rates which are not as attractive as the prior deal due to the improved Las Vegas hotel market.

Fixed fee contract revenue. Fixed fee contract revenue decreased 49.0 percent to \$2.6 million for the three months ended March 31, 2014, from \$5.2 million in the same period of 2013. The decrease was driven by a 39.1 percent reduction in fixed fee block hours flown, primarily due to lack of crew availability for NCAA March Madness flying.

Other revenue. Other revenue of \$0.3 million for the three months ended March 31, 2014 remained flat compared to the same period of 2013 and was generated primarily from in-flight media advertising.

Operating Expenses

Our operating expenses increased 11.2 percent to \$245.3 million for the three months ended March 31, 2014 compared to \$220.6 million in the same period of 2013. We primarily evaluate our expense management by comparing our costs per passenger and per ASMs across different periods, which enables us to assess trends in each expense category.

The following table presents operating expense per passenger for the indicated periods (“per-passenger costs”). The table also presents operating expense per passenger, excluding fuel, which represents operating expenses, less aircraft fuel expense, divided by the number of passengers carried. This statistic provides management and investors the ability to measure and monitor our cost performance absent fuel price volatility. Both the cost and availability of fuel are subject to many economic and political factors beyond our control.

	Three Months Ended March 31,		Percentage	
	2014	2013	Change	
Aircraft fuel	\$52.56	\$57.70	(8.9))%
Salary and benefits	22.40	21.89	2.3	
Station operations	10.73	10.29	4.3	
Maintenance and repairs	9.94	9.64	3.1	
Sales and marketing	3.77	3.09	22.0	
Aircraft lease rentals	4.55	0.16	NM*	
Depreciation and amortization	8.89	8.98	(1.0))
Other	5.48	5.56	(1.4))
Operating expense per passenger	\$118.32	\$117.31	0.9	%

Edgar Filing: Allegiant Travel CO - Form 10-Q

Operating expense per passenger, excluding fuel	\$65.76	\$59.62	10.3	%
* NM - not meaningful				

17

The following table presents unit costs, defined as Operating CASM, for the indicated periods. The table also presents Operating CASM, excluding fuel, which represents operating expenses, less aircraft fuel expense, divided by ASMs. As on a per passenger basis, excluding fuel on a per ASM basis provides management and investors the ability to measure and monitor our cost performance absent fuel price volatility.

	Three Months Ended March 31,		Percentage	
	2014	2013	Change	
Aircraft fuel	4.58	¢ 5.02	¢ (8.8)%
Salary and benefits	1.95	1.90	2.6	
Station operations	0.93	0.89	4.5	
Maintenance and repairs	0.87	0.84	3.6	
Sales and marketing	0.33	0.27	22.2	
Aircraft lease rentals	0.40	0.01	NM*	
Depreciation and amortization	0.77	0.78	(1.3)
Other	0.47	0.49	(4.1)
Operating expense per ASM (CASM)	10.30	¢ 10.20	¢ 1.0	%
CASM, excluding fuel	5.72	¢ 5.18	¢ 10.4	%

* NM - not meaningful

Our overall cost per passenger and cost per ASM were relatively flat for the three months ended March 31, 2014 compared to the same period in the prior year as decreases in the fuel expense per passenger and per ASM were offset by increases in the per passenger and per ASM costs in other line items.

Aircraft fuel expense. Aircraft fuel expense was relatively flat at \$108.9 million for the three months ended March 31, 2014 compared to \$108.5 million in the same period of 2013. A 5.7 percent increase in total system gallons consumed was offset by a 5.0 percent decrease in our average fuel cost per gallon from \$3.37 to \$3.20. The increase in gallons consumed is attributable to a 9.4 percent increase in total system departures offset by improved fuel efficiency. Fuel efficiency increased predominantly from the introduction of used A320 series Airbus aircraft into our operating fleet.

