The Company is currently a development stage company and does not currently have any operations, and therefore no revenues.

Milestones

Our milestones and objectives over the next 12 months are significantly dependent on various factors which the Company may or may not be in control of, including, but not limited to: (a) obtaining adequate financing to sustain and expand our operations; (b) ability to identify suitable acquisition targets; (c) acquiring synergistic business operations to obtain revenue growth; (d) ability to develop new partnerships and distribution channels; (e) launching new marketing and sales strategies; (h) generating adequate cash flow from the sales of the products and services, once acquired, to sustain its operations.

Our plan of operations for the next twelve months is to complete the objectives described under the heading Management's Discussion and Analysis or Plan of Operations .

Capital & Uses of Proceeds

Capital Needs

To implement our plan of operations, we will need to continue to raise capital in an amount between \$500,000 to \$2.5 million in equity from restricted stock sales or other acceptable financing options over the remaining 6 months of year-ending 2013 on terms and conditions to be determined. Management may also elect to seek subsequent interim or bridge financing in the form of debt as may be necessary.

We anticipate the need to raise additional capital beyond the next 6 months of operations, subject to the successful implementation of our initial milestones over the last 180 days of operations of 2013 and our revenue growth cycle thereafter. At this time, management is unable to determine the specific amounts and terms of such future financings.

Proceeds

We foresee the proceeds from capital raised to be allocated as follows: (a) legal, audit, SEC filings and compliance fees; (b) working capital (general and administrative); (c) financing costs; (d) acquisition research and due diligence; (e) new business development and marketing; and (f) reserve capital for costs of acquisition and market expansion.

Competition

The Company conducts its business in an environment that is highly competitive and unpredictable. Competition may have considerable financial resources at their disposal, which could facilitate their access to the market under more favorable terms than the Company and could allow them faster market penetration.

Due to the Company's current position (seeking acquisition targets), the Company does not currently have any direct competitors at this time, however, this does not necessarily mean competition does not exist in terms of bidding for the same acquisition targets.

Employees

Currently, we have no employees in the Company, except for three (3) advisors which one of them is the sole Officer and Director of the Company. Each of the advisors spends on an average of forty percent (40%) of their available time on Company matters.

Other than engaging and/or retaining independent consultants to assist us in various administrative and marketing related needs, we do not anticipate a significant change in the number of our employees, if any, unless we are able to obtain adequate financing to complete one or more acquisitions. Currently, our officers / directors do not have any employment agreements with us.

Subsidiaries

We currently we do not have any operating subsidiaries.

Intellectual Property

We do not currently own any intellectual property.

Patents, Trademarks, and Copyrights

1. We would not be able to pay our debts as they become due in the usual course of business; or
2. Our total assets would be less than the sum of our total liabilities plus the amount that would be needed to satisfy the rights of shareholders who have preferential rights superior to those

Company Overview

Mount Knowledge Holdings, Inc. is a software development and sales company focused on providing innovative technology solutions to the global marketplace.

For more details on the Company and its operations, please refer to [History](#) and [Company Overview](#) sections in Item 1. Business section, hereinabove in this filing.

Plan of Operations

Over the 12-months of 2013, we must raise capital and complete certain milestones as described below.

Milestones

The Company anticipates identifying and completing one or more acquisitions and/or mergers over the next 6-12 months, beginning in the third quarter of 2013, for the purposes of obtaining operations and revenues.

Requirements and Utilization of Funds

To implement our plan of operations, including some or all of the above described milestones (objectives), we anticipate the need to continue to raise capital (equity) in an amount between \$500K and \$2.5 million in equity from restricted stock sales or other acceptable financing options over the remaining 6 months of 2013 on terms and conditions to be determined. Management may elect to seek subsequent interim or bridge financing in the form of debt (corporate loans) as may be necessary.

Proceed

We foresee the proceeds from capital raised to be allocated as follows: (a) legal, audit, SEC filings and compliance fees; (b) working capital (general and administrative); (c) financing costs; (d) acquisition research and due diligence; (e) new business development and marketing; and (f) reserve capital for costs of acquisition and market expansion.

Financial Condition, Liquidity and Capital Resources

As of December 31, 2011, we had \$ 67,882 cash and cash equivalents, including \$4,428 in assets held for sale. We had limited operations to date and we did not have any revenues during the twelve-month period ended December 31, 2011. We are illiquid and need cash infusions from investors and/or current shareholders to support our proposed marketing and sales operations.

Management believes this amount will not satisfy our cash requirements for the next 12 months and as such we will need to either raise additional proceeds and/or our officers and/or directors will need to make additional financial commitments to our company, neither of which is guaranteed. We plan to satisfy our future cash requirements, primarily the working capital required to execute on our objectives, including marketing and sales of our product, and to offset legal and accounting fees, through financial commitments from future debt/equity financings, if and when possible.

