## SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q
(Mark One)

X Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the period ended December 24, 2016
or

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

Commission File Number: 0-14616

J \& J SNACK FOODS CORP.
(Exact name of registrant as specified in its charter)
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification No.)

6000 Central Highway, Pennsauken, NJ 08109
(Address of principal executive offices)

Telephone (856) 665-9533

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or $15(\mathrm{~d})$ of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

X YesNo

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T
( $\$ 232.405$ of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

X YesNo

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," "non-accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large Accelerated filer (X)
Accelerated filer ( )

Non-accelerated filer ( )
Smaller reporting company ( )
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule $12 \mathrm{~b}-2$ of the Exchange Act).
YesX No

As of January 19, 2017, there were 18,709,265 shares of the Registrant's Common Stock outstanding.

Edgar Filing: J\&J SNACK FOODS CORP - Form 10-Q

## J \& J SNACK FOODS CORP. AND SUBSIDIARIES

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

The accompanying unaudited Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. They do not include all information and notes required by generally accepted accounting principles for complete financial statements. However, except as disclosed herein, there has been no material change in the information disclosed in the Notes to Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended September 24, 2016.

In the opinion of management, the accompanying unaudited consolidated financial statements contain all adjustments (consisting of only normal recurring adjustments) necessary to present fairly the financial

Note 1 position and the results of operations and cash flows.

The results of operations for the three months ended December 24, 2016 and December 26, 2015 are not necessarily indicative of results for the full year. Sales of our frozen beverages and frozen juice bars and ices are generally higher in the third and fourth quarters due to warmer weather.

While we believe that the disclosures presented are adequate to make the information not misleading, it is suggested that these consolidated financial statements be read in conjunction with the consolidated financial statements and the notes included in the Company's Annual Report on Form 10-K for the fiscal year ended September 24, 2016.

We recognize revenue from our products when the products are shipped to our customers. Repair and maintenance equipment service revenue is recorded when it is performed provided the customer terms are that the customer is to be charged on a time and material basis or on a straight-line basis over the term of the contract when the customer has signed a service contract. Revenue is recognized only where persuasive evidence of an Note arrangement exists, our price is fixed or estimable and collectability is reasonably assured. We record offsets to 2 revenue for allowances, end-user pricing adjustments, trade spending, coupon redemption costs and returned product. Customers generally do not have the right to return product unless it is damaged or defective. We provide an allowance for doubtful receivables after taking into consideration historical experience and other factors. The allowance for doubtful receivables was $\$ 585,000$ and $\$ 571,000$ at December 24, 2016 and September 24, 2016, respectively.

Edgar Filing: J\&J SNACK FOODS CORP - Form 10-Q

Depreciation of equipment and buildings is provided for by the straight-line method over the assets' estimated useful lives. Amortization of improvements is provided for by the straight-line method over the term of the lease Note or the assets' estimated useful lives, whichever is shorter. Licenses and rights, customer relationships and 3 non-compete agreements arising from acquisitions are amortized by the straight-line method over periods ranging from 3 to 20 years. Depreciation expense was $\$ 8,728,000$ and $\$ 8,170,000$ for the three months ended December 24, 2016 and December 26, 2015, respectively.

Basic earnings per common share (EPS) excludes dilution and is computed by dividing income available to Note common shareholders by the weighted average common shares outstanding during the period. Diluted EPS takes 4 into consideration the potential dilution that could occur if securities (stock options) or other contracts to issue common stock were exercised and converted into common stock. Our calculation of EPS is as follows:

|  | Three Months Ended December 26, 2015 |  |  |
| :---: | :---: | :---: | :---: |
|  | Income <br> (Numera | Shares <br> o(IDenominator) | Per <br> Share <br> Amount |
|  | (in thousands, except per share amounts) |  |  |
| Basic EPS |  |  |  |
| Net Earnings available to common stockholders | \$ 12,978 | 18,687 | \$ 0.69 |
| Effect of Dilutive Securities |  |  |  |
| Options | - | 152 | - |
| Diluted EPS |  |  |  |
| Net Earnings available to common stockholders plus assumed conversions | \$ 12,978 | 18,839 | \$ 0.69 |