Salary and benefits expense. Salary and benefits expense increased 12.8 percent to \$46.4 million for the three months ended March 31, 2014 up from \$41.2 million in the same period of 2013. The increase is primarily attributable to a 13.1 percent increase in the number of full-time equivalent employees. Headcount growth was mostly attributable to flight crews to support a 7.3 percent increase in average number of aircraft in revenue service year over year and flight operations and maintenance staff to support increasing Airbus A320 series aircraft operations.

Station operations expense. Station operations expense increased 14.9 percent to \$22.2 million for the three months ended March 31, 2014 compared to \$19.3 million in the same period of 2013. The increase was primarily attributable to increased fees at several airports where we operate in addition to our 9.4 percent increase in total system departures. We continue to experience cost pressures in the major destinations we service, primarily in Las Vegas, where we have limited ability to reduce costs.

Maintenance and repairs expense. Maintenance and repairs expense increased 13.6 percent to \$20.6 million for the three months ended March 31, 2014 compared to \$18.1 million in the same period of 2013. The increase was primarily attributable to a 7.3 percent increase in average operating fleet size and a larger number of heavy maintenance events during the quarter. During the three months ended March 31, 2014, we had 17 heavy maintenance events compared to 12 for the same period in 2013. During the three months ended March 31, 2014, our maintenance expense per aircraft per month was approximately \$101 thousand compared to \$95 thousand in the same period last year.

Sales and marketing expense. Sales and marketing expense increased 34.6 percent to \$7.8 million for the three months ended March 31, 2014, compared to \$5.8 million in the same period of 2013, due to a combination of increased credit card interchange fees and advertising expenses to launch 12 new routes to begin operation in the second quarter of

2014.

Aircraft lease rentals expense. We had \$9.4 million in aircraft lease rentals expense for the three months ended March 31, 2014 and \$0.3 million in the same period of 2013. During the three months ended March 31, 2014, we operated two Airbus

18

A319 aircraft under operating leases and incurred \$7.6 million in contracting for sub-service flying needed due to crew shortages.

Depreciation and amortization expense. Depreciation and amortization expense increased 9.1 percent to \$18.4 million for the three months ended March 31, 2014, compared to \$16.9 million in the same period of 2013. The increase was driven by eight incremental owned Airbus aircraft in our revenue service fleet year-over-year and the amortization of capitalized IT infrastructure costs. Our average number of owned aircraft in service was 67.9 for the three months ended March 31, 2014 compared to 63.3 for same period in 2013.

Other expense. Other expense increased 8.5 percent to \$11.4 million for the three months ended March 31, 2014 from \$10.5 million for the same period of 2013. The increase was primarily attributable to flight operations training costs driven by a 7.3 percent increase in average operating fleet size, non-capitalized IT development costs, and other administrative costs associated with our growth.

Other (Income) Expense

Other (income) expense increased 55.0 percent to \$2.9 million for the three months ended March 31, 2014 to \$1.9 million for the same period in 2013. The increase is due to additional interest expense from increased borrowings.

Income Tax Expense

Our effective income tax rate was 37.3 percent for the three months ended March 31, 2014 compared to 36.9 percent for the same period of 2013. While we expect our tax rate to be fairly consistent in the near term, it will vary depending on recurring items such as the amount of income we earn in each state and the state tax rate applicable to such income. Discrete items during interim periods may also affect our tax rates.

Comparative Consolidated Operating Statistics

The following tables set forth our operating statistics for the three months ended March 31, 2014 and 2013:

	Three Months Ended March 31,		Percent
	2014	2013	Change*
Operating statistics (unaudited):			
Total system statistics:			
Passengers	2,072,720	1,880,341	10.2

** Various components of these measures do not have a direct correlation to ASMs. These figures are provided on a per ASM basis so as to facilitate comparison with airlines reporting revenues on a per ASM basis.

