PROXY STATEMENT FOR THE 2015 ANNUAL MEETING OF STOCKHOLDERS

April 13, 2015

Information About Solicitation and Voting

The accompanying proxy is solicited on behalf of the Board of Directors of Green Dot Corporation ("Green Dot") for use at Green Dot's 2015 Annual Meeting of Stockholders (the "meeting") to be held on May 28, 2015, at 9:00 a.m. (Pacific Daylight Time), and any adjournment or postponement thereof.

Internet Availability of Proxy Materials

Under rules adopted by the U.S. Securities and Exchange Commission ("SEC"), we are furnishing proxy materials to our stockholders primarily via the Internet, instead of mailing printed copies of those materials to each stockholder. On or about April 17, 2015, we expect to send to our stockholders a Notice of Internet Availability of Proxy Materials ("Notice of Internet Availability") containing instructions on how to access our proxy materials, including our proxy statement and our annual report. The Notice of Internet Availability also provides instructions on how to vote by telephone or through the Internet and includes instructions on how to receive a paper copy of the proxy materials by mail.

This process is designed to reduce our environmental impact and lowers the costs of printing and distributing our proxy materials without impacting our stockholders' timely access to this important information. However, if you would prefer to receive printed proxy materials, please follow the instructions included in the Notice of Internet Availability.

Questions and Answers About the Meeting

What is the purpose of the meeting?

At the meeting, stockholders will act upon the proposals described in this proxy statement. In addition, following the meeting, management will report on the performance of Green Dot and respond to questions from stockholders.

What proposals are scheduled to be voted on at the meeting?

Stockholders will be asked to vote on two proposals. The proposals are:

1. The election to the Board of Directors of three Class II directors named in this proxy statement, to serve until the third annual meeting of stockholders following this meeting and until his or her successor has been elected and qualified or until his or her earlier resignation or removal; and
2. The ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for 2015.

Could other matters be decided at the meeting?

Our bylaws require that we receive advance notice of any proposal to be brought before the meeting by stockholders of Green Dot, and we have not received notice of any such proposals. If any other matter were to come before the meeting, the proxy holders appointed by the Board of Directors will have the discretion to vote on those matters for you.

What is the recommendation of the Board of Directors on each of the proposals scheduled to be voted on at the meeting?

The Board of Directors recommends that you vote FOR the Class II directors named in this proxy statement (Proposal 1) and FOR the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the 2015 fiscal year (Proposal 2).

Who can vote at the meeting?

Stockholders as of the record date for the meeting, March 31, 2015, are entitled to vote at the meeting. At the close of business on the record date, there were outstanding and entitled to vote 51,699,406 shares of Green Dot Class A common stock.

Table of Contents

Stockholder of Record: Shares Registered in Your Name

If on March 31, 2015 your shares were registered directly in your name with our transfer agent, Computershare Trust Company, N.A., then you are considered the stockholder of record with respect to those shares. As a stockholder of record, you may vote at the meeting or vote by proxy. Whether or not you plan to attend the meeting, we urge you to vote by telephone or through the Internet, or if you request or receive paper proxy materials by mail, by filling out and returning a proxy card.

Beneficial Owner: Shares Registered in the Name of a Broker or Nominee

If on March 31, 2015 your shares were held in an account with a brokerage firm, bank or other nominee, then you are the beneficial owner of the shares held in street name. As a beneficial owner, you have the right to direct your nominee on how to vote the shares held in your account, and it has enclosed or provided voting instructions for you to use in directing it on how to vote your shares. However, the organization that holds your shares is considered the stockholder of record for purposes of voting at the meeting. Because you are not the stockholder of record, you may not vote your shares at the meeting unless you request and obtain a valid proxy from the organization that holds your shares giving you the right to vote the shares at the meeting.

How do I vote?

If you are a stockholder of record, you may:

- vote in person - we will provide a ballot to stockholders who attend the meeting and wish to vote in person;
- vote by telephone or through the Internet - in order to do so, please follow the instructions shown on your Notice of Internet Availability or proxy card; or
- vote by mail - if you request or receive a paper proxy card and voting instructions by mail, simply complete, sign and date the enclosed proxy card and return it before the meeting in the envelope provided.

Votes submitted by telephone or through the Internet must be received by 11:59 p.m., Eastern Time, on May 27, 2015. Submitting your proxy, whether by telephone, through the Internet or by mail if you request or received a paper proxy card, will not affect your right to vote in person should you decide to attend the meeting.

If you are not the stockholder of record, please refer to the voting instructions provided by your nominee to direct it how to vote your shares. You may either vote "For" all of the nominees to the Board of Directors, or you may withhold your vote from any nominee you specify. For any other matter to be voted on you may vote "For" or "Against" or "Abstain" from voting. Your vote is important. Whether or not you plan to attend the meeting, we urge you to vote by proxy to ensure that your vote is counted. You may still attend the meeting in person if you have already voted by proxy.

What shares can I vote?

Each share of Green Dot Class A common stock issued and outstanding as of the close of business on March 31, 2015 is entitled to vote on all items being voted on at the meeting. You may vote all shares owned by you as of March 31, 2015, including (1) shares held directly in your name as the stockholder of record, and (2) shares held for you as the beneficial owner in street name through a broker, bank, trustee, or other nominee.

How many votes am I entitled to per share?

Each holder of shares of Class A common stock is entitled to one vote for each share of Class A common stock held as of March 31, 2015.

What is the quorum requirement for the meeting?

The holders of a majority of the voting power of the shares of stock entitled to vote at the meeting as of the record date must be present in person or represented by proxy at the meeting in order to hold the meeting and conduct business. This presence is called a quorum. Your shares are counted as present at the meeting if you are present and vote in person at the meeting or if you have properly submitted a proxy.

Table of Contents

How are abstentions and broker non-votes treated?

Abstentions (shares present at the meeting and voted “abstain”) are counted for purposes of determining whether a quorum is present, and have no effect on the outcome of the matters voted upon.

Broker non-votes occur when shares held by a broker for a beneficial owner are not voted either because (i) the broker did not receive voting instructions from the beneficial owner, or (ii) the broker lacked discretionary authority to vote the shares. Broker non-votes are counted for purposes of determining whether a quorum is present, and have no effect on the outcome of the matters voted upon. Note that if you are a beneficial holder and do not provide specific voting instructions to your broker, the broker that holds your shares will not be authorized to vote on the election of directors. Accordingly, we encourage you to provide voting instructions to your broker, whether or not you plan to attend the meeting.

What is the vote required for each proposal?

The votes required to approve each proposal are as follows:

Proposal No. 1. The director will be elected by a plurality of the votes cast, which means that the three individuals nominated for election to the Board of Directors at the meeting receiving the highest number of “FOR” votes will be elected. You may either vote “FOR” the nominee or “WITHHOLD” your vote with respect to the nominee.

Proposal No. 2. Approval of proposal will be obtained if the number of votes cast “FOR” the proposal at the meeting exceeds the number of votes “AGAINST” the proposal.