Note At December 24, 2016, the Company has three stock-based employee compensation plans. Share-based 5 compensation was recognized as follows:

|  | Three months ended DecembBrecember 24, 26, 20162015 (in thousands, except per share amounts) |
| :---: | :---: |
| Stock Options | \$ 211 ) \$ (249 |
| Stock purchase plan | 17492 |
| Restricted stock issued to an employee | 1 |
| Total share-based compensation | \$(36) \$ (156 |
| The above compensation is net of tax benefits | \$783 \$ 674 |

The fair value of each option grant is estimated on the date of grant using the Black-Scholes options-pricing model with the following weighted average assumptions used for grants in fiscal 2017 first three months: expected volatility of $15.8 \%$; risk-free interest rate of $1.1 \%$; dividend rate of $1.3 \%$ and expected lives of 5 years.

During the 2017 three month period, the Company granted 300 stock options at a weighted-average grant date fair value of $\$ 15.15$.

The Company did not grant any stock options during the 2016 three month period.

Expected volatility is based on the historical volatility of the price of our common shares over the past 51 months for 5 year options and 10 years for 10 year options. We use historical information to estimate expected life and forfeitures within the valuation model. The expected term of awards represents the period of time that options granted are expected to be outstanding. The risk-free rate for periods within the expected life of the option is based on the U.S. Treasury yield curve in effect at the time of grant. Compensation cost is recognized using a straight-line method over the vesting or service period and is net of estimated forfeitures.

We account for our income taxes under the liability method. Under the liability method, deferred tax assets and Note liabilities are determined based on the difference between the financial statement and tax bases of assets and 6 liabilities as measured by the enacted tax rates that will be in effect when these differences reverse. Deferred tax expense is the result of changes in deferred tax assets and liabilities.

Additionally, we recognize a liability for income taxes and associated penalties and interest for tax positions taken or expected to be taken in a tax return which are more likely than not to be overturned by taxing authorities ("uncertain tax positions"). We have not recognized a tax benefit in our financial statements for these uncertain tax positions.

The total amount of gross unrecognized tax benefits is $\$ 359,000$ and $\$ 354,000$ on December 24, 2016 and September 24, 2016, respectively, all of which would impact our effective tax rate over time, if recognized. We recognize interest and penalties related to income tax matters as a part of the provision for income taxes. As of December 24, 2016 and September 24, 2016, respectively, the Company has $\$ 224,000$ and $\$ 219,000$ of accrued interest and penalties.

In addition to our federal tax return and tax returns for Mexico and Canada, we file tax returns in all states that have a corporate income tax with virtually all open for examination for three to four years.

In May 2014, the FASB issued guidance on revenue recognition which says that we should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration which we expect to be entitled in exchange for those goods or services. This guidance is effective for our fiscal year ending September 2019. Early application is permitted. Our analysis indicates that the impact of this guidance on our consolidated financial statements will not be material.

In January 2016, the FASB issued guidance which requires an entity to measure equity investments at fair value with changes in fair value recognized in net income, to use the price that would be received by a seller when measuring the fair value of financial instruments for disclosure purposes, and which eliminates the requirement Note to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be 7 disclosed for financial instruments measured at amortized cost on the balance sheet. Under present guidance, changes in fair value of equity investments are recognized in Stockholders' Equity. This guidance is effective for our fiscal year ended September 2019. Early adoption is not permitted. We anticipate that the adoption of this guidance on our consolidated financial statements will not be material.

In February 2016, the FASB issued guidance on lease accounting which requires that an entity recognize most leases on its balance sheet. The guidance retains a dual lease accounting model for purposes of income statement recognition, continuing the distinction between what are currently known as "capital" and "operating" leases for lessees. This guidance is effective for our fiscal year ended September 2020. We anticipate that the impact of this guidance on our financial statements will be material.