LIQUIDITY AND CAPITAL RESOURCES

Current liquidity

Cash, restricted cash and investment securities (short-term and long-term) decreased from \$397.7 million at December 31, 2013 to \$376.6 million at March 31, 2014. Restricted cash represents escrowed funds under fixed fee contracts, cash collateral against notes payable and cash collateral against letters of credit required by hotel properties for guaranteed room availability, airports and certain other parties. Investment securities represent highly liquid marketable securities which are available-for-sale. Under our fixed fee flying contracts, we require our customers to prepay for flights to be provided by us. The prepayments are escrowed until the flight is completed. Prepayments are recorded as restricted cash and a corresponding amount is recorded as air traffic liability. Our restricted cash balance remained relatively unchanged at \$10.8 million as of March 31, 2014 compared to \$10.5 million at December 31, 2013.

In April 2014, we prepaid in full the \$120.9 million balance and accrued interest of \$0.2 million of our Term Loan originally due March 2017. At the same time, we borrowed \$45.3 million under a loan agreement secured by 53 MD-80 aircraft. The note payable issued under the loan agreement bears interest at LIBOR plus 2.95 percent and is payable in monthly installments through April 2018. Additionally, in April 2014, we prepaid a portion of a note payable in the amount of \$4.1 million originally due June 2016. As of May 1, 2014, our unrestricted cash balances and investment securities (short-term and long-term) are \$285.4 million and our total debt, including current maturities, is \$148.5 million.

During the first three months of 2014, our primary source of funds was \$107.4 million generated by our operations. Our operating cash flows have allowed us to return value to shareholders and invest in the growth of our fleet, information technology infrastructure and development, and substantially maintain our cash position, while meeting our short-term obligations. During the first quarter of 2014, we paid \$41.8 million in the form of a cash dividend to our shareholders and repurchased \$73.4 million in stock. Our future capital needs are primarily for the acquisition of additional aircraft, including our existing Airbus A320 series aircraft purchase agreements, along with our future aircraft operating lease obligations. We believe we have more than adequate liquidity resources through our operating cash flows and cash balances to meet our future contractual obligations. As we have done in the past, we consider raising funds through debt financing on an opportunistic basis from time to time.

Sources and Uses of Cash

Operating Activities. During the three months ended March 31, 2014, our operating activities provided \$107.4 million of cash compared to \$107.8 million during the same period of 2013. Operating cash inflows are primarily derived from providing air transportation to customers. The vast majority of tickets are purchased prior to the day on which travel is provided. The operating cash flows for the three months ended March 31, 2014 and 2013 were impacted primarily by our results of operations, adjusted for non-cash depreciation and amortization expense, as well as changes in air traffic liability, accounts receivable and accounts payable and with the increases in certain line items being offset by decreases in others. The increased amount of net income, as adjusted for non-cash depreciation and amortization expense, in the first three months of 2014 and a higher increase in air traffic liability for the period were offset by changes in other working capital line items.

Investing Activities. Cash provided from investing activities was \$1.9 million for the three months ended March 31, 2014 compared to cash used of \$55.5 million for the same period in 2013. During the three months ended March 31, 2014, our primary use of cash was for the purchase of property and equipment of \$11.1 million while proceeds from the maturities of investment securities, net of purchases, of \$13.7 million more than offset the cash outflows. For the three months ended March 31, 2013, our use of cash from investing activities resulted from our purchases of investment securities, net of maturities, of \$52.0 million and purchases of property and equipment of \$13.1 million offset by returns of deposits and changes in other assets.

Financing Activities. Cash used in financing activities for the three months ended March 31, 2014 was \$116.9 million, compared to \$25.3 million of cash used in financing activities for the same period in 2013. During the three months ended March 31, 2014, the primary use of cash was for stock repurchases of \$73.4 million and the cash dividend paid to shareholders of \$41.8 million compared to \$23.2 million of stock repurchases in the same period of 2013.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

A description of our critical accounting policies is included in Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2013. There has been no material change to these policies during the three months ended March 31, 2014.