What if I return a proxy card but do not make specific choices?

All proxies will be voted in accordance with the instructions specified on the proxy card. If you received a Notice of Internet Availability, please follow the instructions included on the notice on how to access your proxy card and vote by telephone or through the Internet. If you sign a physical proxy card and return it without instructions as to how your shares should be voted on a particular proposal at the meeting, your shares will be voted in accordance with the recommendations of our Board of Directors stated above.

If you do not vote and you hold your shares in street name, and your broker does not have discretionary power to vote your shares, your shares may constitute “broker non-votes” (as described above) and will not be counted in determining the number of shares necessary for approval of the proposals. However, shares that constitute broker non-votes will be counted for the purpose of establishing a quorum for the meeting. Voting results will be tabulated and certified by the inspector of elections appointed for the meeting.

Who is paying for this proxy solicitation?

The expenses of soliciting proxies will be paid by Green Dot. Following the original mailing of the soliciting materials, Green Dot and its agents may solicit proxies by mail, electronic mail, telephone, facsimile, by other similar means, or in person. Our directors, officers and other employees, without additional compensation, may solicit proxies personally or in writing, by telephone, e-mail, or otherwise. Following the original mailing of the soliciting materials, Green Dot will request brokers, custodians, nominees and other record holders to forward copies of the soliciting materials to persons for whom they hold shares and to request authority for the exercise of proxies. In such cases, Green Dot, upon the request of the record holders, will reimburse such holders for their reasonable expenses. If you choose to access the proxy materials and/or vote through the Internet, you are responsible for any Internet access charges you may incur.

What does it mean if I receive more than one proxy card or Notice of Internet Availability?

If you receive more than one proxy card or Notice of Internet Availability, your shares are registered in more than one name or are registered in different accounts. To make certain all of your shares are voted, please follow the instructions included on the Notice of Internet Availability on how to access each proxy card and vote each proxy card by telephone or through the Internet. If you requested or received paper proxy materials by mail, please complete, sign and return each proxy card to ensure that all of your shares are voted.

Table of Contents

How can I change my vote after submitting my proxy?

A stockholder who has given a proxy may revoke it at any time before it is exercised at the meeting by:
• delivering to the Corporate Secretary of Green Dot (by any means, including facsimile) a written notice stating that the proxy is revoked;

- signing and delivering a proxy bearing a later date;
- voting again by telephone or through the Internet; or
- attending and voting at the meeting (although attendance at the meeting will not, by itself, revoke a proxy).

Please note, however, that if your shares are held of record by a broker, bank or other nominee and you wish to revoke a proxy, you must contact that firm to revoke any prior voting instructions.

How can I get electronic access to the proxy materials?

The Notice of Internet Availability will provide you with instructions regarding how to:

- view our proxy materials for the meeting through the Internet; and
- instruct us to send our future proxy materials to you electronically by email.

Choosing to receive your future proxy materials by email will reduce the impact of our annual meetings of stockholders on the environment and lower the costs of printing and distributing our proxy materials. If you choose to receive future proxy materials by email, you will receive an email next year with instructions containing a link to those materials and a link to the proxy voting site. Your election to receive proxy materials by email will remain in effect until you terminate it.

Where can I find the voting results?

The preliminary voting results will be announced at the meeting and posted on our website at <http://ir.greendot.com>.

The final results will be tallied by the inspector of elections and filed with the SEC in a current report on Form 8-K within four business days of the meeting.

CORPORATE GOVERNANCE STANDARDS AND DIRECTOR INDEPENDENCE

Green Dot is strongly committed to good corporate governance practices. These practices provide an important framework within which our Board of Directors and management can pursue our strategic objectives for the benefit of our stockholders.

Corporate Governance Guidelines

Our Board of Directors has adopted Corporate Governance Guidelines that set forth expectations for directors, director independence standards, board committee structure and functions and other policies for the governance of the company. Our Corporate Governance Guidelines are available on the Investor Relations section of our website, which is located at <http://ir.greendot.com>, by clicking on “Corporate Governance Guidelines,” under “Governance.” The Corporate Governance Guidelines are reviewed at least annually by our Nominating and Corporate Governance Committee, and changes are recommended to our Board of Directors with respect to changes as warranted.

Board Leadership Structure

Our Board of Directors retains the flexibility to determine on a case-by-case basis whether the Chief Executive Officer, or an independent director, should serve as Chairman. This flexibility permits our Board of Directors to organize its functions and conduct its business in a manner it deems most effective in then-prevailing circumstances. Our Board of Directors believes that we and our stockholders currently are best served by having Steven W. Streit serve as Chairman as well as Chief Executive Officer. By combining these positions, Mr. Streit serves as a bridge between the Board of Directors and the operating organization and, with his historical knowledge and operational expertise, provides critical leadership for the strategic initiatives and challenges of the future.

During those periods in which the positions of Chairman and Chief Executive Officer are combined, the independent directors appoint an independent director as a Lead Independent Director. Kenneth C. Aldrich currently serves as the Lead Independent Director.

The position and role of the Lead Independent Director is intended to facilitate communication between the Board of Directors and the Chairman and Chief Executive Officer and other members of management. The Lead Independent Director has the following duties:

- To organize, convene and preside over executive sessions of the non-management and independent directors and promptly communicate approved messages and directives to the Chairman;
- To preside at all meetings of the Board of Directors at which the Chairman is not available;
- To collect and communicate to the Chairman the views and recommendations of the independent directors, relating to his or her performance; and
- To perform such other duties and responsibilities as may be assigned from time-to-time by the independent directors.

The Board of Directors believes that its independence and oversight of management is maintained effectively through this leadership structure, the composition of the Board of Directors and sound corporate governance policies and practices.

Our Board of Directors' Role in Risk Oversight

Our Board of Directors, as a whole, has responsibility for risk oversight, although the committees of our Board of Directors oversee and review risk areas which are particularly relevant to them. The risk oversight responsibility of our Board of Directors and its committees is supported by our management reporting processes, which are designed to provide visibility to the Board of Directors and to our personnel that are responsible for risk assessment and information about the identification, assessment and management of critical risks and management's risk mitigation strategies. These areas of focus include, but are not limited to, competitive, economic, operational, financial (accounting, credit, liquidity and tax), legal, regulatory, compliance and reputational risks.

Each committee of the Board of Directors meets in executive session with key management personnel and representatives of outside advisors to oversee risks associated with their respective principal areas of focus and reviews risks and exposures related to management succession planning. The Audit Committee reviews strategic, financial and execution risks and exposures and regulatory exposures and other current matters that may present material risk to the company. The Audit Committee also oversees our internal audit function and discusses with management and our independent registered public accounting firm our policies with respect to significant financial risk exposures and the actions management has taken to limit, monitor or control such exposures. The Audit

Committee receives periodic reports from our Chief Risk Officer on our enterprise risk management program. The Compensation Committee reviews

5

Table of Contents

risks and exposures associated with leadership assessment and executive compensation programs and arrangements, including incentive plans. The Nominating and Corporate Governance Committee reviews risks and exposures relating to significant legal compliance risks and also monitors the steps management has to mitigate these exposures, including our legal risk assessment and legal risk management policies and guidelines.