Note 8 Inventories consist of the following:

We principally sell our products to the food service and retail supermarket industries. Sales and results of our frozen beverages business are monitored separately from the balance of our food service business because of different distribution and capital requirements. We maintain separate and discrete financial information for the three operating segments mentioned above which is available to our Chief Operating Decision Makers.
Note
9
Our three reportable segments are Food Service, Retail Supermarkets and Frozen Beverages. All inter-segment net sales and expenses have been eliminated in computing net sales and operating income (loss). These segments are described below.

The primary products sold by the food service group are soft pretzels, frozen juice treats and desserts, churros, dough enrobed handheld products and baked goods. Our customers in the food service industry include snack bars and food stands in chain, department and discount stores; malls and shopping centers; fast food outlets; stadiums and sports arenas; leisure and theme parks; convenience stores; movie theatres; warehouse club stores; schools, colleges and other institutions. Within the food service industry, our products are purchased by the consumer primarily for consumption at the point-of-sale.

## Retail Supermarkets

The primary products sold to the retail supermarket channel are soft pretzel products - including SUPERPRETZEL, frozen juice treats and desserts including LUIGI'S Real Italian Ice, MINUTE MAID Juice Bars and Soft Frozen Lemonade, WHOLE FRUIT frozen fruit bars and sorbet, PHILLY SWIRL cups and sticks, ICEE Squeeze-Up Tubes and dough enrobed handheld products including PATIO burritos. Within the retail supermarket channel, our frozen and prepackaged products are purchased by the consumer for consumption at home.

## Frozen Beverages

We sell frozen beverages and related products to the food service industry primarily under the names ICEE, SLUSH PUPPIE and PARROT ICE in the United States, Mexico and Canada. We also provide repair and maintenance service to customers for customers' owned equipment.

The Chief Operating Decision Maker for Food Service and Retail Supermarkets and the Chief Operating Decision Maker for Frozen Beverages monthly review detailed operating income statements and sales reports in order to assess performance and allocate resources to each individual segment. In addition, the Chief Operating Decision Makers review and evaluate depreciation, capital spending and assets of each segment on a quarterly basis to monitor cash flow and asset needs of each segment. Information regarding the operations in these three reportable segments is as follows:

|  | Three months ended <br> December <br> December |  |

Edgar Filing: J\&J SNACK FOODS CORP - Form 10-Q

Amortized intangible assets are being amortized by the straight-line method over periods ranging from 3 to 20 years and amortization expense is reflected throughout operating expenses. There were no intangible assets acquired in the three months ended December 24, 2016. Aggregate amortization expense of intangible assets for the three months ended December 24, 2016 and December 26, 2015 was $\$ 1,108,000$ and $\$ 1,329,000$ respectively.

Estimated amortization expense including the estimated impact from the Hill \& Valley purchase described in Note 13 for the next five fiscal years is approximately $\$ 3,700,000$ in $2017, \$ 3,300,000$ in $2018, \$ 3,200,000$ in 2019, $\$ 2,900,000$ in 2020 and $\$ 2,500,000$ in 2021 . The weighted average amortization period of the intangible assets is 10.6 years.

Goodwill

The carrying amounts of goodwill for the Food Service, Retail Supermarket and Frozen Beverage segments are as follows:

| Total | Food |  |  | Retail |
| :--- | :--- | :--- | :--- | :--- |
|  | Frozen |  |  |  |
| Balance at December 24, 2016 | (in thousands) | Severages |  |  |
| B46,832 | $\$ 3,670$ | $\$ 35,940$ | $\$ 86,442$ |  |
| Balance at September 24, 2016 | $\$ 46,832$ | $\$ 3,670$ | $\$ 35,940$ | $\$ 86,442$ |

There was no goodwill acquired in the three months ended December 24, 2016.

