If answer is no, identify report(s).

Yes  No

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes  No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

We anticipate that our revenues from operations during the year ended December 31, 2011, will be \$156,189, compared with \$156,761 in revenues from operations during the year ended December 31, 2010. Of these amounts, \$115,500 and \$7,500, respectively, are comprised of the recognition of deferred revenue related to a license transaction, and \$40,689 and \$149,261, respectively, relate to product revenue. We anticipate that our cost of goods sold during the year ended December 31, 2011 will be \$44,756 (110% of product revenues), compared with \$125,484

(84% of product revenue) in cost of goods sold during the year ended December 31, 2010. We anticipate that our Selling, General and Administrative expenses will be \$3,165,201 for the year ended December 31, 2011, compared to \$4,119,728 for the year ended December 31, 2010, an decrease of \$954,527 related primarily to a decrease in non-cash expenses.

---

With the evolution of the relationship with our master distribution partner Horn (formerly the E.T. Horn Company) such that Horn is purchasing product from us and stocking inventory that we may draw on to make sales to our other customers, in 2011 we began categorizing product sales to Horn as “deferred revenue” on our Balance Sheet. Once sales are made to other distributors, retailers, or consumers, by either Horn, or us, such amounts are included as product revenue on our Income Statement. The decrease of product revenue in 2011 as compared with 2010 is related in part to this change, and in part to the focus of our efforts on product development and sales and licensing in other areas.

We anticipate that interest expense will decrease to \$793,862 for the year ended December 31, 2011, compared to \$1,667,555 for the year ended December 31, 2010. The decrease is due in part to the full payment of outstanding convertible notes issued in three prior securities offerings. The decrease is also due to less amortization expense related to the fair value of the warrants issued in connection with our convertible debt.

We anticipate that our net loss for the year ended December 31, 2011 will be \$3,954,389, compared to a net loss for the year ended December 31, 2010 of \$5,742,341. The decrease in net loss for the year ended December 31, 2011 is primarily attributable to the reduction in Selling, General and Administrative expenses, and the reduction of interest expense.

Our total cash and cash equivalents was \$128,498 at December 31, 2011, and we generated revenues of \$156,189 in the year ended December 31, 2011, which amount was not sufficient to fund our operations. During the year ended December 31, 2011, we received gross proceeds of \$1,443,493 pursuant to our private securities offerings. Since December 31, 2011, we have received gross proceeds of \$464,500 in our private securities offering. We incurred negative cash flow from operating activities of \$1,716,324 for the year ended December 31, 2011, and had negative working capital of \$1,935,767 as of December 31, 2011. We did not have enough cash or source of capital to pay our accounts payable and expenses as they arose during 2011, and relied on the issuance of stock options and common stock, as well as extended payment terms with our vendors, to continue to operate.