Management believes that we may generate some revenues within the next twelve (12) months, from acquisitions, but that these sales revenues may not satisfy our cash requirements during that period. We have no committed source for funds as of this date. No representation is made that any funds will be available when needed. In the event that funds cannot be raised when needed, we may not be able to carry out our business plan, may never achieve sales, and could fail to satisfy our future cash requirements as a result of these uncertainties.

If we are unsuccessful in raising the additional proceeds from officers and/or directors, we may then have to seek additional funds through debt financing, which would be extremely difficult for an early stage company to secure and may not be available to us. However, if such financing is available, we would likely have to pay additional costs associated with high-risk loans and be subject to above market interest rates.

At such time as these funds are required, management would evaluate the terms of such debt financing and determine whether the business could sustain operations and growth and manage the debt load. If we cannot raise additional proceeds via a private placement of our common stock or secure debt financing we would be required to cease business operations. As a result, investors in our common stock would lose all of their investment.

The staged development of our business will continue over the next 12 months. Other than engaging and/or retaining independent consultants to assist the Company in various administrative and marketing related needs, we do not anticipate a significant change in the number of our employees, if any, unless we are able to obtain adequate financing.

Our auditors have issued a going concern opinion. This means that there is substantial doubt that we can continue as an on-going business for the next 12 months unless we obtain additional capital to pay our expenses. This is because

we have not generated any revenues and no substantial revenues are anticipated in the near-term. Accordingly, we must raise cash from sources other than from the sale of our products.

Results of Operations

The following summary of our results of operations should be read in conjunction with our audited financial statements for the year ended December 31, 2011 which are included herein.

Our operating results for the years ended December 31, 2011 and 2010 are summarized as follows:

General and Administrative

The increase in our general and administrative expenses for the year ended December 31, 2011 compared to December 31, 2010 was primarily due to an increase in general operating expenses from acquisitions. For the purposes of this disclosure, general and administrative fees include the Company's professional fees.

Professional fees include our accounting and auditing expenses incurred in connection with the preparation and audit of our financial statements and professional fees that we pay to our legal counsel. Our accounting and auditing expenses were incurred in connection with the preparation of our audited financial statements and unaudited interim financial statements and our preparation and filing of a registration statement with the SEC. Our legal expenses represent amounts paid to legal counsel in connection with our corporate organization. Legal expenses will be ongoing during fiscal 2012 and 2013, respectively, as we are subject to the reporting obligations of the Securities Exchange Act of 1934, as amended.

We anticipate that we will incur approximately \$250,000 for operating expenses, including professional, legal and accounting expenses associated with our reporting requirements under the Exchange Act during the next twelve months. Accordingly, we will need to obtain additional financing in order to complete our business plan.

Cash Used in Operating Activities

We used net cash in operating activities in the amount of \$ 1,310,554 during the year ended December 31, 2011 and \$69,022 during the year ended December 31, 2010. Cash used in operating activities was funded by cash from financing activities.

Cash Used in Investing Activities

We used net cash in investing activities in the amount of \$49,772 during the year ended December 31, 2011 and \$58,881 was used or provided in investing activities during the years ended December 31, 2010.

Cash Provided by Financing Activities

We generated \$1,129,328 net cash from financing activities during the year ended December 31, 2011 compared to net cash from financing activities in the amount of \$155,286 during the year ended December 31, 2010. Cash generated by financing activities during 2011 is attributable mainly to capital stock sales, issued notes, and related party borrowings of \$1,129,328.

Disclosure of Outstanding Share Data

As of December 31, 2011, we had 112,113,133 shares of common stock issued and outstanding.

Going Concern

The financial statements accompanying this report have been prepared on a going concern basis, which implies that our company will continue to realize its assets and discharge its liabilities and commitments in the normal course of business. Our company has not generated revenues since inception and has never paid any dividends and is unlikely to pay dividends or generate earnings in the immediate or foreseeable future. The continuation of our company as a going concern is dependent upon the continued financial support from our shareholders, the ability of our company to obtain necessary equity financing to achieve our operating objectives, and the attainment of profitable operations.

As of December 31, 2011, we had accumulated losses of \$7,349,728 since inception and a working capital deficit of \$1,011,563. We do not have sufficient working capital to enable us to carry out our stated plan of operation for the next twelve months. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should our company be unable to continue as a going concern.

Due to the uncertainty of our ability to meet our current operating expenses and the capital expenses noted above in their report on the financial statements for the year ended December 31, 2011, our independent auditors included an explanatory paragraph regarding concerns about our ability to continue as a going concern. Our financial statements contain additional note disclosures describing the circumstances that lead to this disclosure by our independent auditors.