We have classified our investment securities as marketable securities held to maturity and available for sale. The FASB defines fair value as the price that would be received from selling an asset or paid to transfer a liability in Note an orderly transaction between market participants. As such, fair value is a market-based measurement that 11 should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, the FASB has established three levels of inputs that may be used to measure fair value:

Level 1 Observable input such as quoted prices in active markets for identical assets or liabilities;

Level 2 Observable inputs, other than Level 1 inputs in active markets, that are observable either directly or indirectly;

Level 3 Unobservable inputs for which there is little or no market data, which require the reporting entity to develop its

Marketable securities held to maturity and available for sale consist primarily of investments in mutual funds, preferred stock and corporate bonds. The fair values of mutual funds are based on quoted market prices in active markets and are classified within Level 1 of the fair value hierarchy. The fair values of preferred stock and corporate bonds are based on quoted prices for identical or similar instruments in markets that are not active. As a result, preferred stock and corporate bonds are classified within Level 2 of the fair value hierarchy.

The amortized cost, unrealized gains and losses, and fair market values of our investment securities held to maturity at December 24, 2016 are summarized as follows:

|  | Gross | Gross | Fair |
| :---: | :---: | :---: | :---: |
| Amortized | Unrealized | Unrealized | Market |

| 16,791 | 115 | 147 | 16,759 |
| $\$ 29,794$ | $\$ 115$ | $\$ 547$ | $\$ 29,362$ |

Edgar Filing: J\&J SNACK FOODS CORP - Form 10-Q

The mutual funds seek current income with an emphasis on maintaining low volatility and overall moderate duration. The unrealized losses of $\$ 400,000$ are spread over 4 funds with total fair market value of $\$ 12.6$ million. The Fixed-to-Floating Perpetual Preferred Stock generate fixed income to call dates in 2018, 2019 and 2025 and then income is based on a spread above LIBOR if the securities are not called. The mutual funds and Fixed-to-Floating Perpetual Preferred Stock do not have contractual maturities; however, we classify them as long term assets as it is our intent to hold them for a period of over one year, although we may sell some or all of them depending on presently unanticipated needs for liquidity or market conditions. The corporate bonds generate fixed income to maturity dates in 2017 through 2021, with $\$ 95$ million maturing within 3 years. Our expectation is that we will hold the corporate bonds to their maturity dates and redeem them at our amortized cost.

The amortized cost, unrealized gains and losses, and fair market values of our investment securities held to maturity at September 24, 2016 are summarized as follows:

The amortized cost, unrealized gains and losses, and fair market values of our investment securities available for sale at September 24, 2016 are summarized as follows:

|  | Gross | Gross <br> Amortized |  |
| :--- | :--- | :--- | :--- |
| Costealized <br> Gains <br> (in thousands) | Fair <br> Unrealized <br> Losses | Market <br> Value |  |
|  |  |  |  |

## Edgar Filing: J\&J SNACK FOODS CORP - Form 10-Q

Note On January 3, 2017 , we acquired Hill \& Valley Inc., a premium bakery located in Rock Island, IL., for
13 approximately $\$ 31$ million. Hill \& Valley, with sales of over $\$ 45$ million annually, is a manufacturer of a variety of pre-baked cakes, cookies, pies, muffins and other desserts to retail in-store bakeries. Hill \& Valley is a leading brand of Sugar Free and No Sugar Added pre-baked in-store bakery items. Additionally, Hill \& Valley sustains strategic private labeling partnerships with retailers nationwide.

# Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations 

## Liquidity and Capital Resources

Our current cash and cash equivalents balances and cash expected to be provided by future operations are our primary sources of liquidity. We believe that these sources, along with our borrowing capacity, are sufficient to fund future growth and expansion. See Note 11 to these financial statements for a discussion of our investment securities.

The Company's Board of Directors declared a regular quarterly cash dividend of $\$ .42$ per share of its common stock payable on January 11, 2017, to shareholders of record as of the close of business on December 21, 2016.