SPECIAL NOTE ABOUT FORWARD-LOOKING STATEMENTS

We have made forward-looking statements in this quarterly report on Form 10-Q, and in this section entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” that are based on our management’s beliefs and assumptions and on information currently available to our management. Forward-looking statements include information concerning our possible or assumed future results of operations, business strategies, fleet plan, financing plans, competitive position, industry environment, potential growth opportunities, future service to be provided and the effects of future regulation and competition. Forward-looking statements include all statements that are not historical facts and can be identified by the use of forward-looking terminology such as the words “believe,” “expect,” “anticipate,” “intend,” “plan,” “estimate,” “project” or similar expressions.

Forward-looking statements involve risks, uncertainties and assumptions. Actual results may differ materially from those expressed in the forward-looking statements. Important risk factors that could cause our results to differ materially from those expressed in the forward-looking statements may be found in our periodic reports filed with the Securities and Exchange Commission at www.sec.gov. These risk factors include, without limitation, volatility of fuel costs, labor issues, the effect of the economic downturn on leisure travel, terrorist attacks, risks inherent to airlines, demand for air services to our leisure destinations from the markets served by us, our dependence on our leisure destination markets, the competitive environment, problems with our aircraft, our reliance on our automated systems, economic and other conditions in markets in which we operate, aging aircraft and other governmental regulation, increases in maintenance costs and cyclical and seasonal fluctuations in our operating results.

Any forward-looking statements are based on information available to us today and we undertake no obligation to update publicly any forward-looking statements, whether as a result of future events, new information or otherwise.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We are subject to certain market risks, including changes in interest rates and commodity prices (specifically, aircraft fuel). The adverse effects of changes in these markets could pose a potential loss as discussed below. The sensitivity analysis does not consider the effects that such adverse changes may have on overall economic activity, nor does it consider additional actions we may take to mitigate our exposure to such changes. Actual results may differ. See the notes to our consolidated financial statements in our annual report on Form 10-K filed with the Securities and Exchange Commission for a description of our significant accounting policies and additional information.

Aircraft Fuel

Our results of operations can be significantly impacted by changes in the price and availability of aircraft fuel. Aircraft fuel expense represented 44.4 percent of our operating expenses for the three months ended March 31, 2014. Increases in fuel prices or a shortage of supply could have a material effect on our operations and operating results. Based on our fuel consumption for the three months ended March 31, 2014, a hypothetical ten percent increase in the average price per gallon of aircraft fuel would have increased fuel expense by approximately \$10.7 million for the three months ended March 31, 2014. We have not hedged fuel price risk in recent years.

Interest Rates

We have market risk associated with changing interest rates due to the short-term nature of our cash and investment securities at March 31, 2014, which totaled \$90.1 million in cash and cash equivalents, \$254.8 million of short-term investments and \$20.9 million of long-term investments. We invest available cash in government and corporate debt securities, investment grade commercial paper, and other highly rated financial instruments. Because of the short-term nature of these investments, the returns earned closely parallel short-term floating interest rates. A hypothetical 100 basis point change in interest rates in the three months ended March 31, 2014 would have affected interest income

from cash and investment securities by \$0.8 million.

We had \$120.9 million, including current maturities, of variable-rate debt as of March 31, 2014 from borrowings under our Term Loan. A hypothetical 100 basis point change in interest rates for the three months ended March 31, 2014 would not have affected interest expense associated with variable-rate debt as a result of the LIBOR floor under the Term Loan.

As of March 31, 2014 we also had \$46.5 million, including current maturities, of variable-rate notes payable. A hypothetical 100 basis point change in interest rates for the three months ended March 31, 2014 would not have a material effect on interest expense associated with this variable-rate note payable.

In April 2014, we borrowed \$45.3 million under a loan agreement secured by 53 MD-80 aircraft. The note payable issued under the loan agreement bears 2.95 percent interest at a floating rate based on LIBOR and is payable in monthly installments through April 2018. A hypothetical 100 basis point change in interest rates would not have a material effect on interest expense associated with this variable-rate note payable.

We had \$61.9 million, including current maturities, of fixed-rate debt as of March 31, 2014. A hypothetical 100 basis point change in market interest rates would not have a material effect on the fair value of our fixed-rate debt instruments as of March 31, 2014. Also, a hypothetical 100 basis point change in market rates would not impact our earnings or cash flow associated with our fixed-rate debt.