The continuation of our business is dependent upon us raising additional financial support. The issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current stockholders. Obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

Future Financings

We anticipate continuing to rely on equity sales of our common shares in order to continue to fund our business operations. Issuances of additional shares will result in dilution to our existing stockholders. There is no assurance that we will achieve any additional sales of our equity securities or arrange for debt or other financing to fund our planned

activities. There is no assurance that the Company will be able to obtain financing to carry on our legal, accounting and reporting needs.

Off-Balance Sheet Arrangements

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to stockholders.

Application of Critical Accounting Estimates

The financial statements of our company have been prepared in accordance with generally accepted accounting principles in the United States (GAAP). Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements for a period necessarily involves the use of estimates, which have been made using careful judgment.

The financial statements have been prepared within the framework of the significant accounting policies summarized below:

Mineral Property and Exploration Costs

Until abandonment of its mineral property on January 23, 2009, we were an exploration stage mining company and had not realized any revenue from its operations. We were primarily engaged in the acquisition, exploration and development of mining properties. Exploration costs are expensed as incurred regardless of the stage of development or existence of reserves.

Costs of acquisition are capitalized subject to impairment testing, in accordance with ASC Topic 360, Property, Plant and Equipment Subsequent Measurement , (formerly SFAS 144), when facts and circumstances indicate impairment may exist, as defined in Note 3, *Newly Adopted Accounting Policies And Recent Accounting Guidance*.

We regularly performed evaluations of any investment in mineral properties to assess the recoverability and/or the residual value of its investments in these assets. Also, long-lived assets were reviewed for impairment whenever events or circumstances change which indicate the carrying amount of an asset may not be recoverable.

Management periodically reviewed the carrying value of its investments in mineral leases and claims with internal and external mining related professionals. A decision to abandon, reduce or expand a specific project was based upon many factors including general and specific assessments of mineral deposits, anticipated future mineral prices, anticipated future costs of exploring, developing and operating a production mine, the expiration term and ongoing expenses of maintaining mineral properties and the general likelihood that the Company will continue exploration on such project.

The Company did not set a pre-determined holding period for properties with unproven deposits; however, properties which had not demonstrated suitable metal concentrations at the conclusion of each phase of an exploration program were re-evaluated to determine if future exploration was warranted, whether there has been any impairment in value

and that their carrying values was appropriate.

If an area of interest is abandoned or it is determined that its carrying value cannot be supported by future production or sale, the related costs are charged against operations in the year of abandonment or determination of value. The amounts recorded as mineral leases and claims represent costs to date and do not necessarily reflect present or future values.

Recent Accounting Pronouncements

We do not expect the adoption of any recently issued accounting pronouncements to have a significant impact on our financial position, results of operations or cash flows.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

Not applicable because we are a smaller reporting company.

**MOUNT KNOWLEDGE HOLDINGS, INC.
(A Development Stage Company)**

**CONSOLIDATED FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2011 AND 2010**

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
Mount Knowledge Holdings, Inc.
New York, New York

We have audited the accompanying consolidated balance sheets of Mount Knowledge Holdings, Inc. and its Subsidiaries (the Successor Company or the Company) as of December 31, 2011 and December 31, 2010, and the related consolidated statements of operations and comprehensive income, stockholders' deficit, and cash flows for the year ended December 31, 2011 and for the one day period from December 30, 2010 to December 31, 2010 for the Successor Company, and the accompanying consolidated statements of operations and comprehensive income, stockholders' deficit, and cash flows of Language Key Asia Ltd. and its Subsidiaries (the Predecessor Company or the Company) for the period from January 1, 2010 through December 30, 2010. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits include consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the accompanying financial statements of the Company present fairly, in all material respects, the consolidated financial position of the Successor Company as of December 31, 2011 and December 31, 2010, and the consolidated results of their operations and their cash flows for the year ended December 31, 2011 and for the one day period from December 30, 2010 to December 31, 2010, and the consolidated results of the Predecessor Company's operations and their cash flows for the period from January 1, 2010 through December 30, 2010 in conformity with accounting principles generally accepted in the United States.

The accompanying financial statements have been prepared assuming that the Successor Company will continue as a going concern. As discussed in Note 2 to the consolidated financial statements, the Company suffered losses from operations and has a working capital deficiency, which raises substantial doubt about its ability to continue as a going concern. Management's plans regarding those matters also are described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Basis of Presentation

On December 31, 2010, the Company changed its fiscal year end from October 31 to December 31.

The consolidated financial statements as of and for the year ended December 31, 2011 reflect all adjustments, which in the opinion of management, are necessary to fairly state the Company's financial position and the results of its operations for the periods presented.

The accompanying consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (US GAAP). The Company's functional currency is US dollar. The LK Group's functional currencies are the Chinese Renminbi (RMB¥) and Hong Kong dollar (HKD\$); however the accompanying consolidated financial statements have been translated and presented in United States Dollars (USD\$).