In our fiscal year ended September 24, 2016, we purchased and retired 141,700 shares of our common stock at a cost of $\$ 15,265,019$. We did not purchase any shares in the quarter ended December 24, 2016. On November 8, 2012 the Company's Board of Directors authorized the purchase and retirement of 500,000 shares of the Company's common stock; 47,775 shares remain to be purchased under this authorization.

In the three months ended December 24, 2016 and December 26, 2015 fluctuations in the valuation of the Mexican and Canadian currencies and the resulting translation of the net assets of our Mexican and Canadian subsidiaries caused an increase of $\$ 1,104,000$ in accumulated other comprehensive loss in the 2017 first quarter and an increase of $\$ 640,000$ in accumulated other comprehensive loss in the 2016 first quarter.

Our general-purpose bank credit line which expires in November 2021 provides for up to a $\$ 50,000,000$ revolving credit facility. The agreement contains restrictive covenants and requires commitment fees in accordance with standard banking practice. There were no outstanding balances under this facility at December 24, 2016.

Results of Operations

Net sales increased $\$ 2,720,000$ or $1 \%$ to $\$ 225,570,000$ for the three months ended December 24, 2016 compared to the three months ended December 26, 2015.

Edgar Filing: J\&J SNACK FOODS CORP - Form 10-Q

## FOOD SERVICE

Sales to food service customers increased $\$ 3,545,000$ or $2 \%$ in the first quarter to $\$ 150,297,000$. Soft pretzel sales to the food service market increased $7 \%$ to $\$ 41,494,000$ in the first quarter due primarily to higher sales to restaurant chains, convenience stores and school food service.

Frozen juices and ices sales for the quarter were down $10 \%$ to $\$ 7,479,000$ primarily because of lower sales to school food service and warehouse club stores. We expect sales to one school district, which accounted for roughly $1 / 2$ of the $10 \%$ sales decline, to resume in the second quarter. Churro sales to food service customers increased $4 \%$ to $\$ 14,438,000$ in the first quarter with sales increases and decreases throughout our customer base.

Sales of bakery products decreased $\$ 1,322,000$ or $2 \%$ in the first quarter to $\$ 75,279,000$ as sales decreases to three customers of about $\$ 5.5$ million were largely offset by increased sales to three other customers of about $\$ 3.8$ million. We expect sales to two customers whose sales were down $\$ 2.9$ million to level off or begin to increase in the second quarter.

Sales of handhelds increased $\$ 1,333,000$, or $22 \%$, with sales increases to four customers accounting for about $2 / 3$ of the increase. Sales of funnel cake products increased $\$ 1,147,000$, or $42 \%$, primarily due to increased sales to school food service.

Sales of new products in the first twelve months since their introduction were approximately $\$ 7$ million in this quarter. Price increases had a marginal impact on sales in the quarter and net volume increases, including new product sales as defined above, accounted for approximately $\$ 5$ million of sales in the quarter.

Operating income in our Food Service segment increased from $\$ 15,902,000$ to $\$ 17,054,000$ in the quarter. Operating income for the quarter increased primarily because of strong sales increases in soft pretzels, churros, funnel cake and handhelds as well as by improved operations and lower ingredient costs.

## RETAIL SUPERMARKETS

Sales of products to retail supermarkets increased $\$ 359,000$ or $2 \%$ to $\$ 21,619,000$ in the first quarter. Soft pretzel sales for the first quarter were up $2 \%$ to $\$ 8,944,000$ due primarily to the benefit of increased couponing. Sales of frozen juices and ices increased $\$ 787,000$ or $9 \%$ to $\$ 9,851,000$ in the first quarter with sales increases and decreases across our product lines. Coupon redemption costs, a reduction of sales, increased $119 \%$ or about $\$ 685,000$ for the quarter. Handheld sales to retail supermarket customers decreased $11 \%$ to $\$ 3,450,000$ in the quarter as sales of this product line continues its long term downward trend.