Independence of Directors

Our Board of Directors determines the independence of our directors by applying the independence principles and standards established by the New York Stock Exchange, or the NYSE. These provide that a director is independent only if the board affirmatively determines that the director has no direct or indirect material relationship with our company. They also specify various relationships that preclude a determination of director independence. Material relationships may include commercial, industrial, consulting, legal, accounting, charitable, family and other business, professional and personal relationships.

Applying these standards, the board annually reviews the independence of the company's directors, taking into account all relevant facts and circumstances. In its most recent review, the board considered, among other things, the absence of any employment relationships between the company and its directors (other than Steven W. Streit who is an officer of the company and Samuel Altman who was an employee of the company within the last three years) and their families; the absence of any of the other specific relationships that would preclude a determination of independence under the rules of the NYSE; the absence of transactions with non-employee directors and members of their families that would require disclosure in this proxy statement under SEC rules regarding related person transactions; and the absence of any other material relationships between the non-employee directors and Green Dot. Based upon this review, our Board of Directors has determined that the following director nominees and members of our Board of Directors are currently independent as determined under the rules of the NYSE:

Kenneth C. Aldrich

Timothy R. Greenleaf

Glinda Bridgforth Hodges

Michael J. Moritz

Mary J. Dent

George T. Shaheen

All members of our Audit Committee, Compensation Committee, Nominating and Corporate Governance Committee must be independent directors as defined by our Corporate Governance Guidelines. Members of the Audit Committee must also satisfy a separate SEC independence requirement, which provides that they may not accept directly or indirectly any consulting, advisory or other compensatory fee from Green Dot or any of its subsidiaries other than their directors' compensation. No member of any committee may be a partner, member or principal of a law firm, accounting firm or investment banking firm that accepts consulting or advisory fees from Green Dot or any of its subsidiaries. Our Board of Directors has determined that all members of our Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee are independent and all members of our Audit Committee satisfy the relevant SEC additional independence requirements for the members of such committee.

Committees of Our Board of Directors

Our Board of Directors has established an Audit Committee, a Compensation Committee and a Nominating and Corporate Governance Committee. Each of these committees has a written charter approved by our Board of Directors. The composition and responsibilities of each committee are described below. Copies of the charters for each committee are available, without charge, upon request in writing to Green Dot Corporation, 3465 East Foothill Blvd., Pasadena, California 91107, Attn: Corporate Secretary or by clicking on "Governance" in the investor relations section of our website, <http://ir.greendot.com>. Members serve on these committees until their resignations or until otherwise determined by our Board of Directors.

Audit Committee

Our Audit Committee is comprised of Mr. Greenleaf, who is the chair of the Audit Committee, and Ms. Dent and Mr. Shaheen. The composition of our Audit Committee meets the requirements for independence under the current NYSE and SEC rules and regulations. Each member of our Audit Committee is financially literate as required by current NYSE listing standards. In addition, our Board of Directors has determined that Mr. Greenleaf is an Audit Committee financial expert within the meaning of Item 407(d) of Regulation S-K based on his experience in the areas of venture capital and private equity investment (including strategic financial analysis), finance and business generally. Pursuant to its charter, our Audit Committee, among other things:

• appoints our independent auditors;

• approves the audit and non-audit services to be performed by our independent auditors;

6

Table of Contents

- assesses the qualifications, performance and independence of our independent auditors;
- monitors the integrity of our financial statements and our compliance with legal and regulatory requirements as they relate to financial statements or accounting matters;
- reviews the integrity, adequacy and effectiveness of our accounting and financial reporting processes and the adequacy and effectiveness of our systems of internal control;
- discusses the results of the audit with the independent auditors and reviews with management and the independent auditors our interim and year-end operating results; and

• prepares the Audit Committee report that the SEC requires in our annual proxy statement.

Compensation Committee

Our Compensation Committee is comprised of Mr. Aldrich, who is the chair of the Compensation Committee, and Messrs. Greenleaf, Moritz and Shaheen. The composition of our Compensation Committee meets the requirements for independence under the current NYSE and SEC rules and regulations. Pursuant to its charter our Compensation Committee, among other things:

- reviews, approves and makes recommendations to our Board of Directors (as our Compensation Committee deems appropriate) regarding the compensation of our executive officers;
- administers and interprets our stock and equity incentive plans;
- reviews, approves and makes recommendations to our Board of Directors (as our Compensation Committee deems appropriate) with respect to equity and non-equity incentive compensation plans; and
- establishes and reviews general strategies relating to compensation and benefits of our employees.

From time to time, in accordance with the provisions of its charter, our Compensation Committee reviews and makes recommendations to the Board of Directors regarding compensation for non-employee directors using a process similar to the one used for determining compensation for our executive officers, which is discussed in detail in the “Executive Compensation-Compensation Discussion and Analysis” below. Our Compensation Committee periodically reviews the market practice for non-employee directors for companies in our peer group in consultation with its independent compensation consultant.

Under its charter, our Compensation Committee has the authority to retain outside counsel or other advisors. Our Compensation Committee oversees the engagement of its independent compensation consultant and any other consultants it engages in addition to or in replacement of its independent consultant. Representatives of our Compensation Committee’s independent compensation consultant meet informally with the chair of our Compensation Committee and, from time to time, with our Compensation Committee during its regular meetings. The independent compensation consultant selected by our Compensation Committee works directly with our Compensation Committee (and not on behalf of management) to assist our Compensation Committee in satisfying its responsibilities and will undertake no projects for management without our Compensation Committee's approval. Based in part on policies and procedures implemented by Board Advisory, LLC to ensure its ability to provide objective third-party advice on executive compensation matters, our Compensation Committee selected that firm to provide advice and ongoing recommendations on executive compensation matters for 2014 and believed that firm was free of conflicts of interest during the period of its engagement. In the second half of 2014, as discussed in the CD&A under the "Role of Compensation Consultant" below, our Compensation Committee retained Deloitte Consulting LLP ("Deloitte Consulting") to provide benchmarking data and review the competitiveness of our executive compensation levels and practices for the named executive officers. In 2014, our Compensation Committee considered Deloitte Consulting's independence as its independent compensation consultant by taking into account the factors prescribed by the NYSE listing rules. Based on this evaluation, the Committee determined that no conflict of interest exists.