The financial statements have, in management's opinion, been properly prepared within reasonable limits of materiality and within the framework of the significant accounting policies summarized below:

Consolidation

The accompanying consolidated financial statements include the accounts of the Company and its subsidiaries. Intercompany balances and transactions have been eliminated in preparing the accompanying consolidated financial statements.

Language Key Asia Ltd. is deemed as the Predecessor and Mount Knowledge Holdings, Inc. is the Successor for the purpose of financial reporting in accordance with SEC rules.

Use of Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of

contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting year. Because of the use of estimates inherent in the financial reporting process, actual results may differ from the estimates.

Assets Held for Sale

The Company considers assets to be assets held for sale when all of the following criteria are met:

- .
management commits to a plan to sell the assets;
- .
it is unlikely that the disposal plan will be significantly modified or discontinued;
- .
the assets are available for immediate sale in their present condition;
- .
actions required to complete the sale of the property have been initiated;
- .
sale of the property is probable and the completed sale is expected to occur within one year; and
- .
the assets are actively being marketed for sale at a price that is reasonable given its current market value.

Upon designation as an asset held for sale, the Company records the carrying value of each disposal group at the lower of its carrying value or its estimated fair value, less estimated costs to sell, and we cease depreciation.

Financial Instruments and Concentration of Risk

The fair value of financial instruments, which consist of cash, accounts payable and accrued liabilities and loans payable, were estimated to approximate their carrying values due to the immediate or relatively short maturity of these instruments. Unless otherwise noted, it is management's opinion that this Company is not exposed to significant interest or credit risks arising from these financial instruments.

Basic and Diluted Loss per Share

In accordance with the Accounting Standards Codification (ASC) subtopic 260-10 (formerly SFAS No. 128 Earnings Per Share), the basic loss per common share is computed by dividing net loss available to common stockholders by the weighted average number of common shares outstanding. Diluted loss per common share is computed similar to basic loss per common share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. At December 31, 2011 and 2010, the Company had no stock equivalents that were anti-dilutive and excluded in the earnings per share computation.

Foreign Currency Translation

Mount Knowledge Holdings, Inc.'s functional currency is the U.S. dollar.

While Language Key Asia Ltd. presents its consolidated financial results and accompanying notes in U.S. dollar terms, its functional currency for its operations in The People's Republic of China (PRC) is the Chinese Renminbi, and its functional currency for its operations in Hong Kong is the Hong Kong dollar.

Transactions in Renminbi and Hong Kong dollars are translated into U.S. dollars as follows:

- i) monetary items at the exchange rate prevailing at the balance sheet date;
- ii) non-monetary items at the historical exchange rate;
- iii) revenue and expense at the average rate in effect during the applicable accounting period.

Translation adjustments resulting from this process are recorded in Stockholders' Equity as a component of Accumulated Other Comprehensive Income (Loss). Gains and losses arising on translation or settlement of foreign currency denominated transactions or balances are recorded in the Statement of Operations.

The exchange rates used for foreign currency translation were as follows (USD\$1 = RMB):

<u>Period Covered</u>	<u>Balance Sheet Date Rates</u>	<u>Average Rates</u>
Year ended December 31, 2011	6.3654	6.4725
Year ended December 31, 2010	6.6120	6.7595

The exchange rates used for foreign currency translation were as follows (USD\$1 = HKD):

<u>Period Covered</u>	<u>Balance Sheet Date Rates</u>	<u>Average Rates</u>
Year ended December 31, 2011	7.8000	7.8000
Year ended December 31, 2010	7.8000	7.8000

Cash and Cash Equivalents

Cash is comprised of cash on hand and demand deposits. Cash equivalents include short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

Accounts Receivable

The Company records an Account Receivable when it issues an invoice for a particular training contract. Accounts Receivable is reduced by the collection of payments from clients for such invoices. Invoices issued prior to the start of a training course, and therefore in advance of the recognition of any revenue associated with that training course, are classified on the Company's balance sheet as Deferred Revenues. The Company currently does not maintain an Allowance for Doubtful Accounts due to its good collections history with its clients.

Property and Equipment

Property and equipment are stated at historical cost less accumulated depreciation. Depreciation on property and equipment is calculated on the straight-line method over the estimated useful lives of the assets as set out below:

	Residual Value	Estimated Useful Life
Office furniture and equipment	5%	5 years
Vehicles	5%	5 years

Investment in Unconsolidated Subsidiary

The Company has investments in certain subsidiary of which the Company does not have a majority-ownership interest that do not require consolidation. The investment is accounted for under the equity method.