Sales of new products in the first twelve months since their introduction were approximately $\$ 500,000$ in this quarter. Price increases had a marginal impact on sales in the quarter and net volume changes, including new product sales as defined above and net of increased coupon costs, had essentially no impact on sales in the quarter. Operating income in our Retail Supermarkets segment decreased from $\$ 1,090,000$ to $\$ 1,046,000$ in the quarter primarily because of higher coupon and advertising expenses, but which were largely offset by the benefit of increased product sales.

## FROZEN BEVERAGES

Frozen beverage and related product sales decreased $2 \%$ to $\$ 53,654,000$ in the first quarter. Beverage related sales alone were up $1 \%$ in the quarter. Gallon sales were essentially the same as in last year's first quarter. Service revenue increased $2 \%$ to $\$ 18,091,000$ in the first quarter with sales increases and decreases throughout our customer base.

Sales of beverage machines, which tend to fluctuate from year to year while following no specific trend, were $\$ 1,693,000$ or $19 \%$ lower in the three month period compared to last year. The approximate number of company owned frozen beverage dispensers was 52,200 and 51,600 at December 24, 2016 and September 24, 2016, respectively. Operating income in our Frozen Beverage segment was $\$ 1,227,000$ in this year's quarter compared to $\$ 1,368,000$ last year. Overall lower sales were the main cause of the slight decrease in operating income.

## CONSOLIDATED

Gross profit as a percentage of sales improved to $29.21 \%$ in this year's three month period from $28.64 \%$ last year. The increase resulted from increased sales of other than bakery products in our food service business along with lower ingredient costs and improved operating efficiencies.

Total operating expenses increased $\$ 1,093,000$ in this quarter and as a percentage of sales increased from $20.4 \%$ to $20.6 \%$. Marketing expenses increased to $9.01 \%$ of sales from $8.81 \%$, distribution expenses decreased to $8.05 \%$ of sales from $8.19 \%$ and administrative expenses increased to $3.59 \%$ of sales from $3.45 \%$. Marketing expenses increased as a percent of sales primarily because of increased spending in our retail supermarket business.

Operating income increased $\$ 967,000$ or $5 \%$ to $\$ 19,327,000$ in the first quarter as a result of the aforementioned items.

Investment income increased by $\$ 67,000$ in the quarter as our holdings of marketable securities increased about $12 \%$ from a year ago.

The effective income tax rate has been estimated at $34 \%$ for this year's quarter and $33 \%$ for last year's quarter. We are estimating an effective income tax rate of approximately $35-1 / 2 \%$ for the year. Both years' quarter's rate benefited by an unusually high tax benefit on share based compensation. We expect such benefit as a percentage of taxable income to be lower for the remainder of this year.

Net earnings increased $\$ 562,000$ or $4 \%$ in the current three month period to $\$ 13,540,000$ as a result of the aforementioned items.

There are many factors which can impact our net earnings from year to year and in the long run, among which are the supply and cost of raw materials and labor, insurance costs, factors impacting sales as noted above, the continuing consolidation of our customers, our ability to manage our manufacturing, marketing and distribution activities, our ability to make and integrate acquisitions and changes in tax laws and interest rates.

Item

There has been no material change in the Company's assessment of its sensitivity to market risk since its presentation set forth, in item 7a. "Quantitative and Qualitative Disclosures About Market Risk," in its 2016 annual report on Form 10-K filed with the SEC.

Item Controls and Procedures
4.
The Chief Executive Officer and the Chief Financial Officer of the Company (its principal executive officer and principal financial officer, respectively) have concluded, based on their evaluation as of December 24, 2016, that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports filed or submitted by it under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and include controls and procedures designed to ensure that information required to be disclosed by the Company in such reports is accumulated and communicated to the Company's management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

There has been no change in the Company's internal control over financial reporting during the quarter ended December 24,2016 , that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