Nominating and Corporate Governance Committee

Our Nominating and Corporate Governance Committee is comprised of Mr. Aldrich, who is the chair of the Nominating and Corporate Governance Committee, and Mses. Bridgforth Hodges and Dent. The composition of our Nominating and Corporate Governance Committee meets the requirements for independence under the current NYSE and SEC rules and regulations. Pursuant to its charter, our Nominating and Corporate Governance Committee, among other things:

- identifies, evaluates and recommends nominees to our Board of Directors and its committees;

•oversees the evaluation of the performance of our Board of Directors and its committees and of individual directors;

7

Table of Contents

considers and makes recommendations to our Board of Directors regarding the composition of our Board of Directors and its committees;
reviews our legal compliance policies; and
makes recommendations to our Board of Directors concerning our corporate governance guidelines and other corporate governance matters.

Presiding Director of Non-Employee Director Meetings

The non-employee directors meet in regularly scheduled executive sessions without management to promote open and honest discussion. The Lead Independent Director, currently Mr. Aldrich, is the presiding director at these meetings.

Board and Committee Meetings and Attendance

The Board of Directors and its committees meet throughout the year on a set schedule, and also hold special meetings and act by written consent from time to time. During 2014, the Board of Directors met seven times, including telephonic meetings, the Audit Committee held twelve meetings, the Compensation Committee held five meetings and the Nominating and Corporate Governance Committee held three meetings. During 2014, no director attended fewer than 75% of the aggregate of the total number of meetings held by the Board of Directors and the total number of meetings held by all committees of the Board of Directors on which such director served (during the period which such director served).

Board Attendance at Annual Stockholders' Meeting

Our policy is to invite and encourage each member of our Board of Directors to be present at our annual meetings of stockholders. Excluding directors who were not standing for re-election at the meeting, all of our directors attended our 2014 Annual Meeting of Stockholders.

Communication with Directors

NOMINATIONS PROCESS AND DIRECTOR QUALIFICATIONS

Nomination to the Board of Directors

Candidates for nomination to our Board of Directors are selected by our Board of Directors based on the recommendation of the Nominating and Corporate Governance Committee in accordance with the committee's charter, our certificate of incorporation and bylaws and our corporate governance guidelines. In recommending candidates for nomination, the Nominating and Corporate Governance Committee considers candidates recommended by directors, officers, employees, stockholders and others, using the same criteria to evaluate all candidates.

Evaluations of candidates generally involve a review of background materials, internal discussions and interviews with selected candidates as appropriate and, in addition, the committee may engage consultants or third-party search firms to assist in identifying and evaluating potential nominees.

Additional information regarding the process for properly submitting stockholder nominations for candidates for membership on our Board of Directors is set forth below under "Additional Information - Stockholder Proposals to be Presented at Next Annual Meeting."

Director Qualifications

With the goal of developing an experienced and highly-qualified Board of Directors, the Nominating and Corporate Governance Committee is responsible for developing and recommending to the Board of Directors the desired qualifications, expertise and characteristics of members of our Board of Directors, including the specific minimum qualifications that the committee believes must be met by a committee-recommended nominee for membership on the Board of Directors and any specific qualities or skills that the committee believes are necessary for one or more of the members of the Board of Directors to possess.

Since the identification, evaluation and selection of qualified directors is a complex and subjective process that requires consideration of many intangible factors, and will be significantly influenced by the particular needs of the Board of Directors from time to time, our Board of Directors has not adopted a specific set of minimum qualifications, qualities or skills that are necessary for a nominee to possess, other than those that are necessary to meet U.S. legal, regulatory and NYSE listing requirements and the provisions of our certificate of incorporation, bylaws, corporate governance guidelines and charters of the Board of Directors' committees. In addition, neither the Board of Directors nor the Nominating and Corporate Governance Committee has a formal policy with regard to the consideration of diversity in identifying nominees. When considering nominees, the Nominating and Corporate Governance Committee may take into consideration many factors including, among other things, a candidate's independence, integrity, skills, financial and other expertise, breadth of experience and knowledge about our business or industry and willingness and ability to devote adequate time and effort to responsibilities of the Board of Directors in the context of its existing composition. Through the nomination process, the Nominating and Corporate Governance Committee seeks to promote Board of Directors membership that reflects a diversity of business experience, expertise, viewpoints, personal backgrounds and other characteristics that are expected to contribute to the Board of Directors' overall effectiveness. The brief biographical description of each director set forth in Proposal No. 1 below includes the primary individual experience, qualifications, qualities and skills of each of our directors that led to the conclusion that each director should serve as a member of our Board of Directors at this time.

The director guidelines are established as four times a director's annual cash retainer. Shares that count toward meeting the stock ownership guidelines include shares owned outright, full value awards (e.g., restricted stock and RSUs) and shares owned directly by the director's spouse, dependent children and/or trust. Directors have 5 years from appointment of the board to acquire and hold the pre-determined level of shares.

PROPOSAL NO. 2

RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Our Audit Committee has appointed Ernst & Young LLP as Green Dot's principal independent registered public accounting firm to perform the audit of Green Dot's consolidated financial statements for fiscal year ending December 31, 2015. As a matter of good corporate governance, our Audit Committee has decided to submit its selection of principal independent registered public accounting firm to stockholders for ratification. In the event that this appointment of Ernst & Young LLP is not ratified by our stockholders, the Audit Committee will review its future selection of Ernst & Young LLP as Green Dot's independent registered public accounting firm.

Our Audit Committee first approved Ernst & Young LLP as our independent auditors in 2005, and Ernst & Young LLP audited Green Dot's financial statements for the year ended December 31, 2014. Representatives of Ernst & Young LLP are expected to be present at the meeting, in which case they will be given an opportunity to make a statement at the meeting if they desire to do so, and will be available to respond to appropriate questions.

Principal Accountant Fees and Services

We regularly review the services and fees from the independent registered public accounting firm. These services and fees are also reviewed with our Audit Committee annually. In accordance with standard policy, Ernst & Young LLP periodically rotates the individuals who are responsible for Green Dot's audit.

In addition to performing the audit of Green Dot's consolidated financial statements, Ernst & Young LLP provided various other services during the years ended December 31, 2014 and 2013. Our Audit Committee has determined that Ernst & Young LLP's provisioning of these services, which are described below, does not impair Ernst & Young LLP's independence from Green Dot. The aggregate fees billed for the years ended December 31, 2014 and 2013 for each of the following categories of services are as follows:

Fees Billed to Green Dot	2014	2013
Audit fees ⁽¹⁾	\$1,098,695	\$1,004,665
Audit related fees ⁽²⁾	467,200	30,000
Tax fees ⁽³⁾	472,390	614,557
All other fees	—	—
Total fees	\$2,038,285	\$1,649,222

"Audit fees" include fees for audit services primarily related to the audit of our annual consolidated financial statements; the review of our quarterly consolidated financial statements; consents, and other accounting and financial reporting consultation and research work billed as audit fees or necessary to comply with the standards of the Public Company Accounting Board (United States).

(1) "Audit related fees" include fees for benefit plan audits and due diligence services related to completed or potential acquisitions.