Income Taxes

The Company has adopted the ASC subtopic 740-10. ASC 740-10 requires the use of the asset and liability method of accounting of income taxes. Under the asset and liability method of ASC 740-10, deferred tax assets and liabilities are recognized for the future tax consequences attributable to temporary differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

The Company provides deferred taxes for the estimated future tax effects attributable to temporary differences and carry forwards when realization is more likely than not. If it is more likely than not that some portion or all of a deferred tax asset will not be realized, a valuation allowance is recognized.

Goodwill

Goodwill represents the excess of purchase price and the estimated fair value of the identifiable assets acquired and liabilities assumed. In accordance with ASC 350, *Intangibles – Goodwill and Other*, goodwill is reviewed for impairment annually in the fourth quarter of each of its fiscal year or more frequently if facts and circumstances warrant a review. The provisions of ASC 350 require that a two-step test be performed to assess goodwill for impairment. First, the fair value of each reporting unit is compared to its carrying value. If the fair value exceeds the carrying value, goodwill is not impaired and no further testing is performed. The second step is performed if the carrying value exceeds the fair value. The implied fair value of the reporting unit's goodwill must be determined and compared to the carrying value of the goodwill. If the carrying value of a reporting unit's goodwill exceeds its implied fair value, an impairment loss equal to the difference will be recorded.

Comprehensive Income

The Company has adopted ASC220, *Reporting Comprehensive Income*, which establishes standards for reporting and displaying comprehensive income, its components, and accumulated balances in a full-set of general-purpose financial statements. The Company's accumulated other comprehensive income represents the accumulated balance of foreign currency translation adjustments.

Share-based Payments

The Company accounts for share-based payments in accordance with the authoritative guidance issued by the FASB on stock compensation, which establishes the accounting for transactions in which an entity exchanges its equity instruments for goods or services. Under the provisions of the authoritative guidance, share-based compensation expense is measured at the grant date, based on the fair value of the award, and is recognized as an expense over the requisite employee service period (generally the vesting period). The Company estimates the fair value of share-based payments using the Black-Scholes option-pricing model. Additionally, share-based awards to non-employees are expensed over the period in which the related services are rendered at their fair value.

Revenue Recognition

The Company and its subsidiaries recognize revenues from training sales equally over the duration of training contracts. Revenues recognized for training courses that commence prior to an invoice being issued are classified on the Company's balance sheet as unbilled revenues.

Related parties

A party is considered to be related to the Company if the party directly or indirectly or through one or more intermediaries, controls, is controlled by, or is under common control with the Company. Related parties also include principal owners of the Company, its management, members of the immediate families of principal owners of the Company and its management and other parties with which the Company may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests. A party which can significantly influence the management or operating policies of the transacting parties or if it has an ownership interest in one of the transacting parties and can significantly influence the other to an extent that one or more of the transacting parties might be prevented from fully pursuing its own separate interests is also a related party.

Recently Issued Accounting Pronouncements

The Company does not expect the adoption of any recently issued accounting pronouncements to have a significant impact on its financial position, results of operations or cash flows.

Reclassifications

Certain amounts in the consolidated financial statements for the prior year have been reclassified to conform to the presentation of the current period for the comparative purposes.

NOTE 2 - GOING CONCERN

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern. As shown in the accompanying financial statements, the Company incurred net loss of \$3,372,464 for the year ended December 31, 2011. In addition, the Company had a working capital deficit of \$1,011,563 and accumulated deficit of 7,349,728 as of December 31, 2011. These conditions raise substantial doubt as to the Company's ability to continue as a going concern.

The ability of the Company to continue as a going concern is dependent upon its ability to obtain financing and become successful in marketing products under the license agreement described above. Management has plans to seek additional capital through debt, and private and public offerings of its common stock. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts of and classification of liabilities that might be necessary in the event the Company cannot continue in existence.

NOTE 3 ACQUISITIONS

(a)

Language Key Asia Ltd. (LKA)

On December 31, 2010, MKHD announced an agreement on the terms of the acquisition of all of the Ordinary A stock of LKA, being 325,710 shares, by Mount Knowledge Asia Ltd. for cash of \$66,960 and 1,800,000 common shares of MKHD at a fair value of \$0.20 per share, based on the closing price of MKHD's common stock at December 31, 2010.

The acquisition valued the entire issued share capital of LKA at \$426,960. As a result of the acquisition, LKA became a wholly owned subsidiary of MKA. The Acquisition closed on December 31, 2010.

The acquisition of LKA was accounted for as a business combination under ASC 805, *Business Combinations*, using the acquisition method. Accordingly, the results of LKA have been included in the Company's consolidated financial statements since the date of acquisition. The components of the consideration paid are shown below.