Item 4. Controls and Procedures.

(a) Evaluation of disclosure controls and procedures. As of the end of the period covered by this report, under the supervision and with the participation of our management, including our chief executive officer (“CEO”) and chief financial officer (“CFO”), we evaluated the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended, or the “Exchange Act”). Based on this evaluation, our management, including our CEO and CFO, has concluded that our disclosure controls and procedures are designed, and are effective, to give reasonable assurance that the information we are required to disclose is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms. Based upon this evaluation, the CEO and CFO concluded that our disclosure controls and procedures are effective in providing reasonable assurance that information required to be disclosed in our reports filed with or submitted to the SEC under the Exchange Act is accumulated and communicated to management, including the CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

(b) Changes in internal controls. There were no changes in our internal control over financial reporting that occurred during the quarter ending March 31, 2014, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We are subject to certain legal and administrative actions we consider routine to our business activities. We believe the ultimate outcome of any pending legal or administrative matters will not have a material adverse impact on our financial position, liquidity or results of operations.

Item 1A. Risk Factors

We have evaluated our risk factors and determined there have been no changes to our risk factors set forth in Part I, Item 1A in the Form 10-K since we filed our Annual Report on Form 10-K on February 28, 2014.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Our Repurchases of Equity Securities

During the three months ended March 31, 2014, we repurchased 730,162 shares under our share repurchase program authority, at an average cost of \$98.82 per share, for a total expenditure of \$72.2 million. In addition, we had repurchases during the quarter from employees who received restricted stock grants. These stock repurchases were made at the election of each employee pursuant to an offer to repurchase by us. In each case, the shares repurchased

constituted the portion of vested shares necessary to satisfy withholding tax requirements.

The following table reflects our repurchases of our common stock during the first quarter of 2014:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet be Purchased Under the Plans or Programs (1)
January 2014	637	\$ 102.94	None	\$39,813,611
February 2014	435,334	\$92.66	430,329	99,927,149
March 2014	306,697	107.58	299,833	67,656,712
Total	742,668	\$98.83	730,162	\$67,656,712

Represents the remaining dollar amount of open market purchases of our common stock which has been authorized (1) by the Board under a share repurchase program. On February 28, 2014, our Board increased the remaining authority for stock repurchases to \$100.0 million.

Item 6. Exhibits

- 3.1 Articles of Incorporation (1)
- 3.2 Bylaws of the Company (2)
- 31.1 Rule 13a - 14(a) / 15d - 14(a) Certification of Principal Executive Officer
- 31.2 Rule 13a - 14(a) / 15d - 14(a) Certification of Principal Financial Officer

32 Section 1350 Certifications

101 The following financial information from the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2014 filed with the SEC on May 9, 2014, formatted in XBRL includes: (i) Consolidated Statements of Income for the fiscal periods ended March 31, 2014 and March 31, 2013, (ii) Consolidated Balance Sheets at March 31, 2014 and December 31, 2013, (iii) Consolidated Statements of Comprehensive Income for the fiscal periods ended March 31, 2014 and March 31, 2013, (iv) Consolidated Cash Flow Statements for the fiscal periods ended March 31, 2014 and March 31, 2013, and (v) the Notes to the Consolidated Financial Statements. (3)

- (1) Incorporated by reference to Exhibit filed with Registration Statement #333-134145 filed by the Company with the Commission and amendments thereto.
- (2) Incorporated by reference to Exhibit 3.2 filed with the Annual Report on Form 10-K for the year ended December 31, 2012 filed with the Commission on February 26, 2013.
Pursuant to Rule 406T of Regulation S-T, the XBRL related information in Exhibit 101 to this Quarterly Report on Form 10-Q shall be deemed to be not filed for purposes of Section 18 of the Exchange Act, or otherwise subject to the liability of that section, and shall not be deemed part of a registration statement, prospectus or other document filed under the Securities Act or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.
- (3)

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