(2) "Tax fees" include fees for tax compliance and advice. Tax advice fees encompass a variety of permissible services, including technical tax advice related to federal and state income tax matters; assistance with sales tax; and assistance with tax audits.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Registered Public Accounting Firm

Our Audit Committee's policy is to pre-approve all services provided by the independent registered public accounting firm. These services may include audit services, audit-related services, tax services and other services. Pre-approval is detailed as to the particular service or category of services and is generally subject to a specific budget. The independent registered public accounting firm and management are required to periodically report to the Audit Committee regarding the extent of services provided by the independent registered public accounting firm in accordance with this pre-approval, and the fees for the services performed to date.

All of the services relating to the fees described in the table above were approved by our Audit Committee.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This Compensation Discussion and Analysis section, or CD&A, is designed to provide our stockholders with an explanation of our executive compensation philosophy and objectives, our 2014 executive compensation program and the compensation paid by the company to the following named executive officers in 2014, referred to throughout this proxy statement as our named executive officers, or NEOs:

Steven W. Streit, Chairman, President and Chief Executive Officer, or CEO;
 Grace T. Wang, Chief Financial Officer;
 Konstantinos Sgoutas, Chief Revenue Officer;
 Lewis B. Goodwin, President and Chief Executive Officer, Green Dot Bank; and
 John C. Ricci, General Counsel and Secretary.

Compensation Philosophy and Objectives

We believe that the compensation programs offered to NEOs should support the achievement of our financial goals and creation of long-term stockholder value. Accordingly, our executive compensation program is designed to:

- attract and retain talented and experienced executives;
- motivate and reward executives whose knowledge, skills and performance are critical to our success;
- link compensation to company and individual performance;
- link cash incentives to our financial performance;
- align the interests of our NEOs with those of our stockholders, by providing our NEOs with long-term incentives; and
- promote an ownership culture.

We have endeavored to create an executive compensation program that provides a mix of short-term and long-term incentives and an appropriate balance between fixed and variable compensation that we believe retains and appropriately motivates our executive officers, including our NEOs. In addition, our Compensation Committee and our Board of Directors strive to keep cash compensation at a competitive level while providing executive officers with equity awards in order to reward them well if our stock price appreciates over time.

Our Compensation Committee considers a variety of factors when setting and evaluating executive officer pay levels, including: tenure, experience, institutional knowledge, retention risk, marketability, replacement cost, leadership skills, and job performance. In addition, the Compensation Committee utilizes competitive market data as a reference point and not as a determinative factor for structuring and determining the amount of compensation to be awarded to our executive officers. The following table presents target total "direct compensation" (i.e., the sum of annual base salary, target annual cash incentive award value and grant date value of long-term equity-based incentive awards) and the value of each pay component for 2014. For more detail regarding our Compensation Committee's decisions, see the narrative under "Executive Compensation Decisions for the 2014 Performance Year" below.

	Base Salary (\$)	Annual Cash Incentives (\$)	Long-Term Equity Incentive Awards (\$)	Total (\$)
Steven W. Streit	666,000	666,000	2,269,982	3,601,982
Grace T. Wang	400,000	300,000	559,998	1,259,998
Konstantinos Sgoutas	440,000	440,000	969,994	1,849,994

From time to time, special business conditions may warrant additional compensation, such as discretionary or sign-on bonuses, housing and travel allowances, to attract, retain or motivate executive officers. Examples of these conditions include the need to recruit or retain individuals with specific or unique talents, such as the hiring of our new Chief Financial Officer in 2013. In these situations, we consider our business needs and the potential costs and benefits of special rewards.

Our Compensation Committee believed that the allocation between salary, cash incentives and long-term incentives reflected above encouraged our NEOs to work toward our company's financial success, drive long-term stockholder value over time and did not promote inappropriate risk taking. Additionally, our NEOs' 2014 target pay mix was aligned with competitive market practices.

The following graphs reflect the mix of target compensation of our CEO and our other NEOs in 2014:

"Say-on-Pay" Results

At our 2011 and 2014 annual meeting of stockholders, we requested stockholders to cast a non-binding advisory vote on the compensation of our NEOs, the so-called "say-on-pay" vote. These proposals passed with approximately 99% and 67% of the votes cast in favor of the say-on-pay proposals presented at the meetings held in 2011 and 2014, respectively. As a result of the 2014 vote results, our Compensation Committee began a comprehensive review of our executive compensation program with the goal of identifying changes to ensure that our incentive compensation remains consistent with Green Dot's compensation philosophy and objectives on executive compensation. While our Compensation Committee did not take any action to change the executive compensation decisions made with respect to prior years and maintained the same general structure for its executive compensation program in 2014, upon the executive compensation review performed by its new compensation consultant, our Compensation Committee changed its peer group as described below and, in recognition of the inherent limitations of peer group data for a company as unique as ours and with much larger competitors, reduced the weight given to peer group benchmarking in connection with its decisions.

Risk Considerations

We believe that the design and objectives of our executive compensation program provide an appropriate balance of incentives for our NEOs, thereby discouraging them from taking inappropriate risks. Among other things, our executive compensation program includes the following design features:

- a balanced mix of cash and equity; as well as appropriately balanced fixed (base salary) and variable compensation (cash incentives and equity-based awards);
- a mix of short-term and long-term incentives, with short-term incentives currently representing a significantly lower proportion of the total mix;

Table of Contents

• cash incentives solely based on achieving company performance objectives of adjusted EBITDA and annual revenue and subject to our “clawback” right under certain circumstances;

• maximum award limits for annual cash incentives; and

• alignment with the competitive practices reflected in the most relevant labor-market in which Green Dot competes.

Our Compensation Committee has assessed our compensation philosophy and objectives and forms of compensation and benefits for all employees, including executives, and has concluded that our compensation policies and practices do not create risks that are reasonably likely to have a material adverse effect on our company.

Compensation Committee Decision Process

Our Compensation Committee oversees the compensation of our NEOs and our executive compensation programs and initiatives. Our Compensation Committee typically reviews executive officer compensation (including base salary, short-term incentives and long-term incentives), in the second half of each fiscal year, in order to understand competitive market compensation levels and practices based on the most recently completed year. In connection with this review, our Compensation Committee considers any input it may receive from our CEO in evaluating the performance of each executive officer and sets each executive officer's total target direct compensation for the current year based on this review and the other factors described below. We pay cash incentive awards under our incentive bonus plan, which is designed to compensate our NEOs for their contribution to achieving financial goals contained in our company financial plan, as explained in further detail below. Authority to make equity award grants to our NEOs currently rests with our Compensation Committee.

We have based most, if not all, of our prior compensation determinations, including those made for 2014, on a variety of factors, including our performance, our financial condition and available resources, individual performance, our need for a particular position to be filled and the recommendations of our CEO (other than with respect to his own compensation). As discussed under “Role of Compensation Consultant” below, for 2014, the Compensation Committee engaged a compensation consultant and once again conducted a formal benchmarking review. In establishing compensation for executive officers other than our CEO, our Compensation Committee gives weight to the recommendations of our CEO, but final decisions about the compensation of our NEOs are typically made solely by our Compensation Committee.