The purchase price of \$426,960 was allocated based upon the fair value of the assets acquired and liabilities assumed at the date of acquisition using available information and certain assumptions management believed reasonable. The following table summarizes the allocation of the purchase price:

Assets Acquired	
Cash	\$ 246,089
Accounts receivable	199,287
Unbilled revenue	188,785
Due from related parties	41,907
Other current assets	25,475
Property, equipment and other assets	67,304
	768,847
Liabilities Assumed	
Deferred revenue	(203,970)
Accrued liabilities	(32,910)
Due to related parties	(233,697)

Other current liabilities	(246,602)
	(717,179)
Net Assets acquired	51,668
Consideration paid	
Cash	66,960
1,800,000 common shares @ fair value of \$0.20	360,000
	426,960
Goodwill Acquired	375,292

The acquisition resulted in allocations of the purchase price to goodwill of \$375,292. Goodwill represents the excess of the purchase price over the net identifiable tangible and intangible assets acquired. The Company determined that the acquisition of LKA resulted in the recognition of goodwill primarily because the acquisition is expected to help LKA to reach critical mass and shorten the timeframe to its long term financial and strategic objectives through geographic and training product expansion, as well as through the development, launch, and ongoing support of ECO-Learning.

The goodwill is subject to review for impairment as indicators of impairment develop and otherwise at least annually.

The Company assumed certain liabilities in the acquisition including deferred revenue that was ascribed a fair value of \$203,970 using a cost-plus profit approach. The Company is amortizing deferred revenue over the remaining term of the contracts, which reflects the estimated period to satisfy these contract obligations.

NOTE 8 GOODWILL

The carrying value of Goodwill as of December 31, 2010 is \$375,292, which is included in assets held for sale balance (see Note 9). This amount represents the excess of the purchase price of acquisition of Language Key Asia Ltd. over the fair value of the identifiable assets acquired and liabilities assumed. The Company evaluates its goodwill for impairment on an annual basis, or whenever events or changes in circumstances indicate that the carrying value of a reporting unit may exceed its fair value.

During the fourth quarter in 2011, the Company sold Language Key Asia Ltd. (LKA) and all of its subsidiaries (the LK Subsidiaries), except for The Language Key Training Ltd. (LKTR) to Software Sans Frontiere SA, a Belize corporation, for consideration representing the assumption of all of the liabilities of LKA and all of the LK Subsidiaries. The Company's management made the decision to sell LKA and the LK Subsidiaries due to ongoing losses and failed restructuring efforts as a result of the lack of available financing for Hong Kong and China based educational companies.

In connection with the sale, management also considered the possible impairment related to goodwill related to Language Key Asia Ltd. Because quoted market prices for the Company's reporting units are not available, management applied judgment in determining the estimated fair value of these reporting units for purposes of performing the goodwill impairment test. Management used all available information to make these fair value determinations, including the present values of expected future cash flows using discount rates commensurate with the risks involved in the assets. Based on management's analysis, the Company concluded that a non-cash impairment of the entire amount of recorded goodwill for the Language Key Asia Ltd. was required. This impairment loss of \$375,292 was included in Discontinued operations for the year ended December 31, 2011.

NOTE 9 DISCONTINUED OPERATIONS

The deferred tax liabilities and assets are measured at the tax rates that are expected to apply to the period when the asset is recovered or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the end of the reporting period. Deferred tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences, tax losses and credits can be utilized.

We had no changes in or disagreements with accountants on accounting and financial disclosure in 2011 or 2010.

Item 9A. Controls and Procedures.

Management's evaluation of disclosure controls and procedures

As required under the *Exchange Act*, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures, as of the end of the period covered by this report, being December 31, 2011. We are responsible for establishing and maintaining adequate internal controls and procedures for the financial reporting of our company. Disclosure control and procedures are the controls and other procedures that are designed to ensure that we record, process, summarize and report in a timely manner the information that we must disclose in reports that we file with or submit to the SEC. Our management has concluded, based on their evaluation, that as of December 31, 2011, as the result of the material weaknesses described below, our disclosure controls and procedures were ineffective in providing reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes.

Management's report on internal control over financial reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with US GAAP. Management has concluded that there are material weaknesses in both the design and operation of the Company's internal controls and procedures for financial reporting. A material weakness, as defined by SEC rules, is a control deficiency, or combination of control deficiencies, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis. The material weaknesses in internal control over financial reporting that were identified include:

- i. there is a lack of adequate segregation of duties in our accounting and financial reporting functions;
- ii.

there is a lack of entity wide controls, including no audit committee, and a failure to maintain formalized accounting policies and procedures;

- iii. senior management has not established and maintained a proper tone as to internal control over financial reporting;
- iv. there may be a lack of sufficient controls relating to user access security levels in our accounting software to restrict access to certain financial applications only to employees requiring access to complete their job functions.

As a result of the existence of these material weaknesses as of December 31, 2011, management has concluded that we did not maintain effective internal control over financial reporting as of December 31, 2011.

