Item 1.01. Entry into a Material Definitive Agreement.

On March 13, 2017, Sprague Operating Resources LLC ("Sprague"), a wholly owned subsidiary of Sprague Resources LP ("Sprague Resources"), entered into an Asset Purchase Agreement (the "Agreement") with Carbo Industries, Inc. ("Carbo Industries"), Carbo Realty, LLC, and Paul Hochhauser (collectively, "Carbo") to acquire Carbo's Inwood and Lawrence, New York refined product terminal assets (the "Purchased Assets"). Terms used but not otherwise defined herein are used as defined in the Asset Purchase Agreement. On March 13, 2017, Sprague Resources and Carbo Industries also entered into a Unit Purchase Agreement (the "Unit Purchase Agreement") relating to the issuance of common units of Sprague Resources in connection with the transactions contemplated by the Agreement, as described in greater detail below.

The aggregate purchase price for the Purchased Assets will be (i) \$70,000,000, plus (ii) the Seller Petroleum Products Inventory Amount, plus (iii) the Buyer Employee Obligations, plus (iv) the assumption of the Assumed Liabilities, plus (v) the Bonus Units. Subject to the terms of the Agreement, \$38,184,000 will be paid in 120 equal monthly installments over a period of ten years following the Closing Date. In partial payment of the purchase price, Sprague Resources will issue common units to Carbo Industries having a value equal to \$30,000,000 pursuant to the terms of the Unit Purchase Agreement. The price at which the common units will be issued, and the number of common units that will be issued, will be based on the volume weighted average closing price for the common units on the New York Stock Exchange for the ten trading days ending on the date of the announcement of the execution of the Agreement and the ten trading days following the announcement of the execution of the Agreement. Sprague Resources will also issue an additional number of common units equal to 1.5% of the number of common units determined in accordance with the immediately preceding sentence. The purchase price shall be subject to adjustment pursuant to the terms of the Agreement.

Each of the parties has agreed to certain customary representations, warranties and covenants in the Agreement. The consummation of the transaction is subject to the satisfaction or waiver of customary conditions, as set forth in the Agreement, including, among other things, receipt of third party and any applicable regulatory approvals.

The Agreement may be terminated at any time prior to the Closing under a number of conditions that include, but are not limited to, the following: (i) by mutual written agreement of the parties; (ii) by Sprague if there has been a breach, inaccuracy in or failure to perform any representation, warranty, covenant or agreement made by Carbo that would give rise to the failure of certain closing conditions; (iii) by Carbo if there has been a breach, inaccuracy in or failure to perform any representation, warranty, covenant or agreement made by Sprague that would give rise to the failure of certain closing conditions; (iv) by either party if the Closing has not occurred before May 15, 2017, unless such failure was due to the terminating party's failure to perform or comply with any of the covenants, agreements or conditions required by the Agreement; or (v) by either party if the transactions contemplated by the Agreement become illegal or are prohibited by law.

A copy of the Agreement is attached hereto as Exhibit 2.1, a copy of the Unit Purchase Agreement is attached hereto as Exhibit 10.1 and a copy of the press release of Sprague Resources regarding such agreements is attached hereto as Exhibit 99.1. Each of the foregoing exhibits is incorporated herein by reference. The descriptions of the Agreement and the Unit Purchase Agreement contained in this Current Report on Form 8-K are qualified in their entirety by reference to the full text of the Agreement and the Unit Purchase Agreement.

The Agreement and the Unit Purchase Agreement have been included to provide security holders with information regarding their terms. These agreements are not intended to provide any other factual information about the parties thereto. The representations, warranties and covenants contained in such agreements were made solely for purposes of such agreements and as of specific dates, are solely for the benefit of the parties to such agreements, and may be subject to limitations agreed upon by the contracting parties, including being qualified by confidential disclosures made for the purposes of allocating contractual risk between the parties to such agreements instead of establishing these matters as facts, and may be subject to standards of materiality applicable to the contracting parties that differ from those applicable to security holders. Security holders are not third-party beneficiaries under such agreements and should not rely on the representations, warranties and covenants or any descriptions thereof as characterizations of the actual state of facts or condition of the parties thereto. Moreover, information concerning the subject matter of the representations and warranties may change after the date of such agreements which subsequent information may or may not be fully reflected in Sprague Resources LP's public disclosures.

**Item 3.02 Unregistered Sale of Equity Securities.**

The description of the Unit Purchase Agreement set forth in Item 1.01 above is incorporated herein by reference. The Unit Purchase Agreement was entered into on March 13, 2017. Sprague Resources will be obligated to issue common units to Carbo Industries having a value of \$30,000,000 pursuant to the terms of the Unit Purchase Agreement. The exact number of common units to be issued has not yet been determined, but will be equal to \$30,000,000 divided by the volume weighted average closing price for the common units on the New York Stock Exchange for the ten trading days ending on the date of announcement of the execution of the Agreement and the ten trading days following the announcement of the execution of the Agreement. Sprague Resources will also issue an additional number of common units equal to 1.5% of the number of common units determined in accordance with the immediately preceding sentence. The common units are being issued as partial payment for the purchase price for the assets to be acquired by Sprague pursuant to the terms of the Agreement. The common units will be issued pursuant to the exemption set forth in Section 4(a)(2) of the Securities Act of 1933, as amended, and/or Rule 506 of Regulation D promulgated thereunder, based upon the investment representations made by Carbo Industries in the Unit Purchase Agreement, including its representation that it is an "accredited investor" within the meaning of Rule 501(a) of Regulation D and will be acquiring the common units for its own account and not with a view toward any distribution in violation of any securities laws.