Role of Compensation Consultant

The Compensation Committee generally retains an independent compensation consultant to help understand competitive compensation levels and incentive designs. The independent compensation consultant is solely hired by, and reports directly to the Compensation Committee. The Committee has sole authority to retain and terminate the independent compensation consultant. At the Committee's discretion, the independent compensation consultant:

• attends Committee meetings;

• assists the Committee in determining peer companies and evaluating compensation proposals;

• assists with the design of incentive compensation programs; and

• conducts compensation-related research.

In the first half of 2014, Board Advisory, LLC served as our Compensation Committee's independent compensation consultant, advising solely on the proposal to amend our 2010 Equity Incentive Plan at last year's annual meeting before our Compensation Committee retained a new consultant. In the second half of 2014, our Compensation Committee retained Deloitte Consulting, to help in the selection of an appropriate peer group for executive compensation benchmarking purposes, review the company's executive compensation programs and provide the Committee an understanding in executive compensation trends.

Based on input from Deloitte Consulting, and after taking into consideration what is appropriate for our company, stockholders and management team, our Compensation Committee adjusted our primary peer group for 2014 to include companies that are more similar to us in terms of projected revenues. For 2014, the primary peer group used to inform our Compensation Committee of pay levels and practices most relevant for the labor market in which Green Dot competes included:

Blackhawk Network Holdings, Inc.	EZCORP, Inc.	Regional Management Corp.
Cardtronics, Inc.	Global Cash Access Holdings, Inc.	WEX, Inc.
Cash America International, Inc.	Heartland Payment Systems, Inc.	World Acceptance Corp.
Cass Information Systems, Inc.	Jack Henry & Associates, Inc.	
Euronet Worldwide, Inc.	MoneyGram International, Inc.	

Our Compensation Committee also created an expanded secondary peer group to monitor for pay practice insights and trends, but not for purposes of benchmarking compensation levels. The expanded secondary peer group consists of the thirteen companies above, as well as three larger companies in the U.S. payment processor industry: Western Union, Global Payments and Total System Services.

Deloitte Consulting conducted a compensation benchmarking study to assist the Compensation Committee with understanding competitive pay levels and design practices. While the Compensation Committee considers market data when determining the competitiveness of the executive compensation program, as discussed above, and generally evaluates competitiveness with reference to the 50th percentile of total direct compensation paid to comparable executives within the primary peer group, it uses the findings as a reference point and does not target individual pay elements at a specific percentile.

Elements of Compensation

The key components of our current compensation program for our NEOs are summarized in the table below. The Compensation Committee considers each compensation component individually and all compensation components in the aggregate when making decisions regarding amounts that may be awarded under each other compensation component.

Compensation Element	Form of Compensation	Purpose
Base Salary	Cash	Provide fixed compensation to attract and retain key executives and to offset external factors that may impact incentive pay.
Annual Cash Incentive	Cash	To encourage participants to achieve performance goals and be rewarded commensurately.
Long-term Incentive	Restricted stock units ("RSUs")	To link award value to long-term growth and to align management's interest with those of our stockholders.

Executive Compensation Decisions for the 2014 Performance Year

Base Salary. We seek to provide our NEOs with a base salary that is appropriate for his or her roles and responsibilities, and that provides him or her with a level of income stability. Our Compensation Committee reviews the base salaries of our NEOs annually, with significant input from our CEO, to determine whether any adjustment is warranted. In considering a base salary adjustment, our Compensation Committee considers our company's overall performance and the NEO's performance, individual contribution, changes in responsibilities and prior experience. Our Compensation Committee may also take into account the NEO's current salary and equity ownership and the amounts paid to other NEOs of our company.

The annual base salaries of Messrs. Streit, Sgoutas, Goodwin and Ricci were increased to \$666,000 (an increase of 20%), \$440,000 (an increase of 17.33%), \$360,000 (an increase of 20%) and \$370,800 (an increase of 3%), respectively, effective September 29, 2014. These increases reflected our Compensation Committee's desire to retain these NEOs by providing more competitive compensation and to reward them for their individual contributions. Ms. Wang's annual base salary was not increased based on our Compensation Committee's assessment that, as a recent hire, her salary was market competitive.

The actual base salaries paid to our NEOs in 2014 are set forth in the "Summary Compensation Table" below.

Annual Cash Incentive Awards. We utilize cash bonuses to incentivize our NEOs to achieve company performance goals on an annual basis and to reward extraordinary accomplishments. We establish bonus targets for cash incentive awards annually, following the end of the year, and we pay bonuses following the end of the performance period (i.e., 2014). Each NEO's target bonus amount is a pre-determined amount that is intended to provide a competitive level of compensation if the executive officer achieves performance goals that are established in the beginning of the performance year. Performance goals consist of two company financial objectives. In general, we use company

performance goals to ensure that our executive compensation program aligns the interests of each of our NEOs with those of our stockholders. Additionally, our annual cash incentive awards are intended to compensate our NEOs for

Table of Contents

their contribution to achieving financial goals for the performance period contained in our company financial plan. We determine the actual bonus award for each of our NEOs according to the level of achievement of company performance objectives. For more information about our cash incentive awards, see “2014 Executive Officer Incentive Bonus Plan”.

Our Compensation Committee may grant discretionary cash bonuses at any time during the year to reward a NEO who accomplishes pre-established extraordinary or nonrecurring business objectives on behalf of our company. In 2014, the company did not grant any discretionary bonuses to the NEOs.

2014 Executive Officer Incentive Bonus Plan. Our Compensation Committee evaluated target bonus amounts with reference to the 2014 peer group, using its subjective judgment to determine the amount of bonus sufficient to continue to align the interests of each NEO with those of our stockholders while providing incentives to maximize their efforts throughout the year. For 2014, our Compensation Committee set individual target bonus amounts for the NEOs ranging from 50% to 100% of their respective base salaries. Our NEOs who are responsible for revenue generation-related functions had targets set at a higher level than the other NEOs, reflecting our compensation philosophy to link compensation to company performance where doing so would have the greatest impact on revenue generation. The target bonus amounts for our NEOs for 2014 were as follows: Mr. Streit -- \$666,000; Ms. Wang -- \$300,000; Mr. Sgoutas -- \$440,000; Mr. Goodwin -- \$252,000 and Mr. Ricci -- \$185,400.

For 2014, our Compensation Committee maintained the same incentive bonus plan structure it used in 2013. The 2014 Executive Officer Incentive Bonus Plan provides for annual payments based on two company performance measures, with a threshold level of performance to be achieved in order to receive a minimum payout (for threshold performance) and an opportunity to earn up to 150% of the target bonus amount (for superior performance). Our Compensation Committee believed this plan to be consistent with prevailing market practices among companies within our peer group and with our compensation philosophy and objectives. As explained below, the actual payout amount to each NEO is determined by multiplying the target bonus payment by a “multiplier” (which could be more or less than 100% but cannot exceed 150%) that will vary depending on the percentage of achievement for the two company performance objectives.