While we believe our financial statements included in this Annual Report present fairly, in all material respects, our financial condition, results of operations and cash flows for the periods presented, as a result of the material weaknesses in our internal control over financial reporting, there is a reasonable possibility that material misstatements of the financial statements including disclosures will not be prevented or detected on a timely basis.

This Annual Report does not include an attestation report of the company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the company to provide only management's report in this annual report.

Remediation

We will engage an independent accounting firm to advise us in respect of our internal controls over financial reporting, and to provide accounting counsel on various matters relating thereto. We will continue to implement further improvements to our internal controls as they are identified. We will use the criteria and framework set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in the publication *Internal Control-Integrated Framework*, an integrated framework for the evaluation of internal controls, for the evaluation of our internal controls in the future. Senior management will continue to consult with external experts to assist with the accounting for complex and non-routine accounting transactions.

Changes to Internal Controls and Procedures Over Financial Reporting

There have been no changes in our internal control over financial reporting during our fiscal year that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting, except as discussed herein.

Other than engaging and/or retaining independent consultants to assist us in various administrative and marketing related needs, we do not anticipate a significant change in the number of our employees, if any, unless we are able to obtain adequate financing. Currently, our officers / directors do not have any employment agreements with us.

Significant Employees

We have no significant employees other than the director and officer described above.

Family Relationships

There are no family relationships among our directors or officers.

Involvement in Certain Legal Proceedings

To the best of our knowledge, none of our directors or executive officers has, during the past ten years:

been convicted in a criminal proceeding or been subject to a pending criminal proceeding (excluding traffic violations and other minor offenses);
had any bankruptcy petition filed by or against the business or property of the person, or of any partnership, corporation or business association of which he was a general partner or executive officer, either at the time of the bankruptcy filing or within two years prior to that time;
been subject to any order, judgment, or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction or federal or state authority, permanently or temporarily enjoining, barring, suspending or otherwise limiting, his involvement in any type of business, securities, futures, commodities, investment, banking, savings and loan, or insurance activities, or to be associated with persons engaged in any such activity;

been the subject of, or a party to, any federal or state judicial or administrative order, judgment, decree, or finding, not subsequently reversed, suspended or vacated (not including any settlement of a civil proceeding among private litigants), relating to an alleged violation of any federal or state securities or commodities law or regulation, any law or regulation respecting financial institutions or insurance companies including, but not limited to, a temporary or permanent injunction, order of disgorgement or restitution, civil money penalty or temporary or permanent cease-and-desist order, or removal or prohibition order, or any law or regulation prohibiting mail or wire fraud or fraud in connection with any business entity; or

Except as set forth in our discussion below in *Certain Relationships and Related Transactions*, none of our directors or executive officers has been involved in any transactions with us or any of our directors, executive officers, affiliates or associates which are required to be disclosed pursuant to the rules and regulations of the Commission.

Audit Committee

For the year ended December 31, 2011, the Company did not have an audit committee. However, the Company intends to establish a new and independent auditing committee consisting of a minimum of three members in accordance with a new corporate governance policy to be adopted by the Company in 2012 in order to comply with the rules and regulations of the Sarbanes-Oxley Act of 2002.

Audit Committee Financial Expert

Our board of directors has determined that it does not have an audit committee member that qualifies as an audit committee financial expert as defined in Item 407(d)(5)(ii) of Regulation S-K. We believe that the audit committee to be formed will have members capable of collectively analyzing and evaluating our financial statements and understanding internal controls and procedures for financial reporting. In addition, we believe that retaining an independent director who would qualify as an audit committee financial expert would be overly costly and burdensome and is not warranted in our circumstances given the early stages of our development and the fact that we have not generated revenues to date.

Code of Ethics

We adopted a Code of Ethics applicable to all of our directors, officers, employees and consultants, which is a "code of ethics" as defined by applicable rules of the SEC. Our Code of Ethics is attached as an exhibit to our annual report on Form 10-KSB filed on February 13, 2008. If we make any amendments to our Code of Ethics other than technical, administrative, or other non-substantive amendments, or grant any waivers, including implicit waivers, from a provision of our Code of Ethics to our chief executive officer, chief financial officer, or certain other finance executives, we will disclose the nature of the amendment or waiver, its effective date and to whom it applies in a Current Report on Form 8-K filed with the SEC.

Section 16(a) Beneficial Ownership Compliance

Section 16(a) of the Exchange Act requires our executive officers and directors and persons who own more than 10% of a registered class of our equity securities to file with the SEC initial statements of beneficial ownership, reports of changes in ownership and annual reports concerning their ownership of our common stock and other equity securities, on Forms 3, 4 and 5 respectively. Executive officers, directors and greater than 10% shareholders are required by the SEC regulations to furnish us with copies of all Section 16(a) reports that they file.

