Item Material Impairments.  
2.06

The Audit Committee of China Direct Industries, Inc.'s (the "Company") Board of Directors has approved management's recommendation to write down approximately \$11.8 million in certain marketable securities available for sale. These securities were determined to have had an "other-than-temporary" impairment in market value as of September 30, 2009. When a security has an unrealized loss in fair value that is deemed to be other-than-temporary, the Company reduces the book value of the security to its current market value, recognizing the decline as a realized loss in the income statement.

As of December 31, 2008 the Company reflected an unrealized loss of (\$12,365,502) for its marketable securities available for sale which includes stock and common stock purchase warrants. As of September 30, 2009 the Company's unrealized loss related to those same items decreased to (\$11,759,877) prior to the write down. There was no effect on shareholder equity as a result of this write down and the current book value of the Company's marketable securities available for sale now equals the market value of these securities as of close of trading on September 30, 2009.

As a result of management's update of the factors, assumptions and related analysis it uses to determine whether a decline in the value of its marketable securities is other than temporary as provided for under ASC 320, "Investments-Debt and Equity Securities", management determined that other-than-temporary impairment conditions existed on 5 of its 6 securities. In addition, management was unable to objectively determine that these securities would substantially recover in the near term. The Company does not anticipate that these impairment charges will result in future cash expenditures by the Company.

For an additional discussion, see Note 2 "Fair Value of Financial Instruments" and Note 3 "Marketable Securities" to the Notes to the Company's Consolidated Financial Statements included in its Annual Report on Form 10-K for the year ended December 31, 2008.

In addition, the Company also plans to take a charge-off of approximately \$1.0 million as of September 30, 2009 related to a loan and advances to one of its clients that it has determined is uncollectable.

Item Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers;  
5.02 Compensatory Arrangements of Certain Officers.

On November 17, 2009, the Board of Directors of the Company approved the award by its subsidiary, Excel Rise Technology Co., Ltd. ("Excel Rise") of a bonus to 6 senior managers in its Magnesium segment in the aggregate amount of \$1,300,000 (the "Bonus") in recognition of the performance of their magnesium operations. As part of the Bonus, Mr. Huang, the Company's Executive Vice President - Magnesium and a director was awarded \$480,000. The Bonus will be paid by Excel Rise from its assets.