Our Board of Directors approves a financial plan for our company for each fiscal year and, in practice, that action resets the financial performance goals used in the Executive Officer Incentive Bonus Plan for that year. For 2014, our NEOs were eligible to earn bonuses based upon attainment of the annual goals contained in our company financial plan for:

Adjusted EBITDA, which is calculated as earnings before interest, taxes, depreciation and amortization, employee stock-based compensation expense, stock-based retailer incentive compensation expense and other non-recurring items, reflected in our consolidated statements of operations; and

annual revenue, which is calculated by adding the amount of stock-based retailer incentive compensation to the amount of total operating revenues reflected in our consolidated statements of operations.

Adjusted EBITDA and annual revenue were chosen as corporate objectives under the plan because we believed them to be the best indicators of financial success and stockholder value creation for our company. Our Compensation Committee also selected these measures because improvement in these measures aligns with our overall growth strategy, we and our investors see these measures as among the most critical of our financial information, and these measures balance growth and profitability. We also believe that the focus on adjusted EBITDA as the corporate objective discourages inappropriate risk taking by our executives as it encourages them to take a balanced approach that focuses on corporate profitability.

We believe that, to provide for an appropriate incentive effect, the performance goals should be such that to achieve 100% of the objective, performance for the performance period must be aligned by our company financial plan and that our NEOs should not be awarded for performance that did not approximate our company financial plan.

Accordingly, our cash incentive compensation plan was designed to pay our NEOs nothing if our company failed to achieve at least 90% of both company performance objectives. The fact that this threshold level was not achieved once in the three years ending December 31, 2014 -- resulting in no amounts being paid to participants under the plan -- reflects the general degree of difficulty our Compensation Committee seeks to establish when setting performance goals under the Executive Officer Incentive Bonus Plan.

For 2014, the adjusted EBITDA and annual revenue targets under the plan were \$118.0 million (18.5% year-over-year growth) and \$650.0 million (22.6% year-over-year growth), respectively. Actual adjusted EBITDA and annual revenue results, in each case as adjusted for the items below, were \$130.6 million (31.0% year-over-year growth) and \$590.8 million (1.5% year-over-year growth), respectively. We determined that the “multiplier” was 91% (111% achievement of adjusted EBITDA target and 91% achievement of annual revenue target) for 2014. Accordingly, 91% of the target bonus amounts were paid to our NEOs per the bonus plan formula. Our Compensation Committee

Table of Contents

evaluated this outcome and, taking into account its philosophy of linking payment to company performance, determined not to exercise its negative discretion and awarded the NEOs in accordance with the formula.

2014 Performance Component	Threshold (\$M)	Target (\$M)	Maximum (\$M)	Actual (\$M)	Actual as a % of Target	Bonus Payout Multiplier (%)
Adjusted EBITDA	\$106.2	\$118.0	\$141.6	\$130.6	111%	91%
Annual Revenue	\$585.0	\$650.0	\$780.0	\$590.8	91%	

The actual cash incentive awards paid to our NEOs in 2014 are set forth in the "Summary Compensation Table" below under the column captioned "Non-Equity Incentive Plan Compensation."

Long-Term Equity-Based Awards. We utilize equity awards to ensure that our NEOs have a continuing stake in our long-term success. Historically, we used two forms of equity for long-term equity incentive compensation: stock options and restricted stock units ("RSUs"). However, our Compensation Committee awarded no stock options in 2014 due to the volatility in our stock price and its desire to manage our "burn rate," as discussed below. The switch to RSU only grants was made to closely align the executive compensation program with long-term incentive grant practices across the peer group and the broader market, and also served as a response to the volatility in our stock price - as described below. RSUs represent the right to receive one share of Class A common stock for each RSU that vests upon the settlement date, which is the date on which certain conditions, such as continued employment with us for a pre-determined length of time, are satisfied. Our Compensation Committee believes that RSUs align the interests of the NEOs with the interests of the stockholders because the value of these awards appreciate if the trading price of our common stock appreciates.

Equity awards improve our ability to attract executives by providing a total compensation package that is competitive with market practices, while also serving as a retention tool due to their multi-year vesting requirements. We grant equity awards to NEOs on an annual basis. Outside of the annual grant cycle, we typically make grants in connection with hiring, promotions, significant changes in responsibilities, extraordinary performance, or to achieve internal equity. Our Compensation Committee takes into account, on a subjective basis, various factors in connection with making its determination. These factors include the responsibilities, past performance and anticipated future contributions of the NEO, the competitiveness of the NEO's overall compensation package with reference to peer group practices, the NEO's existing equity holdings, the extent to which these holdings are vested and the recommendations of our CEO (other than with respect to his own compensation). Beginning in 2012, our Compensation Committee began taking into account "burn rate" in relation to our industry "burn rate cap", per Institutional Shareholder Services ("ISS") methodology, as an additional factor in making its determinations with respect to long-term equity awards. In 2014, after taking into account the long-term incentive and total direct compensation reference levels of the primary peer group as well as our CEO's recommendations (other than with respect to his own compensation), our Compensation Committee used its judgment to determine the value of equity awards that it believed would provide those NEOs sufficient incentive to help us achieve our long-term growth objectives and likely meet our near-term retention objectives in light of the contributions of those executive officers in 2014.

Following completion of the annual review cycle in the second half of 2014 and in consideration of the factors mentioned above for each NEO, our Compensation Committee determined to grant annual equity awards to each of our NEOs in October 2014, all in the form of RSUs. The award values were based on the grant date fair value of the shares of common stock underlying the RSUs, computed in accordance with FASB ASC Topic 718. A summary of the equity awards to NEOs is set forth below, as well as in the "Grants of Plan-Based Awards - 2014" table, which provides additional information, including grant date fair values for each award.

For all of 2014, our Compensation Committee awarded RSUs representing a total of 109,608, 46,837, 32,834, 27,040 and 27,040 shares of our Class A common stock to Messrs. Streit, Sgoutas, Goodwin, Ricci and Ms. Wang, respectively. The RSU awards were made under our 2010 Equity Incentive Plan. The vesting schedule for RSUs granted to our named executive officers in 2014 provided that each award vests in four equal annual installments. Severance and Change in Control Agreements

In connection with our initial public offering in 2010, we entered into severance arrangements with our then-current named executive officers. These arrangements included severance pay and accelerated vesting of equity awards. These arrangements were designed to promote retention of our senior executive team. As our organization has matured and there have been transitions in management, we have not offered these arrangements to newly-hired NEOs. As a result, for 2014, only the CEO and General Counsel continued to have these arrangements. Details of each of our

Table of Contents

NEO's severance arrangements, including estimates of amounts payable in specified circumstances, are disclosed under "Severance and Change of Control Agreements" below. The value of our severance arrangements for our NEOs was not a material factor in our Compensation Committee's or our Board of Directors' determination of the level of any other element of their compensation. In 2015, upon our Compensation Committee's recommendation, the Board of Directors approved and adopted a policy applicable to all employees that provides for "double trigger" acceleration of vesting of equity awards in connection with a change in control of our company.