Based solely on our review of the copies of such forms received by us, or written representations from certain reporting persons, we believe that all filing requirements applicable to our officers, directors and greater than ten percent beneficial owners were complied with.

Director Independence

Our common stock is quoted on the OTC bulletin board interdealer quotation system, which does not have director independence requirements. Under NASDAQ rule 4200(a)(15), a director is not considered to be independent if he or she is also an executive officer or employee of the corporation. Our sole director, James D. Beatty, whom succeeded Daniel A. Carr on March 30, 2012, is also our chief executive officer, president and treasurer. As a result, we do not have any independent directors.

As a result of our limited operating history and limited resources, our management believes that we will have difficulty in attracting independent directors. In addition, we would be likely be required to obtain directors and officers insurance coverage in order to attract and retain independent directors. Our management believes that the costs associated with maintaining such insurance is prohibitive at this time.

Transactions with Independent Directors

Our sole director, James D. Beatty, is also our chief executive officer, president and treasurer. As a result, we do not have any independent directors.

Board of Directors

Our board of directors currently acts with one member consisting of James D. Beatty. We have determined that Mr. Beatty is not independent as that term is defined in National Instrument 52-110 due to the fact that they were all directors and officers.

Our board of directors facilitates its exercise of independent supervision over management by endorsing the guidelines for responsibilities of the board as set out by regulatory authorities on corporate governance in the United States. Our board's primary responsibilities are to supervise the management of our company, to establish an appropriate corporate governance system, and to set a tone of high professional and ethical standards.

The board is also responsible for:

- selecting and assessing members of the Board;

- choosing, assessing and compensating the Chief Executive Officer of our company, approving the compensation of all executive officers and ensuring that an orderly management succession plan exists;

- reviewing and approving our company's strategic plan, operating plan, capital budget and financial goals, and reviewing its performance against those plans;

- adopting a code of conduct and a disclosure policy for our company, and monitoring performance against those policies;

- ensuring the integrity of our company's internal control and management information systems;

- approving any major changes to our company's capital structure, including significant investments or financing arrangements; and

· reviewing and approving any other issues which, in the view of the Board or management, may require Board scrutiny.

Orientation and Continuing Education

We have an informal process to orient and educate new recruits to the board regarding their role of the board, our committees and our directors, as well as the nature and operations of our business. This process provides for an orientation with key members of the management staff, and further provides access to materials necessary to inform them of the information required to carry out their responsibilities as a board member. This information includes the most recent board approved budget, the most recent annual report, the audited financial statements and copies of the interim quarterly financial statements.

The board does not provide continuing education for its directors. Each director is responsible to maintain the skills and knowledge necessary to meet his or her obligations as directors.

Nomination of Directors

The board is responsible for identifying new director nominees. In identifying candidates for membership on the board, the board takes into account all factors it considers appropriate, which may include strength of character, mature judgment, career specialization, relevant technical skills, diversity and the extent to which the candidate would fill a present need on the board. As part of the process, the board, together with management, is responsible for conducting background searches, and is empowered to retain search firms to assist in the nominations process. Once candidates have gone through a screening process and met with a number of the existing directors, they are formally put forward as nominees for approval by the board.

Assessments

The board intends that individual director assessments be conducted by other directors, taking into account each director's contributions at board meetings, service on committees, experience base, and their general ability to contribute to one or more of our company's major needs. However, due to our stage of development and our need to deal with other urgent priorities, the board has not yet implemented such a process of assessment.

Item 14. Principal Accountant Fees and Services.**Audit fees**

The aggregate fees billed for the two most recently completed fiscal periods ended December 31, 2011 and December 31, 2010 for professional services rendered MaloneBailey LLP, Chartered Accountants for the audit of our annual consolidated financial statements, quarterly reviews of our interim consolidated financial statements and services normally provided by the independent accountant in connection with statutory and regulatory filings or engagements for these fiscal periods were as follows:

Audit Fees and Audit Related Fees	50,000	120,000
Tax Fees	-	-
All Other Fees	-	-
Total	50,000	120,000

In the above table, audit fees are fees billed by our company's external auditor for services provided in auditing our company's annual financial statements for the subject year. Audit-related fees are fees not included in audit fees that are billed by the auditor for assurance and related services that are reasonably related to the performance of the audit review of our company's financial statements. Tax fees are fees billed by the auditor for professional services rendered for tax compliance, tax advice and tax planning. All other fees are fees billed by the auditor for products and services not included in the foregoing categories.

Policy on Pre-Approval by Audit Committee of Services Performed by Independent Auditors

The board of directors pre-approves all services provided by our independent auditors. All of the above services and fees were reviewed and approved by the board of directors either before or after the respective services were rendered.

The board of directors has considered the nature and amount of fees billed by Malone Bailey LLP and believes that the provision of services for activities unrelated to the audit is compatible with maintaining Malone Bailey LLP.