Other Executive Benefits and Perquisites

In 2014, we did not provide perquisites to our executives that are not available to other employees. During 2014, we provided the following benefits to our NEOs on the same basis as our other eligible employees:

- health insurance;
- vacation, personal holidays and sick days;
- life insurance and supplemental life insurance;
- short-term and long-term disability insurance; and
- a 401(k) retirement plan.

We believe these benefits are generally consistent with those offered by other companies and specifically with those companies with which we compete for employees.

Other Compensation Practices and Policies

Tax Considerations. Section 162(m) of the Internal Revenue Code of 1986, as amended disallows a tax deduction by any publicly-held corporation for individual compensation exceeding \$1.0 million in any taxable year for its chief executive officer and each of the other named executive officer (other than its chief financial officer), unless compensation is performance-based. Prior to the time we became a publicly-held company, our Board of Directors had not taken the deductibility limit imposed by Section 162(m) into consideration in setting compensation. Our 2010 Equity Incentive Plan is structured so that performance-based equity compensation deemed paid to covered officers in connection with the exercise of stock option grants made under the plan will qualify as performance-based compensation that will not be subject to the \$1.0 million limitation. Although our Compensation Committee generally seeks to structure compensation payable to covered officers to meet the deductibility requirements under Section 162(m), in order to maintain flexibility in compensating NEOs in a manner designed to promote varying corporate goals, our Compensation Committee has not adopted a policy that all compensation payable to covered officers must be deductible on our federal income tax returns. In addition, our Compensation Committee cannot ensure that compensation intended to qualify for deductibility under Section 162(m) will in fact be deductible because a number of requirements must be satisfied in order for the compensation to qualify, and uncertainties as to the application and interpretation surrounding this section currently exist.

Stock Ownership Guidelines. After consultation with Deloitte Consulting, the Compensation Committee recommended and the Board of Directors approved and adopted, stock ownership guidelines for its NEOs beginning in 2015. This decision was made in order to promote stock ownership in the company and to more closely align the interest of our NEOs with those of our stockholders. Guidelines are determined as a multiple of each executive's base salary -- five times base salary for the CEO and two times base salary for all other NEOs. Shares that count toward meeting the stock ownership guidelines include shares owned outright, full value awards (e.g., restricted stock and RSUs) and shares owned directly by the executive's spouse, dependent children and/or trust. NEOs have five years from their designation as a NEO to acquire and hold the pre-determined level of shares. All NEOs are currently in compliance with these guidelines.

Anti-Hedging and Anti-Pledging. In its commitment to promoting high standards of ethical business conduct and compliance with applicable laws, rules and regulations, the company has adopted a policy that prohibits insider trading. Under this policy, no employee, officer or director may acquire, sell or trade in any interest or position relating to the future price of the company's securities, such as a put option, a call option or a short sale. In addition, covered persons are prohibited from holding company securities in a margin account or pledging company securities as collateral for a loan.

Policy Regarding the Timing of Equity Awards. We do not time the granting of equity awards to take advantage of the release of material nonpublic information. Beginning in 2015, we intend to commence a practice of generally granting

annual equity awards to all employees on the same date. Historically, we have granted equity awards on the first trading day of each month.

Policy Regarding Restatements. We do not have a formal policy regarding adjustment or recovery of awards or payments if the relevant performance measures upon which they are based are restated or otherwise adjusted in a manner that would reduce the size of the award or payment, although our Executive Officer Incentive Bonus Plan provides for a "clawback" right in the event that (i) achievement of the EBITDA and annual revenue metrics under the plan is based on financial results that were subsequently the subject of a substantial restatement of our financial statements and (ii) a participant's fraud or intentional illegal conduct materially contributed to such financial restatement. In the event of a restatement or other adjustment other than under our Executive Officer Incentive Bonus Plan, our Board of Directors or our Compensation Committee would evaluate whether adjustments or recoveries of awards were appropriate based upon the facts and circumstances surrounding the restatement or adjustment.

2015 Compensation Decisions

The decisions made for the compensation program in 2015 were approved by the Compensation Committee and are described in the table below.

Compensation Element	Decision for 2015
Base Salary	<p>No changes.</p> <ul style="list-style-type: none"> • Our Compensation Committee believes that our NEOs' annual base salaries are currently competitive and do not need to be adjusted.
Annual Cash Incentive	<p>No changes.</p> <ul style="list-style-type: none"> • Our Compensation Committee has maintained the same incentive bonus plan structure it used in 2014.
Long-term Incentive	<p>Performance-based restricted stock units ("PSUs") were granted to Messrs. Streit and Sgoutas on March 31, 2015.</p> <ul style="list-style-type: none"> • PSUs are subject to vesting and adjustment over a three-year period based on the achievement of specified performance metrics. <ul style="list-style-type: none"> The performance metric for Mr. Streit is our company's total shareholder return ranking as compared to the S&P SmallCap 600 for the period from January 1, 2015 to December 31, 2017. The performance metric for Mr. Sgoutas is year-over-year growth in non-GAAP total operating revenue, excluding revenue generated from acquisitions made in the most recent year, for the 2015 to 2017 period. • Assuming 100% achievement of the applicable performance metrics, Mr. Streit would earn 142,587 shares and Mr. Sgoutas would earn 100,000 shares. Mr. Streit has the opportunity to earn 150% of his target award for superior performance. <p>The remaining NEOs will be granted time-based equity awards at the same time that awards are made to the rest of our employees.</p> <ul style="list-style-type: none"> • Our Compensation Committee believes the combination of PSUs and time-based equity awards across all the NEOs represents the appropriate balance between performance, risk and retention.

(1) Represents possible cash incentive awards under our 2014 Executive Officer Incentive Bonus Plan upon our achievement of adjusted EBITDA and annual revenue goals. Actual awards are equal to the executive officers' target bonus multiplied by a percentage (which may be more or less than 100% but shall not exceed 150%) that varies depending upon achievement of the corporate objectives (i.e., adjusted EBITDA and annual revenue). Each of the corporate objectives is given equal weight, except that no bonus is payable if both corporate objectives are not achieved at a level of at least 90%. Under the terms of the plan, the actual award could range from 50% of the NEOs' target bonus amounts if both corporate objectives are achieved at the 90% level, to 150% of those amounts if both corporate objectives are achieved at the 120% level, with the potential for an incrementally larger or smaller actual award within the range based on higher or lower levels of achievement, respectively. Bonuses are payable at the end of the annual performance period.

(2) Represents awards of RSUs. The shares underlying these awards vest in four equal annual installments on the anniversary of the grant date. All awards were granted under our 2010 Equity Incentive Plan.

(3) For additional detail on the grant date fair value of stock awards, see footnotes 2 and 3 to the "Summary Compensation Table" above.
